AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

INFORMATION AND ASSISTANCE

Army Medical Research Institute of Infectious Diseases et al 30667
Children's Hospital Medical Center 30665
Lehigh University et al 30696
Ohio State University, College of Pharmacy 30666

DRUG ENFORCEMENT ADMINISTRATION
Notices
Registration applications, etc.; controlled substances:
Collier, David I., D.O 30696
Greco, Joseph A., M.D 30696

EDUCATION OFFICE
Notices
Applications and proposals, closing dates:
Handicapped media services and captioned films 30688

ELECTRONIC FUND TRANSFERS, NATIONAL COMMISSION
Notices
Meetings 30696

ENVIRONMENTAL PROTECTION AGENCY
Proposed Rules
Air quality implementation plans; various States, etc.:
Arizona 30648
Notices
Meetings:
FIFRA Scientific Advisory Panel; cancelled 30670

FEDERAL AVIATION ADMINISTRATION
Rules
Airworthiness directives:
Hawker Siddeley 30603
Hiller 30604
Lockheed-California 30604
Piper 30605
Airworthiness standards; air traffic operating and flight rules:
Shoulder harnesses; installation in small airplanes 30601
Area high routes 30611
Control zones 30609
Jet routes 30611
Transition areas (3 documents) 30607–30609
VOR Federal airways (7 documents) 30606–30610
Proposed Rules
Airport security; criminal violence and aircraft piracy protection, etc 30765

Airspace, navigable, objects affecting 30643
Control zones and transition areas 30639
Restricted areas 30642
Transition areas (4 documents) 30638, 30640–30642
VOR Federal airways (2 documents) 30638, 30639
Notices
Air traffic control towers:
Anderson, S.C.; reduction of hours 30709
Martha's Vineyard, Mass.; commissioning 30708
Rocky Mount, N.C.; reduction of hours 30709
Tuscaloosa, Ala.; reduction of hours 30709
Valdosta, Ga.; reduction of hours 30709

List of Public Laws

This is a continuing listing of public bills that have become law, the text of which is not published in the FEDERAL REGISTER. Copies of the laws in individual pamphlet form (referred to as "slip laws") may be obtained from the U.S. Government Printing Office.

H.R. 5306 ..... Pub. L. 95–42
To amend the Land and Water Conservation Fund Act of 1965, and for other purposes. (June 10, 1977; 91 Stat. 210) Price: $.35

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER I—AGRICULTURAL MARKETING SERVICE,[1] DEPARTMENT OF AGRICULTURE

PART 68—REGULATIONS AND STANDARDS FOR INSPECTION AND CERTIFICATION OF CERTAIN AGRICULTURAL COMMODITIES AND PRODUCTS THEREOF

Fees for Federal Rice Inspection Services

AGENCY: Federal Grain Inspection Service (FGIS), USDA.

ACTION: Final rule.

SUMMARY: This rule reduces the fees for Federal rice inspection services. Rice inspection services are made available only upon request of an applicant. The revenue received from fees in recent months has exceeded the cost of providing the service, due, in part, to an increase in the volume of inspection and better utilization of inspection personnel. This action permits fees to equal, as nearly as possible, the cost of providing the service.

EFFECTIVE DATE: July 3, 1977.

FOR FURTHER INFORMATION CONTACT:

Kenneth C. Bourgeois, Federal Grain Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250. (202-447-8029).

SUPPLEMENTARY INFORMATION: The adjustments in the fees include a change in the:

(1) Commitment service hourly rates for 5 consecutive days per week, except on holidays, from $18.40 to $16.40 between the hours of 6 a.m. and 6 p.m. and from $22.10 to $19.80 between the hours of 6 p.m. and 6 a.m. For holidays from $25.80 to $23.20.

(2) Noncommitment service hourly rates for Monday through Friday, except on holidays, from $23.10 to $20.80 between the hours of 6 a.m. and 6 p.m. and from $26.80 to $24.00 between the hours of 6 p.m. and 6 a.m. For holidays from $30.50 to $27.40.

(3) Inspection for quality fee per lot or sublot when performed at other than the point of sampling and the per sample fee for sample inspections from $13.45 to $12.10 for rough rice, $11.50 to $10.35 for brown rice for processing and $9.60 to $8.65 for milled rice.

(4) Per factor fee for any single factor for sample inspection from $3.85 to $3.45.

To promote uniformity of the application of service fees within the Federal Grain Inspection Service the rice inspection fees are amended by:

(1) Changing the time periods for charging regular hourly rates from a 9-hour period (7 a.m. to 4 p.m.) to a 12-hour period (6 a.m. to 6 p.m.).

(2) Deleting the provision that an applicant who terminates a commitment, and within 1 year after cancellation is granted a new commitment at his request, shall pay for any moving costs incurred by the Federal Grain Inspection Service to transfer official inspection personnel to service the applicant's new commitment.

(3) Adjusting the minimum fee requirement under a commitment agreement by providing that when one of the minimum 5 consecutive days per week falls on a holiday and inspection services are not needed, the applicant shall not be charged. Under the present provisions the commitment applicant agrees to pay for a minimum of eight hours of service per day per person for 5 consecutive days per week even when one of the days falls on a holiday and services are not needed.

Pursuant to the authority of sections 203 and 205 of the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1622, 1624), § 68.42c is amended to read as follows:

§ 68.42c Fees for Federal rice inspection services.

The following fees apply to the Federal rice inspection services specified below:

SERVICE	Fee
(a) *Appeal inspection.* The applicable fee which would be assessed if the inspection were not an appeal: *Provided*, That no fee shall be assessed if it is found that there was a material error in the inspection from which an appeal was taken.	
(b) *Commitment service.* If desired, an applicant may enter into an agreement with the Federal Grain Inspection Service for rice inspection services on a weekly basis, whereby the applicant agrees to pay for a minimum of 8 hours of service per day per person, for 5 consecutive days per week, and the Federal Grain Inspection Service agrees to make official inspection personnel available to perform such service for the applicant at reduced hourly rates: *Provided*, That if one of the 5 consecutive days per week falls on a holiday and inspection services are not needed the applicant shall not be charged.	

To enter into a commitment agreement the applicant must give the Federal Grain Inspection Service 60 days written notice specifying the proposed effective date of the commitment: *Provided*, That a commitment may become effective prior to the proposed effective date by consent of both parties. To terminate a commitment the applicant must give the Federal Grain Inspection Service 60 days written notice specifying the date of termination.

The commitment service can be used by 1 applicant who guarantees to pay for the full 8 hours per day per person, 5 consecutive days per week, or by 2 or more applicants each guaranteeing to share the cost of the 8 hours per day per person: *Provided*, That each party to the commitment agrees to assume an even number of hours so that charges may be easily prorated.

Under a commitment service, the Federal Grain Inspection Service reserves the right to (1) determine the number of official inspection personnel needed to perform the service for a commitment applicant; (2) terminate a commitment agreement by giving the applicant 60 days written notice specifying the date of termination; and (3) temporarily reassign official inspection personnel from a commitment applicant when, in the opinion of the Director, the official inspection personnel are not needed to perform service for the commitment applicant. The commitment applicant in such instances would be credited with the number of commitment hours charged to other applicants or activities of the Federal Grain Inspection Service.

Hourly rates for commitment services shall begin when the official inspection personnel arrive at the point of service and end when they depart from the point of service, computed to the nearest quarter hour (less mealtime, if any). Hourly rates include the cost of travel and transportation to perform the service requested and the original and 4 copies of each certificate.

(1) Hourly rates per person per hour for commitment service, but see (d):	
(i) For all work performed between the hours of 6 a.m. and 6 p.m., for 5 consecutive days per week, except on holidays[1] (1)	$16.40
(ii) For all work performed before 6 a.m. or after 6 p.m., for 5 consecutive days per week, and any time during the 2 remaining days per week, except on holidays[1]	19.80
(iii) For all work performed on holidays[2]	23.20

(2) Minimum fees for service performed under a commitment service agreement shall be on the basis of 8 hours per day per per-

[1] Including matters within the responsibility of the Federal Grain Inspection Service.

son, for 5 consecutive days per week, calculated at the hourly rate of $16.40: *Provided*, That if one of the 5 consecutive days per week falls on a holiday and inspection services are not needed, the applicant shall not be charged. Further, when the commitment applicant's hours are charged to other applicants or activities of the Federal Grain Inspection Service such hours shall not be included in the minimum fee.

(3) Standby time per person per hour shall be charged at the applicable hourly rate.

(c) Extra copies of certificates: Per copy 1.00

(d) Inspection for quality[2] charges per lot or sublot when performed other than at the point of sampling, but see (b) and (f):

Service	*Fees*
(1) Rough rice	12.10
(2) Brown rice for processing	10.35
(3) Milled rice	8.65

(e) Interpretive line samples: Per set 50.00

NOTE.—The interpretive line samples illustrate the lower limit for milling degrees only. Interpretive line samples are available for examination at, or may be purchased from, the Federal Grain Inspection Service, U.S. Department of Agriculture, 1400 Independence Avenue SW., Washington, D.C. 20250.

Interpretive line samples are also available for examination at selected field offices of the Federal Grain Inspection Service. A list of the field offices may be obtained from the above address:

(f) Noncommitment service: A noncommitment service is provided for applicants who do not enter into a commitment service agreement with the Federal Grain Inspection Service. Service on a noncommitment basis will be furnished to applicants in the order in which requests are received, insofar as consistent with good management, efficiency, and economy. Precedence will be given, when necessary, to (1) commitment service participants, (2) requests for appeal service, (3) requests by Government agencies, and (4) requests by regular users of the service. Hourly rates shall begin when the official inspection personnel arrive at the point of service and shall end when they depart from the point of service, computed to the nearest quarter hour (less mealtime, if any). Hourly rates include the cost of travel and transportation to perform the service requested and the original and 4 copies of each certificate.

(1) Hourly rates per person per hour for noncommitment service, but see (d):

(i) For all work performed between the hours of 6 a.m. and 6 p.m., Monday through Friday, except on holidays[1]	24.00
(ii) For all work performed before 6 a.m. or after 6 p.m., Monday through Friday, and any time Saturday or Sunday, except on holidays[1]	27.40
(iii) For all work performed on holidays[1]	

(2) Minimum fee per person per callout or inspection visit for noncommitment service—2 hours at the applicable hourly rate.

(3) Standby time per person per hour shall be charged at the applicable hourly rate.

(g) Sample inspection:

(1) Inspection for quality[2] per sample:

(i) Rough Rice	12.10
(ii) Brown Rice for Processing	10.35
(iii) Milled Rice	8.65

(2) Factor analysis for any single factor: Per Factor 3.45

[1] Holiday shall mean the legal public holidays specified in paragraph (a) of section 6103, title 5, of the United States Code (5 U.S.C. 6103(a)) and any other day declared to be a holiday by Federal statute or Executive Order: *Provided*, That if the specified legal public holiday falls on a Saturday, the preceding Friday shall be deemed to be the holiday, or if the specified legal public holiday falls on a Sunday, the following Monday shall be deemed to be the holiday.

[2] Includes kind, class, grade, factor analysis, equal to type, milling yield, or any other quality designation as defined in the rice standards or instructions, whether singly or combined, except as provided for in paragraph (g).

The need for reducing the service fees and the amounts thereof are dependent upon facts within the knowledge of the Federal Grain Inspection Service. Therefore, under the provisions of 5 U.S.C. 553, it is found that notice and other public procedures with respect to this amendment are impractical and unnecessary.

(Secs. 203, 205, 60 Stat. 1087, 1090, as amended (7 U.S.C. 1622, 1624, FR 28468 and 28476).)

Done at Washington, D.C. on June 13, 1977.

WILLIAM T. MANLEY,
Interim Administrator.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Regulation 560]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period June 17-23, 1977. This regulation is needed to provide for orderly marketing of fresh Valencia oranges for the regulation period because of the production and marketing situation confronting the orange industry.

EFFECTIVE DATE: June 17, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250 (202-447-3545).

SUPPLEMENTARY INFORMATION: (a) *Findings.* (1) Pursuant to the amended marketing agreement and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the amended marketing agreement and order, and upon other available information, it is found that the limitation of handling of Valencia oranges, as provided in this regulation will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantities of Valencia oranges that may be marketed from District 1, District 2, or District 3 during the specified week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation for the quantities of Valencia oranges that should be marketed during the specified week. The recommendation designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors covered in the order. The committee further reports the fresh market demand for Valencia oranges has eased somewhat during the present week. Average f.o.b. price was $3.92 per carton on 899 cars for the week ended June 9, as compared with $3.94 per carton on 822 cars the previous week. Track and rolling supplies at 494 cars were up 142 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantities of Valencia oranges which may be handled should be established as provided in this regulation.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because the time intervening between the date when information became available upon which this regulation is based and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient. A reasonable time is permitted for preparation for such effective time; and good cause exists for making the regulation effective as specified. The committee held an open meeting during the current week, after giving due notice, to consider supply and market conditions for Valencia oranges and the need for regulation. Interested persons were afforded an opportunity to submit information and views at this meeting. The recommendation and supporting information for regulation during the period specified were promptly submitted to the Secretary after the meeting was held, and information concerning such provisions and effective time has been provided to handlers of Valencia oranges. It is necessary, to effectuate the declared policy of the act, to make this regulation effective during the period specified. The committee meeting was held on June 14, 1977.

§ 908.860 Valencia Orange Regulation 560.

* * * * *

(b) Order. (1) The quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period June 17, 1977, through June 23, 1977, are hereby fixed as follows: (i) District 1: 266,000 cartons; (ii) District 2: 384,000 cartons; (iii) District 3: Unlimited.

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in the amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674).)

Dated: June 15, 1977.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.77-17493 Filed 6-15-77;11:38 am]

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Docket No. R-0104]

PART 265—RULES REGARDING DELEGATION OF AUTHORITY

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule.

SUMMARY: In order to expedite and facilitate performance of certain of its functions, the Board of Governors has amended its Rules Regarding Delegation of Authority. The amendment is intended to expand the scope of authority previously delegated regarding acquisitions of shares of a bank.

EFFECTIVE DATE: June 10, 1977.

FOR FURTHER INFORMATION CONTACT:

Robert E. Mannion, Assistant General Counsel (202-452-3274) or Julius L. Loeser, Senior Attorney (202-452-3236), Legal Division, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

SUPPLEMENTARY INFORMATION: The Bank Holding Company Act (12 U.S.C 1841 et. seq.) generally prohibits, except with prior approval of the Board, a bank holding company's acquisition of direct or indirect ownership or control of any voting shares of any bank if, after such acquisition, such company would directly or indirectly own or control more than 5 per centum of the voting shares of such bank. On April 23, 1973, the Board delegated authority to the Federal Reserve Banks to approve acquisitions of controlling interests in additional banks pursuant to certain enumerated conditions (38 FR 10917 (1973)). The Board has now, by the instant amendment, expanded the scope of that delegated authority to include acquisitions of additional shares of a bank in which an applying bank holding company, at the time of the application, owns at least 25 percent of a class of the voting shares.

The provisions of section 553 of Title 5, United States Code, relating to notice, public participation, and deferred effective date are not followed in connection with the adoption of this amendment because the change involved is procedural in nature and does not constitute a substantive rule subject to the requirements of such section. The amendment is effective immediately.

In order to accomplish this delegation, § 265.2(f) is amended by renumbering subsections (33), (34) and (35) as (34), (35), and (36) respectively and adding a new subsection (33) providing as follows:

§ 265.2 Specific functions delegated to Board employees and to Federal Reserve Banks.

* * * * *

(f) Each Federal Reserve Bank is authorized, as to member banks or other indicated organizations headquartered in its district or under paragraph f(34) as to its own facilities:

* * * * *

(33) Under the provisions of section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)), to approve the acquisition by any bank holding company of additional voting shares of a bank in which such bank holding company owns 25 per cent or more of any class of voting securities, if the proposal generally is in conformity with the conditions specified in § 265.2(f)(24) of this part. (12 U.S.C. 248(k) and 12 U.S.C. 1844(b)).

* * * * *

By order of the Board of Governors, June 10, 1977.

RUTH A. REISTER,
Assistant Secretary of the Board.

[FR Doc.77-17097 Filed 6-15-77;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 10162; Amdt. Nos. 23-19 and 91-139]

PART 23—AIRWORTHINESS STANDARDS: NORMAL, UTILITY, AND ACROBATIC CATEGORY AIRPLANES

PART 91—GENERAL OPERATING AND FLIGHT RULES

Crashworthiness; Installation of Shoulder Harnesses in Small Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adds requirements concerning shoulder harnesses and compartment interior design for the type certification of small airplanes and adds an operating rule requiring a shoulder harness for each front seat in certain newly manufactured small airplanes. This amendment is intended to improve the crashworthiness of small airplanes and was prompted by a recommendation of the National Transportation Safety Board (NTSB) and a petition for rule making submitted by Mr. Ralph Nader.

DATES: Effective date—July 18, 1977. Operating rule compliance dates—July 18, 1978.

FOR FURTHER INFORMATION CONTACT:

Raymond E. Ramakis, Regulatory Projects Branch, AFS-940, Federal Aviation Administration, Washington, D.C. 20591, Telephone (202) 755-8716.

SUPPLEMENTARY INFORMATION: These amendments are based on the Notice of Proposed Rule Making (Notice No. 73-1) published in the FEDERAL REGISTER on January 31, 1973 (38 FR 2985). Numerous comments relating to these proposals were received in response to the notice and except for those indicating agreement or merely repeating issues discussed and disposed of in the notice, the FAA's disposition of the significant comments is discussed below. In general, comments received that were beyond the scope of the notice are not discussed. Based on the relevant comments and upon further review by the FAA, a number of the proposals have been dropped or changed. In addition, various nonsubstantive changes of a clarifying and editorial nature have been made. Since these changes impose no additional burden on any person, they may be adopted without further notice and public procedure.

Interested persons have been afforded an opportunity to participate in the making of these amendments, and due consideration has been given to all matter presented.

A substantial number of commentators objected to the proposed rules that would require fastening of the harness, and a large number suggested that harness installation be optional. In addition, several commentators stated that the notice seemed to assume that there is merit in wearing harnesses without citing any studies to support that view. One recommended that the notice be withdrawn pending the results of NASA and FAA crash testing of complete general aviation airplanes. Contrary to the commenators' allegations, the FAA believes that sufficient data and information exists on which to base shoulder harness requirements for small airplanes. The changes being made are based primarily on the results and conclusions of small airplane accident investigations. Information regarding specific accidents is available in documents published by the National Transportation Safety Board such as the "Annual Review of General Aviation Accidents." In addition, a summary of test information on seats, belts, harnesses, as well as entire airplanes, is included in FAA Technical Report No. FS-70-592-120A, "A Summary of Crashworthiness Information for Small Air-

planes," dated February 1973. Furthermore, data which substantiate the premise that use of a harness will increase safety sufficiently to warrant a change in FAR Part 23 are contained in FAA report No. FAA–AM–71–3, "General Aviation Structures Directly Responsible for Trauma in Crash Decelerations," dated January 1971. With respect to deferring rule making pending the results of crash testing, the FAA does not believe delay is advisable since crash-worthiness investigation, testing, and analysis is a continuous process, and updating of rules can be accomplished as new information becomes available should later revisions be warranted.

In connection with the foregoing, after further FAA review in light of the comments received, a number of the proposals have been withdrawn or substantially revised.

Proposed § 23.785(g) would require the installation of a shoulder harness at each forward facing seat and at each sideward facing seat for type certification. However, the FAA's analysis of the cost benefit considerations show that small airplanes are operated mostly with only the front seats occupied and the cabin structure surrounding the occupants of seats other than front seats can be designed to be very effective in protecting occupants during minor crash landings. Based on this and the many adverse comments to proposed § 23.785 (g), the FAA has determined that, at this time, shoulder harness installations on seats other than the front seats should not be required under FAR Part 23. Accordingly, the proposal has been revised to require shoulder harness installations only on front seats. Front seats in this context are seats located at flight crewmember stations or seats located alongside such a seat. For clarity a definition of "front seat" has been added to the rules being adopted herein.

Proposed § 23.785(g) would also require that rearward and certain sideward facing seats have energy absorbing rests. A similar provision currently exists as an optional requirement in § 23.785(g)(3) for all seats. Based on a further assessment of the proposed requirements, the FAA has determined that the energy absorbing rest requirement is not necessary since compliance with the requirements of § 23.785(g) and (j), as adopted herein, assures adequate cabin occupant safety. The proposed energy absorbing rest requirement has, therefore, been withdrawn.

The proposed type certification requirement in § 23.785(j) concerns delethalization of the cabin area surrounding each seat within striking distance of the occupant's head, torso, arms, and legs. However, information now available to the FAA indicates that fatalities during minor crash landings are primarily due to head and torso injuries. Also, most serious injuries during minor crash landings are limited to the head and torso. Furthermore, confining the provision to the head and torso would reduce the burden of compliance and simplify compliance determinations. The FAA has therefore determined that the requirement should not be applicable to arms and legs, and the proposed rule has been changed accordingly.

A number of comments were adverse to the proposed operating requirements in §§ 91.7 and 91.14 that would require fastening of shoulder harnesses. Based on these comments, the FAA has reevaluated the need for the proposed requirements, and the proposed passenger shoulder harness fastening requirement of § 91.14 has been withdrawn. In addition, proposed § 91.7 has been revised to require the fastening of shoulder harnesses by flight crewmembers only during takeoff and landing; however, it would not be required if it would interfere in the performance of required duties.

A further operating requirement proposed in § 91.14 would be have required the pilot to ensure that each person aboard the aircraft be given certain instructions and notifications regarding restraint equipment and to ensure proper securing of equipment at unoccupied seats. However, the requirements for shoulder harnesses on other than front seats and on other than newly manufactured airplanes have been withdrawn, as discussed in connection with §§ 91.33 and 91.39. In this light and since the fastening of shoulder harnesses will not be mandatory except with respect to flight crewmembers, the benefits expected from the operating requirements proposed in § 91.14 no longer are sufficient to warrant the adoption of the proposals. The proposals have therefore been withdrawn.

The proposed operating rules in §§ 91.33(b)(13) and 91.39(f) would have required, in effect, that small airplanes either be placarded to indicate lack of structural provisions for the attachment of shoulder harnesses or be equipped with shoulder harnesses. Subsequently, a number of comments received in response to Notice 73–1 indicated strong opposition to a rule requiring the installation of shoulder harnesses in small airplanes currently in service. In light of these comments, a cost analysis was conducted by the FAA which indicated that a substantial financial burden would be imposed upon many consumers over a short period of time if the proposals were to be adopted. Based on this cost analysis and a review of the benefits expected from the proposal, the FAA has determined that the decision of whether to install shoulder harnesses in small airplanes now in service or to install shoulder harnesses at seats other than front seats should be left to the owner. Therefore, the proposal has been revised to require the installation of shoulder harnesses only on the front seats of airplanes that are manufactured after one year after the effective date of the amendment.

A number of commentators contended that it would be unreasonable to expect any occupant protection system to prevent minor scratches or bruises in a crash landing, and recommended revising proposed §§ 23.785 and 91.33 to require protection against serious injury or serious head injury rather than protection against any degree of injury. In this connection, current §§ 23.561, 25.561, and 25.785 use the criteria of serious injury. The FAA agrees and proposed §§ 23.785, 91.33, and 91.39 have been revised accordingly.

One commentator contended that § 23.785(j) should be eliminated as it is too general to be a workable, enforceable or effective standard. The FAA does not agree. Section 23.785(j) as adopted will require elimination of obvious injurious objects and require that instrument panels be designed to prevent injuries. In applying the rule, since the movement of a restrained occupant under design inertia loads and the impact velocity on an interfering structure can be predicted, and since the body tolerances and energy to be absorbed are known, the major items subject to contact can be designed to prevent serious injury.

One commentator recommended changing the parenthetical portion of proposed § 23.785(j) to read "(with the safety belt and shoulder harness fastened)", because it would be inconsistent to require shoulder harnesses and at the same time provide protection in the space a passenger might occupy without the harness. The FAA does not agree. A shoulder harness does not protect against side loads, nor does it constrain the head. Also, the proposed rule concerning shoulder harnesses has been revised to require a shoulder harness only for each front seat.

One commentator indicated that use of restraints and padding would reduce safety by reducing the visibility of, and accessibility to, controls and instruments on the part of pilots, and by interfering with evacuation of airplanes by passengers. The FAA does not agree since it is feasible to provide in new designs the protection specified without a significant decrease in visibility and accessibility. While in a specific case some compromise during design may have to be made, the FAA has determined that the benefits to be derived with regard to improved safety through proper restraints and cabin delethalization would in general far outweigh any detrimental effects resulting from reduction in visibility and accessibility.

Several commentators expressed concern that the shoulder harness and cabin design resulting from the proposed requirements would be restrictive, inadequate, or ineffective for certain sizes of occupants or crew. The FAA agrees that harness installations designed primarily for adults may not be effective for children or other small persons, but the seat belt portion of the restraint would nevertheless constrain a small person on whom the shoulder harness cannot be properly fitted within the space envelope of protection provided for adults with the harness fastened. No change has been made as a result of these comments.

The FAA has determined, based on an evaluation of the expected benefits and other impacts on the public and private sectors, that the adoption of this amendment will result in a significant improvement in the chances of occupants of small airplanes covered by the amendment to survive minor crash landings and provide those occupants additional protection in more servere crashes at a nominal cost. Over the next 25 years, it is estimated that approximately 1.875 lives may be saved by this amendment at an average cost of less than $5.5 million per year.

The principal authors of this document are Heinz J. Hellebrand, Flight Standards Service, and Samuel Podbereskv, Office of the Chief Counsel.

Accordingly, Parts 23 and 91 of the Federal Aviation Regulations (14 CFR Parts 23 and 91) are amended effective, July 18, 1977, as follows:

1. Section 23.785 is amended by revising the title and paragraphs (b) and (g) and by adding new paragraphs (h), (i), (j), and (k) to read as follows:

§ 23.785 Seats, berths, safety belts, and harnesses.

* * * * *

(b) Each seat, berth, safety belt, and harness must be approved.

* * * * *

(g) Each occupant must be protected from serious head injury when he experiences the inertia forces prescribed in § 23.561(b)(2) by—

(1) A safety belt and shoulder harness that is designed to prevent the head from contacting any injurious object, for each front seat; and

(2) A safety belt, or a safety belt and shoulder harness, for each seat other than a front seat.

(h) Each shoulder harness installed at a flight crewmember station must allow the crewmember, when seated and with his safety belt and shoulder harness fastened, to perform all functions necessary for flight operations.

(i) There must be a means to secure each safety belt and shoulder harness, when not in use, so as to prevent interference with the operation of the airplane and with rapid egress in an emergency.

(j) The cabin area surrounding each seat, including the structure, interior walls, instrument panel, control wheel, pedals, and seats, within striking distance of the occupant's head or torso (with the safety belt fastened), must be free of potentially injurious objects, sharp edges, protuberances, and hard surfaces. If energy absorbing designs or devices are used to meet this requirement they must protect the occupant from serious injury when the occupant experiences the ultimate inertia forces prescribed in § 23.561(b)(2).

(k) For purposes of paragraph (g) of this section, a front seat is a seat located at a flight crewmember station or any seat located alongside such a seat.

§ 23.1307 [Amended]

2. Section 23.1307 is amended by deleting paragraph (a) and marking it "Reserved".

3. Section 91.7 is amended by redesignating the introductory phrase as paragraph (a), by redesignating old paragraphs (a) and (b) as (a)(1) and (a)(2), respectively, and by adding a new paragraph (b) to read as follows:

§ 91.7 Flight crewmembers at stations.

* * * * *

(b) After July 18, 1978, each required flight crewmember of a U.S. registered civil airplane shall, during takeoff and landing, keep the shoulder harness fastened while at his station. This paragraph does not apply if—

(1) The seat at the crewmember's station is not equipped with a shoulder harness; or

(2) The crewmember would be unable to perform his required duties with the shoulder harness fastened.

4. Section 91.33 is amended by adding a new paragraph (b)(13) to read as follows:

§ 91.33 Powered civil aircraft with standard category U.S. airworthiness certificates; instrument and equipment requirements.

* * * * *

(b) * * *

(13) For small civil airplanes manufactured after July 18, 1978, an approved shoulder harness for each front seat. The shoulder harness must be designed to protect the occupant from serious head injury when the occupant experiences the ultimate inertia forces specified in § 23.561(b)(2) of this chapter. Each shoulder harness installed at a flight crewmember station must permit the crewmember, when seated and with his safety belt and shoulder harness fastened, to perform all functions necessary for flight operations. For purposes of this paragraph—

(i) The date of manufacture of an airplane is the date the inspection acceptance records reflect that the airplane is complete and meets the FAA Approved Type Design Data; and

(ii) A front seat is a seat located at a flight crewmember station or any seat located alongside such a seat.

* * * * *

5. Section 91.39 is amended by adding a new paragraph (g) to read as follows:

§ 91.39 Restricted category civil aircraft; operating limitations.

* * * * *

(g) No person may operate a small restricted category civil airplane, manufactured after July 18, 1978, unless an approved shoulder harness is installed for each front seat. The shoulder harness must be designed to protect each occupant from serious head injury when the occupant experiences the ultimate inertia forces specified in § 23.561(b)(2) of this chapter. The shoulder harness installation at each flight crewmember station must permit the crewmember, when seated and with his safety belt and shoulder harness fastened, to perform all functions necessary for flight operations. For purposes of this paragraph—

(1) The date of manufacture of an airplane is the date the inspection acceptance records reflect that the airplane is complete and meets the FAA Approved Type Design Data; and

(2) A front seat is a seat located at a flight crewmember station or any seat located alongside such a seat.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A–107.

Issued in Washington, D.C., on June 9, 1977.

QUENTIN S. TAYLOR,
Acting Administrator.

[FR Doc.77–17074 Filed 6–15–77;8:45 am]

[Docket No. 15037; Amdt. 39–2920]

PART 39—AIRWORTHINESS DIRECTIVES

Hawker Siddeley Aviation, Ltd., Model DH–114 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adds a new airworthiness directive (AD) which requires an inspection and replacement, if necessary, of engine mount parts on Hawker Siddeley Model DH–114 airplanes to prevent possible separation of the engine from the airplace due to corrosion.

EFFECTIVE DATE: July 18, 1977.

Compliance required within the next 50 hours time in service after the effective date of this AD, unless already accomplished.

ADDRESSES: The applicable technical news sheet may be obtained from Hawker Siddeley Aviation Ltd., Hatfield Hertfordshire, England, AL109TL, Attention: Technical Manuels Distribution Center.

A copy of the technical news sheet is contained in the Rules Docket, Rm. 916, 800 Independence Avenue, S.W., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Donald C. Jacobsen, Chief, Aircraft Certification Staff, AEU–100, Europe, Africa, and Middle East Region, Federal Aviation Administration, c/o American Embassy, Brussels, Belgium. Tel: 513.38.30.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring an X-ray inspection and replacement, if necessary, of engine mount stay struts on Hawker Siddeley Model DH–114 air-

planes was published in the FEDERAL REGISTER at 40 FR 46321. The proposal was prompted by reports of internal corrosion of the struts that could cause separation of the engine from the airplane.

Interested persons have been afforded an opportunity to participate in the making of the amendment. Although no objections were received, the FAA has reevaluated the need for the proposed amendment and determined that it should be adopted.

The principal authors of this document are Mr. F. J. Karnowski, Europe, Africa, and Middle East Region, Mr. J. F. Zahringer, Flight Standards Service, and Mr. S. Podberesky, Office of the Chief Counsel.

ADOPTION OF AMENDMENT

Accordingly, and pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following Airworthiness Directive:

HAWKER SIDDELEY AVIATION, LTD. Applies to Model DH-114 airplanes, certificated in all categories, that are not equipped with engine mount stay struts marked as Issue 2 or subsequent or marked "DOI No. 68840."

Compliance is required within the next 50 hours time in service after the effective date of this AD, unless already accomplished.

To detect internal corrosion of the engine mount stay strut, P/N 14 EM.337A, accomplish the following:

(a) Remove the stay strut from the aircraft and inspect in accordance with the X-ray procedure of Appendix I of the Hawker Siddeley Technical News Sheet No. E.8, dated March 19, 1973, or an FAA-approved equivalent.

(b) Replace any strut for which internal corrosion is detected by the inspection required by paragraph (a) of this AD with a new part or otherwise serviceable spare part of the same part number determined to be free of internal corrosion by the inspection required by paragraph (a) of this AD or an FAA-approved equivalent.

(c) It is requested that copies of the X-rays, or results of an FAA-approved equivalent inspection, be forwarded to the Chief, Aircraft Certification Staff, FAA, Europe, Africa, and Middle East Region, c/o American Embassy, APO New York, N.Y. 09667. (Reporting approved by the Office of Management and Budget under OMB No. 04-R0-174).

This amendment becomes effective July 18, 1977.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C. on June 6, 1977.

R. P. SKULLY,
Director,
Flight Standards Service.

[Docket No. 74-WE-41-AD; Amdt. 39-2917]

PART 39—AIRWORTHINESS DIRECTIVES

Hiller UH-12 Series Helicopters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: An air-mail airworthiness directive (AD) amendment dated April 22, 1977, extended the required replacement time for certain rotor blade parts from 25 hours to 225 hours time in service, provided certain inspections are performed. This amendment was necessary because new parts are not yet available.

EFFECTIVE DATE: June 20, 1977.

ADDRESS: Service Bulletin, No. 36-1, Revision 2, dated June 19, 1974 can be obtained from Hiller Aviation, 2075 West Scranton Avenue, Porterville, California 93267.

A copy of the service bulletin is contained in the rules docket for this amendment in Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Kyle L. Olsen, Executive Secretary, Airworthiness Directives Review Board, Federal Aviation Administration, Western Region, P.O. Box 92007, Worldway Postal Center, Los Angeles, California 90009, telephone 213-536-6351.

SUPPLEMENTARY INFORMATION: On April 7, 1977, the FAA issued Airworthiness Directive (AD) 77-07-05 (Amendment 39-2862, 42 FR 17868) on Hiller UH-12 helicopters, which required inspections of the control rotor blade spar tube and cuffs for cracks, corrosion or excessive wear of the outboard retention bolts; and replacement or repair, if necessary. The original paragraph (d)(3) of AD 77-07-05 required removal and replacement of cuffs whose service life could not be documented within 25 hours of time in service after the effective date of the AD.

However, the FAA has determined that data originally furnished as to replacement parts was inaccurate. Also the FAA determined that service experience and the use of repetitive dye penetrant inspections at intervals not to exceed 50 hours time in service, up to 200 hours total time in service beyond the present 25 hour compliance time per the manufacturer's service document will provide an adequate level of safety and that, due to parts unavailability there will be an unnecessary grounding of aircraft which is neither due to the fault of the operators nor in the public interest. Therefore, on April 22, 1977 and effective upon receipt, an air-mailed relieving amendment to paragraph (d)(3) of AD 77-07-05 was issued.

Since it was found that immediate action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the airworthiness directive effective immediately as to all known U.S. operators of Hiller UH-12 series helicopters by individual Airmail letter dated April 22, 1977. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons.

DRAFTING INFORMATION

The principal authors of this amendment are Paul Tanimoto, Aircraft Engineering Division, and Richard G. Wittry, Office of the Regional Counsel.

ADOPTION OF AMENDMENT

Accordingly, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13), Amendment 39-2862 (42 FR 17868), paragraph (d)(3) of AD 77-07-05 is amended to read:

(3) For cuffs for which the prior service history cannot be documented, within the next 25 hours time in service, unless already accomplished within the last 25 hours time in service prior to the effective date of this AD and at intervals not to exceed 50 hours time in service, perform a dye penetrant inspection of the cuff per Hiller Aviation Service Bulletin, No. 36-1, Revision 2, dated June 19, 1974, or later FAA approved revisions. Remove cracked cuffs from service prior to further flight. Cuffs for which the prior service history cannot be documented cannot be used as a replacement part. Remove from service all cuffs prior to the accumulation of 225 hours total time in service since April 7, 1977.

This amendment becomes effective June 20, 1977.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Los Angeles, California on June 3, 1977.

ROBERT H. STANTON,
Director,
FAA Western Region.

[Docket No. 76-WE-19-AD; Amdt. 39-2916]

PART 39—AIRWORTHINESS DIRECTIVES

Lockheed-California Company Model L-1011-385 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment to an existing airworthiness directive (AD) requires modification of the Lockheed-California Company L-1011-385 series aircraft main landing gear upper side brace trunnion joints. Accomplishment of the modification required by this amendment will remove the need for visual pre-flight checks required by the existing airworthiness directive (AD).

EFFECTIVE DATE: June 17, 1977.

Compliance schedule.—As prescribed in the text of the amendment.

ADDRESSES: The applicable service bulletin may be obtained from Lockheed-California Company, P.O. Box 551, Burbank, California 91520. Attention: Commercial Support Contracts, Dept. 63-11, U33, B-1. A copy of the service bulletin is contained in the Rules Docket, Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Wallace M. Frei, Executive Secretary, Airworthiness Directive Review Board, Federal Aviation Administration, Western Region, P.O. Box 92007, Worldway Postal Center, Los Angeles, California 90009, telephone 213-536-6351.

SUPPLEMENTARY INFORMATION: AD 76-20-08 (Amendment 39-2742) requires repetitive visual checks of the main landing gear upper side brace trunnion joint areas with replacement or repair of damaged parts, as necessary, on Lockheed-California Company Model L-1011-385 series airplanes. Amendment 39-2742 was issued as a result of several cases where one of the two main landing gear upper side brace trunnion joint retaining bolts failed due to stress corrosion. A single bolt failure will not usually result in secondary structural failures leading to unsafe conditions. However, continued operation with one failed bolt, combined with severe landing or ground maneuver conditions, could lead to the collapse of a main landing gear assembly. The required pre-flight visual checks provide an interim safety precaution. After issuing Amendment 39-2742, the manufacturer modified the type design of the upper side brace trunnion joint components to eliminate the potential stress corrosion condition of the upper side brace trunnion joint retaining bolts. This modification is described in FAA approved Lockheed-California Company Service Bulletin 093-32-115. Subsequently, the FAA has proposed amending Amendment 39-2742 to require modification of the upper side brace bearing trunnion joints in accordance with the manufacturer's service bulletin. A proposal to amend Section 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR Part 39), Amendment 39-2742 (41 FR 45817), AD 76-20-08, to modify the main landing gear upper side brace joints in accordance with the manufacturer's service bulletins on Lockheed-California Company Model L-1011-385 series airplanes was published in 42 FR 17879.

Interested persons have been afforded an opportunity to participate in the making of the amendment. Comments were received from Air Transport Association of America (ATA) representing the domestic operators, and the manufacturer, Lockheed-California Company.

ATA and Lockheed comments have been reviewed and the proposed amendment as published in 42 FR 17879 has been revised, in part, in consideration of these comments.

ATA concurred with the need for accomplishment of modification in accordance with Lockheed Service Bulletin 093-32-115 and requested the date of March 31, 1978, as the compliance date for the total fleet accomplishment. ATA supported the compliance date of March 31, 1978 in accordance with Service Bulletin 093-32-115 with a stated belief that a one time final modification of the upper side brace trunnion joint would provide for a higher level of safety than an interim partial modification in accordance with Service Bulletin 093-32-120. Additionally, ATA requested that the amendment to the AD should specify accomplishment of modification in accordance with the accomplishment instructions of the Service Bulletin 093-32-115 in lieu of callout of detailed component part numbers as proposed in the NPRM. FAA has reviewed the above ATA comments, concurs with these comments, and this amendment consequently reflects the March 31, 1978 compliance date and the Manufacturer's Service Bulletin 093-32-115 accomplishment instructions.

Lockheed stated that the visual pre-flight checks required by AD 76-20-08 (Amdt. 39-2742) constitute an equivalent compliance to the requirement of FAR 25.573(b) and thus mandatory incorporation of trunnion joint modification in accordance with Service Bulletin 093-32-115 is unnecessary. FAA disagrees since the pre-flight visual checks required by AD 76-20-08 (Amdt. 39-2742) provide an interim safety precaution only, because these checks do not necessarily identify the trunnion retaining bolt failures occurring in the middle of the bolt shank, as has occurred in two service incidents to date. FAA therefore concluded that this existing unsafe condition necessitates a mandatory requirement for accomplishment of the main landing gear upper side brace trunnion joint modification in accordance with the Service Bulletin 093-32-115.

This amendment to Part 39 of the Federal Aviation Regulations (14 CFR Part 39), amends the Amendment 39-2742 (41 FR 45817), AD 76-20-08, and requires the modification of the main landing gear upper side brace joints in accordance with the manufacturer's Service Bulletin 093-32-115 on or before March 31, 1978.

DRAFTING INFORMATION

The prinicpal authors of this airworthiness directive are George Vasley, Aircraft Engineering Division, and Richard G. Wittry, Office of the Regional Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13), Amendment 39-2742 (41 FR 45817), AD 76-20-08, is amended by adding paragraphs (c) and (d):

(c) Compliance is required on or before March 31, 1978, unless already accomplished:

Accomplish the modification of the main landing gear upper side brace trunnion joints in accordance with Paragraph 2, Accomplishment Instructions, of the FAA approved Lockheed-California Company Service Bulletin 093-32-115, Revision 1, dated March 16, 1977 or later FAA approved revisions.

(d) Accomplishment of the modification of the upper side brace trunnion joints in accordance with paragraph (c) will remove the need for accomplishment of the requirements of paragraph (a).

This amendment becomes effective June 17, 1977.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949 and OMB Circular A-107.

Issued in Los Angeles, California on June 3, 1977.

ROBERT H. STANTON,
Director,
FAA Western Region.

[Airworthiness Docket No. 77-SW-25; Amdt. 39-2915]

PART 39—AIRWORTHINESS DIRECTIVES

Piper PA-31 and PA-31-300

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: An Airworthiness Directive (AD) is being issued to require inspection of Piper PA-31 and PA-31-300 modified per STC SA986SW because elevator balance weights were found loose or separated during one accident investigation.

EFFECTIVE DATE: June 17, 1977.

Initial compliance within the next 25 hours' time in service after the effective date of this AD.

ADDRESSES: Nayak Service Bulletin No. 1 may be obtained from persons or offices noted in the AD.

FOR FURTHER INFORMATION CONTACT:

Al Backstrom, Propulsion Section, Engineering and Manufacturing Branch, ASW-214, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas, telephone number 817-624-4911, Extension 524.

SUPPLEMENTARY INFORMATION: During an accident investigation, elevator balance weights added by STC SA986SW were found loose or separated. A detailed inspection indicated that the "rivnuts" used for attachment of the balance weights were not properly set. Also, since the elevators had been painted subsequent to modifications, it was considered possible that the elevators were not balanced to the correct limits.

Since this condition is likely to exist or develop in other aircraft of the same type design, an Airworthiness Directive is being issued to require inspection of the

elevator balance weights and to assure correct balancing of the elevators. Since the situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impractical and good cause exists in making this amendment effective in less than 30 days.

DRAFTING INFORMATION

The principal author of this document is Al Backstrom, Flight Standards Division with assistance by James O. Price, General Attorney, Southwest Region, FAA.

ADOPTION OF THE AMENDMENT

Accordingly, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended, effective June 17, 1977, by adding the following new Airworthiness Directive:

PIPER: Applies to Piper PA-31 and PA-31-300 which have wing luggage lockers installed per STC SA986SW certificated in all categories.

Compliance required as indicated.

Within the next 25 hours in service or at the next annual inspection, whichever occurs first, unless already accomplished within the last 25 hours' time in service, inspect the elevator balance weights for security of attachment ("rivnut pullup") and check elevators unbalance (96.4 in lbs. tail heavy maximum) and repair or rebalance elevator, as necessary, in accordance with Nayak Service Bulletin No. 1, dated May 16, 1977, or later approved revisions or in accordance with an equivalent method approved by the Chief, Engineering and Manufacturing Branch, Flight Standards Division, Southwest Region, Federal Aviation Administration, Fort Worth, Texas.

This amendment becomes effective June 17, 1977.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.89.)

NOTE: The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Fort Worth, Texas, on June 1, 1977.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.77-16824 Filed 6-15-77;8:45 am]

[Airspace Docket No. 77-AL-2]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Airway Title Change

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: The title of the segment of V-436 from Anchorage, Alaska, to the Augey, Alaska, intersection is hereby changed to V-334 because of the confusion being experienced in flight planning and traffic control communication as a result of transposing the number 5 for the number 3 as in V-436 and V-456. This action will eliminate that confusion and potential hazard.

EFFECTIVE DATE: August 11, 1977.

FOR FURTHER INFORMATION CONTACT:

Everett L. McKisson, Airspace Regulations Branch (AAT-230), Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: 202-426-3715.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to change the title of a segment of VOR federal airway to eliminate a potential hazard. Both V-436 and V-456 airways use the same radial for a distance of 43 NM from Anchorage, Alaska, before they separate in a southwest direction. Although the location of these airways contributes to the confusion, their location will not be changed and the problem will be solved by changing the airway number of one of them. Numbering of airways is an administrative function of the FAA. Since changing the number of an airway is a minor action on which the public would have no particular desire to comment, notice and public procedure thereon are unnecessary.

DRAFTING INFORMATION

The principal authors of this document are Everett L. McKisson, Air Traffic Service, and Jack P. Zimmerman, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 307) is amended, effective 0901 G.m.t., August 11, 1977, as follows:

In § 71.125 (42 FR 341) of Part 71:

1. V-436 is amended to read as follows: "From Anchorage, Alaska, via Talkeetna, Alaska; Nenana, Alaska; Chandalar Lake, Alaska, NDB; to Deadhorse, Alaska."

2. V-334 is added to read as follows: "From the INT King Salmon, Alaska, 068° and Kenai, Alaska, 217° radials; via Kenai; to Anchorage, Alaska."

(Sec. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE: The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on June 8, 1977.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.77-16822 Filed 6-15-77;8:45 am]

[Airspace Docket No. 77-SO-3]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Federal Airway Segment

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment designates an east alternate to V-97 between Miami, Fla., and LaBelle, Fla. After a review of the traffic flow in the Ft. Lauderdale, Fla., area the FAA determined that a revision of the airway structure is required. This revision will help to improve the flow of traffic at Ft. Lauderdale, Fla., and other airports in the general area.

EFFECTIVE DATE: August 11, 1977.

FOR FURTHER INFORMATION CONTACT:

Everett McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: 202-426-3715.

SUPPLEMENTARY INFORMATION:

HISTORY

On March 3, 1977, the FAA published for comment a proposal to designate an east alternate to V-97 airway between Miami, Fla., and LaBelle, Fla., (42 FR 12190). Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. One public comment was received that interposed no objection. Except for editorial changes, this amendment is that proposed in the notice.

THE RULE

This amendment to Part 71 of the Federal Aviation Regulations (FARs) designates an east alternate to V-97 between Miami and LaBelle to improve the flow of traffic arriving at the Ft. Lauderdale-Hollywood, INT. Airport and satellite airports. Aircraft using this alternate airway will enter an arrival transition area at a lower altitude via an airway number which helps to simplify flight planning for the pilot.

DRAFTING INFORMATION

The principal authors of this document are Everett McKisson, Air Traffic Service, and Jack P. Zimmerman, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71), as republished and amended (42 FR 307, 7121, 41 FR 56789), is further amended, effective 0901 G.m.t., August 11, 1977, as follows:

In § 71.123 V-97, "LaBelle, Fla.;" is deleted and "LaBelle, Fla., including an E alternate via INT Miami 343° and LaBelle 120° radials;" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE: The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on June 7, 1977.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[Airspace Docket No. 77-CE-2]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Revocation of Airway Segment

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment revokes an airway segment because it has not been used sufficiently to warrant its retention. As a result of this action, chart clutter will be reduced.

EFFECTIVE DATE: August 11, 1977.

FOR FURTHER INFORMATION CONTACT:

Wray McClung, Airspace Regulations Branch (AAT-230), Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: 202-426-8530.

SUPPLEMENTARY INFORMATION:

HISTORY

On March 14, 1977, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) by revoking VOR Federal Airway No. 74-N between the cities of Anthony, Kans., and Ponca City, Okla. (42 FR 13838). This airway segment is based on the northwest by the Anthony VORTAC near the city of Anthony, and on the southeast by the Pioneer VORTAC near the city of Ponca City. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. One public comment was received and it interposed no objection. Except for editorial changes, this amendment is the same as proposed in the notice. Section 71.123 was republished in the Federal Register on January 3, 1977 (42 FR 307)

THE RULE

At the present time VOR Federal Airway No. 74 extends in part from the Anthony VOR to the Pioneer VOR with a north alternate via the intersection of the Anthony 097° and the Pioneer 334° radials. Most aircraft operating between Anthony and Pioneer proceed via the main segment, and insufficient use is made of the north alternate to justify its retention. Therefore, this amendment to Part 71 of the Federal Aviation Regulations revokes VOR Federal Airway No. 74-N between Anthony and Pioneer.

DRAFTING INFORMATION

The principal authors of this document are Wray McClung, Air Traffic Service, and Jack P. Zimmerman, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 307) is amended, effective 0901 G.m.t., August 11, 1977, as follows:

In § 71.123 V-74 (42 FR 307), "Pioneer, Okla., including a north alternate via INT Anthony 097° and Pioneer 334° radials:" is deleted and "Pioneer, Okla.;" is substituted therefor.

(Sec. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE: The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on June 7, 1977.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.77-16825 Filed 6-15-77;8:45 am]

[Airspace Docket No. 77-SO-14]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Revocation of the North Alternate of VOR Airway (V-152)

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment revokes the north alternate of VOR Airway (V-152) between St. Petersburg, Fla., and Orlando, Fla. An Air Traffic Use Survey of this alternate airway indicates only one aircraft operation in the last three years; therefore, retention of this airway segment serves no useful purpose to the flying public or Air Traffic Control.

EFFECTIVE DATE: August 11, 1977.

FOR FURTHER INFORMATION CONTACT:

David F. Solomon, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: 202-426-8530.

SUPPLEMENTARY INFORMATION:

HISTORY

An Air Traffic Use Survey of this alternate airway indicates only one aircraft operation in the last three years. Should an occasional aircraft request to fly through this general area, it can be accommodated quite readily by Air Traffic Control.

Under the circumstances presented, the FAA concludes that this alternate airway can be revoked as it is no longer required. Further, since it has been rarely used, its revocation is a minor matter on which the public would have no particular desire to comment. Therefore, notice and public procedure thereon are unnecessary.

THE RULE

This amendment to Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) amends § 71.123 by revoking alternate airway V-152N between St. Petersburg, Fla., and Orlando, Fla.

DRAFTING INFORMATION

The principal authors of this document are David F. Solomon, Air Traffic Service, and Jack P. Zimmerman, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 307), is amended, effective 0901 G.m.t., August 11, 1977, as follows:

In § 71.123 V-152 "a N alternate via INT St. Petersburg 040° and Orlando 258° radials, and also" is deleted.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by utive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on June 8, 1977.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[Airspace Docket No. 77-SW-11]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters the Bartlesville, Okla., transition area to provide controlled airspace for aircraft executing the new localizer runway 17

instrument approach procedure established for the Phillips Airport.

EFFECTIVE DATE: August 11, 1977.

FOR FURTHER INFORMATION CONTACT:

John A. Jarrell, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101; telephone 817-624-4911, extension 302.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71), is to alter the Bartlesville, Okla., transition area.

On March 17, 1977, a notice of proposed rulemaking was published in the FEDERAL REGISTER (42 FR 14884) stating that the Federal Aviation Administration proposed to alter the Bartlesville, Okla., transition area to provide controlled airspace for aircraft executing the new localizer runway 17 instrument approach procedure established for the Phillips Airport.

Interested persons were afforded an opportunity to participate in the rulemaking through submission of comments. All comments received were favorable.

DRAFTING INFORMATION

The principal authors of this document are John A. Jarrell, Airspace and Procedures Branch, and Robert C. Nelson, Office of Regional Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 440) is amended, effective 0901 G.m.t., August 11, 1977, as hereinafter set forth.

In Subpart G, § 71.181 (42 FR 440), the Bartlesville, Okla., transition area is amended as follows:

That airspace extending upward from 700 feet above the surface within a 9-mile radius of Phillips Airport (latitude 36°45'46" N., longitude 96°00'38" W.); and within 5 miles each side of the Bartlesville VORTAC 175° radial extending from the 9-mile radius to 21.5 miles south of the VORTAC; and within 5.5 miles west and 3.5 miles east of the Bartlesville localizer north course extending from the 9-mile radius to 12 miles north of the VORTAC.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Fort Worth, Tex., on June 3, 1977.

HENRY L. NEWMAN,
Director, Southwest Region.

[Airspace Docket No. 77-SW-9]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters the Orange, Tex., transition area to provide controlled airspace for aircraft executing the new NDB instrument approach procedure established for the Orange County Airport.

EFFECTIVE DATE: August 11, 1977.

FOR FURTHER INFORMATION CONTACT:

John A. Jarrell, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101; telephone 817-624-4911, extension 302.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to alter the Orange, Tex., transition area.

On March 10, 1977, a notice of proposed rulemaking was published in the FEDERAL REGISTER (42 FR 13304) stating the Federal Aviation Administration proposed to alter the Orange, Tex., transition area to provide controlled airspace for aircraft executing the new NDB instrument approach procedure established for the Orange County Airport.

Interested persons were afforded an opportunity to participate in the rulemaking through submission of comments. All comments received were favorable.

DRAFTING INFORMATION

The principal authors of this document are John A. Jarrell, Airspace and Procedures Branch, and Robert C. Nelson, Office of the Regional Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 440) is amended, effective 0901 G.m.t., August 11, 1977, as hereinafter set forth.

In Subpart G, § 71.181 (42 FR 440), the Orange, Tex., transition area is amended as follows:

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Orange NDB (latitude 30°04'14" N., longitude 93°47'42" W.) within 2.5 miles each side of the 159°M bearing (165°T bearing) from the Orange NDB extending from the 5-mile radius to 8 miles southeast of the Orange NDB and within 2.5 miles each side of the 028°M bearing (034°T bearing) from the Orange NDB extending from the 5-mile radius to 8 miles northeast of the Orange NDB.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Fort Worth, Tex., on June 3, 1977.

HENRY L. NEWMAN,
Director, Southwest Region.

[Airspace Docket No. 77-CE-4]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation and Alteration of Federal Airways

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment designates two new airways, extends one airway and alters one airway. This action will improve the traffic handling capabilities in the State of Kans., by reducing flight planning and communication time required in using the present direct routes.

EFFECTIVE DATE: August 11, 1977.

FOR FURTHER INFORMATION CONTACT:

Everett L. McKisson, Airspace Regulations Branch (AAT-230), Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone 202-426-3715.

SUPPLEMENTARY INFORMATION:

HISTORY

On March 24, 1977, the FAA published for comment a proposal to designate a new airway from Pioneer, Okla., direct to Emporia, Kans., and another new airway from Wichita, Kans., direct to Chanute, Kans., and also to extend V-73 from Tulsa, Okla., direct to Wichita and to exclude the two new airways and V-132 from the Eureka MOAs during the time that they are activated by NOTAM (42 FR 15915). Interested persons were invited to participate in this rule making proceeding by submitting written comments on the proposal to the FAA. One comment was received that expressed no objection. Except for editorial changes, this amendment is that proposed in the notice.

THE RULE

This amendment to Part 71 of the Federal Aviation Regulations (FARs): (1) Extends V-73 from Tulsa, Okla., to Wichita, Kans.; (2) excludes V-132, V-350 and V-354 from the Eureka MOAs during the time that they are activated by NOTAM; (3) designates V-350 from Wichita, Kans., to Chanute, Kans.; and (4) designates V-354 from Pioneer, Okla., to Emporia, Kans.

This action will reduce the time required for flight plan preparation and traffic control communication for flight operations in the southeastern part of Kans. Exclusion of airways from MOAs permits a type of military training that is not compatible with airway operations.

DRAFTING INFORMATION

The principal authors of this document are Everett L. McKisson, Air Traffic Service, and Jack P. Zimmerman, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 307) is amended, effective 0901 G.m.t., August 11, 1977, as follows:

In § 71.123:

1. In V-73 "From Wichita, Kans.," is deleted and "From Tulsa, Okla., via Wichita, Kans.;" is substituted therefor.

2. In V-132 "The airspace 6,000 feet MSL and above is excluded within the Eureka I MOA during the time that it is activated by NOTAM and the Eureka II MOA during the time that it is activated by NOTAM." is added.

3. V-350 is added to read as follows: "V-350 From Wichita, Kans., to Chanute, Kans. The airspace 6,000 feet MSL and above is excluded within the Eureka I MOA during the time that it is activated by NOTAM and the Eureka II MOA during the time that it is activated by NOTAM."

4. V-354 is added to read as follows: "V-354 From Pioneer, Okla., to Emporia, Kans. The airspace 6,000 feet MSL and above is excluded within the Eureka I MOA during the time that it is activated by NOTAM."

(Sec. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on June 9, 1977.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.77-17078 Filed 6-15-77;8:45 am]

[Airspace Docket No. 77-SW-10]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area: Welch, Okla.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment designates a transition area at Welch, Okla., to provide controlled airspace for aircraft executing an instrument approach procedure established for the Patch Airport.

EFFECTIVE DATE: August 11, 1977.

FOR FURTHER INFORMATION CONTACT:

John A. Jarrell, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101; telephone 817-624-4911, extension 302.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to designate a transition area at Welch, Okla., to provide controlled airspace for aircraft executing an instrument approach procedure established for the Patch Airport and coincident with this action the airport would be changed from VFR to IFR.

Interested persons were afforded an opportunity to participate in the rulemaking through submission of comments. All comments received were favorable.

DRAFTING INFORMATION

The principal authors of this document are John A. Jarrell, Airspace and Procedures Branch, and Robert C. Nelson, Office of the Regional Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 440) is amended effective 0901 G.m.t., August 11, 1977, as hereinafter set forth.

In Subpart G, 71.181 (42 FR 440), the following transition area is added.

WELCH, OKLA.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Patch Airport (latitude 36°52'39" N., longitude 95°08'58" W.).

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Forth Worth, Tex., on June 3, 1977.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.77-17081 Filed 6-15-77;8:45 am]

[Airspace Docket No. 77-WE-11]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Temporary Control Zone, Daggett, California

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This rule proposes to establish a temporary control zone for the Barstow-Daggett Airport, Daggett, California. This action will provide controlled airspace for aircraft/helicopters making instrument approaches to the Barstow-Daggett Airport during the "BRAVE SHIELD XVI" joint military exercise.

EFFECTIVE DATE: July 7, 1977.

ADDRESSES: Copies of this final rule may be obtained from: Federal Aviation Administration, Air Traffic Division Chief, Airspace and Procedures Branch, AWE-530, 15000 Aviation Boulevard, Lawndale, California 90261.

FOR FURTHER INFORMATION CONTACT:

Thomas W. Binczak, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261, telephone 213-536-6182.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to Subpart F of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to designate a temporary control zone for the Barstow-Daggett Airport, Daggett, California during the July 7, 1977 through July 23, 1977 time period.

A temporary control tower will be furnished by the Department of the Army with air traffic control services provided by U.S. Army air traffic controller personnel.

Approximately 110 rotary-wing aircraft will be temporarily based at the Barstow-Daggett Airport.

Under the circumstances presented, the FAA concludes that the rule is temporary in nature and does not significantly impose any additional burden on any person but adds to air safety. Therefore, I find notice and public procedure under 5 U.S.C. 553(b) is unnecessary.

DRAFTING INFORMATION

The principal authors of this document are Thomas W. Binczak, Air Traffice Division and Richard G. Wittry, Esquire, Office of the Regional Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart F of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, effective July 7, 1977 through July 23, 1977, as follows:

1. Amend § 71.171 of Part 71, Federal Aviation Regulations to read:

DAGGETT, CALIFORNIA

Within a five mile radius of Barstow-Daggett Airport (latitude 34°51'20" North, longitude 116°47'10" West).

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Los Angeles, California on June 3, 1977.

M. C. BEARD,
Acting Deputy Director,
Western Region.

[FR Doc.77-16829 Filed 6-15-77;8:45 am]

[Airspace Docket No. 77-WA-5]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Federal Airway

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment designates the United States segments of Federal Airways V-348 between Thunder Bay, Ont., Canada; Sault Ste. Marie, Mich., and Sudbury, Ont., Canada. This airway was proposed by the Canadian Department of Transport, to assist the Toronto Air Route Traffic Control Center in the control of flights in that area.

EFFECTIVE DATE: August 11, 1977.

FOR FURTHER INFORMATION CONTACT:

Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone 202-426-3715.

SUPPLEMENTARY INFORMATION:

HISTORY

On March 21, 1977, the FAA published for comment a proposal to establish the United States segments of an airway proposed by the Canadian Department of Transport to extend from Thunder Bay, Ont., via the INT of Thunder Bay 102° and Sault Ste. Marie, Mich., 316° radials; Sault Ste. Marie; INT Sault Ste. Marie 066° and Sudbury, Ont., 282° radials to Sudbury (42 FR 15335). Interested persons were invited to participate in this rule making proceeding by submitting written comments on the proposal to the FAA. The only public comment received expressed no objection. Except for editorial changes, this amendment is that proposed in the notice.

THE RULE

This amendment to Part 71 of the Federal Aviation Regulations (FARs) establishes two small segments of airways within the United States, east and west of Sault Ste. Marie, totaling slightly more than 15 nautical miles. The purpose of this airway is to assist in the control of direct flights from the VORs to INTs and to bypass slower direct flights between VORs.

DRAFTING INFORMATION

The principal authors of this document are Everett L. McKisson, Air Traffic Service, and Jack P. Zimmerman, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart C to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 307) is amended, effective 0901 G.m.t., August 11, 1977, as follows:

In § 71.123 V-348 is added to read as follows: "V-348 From Thunder Bay, Ont., Canada, via INT Thunder Bay 102° and Sault Ste. Marie, Mich., 316° radials; Sault Ste. Marie; INT Sault Ste. Marie 066° and Sudbury, Ont., Canada, 282° radials to Sudbury. The airspace within Canada is excluded."

(Sec. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on June 9, 1977.

WILLIAM E. BROADWATER,
Chief, Airspace and Air
Traffic Rules Division.

[FR Doc.77-17075 Filed 6-15-77;8:45 am]

[Airspace Docket No. 76-EA-39]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of VOR Airway; Extension of VOR Airway

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment extends VOR Airway (V-6) and realigns VOR Airway (V-232) commensurate with the commissioning of the Broadway, N.J., VOR/DME at Lat. 40°47'54" N., Long. 74°49'20" W. This action is necessary in order to provide more efficient air traffic routings to aircraft transiting this area.

EFFECTIVE DATE: August 11, 1977.

FOR FURTHER INFORMATION CONTACT:

David F. Solomon, Airspace Regulations Branch, (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone: 202-426-8530.

SUPPLEMENTARY INFORMATION:

HISTORY

On July 15, 1976, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to extend low altitude airway V-6 from Allentown, Pa., to Broadway, N.J., and to also realign low altitude airway V-232 from Milton, Pa., via Broadway, N.J., intersection of V-123/V-467; to LaGuardia, N.Y., commensurate with the commissioning of the Broadway, N.J., VOR/DME at Lat. 40°47'54" N., Long. 74°49'20" W. The original commissioning date was forecast for January 15, 1977, but the past severe winter season and other unforeseen delays have now reset the commissioning date for August 11, 1977. Interested persons were invited to participate in this rule making proceeding by submitting written comments on the proposals to the FAA. Two comments were received with no objections. Except for editorial changes, this amendment is that proposed in the notice. Section 71.123 was republished in the FEDERAL REGISTER on January 3, 1977 (42 FR 307)

THE RULE

This amendment to Part 71 of the Federal Aviation Regulations (FARs) extends low altitude airway V-6 from Allentown, Pa., to Broadway, N.J., and also realigns low altitude airway V-232 from Milton, Pa., via Broadway, N.J., intersection of V-123/V-467; to LaGuardia, N.Y. This action is necessary in order to provide more efficient air traffic routings to aircraft transiting this area.

DRAFTING INFORMATION

The principal authors of this document are David F. Solomon, Air Traffic Service, and Jack P. Zimmerman, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 307) is amended, effective 0901 G.m.t., August 11, 1977, as follows:

In § 71.123:

1. V-6 "Allentown, Pa.," is deleted and "Allentown, Pa.; to Broadway, N.J." is substituted therefor.

2. V-232 "to INT Milton 099° and Stillwater, N.J., 172° radials." is deleted and "Broadway, N.J.; INT of Broadway 112°T (123°M) and LaGuardia, N.Y., 209°T (221°M) radials; to LaGuardia." is substituted therefor.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE: The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on June 9, 1977.

WILLIAM E. BROADWATER,
Chief, Airspace and Air
Traffic Rules Division.

[FR Doc.77-17076 Filed 6-15-77;8:45 am]

[Airspace Docket No. 77-WA-7]

PART 75—ESTABLISHMENT OF JET ROUTE AND AREA HIGH ROUTES

Relocation of Area High Routes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment relocates three area navigation (RNAV) waypoints slightly to overlie an air navigation aid (NAVAID) or an intersection (INT) of radials from NAVAIDS in the Atlanta, Ga., area. The collocation of these fixes will simplify computer processing and reduce the number of fixes within the Atlanta terminal area.

EFFECTIVE DATE: August 11, 1977.

FOR FURTHER INFORMATION CONTACT:

Everett L. McKisson, Airspace Regulations Branch (AAT-230), Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: 202-426-3715.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to Part 75 of the Federal Aviation Regulations (14 CFR Part 75) is to: (1) relocate the TAXII waypoint to overlie the LaGrange, Ga., VORTAC and be renamed LaGrange in the description of J804R and J814R; (2) relocate the SINCA waypoint to overlie the CORNI INT and be renamed CORNI in the description of J812R, J839R, J869R and J877R; and (3) relocate the LANDS waypoint to overlie the MACEY INT and be renamed MACEY in the description of J815R, J863R, J879R and J881R.

The present waypoints are so near intersections and the LaGrange VORTAC that they are almost collocated. Using two names for practically the same location is confusing and burdensome to the segment of the air traffic control system that is computerized.

Under these circumstances the FAA has concluded that there is a need to take action to eliminate the confusion and relieve the burden caused by having two names for the same location. Because this action merely renames waypoints and moves them slightly, it is a minor matter on which the public would have no particular desire to comment: therefore, notice and public procedure thereon are unnecessary.

DRAFTING INFORMATION

The principal authors of this document are Everett L. McKisson, Air Traffic Service, and Jack P. Zimmerman, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart D of Part 75 of the Federal Aviation Regulations (14 CFR Part 75) as republished (42 FR 722) is amended, effective 0901 GMT, August 11, 1977, as follows:

1. In J804R "TAXII 33°02'35" N. 85°12'27" W. Montgomery, Ala." is deleted and "LaGrange, Ga. 33°02'56" N. 85°12'23" W. Montgomery, Ala." is substituted therefor.

2. In J814R "TAXII 33°02'35" N. 85°12'27" W. Montgomery, Ala." is deleted and "LaGrange, Ga. 33°02'56" N. 85°12'23" W. Montgomery, Ala." is substituted therefor.

3. In J812R "SINCA 33°05'19" N. 83°33'-03" W. Augusta, Ga." is deleted and "CORNI 33°04'52" N. 83°36'18" W. Augusta, Ga." is substituted therefor.

4. In J839R "SINCA 33°05'19" N. 83°33'-03" W. Augusta, Ga." is deleted and "CORNI 33°04'52" N. 83°36'18" W. Augusta, Ga." is substituted therefor.

5. In J869R "SINCA 33°05'19" N. 83°33'-03" W. Augusta, Ga." is deleted and "CORNI 33°04'52" N. 83°36'18" W. Augusta, Ga." is substituted therefor.

6. In J877R "SINCA 33°05'19" N. 83°33'-03" W. Augusta, Ga." is deleted and "CORNI 33°04'52" N. 83°36'18" W. Augusta, Ga." is substituted therefor.

7. In J815R "LANDS 34°19'21" N. 83°40'-53" W. Spartanburg, S.C." is deleted and "MACEY 34°19'37" N. 83°41'45" W. Spartanburg, S.C." is substituted therefor.

8. In J863R "LANDS 34°19'21" N. 83°40'-53" W. Spartanburg, S.C." is deleted and "MACEY 34°19'37" N. 83°41'45" W. Spartanburg, S.C." is substituted therefor.

[Airspace Docket No. 77-WA-10]

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Alteration of Jet Routes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment alters a jet route identified as J-93 between the United States/Mexican Border and Julian, Calif. This action provides for the safe and efficient use of the navigable airspace and is in response to a request of Mexico's Director General of the Civil Aeronautics Office.

EFFECTIVE DATE: August 11, 1977.

FOR FURTHER INFORMATION CONTACT:

Richard Huff, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone 202-426-3715.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to Part 75 of the Federal Aviation Regulations (14 CFR Part 75) is to (1) delete J-93 from Julian, Calif., direct Hermosillo, Mexico, and (2) align J-93 from Julian, Calif., direct Punta Penasco, Mexico. Concurrently, the Mexican Government will: (1) delete the ALTAR and GOLFO intersections associated with J-93; (2) establish a new ALTAP intersection at the J-23 and new J-93 crossing point and (3) establish a new GOLFO intersection at the J-23 and J-5 crossing point.

This action enhances safety by improving and expediting the movement of IFR traffic south of the United States/Mexican Border. Since this amendment is a minor matter on which the public would have no particular desire to comment and no substantive change in the regulations is effected, notice and public procedure thereon are unnecessary.

DRAFTING INFORMATION

The principal authors of this document are Richard Huff, Air Traffic Service, and Jack P. Zimmerman, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart B of Part 75 of the Federal Aviation Regulations (14 CFR Part 75) as republished (42 FR 707) is amended, effective August 11, 1977, as follows:

In § 75.100 Jet Route No. 93 "136°" is deleted and "123°" is substituted therefor.

(Sec. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on June 9, 1977.

WILLIAM E. BROADWATER,
Chief, Airspace and Air
Traffic Rules Division.

Title 18—Conservation of Power and Water Resources

CHAPTER I—FEDERAL POWER COMMISSION

[Docket No. RM77-11; Order No. 567]

ORDER PRESCRIBING CORRECTIONS, MINOR REVISIONS AND CLARIFICATIONS

AGENCY: Federal Power Commission.

ACTION: Final rule.

SUMMARY: By this order the Commission amends certain sections of its Rules in order to correct and eliminate numerous minor errors, oversights, misprints, and deletions, that have occurred over a period of time in the promulgation of the Commission's regulations.

EFFECTIVE DATE: June 16, 1977.

FOR FURTHER INFORMATION CONTACT:

Robert E. Hildebrand, Office of Chief Accountant, 202-275-4067.

SUPPLEMENTARY INFORMATION: On February 22, 1977, the Commission issued a notice of proposed rulemaking in Docket No. RM77-11 (42 FR 12072, March 2, 1977). This rulemaking proposed to correct and eliminate numerous errors, oversights, misprints, deletions, etc., that have occurred over a period of time in the promulgation of the Commission's regulations embodied in Title 18 of the Code of Federal Regulations.

Comments were invited from interested parties on or before March 8, 1977. The Commission received no responses to its proposed rulemaking. There were two requests[1] for an extension of time; these were denied by the Commission on March 11, 1977.

The proposed revisions to Part 3 and to certain regulations in Parts 35 and 154 of the Code of Federal Regulations have been deleted from this proceeding. The revisions to Part 3 proposed in this Notice of Proposed Rulemaking, as well as other revisions to Part 3, were included in Commission Order No. 564 issued on March 30, 1977. The proposed revisions to Parts 35 and 154 relative to the deferred income tax effects of research and development expenditures have been included in Order No. 566 which addresses the research, development, and demonstration project question more fully. Other than the deletions noted above, the rulemaking proposals are being adopted as noticed.

The Commission finds: (1) The notice and opportunity to participate in this rulemaking proceeding with respect to the matters presently before this Commission through the submission, in writing, of data, views, comments and suggestions in the manner described above, are consistent and in accordance with procedural requirements prescribed by 5 U.S.C. 553.

(2) The amendments of the Commission's Regulations herein prescribed are necessary and appropriate for administration of the Federal Power Act and the Natural Gas Act.

(3) Good cause exists for making the amendments adopted herein, effective upon issuance of this order.

The Commission, acting pursuant to the provisions of the Federal Power Act, as amended, particularly Sections 3, 4, 15, 16, 301, 304, 308, and 309 (41 Stat. 1063–1066, 1068, 1072, 1075; 49 Stat. 838, 839, 840, 841, 854–856, 858–859; 82 Stat. 617; 16 U.S.C. 796, 797, 803, 808, 809, 816, 825, 825b, 825c, 825g, 825h, 826l) and of the Natural Gas Act, as amended, particularly Sections 8, 10, and 16 (52 Stat. 825–826, 830; 15 U.S.C. 717g, 717i, 717o), orders:

PART 2—GENERAL POLICY AND INTERPRETATIONS

(A) Part 2, General Policy and Interpretations, of Subchapter A, General Rules, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

(1) In § 2.9, *Conditions in preliminary permits and licenses—list of and citations to "P–" and "L–" Forms*, paragraph (b) is amended by deleting "825 No. Capitol St., NE.," from the last sentence. As amended, this portion of § 2.9 reads:

§ 2.9 Conditions in preliminary permits and licenses—list of and citations to "P–" and "L–" Forms.

* * * * * * *

(b) * * * Forms currently in use, including those which have not yet appeared in the FPC reports, may be obtained from the Office of Public Information, Federal Power Commission, Washington, D.C. 20426.

* * * * * * *

(2) In § 2.12, *Calculation of taxes for property of public utilities and licensees constructed or acquired after January 1, 1970*, the last sentence of the text is amended by revising the title of Account No. 282, "Accumulated Deferred Income Taxes—Liberalized Depreciation." As amended, this portion of § 2.12 reads:

§ 2.12 Calculation of taxes for property of public utilities and licensees constructed or acquired after January 1, 1970.

* * * As to balances in Account 282 of the Uniform System of Accounts, "Accumulated deferred income taxes—Other property," it will remain the Commission's policy to deduct such balances from rate base in rate proceedings.

(3) In § 2.13, *Design and construction*, the last sentence of paragraph (b) is amended by deleting "441 G Street NW." As amended, this portion of § 2.13 reads:

§ 2.13 Design and construction.

* * * * * * *

(b) * * * The guidelines may be obtained from the Office of Public Information, Federal Power Commission, Washington, D.C. 20426.

* * * * * * *

(4) In § 2.60, *Facilities and activities during emergency—accounting treatment of defense-related expenditures*, paragraph (c) is amended by deleting "205" referenced parenthetically. As amended, paragraph (c) reads:

§ 2.60 Facilities and activities during an emergency—accounting treatment of defense-related expenditures.

* * * * * * *

(c) When a person, not otherwise subject to the jurisdiction of the Commission, files an application for a certificate of public convenience and necessity authorizing the construction of facilities to be used solely for operation in a national emergency for the delivery of gas to, or receipt of gas from, a person subject to the Commission's jurisdiction, the Commission will consider a request by such applicant for waiver of the requirement to keep and maintain its accounts in accordance with the Uniform System of Accounts for Natural Gas Companies (Parts 201 and 204 of this chapter) or to file the annual reports to the Commission required by §§ 260.1 and 260.2 of this chapter.

(5) In § 2.67, *Calculation of taxes for property of pipeline companies constructed or acquired after January 1, 1970*, the last sentence of text is amended by revising the title of Account No. 282, "Accumulated Deferred Income Taxes—Liberalized Depreciation." As amended, this portion of § 2.67 reads:

§ 2.67 Calculation of taxes for property of pipeline companies constructed or acquired after January 1, 1970.

* * * As to balances in Account No. 282 of the Uniform System of Accounts, "Accumulated deferred income taxes—Other property," it will remain the Commission's policy to deduct such balances from the rate base of natural gas pipeline companies in rate proceedings.

(6) In § 2.67a, *Policy with respect to the natural gas shortage as it relates to the Revenue Act of 1971*, paragraphs (a)(1)(i), (a)(1)(ii) and (2) are amended by revising the numerical reference, "Account 411.3" to read, "Account Nos. 411.4 and/or 411.5." In addition, delete the parenthesized sentence at the end of paragraph (a)(1)(i). As amended, these portions of § 2.67 read:

§ 2.67a Policy with respect to the natural gas shortage as it relates to the Revenue Act of 1971.

(a) * * *

(1) (i) When the "General Rule" is applicable to a utility, other than a natural gas pipeline company, the amount of the investment credit allowed shall be debited to Accounts 411.4, Investment Tax Credit Adjustments, Utility Operations, and/or 411.5, Investment Tax Credit Adjustments, Nonutility Operations, and credited to Account 255, Accumulated Deferred Investment Tax Credits. The amount in Account 255 shall be amortized to Account 420, Investment Tax Credits, ratably over the book service life of the related property.

(ii) Since the Commission has determined that there is a natural domestic supply of gas insufficient at this time to meet the present and future requirements, natural gas pipeline companies, at their option, may account for the investment credit by either debiting Accounts 411.4, Investment Tax Credit Adjustments, Utility Operations, and/or 411.5, Investment Tax Credit Adjustments, Nonutility Operations, and crediting Account 420, or by debiting Accounts 411.4 and/or 411.5, and crediting Account 255 with amortization from Account 255 to Account 420 over a period of time as selected by the Company.

(2) Under the "Special Rule for Ratable Flow-Through," the utility shall, when this option applies, debit Accounts 411.4 and/or 411.5 and credit Account 255. The amounts in Account 255 shall be amortized to Accounts 411.4 and/or 411.5 over the book service life of the related property.

* * * * * * *

PART 33—APPLICATION FOR SALE, LEASE OR OTHER DISPOSITION, MERGER OR CONSOLIDATION OF FACILITIES, OR FOR PURCHASE OR ACQUISITION OF SECURITIES OF A PUBLIC UTILITY

(B) Part 33—Application for sale, lease or other disposition, merger or consolidation of facilities, or for purchase or acquisition of securities of a public utility, of Subchapter B—Regulations under the Federal power act, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

(1) Paragraph (l) of § 33.2 is amended by revising "(in conformity with § 131.41 of this chapter)" to read "(in the form prescribed by the Commission's Uniform System of Accounts for Public Utilities and Licensees)" to read as follows:

§ 33.2 Contents of application; filing fee.

* * * * * * *

(l) A Statement (in the form prescribed by the Commission's Uniform System of Accounts for Public Utilities and Licensees) * * *

* * * * * * *

(2) Revise Exhibits G, I and J of § 33.3 by:

(a) Revising the entire paragraph.

(b) Revising the entire paragraph.

(c) Exhibit J, changing the word "surplus" to read "Retained Earnings."

As amended and revised, these sections read:

§ 33.3 Required exhibits.

* * * * * * *

Exhibit G. Balance sheets and supporting plant schedules for the most recent 12 month period only, on an actual basis and on a pro forma basis in the form prescribed for Statement A and B of the FPC Annual Report Form No. 1, prescribed by § 141.1 of this chapter. The adjustments necessary to arrive at the pro forma statements should be clearly identified.

* * * * * * *

Exhibit I. Income statement for the most recent 12 month period only, on an actual basis and on a pro forma basis in the form prescribed for Statement C of the FPC Annual Report Form No. 1 prescribed by § 141.1 of this Chapter. The adjustments necessary to arrive at the pro forma statements should be clearly identified.

* * * * * * *

Exhibit J. An analysis of retained earnings * * *

* * * * * * *

PART 34—APPLICATION FOR AUTHORIZATION OF THE ISSUANCE OF SECURITIES OR THE ASSUMPTION OF LIABILITIES

(C) Part 34—Application for Authorization of the Issuance of Securities or the Assumption of Liabilities, of Subchapter B, Regulations under the Federal Power Act, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

(1) Revise Exhibits H, L and M of § 34.3 by:

(a) *Exhibit H*, revising the entire paragraph.

(b) *Exhibit L*, revising the entire paragraph.

(c) *Exhibit M*, changing the word "surplus" to read "Retained Earnings."

As amended, these sections read:

§ 34.3 Required exhibits.

* * * * * * *

Exhibit H. Balance sheets and supporting plant schedules for the most recent 12-month period only, on an actual basis and on a pro forma basis in the form prescribed for Statements A and B of the FPC Annual Report Form No. 1, prescribed by § 141.1 of this Chapter. The adjustments necessary to arrive at the pro forma statements should be clearly identified.

* * * * * * *

Exhibit L. Income statement for the most recent 12 month period only, on an actual basis and on a pro forma basis in the form prescribed for Statement C of the FPC Annual Report Form No. 1, prescribed by § 141.1 of this Chapter. The adjustments necessary to arrive at the pro forma statements should be clearly identified.

* * * * * * *

Exhibit M. An analysis of retained earnings * * *

* * * * * * *

PART 35—FILING OF RATE SCHEDULES

(D) Part 35—Filing of Rate Schedules, of Subchapter B—Regulations under the Federal Power Act, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

(1) Paragraph (b)(4)(iii) of § 35.13 is amended by revising title of Statement C—"Earned Surplus Statement" to read "Statement C—Retained Earnings Statement" and the first sentence by revising the words, "Earned surplus" to read "Retained earnings".

As amended, this section reads:

§ 35.13 Filing of changes in rate schedules.

* * * * * * *

(b) * * *

(4) * * *

(iii) * * *

Statement C—Retained earnings statement. Retained earnings statement * * *

* * * * * * *

PART 101—UNIFORM SYSTEM OF ACCOUNTS PRESCRIBED FOR PUBLIC UTILITIES AND LICENSEES SUBJECT TO THE PROVISIONS OF THE FEDERAL POWER ACT (CLASS A AND CLASS B)

(E) Part 101—Uniform System of Accounts Prescribed for class A and class B Public Utilities and Licensees, of Subchapter C—Accounts, Federal Power Act, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

(1) Revise the title to Part 101 to read as set forth above.

(2) In the preface section of Part 101, under the clarification "Applicability of system of accounts," delete the last two sentences of the second paragraph, which make reference to §§ 102.01–1 and 104.1 and amend the first sentence of the fourth paragraph, by revising the reference to § 103.01–1" to read "§ 103."

As amended, these portions read:

* * * * * * *

Applicability of system of accounts

* * *

This system of accounts is applicable to public utilities, as defined in this part, and to licensees engaged in the generation and sale of electric energy for ultimate distribution to the public.

* * * * * * *

In accordance with the requirements of section 3 of the act (49 Stat. 839; 16 U.S.C. 796(13)), the "classification of investment in road and equipment of steam roads, issue of 1914, Interstate Commerce Commission", is published and promulgated as a part of the accounting rules and regulations of the Commission, and a copy thereof appears as § 103 of this chapter. * * *

* * * * * * *

(3) In the preface section of Part 101, delete the entire portion entitled "Comparison of the uniform system of accounts Prescribed for Public Utilities and Licensees effective Jan. 1, 1937, with the revised system of accounts effective Jan. 1, 1961."

(4) In the title of Part 101 which immediately precedes the Definition section, amend the title to read as follows:

UNIFORM SYSTEM OF ACCOUNTS PRESCRIBED FOR PUBLIC UTILITIES AND LICENSEES SUBJECT TO THE PROVISIONS OF THE FEDERAL POWER ACT (CLASS A AND CLASS B)

(5) In the Definitions sections, amend definition number 5.A, "Associated Companies," by adding "(Affiliated)" to the title.

As amended, number 5.A reads:

Definitions

* * * * * * *

5.A. "Associated (affiliated) companies" * * *

* * * * * * *

(6) In the General Instructions section paragraph B of General; Instruction 1. "Classification of Utilities" is amended by revising the second sentence. As amended paragraph B reads:

General Instructions

1. *Classification of Utilities.*

* * * * * * *

B. This system of accounts applies to Class A and Class B utilities. The system of accounts, applicable to Class C and Class D utilities is issued separately.

* * * * * * *

[1] Carolina Power & Light Company and Salt River Project.

(7) In the Electric Plant Instructions section:

(a) Instruction 7, "Land and Land Rights", paragraph "H" is amended by revising the title of Account No. 111, "Accumulated Provision for Amortization of Electric Plant in Service," referenced parenthetically.

(b) Instruction 10, "Additions and Retirements of Electric Plant", paragraph (C) (3), is amended by changing the word "appropirate" to read "appropriate" and the words "he" and "teh" to read "the."

As amended, this portion of the Electric Plant Instructions reads:

Electric Plant Instructions

* * * * *

7. *Land and Land Rights.*

* * * * *

H. * * * (See account 111, Accumulated Provision for Amorization of Electric Utility Plant, and account 404, Amortization of Limited-Term Electric Plant.)

* * * * *

10. *Additions and Retirements of Electric Plant.*

* * * * *

C. * * * account appropriate for the item; except that if the replacement * * * charged to the appropriate electric plant account.

* * * * *

(8) The title of the chart of accounts for the "Balance Sheet Accounts," is amended and the titles of "Account 203, Preferred Stock Liability for Conversion" and "Account 210, Gain or Resale on Cancellation of Reacquired Capital Stock" are amended to read "Account 203, Common Stock Liability for Conversion" and "Account 210, Gain on Resale or Cancellation of Reacquired Capital Stock," as amended, this reads:

Balance Sheet Chart of Accounts

* * * * *

LIABILITIES AND OTHER CREDITS

5. PROPRIETARY CAPITAL

Sec
203 Common stock liability for conversion.
210 Gain on resale or cancellation of reacquired capital stock.

* * * * *

(9) In the text of the Balance Sheet accounts:

(a) The first sentence of Account 120.5, "Accumulated Provision for Amortization of Nuclear Fuel Assemblies," is amended by adding the word "Expense" to the title of "Account 518, Nuclear Fuels."

(b) The title of "Account 157, Nuclear Materials held for sale" is amended to read "Account 157, Nuclear materials held for sale."

As amended, this portion of the Balance Sheet Accounts reads:

Balance Sheet Accounts

ASSETS AND OTHER DEBITS

* * * * *

120.5 Accumulated provision for amortization of nuclear fuel assemblies.

A. This account shall be credited and account 518, Nuclear fuel expense, * * *

* * * * *

157 Nuclear materials held for sale.

* * * * *

(10) The title of the chart of accounts for the "Electric Plant Accounts," is amended to read as follows:

Electric Plant Chart of Accounts

(11) The title of the chart of accounts for the "Income Accounts," is amended to read as follows:

Income Chart of Accounts

(12) The title of the chart of accounts for the "Retained Earnings Accounts," is amended to read as follows:

Retained Earnings Chart of Accounts

(13) The title of the chart of accounts for the "Operating Revenue Accounts," is amended to read as follows:

Operating Revenue Chart of Accounts

(14) The title of the chart of accounts for the "Operation and Maintenance Expense Accounts," is amended to read as follows:

Operation and Maintenance Expense Chart of Accounts

PART 104—UNIFORM SYSTEM OF ACCOUNTS PRESCRIBED FOR PUBLIC UTILITIES AND LICENSEES SUBJECT TO THE PROVISIONS OF THE FEDERAL POWER ACT (CLASS C AND CLASS D)

(F) Part 104—Uniform System of Accounts for Public Utilities and Licensees (Class C and Class D), of Subchapter C—Accounts, Federal Power Act, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

(1) The title to Part 104 is amended to read as set forth above.

(2) In the preface section delete the entire portion entitled "Comparison of the uniform system of accounts prescribed for Public Utilities and Licensees effective Jan. 1, 1938, with the revised system of accounts effective Jan. 1, 1961."

(3) In the title of Part 104 which immediately precedes the Definitions section, the title is amended to read as follows:

UNIFORM SYSTEM OF ACCOUNTS PRESCRIBED FOR PUBLIC UTILITIES AND LICENSEES SUBJECT TO THE PROVISIONS OF THE FEDERAL POWER ACT CLASS C AND CLASS D)

(4) In the Electric Plant Instructions section:

(a) Electric Plant Instruction 9, "Additions and Retirements of Electric Plant," paragraph F, is amended by revising the title of Account 110, "Accumulated Provision for Depreciation and Amortization of Electric Plant," to read "Accumulated Provision for Depreciation and Amortization of Electric Utility Plant,"

As amended, this portion of the Electric Plant Instructions reads:

Electric Plant Instructions

* * * * *

9. *Additions and Retirements of Electric Plant.*

* * * * *

F. The book cost less net salvage of electric plant retired shall be charged in its entirety to account 110, Accumulated Provision for Depreciation and Amortization of Electric Utility Plant. Any amounts which, by approval or order of the Commission, are charged to account 182, Extraordinary Property Losses, shall be credited to account 110, Accumulated Provision for Depreciation and Amortization of Electric Utility Plant.

* * * * *

(5) The title of the chart of accounts for the "Balance Sheet Accounts," is amended to read as follows:

Balance Sheet Chart of Accounts

(6) The title of the chart of accounts for the "Electric Plant Accounts," is amended to read as follows:

Electric Plant Chart of Accounts

(7) The title of the chart of accounts for the "Income Accounts," is amended to read as follows:

Income Chart of Accounts

(8) The title of the chart of accounts for the "Retained Earnings Accounts," is amended to read as follows:

Retained Earnings Chart of Accounts

(9) The title of the chart of accounts for the "Operating Revenue Accounts," is amended to read as follows:

Operating Revenue Chart of Accounts

(10) The title of the chart of accounts for the "Operation and Maintenance Expense Accounts," is amended and the title of section 6, "Administration and General Expenses," of the chart of accounts, is amended. As amended, this section reads:

Operation and Maintenance Expense Chart of Accounts

* * * * *

6. Administrative and General Expenses.

* * * * *

PART 125—PRESERVATION OF RECORDS OF PUBLIC UTILITIES AND LICENSEES

(G) Part 125—Preservation of Records of Public Utilities and Licensees, of Subchapter C—Accounts, Federal Power Act, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

(1) § 125.2, "General instructions," paragraph (g) (iii) is amended by revising subparagraph (iii), "Be stored in such a manner as to certification, when damaged," to read "Be regenerated, including proper certification, when damaged."

As amended, subparagraph (iii) reads:

§ 125.2 General instructions.

* * * * *

(g) Media. * * *

(iii) Be regenerated, including proper certification, when damaged. * * *

* * * * *

PART 131—FORMS

(H) Part 131—Forms, of Subchapter D—Approved Forms, Federal Power Act, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

§ 131.40 [Deleted]

§ 131.41 [Deleted]

§ 131.42 [Deleted]

Delete entire § 131.40, Balance sheet, § 131.41, Classification of utility plant and reserves applicable to utility plant, and § 131.42, Comparative income statement.

PART 141—STATEMENTS AND REPORTS (SCHEDULES)

(I) Part 141—Statements and Reports (Schedules), of Subchapter D—Approved Forms, Federal Power Act, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

(1) Paragraph (d) of § 141.1 is amended by:

(a) Relocating "Nuclear Fuel Materials" schedule following Attestation to a location immediately following the schedule "Statement of Changes in Financial Position—Statement E."

(b) Immediately following "Miscellaneous Deferred Debits," deleting the schedule "Deferred Regulatory Commission Expenses."

(c) Revising the title of schedule "Rents Charged," to read "Lease Rentals Charged."

As amended, these portions of paragraph (d) read:

§ 141.1 Form No. 1, Annual report for electric utilities, licensees and others (Class A and Class B).

* * * * *

(d) This annual report contains the following schedules:

* * * * *

Statement of Changes in Financial Position—Statement E.
Nuclear Fuel Materials.

* * * * *

Lease Rentals Charged.

* * * * *

PART 154—RATE SCHEDULES AND TARIFFS

(J) Part 154—Rate Schedules and Tariffs, of Subchapter E—Regulations under the Natural Gas Act, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

(1) Under § 154.38(d) (4) the first sentence of Footnote No. 1 is amended.

(2) Section 154.38 is amended by deleting paragraphs (c) and (f) following paragraph (d) (4) (iv) (b).

As amended and revised, those sections read:

§ 154.38 Composite of rate schedule.

* * * * *

(d) * * *

(3) Section 154.63(f) is amended by amending Statement H(2) as follows:

§ 154.63 Changes in a tariff, executed service agreement or part thereof.[1]

(f) *Description of statements.* * * *

Statement H(2)—* * * The amounts of depreciable plant shall be shown by the functions specified in Paragraph C of Account 108, Accumulated Provision for Depreciation of Gas Utility Plant of the Commission's Uniform System of Accounts for Natural Gas Companies, and, if available, for each detailed plant account (300 Series) together with the rates used in computing such expenses. * * *

* * * * *

PART 201—UNIFORM SYSTEM OF ACCOUNTS PRESCRIBED FOR NATURAL GAS COMPANIES SUBJECT TO THE PROVISIONS OF THE NATURAL GAS ACT (CLASS A AND CLASS B)

(K) Part 201—Uniform System of Accounts for Natural Gas Companies, of Subchapter F Accounts, Natural Gas Act, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

(1) The title of Part 201 is amended to read as set forth above.

(2) In the preface section delete the entire portion entitled "Comparison of the uniform system of accounts prescribed for natural gas companies effective Jan. 1, 1940, with the revised system of accounts effective Jan. 1, 1961."

(3) In the title of Part 201 which immediately precedes the Definitions section, the title is amended to read as follows:

UNIFORM SYSTEM OF ACCOUNTS PRESCRIBED FOR NATURAL GAS COMPANIES SUBJECT TO THE PROVISIONS OF THE NATURAL GAS ACT (CLASS A AND CLASS B)

(4) In the General Instructions section:

(a) General Instruction 1, paragraph B "Classification of Utilities," is amended by revising the second sentence.

(b) General Instruction 16, "Significance of Commission Opinion Nos. 568 and 568A on accounting," is amended by changing "Gas Plant in Service" to "Gas Utility Plant" in paragraph B. As amended, this portion reads:

General Instructions

1. *Classification of Utilities.*

* * * * *

B. This system of accounts applies to Class A and Class B utilities. The system of accounts applicable to Class C and Class D utilities is issued separately.

* * * * *

16. *Significance of Commission Opinion Nos. 568 and 568A on accounting.*

B. * * * among others:

108 Accumulated Provision for Depreciation of Gas Utility Plant.

* * * * *

(5) In the Gas Plant Instructions section:

(a) Gas Plant Instruction No. 3, "Components of construction cost," first sentence of note to subparagraph (17) is amended by revising "Electric Plant in Service" to read "Gas Utility Plant."

As amended, this portion of the Gas Plant Instructions reads:

Gas Plant Instructions

* * * * *

3. *Components of construction cost.*

* * * * *

(17) * * *

NOTE: * * * as "Gas Utility Plant" and * * *

* * * * *

(6) The title of the Chart of Accounts for the "Balance Sheet Accounts," is amended to read as follows:

Balance Sheet Chart of Accounts

(7) In the text of Balance Sheet Accounts:

(a) The text of Account 103, "Experimental Gas Plant Unclassified," last sentence of paragraph B is amended by deleting the word "an".

(b) The text of Account 105, "Gas Plant Held for Future Use," paragraphs A and B and Note B is amended by revising the date "on or before October 6, 1969" to read "on or before October 7, 1969."

(c) The text of Account 105.1, "Production Properties Held for Future Use," paragraph A and B, is amended by revising the date "on or after October 7, 1939." to read "on or after October 8, 1969."

(d) The text of Account 106, "Completed Construction Not Classified—Gas" is amended by revising the word "has" to read "have".

(e) Note A to text of Account 107, "Construction Work in Progress—Gas," is amended by revising "instruction 16." to read "instruction 15."

(f) Item (5) in the second sentence in paragraph C of Account 111, "Accumulated Provision for Amortization and Depletion of Gas Utility Plant," is amended by revising the word "local" to read "other."

[1] For the purposes of this subsection, purchased gas cost represents the cost of wellhead purchases, field line purchases, plant outlet purchases, transmission line purchases, and from pipeline production that qualifies for and is being afforded area or nationwide rate treatment. * * *

[1] The provisions of this section shall not be applicable to filings made pursuant to §§ 154.81 through 154.86, unless such filing results in a change in rate, charge, classification or service.

(g) Paragraph A of Account 186, "Miscellaneous Deferred Debits," is amended by revising "instruction 16A," to read "instruction 15A."

(h) First sentence of paragraph B of Account 255, "Accumulated Deferred Investment Tax Credits" is amended by revising "electric utility property" to read "gas utility plant."

As amended, this portion of the text of the Balance Sheet Accounts reads:

Balance Sheet Accounts

ASSETS AND OTHER DEBITS

* * * * *

103 Experimental gas plant unclassified.

* * * * *

B. Prior to transfer to account 101 * * *

* * * * *

105 Gas plant held for future use.

A. * * * on or before October 7, 1969.

* * * * *

B. * * * on or before October 7, 1969, * * *

* * * * *

NOTE B: * * * on or before October 7, 1969.

* * * * *

105.1 Production properties held for future use.

A. * * * on or after October 8, 1969, * * *

* * * * *

B. * * * on or after October 8, 1969, * * *

* * * * *

106 Completed construction not classified—Gas.

At the end of the year or such other date as a balance sheet may be required by the Commission, this account shall include the total of the balances of work orders for gas plant which have been completed and placed in service but which work orders have not been classified for transfer to the detailed gas plant accounts.

* * * * *

107 Construction work in progress—Gas.

* * * * *

NOTE A: This account shall include certificate application fees paid to the Federal Power Commission as provided for in gas plant instruction 15.

* * * * *

111 Accumulated provision for amortization and depletion of gas utility plant.

* * * * *

C. * * * (5) other storage, * * *

* * * * *

186 Miscellaneous deferred debits.

A. * * * instruction 15A, * * *

(8) Amend the title of the chart of accounts for the "Gas Plant Accounts," to read as follows:

Gas Plant Chart of Accounts

(9) The text of the next to the last sentence of the special instructions applicable to "B.1 Natural Gas Production and Gathering Plant" accounts is amended by changing Account 403, Depreciation and Depletion Expense to read Account 404.1, Amortization and Depletion of Producing Natural Gas Land and Land Rights. As amended, this instruction reads:

Gas Plant Chart of Accounts

* * * * *

B. NATURAL GAS PRODUCTION PLANT

B.1 Natural gas production and gathering plant.

Special Instruction—Costs Related to Leases Acquired After October 7, 1969. * * * by debiting Account 404.1, Amortization and Depletion of Producing Natural Gas Land and Land Rights. * * *

* * * * *

380 [Amended]

(10) Delete the Note following item 12 of Account 380, "Services."

(11) The title of the chart of accounts for the "Income Accounts," is amended to read as follows:

Income Chart of Accounts

(12) The title of the chart of accounts for the "Retained Earnings Accounts," is amended to read as follows:

Retained Earnings Chart of Accounts

(13) The title of the chart of accounts for the "Operating Revenue Accounts," is amended to read as follows:

Operating Revenue Chart of Accounts

(14) The title of the chart of accounts for the "Operation and Maintenance Expense Accounts," is amended to read as follows:

Operation and Maintenance Expense Chart of Accounts

PART 204—UNIFORM SYSTEM OF ACCOUNTS PRESCRIBED FOR NATURAL GAS COMPANIES SUBJECT TO THE PROVISIONS OF THE NATURAL GAS ACT (CLASS C AND CLASS D)

(L) Part 204—Uniform System of Accounts for Natural Gas Companies (class C and class D), of Subchapter F, Accounts, Natural Gas Act, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

(1) The title of Part 204 is amended and the preface section is amended by deleting the entire portion entitled "Comparison of the uniform system of accounts prescribed for natural gas companies, effective Jan. 1, 1940, with the revised system of accounts effective Jan. 1, 1961." As amended, the title reads as set forth above.

(2) In the title of Part 204 which immediately precedes the Definition section, the parenthetical reference, "(Class C)," is amended to read as follows:

UNIFORM SYSTEM OF ACCOUNTS PRESCRIBED FOR NATURAL GAS COMPANIES SUBJECT TO THE PROVISIONS OF THE NATURAL GAS ACT (CLASS C AND CLASS D)

(3) Paragraph H of Gas Plant Instruction 6, "Land and Land Rights," is amended.

(4) The title of Gas Plant Instruction 9, "Additions and Requirements of Gas Plant," is amended and paragraph F by revising the title of Account 110, "Accumulated Provision for Depreciation, Depletion and Amortization of Gas Plant," is amended to read "Accumulated Provision for Depreciation, Depletion and Amortization of Gas Utility Plant."

As amended, the General Plant Instruction reads:

Gas Plant Instructions

* * * * *

6. Land and Land Rights.

* * * * *

H. * * * (See account 403, Depreciation and Depletion Expense, and account 110, Accumulated Provision for Depreciation, Depletion and Amortization of Gas Utility Plant, * * *

* * * * *

9. Additions and Retirements of Gas Plant.

* * * * *

F. The book cost less net salvage of gas plant retired shall be charged in its entirety to account 110, Accumulated Provision for Depreciation, Depletion and Amortization of Gas Utility Plant. Any amounts which, by approval or order of Commission, are charged to account 182, Extraordinary Property Losses, shall be credited to account 110, Accumulated Provision for Depreciation, Depletion Amortization of Gas Utility Plant.

* * * * *

(5) The title of the chart of accounts for the "Balance Sheet Accounts," is amended to read as follows:

Balance Sheet Chart of Accounts

(6) The title of the chart of accounts for the "Gas Plant Accounts," is amended to read as follows:

Gas Plant Chart of Accounts

(7) Delete Note to Account 380, "Services."

(8) The title of the chart of accounts for the "Income Accounts," is amended to read as follows:

Income Chart of Accounts

(9) The title of the chart of accounts for the "Retained Earnings Accounts," is amended to read as follows:

Retained Earnings Chart of Accounts

(10) The title of the chart of accounts for the "Operating Revenue Accounts," is amended to read as follows:

Operating Revenue Chart of Accounts

(11) The title of the chart of accounts for the "Operation and Maintenance Expense Accounts," is amended to read as follows:

Operation and Maintenance Expense Chart of Accounts

PART 260—STATEMENTS AND REPORTS (SCHEDULES)

(M) Part 260—Statements and Reports (Schedules), of Subchapter G—Approved Forms, Natural Gas Act, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

(1) Paragraph (c) of § 260.1 is amended by:

(a) Revising the title of schedule "Statement of Earned Surplus for the Year—Statement D" to read "Statement of Retained Earnings for the Year—Statement D."

(b) Revising title of schedule "Gas Stored Underground" to read "Gas Stored."

(c) Revising title of schedule "Prepaid Gas Purchases Under Purchase Agreements" to read "Gas Prepayments Under Purchase Agreements," and relocating schedule to immediately follow "Extraordinary Property Losses."

(d) Relocating "Advances for Gas Prior to Initial Deliveries or Commission Certification (Accounts 124, 166, and 167)," to immediately follow "Gas Prepayments Under Purchase Agreements."

(e) Deleting schedule "Deferred Regulatory Commission Expenses."

(f) Revising title of schedule, "Accrued and Prepaid Taxes," to read "Taxes Accrued, Prepaid and Charged During Year."

(g) Adding schedule titled "Gain or Loss on Disposition of Property," immediately following "Accumulated Deferred Investment Tax Credits."

(h) Adding schedule titled "Extraordinary Items," immediately following "Expenditures for Certain Civic, Political and Related Activities."

(i) Deleting schedule titled "Taxes Charged During Year."

(j) Adding schedule inadvertently left out, titled "Production Property Held for Future Use," immediately following "Gas Plant Held for Future Use."

(k) Revising title of schedule "Main Line Industrial Sales of Natural Gas," to read "Field and Main Line Industrial Sales of Natural Gas."

(l) Revising title of schedule "Underground Gas Storage," to read "Gas Storage."

As amended, this portion reads:

§ 260.1 Form No. 2, Annual report for natural gas companies (Class A and Class B).

* * * * *

(c) This annual report contains the following schedules:

* * * * *

Notes to Statement of Income—Statement C (Continued).
Statements of Retained Earnings for the Year—Statement D.

* * * * *

Materials and Supplies.
Gas Stored.

* * * * *

Extraordinary Property Losses.
Gas Prepayments Under Purchase Agreements.
Advances for Gas Prior to Initial Deliveries or Commission Certification (Accounts 124, 166, and 167).

* * * * *

Payables to Associated Companies.
Taxes Accrued, Prepaid and Charged During Year.

* * * * *

Accumulated Deferred Investment Tax Credits.
Gain or Loss on Disposition of Property.

* * * * *

Expenditures for Certain Civic, Political and Related Activities.
Extraordinary Items.

* * * * *

Gas Plant Held for Future Use.
Production Property Held for Future Use.

* * * * *

Interruptible, Off Peak, and Firm Sales to Distribution System Industrial Customers.
Field and Main Line Industrial Sales of Natural Gas.

* * * * *

Field and Storage Lines.
Gas Storage.

* * * * *

(2) § 260.2, paragraph (c) is amended by adding schedules, "Investment Tax Credits—Generated and Utilized" and "Accumulated Deferred Investment Tax Credits."

As amended, this portion reads:

§ 260.2 Form No. 2–A; Annual report for natural gas companies (Class C and Class D).

* * * * *

(c) This annual report contains the following schedules:

* * * * *

General Information Concerning Plant and Operations.
Investment Tax Credits—Generated and Utilized.
Accumulated Deferred Investment Tax Credits.

* * * * *

(N) The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17263 Filed 6-15-77;8:45 am]

Title 24—Housing and Urban Development

SUBTITLE A—OFFICE OF THE SECRETARY, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-77-350]

PART 16—IMPLEMENTATION OF THE PRIVACY ACT OF 1974 SPECIFIC EXEMPTIONS

AGENCY: Office of the Secretary, HUD.

ACTION: Interim rule.

SUMMARY: The Secretary is amending HUD's Privacy Act Regulations to give the public notice of recently adopted specific exemptions exercised by the Department. The Secretary is also making a minor editorial change that substitutes the term "Privacy Act Officer" for "Privacy Officer" wherever it appears in Part 16. This change conforms to the wording of the Act.

DATES: Effective: June 17, 1977. Comments due no later than July 18, 1977.

ADDRESS: Rules Docket Clerk, Office of the Secretary, Room 5218, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410.

FOR FURTHER INFORMATION CONTACT:

Mr. Harold Rosenthal, Departmental Privacy Act Officer; telephone 202–755–5192.

SUPPLEMENTARY INFORMATION: This amendment exempts records contained in HUD systems of records identified in this rule so that the person who is a subject of the records may be denied: (1) Access to the records; (2) the opportunity to correct or amend the records; and (3) an accounting of non-HUD sources which have received the records. These exemptions have been previously adopted as part of the Notice of Systems of records and are hereby being incorporated into the Department's Code of Federal Regulations to provide greater visibility to the public.

The specific exemptions provided for by 5 U.S.C. 552a(k) were published on August 28, 1975, at 40 FR 39738 and adopted on October 8, 1975, at 40 FR 47435, effective September 27, 1975, for the following systems of records: (1) Investigation Files in the Office of the Inspector General (HUD/DEPT–24); (2) Legal Action Files (HUD/DEPT–25); and (3) Interstate Land Sales Registration Investigation (HUD/OILSR–2). The Secretary adopted on April 26, 1977, at 42 FR 21323 a specific exemption under 5 U.S.C. 552a(k)(2) in an amendment to the system entitled Equal Opportunity Housing Complaints (HUD/DEPT–15). This amendment incorporates the previously adopted specific exemptions in the Department's Privacy Act Regulations at Section 16.15.

The Secretary has determined that comment and public procedure prior to adoption of this Amendment is impracticable and good cause exists for making this amendment effective June 17, 1977, since a delay in adoption of this rule could result in disclosures which might seriously interfere with the Department's ability to perform its functions. Interested persons are invited to submit written comments on or before July 18, 1977.

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD Handbook 1390.1. A copy of this Finding of Inapplicability will be available for public inspection during

regular business hours at the address set forth above.

It is hereby certified that the economic and inflationary impacts of this interim rule have been carefully evaluated in accordance with OMB Circular A–107.

Accordingly, Part 16 of Subpart A of Title 24 of the Code of Federal Regulations is amended as follows:

1. Section 16.15 is amended to read:

§ 16.15 Specific exemptions.

Whenever the Secretary of Housing and Urban Development determines it to be necessary and proper, with respect to any system of records maintained by the Department, to exercise the right to promulgate rules to exempt such systems in accordance with the provisions of 5 U.S.C. 552a(k), each specific exemption, including the parts of each system to be exempted, the provisions of the Act from which they are exempted, and the justification for each exemption shall be published in the FEDERAL REGISTER as part of the Department's Notice of Systems of Records.

(a) Exempt under 5 U.S.C. 552a(k)(2) from the requirements of 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4) (G), (H), and (I), and (f). This exemption allows the Department to withhold records compiled for law enforcement purposes. The reasons for adopting this exemption are to prevent individuals, who are the subjects of investigation, from frustrating the investigatory process, to ensure the integrity of the investigatory process, to ensure the integrity of law enforcement activities, to prevent disclosure of investigative techniques, and to protect the confidentiality of sources of information. The names of systems correspond to those published in the FEDERAL REGISTER as part of the Department's Notice of Systems of Records.

(1) HUD/DEPT–15. Equal Opportunity Housing Complaints.
(2) HUD/DEPT–24. Investigation Files in the Office of the Inspector General.
(3) HUD/DEPT–25. Legal Action Files.
(4) HUD/OILSR–2. Interstate Land Sales Registration Investigation.

(b) Exempt under 5 U.S.C. 552(k)(5) from the requirements of 5 U.S.C. 552a (c)(3), (d), (e)(1), (e)(4), (G), (H), and (I), and (f). This exemption allows the Department to withhold records compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment, Federal contracts, or access to classified material. The reasons for adopting this exemption are to insure the proper functioning of the investigatory process, to insure effective determination of suitability, eligibility and qualification for employment and to protect the confidentiality of sources of information. The names of systems correspond to those published in the FEDERAL REGISTER as part of the Department's Notice of Systems of Records.

(1) HUD/DEPT–24. Investigation Files in the Office of the Inspector General.
(2) HUD/DEPT–25. Legal Action Files.
(3) HUD/OILSR–2. Interstate Land Sales Registration Investigation.

2. The term "Privacy Officer" is changed to read "Privacy Act Officer" wherever that term appears in Sections 16.2, 16.3, 16.4, 16.5, 16.6, 16.8, 16.9, 16.10, 16.11, 16.12, and Appendix A.

(5 U.S.C. 552a; sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d)).)

Issued at Washington, D.C., June 13, 1977.

PATRICIA ROBERTS HARRIS,
Secretary of Housing and Urban Development.

[FR Doc.77–17262 Filed 6–15–77;8:45 am]

Title 33—Navigation and Navigable Waters

CHAPTER II—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 77–020]

PART 110—ANCHORAGE REGULATIONS

Administrative Change; Captain of the Port, Southeast Alaska

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: These amendments to the anchorage regulations rename the Captain of the Port, Ketchikan, Alaska, as Captain of the Port, Southeast Alaska. These amendments bring this section of the Code of Federal Regulations into agreement with a previous administrative change.

EFFECTIVE DATE: These amendments are effective on June 16, 1977.

FOR FURTHER INFORMATION CONTACT:

Captain George K. Greiner, Marine Safety Council, (G–CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590 (202–426–1477).

SUPPLEMENTARY INFORMATION: Since these amendments are matters relating to agency organization, they are exempt from the Notice of Proposed Rulemaking requirements in 5 U.S.C. 553(b)(3)(A) and since these amendments are not substantive, they may be made effective in less than 30 days after publication in the FEDERAL REGISTER under 5 U.S.C. 553(d)(2).

DRAFTING INFORMATION

The principal persons involved in the drafting of this rule are: Ensign George W. Molessa, Jr., Project Manager, Office of Marine Environment and Systems, and Lieutenant William Kerivan, Project Attorney, Office of Chief Counsel.

DISCUSSION OF REGULATION

The Captain of the Port, Ketchikan, Alaska, was previously renamed as the Captain of the Port, Southeast Alaska. To reflect that change the Coast Guard is taking this action in updating the anchorage regulations.

In consideration of the foregoing, Part 110 of Title 33, Code of Federal Regulations, is amended as follows:

§ 110.232 [Amended]

1. In § 110.232(b)(2), by striking the words "Captain of the Port, Ketchikan, Alaska", and inserting the words "Captain of the Port, Southeast Alaska" in place thereof.

2. In § 110.232(b)(4), by striking the words "Captain of the Port, Ketchikan, Alaska", and inserting the words "Captain of the Port, Southeast Alaska", in place thereof.

(33 U.S.C. 471; 49 U.S.C. 1655(g)(1); 49 CFR 1.46(c).)

Dated: June 10, 1977.

O. W. SILER,
Admiral, U.S. Coast Guard Commandant.

[FR Doc.77–17218 Filed 6–15–77;8:45 am]

[CGD 76–41]

PART 110—ANCHORAGE REGULATIONS

Disestablishment of Anchorage H–2 (Explosives), Hampton Roads, Virginia

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The U.S. Navy has advised the Coast Guard that Explosives Anchorage H–2 located in Hampton Roads, Virginia has not been used for the past four years and has recommended that the anchorage be disestablished. The Coast Guard concurs with this recommendation and this amendment disestablishes this anchorage.

EFFECTIVE DATE: This amendment is effective on June 16, 1977.

FOR FURTHER INFORMATION CONTACT:

Captain George K. Greiner, Marine Safety Council (G–CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590, 202–426–1477.

SUPPLEMENTARY INFORMATION: This Explosives Anchorage was established at the request of the U.S. Navy to service Naval vessels. Since U.S. Naval vessels were the only vessels authorized to use this anchorage, the Coast Guard has determined that it is unnecessary to go through the rulemaking requirements under 5 U.S.C. 553, and it may be made effective in less than 30 days.

DRAFTING INFORMATION

The principal persons involved in drafting this rule are: LCDR H. E. Snow, Project Manager, Office of Marine Environment and Systems, and Mr. S. D. Jackson, Project Attorney, Office of Chief Counsel.

§ 110.168 [Amended]

In consideration of the foregoing, Title 33 of the Code of Federal Regulations is amended by revoking § 110.168(a)(6–a).

(Sec. 7, 38 Stat. 1053, as amended (33 U.S.C. 471) Sec. 6(g)(1)(a), 80 Stat. 937 (49 U.S.C. 1655 (g)(1)(a); 49 CFR 1.46(c)(1)).)

Dated: June 10, 1977.

O. W. SILER,
Admiral, U.S. Coast Guard Commandant.

Title 41—Public Contracts and Property Management

CHAPTER 7—AGENCY FOR INTERNATIONAL DEVELOPMENT, DEPARTMENT OF STATE

[AIDPR Notice 77–4]

PART 7–30—CONTRACT FINANCING

Procurement Regulations; Miscellaneous Amendments

Correction

In FR Doc. 77–2314 appearing at page 4841 in the issue for Wednesday, January 26, 1977, in Appendix G, on page 4844, in the first column, in paragraph "(4) Procedures," the sixth line should read: "tive, reviews the contract records to identify".

Title 46—Shipping

CHAPTER III—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 77–045]

PART 401—GREAT LAKES PILOTAGE REGULATIONS

Great Lakes Pilotage Rates

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: This amendment to the Great Lakes Pilotage Regulations increases pilotage rates by 15 percent in Districts 1 and 3, and by 19 percent in the Welland Canal. This amendment is necessary in order to increase U.S. pilot compensation which presently does not meet U.S. target pilot compensation levels. It also has the effect of increasing the amount a vessel pays for the services of U.S. registered pilots.

EFFECTIVE DATE: This amendment is effective on June 22, 1977.

FOR FURTHER INFORMATION CONTACT:

Captain George K. Greiner, Marine Safety Council (G–CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590, 202–426–1477.

SUPPLEMENTARY INFORMATION: On April 18, 1977, the Coast Guard published a proposed rule in the FEDERAL REGISTER (42 FR 20162) concerning this amendment. Interested persons were given until May 18, 1977, to submit comments. Five comments were received.

This rule is effective in less than 30 days from publication in order to have the effective date of this rule coincide with the effective date of the Canadian rule thus allowing both countries to maintain identical rates for the same pilotage services provided by U.S. and Canadian pilots.

DRAFTING INFORMATION

The principal persons involved in drafting this rule are: John J. Hartke, III, Project Manager, Office of Merchant Marine Safety, and Stephen D. Jackson, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF MAJOR COMMENTS

Four comments stated that the proposed rate increase was not sufficient to make pilot compensation comparable to the pilot's licensed counterparts on the Great Lakes. The District 2 Pilot Association commented that the rates in the area serviced by the U.S. District 2 pilots should be increased across the board.

In the development of the proposed rate increase a number of factors were taken into consideration, including: projecting the volume of ocean vessel traffic, determination of the number of pilots required to service the expected traffic based on existing pilot workload standards (1,000 hours per pilot per season in designated waters and 2,000 hours per pilot per season in undesignated waters), anticipated operating costs of the pilot associations, and the determination of target pilot compensation. Because the area of compensation is by its nature somewhat imprecise, we first obtained data from the U.S. Maritime Administration regarding current compensation levels for Masters and Chief Mates on U.S. Great Lakes vessels. We then conducted further research to ensure reasonable figures. We are satisfied that the figures used for target pilot compensation are fair.

Using the same rate development methodology as in prior years and applying that methodology consistently in all 3 districts throughout the system, the rate increase as proposed should produce pilot compensation comparability with the pilots' licensed counterparts on U.S. Great Lakes vessels and should enable the U.S. pilotage system to be self-supporting.

The Welland Canal is situated entirely within Canada and U.S. pilots are presently not providing services there. Canada is withdrawing the proposed dock/undock charge and accordingly, we are not adopting the dock/undock charge in the Welland Canal and we are deleting (iii) in § 401.405(b)(1).

The comments received have been considered, and the proposed rate changes in Part 401 of Title 46 of the Code of Federal Regulations, with the exception of the one change as indicated, are hereby adopted without change and are set forth below.

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended, and OMB Circular A–107.

Dated: June 10, 1977.

O. W. SILER,
Admiral, U.S. Coast Guard Commandant.

Part 401 of Title 46 of the Code of Federal Regulations is amended as follows:

1. By revising § 401.405 to read as follows:

§ 401.405 Basic rates and charges on designated waters.

Except as provided under §401.420, the following basic rates shall be payable for all services and assignments performed by U.S. Registered Pilots in the areas described in § 401.300:

(a) District 1:

(1) For passage through the District or any part thereof, $5 for each statute mile, plus $68 for each lock transited, but with a minimum basic rate of $151 and a maximum basic rate for a through trip of $664.

(2) For a movage in any harbor, $227.

(b) District 2:

(1) Passage through the Welland Canal or any part thereof, $19 for each statute mile, plus $70 for each lock transited but with a minimum basic rate of $235 and a maximum basic rate for a through trip of $866. When U.S. pilots are changed at Lock 7 on a through trip, the basic rates are apportioned as follows:

(i) Between northerly limits and Lock 7, $433.

(ii) Between Lock 7 and southerly limits, $433.

(2) Southeast Shoal to Toledo or any point on Lake Erie west of Southeast Shoal, $335.

(3) Between points on Lake Erie west of Southeast Shoal, $198.

(4) Southeast Shoal to Port Huron Change Point or any point on the St. Clair River when pilots are not changed at Detroit Pilot Boat, $584.

(5) Southeast Shoal to Detroit/Windsor or any point on the Detroit River, $335.

(6) Southeast Shoal to Detroit Pilot Boat, $243.

(7) Toledo or any point on Lake Erie west of Southeast Shoal and Port Huron Change Point, when pilots are not changed at Detroit Pilot Boat, $676.

(8) Toledo or any point on Lake Erie west of Southeast Shoal and Detroit/Windsor or any point on the Detroit River, $435.

(9) Toledo or any point on Lake Erie west of Southeast Shoal and the Detroit Pilot Boat, $335.

(10) Detroit/Windsor or any point on the Detroit River and between points on the Detroit River, $198.

(11) Detroit/Windsor or any point on the Detroit River to Port Huron Change Point or any point on the St. Clair River, $440.

(12) Detroit Pilot Boat to any point on the St. Clair River, $440.

(13) Detroit Pilot Boat to Port Huron Change Point, $341.

(14) Between points on the St. Clair River, $198.

(15) Port Huron Change Point to any point on the St. Clair River, $243.

(c) District 3:

(1) Between the southernly limit of the District and the northerly limit of the District or the Algoma Steel Corpo-

ration Wharf at Sault Ste. Marie, Ontario, $604.

(2) Between the southerly limit of the District and Sault Ste. Marie, Ontario or any point in Sault Ste. Marie, Ontario other than the Algoma Steel Corporation Wharf, $506.

(3) Between the northerly limit of the District and Sault Ste. Marie, Ontario, including the Algoma Steel Corporation Wharf, or Sault Ste. Marie, Michigan, $227.

(4) For a movage in any harbor, $227.

2. By revising § 401.410 to read as follows:

§ 401.410 Basic rates and charges on undesignated waters.

(a) Except as provided under § 401.420 and subject to paragraph (b) of this section, the basic rates to be paid by a ship that has a U.S. registered pilot on board in the undesignated waters shall be:

In Lake Ontario, $121.

In Lake Erie, $158.

In Lakes Huron, Michigan and Superior, $121.

for each 6 hour period or part thereof that the U.S. pilot is on board, plus $115 for each time the U.S. pilot performs the docking or undocking of the ship.

* * * * *

3. By revising § 401.420 to read as follows:

§ 401.420 Cancellation, delay or interruption in rendition of services.

(a) When, in designated or undesignated waters, the passage of a ship is interrupted for the purpose of loading or discharging cargo or for any reason and the services of the U.S. pilot are retained during the interruption or when a U.S. pilot is detained on board a ship after the end of an assignment for the convenience of the ship, the ship shall pay an additional charge calculated on a basic rate of $19 for each hour or part of an hour during which each interruption lasts with a mximum basic rate of $302.00 for each 24 hour period during which the interruption continues. However, there is no charge for any interruption caused by ice, weather, or traffic, except during the period beginning the 1st of December and ending on the 8th of the following April. Additionally, no charge shall be made for any interruption if the total interruption ends during the 6 hour period for which a charge has been made under § 401.410.

(b) When, in designated or undesignated waters, the departure or movage of a ship for which a U.S. pilot has been ordered is delayed for the convenience of the ship for more than one hour after the U.S. pilot reports for duty at the designated boarding point or after the time for which he is ordered, whichever is later, the ship shall pay an additional charge calculated on a basic rate of $19 for each hour or part of an hour after the first hour of the delay, with a maximum basic rate of $302 for each 24 hour period of the delay.

(c) When, in designated or undesignated waters, a U.S. pilot reports for duty as ordered and the order is cancelled, the ship shall pay:

(1) A cancellation charge calculated on a basic rate of $114.

(2) If the cancellation is more than one hour after the U.S. pilot reports for duty at the designated boarding point or after the time for which he is ordered, whichever is the later, a further charge calculated on a basic rate of $19 for each hour or part of an hour after the first hour, with a maximum basic rate of $302 for each 24 hour period.

4. By revising § 401.428 to read as follows:

§ 401.428 Basic rates and charges for carrying a U.S. pilot beyond normal change point.

If a U.S. pilot is carried beyond his normal change point or is unable to board at his normal boarding place, the U.S. pilot shall be paid at the rate of $115 per day or part thereof, plus reasonable travel expenses to or from his base. These charges are not applicable if the ship utilizes the services of the U.S. pilot beyond his normal change point and the ship is billed for those services. The change points to which this section applies are designated in § 401.450.

(Sec. 4 and sec. 5, 74 Stat. 260 (46 U.S.C. 216b, 216c); sec. 6(a)(4), 80 Stat. 937, as amended (49 U.S.C. 1655(a)(4); 49 CFR 1.46(a)).)

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

[Docket No. 77-02; Notice 2]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

New Pneumatic Tires for Passenger Cars

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adds certain tire size designations to Standard No. 109, New Pneumatic Tires—Passenger Cars. This addition is made pursuant to a request from the European Tyre and Rim Technical Organisation to permit the production of tires with the specified designations.

EFFECTIVE DATE: July 11, 1977, if objections are not received.

FOR FURTHER INFORMATION CONTACT:

John Diehl, Office of Crash Avoidance, Motor Vehicle Programs, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, D.C. 20590, 202-426-1715.

SUPPLEMENTARY INFORMATION: According to agency practice, regular amendments are published modifying the Appendix of Standard No. 109. Guidelines were published in the FEDERAL REGISTER on October 5, 1968 (33 FR 14964), and amended August 31, 1974 (39 FR 28980), specifiying procedures by which routine additions could be made effective 30 days from publication in the FEDERAL REGISTER, if no objections are received. If objections are received, rulemaking procedures for the issuance of motor vehicle safety standards (49 CFR Part 553) are followed.

The principal authors of this document are John Diehl, Office of Crash Avoidance, and Roger Tilton, Office of Chief Counsel.

Accordingly, Appendix A of 49 CFR § 571.109 is amended subject to the 30 day provision indicated above, as specified below.

§ 571.109 [Amended]

Amendment requested by European Tyre and Rim Technical Organisation:

In Table I-MM of Appendix A, the following new tire size designation and corresponding values are added.

TABLE I-MM—*Tire load ratings, test rims, minimum size factors, and section widths for "65" series radial ply tires*

Tire size[1] designation	Maximum tire loads (pounds), at various cold inflation pressures (pounds per square inch)													Test rim width (inches)	Minimum size factor (inches)	Section width[2] (inches)
	16	18	20	22	24	26	28	30	32	34	36	38	40			
185/65 R14	750	800	845	890	935	980	1,020	1,060	1,100	1,140	1,175	1,210	1,245	5	30.19	7.24

[1] The letters "H," "S" or "V" may be included in any specified tire size designation adjacent to the letter "R."

[2] Actual section width and overall width shall not exceed the specified section width by more than 7 pct.

(Secs. 103, 119, 201, and 202, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1407, 1421, and 1422); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.)

Issued on June 3, 1977.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

[FR Doc.77-16926 Filed 6-15-77;8:45 am]

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Opening of the Red Rock Lakes National Wildlife Refuge, Montana to Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special regulations.

SUMMARY: The Director has determined that the opening to hunting of the Red Rock Lakes National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource and will provide additional recreational opportunity to the public.

DATES: Hunting season from September 15, 1977 through December 31, 1977.

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, Red Rock Lakes National Wildlife Refuge, Monida Star Route, Box 15, Lima, Montana 59739; phone 406-276-3347 or Area Manager, U.S. Fish and Wildlife Service, Federal Building, 316 North 26th Street, Billings, Montana 59101; phone 406-234-4608.

SUPPLEMENTARY INFORMATION:

§ 32.12 Special regulations; migratory game birds; for individual wildlife refuge areas.

Migratory game bird hunting is permitted on the Red Rock Lakes National Wildlife Refuge, Monida, only on areas designated by signs as being open to migratory game bird hunting. This area comprises approximately 10,000 acres.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

Big game hunting is permitted on the Red Rock Lakes National Wildlife Refuge, Montana, only on the areas designated by signs as being open to big game hunting. These areas comprise approximately 20,000 acres.

Hunting areas are delineated on maps available at the refuge headquarters and from the office of the Area Manager, U.S. Fish and Wildlife Service, Federal Building, 316 North 26th Street, Billings, Montana 59101. Hunting shall be in accordance with all applicable State regulations.

The provisions of these special regulations supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 32. The public is invited to offer suggestions and comments at any time.

NOTE: The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

E. D. STROOPS,
Refuge Manager, Red Rock Lakes National Wildlife Refuge.

JUNE 6, 1977.

PART 33—SPORT FISHING

Opening of Browns Park National Wildlife Refuge, Colorado, to Sport Fishing

AGENCY: Fish and Wildlife Service (FWS), Interior.

ACTION: Special regulation.

SUMMARY: The Director has determined that the opening to sport fishing of Browns Park National Wildlife Refuge is compatible with the objectives for which the area was established, will utilize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: January 1 through February 28, 1977, inclusive, and June 16 through December 31, 1977, inclusive.

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, Browns Park National Wildlife Refuge, Greystone Route, Maybell, Colorado 81640, telephone: 303-365-3695.

SUPPLEMENTARY INFORMATION:

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

Sport fishing is permitted on the Browns Park National Wildlife Refuge, Colorado, only on the areas designated by signs as being open to fishing. These open areas, Beaver Creek and the Green River, comprise 1,000 acres. Information may be obtained from the refuge office and from the office of the Regional Director, U.S. Fish and Wildlife Service, 10597 West 6th Avenue, P.O. Box 25486, Denver, Colorado 80215. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 33. The public is invited to offer suggestions and comments at any time.

NOTE: The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

HERBERT G. TROESTER,
Refuge Manager, Browns Park National Wildlife Refuge, Maybell, Colorado.

JUNE 7, 1977.

[FR Doc.77-17272 Filed 6-15-77;8:45 am]

PART 33—SPORT FISHING

Opening of Ouray National Wildlife Refuge, Utah, to Sport Fishing

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Special Regulation.

SUMMARY: The Director has determined that the opening to sport fishing of Ouray National Wildlife Refuge is compatible with the objectives for which the area was established, will ultlize a renewable natural resource, and will provide additional recreational opportunity to the public.

DATES: January 1 through December 31, 1977, inclusive.

FOR FURTHER INFORMATION CONTACT:

Refuge Manager, Ouray National Wildlife Refuge, 447 East Main Street, Suite 4, Vernal, Utah 84078, telephone: 801-789-0351.

SUPPLEMENTARY INFORMATION:

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

Sport fishing on the Ouray National Wildlife Refuge, Utah, is permitted in the Green River only. The Green River comprises 360 acres within the refuge. Information may be obtained from the refuge office and from the office of the Regional Director, U.S. Fish and Wildlife Service, 10597 West 6th Avenue, P.O. Box 25486, Denver, Colorado 80215. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations, Part 33. The public is invited to offer suggestions and comments at any time.

NOTE: The U.S. Fish and Wildlife Service has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11949 and OMB Circular A-107.

HERBERT G. TROESTER,
Refuge Manager, Ouray National Wildlife Refuge, Vernal, Utah.

JUNE 7, 1977.

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER F—AID TO FISHERIES

PART 258—FISHERMEN'S PROTECTIVE ACT PROCEDURES

Provision for Fees

AGENCY: National Marine Fisheries Service, (NOAA), Commerce.

ACTION: Amendment of regulations.

SUMMARY: Section 7 of the Fishermen's Protective Act, as amended (22 U.S.C. 1971-1977), authorizes, among other things, the Secretary of Commerce to establish by regulation fees which shall be paid by the owners of vessels entering into Guarantee Agreements under Section 7 of the Act. These fees established annually are credited to the Fishermen's Guarantee Fund and used to carry out the provisions of Section 7 of the Act. This amendment establishes fees for the period from July 1 to September 30, 1977.

EFFECTIVE DATE: June 16, 1977.

ADDRESS: Financial Assistance Division, National Marine Fisheries Service, Washington, D.C. 20235.

FOR FURTHER INFORMATION CONTACT:

Michael L. Grable, Chief, Financial Assistance Division, National Marine Fisheries Service, Washington, D.C. 20235, 202–634–7496.

SUPPLEMENTARY INFORMATION: Section 7 of the Act guarantees to the owners of vessels entering into Guarantee Agreements payment of certain costs and losses resulting from (1) the seizure of a vessel of the United States by a foreign country on the basis of rights or claims in territorial waters or the high seas which are not recognized by the United States or (2) if recognized by the United States, (a) are unrelated to fishery conservation and management, (b) fail to consider traditional fishing practices of U.S. vessels, (c) are more onerous than those which the United States applies to foreign fishing vessels in U.S. fishery conservation zone, (d) fail to allow U.S. fishing vessels equitable access to such country's fishery conservation zone.

Regulations governing administration of section 7 of the Act, Fishermen's Protective Act Procedures (50 CFR Part 258), have annually established fees based on anticipated claims projected from prior experience. The purpose of the following amendment to § 258.5 of Fishermen's Protective Act Procedures is to establish fees for the period beginning July 1, 1977, and terminating on September 30, 1977. This amendment is needed to meet the requirements of Section 7 of the Act (22 U.S.C. 1971–1977), which will terminate on September 30, 1977, unless extended by legislation.

Due to the reserve in the fund, the percentage of past claims paid by the industry, and the fact that the tuna fleet (the principal users of the fund) did not fish for approximately three months of the last agreement year, provisions are made that if no seizures occur during this agreement period the fees will be refunded if the Fishermen's Protective Act is not extended or will be applied against fees for the following year ending September 30, 1978 if it is extended.

All parties holding Guarantee Agreements for the present agreement year (July 1, 1976, through June 30, 1977), who wish them extended through September 30, 1977, by amendment to such Agreement, rather than entering into an entirely new Agreement, must submit their fees in accordance with § 258.5(b) of the following amendment. Failure to do so will result in termination of those Agreements.

This amendment relates to matters which are exempt from the rulemaking requirements of the Administrative Procedures Act (5 U.S.C. 553). In addition the amendment makes no substantive change in the program's conduct.

Section 258.5 of Fishermen's Protective Act procedures (50 CFR Part 258) is hereby amended by revising § 258.5 as follows:

§ 258.5 Fees.

(a) The fees are established to provide for payment of the administrative costs and a minimum of at least 25 percent of the estimated claims to be paid from the fund. They are set on the basis of anticipated losses and prior experience. In order to meet the requirements of the Act, the fees may be adjusted from time-to-time by amendment to this part at any time, after appropriate notice, to become consistent with claims greater or lesser than estimated or in the event the Fishermen's Guarantee Fund is reimbursed under Section 5 of the Act.

(b)(1) Fees to be paid by applicants for, or holders of, Guarantee Agreements executed (by amendment or otherwise) for the period terminating September 30, 1977, shall be as follows: for vessels 500 gross tons or under, $60 plus $0.45 per gross ton; for vessels over 500 gross tons, $60 plus $0.625 per gross ton. All tonnage shall be as listed on each vessel's document. Fractions of a ton shall not be included.

(2) Athough fees are due on July 1, 1977, all parties holding Guarantee Agreements (by amendment or otherwise) for the period terminating June 30, 1977, shall have until August 1, 1977 (midnight local time), to pay the fees established herein. Failure to do so will result in the necessity of entering into another Guarantee Agreement which will be effective only from the date actually executed.

(c) No return of a fee or portion of a fee will be made after a Guarantee Agreement is executed by the Secretary except:

(1) That if no claims are filed as a result of seizures occurring between July 1, 1977, and September 30, 1977, and the Act is not extended, fees paid under Section (b)(1) above will be refunded;

(2) That if no claims are filed as a result of seizures occurring between July 1, 1977, and September 30, 1977, and the Act is extended, fees paid under paragraph (b)(1) of this section will be applied against the fee for extension of Agreements through September 30, 1978.

Failure to submit fees in accordance with paragraph (c) of this section or failure to pay any increased fees within 30 days of adjustment shall constitute a basis for termination of the Guarantee Agreement.

(d) A Guarantee Agreement may, with the consent of the Secretary, be assigned to a new owner of a vessel if the ownership of the vessel is transferred during the period in which the agreement is in force.

By order of the Director, National Marine Fisheries Service.

Dated: June 13, 1977.

ROBERT W. SCHONING,
Director, National Marine Fisheries Service.

[FR Doc.77–17279 Filed 6–15–77;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 21022; RM–2722]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Station in Mechanicsville, Virginia; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Report and order.

SUMMARY: Action taken assigning a first Class A FM channel to Mechanicsville, Virginia. Petitioner, Crusade for Christ, Inc., states it intends to serve the needs of Mechanicsville through emphasis in its programing and accessibility of its facility to local residents. The assignment of this channel will provide for a first local aural broadcast service and will serve a need and demand for a first local outlet in the community.

EFFECTIVE DATE: July 22, 1977.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202–632–7792.

SUPPLEMENTARY INFORMATION:

Adopted: June 7, 1977.

Released: June 10, 1977.

By the Chief, Broadcast Bureau.

1. The Commission herein considers the Notice of Proposed Rulemaking, adopted December 16, 1976, 41 FR 56677, in the above-captioned proceeding instituted in response to a petition filed by Crusade for Christ, Inc. ("petitioner"). The petition proposed the assignment of Channel 224A as a first FM channel to Mechanicsville, Virginia. Petitioner filed supporting comments in which it reaffirmed its intention to file an application for a construction permit, and upon receipt will proceed to construct the station. Supporting comments were also filed by Old Dominion Broadcasting Co., Inc., licensee of AM Station WANT, Richmond, Virginia, in which it stated that it would also apply for the proposed channel, if assigned.

2. Mechanicsville (pop. 5,189) in Hanover County (pop. 37,479)[1] is located approximately 16 kilometers (10 miles) northeast of Richmond, Virginia. It has no local aural broadcast service. The petitioner has stated that Mechanicsville is a rapidly growing community, and urges the assignment of a first FM channel for a first local outlet of its own. The details of other information supporting the request has been set forth in the Notice and will not be repeated here.

3. Because of the close proximity of Mechanicsville to Richmond, Virginia, and the fact that the proposed station's 1 mV/m contour apparently could cover all of Richmond, the *Notice* requested the petitioner to provide documentation of its intent to serve Mechanicsville rather than Richmond. In response, petitioner stated that it proposes to locate its main studio in Mechanicsville and to devote a minimum of one and one-half hours per week to the presentation of public affairs programming directed specifically to the problems, needs and interests of residents of Mechanicsville. It adds that it will solicit support through local advertisers and frequent contacts will be made with local officials to keep abreast of local needs and problems which the proposed station will program to meet. It points out that it intends to serve the needs of Mechanicsville through emphasis in its programming and accessibility of its facility to local residents.

4. Upon careful consideration of the proposal herein, the Commission believes it would be in the public interest to assign Channel 224A to Mechanicsville, Virginia. Based on information submitted by petitioner, we are convinced that it intends to serve the needs and interests of the residents of Mechanicsville. The assignment of Channel 224A would provide for a first local aural broadcast service and would serve a need and demand for a first local outlet in the community.

§ 73.202 [Amended]

5. Accordingly, *it is ordered*, That effective July 22, 1977, § 73.202(b) of the Commission's Rules, the FM Table of Assignments, is amended as it pertains to the community listed below:

City	*Channel No.*
Mechanicsville, Va	224A

6. Authority for the action taken herein is found in Sections 4(i), 303(g) and (r), 307(b) of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules.

7. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303.)

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.77–17268 Filed 6–15–77;8:45 am]

[1] Both population figures are taken from the 1970 U.S. Census.

[Docket No. 20777; RM–1429, etc.; FCC 77–379]

PART 97—AMATEUR RADIO SERVICE

Deregulation of Authorized Emissions; Memorandum Opinion and Order

AGENCY: Federal Communications Commission.

ACTION: Reconsideration and amendment of rules (Memorandum Opinion and Order) (Docket No. 20777; RM–1429, RM–2163, RM–2170, RM–2330, RM–2429, RM–2507, RM–2545, RM–2550; FCC 77–379).

SUMMARY: On March 10, 1977, the Commission released a First Report and Order in Docket 20777 adopting certain specific standards for the suppression of spurious radiation in transmitters used in the Amateur Radio Service. Petitions for reconsideration requesting modification of the adopted rules were received from the American Radio Relay League (ARRL), the Amateur Radio Manufacturers Association (ARMA), and the R. L. Drake Company. The ARRL also filed a Motion for Stay of the effective date of the rule provisions. Upon review of the petitions, the Commission finds that reconsideration of certain provisions of the rules is warranted and has therefore amended these rules accordingly.

EFFECTIVE DATE: July 18, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Joseph Johnson, Personal Radio Division, Federal Communications Commission, Washington, D.C. 20554 (202–632–7175).

SUPPLEMENTARY INFORMATION:

Adopted: June 2, 1977.

Released: June 13, 1977.

BACKGROUND

A Notice of Proposed Rule Making in the above-captioned proceeding was released on April 22, 1976, and printed in the FEDERAL REGISTER on April 28, 1976 (41 FR 17789). In the Notice, it was proposed that all references to specific emission types be deleted from the Amateur Radio Service Rules, Part 97, and replaced with limitations on the permissible bandwidth an amateur signal may occupy in the various bands. The Notice also proposed to establish limits on spurious, harmonic, and parasitic oscillations generated at amateur stations. This latter proposal was the sole subject of the First Report and Order.

MOTION FOR STAY AND PETITIONS FOR RECONSIDERATION

On April 11, 1977, the American Radio Relay League, Inc. (ARRL), filed a Motion for Stay of the effective date in this proceeding. They have requested that the April 15, 1977, effective date of the rule amendments be stayed for a period of at least nine months to afford the Commission time to (1) act upon the ARRL's Reconsideration Petition and (2) "investigate other, more effective, practical, and palatable solutions" to the problems of use of illegal, over-power, equipment by CB Service licensees and interference from CB Service equipment to TV sets. In its Petition for Reconsideration, the ARRL makes three basic arguments: (1) Adequate notice of the [rule] amendment as adopted was not given; (2) No significant need has been shown and none is known for establishing finite limits on spurious emissions from amateur transmitters and power amplifiers; and (3) The impact upon radio amateurs and those manufacturing and selling equipment to amateurs will be most severe. Also filing Petitions for Reconsideration were the Amateur Radio Manufacturers Association (ARMA) and the R. L. Drake Company (Drake). ARMA requested that the Commission "grandfather" commercially-built amateur radio transmitters and transceivers manufactured prior to April 15, 1977. If such a grandfather provision is not provided, ARMA states that severe financial hardship could be caused to some amateur equipment companies and to individual amateurs. In its petition, the R. L. Drake Company requests that the effective date of the new rules be postponed for 6 months to allow the marketing of non-conforming transmitters and transceivers. Additionally, Drake wanted rule § 97.73 amended to state that external filters or other devices may be attached to non-conforming equipment in order to allow it to meet the new emission standards. As do the other petitioners, Drake says that financial hardship would result if the rule was left as-is. Drake states that its own line of high frequency transmitters and transceivers meets the new standard but that the products of certain other legitimate American manufacturers do not.

ADEQUATE NOTICE WAS GIVEN

The ARRL states that the Commission did not have in mind at the time it issued its Notice of Proposed Rule Making the adoption of a rule establishing finite limits for spurious emissions from amateur transmitters. Rather, they argue, the proposals related to the overall operation of an amateur station and made no mention of individual station components. Further, they argue that the International Telecommunications Union (ITU) Radio Regulations also refer only to amateur stations and not individual station components.

The Commission must take exception to these contentions, however, as they are not supported by the facts at hand. Part 97 of the Commission's Rules has traditionally referenced unwanted radiation limits to individual station components. Former § 97.73 read, in part:

> For the purposes of this section, a spurious radiation is any radiation from a *transmitter* which is outside the frequency band of emission normal for the type of transmission employed, including any component whose frequency is an integral multiple (harmonics and subharmonics), spurious modulation products, key clicks, and other transient effects, and parasitic oscillations. [Emphasis supplied.]

In the NPRM in Docket 20777, the Commission proposed to establish numerical limits on spurious, harmonic, and parasitic radiations. Specifically, the Commission proposed an amended § 97.73 to read:

> The mean power of emissions on any frequency removed from the upper or lower limit of the authorized bandwidth, by more than 250 percent of the authorized bandwidth, shall be attenuated at least 40 decibels below the peak output power of the *transmitter*. [Emphasis supplied.]

Clearly, the present rule, as well as the proposed rule, relates to the operation of an amateur transmitter (and external amplifier, if one is used as part of the transmitting apparatus). Further, the ITU Radio Regulations, at Appendix 4, paragraph 2, state:

[S]purious radiation from any part of the installation other than the antenna system * * * shall not have an effect greater than would occur if the antenna system were supplied with the maximum permissible power at that spurious emission frequency.

The intent of this ITU provision is to relate individual pieces of station apparatus (i.e., the station transmitter) to the spurious standards of ITU Article 12. Clearly, all rules pertinent to the spurious, harmonic, and parasitic radiation at amateur stations reference their provisions to the device which is the source of the radiation, namely, the transmitter. Section 553(a)(3) of the Administrative Procedures Act requires that general notice of a rule contain either the terms or substance of the proposed rule or a description of the subjects and issues involved. We believe that requirement has been met in this proceeding, and we reject the ARRL contention to the contrary.

SPECIFIC LIMITS ON SPURIOUS RADIATION ARE NECESSARY

In its petition, the ARRL states that "limitations on spurious emissions from amateur transmitters and power amplifiers are not required because, when legitimate complaints of interference are received, amateurs take effective measures to eliminate the interference". It contends that the sole reason for imposing new standards was to "bring under control the enormous problem of television interference from the 27 MHz CB Service". If the ARRL's position is that all limitations on spurious emissions are not necessary, it is unclear why they did not earlier petition to strike the former limitation from the amateur regulations. That rule required such emissions be reduced or eliminated in accordance with good engineering practice, and, in certain instances, could have resulted in the imposition of more stringent standards than the new finite standards.

We believe it indisputable that some reasonable standard governing unwanted emissions should apply to amateurs. The real issue is what that standard ought to be. The term 'good engineering practice' has been adequate in certain situations as an aid to the Commission in resolving interference problems. However, it has been far too vague to serve as a useful guide to amateurs and others engaged in the design and/or construction of amateur equipment. As the spectrum becomes increasingly congested, we believe it essential that equipment utilized in all services at least meet certain minimum unwanted radiation limits. Indeed, transmitters presently used in other licensed services are bound by similar, but usually more stringent, finite suppression requirements. The ARRL contends that all amateur interference problems can be resolved simply by the addition of a low-pass filter at the amateur's station. We disagree. Such filters are oftentimes effective against harmonic radiation, but are usually not effective against spurious and parasitic radiation. A low-pass filter will have no effect whatever on the amateur transmitter operating on one channel in the 2-meter band while at the same time putting out spurious radiation on one or more additional channels. As we noted in Docket 21117, spurious emissions from amateur 2-meter equipment has caused harmful interference to at least one aircraft radionavigation system, and it is well known among amateur licensees and equipment dealers that certain 2-meter FM transceivers have levels of spurious radiation which often causes them to trigger two or more 'repeater' stations (on different frequencies) simultaneously. Such occurrences have been all too common in recent years, and this is largely due to the absence of specific emission standards in the amateur rules. We must conclude, therefore, that such standards are needed and that the ARRL objections on this point are without merit.

AMATEURS AND EQUIPMENT MANUFACTURERS WILL BE IMPACTED BY THIS RULE

The ARRL states that all production lines for amateur equipment will shut down, that manufacturers will be left with an inventory of finished products which cannot be shipped, advertised, or sold for an indefinite length of time, and that dealers will be unable to sell equipment, whether used or new, on their shelves. Further, they say that individual amateurs will be adversely affected because the cost of amateur equipment will suddenly increase and they may be unable, due to technical and economic limitations, to defend against complaints of interference. The Amateur Radio Manufacturer's Association (ARMA) requested that a "grandfather" clause be inserted in the rules to exempt commercially built amateur transmitters and transceivers manufactured prior to April 15, 1977 from the provisions of § 97.73. ARMA also cited as their basis for this request the probability of major adverse effects on manufacturers and individual amateurs if the rule were actually implemented as adopted. R. L. Drake requested in their petition that the effective date of the new rule provisions be postponed for 6 months in order to ease the economic impact of the rules on amateur equipment companies and individual amateurs who have transmitters and transceivers they wish to market. Drake said that immediate implementation of the new standards could result in substantial financial losses to equipment dealers and manufacturers, especially small manufacturers, who may be forced to cease operations. Drake also requests that the use of filters and other external devices be allowed as attachments to non-conforming equipment in order to bring their emissions within the new limitations.

Article 12, Appendix 4 of the ITU Radio Regulations sets forth the specific standards applicable to amateur stations. We do not believe these standards to be unreasonable. Indeed, both ARMA and Drake support the new standards. ARMA stated that "at long last, we will have some concrete specifications from which to engineer our products rather than merely following good engineering practices." Similarly, Drake believes that the provisions of revised § 97.73 are in the public interest, and predicts that all manufacturers of amateur radio transmitters and transceivers should be able to produce equipment meeting the new limitations if the 6 month delay Drake requests is approved. Tighter emission standards have been in effect in other radio services for some time, and we are confident that these new amateur standards are well within the state-of-the-art among amateur equipment manufacturers. We do, nevertheless, recognize the concern expressed by the petitioners with respect to the date of implementation of these provisions. We do not wish to cause unnecessary economic hardship to amateur equipment companies or individual amateurs, and we believe that a moderate delay and a grandfather clause are not inappropriate in these circumstances. The Commission has therefore amended § 97.73 to provide that the rule amendments adopted in the First Report and Order, Docket 20777, tightening the purity of emission standards for amateur radio equipment shall not apply to transmitters and transceivers marketed before January 1, 1978, nor to transmitters and transceivers built before April 15, 1977.

USE OF EXTERNAL FILTERS

We have carefully considered Drake's request that external filters and other devices be allowed as attachments to equipment in order to bring it into compliance with the new rules. Such attachments can be effective in suppressing harmonic radiation emanating from the transmitter antenna terminals. However, they will not usually be effective against other unwanted emissions and cannot suppress radiation from sources other than the antenna terminals, such as the chassis or microphone cord. We therefore do not believe that use of these devices is a suitable alternative and we must therefore deny Drake's request. For existing equipment, however, which is already in use and covered by the grandfather clause, the attachment of external filters, antenna tuners, etc., could be useful should interference occur. Moreover, Rule § 97.73(e) provides that the attachment of these devices could be required by the Commisison should they be necessary to eliminate interference to the reception of other radio stations. We strongly encourage all amateur operators to take whatever measures are necessary to reduce their spurious and harmonic radiations to an absolute minimum, and we urge the manufacturers and designers of amateur equipment to disseminate information on the types of retrofit measures that must be taken to bring their equipment into compliance. Amateurs have traditionally been in the forefront of such technology and their continued efforts in this area are essential.

PETITION GRANTED IN PART

In view of the foregoing, we are of the opinion that the rule amendment, as discussed above, is in the public interest. Authority for this amendment is contained in Sections 4(i), 302, and 303(r) of the Communications Act of 1934, as amended. Accordingly, *it is ordered*, That the Petitions for Reconsideration filed by ARRL, ARMA, and Drake are granted to the extent they conform with the actions taken herein and are denied in all other respects. *It is further ordered*, That the Motion for Stay filed by the ARRL is denied. *It is further ordered*, That Part 97 of the Commission's Rules is amended as set forth below effective July 18, 1977. *It is further ordered*, That this proceeding is continued.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082, Sec. 302, 82 Stat., 290; 47 U.S.C. 154, 302, 303.)

FEDERAL COMMUNICATIONS COMMISSION
VINCENT J. MULLINS,
Secretary.

Part 97 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

In § 97.73, paragraph (f) is added to read as follows:

§ 97.73 Purity of emissions.

* * * * *

(f) The provisions of paragraphs (a) and (b) of this section shall not apply to amateur transmitters or transceivers built before April 15, 1977, nor to amateur transmitters or transceivers first marketed before January 1, 1978. The effective date of paragraphs (a) and (b) of this section is April 15, 1977 for all external radio frequency power amplifiers.

[FR Doc.77-17267 Filed 6-15-77;8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Food Safety and Quality Service

[7 CFR Part 51]

UNITED STATES STANDARDS FOR GRADES OF MECHANICALLY HARVESTED AMERICAN (EASTERN TYPE) GRAPES FOR PROCESSING AND FREEZING

AGENCY: Food Safety and Quality Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposed rule would change the title of the grade standards for mechanically harvested American (Eastern type) grapes for processing and freezing to standards for grapes for processing and freezing. This action is being taken at the request of the National Grape Cooperative Association, Inc. This proposal would permit all types of grapes for processing, hand-picked or mechanically harvested, to be certified under these standards.

DATE: Comments, in duplicate, must be received before July 31, 1977.

ADDRESS: Send comments to: Hearing Clerk, U.S. Department of Agriculture, Room 1077, South Building, Washington, D.C. 20250. Comments will be available for public review at the same address during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Frank W. Betz, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, Food Safety and Quality Service, U.S. Department of Agriculture, Washington, D.C. 20250. (202–447–2093).

SUPPLEMENTARY INFORMATION: The United States Standards for Grades of Mechanically Harvested American (Eastern Type) Grapes for Processing and Freezing became effective May 15, 1975. In May of this year, the National Grape Cooperative Association, Inc. (NGCA) formally requested that the title of these standards be changed to "United States Standards For Grades of American (Eastern Type) Grapes For Processing and Freezing". Taylor Wine Co., Hammondsport, New York and Coca Cola Co., Geneva, Ohio support NGCA's requested change.

Changing the title of the standards, as requested, would permit grape processors to receive "hand-picked" as well as "mechanically harvested" American (Eastern Type) grapes based on grade requirements set forth in the standards. Currently, NGCA receives "hand-picked" grapes under grower-processor contract specifications which are the same as the requirements of the U.S. No. 1 and U.S. No. 2 grades as set forth in the standards.

The Department agrees that the change requested would be of benefit to the industry. However, it has been further suggested that the title of the standards be changed to "United States Standards For Grades of Grapes For Processing and Freezing". This change would permit all types of grapes for processing, whether "hand-picked" or "mechanically harvested" to be certified in accordance with grade requirements of the standards. The Department and industry representatives agree that this change would better serve the industry.

In addition to changing the standards title from United States Standards For Grades of Mechanically Harvested American (Eastern Type) Grapes For Processing and Freezing to United States Standards For Grades of Grapes for Processing and Freezing, the proposed amendment would also involve changing §§ 51.2150. The proposed changes would read as follows:

Subpart—United States Standards for Grades of Grapes for Processing and Freezing

§§ 51.2150 General.

(a) These standards apply to all types of grapes, hand-picked or mechanically harvested, which are to be processed.

(b) The grade of a lot of grapes shall be determined on the basis of a composite sample.

AUTHORITY: Agricultural Marketing Act of 1946, Sec. 203, 205, 60 Stat. 1087, as amended, 1090 as amended; (7 U.S.C. 1622, 1624)

Dated: June 10, 1977.

WILLIAM T. MANLEY,
Acting Deputy Administrator, Commodity Operations.

[7 CFR Part 917]

FRESH PEARS, PLUMS, AND PEACHES GROWN IN CALIFORNIA

Notice of Proposed Rulemaking With Respect to the Plum Committee's Expenses and Rate of Assessment for the 1977–78 Fiscal Period

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This notice invites written comments on proposed expenses of $938,928 and a rate of assessment of $0.095 per lug of plums for the functioning of the Plum Commodity Committee for the 1977–78 fiscal period. The committee is established under a Federal marketing order program regulating the handling of fresh pears, plums and peaches grown in California. The regulation would enable the committee to collect assessments from first handlers on all assessable plums handled and to use the resulting funds for its expenses.

DATES: Comments must be received on or before July 5, 1977. Proposed effective dates: March 1, 1977, through February 28, 1978.

ADDRESSES: Send two copies of comments to the Hearing Clerk, United States Department of Agriculture, Room 1077, South Building, Washington, D.C. 20250. Comments will be made available for public inspection, at the office of the Hearing Clerk during regular business hours.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, (202) 447–3545.

SUPPLEMENTARY INFORMATION: The proposals under consideration were submitted by the Plum Commodity Committee, established under the marketing agreement, as amended, and Order No. 917, as amended (7 CFR Part 917). This marketing agreement and order regulates the handling of fresh pears, plums and peaches grown in California, and is effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The proposals are as follows:

(a) Expenses that are reasonable and likely to be incurred during the fiscal period from March 1, 1977, through February 28, 1978, will amount to $938,928.

(b) The rate of assessment for the fiscal period, payable by each handler in accordance with § 917.37 is established at $0.095 per No. 22D standard lug box of plums or its equivalent in other containers or in bulk.

Terms used herein shall have the same meaning as when used in said amended marketing agreement and order, and "No. 22D standard lug box" shall have the same meaning as set forth in Section 1387.11 of the "Regulations of the California Department of Food and Agriculture".

Dated: June 13, 1977.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Docket Nos. AO–356–A16, AO–347–A19, and AO–286–A27]

MILK IN THE UPPER FLORIDA, TAMPA BAY, AND SOUTHEASTERN FLORIDA MARKETING AREAS

Hearing on Proposed Amendments to Tentative Marketing Agreements and Orders

Notice is hereby given of a public hearing to be held at the Kahler Plaza Inn, 151 East Washington Street, Orlando, Florida, beginning at 9:30 a.m., local time, June 29, 1977, with respect to proposed amendments to the tentative marketing agreements and to the orders, regulating the handling of milk in the Upper Florida, Tampa Bay, and Southeastern Florida marketing areas.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions in each of the aforesaid specified marketing areas which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreements and to the orders.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

PROPOSED BY THE SOUTHLAND CORPORATION

PROPOSAL NO. 1

Amend § ____.55(a) in orders 1006, 1012, and 1013 to read as follows:

(a) Class I price, 0.115 times the Chicago butter price specified in § ____.51; and

PROPOSED BY THE DAIRY DIVISION, AGRICULTURAL MARKETING SERVICE

PROPOSAL NO. 2

Make such changes as may be necessary to make the entire marketing agreements and the orders conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the orders may be procured from the Market Administrator, P.O. Box 11368, Fort Lauderdale, Florida 33306 or from the Hearing Clerk, Room 1077, South Building, United States Department of Agriculture, Washington, D.C. 20250 or may be there inspected.

Signed at Washington, D.C., on June 13, 1977.

WILLIAM T. MANLEY,
Acting Administrator.

[Docket Nos. AO–103–A40 and AO–257–A28]

MILK IN THE NEW ORLEANS-MISSISSIPPI AND GREATER LOUISIANA MARKETING AREAS

Termination of Proceeding

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Termination of rulemaking proceeding.

SUMMARY: This action terminates a rulemaking proceeding on proposals to include a seasonal production incentive payment plan for producers in the New Orleans-Mississippi and Greater Louisiana orders. A public hearing on the proposals had been scheduled for November 22, 1976, and then was postponed indefinitely in response to industry requests. Dairymen, Inc., the producer cooperative that asked for the hearing, has withdrawn its proposals, which removes the basis for the hearing.

FOR FURTHER INFORMATION CONTACT:

Irving E. Sutin, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250. (202–447–4829).

SUPPLEMENTAL INFORMATION: Prior documents in this proceeding: Notice of hearing—Issued November 3, 1976; published November 8, 1976 (41 FR 49112). Postponement of hearing—Issued November 17, 1976; published November 22, 1976 (41 FR 51404).

Notice is hereby given pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), of the termination of the proceeding as set forth in a notice of hearing on proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the New Orleans-Mississippi and Greater Louisiana marketing areas.

The aforesaid notice of hearing was issued November 3, 1976 (41 FR 49112) for a hearing to begin in Baton Rouge, Louisiana, on November 22, 1976. The hearing was requested by Dairymen, Inc., a cooperative that represents a substantial number of producers under both the New Orleans-Mississippi and Greater Louisiana orders. At the request of Dairymen, Inc., and Northern Louisiana Pure Milk Producers Association, Inc., the Department issued a notice on November 17, 1976 (41 FR 51404) postponing the hearing until a date to be announced at a later time.

Dairymen, Inc., recently notified the Department that it desires to withdraw its proposals from consideration at a public hearing. Since this removes the basis for the hearing, the proceeding instituted by the aforesaid notice of hearing on proposed amendments to the New Orleans-Mississippi and Greater Louisiana orders is hereby terminated.

Signed at Washington, D.C., on June 13, 1977.

WILLIAM T. MANLEY,
Acting Administrator.

FEDERAL ENERGY ADMINISTRATION

[10 CFR Part 430]

ENERGY CONSERVATION PROGRAM FOR APPLIANCES

Proposed Rulemaking and Public Hearing Regarding Test Procedures for Conventional Ranges, Conventional Cooking Tops, Conventional Ovens, and Microwave Ovens and Determination of Further Delay in the Publication of Proposed Test Procedures for Any Other Class of Kitchen Ranges and Ovens

AGENCY: Federal Energy Administration.

ACTION: Proposed rule.

SUMMARY: The Federal Energy Administration (FEA) hereby proposes to amend its regulations in order to prescribe test procedures for conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens under the Energy Policy and Conservation Act. Conventional ranges, conventional cooking tops, conventional ovens and microwave ovens are classes included within the broader type of appliances, kitchen ranges and ovens, covered by the Act. The Act requires that standard methods for testing covered appliance types be prescribed as part of the energy conservation program for appliances. The Act further authorizes FEA to prescribe test procedures for classes within a given type of covered product and permits FEA to delay the publication of proposed test procedures for some class or classes within a given type. FEA has determined to delay the publication of proposed test procedures for any class of the type of covered product designated by the Act as "kitchen ranges and ovens" other than conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens. The intended effect of this proposal is to implement the Act's requirements by soliciting comments before test procedures are prescribed and to give notice of FEA's determination to delay the publication of certain proposed test procedures.

DATES: Comments by August 8, 1977, 4:30 p.m.; requests to speak by August 2, 1977, 4:30 p.m.; statements by August 9, 1977, 4:30 p.m.; hearing to be held on August 11, 1977, at 9:30 a.m.

ADDRESSES: Comments and requests to speak at the hearing to: Executive Communications, Room 3317, Federal Energy Administration, Box NE, Washington, D.C. 20461; statements to Regulations Management, Room 2214, Federal

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or with applicable State laws and regulations.

Energy Administration, 2000 M Street NW., Washington, D.C. 20461. Hearing held at:

Room 2214, 2000 M Street NW., Washington, D.C. 20461.

FOR FURTHER INFORMATION CONTACT:

James A. Smith, (Program Office), Old Post Office Building, Room 307, 12th Street and Pennsylvania Avenue NW., Washington, D.C. 20461 (202–566–4635).

Jim Merna, (Media Relations), 12th and Pennsylvania Avenue NW., Room 3104, Washington, D.C. 20461 (202–566–9833).

Michael T. Skinker, (Office of the General Counsel), 12th and Pennsylvania Avenue NW., Washington, D.C. 20461 (202–566–9750).

SUPPLEMENTARY INFORMATION:

A. BACKGROUND

The Federal Energy Administration (FEA) proposes to amend Chapter II of Title 10, Code of Federal Regulations, in order to prescribe test procedures for conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens pursuant to section 323, 42 U.S.C. 6293, of the Energy Policy and Conservation Act (Act) Pub. L. 94–163). The Act requires that FEA prescribe standard methods for testing covered appliances and further authorizes FEA to prescribe test procedures for classes within a given type of covered product. Conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens are classes included within the type designated by the Act as "kitchen ranges and ovens."

Development of test procedures is one discrete part of the energy conservation program for appliances. Even when promulgated, final test procedures will not of themselves require testing to be conducted. They will merely establish standard methods for testing when testing is otherwise required by the Act itself or by regulations implementing other parts of the program. For example, the Federal Trade Commission (FTC), in exercising its appliance energy efficiency labelling authority regarding a particular appliance type, may well require the application of substantially less than all of the final test procedures applicable to that appliance type.

By notice issued May 10, 1976 (41 FR 19977, May 14, 1976), FEA proposed to establish Part 430, entitled "Energy Conservation Program for Appliances," in Chapter II of Title 10 of the Code of Federal Regulations. That notice proposed a Subpart A to Part 430, containing general program provisions, and a Subpart C, containing proposed energy efficiency improvement targets. By notice issued July 22, 1976 (41 FR 31237, July 27, 1976), FEA proposed an amendment to proposed Part 430 to add a Subpart B which would contain the appliance test procedures required to be prescribed by section 323 of the Act. Subparts A and B were established by notice issued on May 24, 1977 (42 FR 27896, June 1, 1977). Proposed Subpart C has not yet been finalized, and a further proposal of Subpart C will be necessary in order to meet the requirements of section 325(a)(1) of the Act as amended by section 161 of the Energy Conservation and Production Act (Pub. L. 94–385).

The notice issued on May 24, 1977, included final test procedures for room air conditioners. By notice issued March 17, 1977 (42 FR 15423, March 22, 1977) FEA proposed test procedures for dishwashers. This notice also included certain program definitions which have not yet been finalized. Proposed test procedures for water heaters, television receivers, refrigerators and refrigerator-freezers, freezers and clothes dryers were issued on April 21, 1977 (42 FR 21576 et seq., April 27, 1977). Proposed test procedures for unvented home heating equipment were issued on May 4, 1977 (42 FR 23860, May 11, 1977), and proposed test procedures for automatic and semi-automatic clothes washers were issued on May 11, 1977 (42 FR 25329, May 17, 1977), including a determination that test procedures cannot be developed for any other class of clothes washers. Proposed test procedures for humidifiers and dehumidifiers were issued on May 25, 1977 (42 FR 27941, et seq. (June 1, 1977). Proposed test procedures for central air conditioners were issued on June 7, 1977 (The FEDERAL REGISTER issue of June 14, 1977). By this notice, FEA is proposing test procedures for conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens, including a determination to delay the publication of test procedures for any other class of the type "kitchen ranges and ovens."

Section 323(a)(2) of the Act requires FEA to direct the National Bureau of Standards (NBS) to develop, for specifically named types of covered products, test procedures for the determination of the estimated annual operating costs and at least one other useful measure of energy consumption which FEA determines is likely to assist consumers in making purchasing decisions. Pursuant to the Act, FEA directed NBS to develop test procedures for FEA's use in prescribing test procedures under the Act. As part of this undertaking, NBS evaluated existing test procedures for measuring energy consumption of kitchen ranges and ovens.

The existing American National Standard (ANS) C71.1 for household electric ranges does not specifically relate to energy consumption, but is concerned with determining the efficiency of electric heating elements in the conventional cooking top, and other performance characteristics of conventional electric ranges. The existing International Electrical Commission standard, IEC–SC59H, for microwave ovens does not specifically relate to energy consumption, but is concerned with the determination of the power output and efficiency of microwave ovens.

NBS has transmitted to FEA a test procedure review document which recommends test procedures for measuring energy consumption for conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens, which are classes of the broader appliance type designated by the Act as "kitchen ranges and ovens." NBS also recommended that proposed test procedures for any other class of the data are available. Copies of this review document will be made available for inspection by interested persons as provided for later in this notice.

In developing the proposed test procedure for conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens, NBS consulted with the technical committees of the Association of Home Appliance Manufacturers (AHAM), the American Gas Association Laboratories (AGA Labs), and the Gas Appliance Manufacturers Association (GAMA).

The test procedures proposed today are based on discussions between NBS and the technical committees of the industry associations and on field survey dated presented in the proposed AHAM Standard Test Method for Measuring Energy Consumption of Electric and Gas Ovens and Surface Units and Microwave Ovens (ER–5–EC) on August 2, 1977, and incorporate the general approach contained in the American National Standard (ANS) C71.1 and the International Electrical Commission standard IED–SC59H. Copies of these will be made available for inspection by interested persons as provided for later in this notice.

FEA is today withdrawing the previously proposed definitions in § 430.2 of "surface unit," "electric range," and "non-electric range;" reproposing, the definition of "surface unit;" and adding new definitions of "kitchen ranges and ovens" and of each of the different classes of the type "kitchen ranges and ovens." FEA is also proposing to amend the definition in § 430.2 of "basic model" by adding subparagraph (8) applying specifically to conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens. In addition, § 430.2 contains definitions promulgated or proposed previously (42 FR 27896, June 1, 1977; 42 FR 15423, March 22, 1977), some of which are applicable to the test procedures for conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens. Comments on these definitions are timely as provided below.

B. MEASURES OF ENERGY CONSUMPTION

The Act requires FEA to prescribe test procedures for the determination of estimated annual operating costs and at least one other useful measure of energy consumption which the Administrator determines is likely to assist consumers in making purchasing decisions.

FEA is proposing to establish an estimated annual operating cost for conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens (§§ 430.22(i)(1), (2), (3), and (4), respectively). In each case, the estimated annual operating cost will be the product of the total energy consumption for the representative average-use cycle of one year (annual energy consumption) times the cost of energy (representative average unit costs as provided by the Administrator).

The annual energy consumption for a conventional range is the sum of the annual energy consumption of the conventional cooking top plus the annual energy consumption of any conventional ovens.

The annual energy consumption of the conventional cooking top is the quotient of the annual useful energy output of the conventional cooking top, as determined by the AHAM field and laboratory study, divided by the energy efficiency of the conventional cooking top.

The annual energy consumption of a conventional oven is the sum of the conventional oven annual self-cleaning energy consumption plus the conventional oven annual cooking energy consumption. The annual cooking energy consumption of a conventional oven is the quotient of the annual useful energy output for the conventional oven (4.1.3 of Appendix I) divided by the efficiency of that conventional oven. If, however, the basic model tested has more than one conventional oven, the annual useful energy output is divided by the average efficiency of the conventional ovens (4.1.2.3 of Appendix I). The annual energy consumption of the self-cleaning operation of a conventional oven is the product of the energy consumption of the conventional oven for the self-cleaning operation (3.2.1.1 of Appendix I) times 11 (representative average number of times the self-cleaning operation of a conventional oven is used per year). The representative average number of times the self-cleaning operation of a conventional oven is used per year is based on NBS' recommendation to FEA.

The annual energy consumption of a microwave oven is the sum of the annual energy consumption of any features of the oven which use energy when the microwave oven is turned off plus the quotient of the annual useful energy output divided by the oven's rated efficiency (4.5.4. of Appendix I).

The annual useful energy output of conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens was determined from field survey data obtained by NBS from AHAM. In the AHAM survey these appliances were monitored during actual home use to determine the energy consumed for cooking. All modes of cooking on each appliance (e.g., broiler of an oven, griddle of a cooking top) were potentially accounted for by the energy consumption data. The appliances were then tested by the laboratory methodology proposed today to determine their efficiency. The annual useful energy output of a particular appliance was computed by multiplying its efficiency times its annual energy consumption. While the annual energy consumption figures generated by the survey potentially include all modes of cooking, the laboratory methodology used to determine the efficiency of an appliance measures only the energy consumed when the appliance is operated as it would primarily be used by consumers (e.g., baking in an oven). NBS has determined that the uniform test method for measuring the energy consumption of conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens provides data that are representative of actual consumer use in the home.

The annual useful energy output figures represent the energy actually absorbed by the food. Thus, the difference between the annual energy consumed by an appliance and its annual useful energy output represents the annual energy lost to the environment. The AHAM field survey concludes that the annual useful energy output is: 291.6 kilowatt-hours per year (995,000 Btu's per year) for conventional ranges; 238.5 kilowatt-hours per year (814,000 Btu's per year) for conventional cooking tops; 53.13 kilowatt-hours per year (181,300 Btu's per year) for conventional ovens; and 34.2 kilowatt-hours per year for microwave ovens. Copies of the AHAM survey data may be obtained for review by interested persons as provided for later in this notice.

An additional proposed measure (section 430.22(i)(5) that is likely to assist consumers in making purchasing decisions is the energy factor.

For conventional ovens (4.1.2.1. of Appendix I) and conventional cooking tops (4.2.1.1.1 of Appendix I) which utilize electric resistance heaters, and for conventional ovens (4.1.2.2.1 of Appendix I) and conventional cooking tops (4.2.1.2.-1.1 of Appendix I) which utilize gas burners without any continuously burning pilot lights, the energy factor is the quotient of the product of the following three factors: (1) The weight of a metal test block, times (2) the specific heat of the test block, times (3) the measured temperature rise of the test block; divided by the product of the energy consumed during the test.

For conventional ovens (4.1.2.2.2 of Appendix I) and conventional cooking tops (4.2.1.2.1.2 of Appendix I) which utilize gas burners with any continuously burning pilot lights, the energy factor is the quotient of the representative annual useful energy output divided by the energy input (which includes the annual energy consumed by any continuously burning pilot lights).

The annual energy consumption of any continuously burning pilot lights of a conventional gas oven is the energy consumed hourly by the pilot lights times 8,460 hours per year. The continuously burning pilot lights are consuming energy each hour of the year (there are 8,760 hours in a year). NBS has determined that 300 hours of the energy consumed by any of the oven's pilot lights contributes to the energy consumed by the conventional gas oven when the oven is being used for heating food. Therefore, the energy consumed by the continuously burning pilot lights per hour is multiplied by 8,460 rather than 8,760 hours to arrive at the annual energy consumption for the pilot lights.

The energy factor for conventional ranges (4.4 of Appendix I) is defined as the quotient of the representative average annual useful energy output divided by the annual energy consumption in kWh (Btu's) per year, as determined in 4.3 of Appendix I for the conventional range under test. For microwave ovens, the energy factor is defined as the average of the microwave oven's efficiency for the four test loads (4.5.4 of Appendix I). The microwave oven's efficiency for a specific test load is defined as the quotient of the product of the average microwave power output in watts, times the elapsed test time in seconds, divided by the product of the energy consumed during the test in watt-hours (wh) times 3600 seconds per hour (4.6.3 of Appendix I).

Among other possible applications, the energy factor may be used by FEA to determine the efficiency of conventional ranges, conventional cooking tops, conventional ovens and microwave ovens for the purposes of the efficiency improvement program described by section 325 of the Act.

FEA recognizes that there may be additional useful measures of energy consumption for conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens other than the measures described above. Accordingly, today's proposal, in proposed § 430.22(i)(6), provides for other useful measures which the Administrator determines are likely to assist consumers in making purchasing decisions. These measures, however, must be derived from the application of the uniform test method proposed today as Appendix I to Subpart B. Manufacturers would, if required, only have to perform various computations while still applying the same test method contained in Appendix I. For example, if the Administrator determined that a per-day energy cost would aid consumers in making purchasing decisions, this cost could be derived by applying the uniform test procedures to calculate the estimated annual operating cost and then dividing by 365 days per year to achieve a per-day cost figure.

C. LABORATORY METHODOLOGY

Proposed Appendix I to Subpart B provides for a controlled laboratory environment for measuring energy consumption for the various conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens which are available to the consumer. The proposed test procedures apply to appliances which may contain certain energy con-

suming cooking features and devices which are not accounted for in the laboratory test measurements. Such cooking features may include broilers, griddles, grills or deep-well cookers. Such devices may include automatic temperature controlled suface units, keep-warm timers or other energy consuming devices. The effect these cooking features or devices may have on the annual energy consumption of the appliance in actual use by the consumer cannot be quantified due to the lack of data on the separate energy consumption, energy efficiency, and consumer usage of these cooking features or devices. NBS, however, has determined that the proposed test procedures produce results in the laboratory which are representative of the energy that would be consumed annually by that given appliance at home. FEA specifically requests comments and data from manufacturers regarding the energy consumption, energy efficiency, and consumer usage patterns on any such cooking features or devices.

A conventional oven cooks food by heating a compartment into which the food has been placed. The food is cooked by absorbing the heat in the compartment. In the proposed test procedures for conventional ovens, an anodized aluminum alloy block is used as the standard test load. A metal block is used because it provides a standard, uniform, and repeatable means of testing the oven and reduces the variability that might occur if other loads were used. The proposed test procedures require that the temperature of the test block be raised 234° F above its initial temperature. The proposed temperature rise and block specifications are based on tests and studies done by the industry and NBS which indicate that these conditions simulate, in a controlled laboratory environment, the actual average use of the conventional oven in the home. Copies of these data may be obtained for review by interested persons as provided for later in this notice.

For conventional cooking tops a metal block is again used as the standard test load. For electric heating elements two different sized test blocks are used depending on the size of the heating element. The larger of these test blocks is used to test all gas heating elements. The differences in the size and the weight of the test blocks are proposed because they are the standard measures used in the American National Standard (ANS) C71.1 and provide repeatable and accurate test results.

The proposed test procedures for conventional cooking tops provide that the standard test block be raised 144° F. above its initial temperature (3.1.2 of Appendix I). The energy input to the gas or electric heating element is then decreased by reducing the energy input rate from its maximum value to 25 percent of its maximum value for 15 minutes in order to represent actual use conditions in the home. The proposed specified loads and temperature control procedures are based on NBS' recommendation which, in turn, is based on industry studies. Copies of these documents will be made available for inspection by interested persons as provided for later in this notice.

A microwave oven heats by the transmission of electromagnetic waves (microwave energy) to the food rather than by conduction. The energy is absorbed by the food and converted to heat. The proposed microwave oven test procedure uses four glass beakers filled with different quantities of distilled water containing one percent sodium chloride (NaCl) as the standard test loads. Glass beakers filled with the salt water solution are used because the glass transmits the microwave energy and the distilled water absorbs the microwave energy in the same manner as food does. Metal blocks would not be appropriate for the test load since metal reflects microwave energy. Specified quantities of distilled water are proposed as the test loads, rather than food, in order to provide repeatable, accurate and uniform test results. Test loads of 275, 500, 1000, and 2000 milliliter water loads raised 45±9° F above their initial temperature are proposed in order to determine the microwave oven's average power output. Based on discussions with the industry, NBS has determined that the proposed microwave oven test loads and temperature rise provide a representative simulation in the laboratory of the actual use of microwave ovens in the home.

In addition to proposing test procedures for most classes of "kitchen ranges and ovens" today, FEA hereby gives notice of its determination of further delay for the publication of proposed test procedures for any class of the type "kitchen ranges and ovens" other than conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens. Section 323(a)(3) of the Act requires that, not later than September 30, 1976, FEA shall publish proposed test procedures for kitchen ranges and ovens. Section 323(a)(6) of the Act, however, provides that FEA may delay the publication of proposed test procedures for a type of covered product (or class thereof) beyond the required dates of publication if it determines that it cannot, within the applicable time period, publish proposed test procedures and gives notice of such determination in the FEDERAL REGISTER. On October 21, 1976, FEA issued a notice including its determination of the necessity to delay the publication of proposed test procedures for kitchen ranges and ovens (41 FR 47286, October 28, 1976).

In particular, FEA intends to delay further the publication of proposed test procedures for the following three consumer products which are relatively new products and, therefore, presently represent only a small percentage of the market: (1) Cooking tops which utilize induction surface heating elements; (2) ranges which contain a conventional cooking top, a conventional oven, and a microwave oven in the same basic model; unit; and (3) single compartment ovens which are capable of heating food by means of electric resistance heaters and microwave energy in the same compartment. NBS has determined that there is not sufficient data on the consumer usage of these products to develop adequate test procedures to measure their energy consumption or energy efficiency. FEA will publish test procedures for such products, as soon as practicable, unless it determines that test procedures cannot be developed which the requirements of section 323(b) of the Act and publishes such determination in the FEDERAL REGISTER, together with the reasons therefor.

D. REPRESENTATIVE AVERAGE-USE CYCLE

Section 323(b)(2) (42 U.S.C. 6239(b)(2)) of the Act provides that test procedures for determining estimated annual operating costs of any covered product shall be calculated from measurements of energy use in a representative average-use cycle (as determined by the Administrator) and from representative average unit costs (as provided by the Administrator) needed to operate such product during such cycle. FEA has determined that the representative average-use cycle for conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens is one year. This determination is based upon NBS' recommendation to FEA which, in turn, is based upon the premise that a cycle representing a year's usage will encompass variations such as seasonal patterns, and the effects of vacations and holidays. NBS' recommendation is available for inspection as provided for later in this notice.

FEA intends to develop representative average unit costs of energy needed to calculate the annual operating cost for the representative average-use cycle and to provide this information to manufacturers and FTS on or before the effective date of test procedures for conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens.

E. NUMBER OF UNITS TO BE TESTED

Proposed § 430.23(i) would provide for sampling of each basic model to be tested when testing of conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens is required by the Act or by program regulations of agencies responsible for administering the Act. This provision is intended both to provide an acceptable level of assurance that test results are applicable to any entire basic model for which testing is required and to minimize the testing burden on manufacturers. FEA believes that the sampling approach proposed today will enable consumers to make meaningful comparisons of information appearing on appliance labels, and also will meet the requirements of section 323(b) of the Act that test procedures not be unduly burdensome to conduct.

Under proposed § 420.23(i), a sample of sufficient size of each basic model would be tested to assure that, for each measure of energy consumption described in § 430.22(i) there is a 95 percent probability that the mean of the values of these measures of the sample is within 5 percent of the true mean of these measures of the basic model. The size of the sample of a particular basic model will depend upon the following factors:

(a) The level of confidence required (set at 95 percent in the proposed regulations);

(b) The maximum allowable difference between the sample mean and the mean of the basic model (expressed in the proposal as a percent of the true mean and set at 5 percent); and

(c) The relationship of the mean and standard deviation of the basic model.

The relationship of the mean and standard deviation of the basic model can be determined from data available to manufacturers. With this information and using standard statistical techniques, manufacturers can determine the number of units required to be tested. In any case, no fewer than three units of each basic model must be tested. Sample units would be selected randomly from the production stream.

Manufacturers and other interested persons are encouraged to comment on the sampling approach. Manufacturers are especially encouraged to submit any data which relates to the size of the samples which the provision would require to be tested. Comments alleging that the sampling provision is burdensome should include a full discussion of the facts upon which such allegation is based.

F. REQUEST FOR PARTICULAR COMMENTS

While FEA is soliciting comments on all aspects of the proposed test procedures for conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens FEA is particularly interested in receiving comments on any other useful measures of energy consumption or data on typical consumer usage of conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens in addition to those proposed today.

In addition, FEA is interested in receiving comments on any definitions already promulgated or proposed in § 430.2, as discussed above, as these provisions might affect the testing of conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens. Comments with respect to these definitions are timely until the close of the written record, as specified below.

G. COMMENT PROCEDURE

1. *Written Comment.* Interested persons are invited to participate in this rulemaking by submitting data, views or arguments with respect to the proposed test procedures for conventional ranges, conventional cooking, tops, conventional ovens, and microwave ovens set forth in this notice to Executive Communications, Room 3317, Federal Energy Administration, Box NE., Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on documents submitted to FEA with the designation "Conventional Ranges, Conventional Cooking Tops, Conventional Ovens, and Microwave Ovens—Proposed Test Procedures." Fifteen copies should be submitted. All copies received by August 8, 1977, before 4:30 p.m., e.d.t., and all other relevant information, will be considered by FEA before final action is taken on the proposed regulations.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. FEA reserves the right to determine the confidential status of the information or data and treat it according to its determination.

2. *Public Hearings.*—a. *Request procedures.* The time and place of the public hearing are indicated at the beginning of this preamble. The hearing will be continued, if necessary, on August 12, 1977.

FEA invites any person who has an interest in the proposed rulemaking issued today, or who is a representative of a group or class of persons that has an interest in today's proposed rulemaking, to make a written request for an opportunity to make an oral presentation. Such a request should be directed to the address indicated at the beginning of this preamble and must be received before 4:30 p.m. e.d.t., on August 2, 1977. Such a request may be hand delivered to such address, between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. A request should be labeled both on the document and on the envelope "Conventional Ranges, Conventional Cooking Tops, Conventional Ovens, and Microwave Ovens—Proposed Test Procedures."

The person making the request should briefly describe the interest concerned; if appropriate, state why she or he is a proper representative of a group or class of persons that has such an interest; and give a concise summary of the proposed oral presentation and a telephone number where she or he may be contacted through August 11, 1977.

FEA will notify, before 4:30 p.m., August 4, 1977, each person selected to appear at a hearing. Each person selected to be heard must submit 50 copies of her or his statement to the address and by the date given in the beginning of this preamble. In the event any person wishing to testify cannot meet the 50 copy requirement, alternative arrangements can be made with the Office of Regulations Management in advance of the hearing by so indicating in the letter requesting an oral presentation or by calling the Office of Regulations Management at 202–254–3345.

b. *Conduct of Hearings.* FEA reserves the right to select the persons to be heard at this hearing, to schedule their respective presentations and to establish the procedures governing the conduct of the hearing. The length of each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. This will not be a judicial or evidentiary-type hearing. Questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons presenting statements. Any decision made by FEA with respect to the subject matter of the hearing will be based on all information available to FEA. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity if she or he so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions to be asked of any person making a statement at the hearing to Executive Communications, FEA, before 4:30 p.m., e.d.t., August 8, 1977. FEA will determine whether the question is relevant, and whether the time limitations permit it to be presented for answer.

Any person who makes an oral statement and who wishes to ask a question at the hearing may submit the question, in writing, to the presiding officer. The presiding officer, will determine whether the question is relevant, and whether the time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript, will be retained by FEA and made available for inspection at the FEA Freedom of Information Office, Room 2107, Federal Building, 12th and Pennsylvania Avenue, NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Any person may purchase a copy of the transcript from the reporter. A copy of NBS' recommendations concerning test procedures for conventional ranges, conventional cooking tops, conventional ovens and microwave ovens along with the American National Standard (ANS) C71.1, the International Electrical Commission Standard IEC–SC59H, and the field survey data presented in the proposed AHAM Standard Test Method for Measuring Energy Consumption of Electric and Gas Ovens and Surface Units and Microwave Ovens (ER–5–EC) on August 2, 1976 will also be made available for inspection at the FEA Freedom of Information Office.

H. ENVIRONMENTAL AND INFLATIONARY REVIEW

As required by section 7(c)(2)) of the Federal Energy Administration Act of 1974 (Pub. L. 93–275), a copy of this notice has been submitted to the Administrator of the Environmental Protection Agency for his comments concerning the impact of this proposal on the quality of the environment. The Administrator has no comments.

The National Environmental Policy Act of 1969 requires FEA to assess the

environmental impacts of any proposal by the Agency for "major Federal actions significantly affecting the quality of the human environment." Since test procedures under the conservation program for appliances will be used only to standardize the measurement of energy usage and will not affect the quantity or distribution of energy usage, FEA has determined that the action of prescribing test procedures, by itself, will not result in any environmental impacts. On this basis, FEA has determined that, with respect to prescribing test procedures, by itself, will not result in any environmental impacts. On this basis, FEA has determined that, with respect to prescribing test procedures under the conservation program for appliances, no environmental impact statement is required.

The proposal has been reviewed in accordance with Executive Order 11821 as amended by Executive Order 11949, and OMB Circular No. A-107 and has been determined not to be a major proposal requiring evalution of its economic impact as provided for therein.

(Energy Policy and Conservation Act, Pub. L. 94-163, as amended by Pub. L. 94-385; Federal Energy Administration Act of 1974, Pub. L. 93-275, as amended by Pub. L. 94-385; E.O. 11790, 39 FR 23185.)

In consideration of the foregoing, it is proposed to amend Chapter II of Title 10, Code of Federal Regulations, as set forth below.

Issued in Washington, D.C., June 9, 1977.

ERIC J. FYGI,
Acting General Counsel,
Federal Energy Administration.

1. Section 430.2 is amended by adding a subparagraph (9) as part of the definition of "basic model." and by reproposing the definition of "surface unit," and by adding definitions of "kitchen ranges and ovens," "conventional range," "conventional cooking top," "conventional oven," "microwave oven," and "other kitchen ranges and ovens," to read as follows:

§ 430.2 Definitions.

* * * * *

"Basic model" means all units of a given type of covered product manufactured by one manufacturer and—

* * * * *

(9) with respect to conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens, having the same primary energy source and essentially identical functional physical and electrical characteristics.

* * * * *

"Kitchen ranges and ovens" means consumer products that are used as the principal household cooking appliances. They are designed to cook or heat different types of food by one or more of the following sources of heat: gas, electricity, or microwave energy. Each product may consist of a horizontal cooking top containing surface units and/or one or more heating compartments. They must be one of the following classes: conventional ranges, conventional cooking tops, conventional ovens, microwave ovens, and other kitchen ranges and ovens.

* * * * *

"Conventional range" means a household cooking appliance consisting of a conventional cooking top and one or more conventional ovens, in which both the cooking top and the oven (or ovens) utilize either gas burners or electric resistance heaters as the source of heat.

* * * * *

"Conventional cooking top" means a horizontal surface containing surface units heated by means of either gas burners or electric resistance heaters.

* * * * *

"Conventional oven" means a compartment or compartments intended for the cooking or heating of food by means of gas burners or electric resistance heaters. It may include a broiler.

* * * * *

"Microwave oven" means a compartment designed to heat food by means of microwave energy.

* * * * *

"Other kitchen ranges and ovens" means any class of kitchen ranges and ovens other than conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens.

* * * * *

"Surface unit" means a unit mounted in a cooking top and designed for the heating or cooking of food.

* * * * *

2. Section 430.22 is amended by adding a paragraph (i), to read as follows:

§ 430.22 Test procedures for measures of energy consumption.

* * * * *

(i) *Conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens.* (1) The estimated annual operating cost for conventional cooking tops shall be the product of the following two factors—(i) The total conventional cooking top annual energy consumption in kilowatthours (kWh) per year for conventional electrical cooking tops and in British thermal units (Btu's) per year for conventional gas cooking tops, determined according to paragraph 4.2.2 of Appendix I of this subpart, and (ii) the representative average unit cost in dollars per kWh or Btu as provided by the Administrator, the resulting product then being rounded off to the nearest dollar per year.

(2) The estimated annual operating cost for conventional ovens shall be the product of the following two factors—(i) The total conventional oven annual energy consumption in kWh per year for conventional electric ovens and Btu's per year for conventional gas ovens, determined according to paragraph 4.1.5 of Appendix I of this subpart, and (ii) the representative average unit cost in dollars per kWh or Btu as provided by the Administrator, the resulting product then being rounded off to the nearest dollar per year.

(3) The estimated annual operating cost for conventional ranges shall be the product of the following two factors—(i) The total conventional range annual energy consumption, in kWh per year for conventional electric ranges and Btu's per year for conventional gas ranges, determined according to paragraph 4.3 of Appendix I of this subpart, and (ii) the representative average unit cost in kWh or Btu's as provided by the Administrator, the resulting product then being rounded off to the nearest dollar per year.

(4) The estimated annual operating cost for microwave ovens shall be the product of the following two factors—(i) The total microwave oven annual energy consumption in kWh per year, determined according to paragraph 4.5.5 of Appendix I to this subpart, and (ii) the representative average unit costs in dollars per kWh as provided by the Administrator, the resulting product then being rounded off to the nearest dollar pear year.

(5) The energy factor for conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens shall be the efficiency of the conventional range, conventional cooking top, conventional oven, and microwave oven as determined according to paragraph's 4.4, 4.2.1, 4.1.2, and 4.5.4, respectively, of Appendix I of this subpart.

(6) Other useful measures of energy consumption for conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens shall be those measures of energy consumption for conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens which the Administrator determines are likely to assist consumers in making purchasing decisions and which are derived from the application of Appendix I to this subpart.

* * * * *

3. Section 430.23 is amended by adding a paragraph (i), to read as follows:

§ 430.23 Units to be tested.

* * * * *

(i) *Conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens.* (1) When testing of conventional ranges, conventional cooking tops, conventional ovens, and microwave ovens is required for a measure or measures of energy consumption described in § 430.22(i) of this subpart, a sample of sufficient size of each basic model shall be tested to ensure that, for each such measure of energy consumption, there is a 95 percent probability that the means of the sample is within five percent of the true mean of such measure of the basic model, except that no fewer than three units of each basic model shall be tested.

(2) The sample selected for paragraph (i)(1) of this section shall be a simple random sample drawn from the production stream of the basic model being tested.

(3) A basic model having dual voltage ratings shall be separately tested at each design voltage such that the requirements of paragraph (i)(1) of this section are satisfied at each rating.

* * * * *

4. Subpart B of Part 430 is amended to add an Appendix I, to read as follows:

APPENDIX I—UNIFORM TEST METHOD FOR MEASURING THE ENERGY CONSUMPTION OF CONVENTIONAL RANGES, CONVENTIONAL COOKING TOPS, CONVENTIONAL OVENS AND MICROWAVE OVENS.

1. *Definitions*

1.1 "Built-in" means the product is supported by surrounding cabinetry, walls, or other similar structures.

1.2 "Drop-in" means the product is supported by horizontal surface cabinetry.

1.3 "Freestanding" means the product is not supported by surrounding cabinetry, walls, or other similar structures.

1.4 "Electric heating element" means a surface unit on which vessels are placed and then heated by electric resistance heaters.

1.5 "Gas heating element" means a surface unit on which vessels are placed and then heated by gas burners.

2. *Test Conditions.*

2.1 *Installation.*

2.1.1 *Conventional electric ranges.* Install conventional electric ranges that are freestanding, with a vertical back wall extending at least one foot above and one foot on either side of the appliance and with no side walls, with all electric resistance heaters, baking racks, and baffles in place, and in accordance with manufacturer's instructions. Disconnect all electrical devices not necessary to the operation of the electric resistance heaters of the conventional electric range. Install conventional electric ranges that are built-in, in an enclosure constructed in accordance with manufacturer's installation instructions. Conventional electric ranges shall be connected to an electrical supply circuit of nameplate voltage with a watt-hour meter installed in the circuit. The watt-hour meter shall have a maximum error not greater than one percent.

2.1.2 *Conventional gas ranges.* Install conventional gas ranges that are freestanding, with a vertical back wall extending at least one foot above and one foot on either side of the appliance and with no side walls, with all gas burners, baking racks, and baffles in place, and in accordance with manufacturer's instructions. Install conventional gas ranges that are built-in, in an enclosure constructed in accordance with manufacturer's installation instructions. Conventional gas ranges shall be connected to a gas supply line with a gas displacement meter installed between the supply line and the range according to manufacturer's specifications. The gas displacement meter shall have a maximum error not greater than one percent. Conventional gas ranges with electrical ignition devices or electrical thermostats shall be connected to an electrical supply circuit of nameplate voltage with a watt-hour meter installed in the circuit. The watt-hour meter shall have a maximum error not greater than one percent. All other electrical devices not necessary to the operation of the gas burners of the conventional gas range shall be disconnected.

2.1.3 *Conventional electric ovens.* Install conventional electric ovens with all electric resistance heaters, baking racks and baffles in place and in accordance with the manufacturer's instructions. Disconnect all electrical devices not necessary to the operation of the electric resistance heaters of the conventional electric oven. Conventional electric ovens shall be connected to an electrical supply circuit of nameplate voltage with a watt-hour meter installed in the circuit. The watt-hour meter shall have a maximum error not greater than one percent.

2.1.4 *Conventional gas ovens.* Install the conventional gas oven with all gas burners, baking racks, and baffles in place and in accordance with the manufacturer's instructions. Conventional gas ovens shall be connected to a gas supply line according to manufacturer's specifications with a gas displacement meter installed between the supply line and the conventional gas oven. The gas displacement meter shall have a maximum error not greater than one percent. Conventional gas ovens with electrical ignition devices or electrical thermostats shall be connected to an electrical supply circuit of nameplate voltage with a watt-hour meter installed in the circuit. The watt-hour meter shall have a maximum error not greater than one percent. All other electrical devices not necessary to the operation of the gas burners of the conventional gas oven shall be disconnected.

2.1.5 *Conventional electric cooking tops.* Install the electric heating elements to be tested in the conventional electric cooking top in which they will be used or in a thermally and mechanically equivalent fixture with all component parts attached in accordance with the manufacturer's instructions. Disconnect all electrical devices not necessary to the operation of the electric heating elements of the conventional electric cooking top. Conventional electric cooking tops shall be connected to an electrical supply circuit of nameplate voltage with a watt-hour meter installed in the circuit. The watt-hour meter shall have a maximum error not greater than one percent.

2.1.6 *Conventional gas cooking tops.* Install the gas heating elements to be tested in the conventional gas cooking top in which they will be used or in a thermally and mechanically equivalent fixture with all component parts attached in accordance with the manufacturer's instructions. Conventional gas cooking tops shall be connected to a gas supply line according to manufacturer's specifications and have a gas displacement meter installed between the gas supply line and the conventional gas cooking top. The gas displacement meter shall have a maximum error not greater than one percent. Conventional gas cooking tops with electrical ignition devices shall be connected to a electrical supply circuit of nameplate voltage with a watt-hour meter installed in the circuit. The watt-hour meter shall have a maximum error not greater than one percent. All other electrical devices not necessary to the operation of the gas heating elements of the conventional gas cooking top shall be disconnected.

2.1.7 *Microwave ovens.* Install the microwave oven in accordance with the manufacturer's instructions. A watt-hour meter shall be installed in the circuit having a maximum error not greater than one percent.

2.2 *Energy supply.*

2.2.1 *Electrical supply.* Maintain the electrical supply to the conventional range, conventional cooking top, conventional oven and microwave oven within one percent of the center of its nameplate voltage range for the entire test.

2.2.2 *Gas supply.*

2.2.2.1 *Natural gas.* Maintain the gas supply to a unit that uses natural gas at the normal inlet test pressure immediately ahead of all controls at 7 to 10 inches of water column. The regulator outlet pressure at normal test pressure shall be approximately that recommended by the manufacturer. Adjust the gas burners to be within ±5 percent of the Btu rating specified by the manufacturer. The natural gas supplied should have a heating value of approximately 1,025 Btu's per standard cubic foot. The actual heating value, H_n, in Btu's per standard cubic foot, for the natural gas to be used in the test shall be derived from measurements made with equipment which is accurate to within 0.5 percent of its indicated value.

2.2.2.2 *Propane gas.* Maintain the gas supply to a unit that uses propane gas at the normal inlet test pressure immediately ahead of all controls at 11 to 13 inches of water column. The regulator outlet pressure at normal test pressure shall be approximately that recommended by the manufacturer. Adjust the gas burners to be within ±5 percent of the Btu rating specified by the manufacturer. The propane gas supplied should have a heating value of approximately 2,500 Btu's per standard cubic foot. The actual heating value, H_p, in Btu's per standard cubic foot, for the propane gas to be used in the test, shall be derived from measurements made with equipment which is accurate to within 0.5 percent of its indicated value.

2.3 *Air circulation.* Maintain air circulation in the room sufficient to secure reasonable uniform temperature distribution, but do not cause a direct draft on the unit under test.

2.4 *Setting the conventional oven thermostat.*

2.4.1 *Conventional electric oven.* Install a thermocouple approximately in the center of the usable baking space. Provide an associated temperature measurement and indicator system. The accuracy of the temperature indicator system shall be within 1° F of the indicated temperature. Adjust or determine the conventional electric oven thermostat setting which will provide an average internal temperature of 325+5° F above room temperature. Determine the average internal temperature from the maximum and minimum temperatures measured in three consecutive "cut-off/cut-on" actions of the electric resistance heaters by the thermostat after the specified temperature rise has been attained by the conventional electric oven. Remove the thermocouples after the thermostat has been set.

2.4.2 *Conventional gas oven.* Install five parallel-connected thermocouples, one located at the center of the conventional gas oven's usable baking space and the other four equally spaced between the center and

the corners of the conventional gas oven on the diagonals of a horizontal plane through the center of the conventional gas oven. Provide an associated temperature measurement and indicator system. The accuracy of the temperature indicator system shall be within 1° F of the indicated temperature. Adjust or determine the conventional gas oven thermostat setting which will provide an average internal temperature of 325±5° F above room temperature. Determine the average internal temperature from the maximum and minimum temperatures measured in three consecutive "cut-off/cut-on" actions of the gas burners by the thermostat after the specified temperature rise has been attained by the conventional gas oven. Remove the thermocouples after the thermostat has been set.

2.5 *Ambient temperature.* Maintain ambient test room air temperature (T_r), at 77±9°F as measured at least 5 feet and not more than 8 feet from the nearest surface of the unit under test and approximately 3 feet above the floor. The temperature shall be measured with a device that is accurate within 1°F of the indicated temperature.

2.6 *Normal nonoperating temperature.*

2.6.1 *Conventional electric oven.* Normal nonoperating temperature for a conventional electric oven is within 1 degree Farenheit of the ambient room air temperature as determined in 2.5.

2.6.2 *Conventional electric cooking top.* Normal nonoperating temperature for a conventional electric cooking top is within 1 degree Farenheit of the ambient room air temperature as determined in 2.5.

2.6.3 *Conventional gas oven.* Normal nonoperating temperature for a conventional gas oven is equivalent to within 1°F of the temperature of a conventional gas oven which has not been used, with the conventional oven door closed, for at least 24 hours in the ambient room air temperature as determined in 2.5.

2.6.4 *Conventional gas cooking top.* Normal nonoperating temperature for a conventional gas cooking top is equivalent to within one degree Farenheit of the temperature of a conventional gas cooking top which has not been used for at least 24 hours in the ambient room air temperature as determined in 2.5.

2.7 *Test blocks.*

2.7.1 *Test block size.*

2.7.1.1 *Conventional oven.* The block shall be made of aluminum alloy No. 6061, with a specific heat of 0.23 Btu's/lb °F The oven test block shall be 6.25±.05 inches in diameter, approximately 2.8 inches in height and weight 8.5±0.1 lb (W_1) The test block shall have a hole at the center of the top of the block. The hole shall be .08 in in diameter and be 0.80 in deep. The bottom of the block shall be flat to within ±.002 in. The finished test block shall be anodized with a black hard coat .005 in minimum thickness.

2.7.1.2 *Conventional cooking top.*

2.7.1.2.1 *Small surface unit.* The block shall be made of aluminum alloy No. 6061, with a specific heat of 0.23 Btu's/lb °F. The block shall be 6.25±.05 inches in diameter, approximately 2.8 inches in height and weigh 8.5±0.1 lb (W_3). The block shall have a hole at the center of the top of the block. The hole shall be .08 in in diameter and 0.80 in. deep. The bottom of the block shall be flat to within ±.002 in.

2.7.1.2.2 *Large surface unit.* The block shall be made of aluminum alloy No. 6061, specific heat 0.23 Btu's/lb °F. The block shall be 9.0±.05 inches in diameter and approximately 3.0 in in height and weigh 19.0±0.1 lb (W_2). The block shall have a hole at the center of the top of the block. The hole shall be .08 inch in diameter and 0.08 in deep. The bottom of the block shall be flat to within ±.002 in.

2.7.2 *Thermocouple installation.* Install the thermocouple such that the thermocouple junction with the test block is at the bottom of the hole provided in the test block and that the thermocouple makes a good thermal contact with the bottom of the hole or with the side of the block at the bottom of the hole. Provide an associated temperature measurement and indicator system. The accuracy of the temperature indicator system shall be within 1°F of the indicated temperature.

2.7.3 *Test block temperature.* Maintain the initial temperature of the test blocks (T_I), within ±4°F of the room temperature.

2.8 *Test beakers.*

2.8.1. *Test beaker size.* The test beakers shall be made of thin walled glass. Two test beakers shall have an inside diameter of approximately 85 millimeters (mm). Three test beakers shall have an inside diameter of approximately 110 mm.

2.8.2 *Test beaker load.* Fill one of the 85 mm diameter test beakers with 275 milliliters (ml) ±1 percent of distilled water containing 1 percent by weight NaCl (sodium chloride). Fill one of the 85 mm diameter test beakers with 500-ml±1 pct of distilled water containing 1 percent by weight NaCl. Fill the 110 mm diameter test beakers with 1,000ml±1 percent of distilled water containing 1 percent of weight NaCl.

2.8.2.1 *Test beaker water load temperature.* Maintain the initial temperature of the test beaker water load within one degree Farenheit of room temperature. The temperature shall be measured with a device that assures that the measured temperature is within one degree Farenheit of the actual value.

3. *Test methods and measurements.*

3.1 *Test.*

3.1.1 *Conventional oven.* Perform a test by establishing the testing conditions set forth in 2 of this Appendix, and adjust any pilot lights of a conventional gas oven in accordance with the manufacturer's instructions and turn off the gas flow to the conventional cooking top. Set the conventional oven test block approximately in the center of the usable baking space with the conventional oven at its normal nonoperating temperature. Turn oven thermostat to the setting which provides an average internal temperature of 325±5°F above ambient temperature. If there is a special control or mode of operation, set for normal baking. The conventional oven shall remain on for at least one complete thermostat "cut-off/cut-on" of the electrical resistance heaters or gas burners after the test block temperature has increased 234°F above its initial temperature.

3.1.1.1 *Self-cleaning.* Perform a test by establishing the testing conditions set forth in 2 of the Appendix. Adjust any pilot lights of a conventional gas oven in accordance with the manufacturer's instructions and turn off the gas flow to the conventional cooking top. With the conventional oven at its normal nonoperating temperature, set the conventional oven self-cleaning process in accordance with manufacturer's instructions. If the cleaning process is adjustable, use the average recommended time for a moderately soiled oven.

3.1.1.2 *Continuously burning pilot lights.* Perform a test by establishing the test conditions set forth in 2 of this Appendix. Adjust any pilot lights of a conventional gas oven in accordance with the manufacturer's instructions and turn off the gas flow to the conventional cooking top. Meter for a period (L_o) of at least 24 hours the gas consumption of the pilot lights under test.

3.1.2 *Conventional cooking top.* Perform a test by establishing the testing conditions set forth in 2 of this Appendix. Adjust any pilot lights of a conventional gas cooking top in accordance with the manufacturer's instructions and turn off the gas flow to the conventional oven. With the conventional cooking top at its normal non-operation temperature, set the test block in the center of the hearing element under test. The small test block shall be used on electric heating elements 7 inches or less in diameter. The large test block shall be used on electric heating elements over 7 inches in diameter and on all gas heating elements. Energize the heating element at its maximum energy input rate (100 percent). When the test block reaches 144° F above its initial test block temperature, immediately reduce the energy input rate to 25±5 percent of the maximum energy input rate. After 15±0.1 minutes at the reduced energy setting, turn off the gas or electric heating element under test.

3.1.2.1 *Continuously burning pilot lights.* Perform a test by establishing the test conditions set forth in 2 of this Appendix. Adjust any pilot lights of a conventional gas cooking top in accordance with the manufacturer's instructions and turn off the gas flow to the conventional oven. Meter for a time (L_o) of at least 24 hours the gas consumption of the pilot lights under test.

3.1.3 *Microwave oven.* Perform the tests by establishing the testing conditions set forth in 2 of this Appendix. Four tests are to be conducted with the water test loads in the following sequence: 2,000 ml, 1,000 ml, 500 ml and 275 ml. For the 2,000 ml test, set, side by side, two of the 110 mm diameter test beakers each containing 1,000 ml of the specified water load in the approximate center of the load carrying surface of the oven, and operate the microwave oven at its maximum microwave power setting until the temperature of the water load has been raised 45±9°F. Allow one minute for changing the test load beakers between each of the tests. For the 1,000 ml test, set one of the 110 mm diameter test beakers containing 1,000 ml of the specified water load in approximately the center of the load carrying surface of the oven, and operate the microwave oven at its maximum microwave power setting until the temperature of the water load has been raised 45±9°F. For the 500 ml test, set one of the 85 mm diameter test beakers containing 500 ml of water

load in approximately the center of the load carrying surface of the oven, and operate the microwave oven at its maximum microwave power setting until the temperature of the water load has been raised 45±9°F. For the 275 ml test, set the 85 mm diameter test beaker containing 275 ml water load in approximately the center of the oven's load carrying surface, and operate the microwave oven at its maximum microwave power setting until the temperature of the water load has been raised 45±9°F.

3.2 *Energy consumption.*

3.2.1 *Conventional oven test energy consumption.* Measure the block temperature, T_A, and the energy consumed, E_A, at the end of the last "ON" period of the conventional oven before the block reaches T_O (T_O is 234°F above the initial block temperature (T_I). Measure the block temperature, T_B, and energy consumed E_B, at the beginning of the next "ON" period. Measure the block temperature, T_C, and energy consumed, E_E, at the end of that "ON" period. Measure the block temperature, T_D, and energy consumed E_D, at the beginning of the following "ON" period. Measure any electrical energy, E_{IO}, consumed by an ignition device or thermostat of a conventional gas oven in watt-hours.

3.2.1.1 *Self-cleaning test measurement* Measure the self-cleaning conventional oven energy consumption, E_s, specified as the number of watt-hours of electrical energy or cubic feet of gas, consumed during the self-cleaning test set forth in 3.1.1 of this Appendix. Measure any electrical energy, E_{IS}, consumed by an ignition device of a self-cleaning conventional oven in watt-hours.

3.2.1.2 *Gas consumption of continuously burning pilot lights.* Measure the gas consumption of the pilot lights, P_o, specified as the cubic feet of gas consumed during the test set forth in 3.1.1.2.

3.2.2 *Conventional cooking to test energy consumption.* For the gas or electric heating element under test, measure the energy consumption, E_{CT}, and the test block temperature, T_{CT}, at the end of the 15 minute (reduced input setting) test interval for the test specified in 3.1.2 and the total time (T_T), in hours, the element is under test. Measure any electrical energy, E_{IC}, consumed by an ignition device of a gas heating element in watt-hours.

3.2.2.1 *Energy consumption of continuously burning pilot lights.* If the conventional cooking top under test has one or more continuously burning pilot lights, measure the gas consumed during the test by the pilot lights, P_o, in cubic feet of gas specified in 3.1.2.1.

3.2.3 *Microwave test cycle energy consumption.* Measure the initial, T_{Mi}, and final, T_{Fi}, temperature, in degrees Fahrenheit (°F), of the water test load for the 2,000 ml, 1,000 ml, 500 ml and 275 ml tests. The final temperature, T_{Fi}, shall be measured after the test load has been stirred to insure uniform temperature distribution. Measure the elasped time, t_i, in seconds, until the temperature rise of the water load is 45±9°F.

Measure the electrical input energy, E_i, in watt-hours consumed by the microwave oven during the elapsed time, t_i, for each test.

3.3 *Recorded values.*

3.3.1 Record the test room temperature, T_R, for each test in degrees Farenheit.

3.3.2 Record measured test block weights W_1, W_2, W_3.

3.3.3 Record the initial temperature, T_I, of the test block under test.

3.3.4 Record the conventional oven test measurements T_A, E_A, T_B, E_B, T_C, E_C, T_D, and E_D.

3.3.5 Record the measured energy consumption, E_S, for the self-cleaning conventional oven test.

3.3.6 Record elapsed time, L_o, that any conventional oven continuously burning pilot lights are under test.

3.3.7 Record the elapsed time, L_c, that any conventional cooking top continuously burning pilot lights are under test.

3.3.8 Record the gas consumption of any continouusly burning pilot lights, P_o and P_c.

3.3.9 Record the total time (T_T) in hours required for the heating element test in 3.2.2.

3.3.10 For the heating element under test, record the energy consumption, E_{CT}, and the final test block temperature, T_{CT}.

3.3.11 Record the electrical input energy, E_i, the elapsed time, t_i, and initial (T_{Mi}) and final (T_{Fi}) temperature of the water load for each microwave oven test.

3.3.12 Record the heating value, H_s, as determined in 2.2.2.1 of this Appendix for the natural gas supply.

3.3.13 Record the heating value, H_p, as determined in 2.2.2.2 of this Appendix for the propane gas supply.

4. *Calculation of derived results from test measurements.*

4.1 *Conventional oven energy consumption.*

4.1.1 *Conventional oven test energy consumption.*

4.1.1 *Conventional electric oven test energy consumption.*

For each conventional electric oven of the basic model tested, calculate the test energy consumption, E_O, expressed in Btu's, and corresponding to T_O and defined as:

$$E_O=(E_{AB}\times H_e)+\left[\frac{T_O-T_{AB}}{T_{CD}-T_{AB}}\times(E_{CD}-E_{AB})\times(H_e)\right].$$

where

H_e = conversion factor of watt-hours to Btu's (3.412 Btu/wh).

$$T_{AB}=\frac{T_A+T_B}{2}$$

$$T_{CD}=\frac{T_C+T_D}{2}$$

$$E_{AB}=\frac{E_A+E_B}{2}$$

$$E_{CD}=\frac{E_C+E_D}{2}.$$

where

T_O = 234°F above the initial block temperature.

T_A = block temperature at the end of the last "ON" period of the conventional oven before the test block reaches T_O.

E_A = energy consumed in watt-hours at the end of the last "on" period before the test block reaches T_O.

T_B = block temperature at the beginning of the "ON" period after the test block reaches T_O.

E_B = energy consumed in watt-hours at the beginning of the "ON" period after the test block reaches T_O.

T_C = block temperature at the end of the "ON" period in which T_B and E_B were measured.

E_C = energy consumed in watt-hours at the end of the "ON" period in which T_B and E_B were measured.

T_D = block temperature at the beginning of the "ON" period which follows the period in which T_C was measured.

E_D = energy consumed in watt-hours at the beginning of the "ON" period which follows the period in which T_C was measured.

4.1.1.2 *Conventional gas oven test energy consumption.* For each conventional gas oven of the basic model tested, calculate the test energy consumption, E_i expressed in Btu's and corresponding to T_O and defined as:

$$E=(E_{IO}\times H_s)+E_O,$$

where

E_{IO} = any electrical energy consumed by an ignition device or thermostat of the conventional gas oven as measured in 3.2.1.

H_s = conversion factor of watt-hours to Btu's (3.412 Btu's/wh).

$$E_O=(E_{AB}\times H)+\frac{(T_O-T_{AB})}{(T_{CD}-T_{AB})}\times(E_{CD}-E_{AB})\times(H),$$

where

H = either H_s or H_p, the heating value of the gas used in the test as specified in 2.2.2.1 and 2.2.2.2, in Btu's per standard cubic foot.

$$T_{AB}=\frac{T_A+T_B}{2}$$

$$T_{CD}=\frac{T_C+T_D}{2}$$

$$E_{AB}=\frac{E_A+E_B}{2}$$

$$E_{CD}=\frac{E_C+E_D}{2}.$$

where

T_O = 234°F above the initial block temperature.

T_A = block temperature at the end of the last "ON" period of the conventional oven before the test block reaches T_O.

E_A = energy consumed at the end of the last "ON" period before the test block reaches T_O.

T_B = block temperature at the beginning of the "ON" period after the test block reaches T_O.

E_B = energy consumed at the beginning of the "ON" period after the test block reaches T_O.

T_C = block temperature at the end of the "ON" period in which T_B and E_B were measured.

E_C = energy consumed at the end of the "ON" period in which T_B and E_B were measured.

T_D=block temperature at the beginning of the "ON" period which follows the period in which T_C was measured.

E_3=energy consumed at the beginning of the "ON" period which follows the period in which T_C was measured.

4.1.1.3 *Test energy consumption of any continuously burning pilot lights.* Calculate the test energy consumption of any continuously burning pilot lights, E_{po}, expressed in Btu's per hour and defined as:

$$E_{po}=\frac{P_o\times H}{L_o},$$

where

P_O=cubic feet of gas consumed by any pilot lights as determined in 3.2.1.2.

$H=H_a$ or H_p, the heating value of the gas used in the test as specified in 2.2.2.1 and 2.2.2.2 in Btu's per standard cubic foot.

L_O=elapsed test time in hours for any pilot lights tested.

4.1.2 *Conventional oven efficiency.*

4.1.2.1 *Conventional electric oven efficiency.* For each conventional electric oven of the basic model tested, calculate the efficiency, Eff_{EO}, using the following equation:

$$Eff_{EO}=W_1\times C_p\times\frac{T}{E_O},$$

where

W_1=measured weight of test block, in pounds.

C_p=specific heat of test block, or 0.23 Btu's/lb °F.

T=temperature rise of test block (234°F).

E_o=energy consumed to raise temperature of test block 234°F, as calculated in 4.1.1.1.

4.1.2.2 *Conventional gas oven efficiency.*

4.1.2.2.1 *Efficiency of a conventional gas oven without any continuously burning pilot lights.* For each conventional gas oven without any continuously burning pilot lights of the basic model tested, calculate the efficiency, Eff_{GO}, using the following equation:

$$Eff_{GO}=W_1\times C_p\times\frac{T}{E},$$

where

W_1=measured weight of test block, in pounds.

C_p=specific heat of test block, 0.23 Btu's/lb °F.

T=temperature rise of test block (234°F).

E=test energy consumption as defined in 4.1.1.2.

4.1.2.2.2 *Efficiency of a conventional gas oven with any continuously burning pilot lights.* For each conventional gas oven with any continuously burning pilot lights of the basic model tested, calculate the efficiency, Eff_{GP}, using the following equation:

$$Eff_{GP}=\frac{O_o}{I},$$

where

O_o=Annual useful energy output (181,300 Btu's per year)

I=Annual cooking energy consumption

$$=\frac{O_o}{W_1\times C_P\times\frac{T}{E}}+Y_o\times E_{po},$$

where

W_1=measured weight of test block, in pounds.

C_p=specific heat of test block, 0.23 Btu/lb °F.

T=temperature rise of test block (243°F).

E=conventional gas oven energy consumed as calculated in 4.1.1.2.

$Y_o=A-B$,

where

A=total number of hours in a year, (8760 hours per year).

B=number of hours any continuously burning pilot lights contribute to the heating of the conventional oven for cooking food, (300 hours per year).

E_{po}=test energy consumption of any continuously burning pilot lights of a conventional gas oven, in Btu's per hour, as determined according to 4.1.1.3.

4.1.2.3 *Conventional oven efficiency of a basic model.* Calculate the conventional oven efficiency, Eff_{AO}, of the basic model tested, using the following equation:

$$Eff_{AO}=\sum_{i=1}^{n}\frac{(Eff_o)\,i}{n}$$

where,

Eff_o=the efficiency of each oven as determined according to 4.1.2.

n=number of conventional ovens of the basic model tested.

4.1.3 *Conventional oven annual cooking energy consumption of a basic model.* Calculate the conventional oven annual cooking energy consumption, E_{oc}, of the basic model tested, expressed in kWh per year for electrical energy and Btu's per year for gas, and defined as:

$$E_{oc}=\frac{O_o}{Eff_{AO}},$$

where

O_o=conventional oven annual useful energy output expressed as 53.13 kWh or 181,300 Btu's.

Eff_{AO}=conventional oven efficiency of a basic model as determined according to 4.1.2.3.

4.1.4 *Conventional oven annual self-cleaning energy consumption of a basic model.* Calculate the conventional oven annual self-cleaning energy consumption, E_{sc}, of the basic model tested, expressed in kWh per year for electrical energy and Btu's per year for gas, and defined as:

For conventional gas ovens:

$$E_{sc}=\left(\frac{\sum_{i=1}^{n}(E_s+(E_{IS}\times H_r))_i}{n}\right)\times H\times S,$$

where

E_s=energy consumption in cubic feet of gas per oven tested according to 3.2.1.1.

E_{IS}=electrical energy consumed by an ignition device for the self-cleaning operation of a conventional gas oven.

H_r=conversion factor of watt-hours to Btu's (3.412 Btu/wh).

$H=H_a$ or H_p, the heating value of the gas used in the test as specified in 2.2.2.1 and 2.2.2.2 in Btu's per standard cubic foot.

S=11 (representative average number of times a self-cleaning operation of a conventional oven is used per year).

n=number of conventional ovens of the basic model tested.

For conventional electric ovens:

$$E_{sc}=\left(\sum_{i=1}^{n}\frac{(E_s)\,i}{n}\right)\times S\times Cs$$

where

E_s=energy consumption in watt-hours per oven tested according to 3.1.1.1.

S=as defined above.

n=as defined above.

C=conversion factor of watts to kilowatts (.001 W/kW).

4.1.5 *Total conventional oven annual energy consumption of a basic model.* Calculate the total conventional oven annual energy consumption, E_{AO}, of the basic model tested, expressed in kWh per year or Btu's per year, and defined as:

$$E_{AO}=E_{oc}+E_{sc},$$

where

E_{oc}=Conventional oven annual cooking energy consumption of a basic model as determined in 4.1.3 in kWh's per year or Btu's per year.

E_{sc}=Conventional oven annual self-cleaning energy consumption of a basic model as determined in 4.1.1 in kWh's per year of Btu's per year.

4.2 *Conventional cooking top energy consumption.*

4.2.1 *Conventional cooking top efficiency.*

4.2.1.1 *Electric heating element efficiency.* Calculate the efficiency, Eff_{ES}, of the electric heating element under test, and defined as:

$$Eff_{ES}=W\times C_p\times\frac{T_{\Delta t}}{H_r\times E_{CT}}$$

where

W=measured weight of test block (W_2 or W_3), in pounds.

C_p=specific heat of aluminum: 0.23 Btu's/lb °F.

$T_{\Delta t}$=temperature rise of the test block: final test block temperature, T_{CT}, minus the initial testblock temperature, T_I, in °F.

H_r=conversion factor of watt-hours to Btu's, (3.412 Btu/wh).

E_{CT}=measured energy consumption, as determined according to 3.2.2, in watt-hours.

4.2.1.1.1 *Conventional electric cooking top efficiency.* Calculate the conventional electric cooking top efficiency, Eff_{EC}, using the following equation:

$$Eff_{EC}=\frac{\sum_{i=1}^{n}(Eff_{ES})_i}{n},$$

where

n=number of electric heating elements contained in the cooking top.

Eff_{ES}=the efficiency of each of the electric heating elements, as determined according to 4.2.1.1.

4.2.1.2 *Gas heating element efficiency.* Calculate the efficiency, Eff_{GS}, of the gas heating element under test, and defined as:

$$Eff_{GS}=W_3\times C_p\times\frac{T_{\Delta t}}{E\times H},$$

where

W_3=measured weight of test block according to 3.3.2, in pounds.

C_p=specific heat of aluminum, 0.23 Btu's/lb °F.

$T_{\Delta t}$=temperature rise of the test block: final test temperature T_{CT}, as determined in 3.2.2, minus the initial test block temperature, T_I.

H=either H_a or H_p, the value of the gas used in the test as specified in 2.2.2.1 and 2.2.2.2, in Btu's per standard cubic foot.

$$E=(E_{CT}+(E_{IC}\times H_r))-E_{CP},$$

where

E_{CT}=energy consumption for the gas heating element as defined in 3.2.2.

E_{IC}=electrical energy consumed by an ignition device of a gas heating element.

H_r=conversion factor of watt-hours to Btu's (3.412 Btu/wh).

$$E_{CP}=P\times T_T,$$

where

$$P=\frac{P_c}{L_c},$$

where

P_c=any pilot lights gas consumption defined in 3.2.2.1.

L_c=elasped time of the cooking top pilot lights test as defined in 3.1.2.1.

T_T=the elasped test time as defined in 3.2.2.

4.2.1.2.1 *Conventional gas cooking top efficiency.*

4.2.1.2.1.1 *Efficiency of a conventional gas cooking top without any continuously burning pilot lights.* Calculate the efficiency, Eff_{GC}, of a conventional gas cooking top without any continuously burning pilots using the following equation:

$$Eff_{GS}=\frac{\sum_{i=1}^{n}(Eff_{ES})_i}{n},$$

where

n=number of gas heating elements contained in the cooking top.

Eff_{GS}=the efficiency of each gas heating element as determined according to 4.2.1.2.

4.2.1.2.1.2 *Efficiency of a conventional gas cooking top with any continuously burning pilot lights.* Calculate the effieacy, Eff_{FC}, of a gas cooking top with any continuously burning pilot lights using the following equation:

$$Eff_{FC}=\frac{O_{CT}}{I_{CT}},$$

where

O_{CT}=814,000 Btu's (annual useful conventional cooking top energy output).

$$I_{CT}=\frac{O_{CT}}{Eff_{GC}}+(A\times P\times H),$$

where

O_{CT}=the annual useful energy output as defined above.

Eff_{GC}=the gas cooking top efficiency as defined in 4.2.1.3.1.

P=the hourly energy consumption defined in 4.2.1.2.

A=the total number of hours in a year (8,760 hours).

H=either H_a or H_p, the heating value of the gas used in the test as specified in 2.2.2.1 and 2.2.2.2, in Btu's per standard cubic foot.

4.2.2 *Conventional cooking top annual energy consumption.* Calculate the conventional cooking top annual energy consumption, E_{CA}, in kWh per year for conventional electric cooking tops or Btu's per year for conventional gas cooking tops, and defined as:

$$E_{CA}=\frac{O_{CT}}{Eff},$$

where

O_{CT}=238.5 kWh per year or 814,000 Btu's per year (conventional cooking top annual useful energy output).

Eff=conventional cooking top efficiency as determined according to 4.2.1.1.1 for conventional electric cooking tops and 4.2.1.3 for conventional gas cooking tops.

4.3 *Conventional range annual energy consumption.* Calculate the conventional range annual energy consumption, E_R, in kWh per year for conventional electric ranges and Btu's per year for conventional gas ranges, and defined as:

$$E_R=E_{AO}+E_{CA},$$

where

E_{AO}=the conventional oven annual energy consumption in kWh's per year or Btu's per year as defined in 4.1.5.

E_{CA}=the conventional cooking top annual energy consumption in kWh's per year or Btu's per year as defined in 4.2.2.

4.4 *Conventional range efficiency.* Calculate the conventional range efficiency, Eff_R, and defined as:

$$Eff_R=\frac{O_R}{E_r},$$

where

O_R=291.5 kWh per year for conventional electric ranges and 995,000 Btu's per year for conventional gas ranges (conventional range annual useful energy output).

E_R=the conventional range annual energy consumption as defined in 4.3.

4.5 *Microwave oven energy consumption.*

4.5.1 *Microwave power output.* Calculate for each test load (i) the microwave power output, MP_o, in watts, and defined as:

$$(MP_o)_i=\frac{W_i\times F\times DT_i}{t_i},$$

where

W_i=size of the test load, in milliliters (ml).

$$DT_i=T_{M_i}-T_{I_i},$$

where

T_{M_i}=the final temperature in °F of the test load as defined in 3.2.3.

T_{I_i}=the initial temperature in °F of the test load as defined in 3.2.3.

F=2.32 Watt-sec/Ml °F (conversion factor used to convert milliliter, degrees Farenheit to watt-seconds).

t_i=the elapsed test time, in seconds, as defined in 3.2.3.

4.5.2 *Average microwave power output.* Calculate the average microwave power AP_o, in watts, as defined as:

$$AP_o=\frac{\sum_{i=1}^{m}(MP_o)_i}{m},$$

where

m=4 (the number of test loads).

$(MP_o)_i$=the microwave power output for each test load as defined in 4.5.1

4.5.3 *Specific microwave efficiency.* Calculate the specific microwave efficiency, e, for each test load (i), and defined as:

$$e_i=\frac{AP_o}{E_i}\times\frac{t_i}{S},$$

where

S=3,600 seconds (the number of seconds in one hour).

AP_O=the average microwave power output in watts as defined in 4.5.2.

E_i=the energy consumption as defined in 3.2.3.

t_i=the elapsed test time as defined in 3.2.3.

4.5.4 *Microwave oven rated efficiency.* Calculate the microwave oven rated efficiency, $e_{(ave)}$, and defined as:

$$e_{(ave)}=\frac{\sum_{i=1}^{m}e\,i}{m},$$

where

m=4 (the number of test loads).

e_i=the specific microwave efficiency as defined in 4.5.3.

4.5.5 *Microwave oven annual energy consumption.* Calculate the microwave oven annual energy consumption, E_{mo}, in kWh per year, and defined as:

$$E_{mo}=\frac{MO}{e_{(ave)}}+((PR)\times(KH)),$$

where

$e_{(ave)}$=the microwave oven rated efficiency as defined in 4.5.4.

PR=the power rating of features (such as clocks), in watts. The power rating is the power drawn from the electrical supply when the microwave oven is turned off.

MO=34.2 kWh per year (the microwave oven annual useful energy output).

KH=8.76 (the nunber of thousand hours in a year).

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 76-RM-27]

TRANSITION AREA AT DELTA, UTAH

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Proposed Rule Making (NPRM).

SUMMARY: This notice (NPRM) proposes to alter the Delta, Utah, 700 foot transition area to provide controlled airspace for aircraft executing new VOR approach procedures developed for the Delta, Utah, Municipal Airport.

DATES: Comments must be received on or before July 18, 1977.

ADDRESSES: Send comments on the proposal to: Chief, Operations, Procedures and Airspace Branch, Air Traffic Division, Rocky Mountain Region, Federal Aviation Administration, 10455 East 25th Avenue, Aurora, Colorado 80010.

The official docket may be examined at the following location: Office of the Regional Counsel, Rocky Mountain Region, Federal Aviation Administration, 10455 East 25th Avenue, Aurora, Colorado 80010.

An informal docket may be examined at the Office of the Chief, Operations, Procedures and Airspace Branch, Air Traffic Division, Aurora, Colorado.

FOR FURTHER INFORMATION CONTACT:

Clyde A. Powers, Airspace Specialist, Operations, Procedures and Airspace Branch, Air Traffic Division, ARM-538, FAA Rocky Mountain Region, 10455 East 25th Avenue, Aurora, Colorado 80010, telephone (303) 837-3937.

SUPPLEMENTARY INFORMATION: A new VOR Instrument approach procedure to runway 16 and an amended VOR Instrument approach procedure (amendment 1) to runway 34 has been developed for the Delta Municipal Airport, Delta, Utah. Accordingly, it is necessary to alter the Delta, Utah, 700 foot transition area to adequately protect aircraft executing these procedures. Interested persons are invited to participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments in the Rules Docket for examination by interested persons. A report summarizing each public contact with FAA personnel concerned with this rule making will be filed in the public regulatory docket.

Persons desiring copies of the NPRM should contact: Rules Docket Clerk Office of the Regional Counsel, ARM-7, Federal Aviation Administration, 10455 East 25th Avenue, Aurora, Colorado 80010.

The principal authors of this document are Clyde A. Powers, Air Traffic Division, and Daniel J. Peterson, Office of the Regional Counsel, Rocky Mountain Region.

Accordingly, the Federal Aviation Administration proposes to amend Part 71, Subpart G, § 71.181 of the Federal Aviation Regulations (14 CFR 71.181) as follows:

Amend § 71.181 (42 FR 440) so as to alter the following 700 foot transition area to read:

DELTA, UTAH

That airspace extending upward from 700 feet above the surface within a 9-mile radius of Delta Municipal Airport (latitude 39°23'-00"N., longitude 112°30'35"W.); and within 10.5 miles northwest and 5 miles southeast of the Delta VORTAC 203° radial, extending from the 9-mile radius area to 18.5 miles southwest of the VORTAC; within 5 miles east of the Delta VORTAC 186° radial, extending from the 9-mile radius area to 13 miles south of the VORTAC; within 8 miles west and 6.5 miles east of the Delta VORTAC 360° radial, extending from the 9-mile radius area to 30 miles north of the VORTAC * * *

(Sec. 307(a), Federal Aviation Act of 1958 as amended (49 U.S.C. 1348); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Aurora, Colorado, on June 6, 1977.

M. M. MARTIN,
Director, Rocky Mountain Region.

[FR Doc.77-17084 Filed 6-15-77;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 77-EA-23]

FEDERAL AIRWAY

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rule making.

SUMMARY: This notice proposes to realign the VOR Federal Airway identified as V-37 between Morgantown, W. Va., and Ellwood City, Pa., to reduce aircraft radio frequency changes and provide more efficient use of the navigable airspace in and around the Greater Pittsburgh Airport Area.

DATE: Comments must be received on or before July 18, 1977.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Eastern Region, Attention: Chief, Air Traffic Division, Docket No. 77-EA-23, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430.

The official docket may be examined at the following location:

FAA Office of the Chief Counsel, Rules Docket, (AGC-24), Room 916, 800 Independence Avenue, SW., Washington, D.C. 20591.

An informal docket may be examined at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Mr. David F. Solomon, Airspace Regulations Branch (AAT-230, Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-8530.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received on or before July 18, 1977 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rule making (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to realign the VOR Federal Airway identified as Victor (V)-37 between Morgantown, W. Va., and Ellwood City, Pa. The FAA acknowledges that the proposed realignment of this airway will add one mile to the overall distance between Morgantown and Ellwood City. However, the FAA believes the benefits to be gained by reducing the number of radio changes from three to two and the improved air traffic handling capabilities will offset the extra mile of flying. This proposal should also help the pilot by reducing cockpit workload, thereby alowing him to fly and navigate better.

DRAFTING INFORMATION

The principal authors of this document are David F. Solomon, Air Traffic Service, and Jack P. Zimmerman, Office of the Chief Counsel.

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71.123 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 307) to realign VOR Federal Airway V-37 in part between Morgantown, W. Va., and Ellwood City, Pa., as follows:

"INT Morgantown 331°T (336°M) and Ellwood City, Pa., 185°T (190°M) radials;

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on June 9, 1977.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.77-17085 Filed 6-15-77;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 77-GL-20]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to realign and redesignate the existing transition area and control zone at K. I. Sawyer Air Force Base, Michigan, to provide for adjustment of the controlled airspace to accommodate aircraft executing instrument approach procedures to K. I. Sawyer Air Force Base which approach procedures have been altered by the Air Force.

DATE: Comments must be received on or before July 18, 1977.

ADDRESSES: Send comments on the proposal to FAA Office of Regional Counsel, AGL-7, Attention: Rules Docket Clerk, Docket No. 77-GL-20, 2300 East Devon Avenue, Des Plaines, Illinois 60018. A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

FOR FURTHER INFORMATION CONTACT:

Doyle Hegland, Airspace and Procedures Branch, Air Traffic Division, AGL-530, FAA, Great Lakes Region, 2300 East Devon Avenue, Des Plaines, Illinois, 60018, telephone 312-694-4500, extension 456.

SUPPLEMENTARY INFORMATION: The intended effect of this action is to realign and redesignate the control zone and transition area to insure segregation of aircraft using the various instrument approach procedures into K. I. Sawyer AFB in instrument weather conditions and other aircraft operating under visual conditions. The circumstance which created this action was an alteration by the Air Force of various instrument approach procedures at K. I. Sawyer AFB. These procedural changes will require the FAA to reorient the control zone extensions approximately one-half mile counter-clockwise and will allow for the return of approximately eight miles of 700' above the surface transition area to the south of the Air Force Base to the public for general aviation use. In addition, aeronautical maps and charts will reflect the revised area which will enable non-military aircraft to circumnavigate the area if required in order to comply with applicable visual flight rule requirements.

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Regional Counsel, AGL-7, Great Lakes Region, Rules Docket No. 77-GL-20, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before July 16, 1977, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to Subparts G and F, Part 71, of the Federal Aviation Regulations (14 CFR Part 71) to alter the 700' controlled airspace transition area and the control zone near K. I. Sawyer AFB, Michigan. Subparts G and F of Part 71 were republished in the FEDERAL REGISTER on January 3, 1977 (42 FR 440 and 355).

DRAFTING INFORMATION

The principal authors of this document are Doyle W. Hegland, Airspace and Procedures Branch, Air Traffic Division, and Joseph T. Brennan, Office of the Regional Counsel.

THE PROPOSED AMENDMENT

Accordingly, the FAA proposes to amend § 71.181 of Part 71 of the Federal Aviation Regulations as follows:

In Section 71.181 (42 FR 440) the following transition area is amended to read:

K. I. SAWYER AFB, MICHIGAN

That airspace extending upward from 700' above the surface within an 8.5 statute (7.4 nautical) mile radius of the K. I. Sawyer Airport.

In addition, the FAA proposes to amend § 71.171 of Part 71 of the Federal Aviation Regulations as follows:

In Section 71.171 (42 FR 355), the following control zone is amended to read:

K. I. SAWYER AFB, MICHIGAN

Within a 5 statute mile radius of the K. I. Sawyer Airport (latitude 46°21' N, longitude 87°24' W); within two statute miles each side of the extended center line of runaway 01/19, extending from the 5-mile radius zone to 7.5 statute miles north and south of the airport.

This amendment is proposed under the authority of section 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); sec. 11.81 of the Federal Aviation Regulations (14 CFR 11.61).

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Des Plaines, Illinois, on June 2, 1977.

JOHN TRUHAN,
Acting Director, Great Lakes Region.

[FR Doc.77-16834 Filed 6-15-77;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 76-WE-31]

FEDERAL AIRWAYS IN SOUTHWESTERN CALIF.

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to realign V-12, V-25, V-27, V-186 and V-485 airways in the southwestern Calif., area. This action would improve traffic handling capabilities, reduce airway distances and promote safety by segregating moving en route traffic from terminal traffic and changing airways to go direct station to station.

DATE: Comments must be received on or before July 18, 1977.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA

Western Region, Attention: Chief, Air Traffic Division, Docket No. 76-WE-31, FAA, 15000 Aviation Boulevard, P.O. Box 92007, Worldway Postal Center, Los Angeles, Calif. 90009.

The official docket may be examined at the following location: FAA Office of the Chief Counsel, Rules Docket, (AGC-24), Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

An informal docket may be examined at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone 202-426-3715.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director Western Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 15000 Aviation Boulevard, P.O. Box 92007, Worldway Postal Center, Los Angeles, Calif. 90009. All communications received on or before July 18, 1977, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to realign VOR Federal Airways identified as V-12, V-25, V-27, V-186 and V-485 in southwestern Calif. This action would: (1) Provide a safer, more efficient flow of traffic in the Santa Barbara-Ventura area; (2) provide additional flexibility in handling IFR traffic; (3) support the "most direct route" philosophy; (4) facilitate feeder routes into Santa Barbara Municipal Airport; and (5) reduce controller workload.

ICAO CONSIDERATIONS

As part of this proposal relates to the navigable airspace outside the United States, this notice is submitted in consonance with the International Civil Aviation Organization (ICAO) International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly, and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

DRAFTING INFORMATION

The principal authors of this document are Everett L. McKisson, Air Traffic Service, and Jack P. Zimmerman, Office of the Chief Counsel.

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71.123 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (42 FR 307) to realign VOR Federal Airways V-12, V-25, V-27 and V-485 and to extend V-186 segments in the southwest area of Calif., as follows:

1. V-12 from Santa Barbara, Calif., direct to Palmdale, Calif., and V-12 S from Santa Barbara to Palmdale via Fillmore, Calif. V-12 is presently designated from Santa Barbara to Palmdale via the Henderson INT and Fillmore without an alternate airway between these points.

2. V-25 from Ventura, Calif., direct to Santa Barbara, Calif., and V-25 W as a standard west alternate between Santa Barbara and Paso Robles, Calif. V-25 is presently designated from Ventura to Santa Barbara via the Henderson INT. There is no V-25 W between Santa Barbara and Paso Robles.

3. V-27 from Ventura, Calif., via INT Ventura 326°T (311°M) and Fillmore, Calif., 265°T (250°M) radials; INT Fillmore 265°T (250°M) and Gaviota, Calif., 143°T (127°M) radials; to Gaviota. V-27 is presently designated from Ventura to Gaviota via the Henderson INT and the Goleta INT.

4. V-186 from Fillmore, Calif., via INT Fillmore 265°T (250°M) and Santa Barbara, Calif., 123°T (107°M) radials to Santa Barbara. This is an extension of V-186 which presently stops at Fillmore.

5. V-485 from Ventura, Calif., direct to Fellows, Calif. V-485 is presently designated via an INT.

(Sec. 307(a), and 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1510), Executive Order 10854 (24 FR 9565); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on June 9, 1977.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[14 CFR Part 71]

[Airspace Docket No. 77-SW-19]

TRANSITION AREA AT DE RIDDER, LA.

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to alter the De Ridder, Louisiana, transition area to provide controlled airspace for aircraft executing a newly established NDB (nondirectional radio beacon) instrument approach procedure to the Beauregard Parish Airport.

DATES: Comments must be received on or before July 18, 1977.

ADDRESSES: Send comments on the proposal to: Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101.

The official docket may be examined at the following location: Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101.

An informal docket may be examined at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

John A. Jarrell, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101; telephone, 817-624-4911, extension 302.

SUPPLEMENTARY INFORMATION: In Subpart G, § 71.181 (42 FR 440) of FAR Part 71, the description of the De Ridder, Louisiana, transition area reflects the controlled airspace provided for the present instrument approach to the Beauregard Parish Airport. The new NDB Runway 36 approach will require alteration of the transition area to provide the necessary controlled airspace for this approach.

COMMENTS INVITED

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before July 18, 1977 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101, or by calling 817-624-4911, extension 302. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should contact the office listed above.

THE PROPOSAL

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the De Ridder, La., transition area. The FAA believes this action will enhance IFR operations at the Beauregard Parish Airport by providing controlled airspace for aircraft executing the new NDB runway 36 instrument approach procedure established for the airport. Subpart G of Part 71 was republished in the FEDERAL REGISTER on January 3, 1977 (42 FR 440).

DRAFTING INFORMATION

The principal authors of this document are John A. Jarrell, Airspace and Procedures Branch, and Robert C. Nelson, Office of the Regional Counsel.

THE PROPOSED AMENDMENT

Accordingly, in Subpart G, 71.181 (42 FR 440), the De Ridder, La., transition area is amended to read as follows:

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Beauregard Parish Airport (latitude 30°50'00" N., longitude 93°20'00" W.) within 3.5 miles each side of the 347 bearing from the De Ridder NDB (latitude 30°50'00" N., longitude 93°20'00" W.) extending from the 5-mile radius area to 11.5 miles north of the NDB, and within 3 miles each side of the 191 bearing from the 5-mile radius area to 8 miles south of the NDB.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); and Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE: The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Fort Worth, Texas, on June 7, 1977.

PAUL J. BAKER,
Acting Director, Southwest Region.

[FR Doc.77-17087 Filed 6-15-77;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 77-GL-19]

TRANSITION AREA

Proposed Designation

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to designate a transition area at Aitkin, Minnesota, to provide controlled airspace for aircraft executing instrument approach procedures to Aitkin Municipal Airport which are based on a Non-Directional Radio Beacon (NDB) navigational aid being installed at the airport.

DATES: Comments must be received on or before July 18, 1977.

ADDRESSES: Send comments on the proposal to FAA Office of Regional Counsel, AGL-7, Attention: Rules Docket Clerk, Docket No. 77-GL-19, 2300 East Devon Avenue, Des Plaines, Illinois 60018. A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

FOR FURTHER INFORMATION CONTACT:

Doyle Hegland, Airspace and Procedures Branch, Air Traffic Division, AGL-530, FAA, Great Lakes Region, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone 312-694-4500, extension 456.

SUPPLEMENTARY INFORMATION: The intended effect of this action is to insure segregation of the aircraft using this approach procedure in instrument weather conditions, and other aircraft operating under visual conditions. The floor of the controlled airspace in this area will be lowered from 1200' above ground to 700' above ground. The circumstance which created this action was a request from the Aitkin Municipal Airport to provide that facility with instrument approach capability. The development of the proposed instrument procedures necessitates the FAA to lower the floor of the controlled airspace to insure that the procedure will be contained within controlled airspace. The minimum descent altitude for this procedure may be established below the floor of the 700 foot controlled airspace. In addition, aeronautical maps and charts will reflect the area of the instrument procedure which will enable other aircraft to circumnavigate the area in order to comply with applicable visual flight rule requirements.

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Regional Counsel, AGL-7, Great Lakes Region, Rules Docket No. 77-GL-19, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before July 16, 1977, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to establish a 700-foot controlled airspace transition area near Aitkin, Minnesota. Subpart G of Part 71 was republished in the FEDERAL REGISTER on January 3, 1977 (42 FR 440).

DRAFTING INFORMATION

The principal authors of this document are Doyle W. Hegland, Airspace and Procedures Branch, Air Traffic Division, and Joseph T. Brennan, Office of the Regional Counsel.

THE PROPOSED AMENDMENT

Accordingly, the FAA proposes to amend § 71.181 of Part 71 of the Federal Aviation Regulations as follows:

In § 71.181 (42 FR 440), the following transition area is added:

AITKIN, MINNESOTA

That airspace extending upward from 700 feet above the surface within a five (statute) mile radius of the Aitkin Municipal Airport (latitude 46°32'45" N. longitude 93°40'45" W) and within 3 miles (statute) each side of the 355° (true) bearing of the Aitkin NDB, extending from the five-mile radius to 8.5 miles (statute) north of the airport.

This amendment is proposed under the authority of section 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); sec. 11.81 of the Federal Aviation Regulations (14 CFR 11.61).

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Des Plaines, Illinois, on June 2, 1977.

JOHN TRUHAN,
Acting Director,
Great Lakes Region.

[14 CFR Part 71]

[Airspace Docket No. 77-GL-21]

TRANSITION AREA

Proposed Designation

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to designate a transition area at Peebles, Ohio, to provide controlled airspace for aircraft executing instrument approach procedures to the General Electric Airport which are based on a Non-Directional Radio Beacon (NDB) navigational aid being installed at the airport.

DATE: Comments must be received on or before July 18, 1977.

ADDRESSES: Send comments on the proposal to FAA Office of Regional Counsel, AGL-7, Attention: Rules Docket Clerk, Docket No. 77-GL-21, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

FOR FURTHER INFORMATION CONTACT:

Doyle Hegland, Airspace and Procedures Branch, Air Traffic Division, AGL-530, FAA, Great Lakes Region, 2300 East Devon Avenue, Des Plaines, Illinois 60018. Telephone 312 694-4500, Extension 456.

SUPPLEMENTARY INFORMATION: The intended effect of this action is to insure segregation of the aircraft using this approach procedure in instrument weather conditions, and other aircraft operating under visual conditions. The floor of the controlled airspace in this area will be lowered from 1200' above ground to 700' above ground. The circumstance which created this action was a request from the General Electric Airport officials to provide that facility with instrument approach capability. The development of the proposed instrument procedures necessitates the FAA to lower the floor of the controlled airspace to insure that the procedure will be contained within controlled airspace. The minimum descent altitude for this procedure may be established below the floor of the 700-foot controlled airspace. In addition, aeronautical maps and charts will reflect the area of the instrument procedure which will enable other aircraft to circumnavigate the area in order to comply with applicable visual flight rule requirements.

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Regional Counsel, AGL-7, Great Lakes Region, Rules Docket No. 77-GL-21, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before July 16, 1977, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to extend the existing 700' controlled airspace transition area near General Electric Airport, Peebles, Ohio. Subpart G of Part 71 was republished in the Federal Register on January 3, 1977 (42 FR 440).

DRAFTING INFORMATION

The principal authors of this document are Doyle W. Hegland, Airspace and Procedures Branch, Air Traffic Division, and Joseph T. Brennan, Office of the Regional Counsel.

THE PROPOSED AMENDMENT

Accordingly, the FAA proposes to amend § 71.181 of Part 71 of the Federal Aviation Regulations as follows:

In § 71.181 (42 FR 440), the following transition area is added:

PEEBLES, OHIO

That airspace extending upward from 700 feet above the surface within a seven nautical mile radius of the Center (latitude 38° 55'16" N, longitude 83°10'37" W) of General Electric Airport, Peebles, Ohio; excluding that portion which overlies the Salamon, Ohio transition area.

This amendment is proposed under the authority of section 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348 (a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); sec. 11.81 of the Federal Aviation Regulations (14 CFR 11.61).

NOTE: The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Des Plaines, Illinois, on June 2, 1977.

JOHN TRUHAN,
Acting Director,
Great Lakes Region.

[Airspace Docket No. 76-AL-9]

RESTRICTED AREA

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to alter the Eagle River, Alaska, Restricted Area identified as R-2203A and R-2203B, and to establish an additional Restricted Area R-2203C west of the present restricted area in the vicinity of Fort Richardson, Alaska, to release to the flying public the airspace overlying the water in Knik Arm north of the shoreline. This proposed action will provide more efficient use of the navigable airspace.

DATES: Comments must be received on or before August 1, 1977.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Alaskan Region, Attention: Chief, Air Traffic Division, Docket No. 76-AL-9, FAA, 632 Sixth Avenue, Anchorage, Alaska 99501.

The official docket may be examined at the following location: FAA Office of the Chief Counsel, Rules Docket, (AGC-24), Room 916, 800 Independence Avenue, SW., Washington, D.C. 20591.

An informal docket may be examined at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Richard Huff, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: 202-426-3715.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Alaskan Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, Alaska 99501. All communications received on or before August 1, 1977, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rule making (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which described the application procedures.

THE PROPOSAL

The FAA is considering an amendment to Subpart B of Part 73 of the Federal Aviation Regulations (14 CFR Part 73) to alter the Eagle River, Alaska, Restricted Area identified as R-2203A and R-2203B, and to establish an additional Restricted Area R-2203C west of the present restricted area in the vicinity of Fort Richardson, Alaska. Restricted area is specified airspace within which the flight of aircraft, while not wholly prohibited, is subject to restriction. Most restricted areas are designated joint use and IFR/VFR operations in the areas may be authorized by the controlling ATC facility when it is not being utilized by the using agency. On February 24, 1977, the FAA circulated the proposal as an advanced NPRM to interested persons. The notice generated 17 concurrences and no objections. Modification of the Eagle River, Alaska, Restricted Areas R-2203A and R-2203B will release to the flying public the airspace overlying the water in Knik Arm north of the shoreline and lower the ceiling from the present 18,000 feet MSL to 11,000 feet MSL. Further, R-2203A would be modified to include the southern portion of R-2203B which overlies Gwen Lake; therefore, when R-2203A is not in use, substantial airspace immediately northeast of Elmendorf would be available for aircraft operations. The new Restricted Area R-2203C west of and adjacent to R-2203B, would include that airspace from the surface to 5,000 feet MSL over land area only. This additional restricted area is required to provide needed impact area to properly train Field Artillery Battalions.

The United States Army, 172nd Infantry Brigade (Alaska), Fort Richardson, Alaska, would be the using agency for R-2203A, R-2203B and R-2203C. The controlling agency would be the FAA, Anchorage Approach Control. The restricted area would be joint use and released to other airspace users when not required by the using agency. Subpart B of Part 73 was republished in the FEDERAL REGISTER on January 3, 1977 (42 FR 655).

DRAFTING INFORMATION

The principal authors of this document are Richard Huff, Air Traffic Service, and Jack P. Zimmerman, Office of the Chief Counsel.

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 73.22 of Part 73 of the Federal Aviation Regulations (14 CFR Part 73) as republished (42 FR 658) to alter Eagle River, Alaska, Restricted Area R-2203A and R-2203B, and to establish R-2203C as follows:

R-2203A EAGLE RIVER, ALASKA

Boundaries. Beginning at Lat. 61°22'00" N., Long. 149°33'48" W., thence southwesterly along the Alaska Railroad to Lat. 61°18'00" N., Long. 149°39'45" W., to Lat. 61°18'00" N., Long. 149°44'00" W., to Lat. 61°17'15" N., Long. 149°42'25" W., to Lat. 61°17'15" N., Long. 149°36'15" W., to point of beginning.

Designated altitudes. Surface to 11,000 feet MSL.

R-2203B EAGLE RIVER, ALASKA

Boundaries. Beginning at Lat. 61°24'34" N., Long. 149°33'48" W., thence southwesterly along the shoreline to Lat. 61°19'45" N., Long. 149°44'00" W., to Lat. 61°18'00" N., Long. 149°44'00" W., to Lat. 61°18'00" N., Long. 149°39'45" W., thence northeasterly along the Alaska Railroad to Lat. 61°22'00" N., Long. 149°33'48" W., to point of beginning.

Designated altitudes. Surface to 11,000 feet MSL.

R-2203C EAGLE RIVER, ALASKA

Boundaries. Beginning at Lat. 61°19'45" N., Long. 149°44'00" W., thence westerly along the shoreline to Lat. 61°19'38" N., Long 149°46'36" W., to Lat. 61°19'12" N., Long. 149°46'36" W., to Lat. 61°18'00" N., Long. 149°44'00" W., to point of beginning.

Designated altitudes. Surface to 5,000 feet MSL.

Time of designation. Daily, Monday through Friday, other times as activated by NOTAM issued by the using agency at least 24 hours in advance.

Controlling agency. FAA, Anchorage Approach Control.

Using agency. 172nd Infantry Brigade (Alaska) Fort Richardson, Alaska.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65.)

NOTE: The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on June 7, 1977.

WILLIAM E. BROADWATER,
Chief, Airspace and Air
Traffic Rules Division.

[14 CFR Part 77]

[Docket No. 16920; Notice No. 77-7]

OBJECTS AFFECTING NAVIGABLE AIRSPACE

Proposed Revision and Reorganization of Part 77 of the Federal Aviation Regulations

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The FAA is considering amending the rules under which the FAA determines whether an object would constitute a hazard to air navigation. The intent of this proposal is a more logical presentation of the agency functions contained in these rules. The need for this action results from experience indicating that the current rules do not fully and clearly describe the process necessary to permit adequate evaluations of objects intruding into the navigable airspace.

DATES: Comments must be received on or before September 14, 1977.

ADDRESSES: Send comments on the proposals to, Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-24), Docket No. 16920, 800 Independence Avenue, SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Oreste E. Falsetti, Airspace Obstruction and Airports Branch (AAT-240), Airspace and Air Traffic Rules Division, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone, 202-426-8777.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

This advance notice of proposed rule making (ANPRM) is being issued pursuant to the FAA's policy for the early institution of public proceedings in actions related to rulemaking. An advance notice is issued to invite early public participation in the identification and selection of a course or alternate courses of action with respect to a particular rulemaking problem.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue, SW., Washington, D.C. 20591: Communication received on or before September 12, 1977, will be considered by the Administrator before taking any action on this part. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NOTICE

Any person may obtain a copy of this advance notice of proposed rulemaking by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, D.C. 20791, or by calling 202-426-8058. Communications must identify the notice number of the ANPRM. Persons interested in being placed on a mailing list for future notices should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

DISCUSSION OF PROPOSED RULE

FAR Part 77, "Objects Affecting Navigable Airspace," requires that notice of certain proposed construction or alteration be provided to the Administrator. In addition, it establishes standards for determining obstructions, and provides for aeronautical studies of obstructions, public hearings on hazardous effects of proposed construction, and FAA actions with respect to the establishment of antenna farm areas.

The proposed modification would affect all Part 77 regulatory functions, from notice requirements to discretionary review. There is a growing consensus that changes may be needed to effectively and equitably deal with the complexities surrounding many of today's construction proposals. FAA personnel have noted shortcomings with respect to Part 77 applications and have suggested regulatory adjustments. Also, industry comments have indicated areas of general misunderstanding, especially with respect to the use of the obstruction standards.

Amendments to many sections are being considered and comments on the suggested changes and alternatives to them are being solicited.

Section 77.1 lists the functions of Part 77. As now written, the first function listed is the establishment of standards for determining obstructions in navigable airspace. The requirement of notice to the Administrator of certain proposed construction or alteration follows. Although Part 77 makes no discernible attempt to establish priority of function, the notice requirement is rooted directly in Public Law and is precedent to other major actions involved in construction proposals. Section 77.1(a) could be listed as the notice requirement and read "Sets forth the requirements for all persons to give adequate public notice, in the form and manner prescribed by the Administrator, of the construction or alteration of any structure where notice will promote safety in air commerce."

The current § 77.1(a) states that this part—"Establishes standards for determining obstructions in navigable airspace." Sponsors and interested persons often misinterpret FAA use of the standards. They are mistakenly considered to be inviolable, and if exceeded, automatically result in a hazard determination. The function not only needs to be stated; it needs to be accompanied with a description of its limited role. A new § 77.1(b) might read: "Establishes standards for determining obstructions in navigable airspace. The standards are used to identify obstructions which are subsequently studied to determine impact on air navigation."

No mention is made in § 77.1, of discretionary review procedures. Although procedures are prescribed in Part 77, no reference to this major function is provided in this section entitled "Scope." To rectify this oversight, a new § 77.1(d) could read: "Provides discretionary review procedures so that interested persons may petition the Administrator for a review of the determination, revision or extension.

As written, § 77.1(e) states: (This part) "Provides for establishing antenna farm areas." The word "establishing" as used alone, implies that this is an FAA regulatory function. In fact, the FAA proposes the establishment of an antenna farm area; it is the Federal Communications Commission which has the statutory responsibility to establish the areas. Thus, § 77.1(e) might read: "Provides policy, procedures and considerations for FAA actions related to proposed establishment of antenna farm areas."

Section 77.3 explains in general terms the use of standards in Part 77 by the Administrator. Were § 77.1 to be revised as suggested, this section would be unnecessary and could be deleted.

Section 77.11 states that a supplemental notice is required 48 hours before the start, and upon completion, of construction or alteration that is the subject of notice. Supplemental notice allows the FAA time to adjust aeronautical procedures, if necessary. The time, as provided, is hardly enough to initiate an operation or procedure change. The notice requirement itself was intended to provide adequate advance warning of proposed surface construction or alteration. It is considered just as vital to air safety that supplemental notice of actual implementation of construction plans be provided with reasonable advance warning. It is proposed that the Regional Director be given discretionary authority to request up to a 90-day advance supplemental notice of actual start and/or completion of construction. Thus, the third sentence of § 77.11(a) might be amended to read: "It also requires supplemental notice up to 90 days, as requested by the Regional Director, before the start and upon completion of certain construction or alteration that was the subject of a notice under § 77.13(a)."

Section 77.13(b) specifies the 48-hour supplemental notice requirement. As noted above, this time is considered insufficient. As proposed, up to 90 days supplemental notice could be requested by the Regional Director, as required, on a case-by-case basis. Section 77.13(b) might be revised to read: "Each sponsor who proposes construction or alteration that is the subject of a notice under paragraph (a) of this section and is advised by an FAA regional office that a supplemental notice is required shall submit that notice on a prescribed form to be received by the FAA regional office, up to 90 days, as determined by the Regional Director, before the start of the construction or alteration."

Section 77.15(a) describes the conditions under which objects may be considered shielded and shielding locations. Under these circumstances no notice is required. However, the conditions described do not explicitly cover that situation where an object may be considered shielded but may be closer to an airport than the shielding object. In such a situation, it may be possible for an object to adversely affect air navigation. The object would not truly be shielded and should not be exempt from notice. Section 77.15(a) ought to provide for this situation and might be revised to read: "Any object which would be shielded by existing structures of a permanent and substantial character or by natural terrain or topographic features of equal or greater height, and would be located in the congested area of a city, town, or settlement, and which would be no closer to an airport than the shielding object, where it is determined that the structure so shielded will not adversely affect safety in air navigation."

Section 77.15(b) exempts from the notice requirement any antenna structure of 20 feet or less, except one that would increase the height of another antenna structure. In many cases, antennas of 20 feet or less have been placed on existing buildings or terrain with a resultant effect on minimum instrument flight altitudes. Obstacle Clearance Standards do not "absorb" the 20 feet or less antennas to maintain required clearance criteria. Since antennas of 20 feet or less, where placed on existing surface objects or terrain, could raise minimums, those that cause notice criteria to be exceeded should be considered under § 77.13 "Construction or Alteration Requiring Notice." Accordingly, the deletion of § 77.15(b) is being considered.

Section 77.15 exempts from the notice requirements any air navigation facility, airport visual approach or landing aid, aircraft arresting device, or meteorological device, of a type approved by the Administrator, or a military service on military airports, the location and height of which are fixed by its functional purpose. Clarification is needed as to which NAVAIDs or facilities are exempt. It is suggested that the aids which should be exempt are those that are federally owned or funded because, in these cases, the FAA already has access to the information that notice under Part 77 provides. Section 77.15(c) might be amended to read: "Any federally owned or funded existing or proposed navigation facility, aid or device approved by the Administrator, and for which specific siting criteria have been prescribed."

Section 77.17(b) refers to § 77.13, "Construction or Alteration Requiring Notice," subparagraphs (a)(1) through (4). No reference is made to § 77.13(a)(5) which pertains to airport construction and should logically be included in the reference. To correct this, § 77.17(b) might be amended to read: "The notice required under § 77.13(a)(1) through (5) must be submitted * * *"

Section 77.17(b) requires that notice to FAA be made at least 30 days before the proposed construction or alteration is to begin or the date an application for a construction permit is to be filed, whichever is earlier. However, this notice requirement ignores one important factor—State or local aeronautical zoning. It is recognized that FAA responsibilities and state or local zoning are complementary in preserving and fostering flight safety in the public interest. To build or alter, a construction sponsor should be aware not only of FAA notice requirements, but also of a zoning authority's land use requirements. It is beneficial to FAA, the state or local authority, and the sponsor that the sponsor be aware of each agency's requirements. Thus, it is recommended that FAA notice requirement procedures refer to zoning requirements. This could be accomplished through the addition of a new § 77.17(b)(3) which reads: "The date a request for a variance in compliance with a state or local aeronautical zoning requirement is filed with the state or local zoning authority."

Section 77.17(b) states that a notice relating to proposed construction or alteration subject to the licensing requirements of the Federal Communications Act may be sent to the FAA at the same time the application for construction is filed with the FCC or at any time before that filing. However, this is written in a parenthetical sense. In order to more appropriately recognize the importance of this provision it is suggested that it be incorporated in a new § 77.17(c) to read as follows: "A notice relating to proposed construction or alteration that is subject to the licensing requirements of the Federal Communications Act may be sent to the FAA at the same time the application for a construction permit is filed with the Federal Communications Commission or at any time before that filing." The current paragraphs (c) and (d) would be redesignated as paragraphs (d) and (e), respectively.

Section 77.17(e) requires a person to send an executed copy of the Notice of Progress of Construction or Alteration to the Chief, Regional Air Traffic Division. Notice of Progress of Construction is supplemental and supplemental notice requirements are already defined in § 77.13(b) and (c). Thus, § 77.17(e) could be deleted because it is superfluous.

Section 77.17 deals with form and time of notice requirements. Sections 77.13(b) and (c) now contain supplemental notice requirements. These paragraphs might more appropriately be placed in § 77.17.

Section 77.19(a) states that the FAA acknowledges in writing the receipt of each notice submitted under § 77.13(a). (Section 77.13(a) describes construction or alteration requiring notice.) In specifying § 77.13(a) one might be led to understand that the FAA acknowledges only those notices which actually meet or exceed notice criteria. It implies that those who submit notice but are uncertain whether notice is required, are not acknowledged if notice criteria is not met. This is not the FAA's intent. Therefore, § 77.19(a) might be changed to read: "each notice submitted under this part is acknowledged in writing."

Section 77.19(c) lists three possible notice acknowledgement actions relative to proposed construction or alteration; i.e., that the proposal would not exceed a standard and would not be a hazard; that it would exceed a standard and further study is necessary. No provision is made for cases where notice is not required, though such acknowledgement is current FAA practice. Thus, it is proposed that a fourth option of acknowledgment be added. Section 77.19(c)(1) could read: "Does not require notice to the FAA." In rearrangement, existing § 79.19(c)(1), (2) and (3) would become § 77.19(c)(2), (3) and (4).

Section 77.21(a) states that, "This subpart establishes standards for determining obstructions to air navigation." Experience in handling Obstruction Evaluation cases has shown that the public sees these standards as inviolable. The belief is that once a standard is exceeded, an automatic determination of hazard must occur. Confusion arises when the FAA issues a no hazard determination despite an object's identification as an obstruction. There is little or no realization that it is within the FAA's discretion to revise flight operations or procedures. The use of the standards needs to be stated clearly to better inform the public of this alternative. Therefore, it is proposed to insert after the first sentence in § 77.21(a) the following: "These standards do not automatically classify as a hazard to air navigation an object that exceeds any standards. The standards identify certain objects as obstructions. If an object is so identified, an aeronautical study is made of the object's impact on air navigation in accordance with Subpart D of this part." It is proposed that § 77.21(a) also contain a sentence which is substantially the existing § 77.3(b): 'Standards used by the Administrator in the establishment of flight procedures and aircraft operational limitations and referred to in the course of an aeronautical study are not set forth in this part but are contained in other publications of the Administrator." The preceding would be followed by the existing second sentence of § 77.21(a). It is also proposed that the sentence in § 77.21(a) beginning "The standards apply to the use of navigable airspace * * *" be deleted from this section, and inserted in a reorganization of Subpart D on aeronautical studies.

As a result of the preceding proposed changes, § 77.21 entitled "Scope" would read: "This subpart establishes standards for determining obstructions to air navigation. These standards do not automatically classify as a hazard to air navigation an object that exceeds any standard. The standards are intended to identify certain objects as obstructions. If an object is so identified, an aeronautical study is made of the object's impact on air navigation in accordance with Subpart D of this part. Standards used by the Administrator in the establishment of flight procedures and aircraft operational limitations and referred to in the course of an aeronautical study are not set forth in this part but are contained in other publications of the Administrator. This subpart applies to existing and proposed man-made objects, objects of natural growth, and terrain."

Section 77.21(c)(1) states that the standards in this subpart apply to the effect of construction or alteration proposals upon an airport, if, at the time of filing the notice required by § 77.13(a), that airport is "available for public use and is listed in the Airport Directory of the current Airman's Information Manual or in either the Alaska or Pacific Airman's Guide and Chart Supplement."

This procedure does not apply to a situation where the publication of an airport as a public use facility may be in progress. The capability is needed to apply obstruction standards to structures near airports whose status has changed from personal to public use when that change has not been published. To remedy this situation the following language could be added to § 77.21(c)(1): "* * * or is in the process of being published in any of these documents." Section 77.21(c)(2) states that standards in the subpart apply to the effect of construction or alteration of proposals upon an airport if at the time of filing of the notice, that airport is: "A planned or proposed airport or an airport under construction that is the subject of a notice or proposal on file with the FAA, and except for military airports, it is clearly indicated that the airport will be available for public use." However, the question arises as to whether the mere existence of an airport plan or proposal on file with the FAA is a sufficient consideration when evaluating an object's impact on air navigation. The existence of such a plan or proposal, when there is no apparent intent to implement it, may pose severe problems for a construction sponsor. In fairness, construction proposals should be granted serious consideration when the intent to implement the airport plan is in reasonable doubt. It is proposed that § 77.21(c)(2) be amended to read: "A planned or proposed airport, when it appears from all available information that the plan or proposal will be implemented. * * *"

Section 77.23(a)(3) states that an object is considered an obstruction to air navigation if it is of a greater height than "a height within a terminal obstacle clearance area, including an initial approach segment, a departure area, and a circling approach area, which would result in the vertical distance between any point on the object and an established minimum instrument flight altitude within that area or segment to be less than the required obstacle clearance." This subparagraph provides basic obstruction-identifying criteria with which to evaluate an object's impact on air navigation within a terminal area. A key consideration is any increase to an "established" minimum instrument altitude brought about by an object's construction. Where minimum instrument flight altitudes are established, the required obstacle clearance (ROC) is considered. When assessing impact to air navigation, the appropriate reference is the minimum flight altitude and not the ROC.

Section 77.23(a)(3), when referring to the minimum instrument flight altitude, includes in the reference the word "established." Frequently, the FAA finds it necessary to modify an established minimum instrument flight altitude. Action to initiate procedural change may occur at any time. Therefore, the FAA should be able to apply the standard to operations or procedures, including a minimum flight altitude which is in the process of being revised or which the FAA intends to establish or revise.

Section 77.23(a)(3) also refers to a departure area. With respect to a required obstacle clearance, minimum flight altitudes are not established in a departure area. Therefore, an obstruction standard cannot be applied. Without a standard, there can be no effective evaluation of an object's impact on air navigation within a departure area. Establishment or adjustment of ceiling and visibility minima, made necessary to avoid an object on departure should be considered as qualifying obstruction standard criteria.

To remedy these deficiencies, § 77.23(a)(3) could be revised to read: "A height within a terminal obstacle clearance area, including an initial approach segment, a departure area, and a circling approach area, which would result in an increase to an established or planned minimum instrument flight altitude or the establishment or adjustment of ceiling and visibility restrictions applicable to departures within that area or segment."

The present Subpart D, entitled "Aeronautical Studies of Effect of Proposed Construction on Navigable Airspace" includes not only studies but the issuance of determinations and conduct of discretionary reviews. It is believed that each of these functions should be given separate subpart status. Their order in a reorganization of Part 77 would be as performed. The title of Subpart D would be changed to reflect this proposed reorganization. In the reorganization, § 77.31(b) would be deleted from this subpart and transferred to a new Subpart E entitled "Determinations." Under this proposal Subpart D would be entitled "Aeronautical Studies and Related Actions." Section 77.31, "Scope" would read: "This subpart applies to the conduct of aeronautical studies of the effect of proposed construction or alteration on the use of air navigation facilities or navigable airspace by aircraft. These aeronautical studies consider an object's impact on the use of navigable airspace by aircraft and on air navigation facilities such as an air navigation aid, airport, federal airway, instrument approach or departure procedure, or approved off-airway route. In the aeronautical studies, present and future IFR and VFR aeronautical operations and procedures are reviewed and any possible changes in those operations and procedures and in the construction proposal that would eliminate or alleviate the conflicting demands are ascertained." Paragraph (b) of § 77.31(b) might be deleted, consistent with limitation of Subpart D to provisions related to aeronautical studies.

The inappropriate use in Part 77 of the word "establish" with respect to antenna farm areas has already been noted. The same use of the word occurs in § 77.33(a). It would be preferable to refer to FAA procedures used in the establishment of antenna farm areas. Accordingly, § 77.33(a) might be revised to read: "Upon the request of the sponsor of any construction or alteration for which a notice is submitted under Subpart B unless that construction or alteration would be located within an antenna farm area established in accordance with procedures of Subpart H."

Section 77.35(b)(2) uses the word "objections" with respect to replies to a proposal. During the fact-finding phase of an aeronautical study, the FAA reaches no judgmental decision point; replies to a proposal are not considered tantamount to approval or disapproval. It would be more appropriate to state that the Regional Director explores all "comments" in order to define possible problems and seek solutions to them.

Section 77.35(c) states that the Regional Director or his designee issues a determination. Under the proposed Part 77 reorganization determinations would be the subject of a separate subpart. Thus, the present § 77.35(d) would become § 77.35(c).

In the proposed reorganization of Subpart D the functions now covered would be separated. Studies, determinations and discretionary reviews would each become a subpart. Thus, § 77.37 would be placed in new Subpart E, "Determinations—Conclusion of Aeronautical Study." The new § 77.37 would contain existing §§ 77.31(b) and 77.35(c). It would also contain a provision which explains that determinations are advisory in nature and do not cancel, waive or supersede ordinances or laws of the governing authority.

The new § 77.37, *"Scope"* would read as follows:

(a) The conclusion of a study made under this subpart is normally a determination as to whether the specific proposal studied would be a hazard or no hazard to air navigation.

(b) The Regional Director or his designee issues a determination as to whether the proposed construction or alteration would be a hazard to air navigation and sends copies to all known interested persons of the aviation community, and to persons or organizations that may be affected by the proposal such as state or local government officials, civic groups or associations.

(c) A determination is an advisory opinion as to an object's effect on air navigation. It in no way preempts, cancels, waives, or supersedes any ordinance, law, or regulation of any other governmental body or agency.

Sections 77.39 (a) and (d) refer to Subpart E, "Rules of Practice for Hearings under Subpart D." Under the suggested reorganization rules concerning discretionary review would be placed in a new Subpart F. The current Subpart E would be redesignated a Subpart G. Therefore, the references in §§ 77.39 (a) and (d) should be to Subpart G.

Section 77.39(d)(1) states that if the Federal Communications Commission is issuing a construction permit, the effective period of each final determination includes: "The time required to apply to the Commission for a construction permit but not more than six months after the effective date of the determination." It has been noted that often the six

months effective period elapses without sponsor action. The determination must then be extended, in some cases, many times. It is, therefore, proposed that, if an application for an FCC permit has been made, the effective period of a no hazard determination be 18 months. To meet this need § 77.39(d)(1) could be amended to read: "The time required to apply to the Commission for a construction permit but not more than 18 months after the effective date of the determination."

The new Subpart F would be entitled "Discretionary Review Procedures." As has already been noted, the current Subpart E would be redesignated as Subpart G. The only change would be the renumbering of its sections.

Section 77.41 would be entitled "Scope" and it would read as follows: "This subpart identifies those persons who may petition for a discretionary review of a determination issued under §§ 77.19 or 77.35, or revision or extension of a determination under § 77.39, applies to time limits within which the petition must be filed, and describes the form and manner of submittal and processing."

A new § 77.43, entitled "Petition Eligibility," would contain the text of the present § 77.37(a). A new § 77.45, entitled "Petition Submittal," would include the present § 77.37(b) redesignated subparagraph (a). Section 77.45(b) would read: "(b) A petition must contain a full statement of the aeronautical basis upon which it is made, including valid reasons why the determination, revision or extension made by the Regional Director, or his designee, should be reviewed. It should contain new information and facts not previously considered or discussed during the aeronautical study. If the petition for review of the determination, revision or extension is based on an error in procedure, application of obstruction standards or conclusion, it should be so stated."

A new § 77.47, entitled "Petition Examination and Review," would contain the text of the current § 77.37(c)(1) and (2), except that the reference to Subpart E in § 77.37(c)(2) would be changed to Subpart G. Section 77.47 would also contain a provision that acknowledgement will be made to the petitioner and to the sponsor that the petition has been received and it will be considered, and that the determination is not and will not be final pending disposition of the petition.

The current Subpart F will be redesignated Subpart H. In addition, it is recommended that the title be changed to "Antenna Farms." As has been previously discussed, the use of the word "establishment" might imply that establishing antenna farms is an FAA regulatory function when, in fact, only the Federal Communications Commission is authorized to perform this function. Therefore, it is suggested that the current § 77.71(a) be amended to reflect this.

The FAA solicits the comments of all interested persons on the foregoing proposed changes to Part 77. It also welcomes any suggestions on the need for further revision of this part.

Evaluation of Impacts

It has been determined that the regulatory impact of this proposed amendment would be minimal and that an evaluation pursuant to the policy statement published by the Secretary of Transportation (41 FR 16200) is not required.

Drafting Information

The principal authors of this document are William E. Broadwater, Air Traffic Service, and Richard W. Danforth, Office of the Chief Counsel.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 54]

PROCEDURES GOVERNING DETERMINATION THAT INDIAN GROUP IS A FEDERALLY RECOGNIZED INDIAN TRIBE

Issuance of New Part

AGENCY: Bureau of Indian Affairs.

ACTION: Proposed rule.

SUMMARY: The Bureau proposes new regulations that would establish procedures to govern the determination that an Indian group is a federally recognized Indian tribe. The recent increase in the number of such requests before the Department necessitates the development of procedures to enable that a uniform and objective approach be taken to their evaluation.

DATES: Comments must be received on or before July 18, 1977.

ADDRESSES: Written comments should be directed to: Director, Office of Indian Services, Bureau of Indian Affairs, 18th and C Streets, N.W., Washington, D.C. 20245.

FOR FURTHER INFORMATION CONTACT:

Mr. Leslie N. Gay, Jr., Division of Tribal Government Services, Branch of Tribal Relations, Telephone: (202) 343-4045.

SUPPLEMENTARY INFORMATION: Various Indian groups throughout the United States, thinking it in their best interest, have requested the Secretary of the Interior to "recognize" them as an Indian tribe. Heretofore, the sparsity of such requests permitted an acknowledgment of a group's status to be at the discretion of the Secretary or representatives of the Department. The recent increase in the number of such requests before the Department necessitates the development of procedures to enable that a uniform and objective approach be taken to their evaluation.

The authority for the Commissioner to issue these regulations is contained in (5 U.S.C. 301), and Sections 463 and 465 of the revised statutes (25 U.S.C. 2 and 9), and 230 DM 1 and 2.

It is proposed to add a new Part 54 to Subchapter G of Chapter I of Title 25 of the Code of Federal Regulations to read as follows:

PART 54—PROCEDURES GOVERNING THE DETERMINATION THAT AN INDIAN GROUP IS A FEDERALLY RECOGNIZED INDIAN TRIBE

Sec.
54.1 Definitions.
54.2 Purpose.
54.3 Who may petition.
54.4 Where the petition is to be filed.
54.5 Notice of receipt of the petition.
54.6 Form and content of the petition.
54.7 Processing of the petition.
54.8 Action by the Commissioner.

AUTHORITY: 5 U.S.C. 301; secs. 463 and 465 (25 U.S.C. 2 and 9); 230 DM 1 and 2.

§ 54.1 Definitions.

(a) "Secretary" means the Secretary of the Interior or his authorized representative.

(b) "Commissioner" means the Commissioner of Indian Affairs or his authorized representative.

(c) "Bureau" means the Bureau of Indian Affairs.

(d) "Department" means the Department of the Interior.

(e) "Indian group," referred to also herein as "group," means any community of persons of Indian, Aleut, or Eskimo extraction.

(f) "Federally Recognized Tribe" means any Indian group within the United States that the Secretary of the Interior Acknowledges to have had and should continue to have the status of a domestic dependent sovereign.

§ 54.2 Purpose.

The purpose of this part is to establish a Departmental procedure and policy for determining which Indian groups should have the status of federally recognized Indian tribes. These regulations shall not apply to any group which has already been recognized by the Secretary of the Interior.

§ 54.3 Who may petition.

Any Indian group in the United States which believes that it has the status of a federally recognized Indian tribe may submit within one year from the effective date of these regulations a petition requesting that the Secretary acknowledge such status.

§ 54.4 Where the petition is to be filed.

A petition requesting acknowledgment that an Indian group has the status of a federally recognized Indian tribe shall be filed with the Commissioner of Indian Affairs in Washington, D.C. 20245.

§ 54.5 Notice of receipt of the petition.

Within ten days after receiving a petition, the Commissioner shall acknowl-

edge receipt of such petition and shall have published in the FEDERAL REGISTER a notice of such receipt, including the name and location of the Indian group submitting the petition and the date it was received. The notice shall also indicate where a copy of the petition may be examined locally. The notice shall invite comments concerning the petition, which comments shall be considered by the Commissioner in connection with his review as specified in § 54.7 of this part, if received by him within sixty days of the date of the notice.

§ 54.6 Form and content of the petition.

The petition may be in any readable form which clearly indicates that it is a petition requesting the Secretary to acknowledge that the Indian group has the status of a federally recognized Indian tribe. It shall include at least the following:

(a) A statement of the facts and arguments which the petitioners believe will establish that their group is a federally recognized Indian tribe which has been and should continue to be dealt with as such by the United States.

(b) A list of all current members of the group, and a copy of each available former list of members.

(c) A copy of the group's governing document or, in the absence of such written document, a statement describing fully the procedures which govern the affairs of the group and its membership standards.

§ 54.7 Processing of the petition.

(a) Upon receipt of a petition, the Commissioner shall cause a review to be conducted to determine whether the group is a federally recognized Indian tribe which has been and should continue to be dealt with as such by the United States. The review shall include consideration of the petition and, to the extent necessary, verification of the factual statements contained therein and an opportunity to present oral arguments.

(b) The Commissioner may require that the group provide additional information, especially about its members, including but not limited to the age, Indian ancestry, nature of tribal affiliation, and addresses of individual members. On the basis of this review the Commissioner shall make a written report to the petitioner and interested parties setting forth his findings and conclusions as to the group's status. All timely filed petitions shall be disposed of no later than three years from the effective date of these regulations.

(c) The Commissioner's report shall deal specifically with whether the group:

(1) Manifests a sense of social solidarity.

(2) Has as members principally persons of common ethnological origins.

(3) Exercises political authority over its members.

(4) Has a specific area which the group either presently inhabits or has inhabited historically.

(5) Is not, nor are its members, the subject of congressional legislation terminating the Federal relationship.

(6) Has been a party to a treaty or agreement with the United States, or is a successor in interest to an Indian tribe which was party to a treaty or agreement with the United States, which treaty or agreement was ratified by Congress and remains in effect. For purposes of this paragraph, "successor in interest" to a tribe means an Indian group whose members are principally descendants of the tribe in question, which has evolved from the tribe by a continuous process of social evolution, and which has, as an entity, assumed at least some of the rights, obligations, and traditions of the tribe in question. If the group has been a party to a treaty or agreement with the United States, which treaty or agreement was not ratified by Congress, the Commissioner's report shall indicate, to the extent possible, the reasons for nonratification.

(7) Has been designated a tribe by an Act of Congress, Executive Order, or judicial decision, or in the legislative history of a bill which was subsequently enacted into law.

(8) Has, or has been treated by a state or by a Federal Government Agency as having, collective rights in land, water, funds or other assets, or collective hunting and fishing rights.

(9) Has received services from any Federal or state agency (the report shall specify the exact nature and extent of such services, whether incidental or otherwise).

(10) Has as members principally persons who are not members of any other Indian tribe.

§ 54.8 Action by Commissioner.

(a) The Commissioner's report shall state his conclusion as to whether the petitioning group has had the status of a federally recognized Indian tribe and should continue to be dealt with as such by the United States.

(b) The Commissioner shall determine that an Indian group is a federally recognized Indian tribe whenever the group satisfies paragraphs (1–5) and (10) of § 54.7(c) so long as at least one other paragraph of that section is also satisfied.

(c) The Commissioner shall determine that an Indian group is not a federally recognized Indian tribe if the group fails to satisfy paragraphs (1)–(5) and (10 of § 54.7(b) along with at least one other paragraph of that section.

(d) A summary of the Commissioner's report and his determination as to the group's status shall be published in the FEDERAL REGISTER and shall be subject to review by the Secretary, who may, by acting within thirty days of such publication, supersede that determination. If the Secretary takes no action within such thirty-day period, the Commissioner's determination shall be final, and become effective immediately. If, after review, the Secretary reaches a conclusion contrary to that made by the Commissioner, he may supersede the Commissioner's determination. The Secretary's determination will be final and notice thereof shall be published in the FEDERAL REGISTER.

The primary author of this document is Mr. Leslie N. Gay, Jr., Chief, Branch of Tribal Relations, Bureau of Indian Affairs, (202) 343–4045.

RAYMOND V. BUTLER,
Acting Deputy Commissioner of Indian Affair.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 747–3]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Air Pollution Control, State of Arizona

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: Through this notice EPA proposes to approve, with exception, revisions to the Arizona State Implementation Plan (SIP). These revisions include State regulations for vehicle inspection/maintenance, organic compound emissions from stationary sources, definitions, particulate emissions from stationary sources, assertions of jurisdiction, ambient air quality standards, sulfur compound emissions, carbon monoxide emissions from stationary sources, nitrogen oxide emissions, and miscellaneous (general) regulations. The revisions were submitted to EPA on August 20, 1973, August 30, 1974, February 3, 1975, September 16, 1975, and January 23, 1976.

DATES: Comments by: July 18, 1977.

ADDRESSES: Send comments to: Regional Administrator, Attn: Air and Hazardous Materials Division, Air Programs Branch, Arizona-Nevada-Pacific Islands Section (A–4), EPA Region IX, 100 California Street, San Francisco, CA 94111.

Availability of documents: Copies of the State revisions, the EPA Evaluation Report, and this FEDERAL REGISTER notice are available for public inspection during normal business hours at the EPA Region IX Library at the above address, and at the following locations:

Public Information Reference Unit, Room 2922 (EPA Library), 401 "M" Street, SW., Washington, D.C. 20460.

Arizona Department of Health Services, Bureau of Air Pollution Control, 1740 West Adams Street, Phoenix, AZ 85007.

Arizona Department of Health Services, Bureau of Air Pollution Control, Northern Regional Office, 2501 North Fourth Street, Suite 14 Flagstaff, AZ 86001.

Arizona Department of Health Services, Bureau of Air Pollution Control, Southern Regional Office, 5055 East Broadway, Suite C–209, Tucson, AZ 85711.

FOR FURTHER INFORMATION CONTACT:

Erik Hauge, 415–556–7595.

SUPPLEMENTARY INFORMATION:

BACKGROUND

On January 28, 1972, pursuant to Section 110 of the Clean Air Act and 40 CFR Part 51, the State of Arizona submitted to EPA an implementation plan (SIP) for the attainment and maintenance of the National Ambient Air Quality Standards (NAAQS). On May 31, 1972 (37 FR 10842), the Administrator approved the plan with specific exceptions. Since then, the State of Arizona has submitted to EPA numerous proposed revisions to the SIP correcting deficiencies originally identified by EPA and including new and amended regulations adopted by the State and local governments. EPA has viewed, or is in the process of reviewing, these revisions.

On August 20, 1973 and August 30, 1974 the State submitted to EPA revised rules and regulations for air pollution control. On February 3, 1975, the State submitted to EPA assertions of jurisdiction and House Bill 2200 (Chapter 35, Laws of 1974). On September 16, 1975, the State submitted to EPA amendments to its rules and regulations, including definitions, test methods and procedures, and particulate emissions from stationary sources. On January 23, 1976, the State submitted to EPA amendments to its rules and regulations, including vehicle inspection/maintenance and organic compound emissions from stationary sources. The intent of this notice is to propose EPA's actions and solicit public comments on these five submittals.

DISCUSSION OF ACTION

EPA, pursuant to its authority in 40 CFR 51.4(e) to approve different State procedures designed to assure adequate public notice and participation in hearings, has determined that, although less than 30 days public notice was sometimes given in advance of the hearings held by the State on the adoption of these amendments to the SIP, public participation measures were adequate for the adoption of these regulations.

The State regulations were adopted pursuant to the authority in Arizona Revised Statutes (ARS) Sections 36–1707, 36–1717, and 36–1772. This fulfills the requirements of 40 CFR 51.11(a) (1) and (2), that each plan shall show that the State has the legal authority to carry out the plan, including adoption and enforcement of emission standards, limitations and any other measures necessary for attainment and maintenance of national standards.

EPA has revised the five State submittals for their consistency with the other requirements of 40 CFR Part 51 and the Clean Air Act. EPA proposes to approve the submittals with the following exceptions:

1. Regulation R9–3–1005B Time of Inspection should be disapproved because it can require the inspection of new vehicles prior to sale, which is prohibited by Section 209(a) of the Clean Air Act.

2. Regulation R9–3–301 Visible Emissions: General should be disapproved because the visible emission limitation of No. 2 on the Ringelmann Chart is not an appropriate visible emission limitation for the detection of violations of any rules and regulations, as required by 40 CFR 51.19(c). EPA has determined that Ringelmann 1 or 20 percent opacity is the appropriate visible emission limitation except for brief periods of soot-blowing and start-up conditions.

3. Regulation 7–1–4.2 (R9–3–402) Sulfur Emissions: Fuel Burning Installations should be disapproved because no demonstration was made to show that the use of high sulfur oil would not interfere with attainment or maintenance of the National Ambient Air Quality Standards.

4. Regulation 7–1–1.3 (R9–3–103) Air Pollution Prohibited should be disapproved because it may allow violations of ambient air quality standards to occur within the boundaries of an operation. Areas where the public has access, both within and outside of the boundaries of an operation, must be protected pursuant to the provisions of the Clean Air Act.

5. Regulation 7–1–1.6 (R9–3–106) Exceptions should be disapproved because it is too broad and makes all emission limitations established in the regulations unenforceable.

6. *Assertions of Juridsiction* by the Director of the Bureau of Air Pollution Control over all sources within Apache, Navajo, Santa Cruz and Yavapai Counties, except with respect to Indian lands (May 8, 1973); over all sources in Cochise County (January 21, 1974); and over all existing and future mining facilities with ore concentrators and/or ore roasters, and cotton gins in Mohave County (November 1, 1974) should be approved. However, EPA proposes to disapprove the State-submitted implementation plan to the extent that the plan does not provide any legally enforceable regulations and a demonstration that such regulations will cause the attainment and maintenance of the National Ambient Air Quality Standards in Graham and Greenlee Counties.

7. Regulation 7–1–2.8 (R9–3–208) Anti-Degradation should be approved. However, the State plan should be disapproved in part because the State has failed to submit specific regulations to prevent air quality degradation in accordance with the intent of Section 101 (b)(1) of the Clean Air Act. Substitute regulations have been promulgated in 40 CFR 52.144 for the State of Arizona.

8. Regulation 7–1–4.1 (R9–3–401) Sulfur Emissions: Copper Smelters will be considered in a separate FEDERAL REGISTER action.

9. House Bill 2200 (Chapter 35, A.R.S.—April 26, 1974) Terms and Conditions for Conditional Permits will be considered in a separate FEDERAL REGISTER action.

AUTHORITY

Sections 110 and 301(a), Clean Air Act, as amended (42 U.S.C. 1857c–5 and 1857g(a), respectively).

Dated: June 7, 1977.

PAUL DE FALCO, JR.,
Regional Administrator.

[CGD 76–086]

FIRE PROTECTION EQUIPMENT

Firehose Nozzle Requirements

AGENCY: Coast Guard, DOT.

ACTION: Proposed rules.

SUMMARY: The Coast Guard is considering amending the fire protection equipment regulations in 46 CFR Chapter I by requiring that, except in special limited cases, only combination solid stream and water spray firehose nozzles and low-velocity water spray applicators that meet 46 CFR Subpart 162.027 may be used on Coast Guard-inspected vessels other than small passenger vessels. Straight or "smoothbore" firehose nozzles that emit only a solid stream of water are ineffective on some types of fire and lack cut-off capability. This proposal would, in effect, prohibit the use of straight firehose nozzles on both new and existing vessels.

DATES: Comments must be received on or before: August 1, 1977.

ADDRESSES: Comments should be submitted to Commandant (G–CMC/81), U.S. Coast Guard, Washington, D.C. 20590. Comments will be available for examination at the Marine Safety Council (G–CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590. A copy of the economic evaluation from which the economic summary in this document is taken is also available for examination at the above addresses.

FOR FURTHER INFORMATION CONTACT:

Captain George K. Greiner, Marine Safety Council (G–CMC/81), Room 8117, Department of Transportation, Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590, 202–426–1477.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Each person submitting a comment should include his name and address, identify this notice (CGD 76–086) and the specific section of the proposal to which his comment applies, and give the reasons for his comment. The proposal may be changed in light of comments received. All comments received will be considered before final action is taken on this proposal. Copies of all writ-

FEDERAL REGISTER, VOL. 42, NO. 116—THURSDAY, JUNE 16, 1977

ten comments received will be available for examination by interested persons. No public hearing is planned but one may be held at a time and place to be set in a later notice in the FEDERAL REGISTER if requested in writing by an interested person raising a genuine issue and desiring to comment orally at a public hearing.

DRAFTING INFORMATION

The principal persons involved in the drafting of this rule making are: Mr. Daniel Sheehan, Project Manager, Office of Merchant Marine Safety, and Mr. Stanley Colby, Project Attorney, Office of the Chief Counsel.

DISCUSSION OF PROPOSAL

On June 2, 1973, the SS *C. V. Seawitch* lost steering control in New York harbor and struck and penetrated the anchored Belgian tank vessel SS *ESSO Brussels*. The resulting disaster caused 16 deaths, $23 million dollars in damage to the vessels and their cargo, and pollution of nearby beaches.

The only firefighting equipment utilized by the *C. V. Seawitch* crew was the 1½ inch interior hoses equipped with straight-bore nozzles. The exterior firehose stations with 2½ inch hoses were all inaccessible due to the heat and flames and were not able to be used. The 1½ inch hoses were used to direct streams of water to cool exterior doors and to gain a supply of fresh air by sweeping adjacent areas to the weather deck to drive the fire and smoke away from the partially opened doors. They were considered, by the crew, to be ineffective in providing a protective screen of water. The fire main lost pressure and became ineffective about 10 minutes prior to the crew abandoning ship (approximately 50 minutes after impact).

The Marine Board of Investigation convened to investigate the *C.V. Seawitch–Esso Brussels* collision and fire issued its report on January 31, 1974. Among the findings of the board was, "The fire-fighting and survival efforts subsequent to the casualty were hampered by the limitation of the straight hose nozzles at the interior firehose stations. The subsequent loss of emergency fire main pressure, about ten minutes prior to the abandonment of the vessel, can be attributed to the many hoses left open and some without nozzles to restrain or reduce the flow. The lack of crew training in proper firefighting techniques is evident by the manner in which the hoses and fire stations were left open thereby depriving the crew of firefighting capability prior to rescue. The proper use of combination type nozzles capable of solid stream, fog, and cut-off capability in one unit, would have been more effective and prevented the loss of fire main pressure."

The Marine Board of Investigation recommended that the Coast Guard should amend the applicable regulations to require that approved combination firehose nozzles that provide solid stream, high velocity water spray, and shutoff capability must be installed at all fire station hydrants. The National Transportation Safety Board Subsequently concurred with this recommendation.

In accordance with the Marine Safety Board's recommendation, the Coast Guard proposes to amend 46 CFR 34.10–10, 34.10–90, 76.10–10, 95.10–10, 95.10–90, 167.45–5, 167.45–40, 193.10–10, and 193.10–90 to require that each length of firehose on each fire hydrant on a Coast Guard-inspected vessel other than a small passenger vessel must have a combination solid stream and water spray firehose nozzles that is approved under 46 CFR Subpart 162.027. The requirement, which now applies to all tank vessels contracted for after May 25, 1965, would be extended to tank vessels contracted before May 25, 1965, cargo and miscellaneous vessels, nautical school ships, and oceanographic vessels. The only exceptions to this requirement are in 46 CFR 95.10–10(i)(6), 95.10–90(a)(2), 193.10–10(i)(6), and 193.10–90(a), that allow a bronze garden hose nozzle on a ¾ inch hose. Combination solid stream and water spray firehose nozzles and low-velocity water spray applicators approved under Subpart 162.027 before May 26, 1965, could be continued in use after the effective date of these proposed regulations if their water spray tips and heads are designed to prevent clogging by rust or other foreign matter, or if the nozzle or fire hydrant has a self-cleaning strainer that meets the requirements under which the nozzle was originally approved. Replacement nozzles or applicators, however, would be required to meet the current standards in Subpart 162.027.

The "smoothbore" nozzle which would be replaced under this proposal emits only a solid stream of water which cannot be shut off at the nozzle. Its chief use is in fighting "Class "A" fires, for cooling decks and bulkheads, and for diverting the flow of flammable liquids. The combination solid stream and water spray firehouse nozzle, which would replace it, is more versatile, having both solid stream and high-velocity spray capabilities, and can be shut off by a valve in the nozzle. The use of the combination nozzle is flexible. The firefighter moves the valve handle from shut-off to high velocity spray and to solid stream quickly and easily as conditions warrent. The high-velocity water spray is used to beat back the heat, flames, and smoke, and to form a protective barrier between the firefighters and the fire, allowing them to move forward and approach the seat of the fire. The solid stream is then brought into play to get at the seat of the fire while the surrounding area is cooled by the high-velocity spray. When a low-velocity water spray applicator is fitted to the combination nozzle, the firefighter is able to reach over or around obstructions to smother the fire with a cooling blanket of spray.

In the specification for the combination solid stream and water spray firehose nozzle, 46 CFR Subpart 162.027, the low-velocity water spray applicator is described as though it was an integral part of the combination nozzle. In the vessel regulations, 46 CFR Parts 34, 76, 95, 167, 181 and 193, however, the applicator is treated as a separate item of equipment. This inconsistency would be eliminated by amending Subpart 162.027 to agree with the vessel regulations. In Subpart 162.027, as amended, the applicator would be a separate item of equipment but would mate with, and be approved simultaneously with, a specific make and model of combination nozzle. The number of low-velocity water spray applicators required by the vessel regulations for each vessel would not be changed. The applicator length requirements in 46 CFR 34.10–10, 76.10–10, 95.10–10–10 and 193.10–10, however, would be changed to conform to Subpart 162.027.

In addition, editorial changes would be made in each applicable section to simplify and clarify the firehose nozzle and applicator requirements.

This proposal would apply to new and existing vessels. The Coast Guard recognizes that manufactures and suppliers of combination nozzles may not have sufficient quantities of nozzles in stock to allow an immediate industry-wide change-over. Therefore, in order to allow orderly implementation of the proposed requirements, owners of existing vessels would be given up to two years to comply. This would allow the Coast Guard to ensure compliance with the proposed amendment at a vessel's next inspection after the effective date of the final rule.

This proposal has been reviewed for economic effects under Department of Transportation "Policies to Improve Analysis and Review of Regulations" (41 FR 16200).

The estimated present cost of a combination nozzle that meets 46 CFR Subpart 162.027, not including the low-velocity water spray applicator, is about $150. The number of fire stations varies from vessel to vessel, but on the average there are 10 per vessel. Most tank vessels are already equipped with combination nozzles, so the proposal would affect only tank vessels contracted before May 25, 1965, passenger vessels, cargo and miscellaneous vessels, nautical school ships, and oceanographic vessels. If a total of 1,000 vessels are affected, the total industry cost to purchase the proposed combination nozzles would be $1,500,000. The cost of labor to install the nozzles on each vessel would be insignificant. If the industry is given two years to comply, the annual cost of this proposal would be less than $800,000, well below the lower limits of a major action under Executive Order 11821 and OMB Circular A–107.

This proposal benefits the shipping industry and the public by improving the capability of a vessel's crew to control or extinguish a fire, and by reducing the danger to which the fire fighters may be exposed.

In consideration of the foregoing, the Coast Guard proposes to amend Chapter I of Title 46, Code of Federal Regulations, as follows:

PART 34—FIREFIGHTING EQUIPMENT

1. By deleting § 34.10–10(o), revising Table 34.10–10(o) and redesignating it Table 34.10–10(e–1), revising § 34.10–10 (n) and the first sentence of § 34.10–10 (e), and adding a new sentence to follow this first sentence and adding a new § 34.10–10(e–1), to read as follows:

§ 34.10–10 Fire station hydrants, hose and nozzles—T/ALL.

* * * * * *

(e) Each fire station hydrant must have at least one length of firehose. Each firehose on the hydrant must have a combination solid stream and water spray firehose nozzle that is approved under Subpart 162.027 of this chapter. * * *

(e–1) Each of the number of hydrants in the locations listed in Table 34.10–10 (e–1) must have a low-velocity water spray applicator approved under Subpart 162.027 of this chapter that is of the length listed in that table.

TABLE 34.10–10(e–1).—*Hydrants with Coast Guard approved low-velocity water spray applicators*

Location	Number of hydrants with approved applicators	Approved applicator length (feet)
Living space	1	4.
Weather deck	4	10 or 12.
Machinery space	2	4.

* * * * * *

(n) Each low-velocity water spray applicator under paragraph (e–1) of this section must:

(1) connect to the Coast Guard-approved combination nozzle; and

(2) have fixed brackets, hooks, or other means for stowing it next to the hydrant.

2. By revising § 34.10–90 (a)(7), and (a)(10) through (a)(13), striking the words "and facilities" and inserting the words, "facilities, and equipment, except firehose nozzles," after the word "materials" in the first sentence in paragraph (b)(1), and revising paragraph (b)(2) to read as follows:

§ 34.10–90 Installations contracted for prior to May 26, 1965—T/All.

(a) * * *

(7) Each fire pump on a tankship of 500 gross tons or more must deliver enough water to the fire main so that the topmost outlet on the fire main emits two jets of water at a Pitot tube pressure of 50 pounds per square inch through two combination solid stream and water spray firehose nozzles meeting paragraph (a)(10) of this section.

* * * * * *

(10) Each fire station hydrant on a tankship of 500 gross tons or more must have at least one length of firehose. Each firehose on the hydrant must have a combination solid stream and water spray firehose nozzle that is approved under Subpart 162.027, except as allowed under paragraphs (a)(12) and (a)(13) of this section.

(11) On each tankship of 1,000 gross tons or more, the nozzle under paragraph (a)(10) of this section on each of the following hydrants must have a low-velocity water spray applicator that is approved under Subpart 162.027:

(i) At least two hydrants in the machinery and boiler spaces.

(ii) At least 25 percent of the other hydrants.

(12) Each tankship of 1,000 gross tons or more contracted for after June 30, 1951 and before January 1, 1962, must meet the following:

(i) Before (*effective date*), if the nozzle or applicator was approved under Subpart 162.027 before May 26, 1965:

(A) The nozzle must have a high-velocity water spray tip that meets § 162.027–2(c) of this chapter, and the applicator must have a low-velocity water spray head that meets § 162.027–2(c) of this chapter; or

(B) The fire hydrant or the nozzle must have a self-cleaning strainer that meets the requirements under which the nozzle was approved.

(ii) After (*effective date*), each new or replacement nozzle must meet § 34.10–90(a)(10), and each replacement low-velocity water spray applicator must meet § 34.10–90(a)(11).

(13) Each tankship of 1,000 gross tons or more contracted for before July 1, 1951, must meet the following:

(i) Before (*effective date*), if the nozzle or applicator was approved under Subpart 162.027 of this chapter before May 26, 1965:

(A) The nozzle must have a high-velocity water spray tip that meets § 162.027–2(c) of this chapter, and the applicator must have a low-velocity water spray head that meets § 162.027–2(c) of this chapter; or

(B) The fire hydrant or nozzle must have a self-cleaning strainer that meets the requirements under which the nozzle was approved.

(ii) After (*effective date*), each new or replacement nozzle must meet § 34.10–90(a)(10), and each new or replacement low-velocity water applicator must meet § 34.10–90(a)(11).

* * * * * *

(b) * * *

(2) Each fire station hydrant must have at least one length of firehose. Each firehose on the hydrant must have a combination solid stream and water spray firehose nozzle that is approved under Subpart 162.027 of this chapter, and each of the number of hydrants in the locations listed in Table 34.10–10(e–1) must have a low-velocity water spray applicator that:

(i) Is approved under Subpart 162.027 of this chapter;

(ii) Is of the length listed in Table 34.10–10(e–1); and

(iii) Meets § 34.10–10(n).

PART 76—FIRE PROTECTION EQUIPMENT

3. By revising § 76.10–10(g) and (j) and adding new § 76.10–10(j–1) and (j–2) to read as follows:

§ 76.10–10 Fire hydrants and hose.

* * * * * *

(g) Each fire hydrant must have at least one length of fire hose, a spanner, and a hose rack or other device for stowing the hose.

* * * * * *

(j) Each fire hose on each hydrant must have a combination solid stream and water spray fire hose nozzle that is approved under Subpart 162.027 of this chapter.

(j–1) The following must have low-velocity water spray applicators that are approved under Subpart 162.027 of this chapter:

(1) In the accommodation and service areas, two fire hoses having approved combination nozzles.

(2) In each propulsion machinery space containing an oil-fired boiler, internal combustion machinery, or oil fuel unit on a vessel on an international voyage or of 1000 gross tons or more, each firehose having an approved nozzle. The length of each applicator must be 4 feet.

(j–2) Fixed brackets, hooks, or other means for stowing an applicator must be next to each fire hydrant that has an applicator under paragraph (j) of this section.

* * * * * *

4. By inserting the words ", except firehose nozzles and low-velocity water spray applicators," following the words "Existing equipment" in the second sentence of § 76.10–90(a)(1), and by adding new § 76.10–90(a)(6) and (7) to read as follows:

§ 76.10–90 Installation contracted for prior to May 26, 1965.

(a) * * *

(6) Before (*effective date*), each firehose nozzle must meet § 76.10–10(j), and each low-velocity water spray applicator must meet §76.10–10(j–1), except if the nozzle or applicator was approved under Subpart 162.027 of this chapter before May 26, 1965—

(i) The nozzle must have a high-velocity water spray tip that meets § 162.027–2(c) of this chapter, and the applicator must have a low-velocity water spray head that meets § 162.027–2(c) of this chapter; or

(ii) The fire hydrant or nozzle must have a self-cleaning strainer that meets the requirements under which the nozzle was approved.

(7) After (*effective date*), each new or replacement nozzle must meet § 76.10–10 (j) and each low-velocity water spray applicator must meet § 76.10–10(j–1).

PART 95—FIRE PROTECTION EQUIPMENT

5. By revising § 95.10–10 (g) and (j), and adding new § 95.10–10(j–1) and (j–2) to read as follows:

§ 95.10–10 Fire hydrants and hose.

* * * * * *

(g) Each fire hydrant must have at least one length of firehose, a spanner,

and a hose rack or other device for stowing the hose.

* * * * *

(i) Each firehose on each hydrant must have a combination solid stream and water spray firehose nozzle that is approved under Subpart 162.027 of this chapter, except as allowed in Table 95.10–5(a).

(i–1) In each propulsion machinery space containing an oil fired boiler, internal combustion machinery, or oil fuel unit on a vessel on an international voyage or of 1000 gross tons or more, each firehose having an approved combination nozzle must have a low-velocity water spray applicator that is approved under Subpart 162.027 of this chapter. The length of each applicator must be four feet.

(i–2) Fixed brackets, hooks or other means for stowing an applicator must be next to each fire hydrant that has an applicator under paragraph (i–1) of this section.

* * * * *

6. By inserting the words ", except firehose nozzles and low-velocity water spray applicators," following the words "Existing equipment in the second sentence of § 95.10–90(a)(1), and adding new § 95.10–90(a) (5) and (6) to read as follows:

§ 95.10–90 Installation contracted for prior to May 26, 1965.

(a) * * *

(5) Before (*effective date*), each firehose nozzle must meet § 95.10–10(i), and each low-velocity water spray applicator must meet § 95.10–10(i–1), except if the nozzle or applicator was approved under Subpart 162.027 of this chapter before May 26, 1965—

(i) The nozzle must have a high-velocity water spray tip that meets § 162.027–2(c) of this chapter, and the applicator must have a low-velocity water spray head that meets § 162.027–2(c) of this chapter; or

(ii) The fire hydrant or nozzle must have a self-cleaning strainer that meets the requirements under which the nozzle was approved.

(6) After (*effective date*), each new or replacement nozzle must meet § 95.10–10(i), and each new or replacement low-velocity water spray applicator must meet § 95.10–10(i–1).

PART 162—ENGINEERING EQUIPMENT

7. By revising the heading of Subpart 162.027 to read as follows:

Subpart 162.027—Combination Solid Stream and Water Spray Firehose Nozzle and Low-Velocity Water Spray Applicator

§ 162.027–2 [Amended]

8. In § 162.027–2(a) by—

a. Inserting the word "and" between the words "either outlet," and "a high velocity" in the first sentence;

b. Striking the words ", and an applicator with a low-velocity water spray head", from the first sentence;

c. Striking the words "the applicator with the low-velocity head" from the second sentence and inserting in their place the words "a low-velocity water spray applicator that meets § 162.027–3(b)(2)"; and

d. By revising the third sentence to read: "The low-velocity water spray applicator has an angled tube, a low-velocity water spray head, and a connection for the combination nozzle."

9. By revising the heading of § 162.027–2(b) and adding a new § 162.027–2(c) to read as follows:

* * * * *

(b) *Nozzle size.* * * *

(c) *Spray tip and head.* Each high-velocity water spray tip and each low-velocity water spray head of a nozzle or applicator for 1½ inch hose must be designed to pass material equal in size to a ⅜ inch diameter ball. Each high-velocity water spray tip and each low-velocity water spray head of a nozzle or applicator for 2½ inch hose must be designed to pass material equal in size to a ½ inch diameter ball.

§ 162.027–3 [Amended]

10. By inserting the words "and applicators" following the words "fire hose nozzles" in the first sentence of § 162.027–3(a)(1), following the words "combination nozzles" in the first sentence of the introductory text in § 162.027–3(b), and following the words "Combination nozzles" in § 162.027–3 (c) and (d).

§ 162.027–4 [Amended]

11. By inserting the words "and applicators" following the words "combination nozzles" wherever they appear in the first sentence of § 162.027–4(a).

12. By revising the heading of § 162.027–5(a) and adding a new § 162.027–5(b) to read as follows:

§ 162.027–5 Marking.

(a) *Nozzles.* * * *

(b) *Applicators.* Each low-velocity water spray applicator must be permanently and legibly marked with the manufacturer's name and the model designation of the nozzle with which it is used.

§ 162.027–6 [Amended]

13. By inserting the words "and applicators" following the words "fire hose nozzles" in the first sentence of § 162.027–6(a) and following the words "combination nozzles" in the first sentence of § 162.027–6(b).

PART 167—PUBLIC NAUTICAL SCHOOL SHIPS

14. By striking in the third sentence of § 167.45–5(c)(1) each word after the words "50 pounds per square inch", and adding a new § 167.45–5(h) to read as follows:

§ 167.45–5 Steam fire pumps or their equivalent.

* * * * *

(h) Each fire hydrant must have at least one length of firehose. Each firehose on the hydrant must have a combination solid stream and water spray firehose nozzle that is approved under Subpart 162.027 of this chapter.

15. By revising § 167.45–40(c) and adding new § 167.45–40 (c–1) and (c–2) to read as follows:

§ 167.45–40 Fire fighting equipment on nautical school ships using oil as fuel.

* * * * *

(c) In the boiler and machinery spaces, at least two fire hydrants must have a firehose of a length that allows each part of the boiler and machinery spaces to be reached by the combination nozzle.

(c–1) Before (*effective date*), each firehose under paragraph (c) of this section must have a combination solid stream and water spray nozzle and a low-velocity water spray applicator that are approved under Subpart 162.027 of this chapter, except if the nozzle or applicator was approved under Subpart 162.027 of this chapter before May 26, 1965—

(1) The nozzle must have a high-velocity water spray tip that meets § 162.027–2(c) of this chapter, and the applicator must have a low-velocity water spray applicator that meets § 162.027–2(c) of this chapter; or

(2) The fire hydrant or nozzle must have a self-cleaning strainer that meets the requirements under which the nozzle was approved.

(c–2) After (*effective date*), each new or replacement nozzle or applicator must be approved under Subpart 162.027 of this chapter.

* * * * *

PART 193—FIRE PROTECTION EQUIPMENT

18. By striking out the words "and hose with fog applicator" from the second sentence of § 193.10–10(d), revising § 193.10–10(i) and adding § 193.10–10 (i–1) and (i–2) to read as follows:

§ 193.10–10 Fire hydrants and hose.

* * * * *

(i) Each fire hydrant must have at least one length of firehose. Each firehose must have a combination solid stream and water spray nozzle that is approved under Subpart 162.027 of this chapter, except ¾ inch hose may have a garden hose nozzle that is bronze or equivalent corrosion-resistant metal.

(i–1) Each of the following must have a low-velocity water spray applicator that is approved under Subpart 162.027 of this chapter:

(1) At least one length of firehose on each fire hydrant outside, and in the immediate vicinity of, each laboratory.

(2) In each propulsion machinery space containing an oil-fired boiler, internal combustion machinery, or oil fuel unit on a vessel of 1000 gross tons or more, each firehose having an approved combination nozzle. The length of each applicator must be four feet.

(i–2) Fixed brackets, hooks, or other means for stowing an applicator must be next to each fire hydrant that has an applicator under paragraph (i–1) of this section.

* * * * *

19. By inserting the words "except firehose nozzles and low-velocity water spray applicators," following the words "Existing equipment" in the first sentence of § 193.10–90(a)(2) and adding new § 193.10–90(a)(4) and (5) to read as follows:

§ 193.10–90 Installations contracted for prior to March 1, 1968.

(a) * * *

(4) Before (*effective date*), each firehose nozzle must meet § 193.10–10(i), and each low-velocity water spray applicator must meet § 193.10–10(i–1), except if the nozzle or applicator was approved under Subpart 162.027 of this chapter before May 26, 1965—

(i) The nozzle must have a high-velocity water spray tip that meets § 162.027–2(c) of this chapter, and the applicator must have a low-velocity water spray head that meets § 162.027–2(c) of this chapter; or

(ii) The fire hydrant or nozzle must have a self-cleaning strainer that meets the requirements under which the nozzle was approved.

(5) After (*effective date*), each new or replacement nozzle must meet § 193.10–10(i), and each new or replacement low-velocity water spray applicator must meet § 193.10–10(i–1).

(46 U.S.C. 390b, 481, and 391a; 49 U.S.C. 1655(b)(1); and 49 CFR 1.46(b) and 1.46(n)(4).)

NOTE.—The Coast Guard has determined that this document does not contain a major proposal requiring the preparation of an Economic Impact Statement under Executive Order 11821, as amended, and OMB Circular A–107.

Dated: June 13, 1977.

O. W. SILER,
Admiral, U.S. Coast Guard Commandant.

AGENCY: National Highway Traffic Safety Administration.

ACTION: Proposal.

SUMMARY: This notice proposes to add a small number of vehicles to the category of oversize and specialized vehicles that are permanently excluded from the applicability of Standard No. 121, Air Brake Systems, to extend the existing temporary exclusion of heavy hauler trailers and auto transporters until January 1, 1979, and to eliminate the "no lockup" requirement in the case of trailers designed exclusively for harvesting lumber or pulpwood, and inboard wheels on trailers with more than four wheels on an axle system. This proposal responds to manufacturer petitions for exclusion from some or all of the requirements of the standard because of the vehicles' distinctive configurations and functions.

DATES: Comments must be received on or before July 11, 1977.

PROPOSED EFFECTIVE DATE: Date of publication of the final rule in the FEDERAL REGISTER.

ADDRESSES: Comments should refer to the docket number and be submitted to: Room 5108, Nassif Building, 400 Seventh Street SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Dr. Stephen Sacks, Office of Crash Avoidance, National Highway Traffic Safety Administration, Washington, D.C. 20590 (202 426–2153).

SUPPLEMENTARY INFORMATION: Standard No. 121 (49 CFR 571.121) regulates the braking system performance of air-braked trucks, buses, and trailers. The standard has been in effect for trailers since January 1, 1975, and for trucks and buses since March 1, 1975. Certain oversize or otherwise specialized vehicles were excluded from the standard's applicability because their functions or construction dictate oversize or distinctive operational characteristics that result in restricted highway operation (e.g., low speed, permit requirements, daytime operation) which limits hazards and the possibility of accidents. Also their distinctive configurations and low production volumes sharply increase compliance costs.

Because of unavailability of components and other constraints, certain other vehicle categories were excluded from all or some of the standard's requirements for a temporary period. The temporary exclusions that remain in effect are scheduled to end on September 1, 1977.

Several vehicle manufacturers and manufacturer trade associations have petitioned for extension of some of the temporary exclusions, or conversion of them into permanent exclusions. Also, the Truck and Bus Subcommittees of the National Motor Vehicle Safety Advisory Council and National Highway Safety Advisory Committee have recommended to the Secretary of Transportation that particular vehicle types be granted full or partial exclusions from the standard. The Subcommittees' resolution has been made a part of the public Docket No. 75–16. The American Trucking Associations (ATA) supported the resolution so that manufacturers could concentrate on the problems of "over-the-road" vehicles. This notice is responsive to the petitions and to the Subcommittees' resolution, which was forwarded by the Secretary to the NHTSA for consideration. To the degree that named petitioners' requests are not granted in the notice, they are denied.

PERMANENT EXCLUSION FROM THE STANDARD

The Truck Trailer Manufacturers Association (TTMA) petitioned for permanent exclusion of seven vehicle configurations from the standard as a whole. The Heavy Specialized Carriers Conference of the American Trucking Associations supported the TTMA petition, and a meeting between the TTMA and the NHTSA engineering staff was held in March 1977 to gather information relevant to the requested exclusions.

The standard's existing permanent exclusions for heavy specialized vehicle are as follows: any trailer with an unloaded vehicle weight of at least 95 percent of its gross vehicle weight rating (GVWR), any vehicle with an overall width of 108 inches or more, any vehicle equipped with an axle having a gross axle weight rating (GAWR) of 29,000 pounds or more, any vehicle with a maximum attainable speed of 33 mph or less, and any vehicle having a maximum attainable speed of 45 mph or less, an unloaded vehicle weight of at least 95 percent of its GVWR, and no passenger-carrying capacity. The TTMA recommended the exclusion of additional vehicle categories for the same reasons underlying the present exclusions.

The agency's analysis of the TTMA's recommendations indicates that three of them should be added to the existing exclusions, although the criteria may, in some cases, overlap somewhat with the existing exclusions. One recommendation is for expansion of the 108-inch width criterion to any width in excess of 102 inches. In all states other than Hawaii, vehicles of this width are allowed on the highway only in permit operation. It is the agency's tentative conclusion that these vehicles are operated with the same care as vehicles of 108 inches in overall width. Accordingly, they are proposed for exclusion from the standard's requirements.

The second vehicle category recommended for exclusion involves those with a gross vehicle weight rating (GVWR) of over 120,000 pounds. It is the agency's understanding that such a vehicle would always be operated under special arrangements with the state motor vehicle administrations and be restricted in its operation. In fact, the TTMA was only able to describe vehicle combinations that reach the 120,000 GVWR figure. Therefore, while the agency proposes this exclusion on the basis that it falls into the category of oversize vehicles, the agency solicits comment on whether such single vehicles actually exist and whether there are any circumstances in which they could operate in unrestricted highway use.

The third category recommended for exclusion represents an oversight in the agency's actions to exclude particularly large and specialized trailers from Standard No. 121. When the agency excluded large "low-boy" type trailers, it failed to exclude the "load divider

dolly" that is designed exclusively for use with the larger trailers to distribute the load at the upper fifth wheel plate between the towing vehicle fifth wheel and the dolly's own suspension system. In the agency's view, these specialized dollies are in effect portions of the larger "low-boy" trailers and should be excluded along with them.

In proposing these three additional permanent exclusions, it is noted that they are intended to apply to all vehicle types and not only to trailers as requested by the TTMA. For clarification, the agency also proposes that the existing exclusion for any "vehicle" with a maximum attainable speed of 33 mph or less be restricted to any "truck or bus" with such a limited top speed. This revision would simply make clear that trailers do not have a top speed because they can be towed at any speed by a towing vehicle.

PERMANENT EXCLUSION FROM SPECIFIED REQUIREMENTS OF THE STANDARD

TTMA petitioned for permanent exclusion of "logging and pulpwood trailers" from the entire standard because of the particularly hostile environment to which they are subjected, i.e., being dragged on their axles through stumpy or muddy woodland by crawler tractors. The agency granted a petition from R. E. Thomas Erectors for exclusion of these trailers from the standard's "no lockup" requirement but denied the request for exclusion from the standard's other requirements. It is the agency's position that no justification exists for eliminating other beneficial aspects of the standard such as faster actuation and release times, larger air supplies, and better brake retardation characteristics. Upon review of the TTMA materials and the presentations at the March 1977 meeting, it is still apparent that the significant problem is the susceptability to damage of exposed antilock components installed on the axles and subframe in satisfaction of the standard's "no lockup" requirement. In the agency's view, the terrain encountered in logging is virtually unique in its severity but does not affect aspects of the standard other than the "no lockup" requirements.

The Truck and Bus Safety Subcommittees of the Advisory Committee and Council recommended that refuse trucks and mobile cranes also be permanently excluded from the "no lockup" requirements of the standard. While the Subcommittees' reasoning in support of these recommendations was not stated, presentations by Grove Manufacturing and the National Solid Waste Management Association presumably formed the basis of the recommendations. As for refuse haulers, the apparent basis for recommended exclusion was the operational problem of damage to antilock components in a landfill while dumping refuse. It is the NHTSA's considered opinion that the problems are not significantly different from those encountered by the many other trucks such as dump trucks or livestock haulers, which operate off road part of the time. Unlike logging trailers whose solid, nondriving axles are used as skids to move the vehicles through extremely rough terrain, a refuse truck's rear axles are driving axles containing one or more differentials and other expensive machined components that are vulnerable to damage and which must be protected in any off-road situation. With the exception of the AC Division system, truck rear axle components are placed inside the foundation brake, where they are not exposed. Presumably then, the antilock components would receive the same protection as any other axle component. The agency tentatively concludes that the refuse vehicle is not significantly exposed to a worse terrain than dump trucks and that exclusion from the requirements of the standard would not be justified.

With regard to mobile cranes, the agency treated this category of vehicles in a series of proposals and final rule actions following extensive comment by interested persons (39 FR 40168; November 14, 1974; 40 FR 4153; January 28, 1975; 40 FR 8953; March 4, 1975; 40 FR 24915; June 11, 1975; 40 FR 38160; August 27, 1975; 40 59222; December 22, 1975; 41 FR 8783; March 1, 1976). The agency decided that those mobile cranes that are not excluded from the standard on the basis of any of the several oversize criteria should nevertheless be excluded, provided that they have a maximum attainable speed of not more than 45 mph. The agency reasoned that the complexity and expense of compliance would be unjustifiable unless the vehicles did operate in totally unrestricted high-speed operation with the rest of the stream of traffic. It was considered reasonable, therefore, to allow the manufacturer to avoid the standard entirely by limiting vehicle speed to 45 mph, or to meet the standard if it chose to add the additional 10-mph capability to take advantage of the 55-mph national maximum speed limit. Having reviewed the Grove Manufacturing testimony, the agency continues to consider the limits of the present permanent exclusion as justified and sufficient.

The TTMA also asked for permanent exclusion from all of the standard's requirements for any trailer with more than four wheels mounted on a single axle system (referring to any row of wheels arranged in a line that is perpendicular to the longitudinal axis of a vehicle, whether or not the wheels are mounted on a tube, beam, or other conventional type of solid axle). As in the case of logging trailers, the agency does not perceive the justification for exclusion of this trailer category from all the requirements of the standard. Some of these trailers are quite light and operate in unrestricted highway operation. The many benefits of more powerful, faster acting brakes are obvious and important to maximize compatibility with 121-equipped towing vehicles. The heavier vehicles in this proposed category already qualify for exclusion because of their size or axle configurations.

With respect to the "no lockup" performance requirement, the agency cannot agree with the TTMA that the presence of more than four tires on an axle system provides increased lateral stability comparable to that obtained through the "no lockup" requirement. At the same time the agency recognizes that, for an axle having more than four wheels, it is not necessary to require all of the wheels to meet the "no lockup" requirement. Thus, it is proposed that the standard be amended for these special multi-braked axles to require that only the outermost wheels meet the "no lockup" requirement.

TEMPORARY EXCLUSIONS FROM THE STANDARD

The TTMA recommended, in addition to exclusions based on specific criteria of overwidth, heavy axle size, or multitired axle systems, that all trailers presently excluded on a temporary basis as "heavy hauler" trailers until September 1, 1977, continue to be excluded permanently. The two characteristics that entitle a trailer to this exclusion are brake line designed to adapt to separation or extension of the vehicle frame, or a body that consists only of a platform whose primary cargo-carrying surface is not more than 40 inches above the ground in the unloaded condition. The TTMA and the National Automobile Transporters Association (NATA), along with various auto transporter manufacturers, also sought continuation of the exclusions for auto transporters until September 1, 1980. The ATA requested exclusion for both categories until January 1, 1979. The intent of the temporary exclusions for heavy hauler trailers and for auto transporters was to allow time for the development and application of 121 componentry for these specialized vehicles. At the time of the standard's implementation suppliers were concentrating their efforts on components for the larger highway markets.

The heavy hauler trailers in question and the auto transporters both use the highways regularly without speed or other types of restrictions. These vehicles are as susceptible to brake-related and maneuvering accidents as any other heavy commercial vehicle and the agency continues to consider that the standard should apply to them. Many of the problems of the vehicles in question may relate to the use of the smaller 15-inch wheel in place of the standard 20-inch wheel. While it is understood that the packaging of new brake components may be more difficult due to space limitations, it is also apparent that other users of 15-inch wheels (e.g., furniture vans) have been able to solve packaging and component availability problems. No data other than increased cost, limited engineering staffs, or possible compliance test problems were submitted by the petitioners in support of their requests. None of the auto transporter manufacturers have ever asked the NHTSA for clarification of the test procedures with which they are concerned. Additionally, the agency is aware that at least one antilock supplier has made several successful prototype installations of complete 121 systems on auto transporters. As justification for permanent exclusion of heavy haulers, the TTMA did note that the price of "tag-a-long" trailers could in some cases be increased 25 percent by Standard No. 121 and that a substantial cost increase of this nature could result in a shift to electric or vacuum brakes.

It is apparent that manufacturers of the heavy hauler and auto transporter vehicles are not prepared to conform to the standard. The agency has for this reason granted these petitions for a limited extension because of the leadtime problem, despite the fact that manufacturers appear not to have made sufficient efforts to achieve compliance. The agency has decided to propose a delay in applicability for a limited period to provide time to determine what problems of availability or impracticability remain for these vehicles.

The date of January 1, 1979, is proposed, which is four years from the implementation of the standard for trailers and which conforms to the Subcommittees' recommendation.

Petitions for delay of nearly six years from implementation are denied because no evidence on the record justifies such a long delay. Justification for further delay would have to be specific and be brought to the agency's attention before the end of the period of extension. During the period of delay, the agency will attempt to fully catalog the problems facing manufacturers by means of specific questions addressed to them under authority of section 112 of the Act.

In this vein, the agency notes that the majority of rulemaking petitions it receives do not contain the minimum amount of justification and substantiation of requests that is necessary to permit reaching a decision to grant or deny the petition. Substantiation of a request is a necessary element of a petition under NHTSA regulations (49 CFR 552.4) and is, of course, necessary to permit a rational disposition of the petition. Therefore, when the agency receives an unsubstantiated request for rulemaking in the future, it will be returned with a request that substantiation be provided before further action is taken.

OTHER ASPECTS OF THE PROPOSAL

It is noted that the American Trucking Associations petitioned for extension of the temporary exclusion of vehicles with a GAWR for any axle of 24,000 pounds or more, or two or more front steerable axles with a GAWR of 16,000 pounds or more for each axle. No justification for the request was cited other than the belief that suppliers' problems with Standard No. 121 make the suppliers unable to cope with the vehicles covered by these exclusions. Comments from suppliers are solicited on this question.

In a separate matter, one of the criteria for exclusion of mobile cranes is an absence of "passenger-carrying capacity." Bucyrus-Erie Company and FWD Corporation asked that the agency modify the standard to make clear that riding positions for the operating crew of a mobile crane do not constitute "passenger carrying capacity." The agency takes this opportunity to make this clarification a part of the standard by amendment of S3 of the standard.

The economic and inflationary impacts of this rulemaking have been evaluated in accordance with OMB Circular A-107, and an Economic Impact Statement is not required.

In consideration of the foregoing, it is proposed that Standard No. 121 (49 CFR 571.121) be amended as follows:

1. Section S3, Applicability, would be amended to read:

§ 571.121 Standard No. 121; Air Brake Systems.

* * * * *

S3 *Applicability.* This standard applies to trucks, buses, and trailers equipped with air brake systems. However, it does not apply to—

(a) Any vehicle that has an overall vehicle width of more than 102 inches with extendable equipment in the fully retracted position;

(b) Any vehicle that has a gross vehicle weight rating (GVWR) of more than 120,000 pounds;

(c) Any vehicle equipped with an axle that has a gross axle weight rating (GAWR) of 29,000 pounds or more;

(d) Any truck or bus that has a speed attainable in 2 miles of not more than 33 mph;

(e) Any truck that has a speed attainable in 2 miles of not more than 45 mph, an unloaded vehicle weight that is not less than 95 percent of its GVWR, and no capacity to carry occupants other than the driver and operating crew;

(f) Any trailer that has an unloaded vehicle weight which is not greater than 95 percent of its GVWR; and

(g) Any trailer composed of a trailer chassis, one or more axles, and a fifth wheel plate, and which is designed exclusively to support a portion of the weight of a trailer excluded from all the requirements of this standard.

In addition, the standard does not apply to a heavy hauler trailer manufactured before January 1, 1979; any vehicle manufactured before January 1, 1979, that in combination with another vehicle, constitutes a part of an auto transporter; and any vehicle manufactured before September 1, 1977, that has a GAWR for any axle of 24,000 pounds or more, or two or more front steerable axles with a GAWR of 16,000 pounds or more for each axle.

2. The date "September 1, 1977" in the first paragraph of S5.3 would be changed to "January 1, 1979."

3. Section S5.3.2 would be amended by replacing the period at the end of paragraph (b) with ", or" and by the addition of a new paragraph (c) to read:

S5.3.2 * * *

(c) In the case of an axle system having more than four wheels, lockup of any wheel other than the outermost wheel at each end of the axle system.

4. A new section S5.3.2.2 would be added to read:

S5.3.2.2 When stopped in accordance with S5.3.2, any trailer designed exclusively for harvesting logs or pulpwood and constructed with a skeletal frame with no means for attachment of a solid bed, body, or container, and with an arrangement of air control lines and reservoirs designed to minimize damage in off-road operations need not meet the requirements relating to wheel lockup, but must nevertheless meet the requirements of straying within the 12-foot lane.

Interested persons are invited to submit comments on the proposal. It is requested but not required that 10 copies be submitted.

In the case of comments that contain materials for which confidential treatment is requested, those materials should be deleted from the copies submitted to the docket.

A copy of the complete comments should be submitted to the Office of Chief Counsel at the above address, with an indication of which portions of the comments are the subject of the request for confidentiality.

All comments received before the close of business on the comment closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons contine to examine the docket for new material.

The program official and lawyer principally responsible for the development of this proposal are Duane Perrin and Tad Herlihy, respectively.

(Sec. 103, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1407); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.)

Issued on June 9, 1977.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

[49 CFR Parts 575 and 581]

[Docket No. 73-19, 74-11; Notice 15, 18]

BUMPER STANDARD

Damageability Requirements and Consumer Information

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Announcement by public meeting and proposed rule.

SUMMARY: This notice proposes three alternative amendments to Part 581,

Bumper Standard, two of which would include the establishment of a consumer information program under the combined authority of Section 112(d) of the National Traffic and Motor Vehicle Safety Act (Pub. L. 89–563) and Title II of the Motor Vehicle Information and Cost Savings Act (Pub. L. 92–513). The notice would also schedule a public hearing on the issues involved in the proposal.

DATES: Comments must be received on or before August 15, 1977. Proposed effective dates:

Alternative I—Part 581 amendment, September 1, 1980.

Alternative II—Consumer Information Program, September 1, 1978. Part 581 amendment, September 1, 1980.

Alternative III—Consumer Information Program, September 1, 1978. Part 581 amendment, delay implementation of Phase II for several years beyond 1980 or, alternatively, indefinitely.

HEARING: July 28, 1977. Deadline for submission of application for financial assistance: June 29, 1977.

ADDRESSES: Comments should refer to the docket number and be submitted to: Room 5108—Nassif Building, 400 Seventh Street, S.W., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

Mr. Bob Mewhinney, Office of Crashworthiness, Motor Vehicle Programs, NHTSA, 400 Seventh St., SW., Washington, D.C. 20590 (202–755–8896).

SUPPLEMENTARY INFORMATION: On February 24, 1977, the National Highway Traffic Safety Administration (NHTSA) published a notice (42 FR 10862) proposing to delay for 1 year until September 1, 1980, implementation of the Phase II bumper requirements. This NPRM was in response to petitions for reconsideration from Ford and General Motors (GM), concerning the final rule establishing Part 581 (41 FR 9346, March 4, 1976). GM, in its petition, had expressed concern that implementation of two sets of bumper requirements only one year part (September 1, 1978 and September 1, 1979) would result in unrecoverable costs relating to research, design, development, and tooling. Ford had described a problem relating to its design plans for compliance with fuel economy standards. It requested that the effective date for implementation of the bumper requirements be delayed until September 1, 1980, in order that design changes could be accomplished simultaneously with those made necessary by the fuel economy provisions of the Energy Policy and Conservation Act (Pub. L. 94–163). The NHTSA proposed a 1-year delay in the implementation of the Phase II requirements as a possible method for resolving the problems alleged by Ford and GM.

The February NPRM was issued by the previous Administrator of the NHTSA. The current Administrator has reexamined the issues involved in that NPRM and has determined that alternative methods of resolving petitioners' problems should also be considered. A decision has also been made to examine by this notice and hearing the possible impact on compliance with the Phase II requirements of the new Clean Air Act amendments currently being considered by Congress for implementation in either the 1980 or 1982 model year, as well as the significant fuel economy standards which become effective in the 1981 model year and any action the Secretary of Transportation might take to enhance vehicle occupant protection under Standard No. 208 (49 CFR 571.208).

The three alternatives proposed by this notice will be closely examined in light of the information submitted by all interested persons, both in written comments and oral testimony at the public meeting. If none of the three approaches appear to be superior to the currently prescribed approach (49 CFR Part 581) when examined in terms of the considerations mentioned above, the three approaches proposed by this notice will be withdrawn and Part 581 will be implemented in its present form (Phase I effective September 1, 1978, and Phase II effective September 1, 1979).

The first alternative proposed by this notice is the amendment to 40 CFR Part 581 described in the February NPRM. Under this alternative, manufacturers would not be required to meet the Phase II requirements of Part 581 until September 1, 1980. According to the February notice, such an amendment would respond to petitions for reconsideration by enabling manufacturers to better optimize their Phase I bumper systems and to coordinate their bumper redesign efforts with those planned for fuel economy purposes.

The second alternative proposed by this notice would combine a 1-year delay, until September 1, 1980, in the implementation of the Phase II bumper requirements with a consumer information program on bumper damageability, to become effective September 1, 1978. The 1-year effective date delay would be responsive to the petitions for reconsideration from Ford and GM, as described in the February 24, 1977, NPRM. The consumer information program would be established under the authority of Section 112(d) of the National Traffic and Motor Vehicle Safety Act (Pub. L. 89–563) and Title II of the Motor Vehicle Information and Cost Savings Act (Pub. L. 92–513). It would remain in effect until September 1, 1980, and would provide both the agency and consumers with specific bumper damageability information. After September 1, 1980, under this proposed option, Phase II would prohibit any significant damage to the bumper, thus obviating the need for bumper damageability information at 5 mph impact speeds.

Implementation of a consumer information program on bumper damageability would enable consumers to base their car-buying choices on what they perceive to be satisfactory bumper system performance. Car owners who live in congested urban areas where the threat of low-speed collisions may be of particular concern, would be able to rely on the bumper damageability information in selecting a more damage resistant vehicle. The information provided under the program, which would be of two kinds initially, bumper system damage and bumper system repair cost, would be based upon the results of impact tests conducted for compliance purposes under Phase I of the Part 581 bumper standard which also takes effect on September 1, 1978. A description of the bumper system damage would not only alert consumers to the crash performance capabilities of the various bumper systems, but would provide them with sufficient information to make their own assessment of the possible safety hazards of a damaged system.

Beginning with the second year of the consumer information program, passenger car insurers would be required to disclose to the NHTSA the insurance rate discounts which would be available for vehicles whose bumper systems performed at particular levels. This information would then be placed in the consumer information booklet along with the bumper system performance and repair cost information. A consumer would thus have all of the cost and performance data necessary to make an informed car-buying choice.

The NHTSA has identified, in Standard No. 215, Exterior Protection, the system whose proper functioning is important to the safety performance of the vehicle. Damage to these systems would obviously tend to create hazards. In addition, damage to the vehicle body surfaces may have a distinct effect on safety. Although such hazards are difficult to identify and quantify, a lacerated or projecting bumper surface, for example, might well pose special danger to pedestrians, either on a moving or a stationary vehicle. This agency has tentatively decided, therefore, that the information concerning damage to vehicle surfaces that will be produced by tests for compliance with Part 581 (which includes Standard 215) can be of value to the public in evaluating the performance of the tested vehicles. Such information is the type described in Section 112 (d) of the Traffic Safety Act. It is therefore proposed that 49 CFR Part 575, Consumer Information Regulations, be amended to require manufacturers to distribute bumper performance information to prospective purchasers. This information would also be highly significant to consumers in the event the agency adopted, in the future, a consumer information program based upon impacts up to 10 mph. Although not specifically proposed as an alternative, comments should address the feasibility and advisability of requiring a consumer information program for bumper and other surface area damageability that is based upon impacts at up to 10 mph. Specially, the program would be based upon the same type of testing and damage criteria as currently prescribed in Part 581. The only difference would be the impact speed.

Title II of the Cost Savings Act gives the NHTSA the authority to compile damage susceptibility and crashworthiness information which will facilitate comparison by the public of the various makes and models of passenger cars. It is the agency's tentative judgment that this can be best accomplished by making available repair cost figures for the damage incurred by the bumper systems of the various passenger car models when tested in accordance with the 5 mph impact tests required by Part 581. Thus, this information would, under this proposal, be furnished to consumers along with the information proposed above to be supplied pursuant to Part 575.

The consumer information program would function in conjunction with the Part 581 Phase I compliance measures. Manufacturers would be required to determine the amount of set and dent incurred by the bumper face bar of each of its passenger car models following the prescribed Part 581 testing. If the set and dent were equal to or less than ¾ inch and ⅜ inch, respectively, that particular vehicle would be considered to have incurred "inconsequential" damage and would not be subject to any further examination. If, however, the set and dent exceeded those limits, the manufacturer would be required to examine the entire bumper system for damage. With regard to the exterior parts of the system, any type of deformation or blemish would be considered as damage. With regard to the components of the bumper system substructure, any deformation that caused a component to no longer be capable of operating in the normal manner would be considered as damage.

Manufacturers would be required to disclose in a booklet to be distributed to prospective passenger car purchasers, information pertinent to the bumper system performance of each of its passenger cars. The booklet would list all passenger car models in groups according to their interior size (e.g., subcompact, compact). The first section of the booklet would list all motor vehicle models that sustained set and dent not greater than ¾ inch and ⅜ inch, respectively. These vehicles would be labeled as having incurred "inconsequential" damage when impacted at 5 mph in accordance with Part 581 test procedures. The second section of the booklet would list all other passenger car models. Next to each model would be a detailed yet understandable description of the exterior bumper system damage incurred as a result of the 5 mph impacts. In addition, the total cost to repair the system by replacement of the damaged bumper system components (including labor costs), and the manufacturer's estimate of the lowest cost to repair the total damaged bumper system damage would be listed.

Manufacturers would be required to submit to the NHTSA all of the information required to appear in the booklet by June 1 of each year. The NHTSA would then compile the information supplied by all of the manufacturers and print a booklet containing the data as described above. A copy of the booklet would then be provided to each passenger car manufacturer by August 1 of each year. The manufacturer would be responsible for printing a sufficient number of copies of the booklet for distribution by his dealers to all prospective passenger car purchasers. The booklets with information applicable to the passenger cars of a single model year, would have to be available at each dealer's place of business by September 15 of each year. Each passenger car dealer would be required to place the booklets in a location which is obvious to prospective motor vehicle purchasers and to furnish each prospective purchaser with a copy at no charge.

Manufacturers would be required to include on the label required by section 3 of the Automobile Information Disclosure Act (15 U.S.C. 1232) or on a separate label affixed to the right front window of each passenger car the two total cost figures applicable to that particular vehicle. If the vehicle had incurred "inconsequential" damage, that should be indicated on the label. The label information would describe the meaning of the two figures or the "inconsequentiality" rating and would make reference to the existence of the booklet and the comparative information it contains. The manufacturer would also be required to place this damageability information in each vehicle owner's manual.

The third alternative proposed by this notice is to implement the consumer information program beginning September 1, 1978, as proposed in the second alternative, and to delay for several years beyond September 1, 1980, or perhaps indefinitely, implementation of the Phase II bumper requirements. The consumer information program would remain in effect until such time as the Phase II requirements were implemented. This alternative is proposed in acknowledgement of the major requirements with which motor vehicle manufacturers will be required to comply in the early 1980's. Major amendments to the Clean Air Act are being considered by Congress for implementation in either the 1980 or 1982 model year. In addition, substantial improvement in the fuel economy of passenger automobiles will be required for the 1981 model year. If the passive restraint option of the notice proposing to amend Standard No. 208 (42 FR 15935) is adopted, it also would become effective in the early 1980's. The agency is concerned about the burden on manufacturers to comply with these several major requirements during only a one- or two-year period. Since these requirements slated for implementation in the early 1980's involve significant safety and health matters, as well as the nation's energy policy, the agency has determined that the impact of compliance with a cost savings standard on satisfaction of these critical standards should be considered.

Implementation of all of these major requirements during the early 1980's will certainly require the concentration of significant automotive industry resources. Because such resources may have to be applied to compliance with other standards, it is possible that satisfaction of the Phase II bumper requirements would not be achieved in as cost-efficient a manner as previously anticipated. Given the mandate in Title I to provide consumers with a bumper system that will save them money, it is incumbent upon the agency to examine closely the effect of compliance with other important requirements. If it appears that a cost-efficient Phase II program cannot be effected in either the currently prescribed 1980 model year or the proposed 1981 model year, it is the agency's responsibility to reconsider those effective dates.

Comments are specifically requested on the difficulties, if any, of meeting the Phase II bumper requirements simultaneously with the other requirements due to go into effect. Additionally, the cost impact on the development of Phase II bumper systems of complying with fuel economy, emissions, and possibly passive restraint requirements is solicited.

In addition to comments on the three proposed amendments, it is requested that passenger car manufacturers responding to this notice indicate whether their passenger cars are now or will soon be capable of meeting the Phase II requirements of Part 581. It is also requested that manufacturers address the degree to which a consumer information program, such as that described in this notice, might motivate passenger car manufactuers to improve the performance of their bumper systems given the possible competitive effect of the information disclosed.

In accordance with Section 102(e)(1) of the Cost Savings Act which requires that interested persons be given an opportunity to orally present their views on any rule amending a bumper standard, a public meeting is hereby scheduled to discuss the alternatives proposed by this notice. Interested persons are invited to attend the meeting and to present oral or written comments. Persons wishing to make written comments only, must submit those comments to the docket by August 15, 1977. Persons making oral statements are encouraged to submit their comments in written form either at the meeting or by mail. All comments, both oral and written, must be limited not to exceed 15 pages in length. Necessary attachments may be appended to these submissions without regard to the 15-page limit. This limitation is intended to encourage commenters to detail their primary arguments in a succinct and concise fashion. All written submissions should be mailed to Docket No. 73–19, Notice Docket Section, National Highway Traffic Safety Administration, Room

5108, 400 Seventh Street SW., Washington, D.C. 20590.

Persons who desire to make an oral statement should contact Mr. Bob Mewhinney, Motor Vehicle Programs, NHTSA, Washington, D.C. 20590 (202–755–8896) by July 18, 1977, so that time limitations (if necessary) and the need for any special equipment, such as projectors, can be discussed and final arrangements can be made. A general outline of the planned presentation should also be submitted at the same time. Persons whose presentations include slides, motion pictures, or any other visual aids should plan to submit copies of them for the record at the meeting.

An agenda will be available at the meeting. A transcript of the meeting will be made, and will be available for examination in the NHTSA Docket Section, Room 5108, approximately 5 days after the meeting.

The meeting will be held on July 28, 1977, in the Departmental Auditorium, 14th St. and Constitution Ave., N.W., Washington, D.C., beginning at 9:30 a.m. The meeting will continue on July 29, 1977, if additional time is necessary to hear all presentations.

In addition to the public meeting, the Department also invites applications for financial assistance from individuals or organizations that wish to participate in this rulemaking proceeding on Part 581, Title II of the Cost Savings Act, and Section 112(d) of the Traffic Safety Act but are financially unable to do so. This invitation is issued pursuant to the recently established (41 FR 2863, January 13, 1977) one-year demonstration program for funding of individuals or organizations that desire to participate in designated NHTSA proceedings under the National Traffic and Motor Vehicle Safety Act of 1966, as amended, the Motor Vehicle Information and Cost Savings Act, as amended, and the Highway Safety Act of 1966, as amended.

All those applications submitted before the deadline specified above will be evaluated by a panel of NHTSA and DOT officials to determine whether each applicant is eligible to receive funding under the regulations. In general, an applicant is eligible if (1) it represents an interest the representation of which can reasonably be expected to contribute to a full and fair determination of the issues in the proceeding, (2) its participation is reasonably necessary to represent that interest, (3) it can competently represent that interest, and (4) it lacks sufficient financial resources to participate in the absence of such assistance. If more than one applicant representing the same or similar interest is deemed eligible, the panel either will select the applicant which can make the strongest presentation or, will select more than one applicant if the eligible applicants seek to present significantly different points of view or proposals. Payment is made as soon as possible after the selected applicant has completed its work and submitted a claim. Interested persons may obtain a copy of the regulations for the demonstration program from Jeannette Feldman, Office of the Administrator, NHTSA, 400 Seventh St. SW. Washington, D.C. 20590 (202–426–1590) regarding the July 28, 1977, hearing.

Each application submitted pursuant to this notice should identify which of these or other issues the applicant proposes to address and the manner in which the applicant proposes to do so.

Applicants are urged to submit their applications by the deadline specified above. Under the regulations for the demonstration program, consideration of late applications is at the discretion of the panel of officials that will review the applications.

The principal author of this notice is Karen Dyson, Office of Chief Counsel.

In consideration of the foregoing, it is proposed that the NHTSA take one of the following three courses of action (I, II, or III below):

I

In 49 CFR Part 581, Bumper Standard, § 581.5 would be amended as follows:

§ 581.5 [Amended]

(1) In § 581.5(b) the date "September 1, 1979" in the title and the text is changed to "September 1, 1980."

(2) In § 581.5(c)(8) the phrase "from September 1, 1978 to August 31, 1979" is changed to "from September 1, 1978 to August 31, 1980."

(3) In § 581.5(c)(10) the date "September 1, 1979" is changed to September 1, 1980."

II

The same amendments as proposed in I would be made, and in addition 49 CFR Part 575, Consumer Information Regulations, would be amended by adding a new § 575.107 to read as follows:

§ 575.107 Bumper performance.

(a) *Scope.* This section requires passenger car manufacturers to provide information on the damage and cost of repair of bumper systems that have been subjected to impact tests under 49 CFR Part 581.

(b) *Purpose.* The purpose of this section is to provide information to car buyers on the damage susceptibility and crashworthiness of passenger car bumper systems in order to enable them to assess the safety of those systems and their cost of repair.

(c) *Application.* This section applies to passenger cars and passenger motor vehicles manufactured from September 1, 1978 until August 31, 1980.

(d) *Definitions.* "Exterior damage" means any blemish or deformation of the exterior surface areas of the bumper system.

"Substructure damage" means any deformation of a component of the bumper system substructure which causes such component to be no longer capable of performing in the normal manner.

(e) *Requirements.* (1) Each manufacturer shall, following the prescribed testing for compliance with 49 CFR Part 581, measure the bumper face bar of each of its passenger car models to determine whether it meets the requirements of § 581.5(c)(11) of this chapter.

(2) If a vehicle does not meet the requirements of § 581.5(c)(11) of this chapter, the manufacturer shall examine the entire bumper system and determine the following information:

(i) Which bumper system components have incurred exterior damage.

(ii) Which bumper system components have incurred substructure damage.

(iii) The cost to replace each component that has incurred the type of damage described in paragraph (e)(2) (i) and (ii) of this section.

(iv) The number of hours of labor required to repair the damaged bumper system by replacement of the components described in paragraph (e)(2) (i) and (ii) of this section.

(v) The total cost of labor to accomplish the repair by replacement described in paragraph (e)(2)(iv) of this section, computed based upon the hourly labor cost figure supplied by the NHTSA.

(vi) An estimate of the lowest cost to repair the bumper system components described in paragraph (e)(2) (i) and (ii) of this section.

(3) Each manufacturer shall include either on the label required by Section 3 of the Automobile Information Disclosure Act (15 U.S.C. 1232), or on a separate label affixed to the right front window of each vehicle, and in each owner's manual, the following information:

(i) If the vehicle meets the requirements of § 581.5(c)(11) of this chapter, a statement that when subjected to crash tests at 5 mph the vehicle bumper system sustained "inconsequential" damage.

(ii) If the vehicle does not meet the requirements of § 581.5(c)(11) of this chapter, a statement that when subjected to crash tests at 5 mph the vehicle bumper system sustained damage which (*a*) to repair by replacement of damaged components would cost _____ dollars (including labor costs) and (*b*) to repair by the most economical means would cost _____ dollars.

(iii) A statement that the vehicle dealer has, at no charge, a booklet listing the type of damage incurred by the vehicle bumper systems of all passenger car models when subjected to 5 mph crash tests, and the cost to repair that damage.

(3) Each manufacturer shall supply to the NHTSA, by June 1 of each year, the following information concerning the passenger car models it intends to sell as manufactured in the model year beginning the following September:

(i) A description, in terms readily understandable by a prospective passenger car purchaser, of the exterior bumper system damage incurred following testing under Part 581 of this chapter.

(ii) The total cost, including labor, to repair by replacement the components damaged, as described in paragraph (e)(2) (i) and (ii) of this section.

(iii) The lowest cost, estimated by the manufacturer, to repair the components damaged, as described in paragraphs (e)(2) (i) and (ii) of this section.

(5) Each insurer of motor passenger cars shall, by June 1 of each year, beginning June 1, 1979, supply the NHTSA with specific information indicating the amount of insurance rate discount it will provide for certain described levels of bumper performance.

(6) The NHTSA shall compile the information described in paragraph (e)(4) and (5) of this section and print a booklet, as described in paragraph (e)(7) of this section. A copy of this booklet shall be supplied to each passenger car manufacturer by August 1 of each year.

(7) Each manufacturer shall publish a supply of booklets, in sufficient number to be distributed to all prospective purchasers, and distribute them by September 15 of each year to all dealers that offer their passenger cars for sale to the public. The booklets shall contain the following:

(i) The title "Bumper Damageability and Cost Informaton."

(ii) A first section listing all vehicle models that sustained "inconsequential" bumper system damage when subjected to crash tests at 5 mph.

(iii) A second section listing all other vehicle models in groups according to their interior size.

(iv) Next to each model entry in the second section shall a description of the exterior bumper system damage in terms readily understandable by prospective passenger car purchasers, the total cost, including labor, to repair by replacement the damaged bumper system components, the lowest estimated cost to repair the bumper system damage, and, beginning September 1, 1979, the issuance rate discount provided by the various passenger car insurers for certain secified levels of bumper performance.

(v) An hourly labor cost to be supplied to the manufacturers by the NHTSA and used in the booklet to compute the total labor costs for repair of a damaged bumper system.

(8) Each passenger car dealer shall provide to prospective passenger car purchasers, without charge, the "Bumper Damageability and Cost Information" booklet described in paragraph (e)(7) of this section.

(9) Each passenger car dealer shall maintain the booklets in a location that is easily observable by prospective passenger car purchasers.

(10) No passenger car dealer shall remove or alter the bumper damageability sticker affixed by a manufacturer pursuant to paragraph (e)(3) of this section.

III

§ 581.5 [Amended]

1. In 49 CFR Part 581, Bumper Standard, the dates "September 1, 1979" which appears in § 581.5(b) and § 581.5(c)(10), and "August 31, 1979" which appears in § 581.5(c)(8) are deleted, and the requirements of those paragraphs are indefinitely postponed.

2. The same amendment to 49 CFR Part 575 (§ 575.107) as proposed in II would be made except that subsection (c) would read as follows:

§ 575.107 Bumper performance.

• • • • •

(c) *Application.* This section applies to passenger cars and passenger motor vehicles manufactured on or after September 1, 1978.

Interested persons are invited to submit comments on the proposal. It is requested but not required that 10 copies be submitted.

In the case of comments that contain materials for which confidential treatment is requested, those materials should be deleted from the copies submitted to the docket. A copy of the complete comments should be submitted to the Office of Chief Counsel at the above address, with an indication of which portions of the comments are the subject of the request for confidentiality.

All comments received before the close of business on the comment closing date indicated above will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

(Secs. 103, 112, 119, Pub. L. 89–563, 80 Stat. 718 (15 U.S.C. 1392, 1401, 1407); Sec. 201, Pub. L. 92–513, 86 Stat. 947 (15 U.S.C. 1941); delegation of authority at 49 CFR 1.50 and 501.8.)

NOTE.—It is hereby certified that the economic and inflationary impacts of these proposed amendments have been carefully evaluated in accordance with Office of Management and Budget Circular A–107.

Issued on June 13, 1977.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 18—MARINE MAMMALS

Proposed Designation of Marine Otter as a Marine Mammal

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: The Director of the Service proposes to add the marine otter (*Lutra felina*) to the list of species formally designated as marine mammals for purposes of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407). The Director's judgment that it is appropriate to list the marine otter at this time is based on available biological data concerning the species. Although the marine otter is presently listed as an endangered species and is therefore protected by the Endangered Species Act of 1973 (16 U.S.C. 1531–1543), this proposed listing would afford the species additional protection.

DATE: Interested persons are invited to participate in this rulemaking by submitting written comments on or before July 18, 1977.

ADDRESS: Comments should be addressed to the Director (FWS/LE), United States Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036, and should make reference to file number REG 18–02–09. All comments timely received will be available for public inspection between 7:45 a.m. and 4:15 p.m., Monday through Friday, in Suite 600 of the Service's office at 1612 K Street, NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Rupert Bonner, Marine Mammal Coordinator, Division of Wildlife Assistance, United States Fish and Wildlife Service, Suite 1200, 1612 K Street, NW., Washington, D.C. 20006, 202–343–8961.

SUPPLEMENTARY INFORMATION: This proposed rule is issued under authority of section 112 of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1382). The Fish and Wildlife Service has determined that (1) this proposed rule is not a major Federal action significantly affecting the human environment and requiring preparation of an environmental impact statement and (2) that this proposed rule does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11949 and OMB Circular A–107.

Section 3(5) of the Act (16 U.S.C. 1362(5)) defines the term "marine mammal" as "any mammal which (A) is morphologically adapted to the marine environment (including sea otters and members of the orders Sirenia, Pinnipedia, and Cetacea), or (B) primarily inhabits the marine environment (such as the polar bear); and, for the purposes of this chapter, includes any part of any such marine mammal, including its raw, dressed, or dyed fur or skin." A species which satisfies this definition and is formally listed as a marine mammal in § 18.3 of Title 50, Code of Federal Regulations, is subject to the restrictions and protective provisions of the Act. This rulemaking would add the marine otter to the list of marine mammals in § 18.3.

The species primarily inhabits the coastal waters of South America, from Central Peru to Cape Horn, Chile, but is also known to ascend rivers to at least 650 meters above sea level. Two subspecies of the marine otter are recognized: the first from southern Chile and the second from northern Chile and Peru.

Only very limited population data are available with regard to the marine otter found at the northern end of the Chilean range, but in Peruvian waters the population is estimated to be as small as 200 to 300 specimens. In the Cape Horn and southern Tierra del Fuego region, the species is nearly extinct. (See Administration and Status Report of the Marine Mammal Protection Act of 1972, United States Fish and Wildlife Service (1975); (1976)). Copies of these reports may be obtained by writing to the Director, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240. For these reasons, the Marine Mammal Commission has independently recommended to the Director that the marine otter be formally listed in § 18.3.

DRAFTING INFORMATION

The principal author of this proposal is David R. Endres, a legal specialist for the Division of Law Enforcement, United States Fish and Wildlife Service.

PROPOSAL

It is proposed to amend the definition of "marine mammal" contained in § 18.3 of Part 18, Subchapter B, Chapter I of Title 50, Code of Federal Regulations, to read as follows:

§ 18.3 Definitions.

In addition to the definitions contained in section 3 of the Act (16 U.S.C. 1362) and in Part 10 of this subchapter, and unless the context requires otherwise, in this Part 18:

* * * * *

"Marine mammal" means any specimen of the following species, whether alive or dead, and any part thereof, including but not limited to, any raw, dressed, or dyed fur or skin:

Scientific name	Common name	Date listed
Ursus maritimus	Polar bear	Dec. 21, 1972
Enhydra lutris	Sea otter	Do.
Odobenus rosmarus	Walrus	Do.
Dugong dugong	Dugong	Do.
Trichechus manatus	West African manatee.	Do.
Trichechus inunguis	West Indian manatee.	Do.
Trichechus senegalensis	Amazonian manatee.	Do.
Lutra felina	Marine otter	June 16, 1977

NOTE.—Common names given may be at variance with local usage.

* * * * *

Dated: June 6, 1977.

LYNN A. GREENWALT,
Director, Fish and Wildlife Service.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

COMMITTEE ON JUDICIAL REVIEW

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Committee on Judicial Review of the Administrative Conference of the United States, to be held at 2 p.m., June 27, 1977 in the 7th floor Conference Room of Covington and Burling, 888 16th Street NW., Washington, D.C. 20006.

The Committee will meet to consider, for the third time, a study of "Judicial Review of Customs Service Actions," by Professor Peter M. Gerhart, as well as tentative recommendations stemming from the study.

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify the Administrative Conference of the United States, 2120 L Street NW., Suite 500, Washington, D.C. 20037, at least two days in advance. The Committee Chairman, if he deems it appropriate, may permit members of the public to present oral statements at the meeting; any member of the public may file a written statement with the Committee before, during or after the meeting.

For further information concerning this Committee meeting contact Jeffrey Lubbers (202-254-7065). Minutes of the meeting will be available on request.

RICHARD K. BERG,
Executive Secretary.

DEPARTMENT OF AGRICULTURE

Forest Service

GALLINA PLANNING UNIT

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for Galinna Planning Unit, USDA-FS-R3 FES Adm. 76-06.

The environmental statement considers a proposed plan of management for 59,780 acres of National Forest in the vicinity of Galinna, New Mexico. Rio Arriba and Sandoval Counties.

The final environmental statement was transmitted to CEQ on June 8, 1977.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, So. Agriculture Bldg., Rm. 3230, 14th and Independence Ave. SW., Washington, D.C. 20250.

USDA, Forest Service, Southwestern Region, 517 Gold Avenue SW., Albuquerque, New Mexico 87102.

Santa Fe National Forest, Federal Building, Santa Fe, New Mexico 87501.

A limited number of single copies are available upon request to the Forest Supervisor, Santa Fe National Forest, P.O. Box 1689, Santa Fe, New Mexico 87501.

Copies of the environmental statement have been sent to various Federal, state, and local agencies as outlined in the CEQ guidelines.

GARY E. CARGILL,
Deputy Regional Forester, Resources Region 3.

CIVIL AERONAUTICS BOARD

[Docket 30779; Order 77-6-62]

AIR CHARIOT LTD. AND McCULLOCH INTERNATIONAL AIRLINES, INC.

Order Setting Application for Hearing

On April 22, 1977, Air Chariot Ltd. (Chariot) and McCulloch International Airlines, Inc. (MIA) filed a joint application requesting approval, pursuant to section 408 of the Act, of a Purchase Agreement entered into on February 11, 1977, between Chariot and FGH Financial Corp. (FGH) which provides for the transfer to Chariot of 81 percent of the outstanding stock of MIA, now held by FGH, and three Lockheed Electra aircraft and other FGH assets.[1] Chariot also requests section 408 approval of a mutually dependent Purchase Agreement entered into on March 29, 1977, between Chariot and McCulloch Properties, Inc. (Properties) which provides for the transfer to Chariot of the 19 percent balance of MIA's outstanding stock.

Certain other aspects of the transactions in question require Board approval under sections 408 and 409 of the Act. Chariot and MIA request approval of a proposed dry lease of a B-720 aircraft by Chariot to MIA, Chariot having entered into a purchase agreement to buy the aircraft upon Board approval of the basic Purchase Agreements. Approval is also sought for certain interlocking relationships subject to Board approval under section 409 of the Act.

[1] On May 20, 1977, the joint applicants filed a Motion for Expeditious Issuance of Notice of Prehearing Conference and Establishment of Other Procedural Dates. Except to the extent granted herein, the Motion will be denied.

which may arise by reason of approval of the Purchase Agreements as well as certain interests shareholders of Chariot have in Jet Avia, Ltd. (Jet), a registered air taxi operator. Board approval is also sought for the common control relationship between Jet, on the one hand, and Chariot and MIA, on the other. Jet, along with MIA and Chariot, requests an exemption from the Board's Economic Regulation, 14 CFR 298, which would otherwise prohibit the continuation of the air taxi operations after consummation of the Purchase Agreements. Finally, Chariot proposes, pursuant to the Board's Economic Regulations, 14 CFR 215, to change the name of MIA, such name change being a condition of the Chariot/Properties Purchase Agreement.

No comments in response to this application were filed.[2]

Upon consideration of the pleadings and all the relevant facts, we have decided to set the joint application of Chariot and MIA for hearing.

Accordingly, It is so ordered. That: 1. The joint application of Air Chariot Ltd. and McCulloch International Airlines, Inc., Docket 30779, be and it hereby is set for hearing, at a time and place hereafter to be designated; 2. The issues in the proceeding instituted by 1 above shall include the following:

(a) Will the proposed acquisition of 81 percent of the stock of McCulloch International Airlines, and the aircraft and the assets set forth in the agreement by the applicants, by Air Chariot Ltd. through FGH Financial Corp. and of 19 percent of McCulloch International Airlines' stock through McCulloch Properties, Inc. be consistent with the public interest under sections 102 and 408(b) of the Federal Aviation Act of 1958, as amended?

(b) Will the proposed acquisition result in creating a monopoly or monopolies and thereby restrain competition or jeopardize another air carrier not a party to the acquisition?

(c) Will approval of the proposed acquisition create interlocking relationships within the meaning of section 409 of the Act and, if so, shall these rela-

[2] Teamsters Local No. 2707 filed a formal request to be made a party to Docket 30779. The request will be granted.

[3] These issues do not encompass the question of the proposed dry lease of a B-720 by Chariot to MIA and the proposal to change MIA's name, neither of which need be resolved in an evidentiary hearing. However, facts concerning these questions may be developed during the course of the proceeding, and the Board proposes to separately resolve them if the proposed agreement is approved.

tionships be approved as not adverse to the public interest?

(d) If the proposed acquisition is approved, what terms, conditions, and limits, if any, shall the Board apply?

(e) If the proposed acquisition is approved, shall Jet Avia Ltd. be given an exemption to permit it to continue as an air taxi operator under section 298 of the Board's Regulations?

3. McCulloch International Airlines, Air Chariot Ltd., Jet Avia Ltd., FGH Financial Corp., McCulloch Properties, Inc., and Teamsters Local No. 2707 be and they hereby are made parties to the proceeding in Docket 30779;

4. Motions to consolidate and petitions for reconsideration of this order shall be filed 20 days from the service date of this order and answers shall be filed 5 days thereafter; and

5. The joint applicants' Motion for Expeditious Issuance of Notice of Prehearing Conference and Establishment of Other Procedural Dates be and it hereby is granted to the extent indicated herein and denied in all other respects.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.77-17287 Filed 6-15-77;8:45 am]

[Docket Nos. 28985, 21389; Order 77-6-65]

ALLEGHENY AIRLINES, INC.

Order to Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 10th day of June, 1977.

By Order 74-11-45, November 8, 1974, Docket 21389, the Board authorized Allegheny Airlines, Inc., to suspend service at Kokomo-Logansport-Peru, Indiana (Kokomo), for a 7-year period.[1] The authority was made subject to a number of conditions, including that Air Wisconsin, Inc. (or another acceptable Part 298 carrier), provide a minimum level of service and that Allegheny notify the Board within 30 days of its plans for service at Kokomo in the event that Air Wisconsin ceased providing regularly scheduled commuter service.

On February 19, 1976, Air Wisconsin notified the City of Kokomo that it intended to terminate its service effective April 1, 1976. By the terms of its suspension Allegheny would have been required to resume service on May 1, 1976. On March 2, 1976, Allegheny filed a petition in Docket 28985 requesting the deletion of Kokomo from its certificate for Route 97. On March 17, 1976, Allegheny filed two petitions: one in Docket 28985 requesting the issuance of an order directing all parties to show cause why Allegheny's certificate should not be amended to delete Kokomo, and one in Docket 21389 requesting modification of Order 74-11-45 so as to eliminate the substitute-service requirement imposed therein until the Board rules on the deletion request in Docket 28985. By Order 76-4-185, April 30, 1976, the Board (1) deferred action on Allegheny's petition for an order to show cause and on its deletion application and (2) waived for 90 days the requirement that Allegheny resume Kokomo service. Further, the Board suggested that Allegheny seek another Part 298 replacement carrier for Kokomo during the 90-day period and, if unable to reasonably secure such replacement service, describe its efforts in this regard in any further request for extension of its suspension authority.

On July 9, 1976, Allegheny filed a petition for extension of its suspension at Kokomo, without replacement, for an indefinite time period pending Board action on its deletion application. By Order 76-7-128, served August 12, 1976, the Board denied Allegheny's request for an indefinite suspension and granted it 30 days to prepare to reinstitute service or find an acceptable replacement carrier. On August 18, 1976, Allegheny filed a petition for reconsideration of Order 76-7-128 requestiong a six-month extension of its suspension authority at Kokomo, without replacement, until March 1, 1977. By Order 76-8-144, August 27, 1976, the Board extended Allegheny's suspension until March 1, 1977 in order to afford the carrier and Kokomo additional time to explore solutions to the problem of air service at Kokomo.

On February 8, 1977, Allegheny filed an application requesting (1) extension of its suspension authority at Kokomo until 60 days after final decision on its application to delete Kokomo in Docket 28985 and (2) that the Board act expeditiously and grant Allegheny's application for the deletion of Kokomo.[2]

In support of its requests, Allegheny states, inter alia, that: CV-580 service by Allegheny in the Kokomo-Indianapolis market would produce substantial losses;[3] since Convairs are used primarily on the eastern portion of Allegheny's system and Allegheny is in the process of eliminating CV-580's from its fleet, the resumption of Kokomo service would require the ferrying of a Convair to Indianapolis solely for the purpose of serving that point; Skystream Airlines, a commuter air carrier, provides nonstop and one-stop service to Chicago, Detroit, Indianapolis, and South Bend; Kokomo is not isolated from the air transportation network, having convenient access to three major airports (Indianapolis, Fort Wayne, South Bend); Allegheny has not served the community for several years and Kokomo does not expect or want Allegheny to provide large-aircraft service to the local airport; and, under these circumstances, Kokomo should be deleted from Allegheny's certificate.

No answers opposing Allegheny's application were filed.

The Kokomo Board of Aviation Commissioners (Kokomo) filed an answer stating that it has no objection to Allegheny's request for an extension of its suspension pendente lite. Kokomo further stated that it has always been the community's desire to be served by a commuter air carrier providing a reasonable pattern of service; that provision of CV-580 service by Allegheny at Kokomo would not be in the best interests of the community and would be uneconomical for Allegheny; and that, until final decision on Allegheny's deletion request, Kokomo prefers to function with a commuter air carrier in lieu of Allegheny's CV-580's.

Upon consideration of the pleadings and all relevant facts, we have decided to issue an order to show cause proposing (1) to authorize the suspension of Allegheny's service at Kokomo and (2) dismiss Allegheny's application and motion, in Docket 28985, for an order to show cause the deletion of Kokomo.

We tentatively find and conclude that the public convenience and necessity require the amendment of Allegheny's certificate for Route 97 so as to suspend Kokomo thereon.[4] As a result of events occurring subsequent to Allegheny's renewal request, specifically the current consideration by Congress of legislative proposals for providing service to small communities, we believe that it is appropriate to suspend, rather than to delete, Allegheny's service obligation. The facts and circumstances which we have tentatively found to support our proposed ultimate conclusions appear below.

Kokomo has not been a strong traffic-generating point. Since 1965, enplanements have exceeded 15 per day only twice, in 1966 (16.9) and 1969 (16.4).[5] With the introduction of Air Wisconsin's more frequent small-aircraft service in 1969, the number of passengers using Air Wisconsin's service declined from 9,589 passengers in 1970 to only 4,544 passengers in 1975, or an average of only 2.6 passengers per flight. This level of traffic cannot economically support certificated service with the 50-seat aircraft that would be used by Allegheny.

Further, the Board has already found that service by Allegheny at Kokomo would be uneconomic. See Order 69-11-8, November 4, 1969. There, the Board found that suspension would reduce Allegheny's economic losses by approximately $230,000. Due to the declining traffic at Kokomo, the losses the carrier could expect to incur were it required to restore service with 50-seat CV-580 aircraft would be substantially greater than the losses forecast in 1969.

Nor is there any reason to believe that the traffic experience and the financial results for service by Allegheny at Kokomo have any reasonable chance of meaningful improvement in the foreseeable future, especially in light of the ample and convenient transportation alternatives currently available to Kokomo travelers. Skystream Airlines provides Beech-99 service between Kokomo and Detroit, Chicago, South Bend, and Indianapolis. Moreover, Kokomo has access to a medium hub, Indianapolis (58 road miles and 70 minutes driving time), and two small hubs, Fort Wayne (78 road miles and 94 minutes driving time), and South Bend (88 road miles and 106 minutes driving time). In addition, Kokomo receives motor coach and passenger rail service to Chicago, Indianapolis, and other Midwest cities. Thus, the city is not isolated from the national air transportation network. Consequently, we tentatively find and conclude that restoration of large-aircraft service at Kokomo by Allegheny will produce benefits that are too limited when compared with the costs involved, to warrant continuation of certificated local service at that point and that deletion of Kokomo would be consistent with a long line of Board cases involving the termination of certificated service following unsuccessful operations.[6]

Nonetheless, we have tentatively determined that as a matter of policy Allegheny's certificate obligation should be suspended rather than deleted and, therefore, that Allegheny's deletion application and motion for an order to show cause in Docket 28985 should be dismissed. Our determination stems from the fact that the Board has recently proposed legislation which, if adopted by Congress, would authorize the Board to implement a new Small Community Service Program.[7] Under the program, all small communities which cannot support certificated air service but which are currently named in the certificates of air carriers (either active or suspended points) will be initially eligible for federally subsidized service.[8] Kokomo has been included in the list of eligible communities that accompanied the Board's legislative proposal. An alternate approach, contained in S. 292, introduced by Senators Pearson and Baker, would provide Federal assistance for air service to small communities through the limited certification of commuter operators. Both programs have a common policy theme—i.e., all small communities currently named in certificates of public convenience and necessity would be eligible for Federally supported service irrespective of traffic generation or cost. While we have no doubt that any newly enacted legislation could go back and "pick up" points recently deleted, we believe it is preferable, from an administrative standpoint, to retain currently certificated points which no longer justify the continued imposition of a service obligation on a local service carrier as suspended points in the carrier's certificate. Consequently, we tentatively find that the public convenience and necessity require the suspension of Allegheny's authority at Kokomo. Finally, the community preference for commuter air carrier service in lieu of service by Allegheny with CV-580's lends support to our decision that the show-cause procedure is appropriate.[9]

Interested persons will be given 30 days following the date of adoption of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If any evidentiary hearing is requested, the objector should state in detail why such hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

Accordingly, it in ordered, That: 1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein and amending the certificate of public convenience, and necessity of Allegheny Airlines, Inc., for Route 97 so as to suspend Kokomo-Logansport-Peru, Inc., thereon, and dismissing the application of Allegheny in Docket 28985 and all motions filed therein;

2. Any interested persons having objections to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendments set forth herein shall, within 30 days after adoption of this order, file with the Board and serve upon all persons listed in paragraph 5 a statement of objections together with a summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections; and answers to such objections may be filed 10 days thereafter;[10]

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. A copy of this order shall be served upon Allegheny Airlines, Inc.; Air Wisconsin, Inc.; Skystream Airlines, Inc.; Governor, State of Indiana; Mayor, City of Kokomo; Mayor, City of Logansport; Mayor, City of Peru; Airport Manager, Kokomo Municipal Airport; Indiana Aeronautics Commission; and the Postmaster General.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

PHYLLIS T. KAYLOR,
Secretary.

ARIZONA SERVICE INVESTIGATION

Notice of Prehearing Conference

Notice is hereby given that a prehearing conference in the above-entitled matter is assigned to be held on July 13, 1977, at 9:30 a.m. (local time), in Room 1003, Hearing Room D, Universal North Building, 1875 Connecticut Avenue NW., Washington, D.C., before Administrative Law Judge Frank M. Whiting.

In order to facilitate the conduct of the conference, parties are instructed to submit one copy to each party and six copies to the Judge of (1) proposed statements of issues; (2) proposed stipulations; (3) proposed requests for information and for evidence; (4) statements of positions; and (5) proposed procedural dates. The Bureau of Operating Rights will circu-

---

[1] The original suspension authority was granted for a period of 5 years by Order 69-11-8, November 4, 1969. The order also granted suspension authority at Marion, Indiana, but Marion was subsequently deleted from Allegheny's certificate for Route 97 by Order 72-10-26, October 10, 1972. The original suspension was subject to the condition that replacement service would be provided by air taxi operators that operated at least three round trips daily between Kokomo and Chicago.

[2] On February 16, Allegheny filed a request for a waiver of the timeliness of filing requirements of section 377.10(c) of the Board's regulations so as to automatically extend the effectiveness of the authority granted by Order 76-8-144 beyond March 1, pursuant to 5 U.S.C. 558(c), pending final decision on its suspension application. Allegheny's waiver request was granted by Order 77-2-127, February 25, 1977.

[3] This is the smallest aircraft in Allegheny's fleet.

[4] We also tentatively find that Allegheny is fit, willing, and able to properly perform the air transportation authorized by the certificate proposed to be issued herein and to conform to the provisions of the Act and the Board's rules, regulations, and requirements thereunder.

[5] Enplanements were: 5,085 in 1969 (both Allegheny and Air Wisconsin); 4,894 in 1970; 3,262 in 1971; 2,935 in 1972; 2,635 in 1973; 2,529 in 1974 and 2,219 in 1975.

[6] See Eastern Air Lines Deletion of Bowling Green, Ky., Order 72-7-25 July 7, 1972, *aff'd* sub nom. Bowling Green-Warren County v. CAB, 479 F. 2d 553 (6th Cir. 1972). See, also, Eastern Air Lines Deletion of Rome, Ga., Order 72-1-60, January 18, 1972; Eastern Air Lines Waycross Deletion Case, Order 72-5-50, May 12, 1972; Allegheny Airlines Deletion of Marion, Ind., Order 72-10-26, October 10, 1972; Frontier Airlines Deletion of Moab, Utah, Order 76-10-84, October 19, 1976; and most recently, Allegheny Airlines Service to Glen Falls, Order 77-2-49, February 10, 1977.

[7] The Board's program before the Senate Aviation Subcommittee on March 21, 1977.

[8] Under the Board's proposal, points which are currently not named in carrier certificates will be eligible for addition to the program after a three-year phase in period.

[9] It is found that the action herein will not constitute a "major" Federal action significantly affecting the quality of the environment within the meaning of the National Environmental Policy Act of 1969, inasmuch as Allegheny has no operations at Kokomo.

[10] All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections, and no further such motions, requests, or petitions for reconsideration of this order will be entertained.

[11] Statement of Commissioner Johnson, dissenting, filed as part of the original document.

late its material on or before June 24, 1977, and the other parties on or before July 6, 1977. The submissions of the other parties shall be limited to points on which they differ with the Bureau, and shall follow the numbering and lettering used by the Bureau to facilitate cross-referencing.

Dated at Washington, D.C., June 10, 1977.

[Docket No. 25659; Order 77-6-37]

PIEDMONT AVIATION, INC.

Investigation of the Local Service Class Subsidy Rate; Order Requiring Subsidy Refund

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 8th day of June, 1977.

By this order, the Board is requiring Piedmont Aviation, Inc. (Piedmont), to make a refund to the Civil Aeronautics Board in the amount of $1,788,000 which reflects the effects of completely removing the carrier's tax allowance from its subsidy computations for calendar year 1975. The factual support for the decision is set forth below.

Section III. A. of the Rate Formula of Class Rate VII, as adopted in Order 74-1-123, issued January 24, 1974, states that a carrier is in a tax position only if the carrier is incurring a liability under the Internal Revenue Code of 1954 for the payment of Federal income taxes. Section III. B. of the Rate Formula provides that a tax allowance shall be payable only to those carriers determined to be in a tax position, with such a determination to be based on an evaluation of the carrier's filed actual Federal income tax return, as amended and/or modified, or on the basis of a pro forma tax return filed with the Board pursuant to other parts of the Rate Formula.

As an integral part of the third and fourth reviews of Class Rate VII,[1] the Board provided Piedmont, among others, with a tax allowance in anticipation of a Federal tax liability for calendar year 1975. This allowance was provided because Piedmont had made a showing in the base period of Class Rate VII that it would incur a Federal tax liability at that time,[2] and subsequent examinations of Piedmont's profitability mandated the retention of the carrier's tax allowance. However, Piedmont submitted to the Board a pro forma tax return for calendar year 1975 showing both a net loss for its airline division and an overall corporate net loss.[3] In addition, a recent audit,[4] conducted to verify the accuracy of Piedmont's reports, also revealed that the airline had a net loss for calendar year 1975. Consequently, under the provisions of Class Rate VII, the carrier is not entitled to a tax allowance for calendar year 1975.[5]

During calendar year 1975, Piedmont was provided with a tax allowance of $1.248 million for its eligible operations. Pursuant to Section III. G.4., the carrier is required to refund this amount pertaining to the tax allowance.

The Board has also recomputed Piedmont's subsidy rates effective January 1—June 30, 1975, and July 1—December 31, 1975, excluding the tax allowance. (See Appendices A and B, respectively.) Pursuant to authority in Section IV. C. 8.[6] of the Rate Formula, Piedmont's profit offset from ineligible services has been recomputed without a tax allowance. The removal of taxes from this computation results in increased ineligible profits to be shared. The government's share of these increased ineligible profits amounts to $1.134 million.

Because of similar authority found in Section VIII. B. 8. of the Rate Formula, Piedmont's eligible improvement/deficiency has been recomputed for the same review periods, without a tax allowance, which produces a smaller improvement in the third review period and a smaller deficiency in the fourth review period. However, due to the provision that the eligible deficiency can be used to offset ineligible profits, the recomputation indicates that an increase of $594,000 in the eligible deficiency should be recognized. Netting this amount against the increased ineligible offset of $1.134 million produces a $.54 million refund which, in addition to the tax allowance refund of $1.248 million, provides for a total refund of $1.788 million.

[1] See Orders 74-12-119, issued December 30, 1974, 74-12-120, issued December 30, 1974, 75-7-64, issued July 14, 1975, and 75 8 41 issued August 8, 1975.

[2] See order 73-10-1, issued October 1, 1973.

[3] The pro forma tax return was submitted pursuant to directions contained in Order 76-4-101, issued April 20, 1976, pertaining to the establishment of Class Rate VII.

[4] All other local service carriers were similarly audited.

[5] This order does not affect the tax allowance paid to Piedmont for the period from January 1, 1976, to June 30, 1976, pursuant to Order 76-2-39, issued February 11, 1976, or the tax allowance being paid on and after July 1, 1976, pursuant to Order 76-12-159, issued December 30, 1976, which fixed the final rate for Class Rate VIII.

[6] "Federal taxes to be recognized in Section IV. B. 1 (b) shall be derived based on the following formula:

$$R-I=A,\ \frac{A}{X}=Y;\ Y-A=T$$

where:

R=Return computed in Section IV. B. 1(a);
I=Allocated interest expense;
A=Amount subject to tax;
X=Complement of federal tax rate;
Y=Amount subject to tax plus tax; and,
T=Tax.

Federal tax computations under this Section shall be subject to the applicable provisions and definitions set forth under Section III of this rate. However, no taxes shall be provided for ineligible services unless a carrier has excess profits after taxes available for offset to reduce the need of the eligible services."

The recomputation of the effective subsidy rates employed herein is consistent with prior practice under Class Rate VII.[7]

Based upon the foregoing, the Board finds and concludes that Piedmont was not in a tax position during calendar year 1975 and, therefore, was not entitled to a tax allowance for the period. Consequently, Appendix L of Order 74-12-120 and Appendix L of Order 75-7-64 will be amended to reflect our findings and conclusions stated herein, and Piedmont will be required to refund $1,788,000.[8] (See Appendix C.)

ACCORDINGLY, *it is ordered*, that:

1. Appendix L to Order 74-12-120, as it applies to Piedmont Aviation, Inc., is amended as follows: The daily tax rate shown under "Federal Taxes Section III" is eliminated; the daily rate under "Eligible Improvement/Deficiency" is amended to read —978.08 and, the daily rate under "Ineligible Profit Offset Section IV" is amended to read —6.284.93;

2. Appendix L to Order 75-7-64, as it applies to Piedmont Aviation, Inc., is amended as follows: The daily tax rate shown under "Federal Taxes Section III" is eliminated; the daily rate under "Recognized Eligible Improvement/Deficiency" is amended to read +3,158.90; the daily rate under "Ineligible Profit Offset Section IV" is amended to read —3,158.90; and, the daily rate in footnote 6 is amended to read —3,767.12;

3. Piedmont Aviation, Inc., is hereby ordered to refund to the Civil Aeronautics Board $1,788,000;

4. This order shall become effective on the fifteenth day after service hereof, unless prior to that date exceptions, together with supporting reasons, shall have been filed with the Board by any party to this proceeding. If exceptions and supporting reasons are filed by any party within the prescribed time, the effective date of this order shall be stayed, only for the party or parties filing exceptions, pending further action by the Board; and

5. This order shall be served upon all parties to this proceeding.

[7] See Orders 74-7-76, July 18, 1974, 74-12-120, December 30, 1974, 76-2-111, February 27, 1976, and 77-4-5, April 1, 1977.

[8] The details of the method of reimbursement will be formulated by the CAB Comptroller.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

PHYLLIS T. KAYLOR,
Secretary.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

CHILDREN'S HOSPITAL RESEARCH FOUNDATION

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00114. Applicant: Children's Hospital Research Foundation of the Children's Hospital Medical Center, Elland and Bethesda Avenue, Cincinnati, Ohio 45229. Article: Electron Microscope, Model EM 400 with High Tilt Goniometer and Accessories. Manufacturer: Philips Electronic Instruments, NVD, The Netherlands. Intended use of article: The article is intended to be used in the following investigations: (1) Studies of the ultrastructural pathology of Reye's Syndrome and related hepatic encephalopathies including: High resolution analysis of the ultrastructure of mitrochondrial membranes and mitochondrial matrix protein structure, a search for virus particles and provirus structures in liver, muscle and brain tissues, a classification of influenzalike viral agents isolated from the tissues of Reye's Syndrome patients by passage in embryonated eggs, monkey kidney tissue culture fibroblasts and ferrets, and a search for influenza virus proteins in affected tissues using ferritin labelled and peroxidase labelled specific immune globulins, (2) Study of the ultrastructural pathology of brain biopsies of infants and children with unexplained, progressive, severe brain disorders. (3) Study of the ultrastructural pathology of the jejunal mucosa of infants affected by intractable diarrhea, (4) Study of the ultrastructure of the bile canaliculus in congenital disorders of biliary secretion including a study of the anatomy of pericanalicular microfibrils and microtubules, and (5) a study of the plasma membrane of the duodenal mucosal epithelium during calcium absorption to determine the significance of microvillus dense bodies. In addition, the article will be used in the training of postdoctoral fellows in pediatric gastroenterology.

COMMENTS: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (November 26,

1976). Reasons: The foreign article is equipped with a eucentric goniometer stage and a guaranteed resolution of 5 Angstroms (point to point). The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated May 23, 1977 that the characteristics of the article described above are pertinent to the applicant's intended purposes. HEW further advises that it knows of no domestic instruments which provided an equivalent eucentric goniometer and resolving power at the time the article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

FOREIGN AVAILABILITY SUBCOMMITTEE OF THE COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

Open Meeting

The place and time for the meeting of the Foreign Availability Subcommittee of the Computer Systems Technical Advisory Committee scheduled for Tuesday, July 12, 1977, at 9:30 a.m. in Room 6511 has been changed to 1:30 p.m. in Room 5611, Main Commerce Building. The agenda and other information relating to the Subcommittee meeting, as published in the FEDERAL REGISTER, (42 FR 2934), on Tuesday, June 7, 1977, remain unchanged.

Dated: June 13, 1977.

RAUER H. MEYER,
Director, Office of Export Administration, Bureau of East-West Trade, Department of Commerce.

LEHIGH UNIVERSITY AND UNIVERSITY OF COLORADO

Consolidated Decision on Applications For Duty-Free Entry of Accessories for Foreign Instruments

The following is a consolidated decision on applications for duty-free entry of accessories for foreign instruments pursuant to Section 6(c) of the Educational Scientific and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301). (See especially Section 301.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00067. Applicant: Lehigh University, Metallurgy and Materials Science Dept., Whitaker Laboratory Bld. No. 5, Bethlehem, Pa. 18015. Article: PW6570/00C Scanning Attachment for EM 300, Adaptor; and accompanying accessories. Manufacturer: Philips Electronics Instruments NVD, The Netherlands. Intended use of article: The article is an attachment to an existing electron microscope that provides the facility to scan the electron beam across the specimen with a beam diameter from 250 to 2.5 nm. The STEM facility will be used to investigate the following materials problems:

(1) Solute redistribution occurring during selected phase transformations.

(2) Solute profiles occurring in meteorites.

(3) The fine scale structure of iron meteorites which have been shocked and cosmically reheated.

(4) The fine structure of hot-pressed and as-crept specimens of SiC and Si_3N_4 manufactured from the powder.

(5) The identification of particles in the Bi-MnBi directionally solidified eutectic.

(6) Theecrystalline structure of polyethylene.

The equipment will also be used in a course in Electron Metallography to introduce students to the most recent advances in electron optical applications. Application received by Commissioner of Customs: December 19, 1976. Advise submitted by the Department of Health, Education, and Welfare on: March 22, 1977.

Docket number: 77-00147. Applicant: University of Colorado, Department of Buying and Contracting, Willard Administrative Center 160, Boulder, Colorado 80309. Article: Ultrahigh Resolution Scanning System EM-100C ASID-4D and accessories. Manufacturer: JOEL Ltd., Japan. Intended use of article: The article is an accessory to be used in conjunction with an existing electron microscope in a wide variety of research and teaching projects. Investigations to be carried out involve the study of the structure of biological cells and tissues including nerve tissues, phenomena associated with neurological diseases; tumors and comparable normal tissues; and various types of plant cells especially valuable in displaying fundamental features of cell division and morphogenesis. The article will be used primarily in the course "MCDB 490/590: Workshop in Electron Microscopy", which introduces students to standard preparative techniques for both scanning and transmission electron microscopy. Application received by Commissioner of Customs: March 3, 1977. Advice submitted by the Department of Health, Education, and Welfare on: May 24, 1977.

COMMENTS: No comments have been received with respect to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, is being manufactured in the United States. Reasons: The applications relate to compatible accessories for instruments that have been previously imported for the use of the applicant institutions. The articles are being manufactured by the manufacturers which produced the instruments with which they are intended to be used. We are advised by the Department of Health, Education, and Welfare in the respectively cited memoranda that the accessories are pertinent to the applicants' intended uses and that it knows of no comparable domestic articles.

The Department of Commerce knows of no similar accessories manufactured in the United States which are interchangeable with or can be readily adapted to the instruments with which the foreign articles are intended to be used.

OHIO STATE UNIVERSITY

Decision on Application For Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00115. Applicant: The Ohio State University, College of Pharmacy, 500 W. 12th Avenue, Columbus, Ohio 43210. Article: Electron Microscope, Model EM 9S-2 including spare parts. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used in the course Pharmacy 894 which is designed primarily for educating graduate students in the medical biological sciences in the techniques and interpretations of electron microscopic data. The students will devote a brief initial period in learning how to operate the electron microscope. The bulk of the time will be devoted to instruction of students in the techniques of preparation of the sample for electron microscopic examination and interpretation of electron micrographs.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (May 17, 1976). Reasons: The foreign article is a relatively simple, easy to operate, medium resolution electron microscope designed for confident use by beginning students with a minimum of detailed programming. The article provides 7 Angstroms point to point resolution, an accelerating voltage of 60 kilovolts (KV), and low distortion magnifications from 140-60,000X (Magnifications of 140 to 1000X are within the normal, light microscopic range). Thus the article covers the range of light and electron microscopy. The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated May 3, 1977 that simplicity and ease of operation are pertinent to the purposes for which the foreign article is intended to be used. HEW also advises that it knows of no domestic instrument or apparatus which provided the pertinent features of the article at the time the article was ordered. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

U.S. ARMY MEDICAL RESEARCH INSTITUTE OF INFECTIOUS DISEASES AND GEORGE WASHINGTON UNIVERSITY

Consolidated Decision on Applications For Duty-Free Entry of Isotachophoresis Apparatus

The following is a consolidated decision on applications for duty-free entry of Isotachophoresis Apparatus pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301). (See especially Section 301.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 77-00122. Applicant: U.S. Army Medical Research Institute of Infectious Diseases (USAMRIID), Bacteriology Division, Suite B1, Building 1425, Fort Detrick, Frederick, MD 21701. Article: Tachophor, Model LKB 2127-001 with accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of biological molecules including: proteins, peptides, metabolites from plant and animal tissues. Investigations will include studies on in vitro and/or in vivo reactions between molecules following increase, decrease or absence of one or all of the reacting molecules. Application received by Commissioner of Customs: February 9, 1977. Advice submitted by the Department of Health, Education, and Welfare on: May 23, 1977. Article ordered: January 27, 1977.

Docket Number: 77-00138. Applicant: HEW/FDA National Center for Toxicological Research, Jefferson, Arkansas 72079. Article: Tachophor complete, with Power Supply Unit, Analyzer Unit equipped with Perspex Electrode Houses, Lamps and Filter. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of biological molecules including proteins, peptides, and metabolites from plant and animal tissue. Investigations will include studies on in vitro and/or in vivo reactions between biological molecules following increase, decrease, or absence of one or all of the reacting molecules. The objective pursued in the course of these investigations is to understand the interrelationship between biological molecules and to correlate these changes with chemical alterations seen in human diseases. Application received by Commissioner of Customs: February 28, 1977. Advice submitted by the Department of Health, Education, and Welfare on: May 23, 1977. Article ordered: December 28, 1977.

Docket Number: 77-00145. Applicant: The George Washington University, Lab for Virus and Cancer Research, Department of Medicine, Ross Hall, Room 526, 2300 I St. NW., Washington, D.C. 20037. Article: Tachophor (LKB-2127-001) complete, with Power Supply Unit, Analyzer Unit and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article will be used for the elucidation of the roles of various substances on a molecular level in disease states, particularly in regard to cancer, and to provide information necessary to design separatory systems capable of recovering such substances from complex mixtures of substances in sufficient quantity and integrity to allow for their use in diagnostic systems and for further immunological and biochemical analyses. The article will also be used to quantitate subtle alterations in the materials used in experiments and to monitor experiments in other systems. Application received by Commissioner of Customs: March 3, 1977. Advice submitted by the Department of Health, Education, and Welfare on: May 23, 1977. Article ordered: February 2, 1977.

Comments: No comments have been received in regard to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, was being manufactured in the United States at the time the articles were ordered. Reasons: Each foreign article provides sensitivities in nanomole quantities with sample volumes of 0.1 to 50 microliters. The Department of Health, Education, and Welfare (HEW) advises in the respectively cited memoranda that the capability described above is pertinent to the purposes for which each of the foreign articles to which the foregoing applications relate is intended to be used. HEW also advises that it knows of no domestic instrument or apparatus of equivalent scientific value to each of the foreign articles for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which was being manufactured in the United States at the time the articles were ordered.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

National Oceanic and Atmospheric Administration

TRANSFER OF A FISHING VESSEL TO FOREIGN OWNERSHIP

Receipt of Application for Approval

Notice is hereby given that on May 24, 1977, the Maritime Administration of the Department of Commerce received an application from Messrs. Richard J. and Raymond L. Wrathell, 15104 N. 19th Street, Lutz, Florida 33549, for the approval of the sale of the 30.3' registered length fishing vessel R & R, O.N. 280321, to Mr. Pham Cong Hanh, 66069 49th Avenue, St. Petersburg, Florida and Dung Viet Mai, 1572 Delaware Avenue, St. Petersburg, Florida. Such approval is required by Sections 9 and 37 of the Shipping Act, 1916, as amended (36 U.S.C. 808.835), because the applicants are citizens of Vietnam. The vessels will be modified to be admeasured at under 5 net tons and will be operated primarily in the fishery for shrimp.

The Maritime Administration is the Federal agency responsible for the approval or disapproval of applications submitted pursuant to Sections 9 and 37 of the Shipping Act. However, the Maritime Administration customarily solicits the views of the National Marine Fisheries Service before deciding on an application relating to a fishing vessel, and has sought the views of the Service with regard to this application.

Accordingly, the Service solicits the written comments of interested persons in regard to this application. Such comments should be address to the Director, National Marine Fisheries Service,

Washington, D.C. 20235, and received no later than July 18, 1977. All communications received by such date will be considered before action is taken with respect to this application. No public hearing is contemplated at this time.

Dated: June 13, 1977.

JACK W. GEHRINGER,
Deputy Director, National Marine Fisheries Service.

[FR Doc.77-17265 Filed 6-15-77;8:45 am]

COMMUNITY SERVICES ADMINISTRATION

COMMUNITY FOOD AND NUTRITION PROGRAM

Solicitation of Applications for Grants for the Community Food and Nutrition Program Funded Under Section 222(a)(5) of the Economic Opportunity Act, as Amended

Notice is hereby given that the Community Services Administration (CSA) is soliciting applications for funding Community Food and Nutrition Program (CFNP) projects with Fiscal Year 1977 funds.

All policies and procedures promulgated by CSA Instruction 6132-2, Community Food and Nutrition Program, published in the FEDERAL REGISTER (42 FR 12047) on March 2, 1977, including the application process and categories of eligible applicants, apply to these fundings. In addition, consistent with the interim rule published in the FEDERAL REGISTER (42 FR 27593) on May 31, 1977, program emphases have been defined for Fiscal Year 1977 fundings and the percent of effort for each emphasis in each state has been set based on needs assessments and other consultations. (See attachment 1.)

Potential applicants are reminded that the regular A-95 procedures apply. Therefore, applicants are encouraged to submit their notification of intent to the appropriate clearinghouse(s) as soon as they decide that they will apply for funds.

Following are the program emphases for the Fiscal Year. They are derived from the eligible activities outlined in the basic policy statement (CSA Instruction 6132-2) but provide greater specificity:

ADVOCACY

Advocacy projects are designed to improve access to, and to expand the participation of eligible participants in, the various Federal food programs, e.g., food stamps, school lunch and breakfast, child care feeding, WIC, elderly feeding, etc. Advocacy activities may include: efforts to monitor, study and evaluate program operation when coupled with a plan to implement findings, recommendations, etc. in a manner which will improve program operation; legal and paralegal representation of eligible participants; community education and outreach efforts designed to inform eligible participants about the various food programs, the benefits available thereunder and to assist such persons in obtaining benefits; and efforts to plan, develop and implement food and nutrition policies and programs. In-so-far as is practical, advocacy efforts should be directed at effecting institutional changes in program policy and operations.

Examples of acceptable advocacy projects include, but are not limited to: 1. The development of a state or local coalition to insure community input in the implementation process of the major revisions of the food stamp program. Activities would include the development of the coalition, education of the members to the issues, solicitation of comments on proposed state and Federal regulations, negotiations with the state on the development of the state plan of operation and certification manual, and negotiation and monitoring of the implementation of the revision;

2. A community education/outreach effort designed to inform people of food stamp program revisions and to assist persons in obtaining benefits. Activities might include the development and distribution of informational materials, development of a media campaign, the development of a speakers bureau, training of personnel of other organizations, coordination of volunteers who provide transportation and prescreening services, negotiations to alter practices which prevent participation, and direct representation of applicants in their efforts to obtain benefits;

3. A short term study of the school breakfast program, the results of which would be used to expand program operation. Activities would include an analysis of the existing program operation and roadblocks to participation, the development of a school breakfast coalition to make recommendations and negotiate with school food officials, and formal meetings with the school board to provide community input into the decisions about the operation of the program.

SELF-HELP

Self-help projects are designed to directly involve the poverty community in efforts to improve access to food production and distribution processes designed to improve their nutritional well-being and to foster self-sufficiency. Self-help activities may include: efforts to develop alternative food production and distribution mechanisms which are community-owned and controlled; efforts to develop and utilize other community resources in the continuation of such activities; and, efforts to provide lower cost food stuffs to low-income people. Self-help activities will not be funded as continuing activities. All present and prospective grantees must have a specific plan for phasing out funding of particular projects.

Examples of acceptable self-help projects include, but are not limited to: 1. The development of a community food sale cooperative operated by the people it serves and designed to provide lower cost food to its membership. Activities would include organizing the co-op, assisting in establishing the physical and legal entity, providing training to operators, assisting in negotiating contracts with farmers and wholesalers for food delivery, assisting in seeking alternative sources of funds, and assisting in the development of other similar projects;

2. The development of a food production operation such as a greenhouse operation which would provide both lower cost food through distribution networks in the low-income community and provide employment opportunities to low-income people; and

3. Cooperative programs for the production of food or animals for family consumption.

SUPPLEMENTAL

Supplemental projects are designed to fill the voids in existing Federal feeding programs or to establish programs on a pilot basis. Acceptable supplemental activities may include the provision of services which are tangential to but necessary for the operation of existing Federal feeding programs. Supplemental programs will not be funded on a continuing basis. They must either be capable of being supported by another food program or by other funding sources within a specified period of time.

CRISIS RELIEF

This category is intended to meet temporary emergency needs of households through the direct provision of foodstuffs or direct access to food. Applicants desiring funding under this category must specifically delineat the need and explain why direct services are not duplicative or substitutes for already existing programs. Preference will be given to applicants who combine direct service efforts with activities designed to transfer the responsibility for the continuation of direct service activities within a specified period of time or which mobilize or organize community resources to provide crisis relief.

APPLICATION SUBMISSION

Closing date for receipt of applications is July 26, 1977. Applications should be submitted to the appropriate CSA Regional Office.

GRACIELA (GRACE) OLIVAREZ,
Director.

Attachment 1.—Program emphases listing by each State's percent of fiscal year 1977 funding level

State	Advocacy	Supplemental programs	Self-help	Crisis relief
Region I:				
Maine	35	60	5	0
Connecticut	73	5	11	11
Rhode Island	63	11	21	5
Vermont	37	0	53	10

Idaho	38	22	25	15
Oregon	38	12	35	15
Alaska	33	15	37	15

An amount equal to 5% of each state's allocation shall be set aside in each Region for program support projects intended to strengthen local programs thru the provision of training and technical assistance and to assist in coordination of anti-hunger efforts throughout the state including communication of successful methods and techniques.

[FR Doc.77-16912 Filed 6-15-77;9:30 am]

CONSUMER PRODUCT SAFETY COMMISSION

ALUMINUM WIRE CONNECTIONS

Extension of Time

AGENCY: Consumer Product Safety Commission.

ACTION: Extension of time.

SUMMARY: The Consumer Product Safety Commission extends the time period within which it must publish either a proposed consumer product safety standard for aluminum wire connections or a notice withdrawing the previously published notice of proceeding to develop a standard for an indefinite period until jurisdictional questions concerning aluminum branch circuit wiring have been resolved.

FOR FURTHER INFORMATION CONTACT:

Alan H. Schoem, Office of the General Counsel, Consumer Product Safety Commission, Washington, D.C. 20207, telephone (202) 634-7770.

SUPPLEMENTARY INFORMATION: The Consumer Product Safety Commission has been in the process of developing a mandatory consumer product safety standard for aluminum branch circuit wire systems since it formally began a proceeding on November 4, 1975 under section 7 of the Consumer Product Safety Act (15 U.S.C. 2056). It has previously extended the period within which it must propose a consumer product safety standard for the aluminum wire system or withdraw the notice of proceeding until May 1, 1977, in order to discuss with the National Fire Protection Association and other organizations modification of the National Electric Code as an alternative to a mandatory federal standard. A detailed history of this action and of the standard development activities appears in the FEDERAL REGISTER of January 18, 1977 (42 FR 3342).

On March 11, 1977, the United States District Court for the District of Delaware in *Kaiser Aluminum and Chemical Corporation* v. *United States Consumer Product Safety Commission*, Civil Action No. 76-44 (D. Del.) concluded that aluminum branch circuit wire and aluminum branch circuit wiring systems are not consumer products as that term is defined in section 3(a)(1) of the CPSA (15 U.S.C. 2052(a)(1)). The Court issued an order in that matter on March 30, 1977. On May 25, 1977, the Department of Justice filed a notice of appeal of the Court's decision on behalf of the Commission. In view of the District Court's ruling, the Commission has decided that pending resolution of the jurisdictional question it will suspend activity under section 7 of the CPSA, including staff efforts toward modification of the NEC. Accordingly, the Commission is extending the period within which it must publish either a proposed consumer product safety standard for aluminum wire connections or a notice withdrawing the previously published notice of proceeding to develop a standard for an indefinite period until resolution of the jurisdictional question.

The Commission's decision is limited to activities under section 7 of the CPSA and does not apply to any activities related to section 15 of the CPSA or enforcement of subpoenas issued under section 27 of the CPSA regarding aluminum branch circuit wire.

Dated: June 10, 1977.

RICHARD E. RAPPS,
Secretary, Consumer Product Safety Commission.

DEPARTMENT OF DEFENSE

Department of the Navy

SECRETARY OF THE NAVY'S ADVISORY BOARD ON EDUCATION AND TRAINING (SABET)

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. I), notice is hereby given that the Secretary of the Navy's Advisory Board on Education and Training (the Board) will meet on July 21-22, 1977, in the Compass and Viking Room of the Admiral Kidd Club located at the Naval Training Center, San Diego, California. Sessions of the meeting will commence at 8:15 a.m. and terminate at 4:30 p.m. on Thursday, July 21, 1977, and commence at 8:30 a.m. and terminate at 11:30 a.m. on Friday, July 22, 1977.

The Board will discuss the Navy's Instructional Development Program and Computer Managed Instruction. Board members will observe course development procedures and visit various training sites. The merits of existing training and instructional systems under development will be reviewed in order to provide recommendations to the Secretary of the Navy at the Executive Session on July 22, 1977.

For further information, contact:

Dr. Francis Kelly, Assistant Branch Head, Professional Education (991EB), 800 North Quincy Street, Arlington, Va. 22203, (202) 692-4636.

Dated: June 9, 1977.

K. D. LAWRENCE,
Captain, JAGC, U.S. Navy, Deputy Assistant Judge Advocate General (Administrative Law).

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 862]

COMMON CARRIER SERVICES INFORMATION

Applications Accepted for Filing

JUNE 13, 1977.

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of these applications, if upon further examination, it is determined they are defective and not in conformance with the Commission's Rules and Regulations or its policies.

Final action will not be taken on any of these applications earlier than 31 days following the date of this notice, except for radio applications not requiring a 30 day notice period (See § 309(c) of the Communications Act), applications filed under Part 68, applications filed under Part 63 relative to small projects, or as otherwise noted. Unless specified to the contrary, comments or petitions may be filed concerning radio and Section 214 applications within 30 days of the date of this notice and within 20 days for Part 68 applications.

In order for an application filed under Part 21 of the Commission's Rules (Domestic Public Radio Services) to be considered mutually exclusive with any other such application appearing herein, it must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which the subsequent application is in conflict) as having been accepted for filing. In common carrier radio services other than those listed under Part 21, the cut-off date for filing a mutually exclusive application is the close of business one business day preceding the day on which the previously filed application is designated for hearing. With limited exceptions, an application which is subsequently amended by a major change will be considered as a newly filed application for purposes of the cut-off rule. (See § 1.227(b)(3) and 21.30(b) of the Commission's Rules.)

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

21460-CD-TC-(3)-77 Autophone of Laredo, Inc. Consent to Transfer of Control from Autophone of Laredo, Inc., transferor, to Paul E. Russum, transferee. Stations: KLF536 and KWH344, Laredo, Texas; and KUO642, Zapata, Texas.

21468-CD-TC-(2)-77 Haviland Telephone Company, Inc. Consent to Transfer of Control from Howard Ellis, transferor to Shareholders of Haviland Telephone Company, transferees. Stations: KAQ634, Haviland, Kansas; and KAQ646, Conway Springs, Kansas.

21469-CD-AL-77 Bertha C. Mathews dba Mathews Telephone Answering Service. Consent to Assignment of License from Mathews Telephone Answering Service, assignor to J.J., Inc., assignee. Station: KGI274, Great Falls, Montana.

21470-CD-TC-(2)-77 Fulmont Communications, Inc. Consent to Transfer of Control from Howard D. Hinkle, transferor to Charles J. Bertuch, Jr., M.D., transferee. Stations: KWU350 and KWU352, Amsterdam, New York.

21471-CD-TC-(4)-77 Harbor Communications, Inc. Consent to Transfer of Control from A. Steve Kircos, transferor to Rahn J. Farris, transferee. Stations: KWT996 and KUD204, Port Huron, Michigan; and KLF-591 and KWA 673, Benton Harbor, Michigan.

21472-CD-TC-(2)-77 Business Service Center, Inc. Consent to Transfer of Control from June E. Stevens, personal representative of the estate of Robert L. Stevens, transferor to Paul R. Bartell, transferee. Stations: KTS230 and KTS231, nr. Rothschild, Wisconsin.

21473-CD-P/L-77 Southwestern Bell Telephone Company (KKB392), C.P. to change antenna system operating on 152.66 MHz located 1.5 mile NNW of Eureka, Texas.

21474-CD-TC-(3)-77 Ace Commercial Services, Inc. Consent to Transfer of Control from John R. Laws, transferor to George E. Donavan, transferee. Stations: KQZ740, KQZ741 and KUS286, Columbus, Mississippi.

21475-CD-P-77 Prospect Communications (new), C.P. for a new 1-way station to operate on 158.70 MHz to be located 5.5 miles ESE of Lawrenceburg, Tennessee.

21476-CD-P-77 Southwestern Bell Telephone Company (KBM505), C.P. to change antenna system operating on 152.63 MHz located 3 miles NW of Dodge City, Kansas.

21477-CD-MP-77 Radio Relay New York Corp. (KAA282), modification of CP to change antenna system and relocate facilities operating on 156.70 MHz to be located at 40 West Mosholu Parkway, Bronx, New York.

21478-CD-P-77 Metrotec, Inc. (KTS283), C.P. to relocate facilities operating on 35.22 MHz to be located at Rt. 55, 0.5 miles North of Rt. 118, Medina, Ohio.

21479-CD-P-77 Pat's Mobilephone, Inc. (new), C.P. for a new station to operate on 152.06 MHz to be located in center of town, Collinwood, Tennessee.

21480-CD-P-77 Carolina Telephone and Telegraph Company (new), C.P. for a new 1-way station to operate on 158.10 MHz to be located at 111 W. Calhoun Street, Whiteville, North Carolina.

21481-CD-P-(2)-77 Arvig Telephone Company (KCI305), C.P. to change antenna system operating on 152.57 and 152.81 MHz located at West of Equation Avenue, Pequot Lakes, Minnesota.

21482-CD-P-77 Aricall, Inc. (KIY779), C.P. to change frequency from 454.100 MHz, control, to 454.150 MHz, and relocate facilities to be located at Westgate Office Building, Asheville, North Carolina, Loc. No. 2.

21483-CD-ML-77 Morris Communications, Inc. (KFL904), modification of License to change base frequency from 454.275 MHz to 454.350 MHz at Loc. No. 2: Oconee County Memorial Hospital, Seneca, South Carolina.

21484-CD-P-77 Answering Service of Trenton, Inc. (KED352), C.P. for additional facilities to operate on 35.58 MHz at a new site described as Loc. No. 3: North Gate Apartments, 7th and Linden Streets, Camden, New Jersey.

21485-CD-P-(4)-77 The Pacific Telephone and Telegraph Company (KMA612), C.P. to replace transmitters operating on 152.-69 and 152.72 MHz at Loc. No. 2; change antenna system operating on 152.57 MHz, replace transmitters on 157.83, 157.95 and 157.98 MHz, test and relocate from Loc. No. 1 to Loc. No. 2: 95 Almaden Avenue, San Jose, California.

21486-CD-P-(2)-77 Anser-Quik Enterprises, Inc. (new), C.P. for a new 1-way station to operate on 158.70 MHz, base and standby, to be located at Roosevelt Avenue, 500 feet West of Intersection with Pine Knoll Blvd., Pine Knoll Shores, North Carolina.

21487-CD-P-77 H. I. Pierce dba Business Communications Company (new), C.P. for a new station to operate on 152.06 MHz to be located 6½ miles North of Great Falls, Montana.

21488-CD-P-77 Pat's Mobilephone, Inc. (new), C.P. for a new 1-way station to operate on 152.24 MHz to be located at center of town, Collinwood, Tennessee.

21489-CD-MP-(2)-77 Area-Wide Paging System, Inc. (KWU399), modification of CP to change antenna system operating on 454.175 and 454.325 MHz located at Terminal Tower Building, Cleveland, Ohio.

21491-CD-P-77 Tel-Page Corporation of Wisconsin (new), C.P. for a new 1-way station to operate on 35.22 MHz to be located at First Wisconsin Bank Building, Milwaukee, Wisconsin.

21493-CD-P-4-77 A Plus Communication of Puerto Rico, Inc., dba Caribbean Mobile Telephone System (KWU360), modification of CP to change antenna system operating on 454.125, 454.150, 454.175 and 454.225 MHz located at intersection of Avenida Pinero and Avenida San Patrico, Caparra Heights, Puerto Rico.

MAJOR AMENDMENT

21042-CD-P-77 Radio Telephone Service, Inc. (KRH665), amend location operating on 152.24 MHz to read WKYT-TV tower on North side of U.S. 60, 2.8 miles East of New Circle Road, Lexington (Fayette) Kentucky. All other particulars to remain as reported on PN No. 852 dated April 4, 1977.

RURAL RADIO SERVICE

60296-CR-P/L-77 Puerto Rico Communications Authority (new), C.P. and License for a new rural subscriber station to operate on 454.375, 454.400, 454.425, 454.450, 454.475, 454 500, 454.525, and 454.550 MHz to be located at Bo. Montones IV Carr. 917 Km. 7.9, Las Piedras, Puerto Rico.

60327-CR-P-77 McClellanville Telephone Company (new), C.P. for a new Temp-fixed station to operate on 158.07 MHz to be located at any temporary-fixed location within the territory of the grantee.

60328-CR-TC-77 Autophone of Laredo, Inc. Consent to Transfer of Control from Autophone of Laredo, Inc., transferor to Paul E. Russum, transferee. Station: WAY69, Temp-Fixed.

OFFSHORE RADIO TELECOMMUNICATIONS SERVICE

MAJOR AMENDMENTS

50015-CG-P-(3)-77 Offshore Telephone Company (new), Amend frequency 488.-525 to read 488.625 MHz. All other particulars to remain as reported on PN No. 857 dated May 9, 1977.

50017-CG-P-(3)-77 Offshore Telephone Company (new), Amend to delete frequencies 488.075 and 488.125 MHz. Add frequency 488.150 MHz. All other particulars to remain as reported on PN No. 857 dated May 9, 1977.

50018-CG-P-77 Offshore Telephone Company (new), Amend frequency 488.250 MHz to read 488.400 MHz. All other particulars to remain as reported on PN No. 857 dated May 9, 1977.

POINT TO POINT MICROWAVE RADIO SERVICE

2415-CF-P-77 The Chesapeake and Potomac Telephone Company of Virginia (KJG52), 3305 Huntington Avenue, Newport News, Virginia (lat. 36°59'01" N., long. 76°25'57" W.): C.P. to add transmitter on frequencies 10875.0H 10795.0H MHz toward Norfolk and replace antenna on 6234.3V 10795V MHz toward Norfolk, Virginia.

2416-CF-P-77 Same (KJG53), 120 W. Bute Street, Norfolk, Virginia (lat. 36°51'11" N., long. 76°17'25" W.): C.P. to add frequencies 11325H, 11245H MHz toward Newport News 5952.6V 11265V, 11345H MHz toward Hampton and replace antenna on 5982.3V, 11245V MHz toward Newport News and 11445H MHz toward Hampton, Virginia.

2417-CF-P-77 Same (KIW79), 131 East Queen Street, Hampton, Virginia (lat. 37°-01'35" N., long. 76°20'34" W.): C.P. to add frequencies 10895V, 11055V, 11135H MHz toward Norfolk and replace antenna on 6204.7H, 10755V MHz toward Norfolk, Virginia.

2664-CF-P-77 American Telephone and Telegraph Company (KLV40), 2.5 miles NE of Crossroad, Mississippi (lat. 30°47'50" N., long. 89°44'17" W.): C.P. to change polarization from vertical to horizontal on frequencies 3930, 4010, 4170 and from horizontal to vertical 3710, 3790, 3870, 3950, 4030, 4110 MHz toward Pine, Louisiana.

2665-CF-P-77 Same (KLV45), 0.9 mile N of Pine, Louisiana (lat. 30°55'12" N., long. 90°00'43" W.): C.P. to change polarization on frequencies from horizontal to vertical 3750, 3830, 3910, 3990, 4070 MHz toward Crossroads, 3750, 3830, 3910, 3990, 4070, 4150 MHz toward Wilmer, from vertical to horizontal 3890, 3970, 4130 MHz toward Crossroads, and 3890, 3970, 4130 MHz toward Wilmer.

2666-CF-P-77 Same (KLV46), 2.3 miles NW of Wilmer, Louisiana (lat 30°50'41" N., long. 90°22'35" W.): C.P. to change polarization on frequencies from vertical to horizontal 3930, 4010, 4170, and from horizontal to vertical 3710, 3790, 3870, 3950, 4030 MHz toward Pine, Louisiana.

2667-CF-P-77 Same (KLV49), 2 miles W of Starhill, Louisiana (lat. 30°45'42" N., long. 91°20'30" W.): C.P. to correct coordinates, change polarization from vertical to horizontal on frequencies 3890, 3970, 4130 MHz toward Pride 3970, 4130 MHz toward Innis and from horizontal to vertical 3750, 3830, 3910, 3990, 4070 MHz toward Pride, 3750, 3830, 3910, 4070, 4150 MHz toward Innis.

2668-CF-P-77 American Telephone and Telegraph Company (KLV48), 9 miles NE of Pride, Louisiana (lat. 30°41'06" N., long. 90°59'18" W.): C.P. to change polarization from vertical to horizontal on frequencies 3930, 4010, 4170 MHz toward Starhill, Louisiana.

2669-CF-P-77 Same (KLV50), 1 mile S. of Innis, Louisiana (lat. 30°51'53" N., long. 91°40'21" W.): C.P. to change polarization from vertical to horizontal on frequencies 3850, 3930, 4010, 4170 and from horizontal to vertical on 3710, 3790, 3870, 3950 MHz toward Starhill, Louisiana.

2731-CF-P-77 The Mountain States Telephone and Telegraph Company (new), 27 West First Street, Elfrida, Arizona (lat. 31°-41'10" N., long. 109°41'16" W.): C.P. for a new station on frequency 2162.0V MHz toward Mule Pass on azimuth 226.9 degrees.

2732-CF-P-77 Same (KPS86), 1.6 miles NW of Bisbee, Arizona (lat. 31°28'20" N., long. 109°57'14" W.): C.P. to add a new point of communication on frequehcy 2112.0V MHz toward Elfrida, Arizona on azimuth 46.7 degrees.

2674-CF-P-77 Commonwealth Telephone Company (WBB364), 17 Main Street, Towanda, Pennsylvania (lat. 41°46'13" N., long. 76°26'34" W.): C.P. to add a new point of communication on frequencies 2116V, 2124V MHz toward Towanda PR2 on azimuth 27.7 degrees and from passive reflector to Armenia on azimuth 268.0 degrees.

2675-CF-P-77 Same (new), Armenia 2.6 miles SW of Sylvania, Pennsylvania (lat. 41°46'06" N., long. 76°51'47" W.): C.P. for a new station on frequencies 2166.0H, 2174.0H MHz toward Mansfield on azimuth 282.5 degrees and 2166.0V, 2174.0V MHz toward Towanda PR2 on azimuth 87.7 degrees and from passive reflector to Towanda on azimuth 207.7 degrees.

2676-CF-P-77 Same (WBB285), 2.25 KW W of Mansfield, Pennsylvania (lat. 41°48'30" N., long. 77°06'23" W.): C.P. to add new point of communication on frequencies 2116H, 2124H MHz toward Armenia on azimuth 102.3 degrees.

2491-CF-P/ML-77 American Telephone & Telegraph Company (KEA 87), 6.0 miles West of Windsor, New York (lat. 42°06'54" N., long. 75°44'44" W.): Construction permit and license to change receive station location from Binghampton, New York to new location at Vestal (WICZ-TV) New York, on azimuth 262.6 degrees. Existing frequency (3810.0H MHz) unchanged.

2642-CF-P-77 Satellite Networks, Inc., (new), Milwaukee, 10510 North Point Washington Road, Mequon, Wisconsin (lat. 43°12'31" N., long. 87°55'19" W.): Construction permit for news station—11385.0V MHz toward Wisconsin Center, Wisconsin, on azimuth 174.9 degrees.

2683-CF-P-77 Satellite Networks, Inc. (new), Elk Horn, 3.3 miles WNW of Cordelia Junction, California, Napa, California (lat. 38°13'51" N., long. 122°11'42" W.): Construction permit for new station—6375.2V MHz toward Vollmer Peak, California, on azimuth 183.2 degrees.

CORRECTION

2622-CF-AL-(24)-77 Microwave Transmission Corporation. Application for assignment of radio station licenses and construction permits. This entry appearing in Public Notice May 31, 1977 is corrected to delete all reference to Section 214 Applications. All other particulars remain the same as previously reported.

MAJOR AMENDMENT

9897-CF-P-73 Mid-Kansas, Inc. (new) Newton, Kansas (lat. 38°04'16" N., long. 97°22'06" W.): Application amended to change station coordinates to foregoing coordinates. Other particulars (PN 7/16 73) unchanged.

[Docket Nos 21171 and 21172; File Nos. BPH-9923 and BPH-10,022]

FAITH TABERNACLE, INC. AND KILIBRO BROADCASTING CORP.

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Faith Tabernacle, Inc. Ashland, Oregon (Req: 101.7 MHz, No. 629; 3 kW (H & V);—1298 ft.) and Kilibro Broadcasting Corporation, John D. Feldman, Arthur B. Hogan and Arnold D. Sias Joint Venture, Ashland, Oregon (Req: 101.7 MHz, No. 269; 3 kW (H & V); —310 ft.) for construction permits.

Adopted: May 31, 1977.

Released: June 9, 1977.

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has before it for consideration the above-captioned applications of Faith Tabernacle, Inc. (hereinafter "Faith") and Kilibro Broadcasting Corp., John D. Feldman, Arthur B. Hogan, and Arnold D. Sias, a Joint Venture (hereinafter "Kilibro"), requesting a construction permit for a new FM broadcast station in Ashland, Oregon. Faith is the licensee of standard broadcast station KDOV, and the partners in Kilibro own Rogue Radio Corp., the licensee of standard broadcast station KCMX. Both stations are located in Ashland, Oregon.

2. In its compositional study, Faith lists 16 manufacturing firms in Ashland, and shows that area employment in manufacturing, construction, transportation, etc., is 11,800. Although these figures clearly show that labor is an important element in the community, Faith failed to interview any leaders of labor. Question and Answer 16 of the Commission's Primer on Ascertainment of Community Problems by Broadcast Applicants, 27 FCC 2d 650 (1971), indicate that an ascertainment showing is defective if leaders of a significant group in the community are not consulted. A limited ascertainment issue will therefore be specified.

3. Faith proposes a specialized format of predominantly religious programming. Kilibro, in contrast, proposes general market programming. Thus, the relative need for these different types of programming will be considered under the standard comparative issue. Ward L. Jones, FCC 67-82 (1967); Policy Statement on Comparative Broadcast Hearings, 1 FCC 2d 393, Footnote 9 at 397 (1965). In addition, Kilibro proposes duplication of the programming of KCMX during five to ten percent of its proposed schedule. Therefore, evidence regarding program duplication will be admissible under the standard comparative issue. When duplicated programming is proposed, the showing permitted under the standard comparative issue will be limited to evidence concerning the benefits to be derived from the proposed duplication which would offset its inherent inefficiency. Jones T. Sudbury, 8 FCC 2d 360, 10 RR 2d 114 (1967).

4. Data submitted by the applicants indicate that there would be a significant difference in the size of the areas and populations which would receive service from the proposals. Consequently, for the purposes of comparison, the areas and populations which would receive FM service of 1 mV/m or greater intensity, together with the availability of other primary aural services in such areas, will be considered under the standard comparative issue, for the purpose of determining whether a comparative preference should accrue to either of the applicants.[1]

5. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, because the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

6. Accordingly, *it is ordered*, That, pursuant to Section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

(1) To determine the efforts made by Faith Tabernacle, Inc. to ascertain the problems of labor in the area to be served and the means by which the applicant proposes to meet those problems.

(2) To determine which of the proposals would, on a comparative basis, better serve the public interest.

(3) To determine, in light of the evidence adduced pursuant to the foregoing issues, which of the applications should be granted.

[1] Since there are directions where the terrain is such that negative antenna heights or heights below 100 feet for the 2- to 10-mile sector are obtained, a supplemental showing of expected coverage must be included together with a description of the method employed in predicting such coverage, as required by Section 73.313(e) of the Commission's Rules.

7. *It is further ordered*, That the applicants herein, to avail themselves of the opportunity to be heard, pursuant to Section 1.221(c) of the Commission's Rules, in person or by attorney shall, within twenty days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

8. *It is further ordered*, That the applicants herein shall, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's Rules, give notice of the hearing (either individually or, if feasible and consistent with the Rules, jointly) within the time and manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the Rules.

FEDERAL COMMUNICATIONS COMMISSION,
PAUL WM. PUTNEY,
Acting Chief,
Broadcast Bureau.

[FR Doc.77-17259 Filed 6-15-77;8:45 am]

TOWN AND COUNTRY RADIO, INC. AND CHERAW BROADCASTING CO., INC.

Memorandum Opinion and Order Designating Applications For Consolidated Hearing on Stated Issues

In re applications of Town and Country Radio, Inc., Cheraw, South Carolina. Requests: 103.1 MHz, Channel 276A; 3kW (H&V); 300 ft. and Cheraw Broadcasting Company, Inc., Cheraw, South Carolina. Requests: 103.1 MHz, Channel 276A; 3kW (H&V); 300 ft. for construction permits.

Adopted: June 3, 1977

Released: June 8, 1977

1. The Commission by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has before it for consideration the above-captioned applications of Town and Country Radio, Incorporated [Town and Country], licensee of standard broadcast station WCRE, Cheraw, South Carolina; and Cheraw Broadcasting Company, Inc. [Cheraw Broadcasting], requesting a construction permit for a new FM broadcast station in Cheraw, South Carolina.

2. Section 73.210 of the Commission's Rules specifies, inter alia, that the main studio of an FM station is to be located within the community of license. It also provides that upon sufficient showing, the main studio may be located outside the community. Both applicants propose main studios outside of Cheraw, Town and Country proposes to locate its main studio and transmitter at the transmitter site of station WCRE which is located .2 miles outside of the city limits. The proposed FM station will duplicate a substantial amount of WCRE's programming and utilize personnel of WCRE. Cheraw Broadcasting proposes to locate its main studio and transmitter site 4.4 miles south of Cheraw. This site is located on a main highway and is within approximately five minutes driving time from downtown Cheraw.

The proposed studio locations are convenient to Cheraw and raise no possible question of de facto change in station location. Under these circumstances, we believe that adequate justification has been provided for use of the proposed studio locations if either of the applications is granted. Radio Station WINI, 29 FCC 2d 396 (1971).

3. Data submitted by the applicants indicate that there would be a significant difference in the size of the areas and populations which would receive service from the proposals. Consequently, for the purposes of comparison, the areas and populations which would receive primary service, together with the availability of other primary aural services (1 mV/m or greater in the case of FM) in such areas will be considered under the standard comparative issue, for the purpose of determining whether a comparative preference should accrue to either of the applicants.

4. Both applicants are qualified to construct and operate as proposed. However, because the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

5. *It is ordered*, That pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order on the following issues:

(1) To determine which of the proposals would, on a comparative basis, better serve the public interest.

(2) To determine in light of the evidence adduced pursuant to the foregoing issue, which of the applications for construction permit should be granted.

6. *It is further ordered*, That to avail themselves of the opportunity to be heard, the applicants, pursuant to section 1221(c) of the Commission's Rules, in person, or by attorney shall, within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

7. *It is further ordered*, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules give notice of the hearing, either individually or, if feasible and consistent with the Rules, jointly, within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

FEDERAL MARITIME COMMISSION

[Independent Ocean Freight Forwarder License No. 1848]

FORWARDING SERVICES, INC.

Order of Revocation

By letter dated May 11, 1977, Mr. John M. Revolinski, President, Forwarding Services, Inc., 1310 Prairie, Cotton Exchange Bldg., Suite 704, Houston, TX 77002 was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 1848 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before June 8, 1977.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised) Section 5.01 (c) dated June 30, 1975;

It is Ordered, that Independent Ocean Freight Forwarder License No. 1848 issued to Forwarding Services, Inc., be returned to the Commission for cancellation.

It is Further Ordered, that Independent Ocean Freight Forwarder License No. 1848 be and is hereby revoked effective June 8, 1977.

It is Further Ordered, that a copy of this Order be published in the FEDERAL REGISTER and served upon Forwarding Services, Inc.

LEROY F. FULLER,
Director, Bureau of Certification and Licensing.

FEDERAL POWER COMMISSION

[Docket No. RP73-77 (PGA77-6) (DCA77-2)]

ALABAMA-TENNESSEE NATURAL GAS CO.

Proposed PGA Rate Adjustment

JUNE 8, 1977.

Take notice that on May 19, 1977, Alabama-Tennessee Natural Gas Company (Alabama-Tennessee), P.O. Box 918, Florence, Alabama 35630, tendered for filing as part of its FPC Gas Tariff, Third Revised Volume No. 1, Substitute Twenty-Second Revised Sheet No. 3-A. This revised tariff sheet is proposed to become effective as of July 1, 1977.

Alabama-Tennessee states that the sole purpose of such revised tariff sheet is to adjust Alabama-Tennessee's rates pursuant to the PGA provisions of Sections 20 and 22 of the General Terms and Conditions of its tariff to reflect increased rates to become effective on July 1, 1977, to be charged by its sole supplier, Tennessee Gas Pipeline Company.

The revised tariff sheet provides for the following rates:

Rate schedule:	*Substitute 22nd revised sheet No. 3-A*
G-1 Demand	$1.78
G-1 Commodity	115.10¢
SG-1 Commodity	128.10¢

Alabama-Tennessee states that copies of the filing have been mailed to all of its jurisdictional customers and affected State regulatory Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10. All such petitions or protests should be filed on or before June 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP64-89]

CITIES SERVICE GAS CO. AND NATURAL GAS PIPELINE CO. OF AMERICA

Petition for Declaratory Order or Alternatively Petition to Amend Further

JUNE 8, 1977.

Take notice that on May 20, 1977, Cities Service Gas Company (Cities Service), P.O. Box 25128, Oklahoma City, Oklahoma 73125, and Natural Gas Pipeline Company of America (Natural), 122 South Michigan Avenue, Chicago, Illinois 60603, (Petitioners) filed in Docket No. CP64-89 a joint petition pursuant to § 1.7 (c) of the Commission's Rules of Practice and Procedure (18 CFR 1.7(c)) for a declaratory order declaring that the gas purchased by Natural from the Groskopf Well in the Watonga-Chickasha Trend field, or other wells in the field, may be exchanged at an existing exchange point, the Anthony No. 1 Exchange Point in Grady County, Oklahoma, under their present certificate authorization issued in the instant docket without an amendment thereto, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

Petitioners states that on January 2, 1964, they were granted authorization to construct and operate certain facilities and to exchange natural gas between themselves. Under the terms of a gas exchange agreement dated September 30, 1963, Petitioners exchange up to 40,000 Mcf of gas per day through May 1, 1964, it is said. Pursuant to the Commission's order of January 2, 1964, as amended, Petitioners were authorized to construct and operate certain additional exchange facilities, and exchange 60,000 Mcf of gas per day during the period ending May 1, 1980, pursuant to the gas exchange agreement dated September 30, 1963, as amended. Applicant indicates that on March 26, 1976, the Commission authorized the establishment of the Anthony No. 1 Exchange Point in the Watonga-Chickasha Trend Field in Grady County, Oklahoma, and that on February 26, 1976, Petitioners amended the subject gas exchange agreement to provide that additional gas purchased by Natural from the Groskopf well also located in the Watonga-Chickasha Field would be delivered to Cities Service for Natural's account at the Anthony No. 1 exchange point. Petitioner indicates that it did not amend its certificate at that time because the total volume of gas exchanged at Anthony No. 1 exchange point did not exceed the 5,000 Mcf per day limit for said exchange point or the 60,000 Mcf per day limit on the total volume of gas exchanged. Application indicates that recent communications between the Petitioners have now created uncertainty whether the certificate of public convenience and necessity should be amended to provide for the said exchange point even though the total amount of gas exchanged does not exceed the limit authorized for this exchange point.

No new facilities were installed by Cities Service to effectuate the receipt of gas from the Groskopf well, and Natural has installed at its expense the necessary gathering facilities to deliver the volumes of gas from the Groskopf well to the Anthony No. 1 exchange point, it is said. Petitioners state that since they anticipate that volumes of gas from other wells in the immediate vicinity of the Anthony No. 1 exchange point may become available to Natural, Petitioners request that no amendment to the certificate of public convenience and necessity is needed.

Petitioners state that in the event the Commission determines that the gas from an additional well or wells may not be exchanged at the existing exchange point without further amendment of the order of January 2, 1964, Petitioners, in the alternative, request hereby further amendment of said order to authorize the exchange as proposed.

Any person desiring to be heard or to make any protest with reference to said petition should on or before June 27, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act

(18 CFR 157.10). All protests filed with the Commisison will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Project No. 1273]

CITY OF PAROWAN, UTAH

Land Withdrawal (Additional), Utah

JUNE 6, 1977.

On May 22, 1975, the City of Parowan, Utah, filed map Exhibit K, sheet 1 (FPC No. 1273-2) as part of an application for new license (minor) for the constructed Center Creek Project, designated as Project No. 1273, and located near the City of Parowan in the State of Utah.

Therefore, in accordance with the provisions of Section 24 of the Act of June 10, 1920, as amended, notice is hereby given that the land hereinafter described insofar as title thereto remains in the United States is, from the date of said filing, reserved from entry, location or other disposal under the laws of the United States until otherwise directed by this Commission or by Congress:

All portions of the following described subdivisions lying within the project boundary as shown on map Exhibit K, sheet 1 (FPC No. 1273-2):

SALT LAKE MERIDIAN, UTAH

T. 34 S., R. 8 W.,
SEC. 30, lots 2, 3, 4, E½SW¼;
SEC. 31, lots 1, 2, 3, NE¼NW¼.
T. 34 S., R. 9 W.,
SEC. 24, lot 1, SE¼NW¼;
SEC. 25, lots 1 and 5.

The total area of U.S. lands affected by this notice is approximately 17.40 acres. Of these lands, approximately 17.32 acres have been previously reserved for power purposes on June 6, 1934, for Project No. 1273.

Copies of the aforementioned map exhibit have been transmitted to the Geological Survey, Bureau of Land Management, and Forest Service.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17246 Filed 6-15-77;8:45 am]

[Docket No. CP72-300]

COLUMBIA GAS TRANSMISSION CORP. AND CONSOLIDATED GAS SUPPLY CORP.

Petition to Amend

JUNE 7, 1977.

Take notice that on May 26, 1977, Columbia Gas Transmission Corporation (Columbia), 1700 MacCorkle Avenue, S. E., Charleston, West Virginia 25314, and Consolidated Gas Supply Corporation (Consolidated), 445 West Main Street, Clarksburg, West Virginia 26301, (Petitioners) filed in Docket No. CP72-300 a petition to amend the Commission's order of October 24, 1972, issued in the instant docket (48 FPC 872) pursuant to Section 7 of the Natural Gas Act so as to authorize the exchange of natural gas between Petitioners at seven additional delivery points and certain other operational changes, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioners indicate that on October 24, 1972, the Commission authorized them to exchange natural gas and to construct and operate certain facilities for such exchanges. Petitioners' exchange agreement dated June 1, 1972 was filed with the Commission as Columbia's Volume 2 Rate Schedule X-35 and Consolidated's Volume 2 Rate Schedule X-17, it is said. Petitioners state that they have amended the subject exchange agreement with a letter agreement dated April 26, 1977.

It is stated that Columbia proposes to deliver gas to Consolidated at three additional points:

(1) Up to 150 Mcf of gas per day to Consolidated's three-inch Line No. H-20465 in Sandy River District, McDowell County, West Virginia;

(2) Up to 75 Mcf of gas per day to Consolidated's six-inch Line No. H-18155 in Browns Creek District, McDowell County, West Virginia; and

(3) Up to 300 Mcf of gas per day at a point near Consolidated's Well No. 10842 in Big Creek District, McDowell County, West Virginia.

The interconnecting facilities required for the above new points of delivery would be constructed by Columbia under authorization issued by the Commission on October 26, 1976 at Docket No. CP77-33, it is said.

It is stated that Consolidated proposes to deliver gas to Columbia at four additional points:

(1) Columbia has installed interconnecting facilities and agrees to receive gas from Consolidated at the W. W. McCoy No. 1 Well at the connection with Columbia's six-inch Line No. E-115 in Washington District, Jackson County, West Virginia. Volumes received at this point of delivery would be included in the previously authorized maximum exchange volume of 1,000 Mcf per day;

(2) Up to 500 Mcf of gas per day to Columbia's six-inch Line No. V-45 in Stafford District, Mingo County, West Virginia;

(3) Up to 800 Mcf of gas per day to Columbia's ten-inch Line R in Duval District, Lincoln County, West Virginia; and

(4) Up to 20 Mcf of gas per day to Columbia's two-inch Line No. SW-3919 in Malden District, Kanawha County, West Virginia.

No additional facilities would be required to deliver gas at the above four additional points, it is said.

Petitioners state that the volumes of gas to be exchanged are local production needed by them to assist in maintaining adequate and reliable service to their customers.

Petitioners further request the following changes in their presently effective tariffs:

(1) Redelivery by Columbia in Paragraph Sixth thereof shall be at an interconnection between Consolidated's Line No. TL-255 and Columbia's Line No. EM-105 near its Rockport Compressor Station, which is the point that has been mutually agreed upon for such redelivery;

(2) In Paragraph Seventh percent retainage to be reduced from 20 percent to 5 percent due to the current cost of gas;

(3) In Paragraph Eighth Provision is made for monthly balancing in lieu of the daily and monthly balancing and year end adjustment previously in effect; and

(4) In Paragraph Ninth the measurement pressure base is to be reduced from 15.325 psia to 14.73 psia in conformity with the current operating practice of Columbia and Consolidated.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before June 29, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB.
Secretary.

[FR Doc.77-17225 Filed 6-15-77;8:45 am]

[Docket Nos. RP71-15 and RP75-28 (PGA77-V4) (DCA77-2)]

EAST TENNESSEE NATURAL GAS CO.

Rate Filing Pursuant to Tariff Rate Adjustment Provisions

JUNE 8, 1977.

Take notice that on May 16, 1977, East Tennessee Natural Gas Company (East Tennessee) tendered for filing Twenty-First Revised Sheet No. 4 to Sixth Revised Volume No. 1 of its FPC Gas Tariff to be effective July 1, 1977.

East Tennessee states that the sole purpose of this revised tariff sheet is: (1) to adjust East Tennessee's rates pursuant to the PGA provision in Section 22 of the General Terms and Conditions to reflect increased purchased gas costs resulting from a rate increase filed May 16, 1977, by its sole supplier, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee); (2) to adjust East Tennessee's rates for a negative Surcharge for Amortizing the Unrecovered Purchased Gas Cost Account determined in accord with Section 22.3 of the General Terms and Conditions in order to reflect the flow-through of the jurisdictional portion of the curtailment credits received from Tennessee for the period from October 1, 1976 through March 31, 1977; and (3) to adjust East Tennessee's rates pursuant to § 24.8 of the General Terms and Conditions to recover curtailment credits given its customers.

East Tennessee states that copies of the filing have been mailed to all of its jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene; provided, however, that any person who has previously filed a petition to intervene in this proceeding is not required to file a further petition. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17239 Filed 6-15-77;8:45 am]

[Docket No. CP77-408]

EL PASO NATURAL GAS CO.

Application

JUNE 8, 1977.

Take notice that on May 23, 1977, El Paso Natural Gas Company (Applicant), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP77-408 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation and delivery of up to 10,000 Mcf of natural gas per day for Southwest Gas Corporation (Southwest) on a best effort, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to transport the proposed volumes of gas for Southwest capacity as may otherwise exist from time to time in Applicant's interstate pipeline system pursuant to the terms of a gas transportation agreement dated May 4, 1977, between Applicant and Southwest.

It is stated that Southwest has contracted with Kimbark Operating Company (Kimbark), a small producer, to purchase the natural gas production from seven wells in the San Juan Basin production area, San Juan County, New Mexico, and La Plata County, Colorado, and that Applicant is advised that the aggregate initial productive capability of the seven Kimbark wells is projected to be approximately 1,800 Mcf per day during the first year.

Applicant states that it would gather, process and transport the gas that Southwest would purchase from the seven wells on a best efforts basis through the use of its existing facilities and that it would deliver equivalent quantities, less shrinkage, to Southwest at existing delivery points on its mainline transmission system. Applicant indicates that pursuant to the terms of the gas transportation agreement it may retain 10 percent of the total number of Btu's contained in the gas which it receives for Southwest's account as compensation for such shrinkage as occurs in the gathering and processing of such gas prior to its introduction into Applicant's mainline transmission system and an additional 5 percent of the Btu's contained in such gas after giving effect to the reduction for field shrinkage as compensation for compressor fuel usage and gas lost or unaccounted for in the transportation of such gas through applicant's mainline system.

It is stated that Applicant has agreed to acquire the right-of-way for, and to construct, own and operate certain gathering pipelines and appurtenances thereto which are necessary to attach 6 of the Kimbark wells to Applicant's existing San Juan Basin gathering system, and that Southwest has agreed to construct gathering facilities necessary to connect the remaining well (Kimbark-Penrose No. 1) to Applicant's system. Applicant would construct the necessary metering facilities for all of the wells to be attached to Applicant's system, it is said. Applicant states that Southwest has agreed to reimburse Applicant for the actual cost of acquiring such rights-of-way and its construction of the gathering facilities (estimated to be some $175,550) together with associated carrying charges and related Federal and state taxes, including income taxes, through the payment of a facilities surcharge on the transportation gas volumes.

It is stated that Southwest would pay Applicant the following charges:

(a) for each Mcf of transportation gas delivered by Applicant at delivery points in the State of Arizona, the rate in effect and reflected from time to time as the "Mainline Transmission Charge, Arizona" set forth on Sheet No. 1-D.2 of Applicant's FPC Gas Tariff, Third Revised Volume No. 2, or superseding sheet or tariff; and

(b) for each Mcf of transportation gas delivered by Applicant at the delivery point on the boundary between the States of Arizona and Nevada, the rate in effect and reflected from time to time as the "Mainline Transmission Charge, Nevada" set forth on Sheet No. 1-D.2 of Applicant's FPC Gas Tariff, Third Revised Volume No. 2, or superseding sheet or tariff.

As compensation for the gathering and processing operations to be performed by Applicant on Southwest's behalf through the use of existing facilities in Applicant's San Juan Basin field gathering system, Southwest would pay Applicant the rates in effect and reflected from time to time as the production area charge, field gathering and the production area charge, processing, respectively, it is said.

It is stated that to the extent that the quantity of transportation gas available to Southwest on any day exceeds its need for additional gas supplies to serve its customers' priority 1, 2, and 3 end-use requirements, Southwest would sell such excess gas to Applicant at Applicant's receipt points and that on any day when Applicant is (1) rendering transportation service thereunder for Southwest and (2) otherwise allocating gas to Southwest for service to Southwest's priority 3 customers, Southwest would also sell to Applicant at Applicant's receipt points a quantity of gas equal to 25 percent of the aggregate quantity of transportation gas which Southwest is tendering to Applicant if such sale would require Southwest provided, however, that Southwest would not be obligated to sell such 25 percent quantity or any portion thereof to Applicant if such sale would require Southwest to curtail or interrupt service to its own priority 1 and 2 customers.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 27, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP74-126]

EL PASO NATURAL GAS CO.

Petition to Amend

JUNE 8, 1977.

Take notice that on May 26, 1977, El Paso Natural Gas Company (Petitioner), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP74-126 a petition to amend the Commission's order of April 2, 1975, as amended, issued in the

instant docket (53 FPC ____), pursuant to Section 7 of the Natural Gas Act so as to authorize the Lea No. 3 exchange point located in Lea County, New Mexico, as a new exchange point between Petitioner and Natural Gas Pipeline Company of America (Natural), all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

Petitioner indicates that pursuant to the Commission's order issued April 2, 1975, as amended, at Docket Nos. CP74–126 and CP74–162, Petitioner and Natural, respectively, were granted authorization to construct and operate facilities and to exchange gas in quantities aggregating up to 65,000 Mcf daily. Petitioner states that since the issuance of such authorizations, Natural has acquired additional gas supplies in proximity to Petitioner's gathering system in Lea County, New Mexico. In order to avoid construction of gathering facilities which would be duplicative of Petitioner's existing gathering facilities in such area, as well as the incurrance of the associated costs, and to aid Natural in the maintenance of natural gas service to customers served from its pipeline system, Petitioner and Natural have executed amendatory agreement no. 7 dated April 28, 1977, further amending the gas exchange agreement dated September 24, as previously amended, it is said.

Pursuant to the terms of the amendatory agreement no. 7, Natural would deliver, or cause the delivery of, exchange gas to Petitioner for Natural's account from the Mark Production Federal E No. 1 Well, which is presently connected to Petitioner's existing gathering system located in Lea County, New Mexico (Lea No. 3 exchange point). It is stated that Natural would reimburse Petitioner for 50 percent of the total costs and expenses incurred by Petitioner for labor and materials utilized in the installation of measurement and pipeline facilities required to connect said well to Petitioner's existing gathering system. The total costs to be shared by Petitioner and Natural are $52,450, and the facilities would be used to connect the Mark Production Federal E Well No. 1 to Petitioner's existing gathering system, it is said.

Petitioner states that the gathering facilities it has constructed in order to attach the Mark Production Federal E Well No. 1 to its existing gathering system are as follows:

Approximately 1.46 miles of 4½ inch O.D. pipeline, with appurtenances, including a 4½ inch O.D. standard orifice meter run, commencing at the wellhead of the Mark Production Federal E Well No. 1 and terminating at a point of interconnection with the existing 6⅝ inch O.D. Petroleum Corporation's McKay West Federal No. 1 well-tie pipeline in Lea County, New Mexico.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before June 29, 1977 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any heaing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17248 Filed 6-15-77;8:45 am]

[Docket No. CS73-34]

GREAT SOUTHERN OIL & GAS CO., INC.

Petition for Waiver

JUNE 8, 1977.

Take notice that Great Southern Oil & Gas Co., Inc. (Applicant), P.O. Box 52957, OCS, Lafayette, Louisiana 70505, filed a petition for waiver of § 157.40(c) of the Commission's Regulations.

Applicant states that insofar as he may make any sales of gas produced from properties acquired from Edgewater Oil Co., Inc., a small producer which had in turn acquired its interest from Monterey Pipe Line Company, a large producer, he will not seek a higher price than the applicable ceiling rate established by the Commission for comparable sales by large producers.

Any person desiring to be heard or to make any protest with reference to said petition should on or before June 30, 1977 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to the proceeding or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI77-500]

HUNT OIL CO.

Limited-Term Certificate Application

JUNE 8, 1977.

Take notice that on May 19, 1977, Hunt Oil Company (Hunt), 2900 First National Bank Building, 1401 Elm Street, Dallas, Texas, 75202, filed in Docket No. CI77-500 an application pursuant to Section 7(c) of the Natural Gas Act for a limited-term certificate of public convenience and necessity, with pregranted abandonment, authorizing the sale of gas to United Gas Pipe Line Company attributable to Hunt's gas production from the John R. Zavesky Well No. 1, Karnes County, Texas, pursuant to the terms of that certain contract dated January 5, 1977. It is Hunt's understanding that United will transport such gas in interstate commerce for resale for ultimate public consumption.

Hunt states that it intends to contract for the sale of gas from the John R. Zavesky Well No. 1 with an intrastate gas purchaser at the end of the period of this application.[1]

Any person desiring to be heard or to make any protest with reference to said application, on or before June 30, 1977, should file with the Federal Power Commission, Washington, D.C., 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-400]

IOWA PUBLIC SERVICE CO.

Cancellation

JUNE 8, 1977.

Take notice that Iowa Public Service Company (Iowa) on May 23, 1977, tendered for filing a cancellation of service supplied by Iowa to Farmers Cooperative Light and Power Company, located at Goldfield, Iowa. Iowa indicates that said agreement is to be cancelled by its own terms as of July 25, 1977, and that Humboldt County Rural Electric Cooperative is to be the successor in interest of Farmers Cooperative Light and Power Company. Iowa indicates that it has supplied electric energy at wholesale under an agreement dated July 25, 1972, designated Rate Schedule FPC No. 21, as supplemented.

Iowa proposed an effective date of cancellation of this service of July 25, 1977.

Iowa indicates that a copy of the notice of cancellation has been mailed to Farmers Cooperative Light and Power Company and Humboldt County Rural Electric Cooperative.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capital Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before June 16, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[1] Applicant proposes to sell and deliver to United up to 1,000 Mcf of gas per day at $1.90 per Mcf at 14.65 psia.

[Docket No. ER77-406]

KANSAS CITY POWER & LIGHT CO.

Filing of Change in Rate Schedule

JUNE 7, 1977.

Take notice that on May 27, 1977, Kansas City Power & Light Company (KCPL) tendered for filing a Municipal Wholesale Firm Power Contract dated May 9, 1977, between KCPL and the City of Slater, Missouri. KCPL requests an effective date of June 27, 1977. KCPL indicates that the Contract terminates the Municipal Wholesale Firm Power Contract, dated December 11, 1967, KCPL Rate Schedule FPC No. 64, and provides for rates and charges for wholesale firm power service by KCPL to the City of Slater.

KCPL states that the proposed rates are KCPL's rates and charges for similar service under schedules previously filed by KCPL with the Federal Power Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

Proposed Revised Tariff Sheets

JUNE 8, 1977.

Take notice that on May 27, 1977, Kansas-Nebraska Natural Gas Company, Inc. (Kansas-Nebraska), 300 N. St. Joseph Avenue, Hastings, Nebraska 68901, proposes, pursuant to Section 4 of the Natural Gas Act, the withdrawal of certain Tariff Sheets presently under suspension and the substitution therefor of Revised Tariff Sheets, all as more fully set forth in the May 27, 1977, filing which is on file with the Commission and open to public inspection.

Kansas-Nebraska states that on December 27, 1976, it filed with the Commission the following revised tariff sheets to its FPC Gas Tariff, Third Revised Volume No. 1 to be effective February 1, 1977:

Second Revised Sheet No. 14
First Revised Sheet No. 24
Original Sheet No. 24A
Original Sheet No. 24B
Original Sheet No. 24C
First Revised Sheet No. 25
Original Sheet Nos. 33 through 37

According to Kansas-Nebraska these tariff sheets contain a proposed plan for allocating Kansas-Nebraska's delivery capability on a non-discriminatory basis. By order of the Commission issued January 26, 1977, these tariff sheets were accepted for filing and suspended until July 1, 1977.

Subsequent to the December 27, 1976 filing and during the hearings held on the issue of whether the proposed filing should be acted upon under Section 7 or Section 4 of the Natural Gas Act, Kansas-Nebraska claims that it stated its intention of making certain changes in the filed tariff sheets. Accordingly, Kansas-Nebraska requests that the following tariff sheets submitted on December 27, 1976 be withdrawn:

First Revised Sheet No. 24
Original Sheet No. 24A
Original Sheet No. 24B
Original Sheet No. 24C

In substitution thereof, Kansas-Nebraska proposes the following revised tariff sheets:

First Substitute First Revised Sheet No. 24. Kansas-Nebraska states that the last sentence of Section 13.b.(2) has been revised to clarify when the replacement of an existing generating unit is considered an additional sale.

Substitute First Revised Sheet No. 24A. Kansas-Nebraska states that an additional sentence was added to place a limitation on the amount of gas Kansas-Nebraska would be permitted to inject into storage when reducing deliveries to customers in Steps 1 through 4. In addition, the phrase "more than 50 Mcf" in Step 7 has been changed to "50 Mcf or more."

Substitute First Revised Sheet No. 24B. Kansas-Nebraska states that a clause has been added to clarify when notice is to be given in force majeure situations.

Substitute First Revised Sheet No. 24C Kansas-Nebraska states that the addition of material on proceeding sheets moves the lines at the bottom of Original Sheet No. 24B onto Sheet No. 24C. There is no other change on this sheet.

In addition, Kansas-Nebraska has filed Second Revised Sheet No. 15. Kansas-Nebraska states that an additional sentence has been added to Section 5 of Rate Schedule IOR–1 and IOR–2 to deal with curtailment of gas under the IOR Rate Schedule.

Kansas-Nebraska requests that the tendered tariff sheets be suspended until July 1, 1977, in conformance with the Commission's order of January 26, 1977, and Kansas-Nebraska further requests such waivers of the Rules and Regulations as are necessary, particularly a waiver of § 154.66, to assure an effective date of July 1, 1977.

Kansas-Nebraska states that a copy of this filing is mailed to each of Kansas-Nebraska's customers and interested state commissions and all parties of record in Docket No. RP76–90 and that a copy of this filing is also available for publis inspection in a convenient form and place at Kansas-Nebraska's offices at Hastings, Nebraska and Phillipsburg, Kansas.

Any person desiring to be heard or to make any protest with reference to said filing should on or before June 20, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-404]

LOUISIANA POWER & LIGHT CO.

Proposed Electric System Interconnection Agreement

JUNE 7, 1977.

Take notice that on May 31, 1977, the Louisiana Power & Light Company (LP&L) tendered for filing an Electric System Interconnection Agreement dated May 24, 1977. According to LP&L the agreement provides for the delivery of emergency electric service to the City of Monroe, Louisiana (City), and also provides when elected by the City, service

schedules for Reserve Capacity, Supplemental Power, Surplus Power, Economy Power, and Transmission Service. LP&L indicates that the City will continue taking only emergency assistance service.

LP&L states that the City is experiencing a shortage of fuel and problems with generation which may require extensive emergency assistance immediately and therefore requests waiver of the Commission's formal notice requirements. LP&L further states that there is no change in the facilities.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI77-510]

McCORMICK 1975 OIL AND GAS PROGRAM, ET AL.

Limited-Term Certificate Application

JUNE 8, 1977.

Take notice that on May 20, 1977, McCormick 1975 Oil and Gas Program, et al. (Applicants) 1204 Tenneco Building, Houston, Texas 77002 filed in Docket No. CI77-510 an application pursuant to Section 7(c) of the Natural Gas Act for a limited-term certificate of public convenience and necessity, with pregranted abandonment, for the sale of gas produced from certain leases in the West Beckville Field Area, Panola County, Texas to United Gas Pipe Line Company, pursuant to a gas purchase contract dated May 4, 1977.

Applicants are the sellers under that certain gas purchase contract with United Gas Pipe Line Company dated May 4, 1977 West Beckville Field Area, Panola County, Texas.

Applicants state that no construction of facilities is necessary to take deliveries of gas from Applicants.

Applicants are advised that United Gas has an existing gas supply emergency on its system and the proposed 1 year gas sale contract sought herein is needed to assist United Gas in meeting its commitments to its customers. Applicants indicate that they have no subsequent commitment of the subject gas.

Any person desiring to be heard or to make any protest with reference to said application, on or before June 30, 1977, should file with the Federal Power Commission, Washington, D.C., 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing herein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-46]

MONTAUP ELECTRIC CO.

Filing of Refund Report

JUNE 8, 1977.

Take notice that on May 31, 1977 Montaup Electric Company (Montaup) tendered for filing a refund report in accordance with the Commission's order approving a settlement agreement in the captioned proceeding entered on February 25, 1977.

Any person desiring to be heard or to protest said filing should file comments with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before June 27, 1977. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

[Docket No. RP74-100 (PGA77-6)]

NATIONAL FUEL GAS SUPPLY CORP.

Proposed PGA Rate Adjustment

JUNE 8, 1977.

Take notice that on May 25, 1977, National Fuel Gas Supply Corporation (National) tendered for filing as part of its FPC Tariff, Original Volume No. 1, Substitute Twelfth Revised Sheet No. 4, proposed to be effective July 1, 1977.

National states that the sole purpose of this revised tariff sheet is to adjust National's rates pursuant to the PGA provisions in Section 17 of the General Terms and Conditions. National further states that such tariff sheet reflects an adjustment in Nation's rates of 20 cents per Mcf on Substitute Twelfth Revised Sheet No. 4.

It is stated that copies of the filing have been mailed to all of its jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before June 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-158]

NORTH PENN GAS CO.

Certification of Settlement Agreement

JUNE 7, 1977.

Take notice that on May 11, 1977, the Presiding Administrative Law Judge certified to the Commission a proposed Stipulation and Agreement for Settlement of Rate Proceeding together with the record in the proceeding. The proposed agreement disposes of all issues in the proceeding.

Any person desiring to be heard or to protest said settlement agreement should file comments with the Federal Power Commission, 825 North Capitol Street N.E., Washington, D.C. 20426, on or before July 1, 1977, reply comments are due no later than July 15, 1977. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17244 Filed 6-15-77;8:45 am]

[Docket No. ER77-43]

PACIFIC POWER & LIGHT CO.

Presiding Administrative Law Judge's Certification of Proposed Settlement to Commission

JUNE 8, 1977.

Take notice that on May 17, 1977, Presiding Administrative Law Judge Isaac D. Benkin (ALJ) certified to the Commission, pursuant to § 1.18 of the Rules of Practice and Procedure, a contract between Pacific Power & Light Company (PP&L) and Montana Light & Power Company (ML&P) relating to rates for electric power sales between those two parties. The ALJ indicates that the contract, which has been executed by both parties, carries a May 1, 1977, effective date. The ALJ also indicates that the contract has been submitted by counsel for PP&L as a settlement of all issues in dispute in this proceeding.

According to the ALJ the proceeding was initiated on November 5, 1976 by PP&L's filing of a rate schedule for sales of electricity to ML&P. Moreover, states the ALJ, prior to that date, service to ML&P had been governed by a letter agreement, dated February 3, 1973, and that under that agreement, PP&L had supplied electric power to ML&P on a month-to-month basis. The ALJ indicates that by order issued February 4, 1977, the Commission suspended the PP&L filing until July 7, 1977, and directed that a hearing to be held to determine whether the rates contained in the November 5, 1976, filing are just and reasonable.

According to the ALJ, although not expressly stated in the May 1, 1977, agreement, the terms contained therein presumably supersede those in the PP&L filing and that if deemed just and reasonable by the Commission, therefore, the agreement would render moot the issues set down for hearing in the Commission's February 3, 1973 order.

Any person wishing to do so may submit comments in writing concerning the above filing. Comments should be addressed to the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, and should be submitted on or before June 20, 1977. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-505]

PUBLIC SERVICE CO. OF NEW HAMPSHIRE

Rate Schedule Supplements

JUNE 8, 1977.

Take notice that Public Service Company of New Hampshire on April 19, 1977 tendered for filing, purportedly in accordance with the Commission order issued March 18, 1977 approving the Settlement Agreement in Docket No. ER76-505, rate schedule supplements in connection with the following rate schedules:

Concord Electric Company, FPC No. 24
Town of Ashland, New Hampshire, FPC No. 26
The New Hampton (New Hampshire) Village Precinct, FPC No. 29
Exeter & Hampton Electric Company, FPC No. 35
New Hampshire Electric Cooperative, Inc., FPC Nos. 50 & 71
Town of Wolfeboro, New Hampshire, FPC No. 73

The Public Service Company of New Hampshire states that copies of this filing have been furnished to each of the customers listed and the New Hampshire Public Utilities Commission and the Vermont Public Service Board.

Any person desiring to be heard on whether said filing is in accordance with the Commission order issued March 18, 1977, should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before June 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ID-1813]

S. HALE LULL

Application

JUNE 7, 1977.

Take notice that on May 12, 1977, S. Hale Lull, Vice President of Northeast Utilities Service Company, filed an application pursuant to Section 305(b) of the Federal Power Act to hold the following positions:

Vice President, The Connecticut Light and Power Company, Public Utility.
Vice President, The Hartford Electric Light Company, Public Utility.
Vice President, Western Massachusetts Electric Company, Public Utility.
Vice President, Holyoke Water Power Company, Public Utility.
Vice President, Holyoke Power and Electric Company, Public Utility.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 1, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. E-6859]

SOUTHERN CALIFORNIA EDISON CO. AND PACIFIC GAS & ELECTRIC CO.

Proposed Agreement

JUNE 8, 1977.

Take notice that on October 26, 1976, Southern California Edison Company (Edison) filed a letter of agreement concerning payments for headwater benefits furnished by Edison to Pacific Gas and Electric Company (Pacific). Pacific proposed to increase its annual headwater payments to Edison from $72,000 to $83,000 commencing with the payment for 1972. Edison and Pacific agree that this increased payment shall remain in effect for a minimum of five annual payments. Thereafter, the annual payments amount may be reviewed and readjusted upon the written request of either party to the other in order to provide for revisions that may be appropriate by reason of changes in facilities, cost of interest, depreciation, or maintenance, or in pertinent operating conditions which might result in changes in benefits; provided that any future readjustment shall be applied only prospectively to payments made after the date of the readjustment, and shall also remain in effect for a minimum of five annual payments.

Any person desiring to be heard or to protest said proposed agreement should file comments with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before July 22, 1977.

Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-64 (PGA77-2) (DCA77-2)]

SOUTHERN NATURAL GAS CO.

Proposed Changes in FPC Gas Tariff

JUNE 8, 1977.

Take notice that Southern Natural Gas Company (Southern), on May 17, 1977, tendered for filing proposed changes in its FPC Gas Tariff, Sixth Revised Volume No. 1, to become effective July 1, 1977. Such filing is pursuant to Section 17 (Purchased Gas Adjustment) of the General Terms and Conditions of Southern's FPC Gas Tariff, Sixth Revised Volume No. 1. The proposed changes would increase Southern's rates as a result of the following items:

(1) A Current Adjustment, pursuant to Section 17.3 of the General Terms and Conditions of Southern's FPC Gas Tariff, for an increase in cost of purchased gas to jurisdictional customers of $52,992,170 or 11.190 cents per Mcf.

(2) A Surcharge Adjustment for Purchased Gas Costs, pursuant to Section 17.4 of the General Terms and Conditions

of Southern's FPC Gas Tariff, for Unrecovered Purchased Gas Costs of 6.78 cents per Mcf, which is a net increase of 1.905 cents per Mcf above the present Surcharge Adjustment. The Surcharge Adjustment is made up of two parts. The first part of 3.603 cents per Mcf is for all unrecovered purchased gas costs in the Unrecovered Purchased Gas Cost Account as of March 31, 1977 except those unrecovered costs due to Opinion No. 770–A. The second part, or 3.165 cents per Mcf, is the Surcharge Adjustment for unrecovered purchased gas costs due to Opinion No. 770–A for increases effective July 27, 1976 through December 31, 1976 and will be in effect for the entire year of 1977.

(3) A Surcharge Adjustment for estimated Demand Charge Credits pursuant to Section 9.6(3) of the General Terms and Conditions of Southern's FPC Gas Tariff of 2.344 cents per Mcf.

Copies of the filing are being served upon the company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77–17237 Filed 6–15–77;8:45 am]

[Docket No. CP77–411]

SOUTHWEST GAS CORP.

Application

JUNE 8, 1977.

Take notice that on May 25, 1977, Southwest Gas Corporation (Applicant), P.O. Box 15015, Las Vegas, Nevada 89114, filed in Docket No. CP77–411 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale of natural gas to El Paso Natural Gas Company (El Paso), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is stated that Applicant has signed two contracts with independent natural gas producers to purchase natural gas from wells in the San Juan Basin in northern New Mexico and southern Colorado. Applicant indicates that the subject gas is intended primarily to provide protection of Applicant's priority 1, 2, and 3 customers in southern Nevada and Arizona. It is asserted that Applicant has experienced significant curtailments by El Paso of Applicant's priority 3 requirements in the past and believes such curtailments would continue and worsen in the future. It is stated that Applicant's priority 1 and 2 gas requirements have already grown beyond the cut-off levels prescribed in the Commission's Opinion No. 697–A in Docket No. RP72–6.

Applicant states that it has signed agreements with El Paso in which El Paso has agreed: (1) To construct and operate facilities and (2) to gather, process, and transport the subject gas to the existing delivery points for Applicant's market areas. Such transportation service would be provided by El Paso on a best efforts basis using such idle capacity as may exist from time to time in El Paso's interstate pipeline system, it is said.

Applicant further states that it would sell to El Paso volumes of natural gas determined by Applicant on a daily basis to be excess. Applicant indicates that it would reimburse El Paso for the actual costs incurred by El Paso in acquiring all necessary rights-of-way and constructing the needed gathering facilities, together with associated carrying charges and related Federal and state taxes, including income taxes. Applicant states that it would also pay a transportation charge to El Paso for volumes transported for Applicant by El Paso.

It is stated that El Paso agrees to pay Applicant for the quantities of excess gas sold by Applicant, and purchased by El Paso the same price which Applicant is itself obligated to pay Seller(s) from whom it purchases such quantities; provided, however, that in the event of deregulation of the wellhead price of natural gas sold for resale in interstate commerce, El Paso would not be obligated to pay a price in excess of the highest price then being paid by El Paso to others for gas of similar quality in the San Juan Basin.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 29, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77–17249 Filed 6–15–77;8:45 am]

[Docket No. CI77–298]

TENNECO INC. AND AMOCO PRODUCTION CO. ET AL.[1]

Investigation Certificates Abandonment; Order Setting Investigation for Hearing and Granting Interventions

JUNE 6, 1977.

Before Commissioners: Richard L. Dunham, Chairman, Don S. Smith, and James G. Watt.

By order issued March 8, 1977, the Commission instituted an investigation into the matters raised in a pleading filed on February 28, 1977, by Tenneco Inc. (Tenneco). Tenneco requested in the pleading that the Commission issue a declaratory order resolving alleged uncertainties as to whether the necessary authority had been obtained under the Natural Gas Act in connection with the release of natural gas from acreage or reservoirs under contract to Tennessee Gas Pipeline Company (Tennessee), an interstate pipeline and a division of Tenneco, for sale by independent producers to channel Industries Gas Company (Channel), an intrastate pipeline which is also a Tenneco subsidiary. In the March 8, 1977, order the Commission required the affected producers to respond to these issues.

Tenneco filed on March 18, 1977, a supplement to its first petition providing additional information on certain fields already mentioned and information concerning additional fields previously unmentioned. In its Supplemental Order, issued April 4, 1977, the Commission directed the additional affected producers to file a response to the matters raised in Tenneco's supplemental petition.

In response to requests for extensions of time within which to file the producer responses, the date for filing responses to Tenneco's February 28, 1977, petition was extended to April 20, 1977, by notice issued April 11, 1977.

In response to the public notice of Tenneco's pleadings, the parties listed in Appendix B filed petitions to intervene, notices of intervention or responses.

Based on Tenneco's two petitions and the producer comments filed in response thereto, we have constructed a brief outline of the facts surrounding the transactions referred to by Tenneco. We shall set forth these facts below by reference to the producing fields which are involved.

[1] The other producer respondents are listed in Appendix A.

(1) SEELIGSON FIELD, JIM WELLS COUNTY, TEXAS

Shell Oil Company (Shell) and the predecessors of Atlantic Richfield Company (ARCO), Mobil Oil Corporation (Mobil) and Sun Oil Company (Sun) entered into a contract dated May 25, 1948, with the predecessor of Tennessee Gas Pipeline Company (Tennessee) to sell natural gas from the Seeligson Field in Jim Wells County, Texas. Production from this field was dedicated to this contract without depth limitation. After the Phillips[2] decision each of the producers applied for and received certificates of public convenience and necessity authorizing these sales.

Subsequently, each of the producers entered into a replacement contract with Tennessee dated March 1, 1958, which extended the term of the original contract and limited the dedications of leaseholds for sales of gas to Tennessee to the depth intervals made subject to the Texas Railroad Commission approved unitization agreement for the Seeligson Field Unit. The Seeligson Unit was limited to reservoirs above the base of the 20–C4 zone. In addition, the replacement contracts contained a provision under which the reserves committed to the contracts could be reduced if Tennessee did not take or pay for the required contract quantity and a procedure under which gas available in excess of Tennessee's purchases could be deemed to be surplus gas available for sale to other purchasers.

Each of the producers filed the replacement contracts with the Commission as supplements to their respective rate schedules. Furthermore, Arco and Sun applied under Section 7 of the Natural Gas Act for amendments to their certificates to correspond to the terms of the 1958 replacement contracts. The Commission granted Sun's application by order issued June 9, 1960, but rejected Arco's application by letter dated April 18, 1960, on the grounds that "no further certificate authorization is required".

Each of these producers then executed contracts in 1965 for the sale of gas to Channel from reservoirs below the depth limitation of the Seeligson Unit. Then in April of 1966 the producers contracted to sell to Channel surplus gas from the Seeligson Unit.

(2) RIVERSIDE—O'NEIL FIELDS, NUECES COUNTY, TEXAS

On November 30, 1945, a predecessor of Amoco contracted to sell gas to Tennessee from the Riverside and O'Neil Fields. The contract provided for a purchase quantity equal to the amount "Buyer may from day to day elect to take * * *". This contract expired by its terms on May 1, 1956, and was not renewed, although deliveries continued under the terms of the rate schedules filed by Amoco. The sale to Tennessee was certificated on June 19, 1959, in Docket No. G–7503.

On February 2, 1965, Amoco contracted to sell Channel gas which Tennessee elected not to take. Amoco conveyed its interests in the Riverside Field to Clinton Oil Company (now Energy Reserves Group, Inc.) effective December 31, 1969. In early 1974 Clinton executed a contract with Tennessee which did not cover all the Riverside Field acreage which had been covered by the 1945 Tennessee contract. On March 16, 1970, Tennessee elected not to continue taking gas from the O'Neil Field lease. Peninsula Exploration Company (Peninsula) acquired a portion of the Riverside Field acreage below 6,900 feet which was covered by the 1945 contract but not by the 1974 Clinton-Tennessee contract. On December 1, 1974, Peninsula contracted to sell gas from this acreage below 6,900 feet to Channel.

(3) SOUTHWEST PHEASANT FIELD, MATAGORDA COUNTY, TEXAS

In 1959 Mobil and ARCO contracted to sell gas to Tennessee from the Southwest Pheasant Field. The gas was to be used by Tennessee for compressor fuel within the State of Texas. These contracts terminated in 1965 and on February 15, 1965, and May 4, 1965, Mobil and Arco contracted to sell to Channel gas from the acreage previously covered by the Tennessee contracts. As of the date of Tenneco's first petition, sales from this acreage were still being made by Mobil and Arco to Channel. By contract dated March 11, 1977, Mobil has agreed to sell and Tennessee has agreed to purchase gas from this field. On March 14, 1977, Mobil filed an application for a certificate and for temporary authorization to initiate the sale. By letter order issued April 8, 1977, the Commission issued to Mobil a temporary certificate in Docket No. CI77–328.

(4) EDINBURG FIELD, HIDALGO COUNTY, TEXAS

On April 1, 1952, Tennessee contracted to purchase gas from Mobil, Arco, Sun and Rio Bravo Oil Company (Bravo) from the Edinburg Field. The contract provided that the producers would sell to third parties gas produced from wells at insufficient pressure to enter Tennessee's lines. The contract also provided that if Tennessee did not take (or pay for, if available and not taken) sufficient gas to keep the producers' leases in force and effect, then the producers could sell to others such quantities of gas necessary to keep the leases in force and effect. Each of the producers obtained a certificate from the Commission for their respective sales.

The producers contracted on September 1, 1966, to sell to Channel gas from the Edinburg Field acreage covered by the Tennessee contract. These sales, which were purportedly made in volumes exceeding the producers' delivery obligations under the Tennessee contract, were terminated in late 1973.

(5) CHESTERVILLE FIELD, COLORADO COUNTY TEXAS

By contract dated December 1, 1946, Mobil, Amoco, Monsanto Company, Continental Oil Company (Continental) and Shell agreed to sell to Tennessee gas from the Chesterville Field. Tennessee was given the discretion to determine, within certain limitations, the quantity of gas to be purchased under the contracts. These sales were certificated by the Commission. In 1966 and 1967 the producers contracted to sell to Channel gas from this field which Tennessee elected not to take. Tennessee later elected to take all gas from the Chesterville area and the deliveries to Channel were terminated in 1974.

(6) BAY CITY FIELD, MATAGORDA COUNTY, TEXAS

Skelly Oil Company (now Getty Oil Company) contracted on June 28, 1948, to sell to Tennessee gas produced from all horizons down to 8,800 feet in the Bay City Field. The contract provided that the reserves dedicated could be reduced if Tennessee did not take or pay for the required contract quantity for a specified time period. The sale was certificated on June 7, 1956, in Docket No. G–5331. The contract was amended by letter dated May 11, 1966, adding a provision allowing Skelly to sell any excess gas not taken by Tennessee to other parties. This amendment was filed as a supplement to Skelly's FPC Gas Rate Schedule No. 10 and accepted by the Commission in a letter order dated June 25, 1966.

By contract dated July 25, 1966, Skelly sold to Channel all excess gas from acreage covered by the Tennessee contract as well as gas produced from depths below 8,800 feet. These excess gas sales are no longer continuing.

(7) BRAYTON FIELD, NUECES COUNTY, TEXAS

In 1949 Tennessee contracted with D. H. Perry, et al. (later Puenticitas Oil Company) to purchase gas in the Brayton Field. The contract provided that reserves could be released from the contract dedication if Tennessee did not take or pay for the required contract quantity for a specified period of time. This sale was certificated in 1954. By contract amendment dated August 2, 1965, the Perry and Simmonds sands were deleted from the reserves covered by the contract pursuant to the above provision. In 1973 after Puenticitas decided to abandon the remaining wells the Puenticitas-Tennessee contract was terminated and the Commission granted abandonment on September 26, 1974, in Docket No. CI74–358. Puenticitas contracted on August 3, 1965, to sell to Channel gas from the Perry and Simmonds sands, and an additional sand was dedicated to

[2] *Phillips Petroleum Co. v. Wisconsin*, 347 U.S. 672 (1954).

Channel on April 21, 1966. These sales ceased in 1971.

J. C. Storm obtained from Puenticitas an interest in the Brayton Field and contracted on December 21, 1969, to sell to Channel gas from depths not then covered by the previous contracts. South Texas Oil and Gas Producing Company, Inc. then obtained Storm's interest and the contract covering the sale was amended to cover all depths in the acreage covered by the original Tennessee contract. Sales under this contract are continuing.

Forest Oil Corporation (Forest) also sold to Tennessee gas produced from the Brayton Field under a contract certificated in Docket No. G–2954. This contract contained a release of reserve provision similar to the clause in the Puenticitas-Tennessee contract, and the Perry and Simmonds sands were released from the contract on March 7, 1966. By contract dated December 1, 1965, Forest sold to Channel gas from the Perry and Simmonds sands. These sales were later discontinued.

(8) COLD SPRINGS FIELD, SAN JACINTO, TEXAS

On June 5, 1950, Continental contractd to sell to Tennessee gas produced from the Cold Springs Field without depth limitation. After the sale was certificated in 1956 the contract was amended on March 21, 1967, to limit the dedicated acreage to the 9,000 to 10,312 foot zone. This amendment was filed as a rate schedule supplement and accepted by the Commission. In 1968 Continental contracted to sell gas to Channel from depths other than the 9,000 to 10,312 foot zone under the same acreage covered by the Tennessee contract. The Channel contract was terminated in 1973.

(9) NORTH GARWOOD FIELD, COLORADO COUNTY, TEXAS

On November 3, 1953, Tennessee contracted with a predecessor of Marathon Oil Company to purchase gas from the North Garwood Field. A certificate authorizing this sale was issued on December 1, 1958, in Docket No. G–11816. Marathon assigned its interest in four leases to Neil E. Hanson who applied for and received certificate authorization. These leases were then assigned to Goldrus Drilling Co. and then to Goldking Properties, Inc. (Goldking), for which Goldking Production Company is agent and operator. According to Goldking, Tennesse was unwilling to install the necessary compressor and gathering line in order to receive deliveries of the gas, and therefore the contract with Tennessee expired by its own terms. By contract effective September 1, 1972, Goldking contracted to sell to Channel gas from the four leases, and gas is currently being delivered at a rate of 416 Mcf per day from four wells to Channel under the terms of this contract.

(10) STRATTON—AGUA DULCE FIELD, JIM WELLS, KLEBURG AND NUECES COUNTIES, TEXAS

On August 15, 1952, predecessors of Champlin Petroleum Company (Champlin) contractd to sell to Tennessee gas from the Stratton-Agua Dulce Field. The contract provided that the producer was authorized to sell gas to others in order to maintain ratable takes. The sale was certificated in Docket No. G–2999. Pursuant to the ratable take provision, Champlin sold gas from this field to Channel as evidenced by a letter agreement date June 7, 1972. The sales were discontinued in 1973.

In their responses to Tenneco's petitions, Arco, Mobil and Amoco request that the investigation into these matters be discontinued on the grounds that such a proceeding would not be in the public interest. Essentially, these producers argue that it would not be proper to look into transactions which took place years ago, especially where the affected producers have relied on "the long-standing actions and approvals" by the Commission. We do not agree that this investigation should be terminated merely because many of the transactions involved are several years old, particularly where these transactions may have involved violations of th Natural Gas Act and the Commission's Regulations thereunder. Furthermore, we cannot accept the argument that no further action be taken with respect to Tenneco's petition on the ground that the producers have relied on Commission actions, for it is not clear at this time that all of the necessary Commission authorization was obtained regarding the transactions at issue. Therefore, we find that this investigation should not be discontinued, and, in view of the many legal and factual questions that are presented by Tenneco's pleadings and the producers' responses thereto, we believe that the issues cannot be resolved without a full evidentiary proceeding.

Among the issues to be addressed by the parties in this proceeding is the question of whether a producr has complied with the requirements of the Natural Gas Act when gas formerly dedicated to the interstate market is sold intrastate pursuant to a surplus gas provision in the contract with the purchasing interstate pipeline which was certificated by the Commission. Another issue to be addressed is the question of the legal effect of the filing and acceptance of a contract amendment as a supplement to a producer's rate schedule. The parties should also address the question of remedies if it is determined that the provisions of the Natural Gas Act were not complied with, including the possibility of payback. Finally, we direct the parties to address the question of whether violations of the Natural Gas Act have occurred such that the penalty provisions of Section 21 of the Act should be invoked. Of course, we do not intend to limit the issues in this proceeding to those discussed above.

In lieu of filing a response to Tenneco's pleadings, Sun filed on April 20, 1977, a motion to dismiss Tenneco's petition for a declaratory order and to dismiss the order issued March 8, 1977, instituting this investigation. Sun states that Tenneco has no standing to file a petition for a declaratory order because Tenneco is not subject to the Commission's jurisdiction. We reject this contention and note that the real question is whether the matters raised in such a petition are appropriate for a Commission determination. Clearly, possible violations of the Natural Gas Act by natural gas producers come within the ambit of the Commission's jurisdiction. Sun also alleges that Tenneco's pleading merely represents an attempt to raise a defense in damage suits pending against Tenneco in state court proceedings in the District Court of Harris County, Texas.[1] We cannot permit the allegation of potential impact on state court proceedings to deter us from our duty to insure that the Natural Gas Act is properly enforced. Finally, Sun notes that Tenneco filed its petition pursuant to § 1.7(c) of the Commission's Rules of Practice and Procedure, and, according to Sun, the subject matter of the petition is not a valid subject of a petition under this section. Section 1.7(c) of the Rules provides that issuance of a declaratory order is designed "to terminate a controversy or remove uncertainty." Tenneco's petition was properly filed pursuant to this section in that the matters raised therein involve a number of uncertainties with regard to compliance with the Natural Gas Act. For these reasons we shall reject Sun's April 20, 1977, motion to dismiss.

In its Notice of Intervention filed on March 23, 1977, the Public Service Commission of the State of New York (New York) requests that the producers mentioned in Tenneco's February 28, 1977, petition be directed to immediately cease any future gas deliveries to Channel and that Tennessee be ordered to cease transportation of the gas to Channel. Furthermore, New York asks that Channel be directed to stand ready to deliver to Tennessee an amount of gas equivalent to that which it has received from the producers where no abandonment authorization has been secured. We believe that it would be inappropriate to grant New York's requests at this time. As noted previously, it is necessary that these matters be fully explored in an evidentiary hearing before the Commission may make a reasoned determination as to whether the necessary Commission authorizations have been obtained regarding these transactions.

The Tennessee Public Service Commission filed on March 21, 1977, a request that the matters raised in Tenneco's pleadings filed in this docket be set for hearing. For the reasons noted above we shall grant this request.

On May 25, 1977, FMC Corporation (FMC) filed a motion for reconsideration of our March 8, 1977 order urging the deferral of this investigation on the grounds that Tenneco has yet to submit a complete statement of the facts and grounds prompting its petition for declaratory order pursuant to § 1.7(c) of the Commission's Regulations. We shall deny FMC's motion as we have determined that sufficient information has been presented in Tenneco's pleadings and the producers responses to justify the continuation of the investigation instituted in our March 8, 1977 order.

The Commission finds: (1) It is in the public interest to set the investigation instituted by the Commission's March 8, 1977 order issued in this proceeding for hearing.

(2) Sun's motion to dismiss should be denied.

(3) New York's requests to require the producers to cease gas deliveries to Channel and to direct Channel to stand ready to deliver to Tennessee a volume of gas equivalent to that received from the producers should be denied.

(4) FMC's motion for reconsideration should be denied.

(5) Good cause exists to grant the above-mentioned petitions to intervene and to make the affected producers respondents to this proceeding.

The Commission orders: (A) Pursuant to the authority of the Natural Gas Act, particularly Sections 4, 5, 7, 8, 10, 14, 15 and 16 thereof, the Commission's Rules of Practice and Procedure, and the Regulations under the Natural Gas Act (18 CFR Chapter I), a public hearing in Docket No. CI77–298 shall be held in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 for the purpose of hearing and disposition of the issues in this proceeding.

(B) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing in this proceeding, with authority to establish and change all procedural dates, and to rule on all motions (with the exception of petitions to intervene, motions to consolidate and sever, and motions to dismiss, as provided for in the Rules of Practice and Procedure).

(C) Tenneco shall file its direct testimony and evidence on or before July 1, 1977. The producer respondents shall file their direct testimony and evidence on or before July 22, 1977. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all parties to this proceeding.

(D) The Presiding Judge shall preside at a pre-hearing conference to be held on August 16, 1977, at 10:00 A.M. E.D.T. in a hearing room at the address noted in Ordering Paragraph (A).

(E) Sun's motion to dismiss is hereby denied.

(F) New York's requests noted above are hereby denied.

(G) FMC's motion for reconsideration is hereby denied.

(H) The above-mentioned petitioners to intervene are hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission; *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as are specifically set forth in said petitions for leave to intervene; and *Provided, further,* That the admission of such interests shall not be construed as recognition by the Commission that such intervenors might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(I) Each of the affected producers listed on Appendix A are hereby made respondents.

By the Commission.

KENNETH F. PLUMB, *Secretary.*

[Docket No. CI77–522]

TRANSCO EXPLORATION CO.

Limited-Term Certificate Application

JUNE 8, 1977.

Take notice that on May 25, 1977, Transco Exploration Company (Applicant) P.O. Box 1396, Houston, Texas, 77001, filed in Docket No. CI77–522 an application pursuant to Section 7(c) of the Natural Gas Act for a limited-term certificate of public convenience and necessity, with pregranted abandonment, covering the sale of gas by Applicant to Transcontinental Gas Pipe Line Corporation (Transco). The limited-term is to cover the period from date of initial delivery to the date that notice of payout of the well is given.

Under the terms of the agreement by which Applicant acquired its interest, Patrick retained an overriding royalty interest convertible after payout of the well to a one-third working interest. The lease obtained from Amoco also allows Amoco similar conversion rights after payout. Under the terms of said agreement and lease, Applicant is prohibited from taking any action which would interfere with the ability of Patrick or Amoco to market their working interest share of production in the event either of their royalty interests are converted.

Applicant and Transco entered into a contract dated May 23, 1977, covering the sale and purchase of gas from the Southwest Gibson Field, Terrebonne Parish, Louisiana. Pursuant to the agreement Applicant proposes to sell natural gas to Transco from the date of initial delivery thereunder, at an initial rate of $1.55413953 per Mcf at 15.025 psia, to be delivered at a mutually agreeable point in the field into Transco's facilities. The agreement pertains to that portion of Applicant's working interest which the overriding royalty interests have the right to convert into their working interests.

Transco has advised that its gas supply shortage is very critical and that it needs all available volumes at the earliest possible date.

Transco has constructed a gathering line running from its pipeline to a central point in the Southwest Gibson Field. This line is now installed and final tie-in connections completed.

Any person desiring to be heard or to make any protest with reference to said application, on or before June 30, 1977, should file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17236 Filed 6-15-77;8:45 am]

[Docket No. CP76-458]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Petition to Amend

JUNE 8, 1977.

Take notice that on May 26, 1977, Transcontinental Gas Pipe Line Corporation (Petitioner), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP76-458 a petition to amend the Commission's order of October 13, 1976, issued in the instant docket (56 FPC), pursuant to Section 7 of the Natural Gas Act and § 157.7(b) of the Regulations thereunder (18 CFR 157.7(b)) so as to authorize Petitioner to increase the total cost of facilities constructed under the budget-type authorization to $16,000,000, all as more fully set forth in the petition which is on file with the Commission and open to public inspection.

Pursuant to the Commission's order of October 13, 1976, issued in the instant docket, Petitioner was authorized to construct and operate gas purchase facilities under budget-type authorization for a one-year period which commenced on October 22, 1976. Petitioner indicates that the total cost of facilities constructed under the budget-type authorization is limited to $12,000,000, with no single onshore project to exceed $1,500,000, and no single offishore project to exceed $2,500,000.

By this petition, Petitioner requests a waiver of the total cost limitation provided by § 157.7(b) (2) of the Regulations and an increase in the limitation to $16,000,000. Petitioner states that with about five months remaining on the current one-year budget authorization, it has already committed for actual or estimated expenditures under work orders issued thereunder of about $11,000,000, and that this amount reflects the cost of projects which have been completed, or are now under construction, or as to which engineering has been finalized and which are scheduled to be commenced in the near future. Petitioner further states that it estimates that additional expenditures for budget-type facilities during the remaining term of the current authorization, i.e., through October 21, 1977, may be up to $4,000,000; however, since Petitioner does not know at this time with particularity the location or source of supplies which would be attached under the proposed amended authorization, such total cost figure is necessarily an estimate based on past experience rather than specific known projects, it is said.

Petitioner indicates that the principal reason for increased budget-type expenditures is the much higher number of new gas supply attachments during the current period, and substantial inflation in material and construction costs that has occurred during the past several years. Petitioner's experience reflects that the two-year period 1975 and 1976, inflation of offshore construction costs has been approximately 33 percent on a compounded basis, it is indicated.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before June 29, 1977 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17250 Filed 6-15-77;8:45 am]

[Docket No. RP77-19]

TRANSWESTERN PIPELINE CO.

Motion to Place Tariff Sheets in Effect

JUNE 7, 1977.

Take notice that on May 31, 1977, Transwestern Pipeline Company (Transwestern), pursuant to Section 4(e) of the Natural Gas Act and Ordering Paragraph (B) of the Federal Power Commission's order issued December 29, 1976, filed a motion to place into effect on June 1, 1977 the following tariff sheets originally filed on December 1, 1976:

First Revised Sheet No. 1.
First Revised Sheet No. 23.
First Revised Sheet No. 50.
First Revised Sheet No. 63.
First Revised Sheet No. 64.
First Revised Sheet No. 74.
First Revised Sheet No. 76.
First Revised Sheet No. 78.

Transwestern requests that First Revised Sheet No. 24 filed on December 1, 1976 be withdrawn and the effectiveness of Original Sheet No. 24 be retained since no changes to the text of Original Sheet No. 24 were made in its revision.

Transwestern, additionally, moves that Seventh Revised Sheet Nos. 5 and 6, originally filed on December 1, 1976 and now modified to reflect subsequent purchased gas cost adjustment rate changes, be permitted to go into effect on June 1, 1977. In the alternative, Transwestern moves to place into effect on June 1, 1977 tariff sheet numbers 5 and 6 as originally filed on December 1, 1976 and now renumbered as Alternate Seventh Revised Sheet Nos. 5 and 6.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 24, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17230 Filed 6-15-77;8:45 am]

[Docket No. ID-1812]

JAMES O. TRUDEAU

Application

JUNE 7, 1977.

Take notice that on May 9, 1977, James O. Trudeau, Vice President of Orange Rockland Utilities, Inc., filed an application pursuant to Section 305(b) of the Federal Power Act to hold the following positions:

Vice President, Orange and Rockland Utilities, Inc., Public Utility. Vice President, Rockland Electric Company, Public Utility. Vice President, Pike County Light and Power Company, Public Utility.

Any person desiding to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before July 1, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17229 Filed 6-15-77;8:45 am]

[Docket No. ER77-311]

UTAH POWER & LIGHT CO.

Further Extension of Time

JUNE 7, 1977.

On June 6, 1977, Lincoln Service Corporation filed a motion for a further extension of time in which to file petitions to intervene or protests to the proposed tariff changes tendered for filing in the above indicated docket on April 20, 1977, and noticed April 29, 1977.

Upon consideration, notice is hereby given that the time for filing petitions to intervene or protests in the above proceeding is extended to and including July 6, 1977.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

[H. 2, 1977 No. 22]

ACTIONS OF THE BOARD AND APPLICATIONS AND REPORTS RECEIVED DURING THE WEEK ENDING MAY 28, 1977

Announcement by Board of Governors

ACTIONS OF THE BOARD

Statement by Vice Chairman Stephen S. Gardner before the Senate Committee on Banking, Housing and Urban Affairs on S. 71, S. 75, S. 895, and S. 1433, bills that will aid the regulatory agencies in carrying out supervisory responsibilities.

Statement by Governor Charles Partee before the Subcommittee on Intergovernmental Relations of the Senate Committee on Governmental Affairs on S. 600, the Regulatory Reform Act.

International Banking Act of 1977, letter to Chairman St Germain recommending enactment of foreign bank legislation; the Board's recommendation was accompanied by proposals for a number of amendments.

Letter in response to request for confirmation that member banks of the Federal Reserve System will not be required to maintain domestic reserves under the Board's Regulation D on deposits of their overseas military banking facilities when the Department of Defense assumes responsibility for the government's overseas military banking program on October 1, 1977.

Equal Employment Opportunity, the Board is amending its Policies and Procedures in order to replace the procedure for reviewing third party allegations to allow for consolidation of complaints, and to provide for administrative processing of class complaints of discrimination in employment (Docket No. R-0102).

Rules Regarding Delegation of Authority, delegation of certain new functions to the Director of the Division of Banking Supervision and Regulation and to the Federal Reserve Banks in order to expedite and facilitate the performance of certain of the Board's supervisory and regulatory functions over bank holding companies and State member banks, effective May 26, 1977 (Docket No. R-0103).

Rules of "Employment Responsibilities and Conduct" amendment, which expands the number of positions for which Statements of Employment and Financial Interests are required pursuant to the Board's rules and Executive Order 11222 (Docket No. R-0101).

Marblehead Bank and Trust Company, Marblehead, Massachusetts, proposed merger with Essex County Bank and Trust Company, Lynn, Massachusetts, report to the Federal Deposit Insurance Corporation on competitive factors.

Sullivan County National Bank, LaPorte, Pennsylvania, proposed merger with Citizens & Northern Bank, Ralston, Pennsylvania, report to the Federal Deposit Insurance Corporation on competitive factors.

Dakota Bancorporation, Rapid City, South Dakota, extension of time to July 8, 1977, within which to complete acquisition of the First National Bank of Crosby, Crosby, North Dakota.[1]

Bank of Ste. Genevieve, Ste. Genevieve, Missouri, to make an investment in bank premises.[1]

Elberfeld State Bank, Elberfeld, Indiana, to make an additional investment in bank premises.[1]

Peoples State Bank of Plainview, Plainview, Minnesota, to make an investment in bank premises.[1]

Provident Bank, Cincinnati, Ohio, to make an investment in bank premises.[1]

Mountain Trust Bank, Roanoke, Virginia, request for a nine-month extension of time within which to establish a branch at 3702 Brandon Avenue, S.W., Roanoke, Virginia.[1]

Chase Manhattan Overseas Banking Corporation, New York, New York, (1) extension of time to November 23, 1977, within which to acquire all of the shares of a limited liability company in Sao Paulo, Brazil, and (2) extension of time to July 14, 1978, within which to complete its investment in Chase and Bank of Ireland (International) Ltd., Dublin, Ireland.[1]

First Citizens Bank of Butte, Butte, Montana, extension of time to accomplish membership in the Federal Reserve System.[1]

Carroll Bank, Hillsville, Virginia, proposed merger with Bank of Carroll, Hillsville, Virginia, report to the Federal Deposit Insurance Corporation on competitive factors.[1]

[FR Doc.77-17203 Filed 6-15-77;8:45 am]

INDUSTRIAL LOAN AND INVESTMENT CO.

Order Approving Formation of a Bank Holding Company and Continuation of Industrial Loan Company and Insurance Agency Activities

Industrial Loan and Investment Company, Sedalia, Missouri, has applied for the Board's approval under section 3(a) (1) of the Bank Holding Company Act ("Act") (12 U.S.C. § 1842(a)(1)) of formation of a bank holding company through acquisition of 87.67 percent of the voting shares of Bank of Ionia, Ionia, Missouri ("Bank"). At the same time, Applicant has applied, pursuant to section 4(c)(8) of the Act (12 U.S.C. § 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y 12 CFR § 225.4(b)(2), for permission to continue to engage in the activities of an industrial loan company and to continue to engage in the sale of credit life and credit accident and health insurance directly related to extensions of credit by Applicant. Such activities have been determnned by the Board to be closely related to banking (12 CFR § 225.4(a) (2) and (9)).

Notice of the applications, affording opportunity for interested persons to submit comments and views, has been given in accordance with §§ 3 and 4 of the Act (41 FR 35908). The time for filing comments and views has expired, and the Board has considered the applications and all comments received in light of the factors set forth in section 3(c) of the Act and the considerations specified in section 4(c)(8) of the Act.

Applicant is chartered as an industrial loan company under Chapter 368 of the Missouri Revised Statutes and engages in the activity of making small loans. Pursuant to the provisions of State law, Applicant also engages in the business of selling debt instruments in the form of uninsured passbook investment certificates and term investment crtificates, an activity similar to the deposit-taking activities of a commercial bank.[1]

Applicant is a relatively small institution (assets of $9.1 million) and operates its sole office in Sedalia, Missouri.[2] Bank (deposits of $2.6 million) is the smallest of five banks operating in the Warsaw banking market, and controls 6.1 per cent (as of December 31, 1975) of the total deposits in commercial banks in that market.[3] Although Applicant and Bank offer some similar services, Applicant does not compete in the Warsaw banking market, and the proposed acquisition would not result in the elimination of any existing competition. Moreover, in view of the relatively small size of Applicant and Bank, it appears that the proposal would not have significant adverse effects upon potential competition, nor would it increase the concen-

[1] Although chartered by the State, Applicant at the present time is not subject to any significant regulation or examination by a State regulatory authority. However, upon becoming a bank holding company, Applicant would become subject to the Bank Holding Company Act and supervision and regulation by the Board. In addition, pursuant to section 5(c) of the Act, Applicant would be required to file regular reports with the Board and would be subject to examination.

[2] Unless otherwise indicated, all banking data are as of December 31, 1976.

[3] The Warsaw banking market is approximated by Benton County.

tration of banking resources. Accordingly, on the basis of the facts of record, the Board concludes that competitive considerations are consistent with approval of the application to acquire Bank.

The financial and managerial resources and future prospects of Applicant and Bank are regarded as satisfactory and consistent with approval of the application. Although consummation of the proposed transaction may not result in any immediate benefits to the public, Applicant is substantially larger than Bank and possesses some managerial and technical resources that are unavailable to Bank due to its relatively small size. It is anticipated that the proposed acquisition would provide Bank with access to Aplicant's greater resources and thereby enhance Bank's ability to improve services to the community. Accordingly, considerations relating to the convenience and needs of the community to be served lend some weight toward approval of the application. It is the Board's judgment that consummation of the proposal to form a bank holding company would be in the public interest and the application should be approved.

In connection with the application to become a bank holding company, Applicant has also applied, pursuant to § 225.4(a) (2) and (9) of Regulation Y, to continue to engage in the activities of an industrial loan company and continue selling credit life and credit accident and health insurance directly related to extensions of credit by the industrial loan company.[4] Approval of these applications would enable Applicant to acquire Bank, which acquisition is viewed as being in the public interest. Moreover, approval of these applications would serve to assure the residents of Sedalia and nearby areas of a convenient source of industrial loan and credit-related insurance services, and the Board views these results as being in the public interest. It does not appear that Applicant's continuation of these activities would have any significant adverse effects on competition. Furthermore, there is no evidence in the record indicating that consummation of the proposal would result in any undue concentration of resources, unfair competition, conflicts of interest, unsound banking practices or other adverse effects on the public interest.

Based on the foregoing and other considerations reflected in the record, the Board has determined that the considerations affecting the competitive factors under section 3(c) of the Act and the balance of the public interest factors the Board must consider under section 4(c) (8) of the Act both favor approval of Applicant's proposals.

[4] Applicant is also engaged in leasing activities of a type generally permissible for bank holding companies. Applicant has indicated that upon becoming a bank holding company it would promptly file an application, pursuant to the relevant provisions of Regulation Y, to continue to engage in such leasing activities.

Accordingly, the applications are approved for the reasons summarized above. The acquisition of Bank shall not be made (a) before the thirtieth calendar day following the effective date of this Order; nor (b) later than three months after the effective date of this Order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Kansas City pursuant to delegated authority. The determination as to Applicant's industrial loan and insurance activities is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require reports by, and make examinations of, holding companies and their subsidiaries and to require such modification or termination of the activities of a bank holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder or to prevent evasion thereof.

By order of the Board of Governors,[5] effective June 10, 1977.

RUTH A. REISTER,
Assistant Secretary of the Board.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Alcohol, Drug Abuse, and Mental Health Administration

INTERAGENCY COMMITTEE ON FEDERAL ACTIVITIES FOR ALCOHOL, ABUSE AND ALCOHOLISM

Meeting

In accordance with Section 10(a) (2) of the Federal Advisory Committee Act (5 U.S.C. Appendix I), announcement is made of the following National Advisory body scheduled to assemble during the month of July 1977:

INTERAGENCY COMMITTEE ON FEDERAL ACTIVITIES FOR ALCOHOL ABUSE AND ALCOHOLISM

July 19, 9:30 a.m. to 4:30 p.m., Conference Rooms "G" and "H" Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

Open Meeting: Contact.—James Vaughan, Room 16C–10, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857, 301–443–3888.

Purpose: The Interagency Committee on Federal Activities for Alcohol Abuse and Alcoholism: (1) Evaluates the adequacy and technical soundness of all Federal programs and activities which relate to alcohol abuse and alcoholism and provides for the communication and exchange of information necessary to maintain the coordination and effectiveness of such programs and activities; and (2) seeks to coordinate efforts undertaken to deal with alcohol abuse and alcoholism in carrying out Federal health, welfare, rehabilitation, highway safety, law enforcement, and economic opportunity laws.

Agenda: This meeting will be open to the public. The meeting will consist of presentations by Committee groups of their current and proposed activities. The Department of Justice will make a presentation on its programs relating to alcohol abuse and alcoholism. Reports will also be given on current legislative activities, interagency agreements, and data gathering activities.

Substantive program information may be obtained from the contact person listed above. The NIAAA Information Officer who will furnish summaries of the meeting and a roster of Committee members is Mr. Henry Bell, Associate Director for Public Affairs, National Institute on Alcohol Abuse and Alcoholism, Room 11A–17, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland, 20857, 301–443–3306.

Dated: June 10, 1977.

CAROLYN T. EVANS,
Committee Management Officer, Alcohol, Drug Abuse, and Mental Health Administration.

Office of Education

HANDICAPPED MEDIA SERVICES AND CAPTIONED FILMS

Notice of Closing Date for Receipt of Applications

Notice is hereby given that, pursuant to the authority contained in section 652 of Part F of the Education of the Handicapped Act (20 U.S.C. 1452), applications are being accepted for the support of research, training of personnel and the use of educational media and/or technology for the education of the handicapped. The U.S. Commissioner of Education has established a final closing date of July 18, 1977 for the receipt of applications for grant awards under this new Media Research and Training Program.

Under the Media Research and Training Program, the Office of Education is interested in projects focusing on:

(1) Research to identify and meet the full range of special needs of the handicapped relative to instructional materials and instructional technology;

(2) Development or demonstration of new, or improvements in existing methods, approaches, or techniques, which would contribute to the adjustment and education of such persons through use of such persons through use of instructional materials, media, and/or technology;

(3) Training (either directly or otherwise) of professional and allied personnel engaged or preparing to engage in programs specifically designed for such persons.

Awards will be made on the basis of the criteria set forth in 45 CFR 100a.26 (b). The amount of funds available for this grant program for fiscal year 1977 is approximately $3 million dollars. Approximately 25 to 40 projects are expected to be funded prior to September 30, 1977. The funding level for each of these projects may average between $50,000 and $200,000.

Applications must be received by the U.S. Office of Education Application Control Center on or before July 25, 1977.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Ave., S.W., Washington, D.C. 20202, Attention: 13.446. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than July 20, 1977 as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mailrooms in Washington, D.C.

(In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mailrooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.)

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets, S.W., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8:00 a.m. and 4:00 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted by the Application Control Center after 4:00 p.m., Washington, D.C. time, on the closing date.

C. *Program information and forms.* Further information and application forms may be obtained from the Division of Media Services, Bureau of Education for the Handicapped, Office of Education, 40 Maryland Avenue, S.W., (Donohoe Building, Room 4821, CF&T Branch), Washington, D.C. 20202.

D. *Applicable regulations.* The regulations applicable to this program include the Office of Education General Provisions Regulations (45 CFR Parts 100 and 100a) and the applicable program regulations (Subparts A and D of 45 CFR 1211, excepting section 1211.51)

(20 U.S.C. 1452)

Public Health Service

HEALTH RESOURCES ADMINISTRATION

Delegation of Authority

Notice is hereby given that pursuant to the authority delegated to the Assistant Secretary for Health on April 12, 1977 (42 FR 23179), by the Secretary of Health, Education, and Welfare, the Assistant Secretary for Health made the following delegation of authority under Part F of Title VII of the Public Health Service Act (42 U.S.C. 295g), as amended by Public Laws 94–484 and 94–573, providing for grants and contracts for programs and projects concerning health professions schools and training:

Delegation by the Assistant Secretary for Health to the Administrator, Health Resources Administration, with authority to redelegate, subject to section 707 of the Public Health Service Act, of the authorities delegated to the Assistant Secretary for Health under Part F of Title VII of the Public Health Service Act (42 U.S.C. 295g), except for the authority to issue regulations, the authority under section 785 of the Public Health Service Act (42 U.S.C. 295g–5) providing for occupational health training and education centers, and the authority under Section 790 of the Public Health Service Act (42 U.S.C. 295g–10) insofar as the general provisions thereunder are applicable to section 785.

This delegation is effective on June 7, 1977.

Dated: June 7, 1977.

R. MOURE,
Executive Officer, Public Health Service.

DEPARTMENT OF THE INTERIOR

[AA–6661–B]

ALASKA

Native Claims Selection

JUNE 6, 1977.

On April 23, 1974, Eklutna, Inc. filed selection application AA–6661–B under the provisions of section 12(a) (1) of the Alaska Native Claims Settlement Act, 85 Stat. 688, of December 18, 1971, for the surface estate of lands located in the vicinity of Eagle River, Alaska which included lands in the S½SW¼ of section 32, T. 15 N., R. 1 W., Seward Meridian.

On March 30, 1976, the Stateof Alaska land selection A–061179 was rejected as to the above-mentioned parcel because the provisions of sections 11(a) (2) and 12(a) (1) of the act, supra., superseded the provisions of 6(b) of the Alaska Statehood Act of July 7, 1958, 72 Stat. 339. The State did not appeal the rejection.

The village selection application AA–6661–B for the lands described below was properly filed and has been found to meet the requirements of the Departmental regulations issued pursuant to ANCSA. The lands are unoccupied and do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described surveyed lands, containing 80 acres, is considered proper for acquisition by Eklutna, Inc., subject to valid existing rights, and is hereby approved for patent pursuant to section 14(a) of the act, supra.

T. 15 N., R. 1 W., Seward Meridian (Surveyed)
sec. 32, S½SW¼.

The patent to Eklutna, Inc. for the surface estate of the lands described above shall contain the following reservations to the United States:

1. A right-of-way thereon for ditches and canals construction by the authority of the United States (act of August 30 1890 (26 Stat. 391; 43 U.S.C. 945)).

2. A right-of-way thereon for the construction of railroads, telegraph and telephone lines as prescribed and directed by the act of March 12, 1914 (38 Stat. 305; 43 U.S.C. 975(d)).

3. The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said subsurface estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688; 43 U.S.C. 1601–1624).

4. Pursuant to section 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688; 43 U.S.C. 1601–1624), the following easements, referenced by easement identification number (EIN) on the easement map in case file AA–6661–EE, are reserved to the United States and subject to further regulation thereby:

a. (EIN 52 C) The right of the United States to enter upon the lands herein granted for cadastral, geodetic, or other survey purposes is reserved together with the right to do all things necessary in connection therewith.

b. (EIN 53 C) Easements for the transportation of energy, fuel, and natural resources which are the property of the United States or which are intended for delivery to the United States or which are produced by the United States. These easements also include the right to build any related facilities necessary for the exercise of the right to transport energy, fuel, and natural resources including those related facilities necessary

during periods of planning, locating, constructing, operating, maintaining or terminating transportation systems. The specific location of these easements shall be determined only after consultation with the owner of the servient estate. Whenever the use of such easements will require removal or relocation with the owner of the servient estate. Whenever the use of such easements will require removal or relocation of any structure owned or authorized by the owner of the servient estate, such use shall not be initiated without the consent of the owner of such improvement; *Provided, however,* That the United States may exercise the right of eminent domain if such consent is not given. Only those portions of these easements that are actually in use or that are expressly authorized on March 3, 1996, shall continue to be in force.

There are no inland water bodies known to be navigable by reason of travel, trade and commerce within the area described above.

The grant of lands by the patent shall be subject to:

1. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under section 6(g) of the Alaska Statehood Act (72 Stat. 339, 341)), contract, permit, right-of-way or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him.

2. Requirements of section 14(c) of the Alaska Native Claims Settlement Act, 85 Stat. 688, 703; 43 U.S.C. 1613(c) that the grantee hereunder convey those portions, if any, of the land hereinabove granted, as are prescribed in said section.

3. The terms and conditions of the agreement dated January 18, 1977, between the Secretary of the Interior, Cook Inlet Region, Inc., Eklutna, Inc., and other Cook Inlet village corporations. A copy of the agreement shall be attached to and become a part of the conveyance document and shall be recorded therewith. A copy of the agreement is located in the Bureau of Land Management file AA–6661–EE. Any person wishing to examine the agreement may do so at the Bureau of Land Management, Alaska State Office, 555 Cordova Street, Anchorage, Alaska 99501.

Conveyance of the remaining entitlement to Eklutna, Inc. will be made at a later date. Patent to the subsurface estate of the land described above will be simultaneously granted to Cook Inlet Region, Inc., pursuant to section 14(f) and 22(j) of the act, supra.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the FEDERAL REGISTER and once a week, for four (4) consecutive weeks, in the ANCHORAGE DAILY TIMES. Any party claiming a property interest in land affected by this decision may appeal the decision to the Alaska Native Claims Appeal Board, P.O. Box 2433, Anchorage, Alaska 99510 and a copy served upon the Bureau of Land Management and the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501, also:

1. Any party receiving actual notice of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Any unknown parties, any parties unable to be located after reasonable efforts have been expended to locate, and any parties who failed or refused to sign a receipt for actual notice shall have until July 18, 1977 to file an appeal.

3. Any party known or unknown who may claim a property interest which is adversely affected by this decision shall be deemed to have waived their rights which were adversely affected unless an appeal is timely filed with the Alaska Native Claims Appeal Board.

4. If Eklutna, Inc., or Cook Inlet Region, Inc., objects to any easement identified herein for reservation in the conveyance, which is subject to the discretion of the State Director and not reserved pursuant to an express Secretarial directive, they must file a petition for reconsideration with the State Director, Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501, or it will be deemed that they have waived the right to contest it. A copy of the petition should be served upon the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeal. Further information on the manner of, and requirements for, filing an appeal may be obtained from the Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501.

ROBERT E. SORENSON,
Chief, Branch of Lands and Minerals Operations.

[AA–6695–A and AA–6695–B]

ALASKA
Native Claims Selection

On January 28, 1977, the Alaska Native Claims Appeal Board[1] directed publication of the October 10, 1975 decision (as amended by decision of December 10, 1975), as amended by the addition of easement reservations mandated by Secretarial Order No. 2987, 41 FR 11331 (1976), and Secretarial Order No. 2982, 41 FR 6295 (1976).

[1] EDITORIAL NOTE: The following are filed as part of the original document:

1. Alaska Native Claims Appeal Board memorandum and order regarding appeal of State of Alaska from Bureau of Land Management decision #AA–6695–A, AA–6695–B (Port Graham).

2. Letter of Alaska Native Claims Board to Joint Federal-State Land Use Planning Commission requesting review of certain easements which are the subject of the appeal cited in item 1 above.

Therefore, pursuant to the above, the decision to convey lands to The Port Graham Corporation is hereby published once in the FEDERAL REGISTER and once a week for four (4) consecutive weeks in the Anchorage Daily Times.

DECISION

Port Graham Corporation, Port Graham via Homer, Alaska 99603.
AA–6695–A AA–6695–B Village Selections.

LANDS PROPER FOR SELECTION
APPROVED FOR INTERIM CONVEYANCE
OR PATENT

On May 21 and November 15, 1974, the Port Graham Corporation filed selection applications AA–6695–A and AA–6695–B, respectively, under the provisions of section 12(a) of the Alaska Native Claims Settlement Act of December 18, 1971, for the surface estate of certain lands in T. 9 S., R. 15 W.; T. 10 S., Rs. 13–15 W.; T. 11 S., Rs. 13–14 W.; and T. 12 S., R. 13 W., all Seward Meridian. Both applications have been amended several times.

The applications, as amended, are properly filed and met the requirements of the regulations issued pursuant to the act. The selected lands described below are unoccupied and do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate in and to the following described lands, containing approximately 65,917 acres, is considered proper for acquisition by the Port Graham Corporation and is hereby approved for interim conveyance or patent pursuant to section 14(a) of the act:

T. 9 S., R. 15 W., Seward Meridian (Unsurveyed),
Sec. 2, SW¼NW¼SW¼, W½SW¼SW¼, SE¼SW¼SW¼;
Secs. 3 and 4, all, excluding fractional Native allotment application AA–7203;
Secs. 5–7, fractional;
Secs. 8–10, all;

U.S. Survey No. 4765.
U.S. Survey No. 4772, lot 1–A.

The interim conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States.

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States. Act of August 30, 1890, 26 Stat. 391, 43 U.S.C. 945;

2. A right-of-way thereon for the construction of railroads, telegraph and telephone lines, as prescribed and directed by the act of March 12, 1914, 38 Stat. 305, 43 U.S.C. 975(d);

3. The subsurface estate therein, and all rights, privileges, immunities and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 688, 43 U.S.C. 1601–1624;

4. The public easements designated pursuant to section 17(b)(3) of the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 688, 708; 43 U.S.C. 1616(b)(3), upon the conditions of use prescribed by 43 CFR 2650.4–7, and identified as follows:

a. An easement of 60 feet for the existing road from Seldovia to the head of Windy Bay. Subject easement (D9–1) is described in easement case file AA–9791.

b. A 25-foot trail easement along the existing trail from the 25-foot coastline easement in English Bay along the English Bay River to the head of the second lake in section 18, T. 10 S., R. 15 W., Seward Meridian. Subject easement (D9–2) is described in easement case file AA–9791.

c. Two easements of 1 acre each (approximately 200 feet by 200 feet) for a campsite and floatplane landing area at the head and outlet of upper English Bay lake, located in T. 10 S., R. 15 W., Seward Meridian. Subject easements (D9–6) are described in easement case file AA–9791.

d. A 25-foot trail easement paralleling the right bank of Port Graham Creek from its mouth upstream to section 19, T. 10 S., R. 14 W., Seward Meridian, then northeasterly to public lands in section 17, T. 10 S., R. 14 W., Seward Meridian. Subject easement (D9–7, S–1) is described in easement case file AA–9791.

e. An easement of 1 acre (approximately 200 feet by 200 feet) for a public campsite and floatplane landing area at the outlet of the unnamed lake in section 29, T. 10 S., R. 13 W., Seward Meridian. Subject easement (D9–15) is described in easement case file AA–9791.

f. An easement 60 feet in width for the existing road from road D9–1 to the unnamed lake in section 29, T. 10 S., R. 13 W., Seward Meridian. Subject easement (D9–17, P–17) is described in easement case file AA–9791.

g. An easement 50 feet in width for the existing trail from Port Graham to English Bay. Subject easement (P–14) is described in easement case file AA–9791.

h. A 25-foot trail easement for a proposed trail from the existing road (D9–1) easterly to the Port Dick drainage and State Park lands. Subject easement (D9–19) is described in easement case file AA–9791.

i. Easements of approximately 1 acre (200 feet by 200 feet) for three camp sites adjacent to the existing road (D9–1) located as follows: one site adjoining Windy Bay, one adjoining Picnic Harbor, and one at the junction of trail D9–19. Subject easements (D9–14, P–16) are described in easement case file AA–9791.

j. Easements for proposed spur trails twenty-five (25) feet in width to provide access from the existing road (D9–1) to public lands in section 2, T. 11 S., R. 14 W., Seward Meridian and section 36, T. 10 S., R. 14 W., Seward Meridian (D1–1).

k. An easement for a proposed access trail twenty-five (25) feet in width from trail D9–7, S–1 in section 10, T. 10 S., R. 14 W., Seward Meridian southeasterly to public lands in section 34, T. 10 S., R. 14 W., Seward Meridian (D1–2).

l. A continuous linear easement twenty-five (25) feet in width upland of and parallel to the mean high tide line in order to provide access to and along the marine coastline and use of such shore for purposes such as beaching of watercraft or aircraft, travel along the shore, recreation, and other similar uses. Deviations from the waterline are permitted when specific conditions so require, i.e., impassable topography or waterfront obstruction. This easement is subject to the right of the owner of the servient estate to build upon such easement a facility for public or private purposes, such right to be exercised reasonably and without undue or unnecessary interference with or obstruction of the easement. When access along the marine coastline easement is to be obstructed, the owner of the servient estate will be obligated to convey to the United States an acceptable alternate access route, at no cost to the United States, prior to the creation of such obstruction (D9–39).

m. The right of the United States to enter upon the lands herein granted for cadastral, geodetic or other survey purposes is reserved together with the right to do all things necessary in connection therewith (C–42).

n. Easements for the transportation of energy, fuel, and natural resources which are the property of the United States or which are intended for delivery to the United States or which are produced by the United States. These easements also include the right to build any related facilities necessary for the exercise of the right to transport energy, fuel, and natural resources, including those related facilities necessary during periods of planning, locating, constructing, operating, maintaining, or terminating transportation systems. The specific location of these easements shall be determined only after consultation with the owner of the servient estate. Whenever the use of such easements will require removal or relocation of any structure owned or authorized by the owner of the servient estate, such use shall not be initiated without the consent of the owner of such improvement; provided, however, that the United States may exercise the right of eminent domain if such consent is not given. Only those portions of these easements that are actually in use or that are expressly authorized on March 3, 1996 shall continue to be in force (C–43).

The grant of lands by the interim conveyance shall be subject to:

1. Issuance of a patent confirming the boundary description of the lands granted after approval and filing by the Bureau of Land Management of the official plat of survey covering such lands;

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under section 6(g) of the Alaska Statehood Act (72 Stat. 339, 341)), contract, permit, right-of-way, or easement and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges and benefits thereby granted to him.

The State of Alaska has identified the following third-party interests which were granted prior to December 18, 1971: a right-of-way permit for a public access road (ADL No. 37929) and a lease issued to the Glacier State Telephone Company (ADL No. 38946).

3. Requirements of section 14(c) of the Alaska Native Claims Settlement Act, 85 Stat. 688, 703; 43 U.S.C. 1613(c), that the grantee hereunder convey those portions, if any, of land hereinabove granted, as are prescribed in said section.

Interim conveyance or patent to the subsurface estate in the N½ of T. 9 S., R. 15 W., Seward Meridian will be granted to Cook Inlet Region, Inc., and the subsurface estate of the remaining land described above will be granted to Chugach Natives, Inc. at the same time that conveyance is granted to the Port Graham Corporation for the surface estate.

It should be noted that:

1. Subsequent to initial issuance of this decision, the unsurveyed lands in Ts. 11 and 12 S., R. 13 W.; T. 11 S., R. 14 W.; and Ts. 9 and 10 S., R. 15 W., Seward Meridian, which were not the subject of a timely filed appeal, were conveyed to the Port Graham Corporation in interim conveyances numbered 018 and 023 dated November 4 and December 5, 1975, respectively.

2. This decision may be appealed, as indicated below, only as to those lands not as yet conveyed, specifically those unsurveyed lands in T. 10 S., Rs. 13 and 14 W., Seward Meridian and U.S. Survey No. 4765 and lot 1–A of U.S. Survey No. 4772 which lie within T. 11 S., R. 13 W., and T. 9 S., R. 15 W., Seward Meridian, respectively.

3. The easement case file number has been changed from AA–9791 to AA–6695–EE.

4. The conveyance of lands described in subparagraph 2, above will be subject to the terms and conditions of the agreement dated January 18, 1977 between the Secretary of the Interior, Chugach Natives, Inc., the Port Graham Corporation and other Chugach village corporations. A copy of the agreement shall be attached to and become a part of the conveyance document and shall be recorded therewith. A copy of the agreement is located in the Bureau of Land Management easement case file for the Port Graham Corporation, serialized AA–6695–EE. Any person wishing to examine this agreement may do so at the Bureau of Land Management, Alaska State Office, 555 Cordova Street, Anchorage, Alaska 99501.

In accordance with Departmental regulation 43 CFR 2650.7, notice of the above decision is being published once in the FEDERAL REGISTER and once a week, for four (4) consecutive weeks, in the Anchorage Daily Times. Any party claiming a property interest in land affected by this decision may appeal the decision to the Alaska Native Claims Appeal Board, P.O. Box 2433, Anchorage, Alaska 99510 and with a copy served upon the Bureau of Land Management and the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501; also:

1. Any party receiving actual notice of this decision shall have 30 days from the receipt of actual notice to file an appeal.

2. Any unknown parties, any parties unable to be located after reasonable efforts have been expended to locate, and any parties who failed or refused to sign a receipt for actual notice, shall have until July 18, 1977, to file an appeal.

3. Any party known or unknown who may claim a property interest which is adversely affected by this decision shall be deemed to have waived his rights which were adversely affected unless an appeal is timely filed with the Alaska Native Claims Appeal Board.

4. If the Port Graham Corporation or Chugach Natives, Inc. objects to any easement identified herein for reservation in the conveyance, which is subject to the discretion of the State Director and not reserved pursuant to an express Secretarial directive, they must file a petition for reconsideration with the State Director, Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501, or it will be deemed that they have waived the right to contest it. A copy of the petition should be served upon the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeal. Further information on the manner of, and requirements for, filing an appeal may be obtained from the Bureau of Land Management, 555 Cordova Street, Anchorage, Alaska 99501.

(Serial No. A–8893)

ARIZONA

Termination of Proposed Withdrawal and Reservation of Lands

Notice of an application of the National Park Service, Department of the Interior, Serial No. A–8893, for withdrawal and reservation of lands, was published as FEDERAL REGISTER Document No. 75–5898 in the March 6, 1975 issue. The applicant agency has cancelled its application involving the lands described in the FEDERAL REGISTER publication referred to above. Therefore, pursuant to the regulations contained in 43 CFR Subpart 2091.2–5, such lands will be, at 10 a.m. on July 14, 1977, relieved of the segregative effect of the above-mentioned application. The lands will remain segregated, however, to the extent provided by Public Law 94–578, enacted on October 21, 1976. Said Law provides for inclusion of all lands described in the above-mentioned FEDERAL REGISTER publication within the Saguaro National Monument.

Dated: June 7, 1977.

MARIO L. LOPEZ,
Chief, Branch of Lands and Minerals Operations.

Correction

In FR Doc 77–15662 appearing at page 28189 in the issue of Thursday, June 2, 1977, in the fourth paragraph, the sixth line should be corrected to read as follows,

"P.M., Colorado, Section 33, SE¼NE¼,".

[M 166]

MONTANA

Opportunity For Public Hearing and Republication of Notice of Proposed Withdrawal

JUNE 8, 1977.

The Department of Agriculture filed application, Serial No. M 166, on August 8, 1966, for a withdrawal in relation to the following described lands:

PRINCIPAL MERIDIAN, MONTANA

BEAVERHEAD NATIONAL FOREST

Dinner Station Campground

Unsurveyed, but which probably will be when surveyed:
T. 5 S., R. 11 W.,
Sec. 1, W½SE¼NE¼ and E½SW¼NE¼.
Total area—40 acres.

Boot Lake Campground

Unsurveyed, but which probably will be when surveyed:
T. 5 S., R. 11 W.,
Sec. 4, SW¼NE¼NW¼ and NW¼SE¼NW¼.
Total area—20 acres.

Canyon Creek Campground

Unsurveyed, but which probably will be when surveyed:
T. 2 S., R. 11 W.,
Sec. 34, NW¼NE¼NE¼.
Total area—10 acres.

Pear Lake Campground

Unsurveyed, but which probably will be when surveyed:
T. 5 S., R. 11 W.,
Sec. 5, SW¼SE¼NE¼SW¼, NW¼NE¼SE¼SW¼, SE¼SW¼NE¼SW¼, and NE¼NW¼SE¼SW¼.
Total area—10 acres.

Reservoir Lake Campground

T. 8 S., R. 15 W.,
Sec. 21, E½W½NW¼SW¼, E½NW¼SW¼, and W½NE¼SW¼.
Total area—50 acres.

Aspen Campground

T. 5 S., R. 10 W.,
Sec. 4, S½SW¼SW¼SW¼.
Total area—5 acres.

Lower Seymour Campground

T. 3N., R. 13 W.,
Sec. 26, SW¼NE¼NE¼NW¼, SE¼NW¼NE¼NW¼, NW¼SE¼NE¼NW¼, and NE¼SW¼NE¼NW¼.
Total area—10 acres.

Mono Creek Camp

Unsurveyed, but which probably will be when surveyed:
T. 3 S., R. 12 W.,
Sec. 34, NW¼NW¼NW¼.
Total area—10 acres.

Little Joe Camp

Unsurveyed, but which probably will be when surveyed:
T. 3 S., R. 12 W.,
Sec. 21, S½SE¼NE¼SW¼ and N½NE¼SE¼SW¼.
Total area—10 acres.

May Creek Camp

T. 2 S., R. 18 W.,
Sec. 13, SW¼SW¼SW¼;
Sec. 14, SE¼SE¼SE¼;
Sec. 23, E½NE¼NE¼; and
Sec. 24, W½NW¼NW¼.
Total area—60 acres.

Pintlar Falls Camp

Unsurveyed, but which probably will be when surveyed:
T. 3 N., R. 13 W.,
Sec. 2, S½S½SW¼SW¼;
Sec. 10, NE¼NE¼NE¼; and
Sec. 11, NW¼NW¼, N½SW¼NW¼, and N½S½SW¼NW¼.
Total area—90 acres.

Branham Lakes Campground

T. 4 S., R. 3 W.,
Sec. 5, SE¼SE¼NE¼, E½SW¼SE¼NE¼, and N½NE¼NE¼SE¼.
Total area—20 acres.

West Fork Administrative Site

Unsurveyed, but which probably will be when surveyed:
T. 12 S., R. 2 W.,
Sec. 7, W½SW¼SE¼NE¼, E½SE¼SW¼NE¼, W½NW¼NE¼SE¼, and E½NE¼NW¼SE¼.
Total area—20 acres.

Crockett Lake Administrative Site

Unsurveyed, but which probably will be when surveyed:
T. 8 S., R. 2 W.,
Sec. 20, W½NW¼NE¼ and N½NW¼SW¼NE¼.
Total area—25 acres.

Willow Creek Campground

T. 3 S., R. 3 W.,
Sec. 22, NE¼NE¼SW¼ and N½NW¼SE¼.
Total area—30 acres.

Upper Sureshot Lake Picnic Area

T. 3 S., R. 3 W.,
Sec. 25, NW¼SW¼NE¼, E½SW¼NE¼, and W½SE¼NE¼.
Total area—50 acres.

The areas described aggregate 460 acres in Deer Lodge, Beaverhead, and Madison Counties, Montana.

The applicant desires that the land be reserved for administrative sites and recreational areas.

A notice of the proposed withdrawal was published in the FEDERAL REGISTER on August 19, 1966, Volume No. 31, Page No. 11039, Document No. 66–9027.

Pursuant to section 204(h) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2754, notice is hereby given that an opportunity for a public hearing is afforded in connection with the pending withdrawal application. All interested persons who desire to be heard on the proposed withdrawal must file a written request for a hearing with the State Director, Bureau of Land Management, P.O. Box 30157, Billings, Montana 59107, on or before July 21, 1977. Notice of the public hearing will be published in the FEDERAL REGISTER, giving the time and place of such hearing. The hearing will be scheduled and conducted in accordance with BLM Manual Sec. 2351.16 B. All previous comments submitted in connection with the withdrawal application have been included in the record and will be considered in making a final determination on the application.

In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the pending withdrawal application may be filed with the undersigned authorized officer of the Bureau of Land Management on or before July 21, 1977.

The above-described lands are temporarily segregated from the operation of the public land laws, including the mining laws, to the extent that the withdrawal applied for, if and when effected, would prevent any form of disposal or appropriation under such laws. Current administrative jurisdiction over the segregated lands will not be affected by the temporary segregation. In accordance with section 204(g) of the Federal Land Policy and Management Act of 1976 the segregative effect of the pending withdrawal application will terminate on October 20, 1991, unless sooner terminated by action of the Secretary of the Interior.

All communications (except for public hearing requests) in connection with the pending withdrawal application should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, Department of the Interior, P.O. Box 30157, Billings, Montana 59107.

ROLAND F. LEE,
Chief, Branch of Lands and Minerals Operations.

[CA 167]

SHASTA-TRINITY NATIONAL FOREST, CALIF.

Opportunity of Public Hearing and Republication of Notice of Proposed Withdrawal

The Forest Service, U.S. Department of Agriculture, filed application Serial No. CA 167 on February 6, 1973, for a withdrawal in relation to the following described lands:

SHASTA-TRINITY NATIONAL FOREST

HARRISON GULCH ADMINISTRATIVE SITE, MOUNT DIABLO MERIDIAN, CALIF.

T. 29 N., R. 10 W.,
Sec. 11, SW¼SW¼SW¼;
Sec. 14, S½SE¼, NW¼SE¼, and S½NE¼SE¼;
Sec. 23, N½N½NE¼.

The area described aggregates 190 acres in Shasta County, California.

The applicant desires that the land be reserved for the protection of a developed administrative site.

A notice of the proposed withdrawal was published in the FEDERAL REGISTER on March 8, 1973, pages 6292 and 6293, FR Doc. No. 73-4441.

Pursuant to Sec. 204(h) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2754, notice is hereby given that an opportunity for a public hearing is afforded in connection with the pending withdrawal application. All interested persons who desire to be heard on the proposed withdrawal must file a written request for a hearing to the State Director, Bureau of Land Management, E-2841 Federal Office Building, 2800 Cottage Way, Sacramento, California 95825, on or before July 20, 1977. All previous comments submitted in connection with the withdrawal application have been included in the record and will be considered in making a final determination on the application.

In lieu of or in addition to attendance at a scheduled public hearing, written comments or objections to the pending withdrawal application may be filed with the undersigned authorized officer of the Bureau of Land Management on or before July 20, 1977.

The above described lands are temporarily segregated from all forms of location and entry under the mining laws (30 U.S.C., Ch. 2), to the extent that the withdrawal applied for, if and when effected, would prevent any form of disposal or appropriation under such laws. Current administrative jurisdiction over the segregated lands will not be affected by the temporary segregation. In accordance with Section 204(g) of the Federal Land Policy and Management Act of 1976, the segregative effect of the pending withdrawal application will terminate on October 20, 1991, unless sooner terminated by action of the Secretary of the Interior.

All communications (except for public hearing requests) in connection with the pending withdrawal application should be addressed to the undersigned, Bureau of Land Management, Department of the Interior, Room E-2841 Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

JOAN B. RUSSELL,
Chief, Lands Section, Branch of Lands and Minerals Operations.

[CA 3981]

TAHOE NATIONAL FOREST, CALIF.

Opportunity for Public Hearing and Republication of Notice of Proposed Withdrawal

JUNE 10, 1977.

The Forest Service, U.S. Department of Agriculture, filed application Serial No. CA 3981 on October 12, 1976, for a withdrawal in relation to the following described lands:

TAHOE NATIONAL FOREST

GREEK STORE ADMINISTRATIVE SITE, MOUNT DIABLO MERIDIAN, CALIF.

T. 14 N., R. 13 E.,
Sec. 7, E½NE¼NE¼SE¼, SE¼NE¼SE¼, and NE¼NE¼SE¼SE¼;
Sec. 8, W½NW¼NW¼SW¼.

The area described aggregates 22.5 acres in Placer County, California.

The applicant desires that the land be reserved for protection of the Greek Store Administrative Site.

A notice of the proposed withdrawal was published in the FEDERAL REGISTER on November 18, 1976, page 50873, FR Doc. No. 76-34100.

Pursuant to Sec. 204(h) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2754, notice is hereby given that an opportunity for a public hearing is afforded in connection with the pending withdrawal application. All interested persons who desire to be heard on the proposed withdrawal must file a written request for a hearing to the State Director, Bureau of Land Management, E-2841 Federal Office Buildig, 2800 Cottage Way, Sacramento, California 95825, on or before July 20, 1977. All previous comments submitted in connection with the withdrawal application have been included in the record and will be considered in making a final determination on the application.

In lieu or in addition to attendance at a scheduled public hearing, written comments or objections to the pending withdrawal application may be filed with the undersigned authorized officer of the Bureau of Land Management on or before July 20, 1977.

The above described lands are temporarily segregated from location and entry under the mining laws (30 U.S.C. Ch. 2), to the extent that the withdrawal applied for, if and when effected, would prevent any form of disposal or appropriation under such laws. Current administrative jurisdiction over the segregated lands will not be affected by the temporary segregation. In accordance with Section 204 (g) of the Federal Land Policy and Management Act of 1976, the segregative effect of the pending withdrawal application will terminate on October 20, 1991, unless sooner terminated by action of the Secretary of the Interior.

All communications (except for public hearing requests) in connection with the pending withdrawal application should be addressed to the undersigned, Bureau of Land Management, Department of the Interior, Room E-2841 Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

JOAN B. RUSSELL,
Chief, Lands Section, Branch of Lands and Minerals Operations.

[Wyoming 50511]

WYOMING

Application

JUNE 7, 1977.

Notice is hereby given that pursuant to section 28 of the Minerals Leasing Act of 1920, as amended (30 U.S.C. 185), the Belle Fourche Pipeline Company of Casper, Wyoming filed an application for a right-of-way to construct a 4½" diameter pipeline for the purpose of transporting crude oil across the following described national resource lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 36 N., R. 74 W.,
Sec. 21, NW¼SW¼

The pipeline will transport crude oil from a well in section 21, T. 36 N., R. 74 W. to existing facilities in the NW¼NW¼, section 21, T. 36 N., R. 74 W., Converse County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, P.O. Box 2834, Union and Overland Blvd., Casper, Wyoming 82601.

WILLIAM S. GILMER,
Acting Chief, Branch of Lands and Minerals Operations.

COAL MINING PLAN, MONTANA

Availability of Proposed Decision for Mine Plan Submitted for Approval

In accordance with the requirements of 30 CFR Part 211.5(c)(2), notice is hereby given that Westmoreland Resources, P.O. Box 449, Hardin, Montana 59034, has submitted a mining plan to mine coal by strip mining methods on Crow Indian Coal Lease 14-20-0252-4088. The mining plan was initially received for review by the Area Mining Supervisor on June 9, 1975.

The Absaloka Mine of Westmoreland Resources is an ongoing strip mine on Sections 25 and 26, T. 1 N., R. 37 E. The mining plan proposes extending the operation into Section 36, T. 1 N., R. 37 E., and Sections 19, 30, and 31, T. 1 N., R. 38 E. The plan covers mining about 10 million tons of coal per year through the year 1997.

The purpose of this notice is to inform the public that the Mining Supervisor proposes to approve the mining plan. An Environmental Impact Statement (EIS) has been prepared on the plan for the extension of the existing mine. Under CEQ guidelines the Mining Supervisor will not take approval action until at least 30 days after the EIS is submitted to the CEQ, and after Secretarial review and concurrence. Any person having an interest, which is or may be adversely affected by this action, may request a public meeting in writing. Requests should include the name and address of the requestor and should be submitted to the Area Mining Supervisor, Conservation Division, U.S. Geological Survey, P.O. Box 2550, Billings, Montana 59103. All requests should be made on or before July 6, 1977. No decision on the mining plan will be made prior to July 6, 1977.

The Department held a public meeting on the mine plan on December 9, 1976. The Department may, after reviewing the comments on the plan, determine that as permitted by 30 CFR 211.5(c)(4) no additional public meetings will be required.

Dated: June 1, 1977.

V. E. MCKELVEY,
Director.

CANAVERAL NATIONAL SEASHORE ADVISORY COMMISSION

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Canaveral National Seashore Advisory Commission will be held at 9 a.m. on July 1, 1977, at the Islander Beach Lodge, 1601 South Atlantic Avenue, New Smyrna Beach, Florida.

The purpose of the Canaveral National Seashore Advisory Commission is to consult and advise with the Secretary of the Interior on all matters of planning, development, and operation of the Canaveral National Seashore.

The members of the Advisory Commission are as follows:

Mr. Ney C. Landrum (Chairman)
Mr. Robert H. Hudson
Ms. Doris Leeper
Mr. James T. Swann
Mr. Thomas K. Wetherell
Mr. T. C. Wilder

The Commission will discuss the following matters:

(1) Report from Mr. Wetherell regarding land acquisitions policies;
(2) Transportation alternatives;
(3) Conveyance of state lands.

The meeting will be open to the public. However, facilities and space for accommodating members of the public are limited.

Any member of the public may file with the Commission a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting or who wish to submit written statements may contact Donald Guiton, Superintendent, Canaveral National Seashore, P.O. Box 2583, Titusville, FL 32780, Telephone 305-867-4675. Minutes of the meeting will be available for public inspection approximately 4 weeks after the meeting at park headquarters.

Date: June 8, 1977.

DAVID G. WRIGHT,
Acting Regional Director, Southeast Region.

[FR Doc.77-17197 Filed 6-15-77;8:45 am]

GATEWAY NATIONAL RECREATION AREA ADVISORY COMMISSION

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Gateway National Recreation Area Advisory Commission will be held commencing at 10:00 a.m., Monday, July 11, 1977, at Building 272, First Floor Conference Room, Floyd Bennett Field, Brooklyn, New York. The Commission was established by Public Law 92-592 to meet and consult with the Secretary of the Interior on general policies and specific matters relating to the development of Gateway National Recreational Area.

The members of the Commission are:

Marian Heiskell, Chairman, New York, New York.
Archibald S. Alexander, Bernardsville, New Jersey.
John F. Haggerty, Forest Hills, New York.
Orin Lehman, New York, New York.
Gordon N. Litwin, Little Silver, New Jersey.
Terrence D. Moore, Newark, New Jersey.
Sheldon Pollack, New York, New York.
Barbara Reach., New York, New York.
Richard J. Sullivan, Hamilton Square, New Jersey.
Nathaniel Washington, Newark, New Jersey.
Joseph B. Williams, Brooklyn, New York.

The matters to be discussed at this meeting include:

1. Transportation Sub-Committee Report
2. Report on Nominations for National Register of Historic Places.
3. Status Report on Summer 1977 Activities.
4. Progress Report on Park Interpretive Plan.

The meeting will be open to the public. However, facilities and space to accommodate members of the public are limited, and persons will be accommodated on a first-come, first-served basis. Any members of the public may file with the Commission a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact the Superintendent, Gateway National Recreation Area, Headquarters Building 69, Floyd Bennett Field, Brooklyn, New York 11234, Area Code 212-252-9150.

Minutes of the meeting will be available for inspection four (4) weeks after the meeting at the Gateway National Recreation Area Headquarters Building.

Dated: June 6, 1977.

HERBERT OLSEN,
Acting Superintendent.

[Int FES 77-20]

EAST DECKER AND NORTH EXTENSION MINES, BIG HORN COUNTY, MONT.

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 and to section 69-6504(b)(3) R.C.M. 1947 of the Montana Environmental Policy Act, the Department of the Interior and the Montana Department of State Lands have jointly prepared a final environmental impact statement on the proposed surface mining of coal in the East Decker and North Extension areas in Big Horn County, Montana. The final statement assesses the environmental impacts of the lessee's plan for the strip mining of Federal, State, and privately owned coal and for the concurrent reclamation of lands disturbed by mining and related activities. The proposed action in the East Decker area is on Federal coal lease Montana 073093, on State coal lease numbers 531, 822, 823, and 918, and on fee coal owned by Gregg H. and Charles V. Penson and by George B. Holmes. These leases and holdings include all or parts of sections 1, 11, 12, 13, and 14, T. 9 S., R. 40 E. and sections 7, 8, 17, and 18, T. 9 S., R. 41 E., Montana Prin. Mer. The proposed action in the North Extension area is on Federal coal leases Montana 057934, Montana 057934A, Montana 061685, and Montana 06770, and on fee coal owned by Rosebud Coal Sales Company. These leases and holdings include all or parts of sections 33 and 34, T. 8 S., R. 40 E., and sections 3, 4, 9, and 10, T. 9 S., R. 40 E., Montana Prin. Mer.

Comments received on the draft environmental statement (DES 76-40) during the 45-day comment period were considered in the preparation of the final statement and are reproduced, together with responses, in appendixes M and N, volume II.

Copies of the final environmental statement are available for public inspection and review in the U.S. Geological Survey Public Inquiries Office, Room 1012, Federal Building, 1961 Stout Street, Denver, Colorado; the U.S. Geological Survey Library, Denver West Office Park, Building 3, 1526 Cole Boulevard, Lakewood, Colorado; the U.S. Geological Survey Library, Room 4A100, USGS National Center, 12201 Sunrise Valley Drive, Reston, Virginia; Montana State Library, 900 East Lyndale, Helena, Montana; Montana Department of State Lands, 1625 11th Avenue, Helena, Montana; Parmly Billings Library, 510 North Broadway, Billings, Montana; Big Horn County Public Library, 419 North Custer Avenue, Hardin, Montana; Rosebud County Library, 201 North 9th Avenue, Forsyth, Montana; and Sheridan County Public Library, Louks and Alger Streets, Sheridan, Wyoming.

A limited number of single copies are available on request from the U.S. Geological Survey, Box 25046, Federal Center, Mail Stop 602, Lakewood, Colorado 80225; and over the counter only from the U.S. Geological Survey Public Inquiries Office, Room 1012, Federal Building, 1961 Stout Street, Denver, Colorado; and the Montana Department of State Lands, 1625 11th Avenue, Helena, Montana.

Dated: June 13, 1977.

HEATHER L. ROSS,
Acting Deputy Assistant Secretary of the Interior.

JOSEPH A. GRECO, M.D.

Hearing

Notice is hereby given that on February 2, 1977, the Drug Enforcement Administration, Department of Justice, issued to Joseph A. Greco, M.D., Patchogue, New York, an Order to Show Cause as to why the Drug Enforcement Administration registration AG0800727 issued to him pursuant to Section 303 of the Controlled Substances Act (21 U.S.C. 823) should not be revoked.

Thirty days having elapsed since the said Order to Show Cause was received by the Respondent, and written request for a hearing having been filed with the Drug Enforcement Administration, notice is hereby given that a hearing in this matter will be held commencing at 9:30 a.m., or as soon thereafter as this matter may be reached, on July 13, 1977, in the U.S. Tax Court Courtroom, Room 1524, 51 S.W. First Avenue, Miami, Florida.

Dated: June 8, 1977.

PETER B. BENSINGER,
Administrator, Drug Enforcement Administration.

NATIONAL COMMISSION ON ELECTRONIC FUND TRANSFERS

SHARING COMMITTEE

Meeting

The Sharing Committee of the National Commission on Electronic Fund Transfers will meet on Monday, June 27, 1977, at 10 a.m. in the 8th Floor Conference Room of the Comptroller of the Currency, 490 L'Enfant Plaza, Washington, D.C. The purpose of the meeting is to discuss possible sharing recommendations.

This meeting is open to the public to the extent space permits. Any person interested in attending should first call Ms. Janet Miller at 202-254-7400 to check on the availability of space.

Dated June 13, 1977.

JAMES O. HOWARD, Jr.,
General Counsel.

NUCLEAR REGULATORY COMMISSION

ABNORMAL OCCURRENCE REPORT

Seventh Report Submitted to the Congress

Notice is hereby given that pursuant to the requirements of section 208 of the Energy Reorganization Act of 1974, as amended, the Nuclear Regulatory Commission has published and issued the seventh periodic report to Congress on abnormal occurrences (NUREG-0090-6). The release date is June 14, 1977.

Under the Energy Reorganization Act of 1974, which created the NRC, an abnormal occurrence is defined as "an unscheduled incident or event which the Commission (NRC) determines is significant from the standpoint of public health or safety." The NRC has made a determination, based on criteria published in the FEDERAL REGISTER (42 FR 10950) on February 24, 1977, that events involving an actual loss or significant reduction in the degree of protection against radioactive properties of source, special nuclear, and byproduct materials are abnormal occurrences.

The seventh report to Congress is for the fourth quarter of 1976 and indicates that during this period:

(a) There were two abnormal occurrences at the 63 nuclear power plants licensed to operate. One event involved improper control rod withdrawals resulting in unplanned reactor criticality. The second is a generic event pertaining to feedwater nozzle craking in Boiling Water Reactors. The incidents had no actual impact on public health or safety.

(b) There were five abnormal occurrences at other licensee facilities. The occurrences involved overexposures to radiography personnel; one event also involved high radiation levels in unrestricted areas.

The incidents involved temporary reductions in margins of safety normally provided.

The seventh report to the Congress also contains updating information on abnormal occurrences reported in previous reports.

Interested persons may review the report at the NRC's Public Document Room, 1717 H Street NW., Washington, D.C., or at any of the 130 local Public Document Rooms throughout the country. The report, designated NUREG 0090-6, may be purchased from the National Technical Information Service, Springfield, Virginia 22161, at $4 a copy on or about June 28, 1977.

Dated at Washington, D.C., this 13th day of June 1977.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary of the Commission.

[FR Doc.77-17357 Filed 6-15-77;8:45 am]

[Docket No. 50-313]

ARKANSAS POWER & LIGHT CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 24 to Facility Operating License No. DPR-51, issued to Arkansas Power & Light Company (the licensee), which revised Technical Specifications for operation of Arkansas Nuclear One—Unit No. 1 (the facility) located in Pope County, Arkansas. The amendment is effective as of its date of issuance.

This amendment authorized changes in the Technical Specifications to add provisions for steam generator tube inspections consistent with the guidance of Regulatory Guide 1.83, Revision 1 (July 1975).

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of the amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated November 22, 1976, (2) Amendment No. 24 to Facility Operating License No. DPR-51 and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Arkansas Polytechnic College, Russellville, Arkansas 72801. A single copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 27th day of May, 1977.

For the Nuclear Regulatory Commission.

DON K. DAVIS,
Acting Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[FR Doc.77-16846 Filed 6-15-77;8:45 am]

[Docket No. 50-313]

ARKANSAS POWER & LIGHT CO.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 25 to Facility Operating License No. DPR-51, issued to Arkansas Power & Light Company (the licensee), which revised the Technical Specifications for operation of Arkansas Nuclear One—Unit No. 1 (the facility) located in Pope County, Arkansas. The amendment is effective as of its date of issuance.

The amendment deleted reference to certain usage of the terms "refueling period", "refueling outage", and "refueling shutdown" in response to the NRC letter dated June 7, 1976. In place of these terms, time periods affording easier interpretation of requirements have been specified.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of the amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated September 30, 1976, (2) the Commission's letter to Arkansas Power & Light Company dated June 7, 1976, (3) Amendment No. 25 to Facility Operating License No. DPR-51, and (4) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Arkansas Polytechnic College, Russellville, Arkansas 72801. A single copy of items (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 1st day of June, 1977.

For the Nuclear Regulatory Commission.

MARSHALL GROTENHUIS,
Acting Chief, Operating Reactors Branch No. 2, Division of Operating Reactors.

[Docket No. 50-471]

BOSTON EDISON CO. ET AL. (PILGRIM NUCLEAR GENERATING STATION, UNIT 2)

Order

It is ordered, That the evidentiary hearing will resume on Monday, June 20, 1977, at 1 p.m. in the Blue Room, Memorial Hall, 83 Court Street, Plymouth, Massachusetts.

Dated at Bethesda, Maryland, this 10th day of June 1977.

The Atomic Safety and Licensing Board.

FREDERIC J. COUFAL,
Chairman.

[FR Doc.77-17358 Filed 6-15-77;8:45 am]

[Docket No. 50-358]

CINCINNATI GAS AND ELECTRIC CO. ET AL. (WILLIAM H. ZIMMER NUCLEAR POWER STATION, UNIT NO. 1)

Order Extending Construction Completion Date

Cincinnati Gas and Electric Company, Columbus and Southern Ohio Electric Company and The Dayton Power and Light Company are the holders of Construction Permit No. CPPR-88 issued by the Atomic Energy Commission[1] on October 27, 1972, for construction of the William H. Zimmer Nuclear Power Station, Unit No. 1, presently under construction at the Companies' site in Clermont County, Ohio.

[1] Effective January 20, 1975, the Atomic Energy Commission became the Nuclear Regulatory Commission and Permits in effect on that day were continued under the authority of the Nuclear Regulatory Commission.

On July 28, 1976, the Companies filed a request for an extension of the completion dates because construction has been delayed due to a number of reasons. According to the Companies:

(1) Construction suffered an initial 12 months delay because of the Calvert Cliffs decision which delayed the issuance of the Construction Permit (the ACRS report on the Zimmer Station was received on September 17, 1971, but the environmental review was not completed until mid-1972 and the Construction Permit was not issued until October 27, 1972). The staff regards this delay to be for good cause, beyond the control of the Companies and reasonable in duration. The Companies stated that in spite of the delay caused by the Calvert Cliffs decision, they were optimistic that construction would be completed prior to the latest completion date of January 1, 1977 in the Construction Permit (two years for contingencies were included in the original estimates and one year was lost to the Calvert Cliffs decision). However, the facility could not be completed by January 1, 1977. The companies feel that, at least in hindsight, this was administrative oversight and the staff concurs.

(2) Once construction was in progress additional delays were experienced because of design changes; shortage of craft labor; and extended materials and equipment deliveries. The design changes involved improved design criteria for safety related systems and structures and the shortage of craft labor and poor materials and equipment delivery schedules are common. These delays have impacted the construction schedules by about 12 months since the start of construction. The staff regards these delays to be for good cause, beyond the control of the companies and reasonable in duration.

(3) It was necessary, as a recent company move, to stretch the remaining construction activities by 15 months to adjust them to match projected available financing and to levelize expenditures. Construction has been in progress for 4 years and 6 months and is estimated to be about 70% complete. It is reasonable to expect that late deliveries of materials and equipment will tend to peak expenditures during the remaining construction time. The staff regards this delay to be for good cause, beyond the control of the companies and reasonable in duration.

This action involves no significant hazards considerations and no significant environmental impact; good cause has been shown for the delay; and the requested extension is for a reasonable period, the bases for which are set forth in a staff evaluation, dated May 9, 1977.

Copies of the above documents and other related material are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555 and at the Clermont County Library, Third and Broadway Streets, Batavia, Ohio 45103.

It is hereby ordered, That the latest completion date for CPPR–88 is extended from January 1, 1977 to April 1, 1980.

Date of Issuance: June 1, 1977.

For the Nuclear Regulatory Commission.

D. B. VASSALLO,
Assistant Director for Light Water Reactors, Division of Project Management.

[FR Doc.77–16844 Filed 6–15–77;8:45 am]

[Docket No. 50–331]

IOWA ELECTRIC LIGHT AND POWER CO. ET AL.

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 35 to Facility Operating License No. DPR–49 issued to Iowa Electric Light and Power Company, Central Iowa Power Cooperative, and Corn Belt Power Cooperative, which revised Technical Specifications for Operation of the Duane Arnold Energy Center, located in Linn County, Iowa. The amendment is effective as of its date of issuance.

The amendment consists of an administrative change to the Technical Specifications which will add the requirement that the Radiation Protection Engineer shall meet or exceed the qualifications of Regulatory Guide 1.8, September, 1975.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated April 14, 1977, (2) Amendment No. 35 to License No. DPR–49, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Cedar Rapids Public Library, 426 Third Avenue, S.E., Cedar Rapids, Iowa 52401. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland this 6th day of June 1977.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Operating Reactors.

[FR Doc.77–16843 Filed 6–15–77;8:45 am]

[Docket No. 50–285]

OMAHA PUBLIC POWER DISTRICT

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 25 to Facility Operating License No. 40 issued to Omaha Public Power District which revised Technical Specifications for operation of the Fort Calhoun Station, Unit No. 1, located in Washington County, Nebraska. The amendment is effective as of its date of issuance.

The amendment consists of changes to the Technical Specifications which will (1) correct a typographical error regarding battery changer numbers and (2) correct an inconsistency between the existing radiation monitoring system and the Technical Specification requirements for operating radiation monitoring during refueling operations.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5 (d)(4) an environmental statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated October 8, 1975, supplemented by letter dated April 7, 1976, (2) Amendment No. 25 to License No. DPR–40, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Blair Public Library, 1665 Lincoln Street, Blair, Nebraska. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 6th day of June 1977.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch No. 3, Division of Operating Reactors.

[Docket No. 50–285]

OMAHA PUBLIC POWER DISTRICT

Issuance of Amendment to Facility Operating License

The Nuclear Regulatory Commission (the Commission) has issued Amendment No. 24 to Facility Operating License No. DPR–40 issued to Omaha Public Power District, which revised Technical Specifications for operation of the Fort Calhoun Station Unit No. 1 located in Washington County, Nebraska. The amendment is effective as of its date of issuance.

This amendment consists of changes to the Technical Specifications which will (1) add the definitions for "Refueling Outage", "Refueling Shutdown" and "Plant Operating Cycle", (2) modify the presently specified definition for "Refueling Operation" and (3) incorporate these terms into the Technical Specifications.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated January 10, 1977, (2) Amendment No. 24 to License No. DPR–40, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Blair Public Library, 1665 Lincoln Street, Blair, Nebraska. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Operating Reactors.

[Docket No. 50–333]

POWER AUTHORITY OF THE STATE OF NEW YORK

Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 22 to Facility Operating License No. DPR–59, issued to Power Authority of the State of New York (PASNY) for operation of the James A. FitzPatrick Nuclear Power Plant (the facility) located in Oswego County, New York. The amendment is effective at 11:59 p.m., EDST, June 4, 1977.

The amendment is administrative in nature and permits PASNY to assume sole responsibility for the operation of the facility. Previously, Niagara Mohawk Power Corporation was licensed to operate the facility under contract to PASNY.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment submitted by letter dated December 20, 1976, as supplemented March 22, 1977, April 11, and 14, 1977, (2) Amendment No. 22 to License No. DPR–59, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Oswego County Office Building, 46 East Bridge Street, Oswego, New York.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, attention: Director, Division of Operating Reactors.

Dated at Bethesda, Maryland, this 3rd day of June 1977.

For the Nuclear Regulatory Commission.

PUGET SOUND POWER AND LIGHT COMPANY, ET AL. (SKAGIT NUCLEAR POWER PROJECT, UNITS 1 AND 2)

Order Convening Evidentiary Hearing

The Atomic Safety and Licensing Board, at an evidentiary hearing held on May 13, 1977, considered with the parties the selection of a convenient date for resumption of further evidentiary hearings in this proceeding. The Board determined that July 19, 1977 was the first available date.

Wherefore, *It is ordered*, in accordance with the Atomic Energy Act, as amended, and the Rules of Practice of the Nuclear Regulatory Commission, that an evidentiary hearing shall convene at 9:00 a.m. on Tuesday, July 19, 1977, in Room 3086 of the New Federal Building, 915 Second Avenue, Seattle, Washington, to consider the agenda of presentations discussed at the May 13th hearing session including, without limitation on the generality of the foregoing, availability of a uranium fuel supply, Table S–3 considerations, health effects of coal vs. nuclear comparisons, Wild and Scenic River presentations, alternative sites and a possible supplement to the Final Environmental Statement.

Issued: June 8, 1977, Bethesda, Maryland.

ATOMIC SAFETY AND LICENSING BOARD,
SAMUEL W. JENSCH,
Chairman.

ROCKY MOUNTAIN ENERGY COMPANY

Notice of Availability of Final Environmental Statement for Bear Creek Uranium Mining and Milling Project

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commission's regulations in 10 CFR Part 51, notice is hereby given that a final environmental impact statement issued by the Commission's Office of Nuclear Material Safety and Safeguards related to the Bear Creek Project in north-central Converse County, Wyoming, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C. and at the Converse County Library, Douglas, Wyoming 82633. The final statement is also being made available at the State Clearinghouse, State Planning Coordinator, Office of the Governor, Capitol Building, Cheyenne, Wyoming 82001.

Notice of availability of the Draft Environmental Statement for the Bear Creek Project (NUREG–0129) and request for comments from interested persons was published in the FEDERAL REGISTER on January 10, 1977 (42 FR 2140). The comments received from Federal agencies, State and local officials and interested members of the public have been included as appendices to the Final Environmental Statement.

Preparation of the final statement is a joint effort between the Nuclear Regulatory Commission, the U.S. Forest Service, and the U.S. Geological Survey, with NRC acting as the coordinating agency.

Copies of the Final Environmental Statement (Document No. NUREG–0129) may be purchased at $11.00 a printed copy and $3.00 for microfiche copy from the National Technical Information Service, Springfield, Virginia 22161, on or about June 23, 1977.

Dated at Silver Spring, Maryland, this 3rd day of June, 1977.

For the Nuclear Regulatory Commission.

L. C. ROUSE,
Chief, Fuel Processing and Fabrication Branch, Division of Fuel Cycle and Material Safety.

[Docket No. 40–2259]

UTAH INTERNATIONAL INC. (LUCKY MC URANIUM CORPORATION)

Availabiilty of Applicant's Environmental Report

Pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in 10 CFR Part 51, Utah International Inc. has filed an environmental report and supplement in support of their application for renewal of Source Material License SUA–672 for the Lucky Mc Uranium Mill, Gas Hills, Fremont County, Wyoming. Lucky Mc Uranium Corporation has pending a request to transfer Source Material License SUA–672 from Utah International Inc., to Lucky Mc Uranium Corporation.

The reports, which discuss environmental considerations, related to the operation of the mill, are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555. Copies of the reports are also being made available at the State Clearinghouse, State Planning Coordinator, Office of the Governor, Capitol Building, Cheyenne, Wyoming 82001.

After the environmental reports have been analyzed by the staff, a draft environmental statement will be prepared. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, with a request for comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Dated at Silver Spring, Maryland, this 8th day of June 1977.

For the Nuclear Regulatory Commission.

NATIONAL TRANSPORTATION SAFETY BOARD

[N–AR 77–24]

ACCIDENT REPORTS; SAFETY RECOMMENDATIONS AND RESPONSES

Availability and Receipt

Aircraft Accident Report.—The failure of each pilot to maintain adequate vigilance was probably the cause of the fatal midair collision of two Piper PA–28 aircraft near Huntsville, Missouri, last July 24, the National Transportation Safety Board has determined. No reason could be found for this lack of vigilance.

One Piper, a private flight operating under instrument flight rules and under the control of Kansas City air route traffic control center, was en route from Urbana, Illinois, to Emporia, Kansas. The other Piper, a Reeds Aviation, Inc., air taxi/charter flight operating under visual flight rules and without a flight plan, was climbing en route from Salisbury, Missouri, to the Chicago, Illinois, area. The collision occurred at 6,000 feet. The pilot and two passengers aboard the air taxi and the pilot and one passenger aboard the other Piper were killed; both aircraft were destroyed.

Both pilots were qualified for the flights, and there was no evidence of any preaccident failure of either aircraft or their components. Since the sky was clear and visibility unrestricted, the Safety Board concluded that weather was not a factor. The relatively low closure rates, the location of each target in each aircraft windshield, and the visibility, would have combined to permit each pilot ample opportunity to see the other aircraft in time to prevent the collision.

This midair collision accident, the Board said, is an example of the limitations of the see-and-avoid concept. It should serve as a reminder to all pilots to constantly maintain vigilance while flying in visual flight conditions regardless of the type flight plan under which they are operating, to request traffic advisories from Federal Aviation Administration facilities, and to insure that their transponder is on and functioning properly.

Copies of the Board's narrative report, No. NTSB–AAR–77–2, are now available to the public.

During investigation of the Huntsville accident and several other recent aircraft accidents, the Safety Board discovered certain problems regarding medical certification of airmen—problems which demonstrate nonadherence to 14 CFR Part 67 as well as a lack of quality control by Aviation Medical Examiners and the FAA's Civil Aeromedical Institute. Four corrective recommendations, Nos. A–77–5 through 8, were issued last February 17 to the FAA. (See 42 FR 10915, February 24, 1977.)

Railroad Accident Report.—Two locomotive units and 11 cars of an Amtrak train derailed near Goodman, Mississippi, June 30, 1976, when the track structure was unable to withstand the lateral forces generated by excessive swaying of the locomotive trucks. The Safety Board report on the investigation of this accident, report No. NTSB–RAR–77–3, was made available June 6.

One trackman was killed when the "Panama Limited" derailed on Illinois Central Gulf railroad track. Six other trackmen were injured, along with 11 members of the traincrew and 34 of the 145 passengers. The train was traveling at 88 mph—9 miles an hour over the allowable speed—when it derailed.

The Safety Board determined that the probable cause of this accident was the tipping of the east rail and widening of track gage when the track structure was unable to withstand the lateral forces generated by excessive oscillations of the locomotive trucks due to irregularities in the track alignment and cross level, the wet ballast and subgrade, and the train's excessive speed. The excessive oscillations occurred even though track alignment, track surface, and crosstie spiking complied with the minimum requirements for Federal Railroad Administration Class 4 track, indicating that these requirements are inadequate.

As a result of its investigation of this accident, the Safety Board on April 21 issued three recommendations to FRA—two designed to amend FRA track geometry standards, and a third urging the inclusion in review of current FRA track safety regulations, investigation and testing to determine whether minimum track conditions required for the FRA classes of track by 49 CFR 213.9 are adequate for all types of trains and for the maximum allowable speed for each class. (See 42 FR 21677, April 28, 1977.)

Pipeline Safety Recommendations.—Following investigation into two gas explosion accidents, both in residential areas, the Safety Board last week issued eight new pipeline safety recommendations. One accident occurred last August 8 in Allentown, Pennsylvania; the other accident occurred last January 25 near Williamsport, Pennsylvania.

The Allentown explosion at 2 p.m. destroyed a house at 1127 Oak Street. The gas migrated from a break in a 4-inch cast-iron main under the street, through loose soil under a concrete sidewalk, and into the building through cracks and openings in its foundation; 26 minutes later, another house exploded across the street from the site of the first explosion. The front brick wall collapsed into the street, trapping two firemen. The street then caved in directly in front of the trapped firemen. The cast-iron gas main within the sinkhole broke into several pieces; flames from the broken main, more than 10 feet high, hampered rescue. Two firemen were killed, 14 persons were injured, 4 buildings were destroyed, and several buildings were damaged.

Because of lack of coordination between UGI personnel and firemen as to their responsibilities in the emergency, two gas meters were overlooked and were not shut off. This probably provided the source of ignition for the second explosion, the Board said.

Gas was allowed to burn after each of the explosions because the firemen had been taught: "Burning gas will not explode"; and "If natural gas is burning outside, the firemen should make no attempt to extinguish a gas fire." These statements, although true under most circumstances, are too simplified to cover all situations, and attempts should be made to modify training materials to include provisions for events similar to this accident.

Accordingly, on June 8 the Safety Board issued three recommendation letters:

To UGI Corporation, Reading, Pennsylvania—

Revise your 1968 Guide for Fire Fighters and training program by incorporating instructions on how to deal with events similar to this accident with particular emphasis on the proper use of combustible gas indicators. (P–77–1)

Revise your emergency plans to incorporate the revisions that became effective October 1, 1976, to 49 CFR 192.615, and to insure emergency response coordination with fire and other public officials. Particular emphasis should be placed on the availability and the proper use of combustible gas indicators (P–77–2)

Expedite, in conjunction with equipment manufacturers, the development of a survey unit that could be used to detect the location of sinkholes in the vicinity of cast-iron gas mains. "Downwardlooking" radar equipment should be investigated as one possible means of surveying for sinkholes. (P–77–3)

To Materials Transportation Bureau, U.S. Department of Transportation—

Encourage, coordinate, and monitor development of equipment which could be used to detect the location of sinkholes in the vicinity of underground utilities. (P–77–4)

To the Gas Piping Standards Committee, American Society of Mechanical Engineers, New York City—

Develop guidelines to assist operators during emergencies to promptly isolate leaking segments of pipe in a low-pressure system. (P–77–5)

Each of the five recommendations above is designated "Class III, Longer Term Followup."

With respect to the Williamsport accident, at 1:36 a.m. on January 25, a low-order explosion and fire destroyed a house; the occupant was not seriously injured. At 1:44 a.m. nearby volunteer firemen responded and notified Pennsylvania Gas and Water Company (Penn Gas) of Wilkes-Barre, Pennsylvania, of strong odors of gas at the accident site. A local serviceman, arriving at 2:10 a.m., determined that, since there was no gas service into the house that exploded, the gas main was leaking; he telephoned his dispatcher for a street crew at 2:15 a.m.

At 2:39 a.m., a few minutes after the street crew arrived, another explosion demolished a large house 100 feet away. A resident of the house and a bystander were killed; several persons, including 19 firemen, were injured. Automobiles, a fire truck, and many houses within a one-block radius were damaged severely.

The Safety Board found that Penn Gas did not have a program in Williamsport for instructing the volunteer fire department on procedures to be followed during a gas emergency. The serviceman at the accident site did not establish a liaison with the fireman or offer any advice regarding checking other buildings for gas accumulations and evacuation of residents and bystanders from the area.

Penn Gas traced the leaking gas back to its 4-inch bare steel gas main, which was installed as a low-pressure main in 1963 and was later converted to high-pressure service. The pipe was excavated in an alley 60 feet from one of the demolished houses.

Investigation also revealed that a gas company inspection program was not adequate to protect gas facilities from damage by extensive sewer construction.

Accordingly, by letter dated June 6, the Safety Board recommended that Penn Gas—

Excavate, on a random sample basis acceptable to the Pennsylvania Public Service Commission, the welds in the failed 4-inch gas main and nondestructively test them according to the American Petroleum Institute 1104 Welding Code to determine if there are more faulty welds on the pipeline. Replace or repair all welds which do not pass reinspection. (P–77–6)

Instruct its personnel in inspection techniques and procedures and emphasize the potential hazards of undetected faulty welds and construction damage to operating pipelines. (P–77–7)

Reemphasize and instruct gas operations personnel on the importance of liaison with the fire department and establish with all fire departments, including volunteer fire departments, what the proper response should be to every type of gas emergency. (P–77–8)

Recommendation P–77–6 is designated "Class I, Urgent Followup"; P–77–7 and 8 are "Class II, Priority Followup" recommendations.

RESPONSES TO SAFETY RECOMMENDATIONS

Aviation: A–73–46.—Federal Aviation Administration letter of May 31 is in response to the Safety Board's request of May 6, 1977, asking for further details about a minimum safe altitude warning system (MSAW) which the Board learned has been developed as an integral part of the ARTS III computer and which is expected to be introduced into the national aviation system shortly. Also, the Board's May 6 letter asked FAA for assurance that procedures have been developed to prevent recurrence of accidents that generated this recommendation. A–73–46 was issued following investigation of the Eastern Airlines Lockheed L–1011 accident at Miami, Florida, December 29, 1972 (report No. NTSB–AAR–73–14) and asked that FAA review the ARTS III program for possible development of procedures to aid flightcrews when marked deviations in altitude are noticed by an air traffic controller.

On December 18, 1973, the Safety Board was informed that the FAA's Systems Research and Development Service had contracted UNIVAC to develop the hardware and software modifications necessary to implement this recommendation. On May 13, 1974, the Board was advised that the FAA Systems Research and Development Service was conducting tests to verify the feasibility of the concept.

To FAA's May 31 letter are attached copies of Advisory Circular AC 90–72 which describes the capabilities of the NSAW function, an FAA news release "Fact Sheet-MSAW" which describes in part the history of MSAW development, how MSAW works, and paragraph 33, "Safety Advisory," represcribed control procedures from Air Traffic Control Handbook 7110.65. FAA anticipates that all 63 ARTS III terminal facilities will be MSAW equipped and operational by June 30. The ARTS III add-on feature is now operational at 17 locations, FAA said.

FAA reports that although the procedures will minimize possibilities of recurrence of the type of accidents that generated A–73–46, FAA said it cannot assure the Safety Board that they will in fact prevent similar type accidents in the future. FAA stated, "The MSAW system is designed to provide the controller with information that he may relay to the pilot to assist him in his safe altitude management responsibility. It in no way relieves the pilot of his responsibility for safe altitude management."

Aviation: A–77–12 and 13.—Federal Aviation Administration letter of June 2 responds to recommendations issued last March 14 re formulation and dissemination of a training program for firefighting personnel involved in crash/fire/rescue activities at noncertificated airports. (See 42 FR 15993, March 24, 1977.) FAA concurs in both recommendations.

Re A–77–12, FAA reports that its Advisory Circular (AC) 139.49–1 presents a recommended training program for aircraft firefighting and rescue personnel. In addition to covering the two primary areas of training—operation of airport firefighting and rescue equipment and the principles of aircraft firefighting and rescue techniques—the AC includes a basic program for practical training, subjects for classroom or individual study, information on the availability of courses/course material, and safety procedures for hot fire training. The AC was published in November 1974 to furnish airport operators of certificated airports guidance under FAR Part 139.

The June 2 letter references discussion of current efforts in this area contained in FAA's letter of May 18 to the Safety Board concerning recommendation A–76–142. (See 42 FR 29580, June 9, 1977.)

A–77–13 recommended that FAA disseminate the training program, in coordination with the Commuter Airlines Association of America, the National Fire Prevention and Control Administration, and the American Association of Airport Executives, to State and local governments and airport operators, and urge them to adopt it in the interest of passenger safety.

In response, FAA notes that its recommended training program under AC 139.49–1 was originally disseminated through the AC 150 series (Airport Compliance Program and Airport Safety—General) distribution list. Total number of subscribers varies from month to month, FAA says, but normally runs 15,000–17,000. The AC is listed in the FEDERAL REGISTER as available to the general public free of charge. A much broader audience was reached than recommended, FAA says.

FAA expects to be working with the National Fire Prevention and Control Administration on developments in the aircraft firefighter training area. FAA strongly recommends implementation of the advice contained in AC 139.41 at noncertificated airports, and concurs with recommendation A–77–13 from the point that its advisory circular distribution already includes the majority of the listed groups. FAA does not believe any additional distribution through these groups is warranted at this time.

Aviation: A–77–32 and 33.—Federal Aviation Administration letter of May 24 is a further response to the two recommendations issued by the Board immediately following the May 16 accident involving a Sikorsky Model S–61L helicopter on the Pan American Building's heliport in New York City. FAA's initial response of May 20 was reported at 42 FR 29580, June 9, 1977.

Recommendation A–77–32 asked FAA to issue an airworthiness directive to require an immediate one-time inspection by an approved method on both the forward and aft main landing gear attachment fittings, right and left, on all Sikorsky Model 61L series helicopters having similar installations. FAA reports that a "telegraphic airworthiness directive has been issued to require prior to next flight fluorescent penetrant inspection of the forward and aft main landing gear attachment fittings, right and left, on all affected Sikorsky Model 61 series helicopters. In addition, a visual inspection is required prior to the first flight of each day."

Re A–77–33, which asked FAA to reevaluate the current inspection interval and issue requirements for more frequent periodic inspections if necessary to insure continued safe operation, FAA reports that assessments are being made by FAA and the manufacturer to establish a service life and additional inspections based on available data and service experience. The assessments should be completed within 60 days, FAA said, at which time FAA will initiate action in consonance with the recommendation.

Marine: 69–M–60 and 71–M–28.—Letter of May 26 from the U.S. Coast Guard, in answer to these two recommendations, reports that a notice of proposed rulemaking concerning offshore drilling units was published in the FEDERAL REGISTER on May 2, 1977 (42 FR 22296). Coast Guard does not consider further response to these recommendations to be necessary. A copy of the proposal is attached to the letter.

Recommendation 69–M–60 was issued following investigation of Continental Oil Rig 43–A, explosion and fire in the Gulf of Mexico, October 24, 1967. The recommendation asked that the Department of Transportation, in conjuntion with the Department of the Interior, study the need for safety regulations or the revision of regulations for fixed and mobile drilling and production units operating on the outer continental shelf, including the operating equipment, the methods and operations used in drilling for and the production of oil, gas, or other subsoil minerals, and the transportation thereof by pipeline.

Recommendation 71–M–28 was issued as a result of investigation of the explosions and fire on the Chambers and Kennedy Offshore Platform, Block 189–L, and fire on the MV Carryback in the Gulf of Mexico, May 28, 1970. The recommendation asked the Department of the Interior and the Department of Transportation to evaluate their present regulations governing fixed and mobile offshore drilling and production structures operating under Federal jurisdiction, and, based on analysis of casualty data, determine whether revisions or additions are needed to prevent recurrence of similar casualties.

Marine: M–74–30.—Coast Guard's letter of May 19 provides updated information on this recommendation which was discussed at the latest NTSB/USCG quarterly meeting, May 4. The recommendation was issued as a result of the investigation into the death of three officers aboard the SS *William T. Steele*, November 18, 1972.

The Coast Guard letter cites Title 46 U.S.C. 673 in part:

• • • nor shall any licensed officer or seaman in the deck or engine department be required to work more than eight hours in one day; • • • these provisions shall not limit either the authority of the master or other officer • • • when in the judgment of the master or other officer, the whole or any part of the crew are needed for maneuvering, shifting berth, mooring or unmooring the vessel or the performance of work necessary for the safety of the vessel, her passengers, crew and cargo or for the saving of life aboard other vessels in jeopardy, or when in port or at sea, from requiring the whole or any part of the crew to participate in the performance of fire, lifeboat or other drills.

Coast Guard states that since the seamen employed on board U.S. vessels are already protected from being required to work excessively long hours, further action on recommendation M–74–30 "would appear to be redundant. According to the May 19 letter, Coast Guard has considered this recommendation closed since March 21,1975.

NOTE.—The above notice consists of summaries of Safety Board documents made available, and safety recommendation responses received, during the week preceding publication of this notice in the FEDERAL REGISTER. The accident reports and the safety recommendation letters in their entirety, are available to the general public; single copies are obtainable without charge. Copies of the full text of responses to recommendations and any Board correspondence may be obtained at a cost of $4.00 for service and 10 cents per page for reproduction. All requests must be in writing, identified by the recommendation number and date of publication of this notice in the FEDERAL REGISTER. Address inquiries to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of accident reports may be purchased by mail from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93–633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)).)

MARGARET L. FISHER,
Federal Register,
Liaison Officer.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on June 10, 1977 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202–395–4529), or from the reviewer listed.

REVISIONS

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration, Notice of Progress of Construction or Alteration, FAA 7460–2, on occasion, private enterprise, Marsha Traynham, 395–4529.

EXTENSIONS

DEPARTMENT OF COMMERCE

Bureau of Census, Survey of Gallonage Sales of Gasoline, SG4, SG4 (Birth), SG–3, monthly, Lowry, R. L., 395–3772.

DEPARTMENT OF TRANSPORTATION

Coast Guard, Masters Report of Seamen shipped or Discharged, CG–735T, monthly, masters of coastwide merchant vessels, Strasser, A., 395–5867.

PHILLIP D. LARSEN,
Budget and Management Officer.

[FR Doc. 77–17252 Filed 6–15–77;8:45 am]

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on June 9, 1977 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202–395–4529), or from the reviewer listed.

NEW FORMS

FEDERAL HOME LOAN BANK BOARD

Money Order Survey, 1095, single time, insured savings and loan associations, Gaylord Worden, 395–4730.

REVISIONS

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service, Claim for Reimbursement (SL, SB, SM Programs), FNS–806, monthly, school food authorities, institutions, and sponsoring agencies, Human Resources Division, 395–3532.

EXTENSIONS

DEPARTMENT OF LABOR

Bureau of Labor Statistics, Employment, Wages, and Contribution Report, BLS 3031 (ES 202), quarterly, States, Strasser, A., 395–5867.

Employment Standards Administration, Claim for Compensation in Death Case by Widow and/or Children Under the Age of Eighteen, LS–262, on occasion, widows, widowers, and guardians of children, Marsha Traynham, 395–4529.

PHILLIP D. LARSEN,
Budget and Management Officer.

OFFICE OF THE SPECIAL REPRESENTATIVE FOR TRADE NEGOTIATIONS

GENERALIZED SYSTEM OF PREFERENCES

Public Hearings on Petitions to Modify the List of Articles Receiving Duty Free Treatment

I. Requests to present oral testimony, and related written briefs, in connection with public hearings announced in 42 FR 24878 (May 16, 1977) should be received by Friday, July 1, 1977.

II. Hearings will begin at 10 a.m. on Thursday, July 14, in Room 2008 of the New Executive Office Building (entrance on 17th Street between Pennsylvania Avenue and H Street, N.W.), Washington, D.C., and will continue on that and subsequent days until all witnesses wishing to appear have been heard.

1. *Acceptance of petitions for review.* Notice is hereby given by the Chairman of the Trade Policy Staff Committee (TPSC) of acceptance for review of petitions for modification of the list of articles receiving duty-free treatment under the Generalized System of Preferences (GSP) as provided for in Title V of the Trade Act of 1974 (88 Stat. 2066–2071, 19 U.S.C. 2461–2465). These petitions have been submitted, and will be reviewed, pursuant to regulations codified at 15 CFR Chapter XX, Part 2007. Some of the petitions have been accepted notwithstanding the fact that additional information has been requested of the petitioners.

The list of petitions accepted for review is set forth in Annex I at the end of this notice.

2. *Types of petitions included in this review.* Petitions to add articles to the list of eligible articles for the GSP are listed in Part 1(A) of Annex I.

Petitions to remove products from the list of eligible articles for the GSP are listed in Part 1(B) of Annex I.

Petitions to subdivide Tariff Schedules of the United States (TSUS) items currently designated as eligible articles for the GSP are listed in Part 1(C) of Annex I. Petitions to determine eligible articles as not like or directly competitive with any article produced in the United States on January 3, 1975, in order to avoid loss of GSP duty-free treatment under the provisions of section 504 (c)(1)(B) of the Trade Act of 1974, are listed in Part 1(D) of Annex I.

Matters being considered by the TPSC on its own motion are listed in Part 2 of Annex I.

3. *Notice of public hearings.* The TPSC will hold public hearings at the time and place specified at the beginning of this notice on all petitions and articles listed in Annex I. The TPSC invites briefs and testimony on any matters covered by Annex I.

4. *Requests to present oral testimony.* All requests to present oral testimony, and accompanying written briefs, must be received by the Secretary of the Trade Policy Staff Committee, Room 728, 1800 G Street, N.W., Washington, D.C. 20506, not later than the close of business, Friday, July 1, 1977. Requests to present oral testimony must conform to the regulations codified at 15 CFR Chapter XX, Parts 2001–2003, which are described below.

Pursuant to the regulations referred to in the preceding sentence, a request to present oral testimony will be granted only if a written brief is submitted before the deadline for submitting such briefs (in this instance, July 1, 1977), except that no such brief need be submitted if the party requesting to testify already has submitted a petition listed in Annex I of this notice.

The deadlines for the submission of requests to present oral testimony, and for the submission of written briefs may be waived by the Chairman of the Trade Policy Staff Committee for reasons of equity and public policy.

Requests to present oral testimony should state briefly the interest of the applicant in the subject matter, the position to be taken by the applicant and whether the applicant has filed, or has joined in the filing of, a petition listed in Annex I.

In addition, requests to present oral testimony should include the following information:

(a) The name, address, telephone number, and official position (if applicable) of the party submitting the request, and the person or persons who will present the oral testimony (if different from the party submitting the request);

(b) The description and tariff item number(s) of the article or articles in which the party has an interest;

(c) The subject or subjects to be dealt with in the proposed testimony; and

(d) The amount of time requested for the presentation of oral testimony, and, if more than 15 minutes is requested, the reasons therefor.

Each person scheduled to appear before the TPSC will be notified of the date and the amount of time allotted for his presentation. If the scheduled appearance is inconvenient to the requesting person, the Secretary of the TPSC will consider rescheduling for that person. The Chairman of the TPSC reserves the right to restrict the time allotted for oral presentation, and to deny requests when he determines that the proposed testimony is not relevant to the subject matter of the hearings.

5. *Submission of written briefs.* Briefs must conform to the TPSC regulations codified at 15 CFR Chapter XX, Parts 2001–2003. Briefs must be submitted in 20 copies. In addition, each brief should designate clearly on the first page the name and address of the party submitting the brief, the subject matter of the brief, and the item number of the article (or articles) in the Tariff Schedules of the United States to which the brief pertains.

Every written brief must present, in nonconfidential form, a statement of the party's position and supporting arguments sufficient to inform any other party of the arguments that must be met in order to oppose the position taken in the brief.

6. *Suggestions on the preparation of written briefs and oral testimony.* While there are no formal requirements governing the format or content of the material submitted (other than those mentioned in paragraphs 4 and 5 of this notice), the TPSC suggests that parties preparing testimony or briefs include the following points:

(a) An introductory summary statement indicating the interest of the party on whose behalf the brief or testimony is submitted, and the position to be taken in the brief or testimony;

(b) A clear indication of the matters covered in Annex I of this notice of interest to the party submitting the brief or testimony, and a statement of whether that party supports or opposes the action under consideration; and

(c) Any data or arguments relevant to support the position of the party submitting the brief or testimony.

While the TPSC welcomes the full presentation of oral testimony, it is preferable that such testimony not duplicate material submitted in writing, since both will be reviewed. Instead, oral presentations should emphasize the main points of the briefs or petitions submitted, expand upon their contents when necessary, or cover any developments occurring since the briefs were submitted. Persons presenting oral testimony should be prepared to answer questions.

7. *Rebuttal briefs.* In order to assure parties the opportunity to contest the information provided by other parties, the TPSC will accept rebuttal briefs filed by any party within one week after the close of the hearings. Rebuttal briefs must conform, in form and number, to the regulations of the TPSC and the provisions of this notice applicable to written briefs. Rebuttal briefs should be limited to demonstrating errors of fact or analysis not pointed out in the briefs or testimony and should be as concise as possible.

8. *Information exempt from public inspection.* Parties are referred to 15 CFR Chapter XX, Sections 2003.6 and 2006.10, for the regulations concerning information labelled as business confidential and exempt from public inspection.

Oral testimony should contain no confidential information. Any business confidential information submitted with written briefs should be clearly identified as confidential, should be easily separable, and should be accompanied by a nonconfidential summary of the confidential material. If the Chairman of the TPSC determines that he cannot accord confidential treatment to material for which such treatment is requested, that material will be returned to the addressee.

9. *Public inspection of written materials.* Subject to the regulations of the TPSC, and except for business confidential information, all written materials filed with the TPSC in connection with these hearings will be open to public inspection, by appointment at the Office of the Trade Policy Staff Committee, Room 728, 1800 G Street, N.W., Washington, D.C. 20506.

10. *Transcripts of the hearings.* All oral testimony before the TPSC will be recorded and transcribed. Persons giving testimony before the TPSC may correct errors of form or expression in the testimony, but may not change substance. All corrections must be approved by the Secretary of the TPSC. The cost of making such corrections will be charged to the person requesting the corrections.

Transcripts of the hearings will be available for inspection or purchase.

11. *Attendance at the hearings.* The hearings will be open to the public. Heavy or disruptive equipment such as television equipment, will not be admitted to the hearings except by the express permission of the Chairman of the TPSC.

12. *Communications.* All communications with regard to these hearings should be addressed to: Secretary, Trade Policy Staff Committee, Office of the Special Representative for Trade Negotiations, 1800 G Street, N.W., Room 728, Washington, D.C. 20506. The telephone number of the Secretary of the TPSC is (202) 395–3395.

Acceptance of the petitions listed in Annex I does not indicate any opinion with respect to a disposition on the merits of the petitions accepted for review. Acceptance indicates only that the listed petitions have been found to be formally adequate as bases for reviews by the TPSC, and that such reviews will take place.

WILLIAM B. KELLY, JR.,
Chairman, Trade Policy Staff Committee.

Annex I

Part 1: Petitions Accepted for Review

Case No.	TSUS or TSUSA 1/ item No.	Article	Petitioner
		[The bracketed language in this list has been included only to clarify the scope of the numbered items which are being considered, and such language is not itself intended to describe articles which are under consideration.]	
		A. Petitions to add products to the list of eligible articles for the Generalized System of Preferences.	
77-1		Luggage and handbags, whether or not fitted with bottle, dining, drinking, manicure, sewing, traveling, or similar sets; and flat goods:	Ambassador International Tempe, Arizona
		[Of leather; of unspun fibrous vegetable materials; of textile materials (except yarns, of paper), whether or not ornamented; of reinforced or laminated plastics]	
		Of other materials:	
		[Handbags]

SUSQUEHANNA RIVER BASIN COMMISSION

EAST PETERSBURG BOROUGH AUTHORITY GROUND-WATER DEVELOPMENT

Public Hearing

Notice is hereby given that the Susquehanna River Basin Commission will hold a public hearing as part of its review of the East Petersburg Borough Authority's (East Petersburg, PA) ground-water development. The hearing will be held immediately following the Commission's July 14, 1977, meeting which is scheduled to begin at 1:00 PM in the Penn Harris Motor Inn, U.S. Routes 11 and 15 in Camp Hill, Pennsylvania. The hearing is being held to receive pertinent testimony from the Authority and interested parties concerning the Authority's development and its potential impact on the water and related resources of the basin.

The East Petersburg Borough Authority water supply system serves approximately 3,500 persons in the Borough of East Petersburg, Lancaster County, Pennsylvania. The Authority anticipates withdrawing 0.30 mgd from a well drilled and developed in an earlier project. In addition, the Authority intends to construct a well house, water softening and treatment plant, and transmission facilities.

The principal areas of interest upon which the Commission is basing its review of the project are demand projections, availability of enough water to satisfy future needs; and efficient utilization of available water supplies.

The application documents filed by the project sponsor are available for public inspection during regular business hours at the office of the Susquehanna River Basin Comission, 5012 Lenker Street, Mechanicsburg, Pennsylvania 17055. The offices are open to the public from 8:00 a.m. to 4:00 p.m., Monday through Friday.

Persons wishing to participate in the hearing may present oral and/or written testimony. Those wishing to testify in person are requested to contact the Secretary to the Commission, in writing, prior to the hearing.

ROBERT J. BIELO,
Executive Director

AIR TRAFFIC CONTROL TOWER

Notice of Commissioning

Notice is hereby given that on June 17, 1977, through September 10, 1977, the Airport Traffic Control Tower at the

Martha's Vineyard Airport, Martha's Vineyard, Massachusetts, will be commissioned at a part-time FAA facility. Hours of operation will be established in advance by a Notice of Airmen and, thereafter, be published in the Airman's Information Manual. This information will be reflected in the FAA Organization Statement the next time it is issued Communications to the tower should be as follows:

Federal Aviation Administration, Airport Traffic Control Tower, Post Office Box 71, Vineyard Haven, Massachusetts 02568.

It has been determined that good cause exists for publication of this notice in less than thirty (30) days prior to the commissioning date.

(Sec. 313(a), 72 Stat.752 (49 U.S.C. 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c).)

Issued in Burlington, Massachusetts, on June 3, 1977.

WILLIAM E. CROSBY,
Acting Director,
New England Region.

National Highway Traffic Safety Administration

[Docket No. IP77-3; Notice 2]

BATAVUS USA, INC.

Petition for Exemption From Notice and Remedy for Inconsequential Noncompliance

This notice denies the petition by Batavus USA, Inc. of Atlanta, Georgia, to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 et seq.) for an apparent noncompliance with 49 CFR 571.123, Motor Vehicle Safety Standard No. 123, Motorcycle Controls and Displays. The company petitioned on the basis that the noncompliance is inconsequential as it relates to motor vehicle safety.

Notice of the petition was published in the FEDERAL REGISTER on March 3, 1977 (42 FR 12284) and an opportunity afforded for comment.

Petitioner is an importer of motor-driven cycles (mopeds). Table 1 of Standard No. 123 requires that the manual fuel shut off control on such vehicles have the following operating positions: "off"—control forward; "on"—control downward; reserve" (if provided)—control upward. The Batavus control, however, has the following noncomplying positions—"on", upward instead of downward; "reserve", backward instead of upward. The noncompliance exists on approximatly 6,000 vehicles manufactured before July 1976. Petitioner argues that the noncompliance is inconsequential because the improper positions "are clearly marked on all mopeds in such a way that a moped user cannot be mistaken." Vehicles manufactured since July 1976 are said to be in compliance with Standard No. 123.

No comments were received on the petition.

The decision of this agency in the petition by Cimatti, Ltd. (41 FR 11860) is dispositive of this case. There NHTSA affirmed that the purpose of Standard No. 123 is "to minimize accidents caused by operator error in responding to the motoring environment by standardizing certain controls and displays" (S2). The manual fuel shut off control has been standardized (Table 1). Although a motor-driven cycle is not required to have this control, if the manufacturer chooses to so equip his vehicle, the control must operate as the standard requires.

Controls and displays link the operator and the machine, and if there is confusion as to their location, interpretation, or operation, a dangerous situation may result. A cyclist, especially the novice and the cyclist who has changed from one make of machine to another, must not hesitate when confronted with an emergency.

Since standardization of control operation is a purpose of, and justification for, the standard, a noncomplying method of operation cannot be termed inconsequential. Batavus USA, Inc. has not met its burden of convincing this agency that the noncompliance is inconsequential as it relates to motor vehicle safety and its petition is hereby denied.

(Sec. 102, Pub. L. 93-492, 88 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.)

Issued on June 10, 1977.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

Office of Pipeline Safety Operations

[Docket No. 77-8W; Notice 1]

TENNESSEE GAS PIPELINE CO.

Grant of Waiver From Federal Gas Pipeline Safety Standards

On February 16, 1977, the Tennessee Gas Pipeline Company telephonically requested a waiver from compliance with the preinstallation strength test requirements of 49 CFR 192.505(e) for certain

fabricated piping assemblies. The assemblies were to be installed at each end of a 500-foot gas pipeline being constructed near Katy, Texas, between Tennessee Gas's No. 100–3 pipeline and the Dow Gas Company's "Bronco pipeline."

Section 192.505(e) reads as follows:

For fabricated units and short sections of pipe, for which a postinstallation test is impractical a preinstallation strength test must be conducted by maintaining the pressure at or above the test pressure for at least 4 hours.

In Addition, § 192.503(a) provides, in part:

No person may operate a new segment of pipeline, or return to service a segment of pipeline that has been relocated or replaced until:

(1) It has been tested in accordance with this subpart to substantiate the proposed maximum allowable operating pressure • • •.

Tennessee Gas stated in its telephone call and in a subsequent telegram that:

1. The assemblies include 8", 10", and 12" pipe pretested for at least 8 hours to 2,042 psig and 30" pipe pretested to 1,750 psig for at least 8 hours. The assemblies also include standard regularly manufactured pipe fittings.

2. The design maximum allowable operating pressure of the entire facility is 780 psig, however, the operating pressure is not expected to exceed approximately 680 psig.

3. The facility is to be installed in a Class 1 location but is to be built under Class 3 requirements as defined in 49 CFR 192.5.

4. All welds in the assemblies are to be 100 percent nondestructively tested.

Tennessee Gas further stated that the waiver is necessary to save at least 36 hours in installation time during the nationwide gas shortage, and thus speed the delivery of between 150,000 MCF and 300,000 MCF of natural gas to customers.

In consideration of (1) the high degree of safety afforded by the proposed construction in the absence of the strength test required by § 192.505; (2) the President's declaration of a National Gas Emergency (42 CFR 6789); and (3) the urgent need for immediate additional supplies of natural gas, it was determined that the requested waiver would not be inconsistent with gas pipeline safety and that it would be in the public interest. Therefore, effective February 16, 1977, Tennessee Gas was orally granted a waiver from § 192.505(e), thereby enabling it to operate the prefabricated piping assemblies consistent with the requirements of § 192.503(a). This notice establishes a record of that waiver. Regarding § 192.503(a), it should be noted that if, in the future, the piping assemblies are relocated or replaced, the waiver does not permit them to be returned to service without compliance with the applicable strength test requirements of § 192.505.

Tennessee Gas also requested that the waiver be assignable to the Columbia Gas Transmission Company to whom Tennessee Gas intends to transfer its interest in the piping assemblies. MTB does not believe that the granting of a waiver confers any assignable right or property interest on the grantee. Rather, a waiver establishes a particular rule for an operator based on specific circumstances. Although there is little precedent on this issue, it seems that once such a rule is established regarding a pipeline facility, it should continue in effect according to its terms for succeeding operators of the facility as long as the transfer does not alter the bases of the waiver. Since it is not conceivable that a transfer to Columbia Gas of the piping assemblies to which this waiver applies would change the bases of the waiver, if such a transfer is made, MTB would consider the waiver granted to Tennessee Gas to apply to Columbia Gas.

Section 3(e) of the Natural Gas Pipeline Safety Act of 1968 (49 USC 1672(e)) authorizes the Secretary of Transportation to grant waivers from compliance with the Federal gas pipeline safety standards. Section 3(e) of the Act further provides that subchapter II of Chapter 5 of Title 5 of the United States Code shall apply to all orders "waiving compliance with any standard established under this Act." Therefore, in accordance with 5 USC 553(b), in view of the National Gas Emergency, the need for a waiver, and the shortness of time involved, notice and public procedure on the granting of this waiver would have been contrary to the public interest.

(Sec. 3, Pub. L. 90–481, 82 Stat. 721. 49 USC 1672; 40 FR 43901, 49 FR 1.53.)

Issued in Washington, D.C., on June 10, 1977.

CESAR DELEON,
Acting Director, Office of Pipeline Safety Operations.

TASK FORCE REPORT ON MOTOR VEHICLE GOALS BEYOND 1980

Availability of Volume 3, Appendices and Revised Safety Panel Report

Purpose. This announcement is issued to make known the availability of copies of Volume 3, Appendices, and the Revised Safety Panel Report of the Task Force Report on Motor Vehicle Goals Beyond 1980.

Background. In September 1976, the draft "Report of the Federal Task Force on Motor Vehicle Goals Beyond 1980" was issued for public debate and comment under the auspices of the Energy Resources Council. Volumes 1 (Executive Summary) and 2 (Task Force Report) were available in quantity and were distributed to all who requested copies. Volume 3 (Appendices) were not available in quantity due to unforeseen delays. Volume 3 is now available in quantity.

The Revised Safety Panel Report was completed in November 1976 and initial distribution was made in early 1977. Additional copies are now available.

Requests for copies of these reports. To receive single copies of these reports, written or telephone requests should be directed to:

Facilities Management Branch (TAD-443), U.S. Department of Transportation, Washington, D.C. 20590. Phone: 202-426-9654.

Requests should indicate the volume desired by citing either, "Volume 3, Appendices," or "Revised Safety Panel Report" of the Task Force on Motor Vehicle Goals Beyond 1980.

Issued in Washington, D.C. on June 8, 1977.

W. H. CLOSE,
Project Leader,
Motor Vehicle Goals Task Force.

UNITED STATES RAILWAY ASSOCIATION

[Docket No. 211-13]

CONSOLIDATED RAIL CORP.

Application for a Loan

Subsection (h) of section 211 of the Regional Rail Reorganization Act of 1973, as amended (45 U.S.C. 721) (the Act), authorizes the United States Railway Association (Association) to enter into loan agreements with the Consolidated Rail Corporation (ConRail), the National Railroad Passenger Corporation, and any profitable railroad to which rail properties are transferred or conveyed pursuant to section 303(b)(1) of the Act under conditions and for purposes set forth in this Subsection. Subsection (b) of section 211 requires that the Association publish notice of the receipt of any application thereunder in the FEDERAL REGISTER and afford interested parties an opportunity to comment thereon.

On March 1, 1976, ConRail submitted a preliminary application for a loan under the provisions of section 211(h) in the amount of $230,000,000. Notice of this application was published in the FEDERAL REGISTER dated March 19, 1976. On March 29, 1976, ConRail supplemented its preliminary application by filing the certifications and exhibits required by "Procedures for Applications for Loans to Pay Obligations of Railroads in Reorganization", 49 CFR Part 922 (Loan Procedure), and requested an initial borrowing of $34,024,000. On April 1, 1976, ConRail and the Association entered into a loan agreement which authorized initial borrowings by ConRail of $34,024,000. On April 12, 1976, ConRail further supplemented its loan application with a request that the aggregate amount of the initial borrowings be increased to $51,157,000. On April 15, 1976, the Board of Directors of the Association approved that request.

On July 12, 1976 ConRail filed a Borrowing Application pursuant to Subsection 211(h) of the Act requesting, among other things, new borrowings of $35,778,533.21 and an increase of the maximum amount reserved to $230,000,000. On July 29, 1976 the Board of Directors of the Association approved an additional loan to ConRail in the principal amount of $8,182,352.21.

On November 18, 1976 ConRail filed a Borrowing Application pursuant to Subsection 211(h) of the Act requesting, among other things, new borrowings of $143,804,396.39 and a request for amendment of Section 3.01 of the Loan Agreement to increase the Maximum Borrowing to $203,143,749.60. This application included the certification and exhibits required by the Loan Procedures. On December 6, 1976 the Board of Directors of the Association approved an additional loan to ConRail in the principal amount of $11,251,396.39.

On February 1, 1977 ConRail filed a Borrowing Application pursuant to Section 211(h) of the Act requesting, among other things, new borrowings of $107,761,877.76. This application included the certification and exhibits required by the Loan Procedures. On February 17, 1977 the Executive Committee of the Board of Directors of the Association approved an additional loan to ConRail in the principal amount of $107,761,877.76.

On March 16, 1977 ConRail filed a Borrowing Application pursuant to Section 211(h) of the Act requesting new borrowings of $25,333,400. This application included the certification and exhibits required by the Loan Procedures. On March 31, 1977, the Board of Directors of the Association approved an additional loan to ConRail in the principal amount of $25,333,400.

On April 25, 1977 ConRail filed a Borrowing Application pursuant to Section 211(h) of the Act requesting new borrowings of $25,888,400. This application included the certification and exhibits requested by the Loan Procedures. On April 29, 1977, the Executive Committee of the Board of Directors of the Association approved an additional loan to ConRail in the principal amount of $7,825,000, to be effective May 10, 1977.

On June 6, 1977, ConRail filed a Borrowing Application pursuant to Section 211(h) of the Act requesting new borrowings of $10,137,739.43. ConRail states that it will apply $9,202,404 of the new borrowings to the payment of certain non-employee related pre-conveyance obligations of the Central Railroad of New Jersey (CNJ), and $935,335.43 of the new borrowings to payment of certain employee-related pre-conveyance obligations of the CNJ.

Interested parties are invited to submit written comments relevant to this application. Any such submissions must identify, by its Docket No., the application to which it relates, and must be filed with the Office of General Counsel, United States Railway Association, Room 2222, Transpoint Building, 2100 Second Street SW., Washington, D.C. 20595, on or before June 27, 1977, to enable timely consideration by USRA. The docket containing the original application shall be available for public inspection at that address Monday through Friday (holidays excepted) between 8:30 a.m. and 5 p.m.

Dated at Washington, D.C., this 13th day of June, 1977.

EDWIN RECTOR,
Assistant Secretary,
U.S. Railway Association.

INTERSTATE COMMERCE COMMISSION

[Notice No. 414]

ASSIGNMENT OF HEARINGS

JUNE 13, 1977.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

No. 36505, Pioneer Mills -v- The Atchison, Topeka and Santa Fe Railway Company now being assigned September 7, 1977 (1 day) at Los Angeles, California in a hearing room to be later designated.

MC 138635 Sub 34, Carolina Western Express, Inc. now being assigned September 12, 1977 (1 day) at Los Angeles, California in a hearing room to be later designated.

MC 108207 Sub 454, Frozen Food Express, Inc. now being assigned September 13, 1977 (1 day) at Los Angeles, California in a hearing room to be later designated.

MC 107993 Sub 49, J. J. Willis Trucking Co. now being assigned September 14, 1977 (1 day) at Los Angeles, California in a hearing room to be later designated.

MC 141084 Sub 4, National Freight Lines, Inc. now being assigned September 15, 1977 (2 days) at Los Angeles, California in a hearing room to be later designated.

MC 118288 Sub 47, Frost Truck Lines, Inc. now being assigned September 19, 1977 (2 days) at Los Angeles, California in a hearing room to be later designated.

MC 141804 Sub 42, Western Express now being assigned September 21, 1977 (3 days) at Los Angeles, California in a hearing room to be later designated.

MC 67818 Sub 85, Central Transport, Inc. now being assigned September 27, 1977 (9 days) at Lansing, Michigan in a hearing room to be later designated.

MC 134068 Sub 31, Kodiak Refrigerated Lines, Inc. now assigned July 18, 1977 at Seattle, Washington is being postponed to a date to be hereafter fixed.

MC 2900 (Sub-296), Ryder Truck Lines, Inc., now being assigned September 26, 1977 (2 weeks) at Charleston, West Virginia, in a hearing room to be later designated.

MC 98952 (Sub-39), General Transfer Company, now being assigned September 20, 1977 (1 day) at Springfield, Illinois, in a hearing room to be later designated.

MC 114211 (Sub-284), Warren Transport, Inc., now being assigned September 12, 1977 (1 week) at Des Moines, Iowa, in a hearing room to be later designated.

MC 142620, Bay View-Orchards Cooperative, Inc. now being assigned September 22, 1977 (2 days) at Chicago, Illinois in a hearing room to be later designated.

MC 115730 Sub 21, The Mickow Corp. now being assigned September 21, 1977 (1 day) at Chicago, Illinois in a hearing room to be later designated.

MC 119632 Sub 71, Reed Lines, Inc. now being assigned September 20, 1977 (1 day) at Chicago, Illinois in a hearing room to be later designated.

MC 113655 Sub 359, International Transport, Inc. now being assigned September 19, 1977 (1 day) at Chicago, Illinois in a hearing room to be later designated.

FOURTH SECTION APPLICATION FOR RELIEF

JUNE 13, 1977.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 43380—*Soda Ash from Points in Wyoming.* Filed by Western Trunk Line Committee, Agent, (No. A-2738), for interested rail carriers.

Rates on soda ash (other than modified soda ash), in bulk, in covered hopper cars, as described in the application, from Alchem, Stauffer, Tg Soda, and Westvaco, Wyoming, to East Tampa, Florida.

Grounds for relief—Market competition.

Tariff—Supplement 152 to Western Trunk Line Committee, Agent, tariff 134-R, I.C.C. No. A4949.

Rates are published to become effective on July 9, 1977.

By the Commission.

H. G. HOMME, JR.,
Acting Secretary.

[Notice No. 179]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer publications filed under Sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission on or before July 18, 1977. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

No. MC-FC-77155, filed May 25, 1977. Transferee: Movers, Inc., doing business as H & R Transfer & Storage Co., 411 S. First St., Phoenix, Ariz. 85004. Transferor: H & R Transfer & Storage Co., Inc., 411 S. First St., Phoenix, Ariz. 85004. Applicants' representative: A. Michael Bernstein, Attorney at Law, 1441 E. Thomas Rd., Phoenix, Ariz. 85014. Authority sought for purchase by transferee of a portion of the operating rights of transferor, as set forth in Certificate of Registration No. MC-111883 Sub-No. 4, issued July 6, 1967, as follows: Household goods between points in the State of Arizona. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

H. G. HOMME, JR.,
Acting Secretary.

[Ex Parte No. MC-43]

MOTOR CARRIER LEASING BOARD

Lease and Interchange of Vehicles by Motor Carriers; Order

JUNE 6, 1977.

It appearing, that a petition has been filed by Kessell Transfer & Storage, Inc. (MC-56383 and Subs 7 and 11), Transport Van Lines, Inc. (MC-126593 and Subs 2 and 3) and Ogden Transfer & Storage Co. (MC-75138 and Sub. No. 2), under common control for waiver of paragraphs (a)(3) and (c) of Section 1057.4 of the Lease and Interchange of Vehicles Regulations (49 CFR 1057), concerning equipment leased between petitioners;

It further appearing, that petitioners have a jointly administered program applying the same standards of inspection and maintenance to equipment in accordance with the Motor Carrier Safety Regulations of the U.S. Department of Transportation;

It further appearing, that the U.S. Department of Transportation offers no objection to a grant of the petition based on an examination of petitioners' records;

It further appearing, that no enforcement action is pending involving the fitness of petitioners;

It is ordered, That waiver of paragraphs (a)(3) and (c) of § 1057.4, be, and it is hereby granted, provided that the equipment is inspected on the day it is to be leased and found to meet the requirements of the Motor Carrier Safety Regulations of the U.S. Department of Transportation and that petitioners remain in satisfactory compliance with those regulations and under common control.

By the Commission, Motor Carrier Leasing Board, Board Members Burns, Turkington, and Sibbald. (Member Joel E. Burns not participating.)

ROBERT L. OSWALD,
Secretary.

[Notice No. 74]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JUNE 10, 1977.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 200 (Sub-No. 290TA), filed May 24, 1977. Applicant: RISS INTERNATIONAL CORPORATION, 903 Grand Avenue, P.O. Box 2809, Kansas City, Mo. 64142. Applicant's representative: Ivan E. Moody, 903 Grand Avenue, Kansas City, Mo. 64106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A & B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between plant sites and warehouse facilities of Eli Lilly & Co. located at Clinton and LaFayette, Ind., on the one hand, and, on the other, points in the states of Colorado, Connecticut, Delaware, Illinois, Iowa, Kansas, Kentucky, Maryland, Massachusetts, Michigan, Missouri, Nebraska, New Jersey, New York, Ohio, Oklahoma, Pennsylvania, Rhode Island, Texas, Virginia, West Virginia, and the District of Columbia (restricted to freight originating or destined to the plant site and warehouse facilities of Eli Lilly & Co., in Clinton and LaFayette, Ind.), for 180 days. Supporting shipper: Eli Lilly and Company, 1200 Kentucky Avenue, Indianapolis, Ind. 46202. Send protests to: Vernon V. Coble, District Supervisor, Interstate Commerce Commission, 600 Federal Building, 911 Walnut Street, Kansas City, Mo. 64106.

No. MC 47583 (Sub-No. 48TA), filed May 24, 1977. Applicant: TOLLIE FREIGHTWAYS, INC., 1020 Sunshine Road, Kansas City, Kans. 66115. Applicant's representative: D. S. Hults, P.O. Box 225, Lawrence, Kans. 66044. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass marbles*, from the plant site and storage facilities of Johns Manville Sales Corp., at or near Cleburne, Tex., to the plant site and storage facilities of Johns Manville Sales Corp., at or near McPherson, Kans., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Johns Manville Sales Corp., Ken-Caryl Ranch, Denver, Colo. 80217. Send protests to: Vernon V. Coble, District Supervisor, Interstate Commerce Commission, 600 Federal Building, 911 Walnut Street, Kansas City, Mo. 64106.

No. MC 52704 (Sub-No. 144TA), filed May 20, 1977. Applicant: GLENN McCLENDON TRUCKING COMPANY, INC., P.O. Drawer "H", Opelika Hwy., Lafayette, Ala. 36862. Applicant's representative: Archie B. Culbreth, Suite 246—1252 West Peachtree Street NW., Atlanta, Ga. 30309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ground clay, floor sweeping compounds and absorbents* (except in bulk) from the plantsite of Oil-Dri Corporation of America at or near Ochlocknee, Ga., to points in Florida (except Jacksonville), North Carolina, South Carolina, and Virginia, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Oil-Dri Corporation of America, 520 North Michigan Avenue, Chicago, Ill. 60611. Send protests to: Clifford W. White, District Supervisor, Bureau of Operations, I. C. C., Room 1616-2121 Building, Birmingham, Ala. 35203.

No. MC 95743 (Sub-No. 29TA), filed May 25, 1977. Applicant: WILLIAM F. MEHRING & SONS, INC., Route 1, Box 3, Keymar, Md. 21757. Applicant's representative: Charles U. Mehring (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bituminous asphalt hot mix*, in bulk, in dump vehicles, from Boonsboro, Md., to Berkeley and Jefferson Counties, W. Va., for 180 days. Supporting shipper(s): Mr. Sidney M. Ridenour, Vice President, Richard F. Kline, Inc., P.O. Box 665, Frederick, Md. 21701. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, 814-B Federal Building, Baltimore, Md. 21201.

No. MC 100666 (Sub-No. 348TA), filed May 23, 1977. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, 1129 Grimmett Drive, Shreveport, La. 71107. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Bldg., 3535 NW., 58th Street, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber, fencing and fencing materials*, from Edenton, N.C., to points in Alabama, Arkansas, Kansas, Louisiana, Mississippi, Oklahoma, and Texas, for 180 days. Supporting shipper: Atlantic Forest Products, 6540 Powers Ferry Road, Suite 200, Atlanta, Ga. 30339. Send protests to: District Supervisor Ray C. Armstrong, Jr., 701 Loyola Ave., 9038 Federal Bldg., New Orleans, La. 70113.

No. MC 108393 (Sub-No. 121TA), filed May 18, 1977. Applicant: SIGNAL DELIVERY SERVICE, INC., 201 E. Ogden Ave., Hinsdale, Ill. 60521. Applicant's representative: T. B. Hills (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Electrical and gas appliances, parts of electrical and gas appliances, and equipment, materials and supplies* used in the manufacture, distribution and repair of electrical and gas appliances, except commodities in bulk, in tank vehicles, (1) between St. Paul, Minn., on the one hand, and, on the other, Danville, Ky.; Benton Harbor, Detroit and St. Joseph,

Michigan; and Cleveland, Clyde, and Findlay, Ohio, (2) from St. Paul, Minn., to Peoria, Ill.; Indianapolis, Indiana; St. Louis, Mo.; Charlotte and Greensboro, North Carolina; and Cincinnati and Columbus, Ohio, (3) from Searcy, Ark.; Ottawa, Ill.; Columbus, Ind.; Cynthiana and Winchester, Ky.; Waynesville, N.C.; Cambridge, Ohio and Anderson, S.C.; to St. Paul, Minn., under a continuing contract or contracts with Whirlpool Corporation, for 180 days. Supporting shipper: Whirlpool Corporation. Carl R. Anderson, Director of Corporated Traffic, Administrative Center, Benton Harbor, Mich. 49022. Send protests to: Transportation Assistant Patricia A. Roscoe, Interstate Commerce Commission, Everett McKinley Dirksen Building, 219 S. Dearborn St. Rm. 1386, Chicago, Ill. 60604.

No. MC 112184 (Sub-No. 53TA), filed May 17, 1977. Applicant: THE MANFREDI MOTOR TRANSIT COMPANY, 11250 Kinsman Rd., Newbury, Ohio 44065. Applicant's representative: John McMahon, 100 Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Paint and paint products*, in bulk, in tank vehicles, from Cleveland, Ohio, to ports of entry on the United States-Canada Boundary line at Detroit, Mich. and also points which lie between Buffalo and Youngstown, N.Y., and including Buffalo and Youngstown, N.Y., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: PPG Industries, Inc., 3800 West 143 Street, Cleveland, Ohio 44111. Send protets to: James Johnson, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 731 Federal Bldg., 1240 East Ninth Street, Cleveland, Ohio 44199.

No. MC 113267 (Sub-No. 349TA), filed May 17, 1977. Applicant: CENTRAL & SOUTHERN TRUCK LINES, INC., 3215 Tulane Road, P.O. Box 30130 A.M.F., Memphis, Tenn. 38130. Applicant's representative: Mr. Lawrence A. Fischer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by-products, and articles distributed by meat packing houses* as described in Sections A & C, Apendix 1 to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plant site and/or storage facilities of Stark-Wetzel Foods (Division of The Rath Packing Company), at Indianapolis, Ind., to points in the states of Alabama, Georgia, Kentucky, North Carolina, South Carolina, and Tennessee, for 180 days. Supporting shipper: The Rath Packing Company, P.O. Box 330, Waterloo, Iowa 50704. Send protests to: Mr. Floyd A. Johnson, district Supervisor, Interstate Commerce Commission, 100 North Main St., 100 North Main Building, Suite 2006, Memphis, Ten. 38103.

No. MC 113528 (Sub-No. 30TA), filed May 23, 1977. Applicant: MERCURY FREIGHT LINES, INC., 67 Midtown Park East, P.O. Box 124, Mobile, Ala. 36601. Applicant's representative: Joy Stephenson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, livestock, commodities in bulk, and those requiring special equipment, between Dallas, Tex., and Baton Rouge, La., and a fifteen mile radius thereof, serving no intermediate points. From Dallas over Interstate Highway 20 to its junction with U.S. Highway 71 at or near Shreveport, La. (also over U.S. Highway 80 to its junction with U.S. Highway 71 at or near Shreveport, La.), thence over U.S. Highway 71 to its junction with U.S. Highway 190 at or near Krotz Springs, La., thence over U.S. Highway 190 to Baton Rouge, and return over the same route. Applicant does intend to tack the authority applied for herein with its existing authority in MC-113528 and interline with other carriers at Ft. Worth-Dallas, Tex., and Baton Rouge, La., for 180 days. Supporting shipper(s): There are approximately sixty-one (61), supporting shippers attached to the application which may be examined at the Interstate Commerce Commission in Washington, D.C.; or copies thereof which may be examined at the field office named below. Send protests to: Clifford W. White, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 1616-2121 Building, Birmingham, Ala. 35203.

No. MC 115162 (Sub-No. 366TA), filed May 23, 1977. Applicant: POOLE TRUCK LINE, INC., P.O. Drawer 500, Evergreen, Ala. 36401. Applicant's representative: Robert E. Tate (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Ground clay, floor sweeping compounds and absorbents* (except in bulk), and (2) *floor sweeping compounds and absorbents* (except in bulk), (1) from the plantsite and warehouse sites of Oil-Dri Corporation of America located at or near Ochlocknee, Ga., to points in the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas; and (2) from the plantsite and warehouse sites of Oil-Dri Corporation of America located at or near Ripley, Miss., to points in the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Oil-Dri Corporation of America, 520 North Michigan Avenue, Chicago, Ill. 60611. Send protests to: Clifford W. White, District Supervisor, Bureau of Operations, I.C.C., Room 1616 - 2121 Building, Birmingham, Ala. 35203.

No. MC 117940 (Sub-No. 221TA), filed May 24, 1977. Applicant: NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Applicant's representative: Allan L. Timmerman (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Salt*, in packages, (2) *pepper*, in packages, in mixed loads with salt in packages, and (3) *materials and supplies* used in the agricultural, water treatment, food processing, wholesale grocery, and institutional supply industries, in mixed loads with salt in packages (except commodities in bulk), from the facilities of Morton Salt Company at Silver Springs, N.Y., to points in Connecticut, Maine, Massachusetts, New Hampshire, and Vermont, for 180 days. [Volume No. 21]

JUNE 10, 1977.

PETITIONS, APPLICATIONS, FINANCE MATTERS (INCLUDING TEMPORARY AUTHORITIES), RAILROAD ABANDONMENTS, ALTERNATE ROUTE DEVIATIONS, AND INTRASTATE APPLICATIONS

PETITIONS FOR MODIFICATION, INTERPRETATION, OR REINSTATEMENT OF OPERATING RIGHTS AUTHORITY

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

The Commission has recently provided for easier identification of substantive petition matters and all documents should clearly specify the "docket", "sub", and "suffix" (e.g. M1, M2) numbers identified by the Federal Register notice.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission on or before July 18, 1977. Such protest shall comply with Special Rule 247(d) of the Commission's *General Rules of Practice* (49 CFR 1100.247)[1] and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

No. MC 111981 and (Sub-No. 8) (Notice of filing of petition to modify commodity descriptions), filed May 5, 1977. Petitioner: ROBIDEAU'S EXPRESS, INC., S.E. C. Front and Oregon Ave., Philadelphia, Pa. 19148. Petitioner's representative: Alan Kahn (same address as applicant). Petitioner holds motor *common carrier* Certificates in No. MC 111981 and (Sub-No. 8), issued July 1, 1958 and April 26, 1965, respectively, authorizing transportation: (1) in MC 111981, as pertinent, over irregular routes, of *frozen foods*, (a) from Philadelphia, Pa., to points in Lancaster and Lebanon Counties, Pa., and (b) between Philadelphia, Pa., on the one hand, and, on the other, points in New Jersey in and south of Warren, Hunterdon, Somerset, Middlesex, and Monmouth Counties, N.J., those in Pennsylvania in and east

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

of Chester, Berks, Schuylkill, Carbon, and Monroe Counties, Pa., and those in New Castle County, Del., and Cecil County, Md. (except those south of the Chesapeake and Delaware Canal); and (2) in MC-111981 (Sub-No. 8), as pertinent, over irregular routes, of *meats and meat products and frozen foods*, in vehicles equipped with mechanical refrigeration, from Philadelphia and Doylestown, Pa., to points in Delaware, Maryland, New Jersey, New York, Virginia and the District of Columbia; and *frozen foods*, from Braddock, Glassboro, and Hammonton, N.J., to points in Delaware, Maryland, New York, Pennsylvania, Virginia, and the District of Columbia. By the instant petition, petitioner seeks to modify that part of the commodity descriptions of both of the above certificates that read *"Frozen foods"*, to read *"Foods* in vehicles equipped with mechanical refrigeration."

No. MC 113784 (Sub-No. 55) (Notice of filing of petition to modify certificate), filed May 6, 1977. Petitioner: LAIDLAW TRANSPORT LIMITED, 65 Guise Street, Hamilton, Ontario, Canada L8L 4M1. Petitioner's representative: David A. Sutherland, 1150 Connecticut Avenue, N.W., Suite 400, Washington, D.C. 20036. Petitioner holds a motor *common carrier* Certificate in No. MC 113784 (Sub-No. 55), issued October 23, 1975, authorizing transportation over irregular routes, of *dry commodities*, in bulk, in dump vehicles, between ports of entry on the United States-Canada Boundary line, located in Michigan and New York, on the one hand, and, on the other, points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, restricted to transportation of traffic originating at or destined to points in Canada, and restricted against the transportation of finished refractory products and nepheline syenite. By the instant petition, petitioner seeks to modify the authority above in the following ways: (1) Remove from the commodity description the language "in dump vehicles," (2) add to the territorial description points in Iowa, Michigan and Minnesota, and (3) remove the restriction against the transportation of "finished refractory products and nepheline syenite."

No. MC 114569 (Sub-Nos. 30 and 60) (Notice of filing of petition to delete plantsite limitation), filed May 2, 1977. Petitioner: SHAFFER TRUCKING, INC., P.O. Box 418, New Kingstown, Pa. 17072. Petitioner's representative: Duane W. Acklie, P.O. Box 81228, Lincoln, Nebr. 68501. Petitioner holds motor *common carrier* Certificates in No. MC 114569 (Sub-Nos. 30 and 60) issued May 15, 1962 and June 4, 1964, respectively, authorizing transportation: (1) in MC 114569 (Sub-No. 30) over irregular routes, of *metal grass stops* (in rolls), *metal shovels*, and *building materials* made of sheet metal, no single piece to weight more than 2,000 pounds, from the plantsites of Penn Supply & Metal Corporation located at Philadelphia, Pa., to points in Alabama, Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana Michigan, Minnesota, Mississippi, Missouri, Ohio, Oklahoma, Tennessee, Texas and Wisconsin; and (2) in No. MC 114569 (Sub-No. 60) over irregular routes, of *Sheet metal pipe, duct, fittings, and parts for heating, cooling, and ventilating equipment*, no single piece to weigh more than 2,000 pounds, *sheet metal down spouts, gutters, fittings, and fasteners* therefor, and *advertising matter* relative to, and when moving in the same vehicle with the above-named commodities, from the plant site of the Acme Manufacturing Company located at Philadelphia, Pennsylvania, to points in Alabama, Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Ohio, Oklahoma, Tennessee, Texas, and Wisconsin. By the instant petition, petitioner seeks in both of the above Certificates to delete the origin plantsite limitations so that the origins will read: "from Philadelphia, Pa."

No. MC 129480 (Sub-No. 14) (Notice of filing of petition for modification of commodity description), filed May 6, 1977. Petitioner: TRI-LINES EXPRESSWAYS LTD., 550 71st. Ave., SE., P.O. Box 5245, Station A, Calgary, Alberta, Canada T2H OS6. Petitioner's representative: Edward T. Lyons, Jr., 1600 Lincoln Center Building, 1600 Lincoln St., Denver, Colo. 80264. Petitioner holds a motor *common carrier*, Certificate in No. MC-129480 (Sub-No. 14), issue August 26, 1976, authorizing transportation, as pertinent, over irregular routes, of *Lumber, lumber products, and forest products*, between the ports of entry on the International Boundary Line between the the United States and Canada located in Idaho, Minnesota, Montana, North Dakota, and Washington, on the one hand, and, on the other, points in Idaho, Kansas, Minnesota, Montana, Nebraska, North Dakota, Oregon, South Dakota, Washington, and Wyoming, restricted to the transportation of shipments originating at or destined to the Provinces of Alberta, British Columbia, Manitoba, and Saskatchewan, Canada. By the instant petition, petitioner seeks to modify that portion of the commodity description to read *"Lumber, lumber products, wood products, and forest products."*

No. MC 139349 (Sub-No. 2) (Notice of filing of petition to add an additional base point and add an additional contract shipper), filed May 5, 1977. Petitioner: JAYMAR TRUCKING CO., INC., 134 Garfield Ave., Jersey City, N.J. 07305. Petitioner's representative: Robert B. Pepper, 168 Woodbridge Ave., Highland Park, N.J. 08904. Petitioner holds a motor *contract carrier* Permit in No. MC 139349 (Sub-No. 2) issued November 8, 1974, authorizing transportation, as pertinent, over irregular routes, of *lighting fixtures and lamps, and equipment, materials, and supplies* used in the manufacture and sale (except commodities in bulk), between Jersey City and Kearny, N.J., on the one hand, and, on the other, points in Louisiana, Minnesota, and Texas, and those points in the United States east of the Mississippi River, under a continuing contract, or contracts, with Lightolier, Inc., of Jersey City, N.J. By the instant petition, petitioner seeks (1) to add West Orange, N.J., as an additional base point to the above authority; and (2)to add Energix Lighting Industries, located at West Orange, N.J., as an additional contract shipper to the above authority.

No. MC 142953 (Notice of filing of petition to add and additional destination state), filed April 13, 1977. Petitioner: C. A. CARTER, INC., 239 Broadturn Rd., West Scarborough, Maine 04074. Petitioner's representative: Carl A. Carter (same address as applicant). Petitioner holds a motor *common carrier* Certificate in No. MC 142953, issued May 20, 1977, authorizing transportation over irregular routes, of *scrap metals*, (1) from points in Maine, to points in Connecticut, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island and Vermont; and (2) from points in Connecticut, New Hampshire, Massachusetts, Rhode Island, and Vermont, to the facilities of Saco Steel Company located at or near Saco, Maine. By the instant petition, petitioner seeks to add Massachusetts as a destination state to part (1) of the above authority.

REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER.

An original and one copy of a petition for leave to intervene in the proceeding must be filed with the Commission on or before July 18, 1977. Such pleading shall comply with Special Rule 247(d) of the Commission's *General Rules of Practice* (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including copies of intervenor's conflicting authorities and a concise statement of intervenor's interest in the proceeding setting forth in detail the precise manner in which it has been prejudiced by lack of notice of the authority granted. A copy of the pleading shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

No. MC 61592 (Sub-No. 385) (Republication), filed Mach 22, 1976, published in the FEDERAL REGISTER issue of April 22, 1976, republished in the FR issue of September 16, 1976 as amended, and republished this issue. Applicant: JENKINS TRUCK LINE, INC., P.O. Box 697, Jeffersonville, Ind. 47130. Applicant's representative: Donald W. Smith, Suite 2465, One Indiana Square, Indianapolis, Ind. 46204. An Order of the Commission, Review Board Number 1, dated May 26, 1977, and served June 2, 1977, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, in the transportation of (1) *industrial and commercial waste containers, and roll-off hoists*, from the plant site of Galbreath, Incorporated, at or near Winamac, Ind., to points in Arizona, California, Colorado, Iowa, Delaware, Idaho, Kansas, Louisiana, Missouri, Montana, North Dakota, Nebraska, New Mexico, Nevada, Oklahoma, Oregon, South Dakota, Utah, Washington, and Wyoming, and (2) *materials, equipment and supplies* (except commodities in bulk) used in the manufacture and distribution of industrial and commercial waste containers, and roll-off hoists, in the reverse direction; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate the addition of Colorado as an additional origin state in (2) above in applicant's grant of authority.

No. MC 140474 (Sub-No. 2) (Partial corrected republication), filed January 2, 1975, published in the FEDERAL REGISTER issue of January 30, 1975, republished in the FEDERAL REGISTER of June 3, 1977, and republished in part as corrected this issue. Applicant: C. E. JOHNSON, 704 North First, Osborne, Kans. 67473. Applicant's representative: Clyde N. Christey, 641 Harrison Street, Topeka, Kans. 66603. The purpose of this partial correction of the republication of this proceeding in FEDERAL REGISTER issue of June 3, 1977, is to indicate that Ohio was omitted as a destination state in part (2) of the republication. The rest of the republication remains the same as published June 3, 1977.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

The following applications are governed by Special Rule 247 of the Commission's *General Rules of Practice* (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularly the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the* FEDERAL REGISTER *of a notice that the proceeding has been assigned for oral hearing.*

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

MC 409 (Sub-No. 63), filed May 10, 1977. Applicant: SCHROETLIN TANK LINE, INC., P.O. Box 511, Saunders Avenue and Highway 6, Sutton, Nebraska 68979. Applicant's representative: Steven K. Kuhlmann, P.O. Box 82028, Lincoln, Nebraska 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer and liquid feed supplements*, in bulk, in tank vehicles, from Omaha, Nebraska to points in Colorado, Wisconsin and Wyoming.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebraska.

No. MC 1838 (Sub-No. 11), filed April 27, 1977. Applicant: S & K TRANS. INC., P.O. Box 208, 13557 Bloomingdale, Akron, New York 14001. Applicant's representative: David M. Marshall, 135 State Street, Suite 200, Springfield, Massachusetts 01103. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, in the transportation of *building materials*, (except commodities in bulk, in tank trucks), between the facilities used by MacMillan Bloedel Building Materials located in the United States on the one hand, and on the other, points in the United States (except Alaska and Hawaii), and all ports of entry on the International Boundary Line between the United States and Canada, for furtherance to all points in Canada, under a continuing contract or contracts with MacMillan Bloedel Building Materials.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C.

No. MC 2860 (Sub-No. 157), filed May 4, 1977. Applicant: NATIONAL FREIGHT, INC., 71 West Park Avenue, Vineland, New Jersey 08360. Applicant's representative: Robert W. Gerson, 1400 Candler Building, Atlanta, Georgia 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: paper, paper articles and related articles, plastic articles and rubber articles (except commodities in bulk): (1) from the plantsites of Malanco East, Inc., Vineland, New Jersey, and Malanco South, Inc., Madison, Georgia, to points in Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee, and (2) between the plantsite of Malanco East, Inc., Vineland, New Jersey, and the plantsite of Malanco South, Inc., Madison, Georgia.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Atlanta, Georgia, Washington, D.C., or Baltimore, Maryland. Common control may be involved.

No. MC 2860 (Sub-No. 159), filed May 5, 1977. Applicant: NATIONAL FREIGHT, INC., 71 West Park Avenue, Vineland, New Jersey 08360. Applicant's representative: W. Randall Tye, 1400 Candler Building, Atlanta, Georgia 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Containers, metal, paper and composite*, and *container closures, container components* and *materials and supplies* used in the manufacture or distribution of containers from the plant and warehouse sites of Continental Can Company U.S.A. a member of the Continental Group, Inc., located at Alsip, Bridgeview, Chicago, Danville, Itasca, and Peoria Heights, Ill.; Burns Harbor, Chesterton, Elwood, and Portage, Ind.; Kansas City and Lenexa, Kans.; Louisville, Ky.; Shoreham, Mich.; Arden Hills, Mankato, and St. Paul, Minn.; St. Joseph and St. Louis, Mo.; Omaha, Nebr.; Bedford Heights, Cincinnati, Cleveland, Columbus, Sharonville and Worthington, Ohio; Oil City and West Mifflin, Pa.; La Crosse, Milwaukee and Racine, Wis. to points in Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, New York, Nebraska, Ohio, Pennsylvania, Tennessee, and Wisconsin.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Atlanta, Ga., or Chicago, Ill.

No. MC 2900 (Sub-No. 302), filed May 10, 1977. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Road, P.O. Box 2408, Jacksonville, FL 32203. Applicant's representative: S. E. Somers, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over *regular* routes, transporting: *General commodities* (except house-

hold goods as defined by the Commission, Classes A and B explosives, commodities in bulk and those requiring special equipment) : Serving the plant site and warehouse facilities of Northern Electric Company, located at or near Waynesboro, Miss. as an off route point in connection with applicant's presently authorized regular routes.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Jackson, Miss., Atlanta, Ga. or Washington, D.C.

No. MC 4963 (Sub-No. 52), filed April 18, 1977. Applicant: ALLEGHANY CORPORATION, d/b/a JONES MOTOR, Bridge Street and Schuylkill Road, Spring City, Pa. 19475. Applicant's representative: Roland Rice, Suite 501, Perpetual Bldg., 1111 E Street, N.W., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), between Fayette and Greene County, Pa., on the one hand, and, on the other, points in Connecticut, Delaware; those in Illinois on and south of a line beginning at New Boston, Ill., and extending along Illinois Highway 17 to Junction U.S. Highway 34 at or near Nekoma, Ill., thence along U.S. Highway 34 to Chicago, Ill., including points on the indicated portion of the highways specified; Indiana; those in Maryland east of a line beginning at the Maryland-Pennsylvania State Line and extending along Maryland Highway 45 to Cockeysville, Md., thence along Maryland Highway 45 to Baltimore, Md., those in part of Maryland east of the Susquehanna River and Chesapeake Bay, those on U.S. Highway 140 between Baltimore, Md. and Reistertown, Md., those on Maryland Highway 30 between Reistertown, Md. and the Maryland-Pennsylvania State Line, and those on U.S. Highway 1 between Baltimore, Md., and Washington, D.C.; Massachusetts; Jackson and Flint, Mich., and points in Michigan within thirty (30) miles of Detroit, Mich.; St. Louis, Mo.; points in New Hampshire within fifteen (15) miles of Manchester, N.H.; points in New Jersey, (except those in Atlantic and Cape May Counties, N.J.); Buffalo, N.Y., those in New York within eighty (80) miles of Erie, Pa., and those in New York within one hundred and fifty (150) miles of Scranton, Pa.; North Carolina; Toledo, Ohio, those in Ohio within twenty (20) miles of Akron, Cleveland and Warren, Ohio respectively, those in Ohio within thirty (30) miles of Canton, Ohio; Rhode Island, Bristol, Tenn.; Virginia; and points in Beech Bottom, Weirton and Wheeling, W. Va.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Uniontown, Pa. and Washington, D.C.

No. MC 16513 (Sub-No. 19), filed May 10, 1977. Applicant: REISCH TRUCKING & TRANSPORTATION CO., INC., 819 Union Avenue, Pennsauken, N.J. 08110. Applicant's representative: L. C. Major, Jr., Suite 400, Overlook Building, 6121 Lincolnia Road, Alexandria, VA 22312. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers, closures, caps, paperboxes* and *partitions* (except commodities in bulk) from the plantsite of Anchor Hocking Glass Corporation located at Salem, N.J., to South Volney and Syracuse, N.Y., and returned shipments of the commodities described above from South Volney and Syracuse, N.Y., to the plantsite of Anchor Hocking Glass Corporation at Salem, N.J.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at either Philadelphia, PA, or Washington, D.C.

No. MC 19227 (Sub-No. 236), filed May 9, 1977. Applicant: LEONARD BROS. TRUCKING CO., INC., 2515 N.W. 20th Street, P.O. Box 520602, Miami, Florida 33152. Applicant's representative: Thomas A. Leonard, 2515 N.W. 20th Street, Miami, Florida 33152. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Air pollution, heating and cooling equipment, and parts and accessories for such commodities*, from the plantsite and facilities of the Fuller Company located in Houston, Texas to points in Alabama, Colorado, Idaho, Illinois, Indiana, Iowa,, Kentucky, Michigan, Minnesota, Montana, Nevada, North Dakota, Ohio, Oregon, South Dakota, Tennessee, Utah, Washington, West Virginia, Wisconsin and Wyoming and shipments of refused or rejected items on return.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Houston, Tex.; Dallas, Tex.; or Washington, D.C.

No. MC 24379 (Sub-No. 42), filed April 28, 1977. Applicant: LONG TRANSPORTATION COMPANY, a corporation, 14510 West Eight Mile Rd. Oak Park, Mich. 48232. Applicant's representative: A. Charles Tell, 100 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, dangerous explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between Napoleon, Ohio and Toledo, Ohio, over U.S. Highway 24, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only.

NOTE.—Applicant states it presently serves Napoleon, Ohio in regular route operations over U.S. Highway 6 and applicant presently serves Toledo, Ohio in regular route operations over U.S. Highway 20. If a hearing is deemed necessary, the applicant requests it be held at Columbus, Ohio.

No. MC 24379 (Sub-No. 43), filed April 28, 1977. Applicant: LONG TRANSPORTATION COMPANY, a corporation, 14510 West Eight Mile Rd., Oak Park, Mich. 48212. Applicant's representative: A. Charles Tell, 100 East Broad St., Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, and except dangerous explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), serving Mansfield, Ohio as an off-route point in connection with presently authorized service over U.S. Highway 224.

NOTE.—Applicant is presently authorized to serve Mansfield, Ohio pursuant to irregular route authority granted in Docket MC–24379 Sub 39 via a gateway at Medina, Ohio. Applicant seeks to eliminate this gateway by virtue of this application. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 27817 (Sub-No. 131), filed May 5, 1977. Applicant: H. C. GABLER, INC., R.D. No. 3, P.O. Box 220, Chambersburg, Pennsylvania 17201. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, Pennsylvania 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by retail, wholesale, chain grocery and food business houses (except commodities in bulk and frozen foods), from Hanover, Pa., and points in Adams County, Pa., to points in the lower peninsula of Michigan, restricted to traffic originating at and destined to the above-named origins and destination.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Harrisburg, Pa. or Washington, D.C.

No. MC 30605 (Sub-No. 161), filed May 4, 1977. Applicant: THE SANTA FE TRAIL TRANSPORTATION COMPANY, a corporation, 433 East Waterman Street, Wichita, Kans. 67202. Applicant's representative: Bertram S. Silver, 256 Montgomery Street, San Francisco, California 94104. Authority sought to operate as *common carrier*, by motor vehicle, over regular routes, in the transportation of *general commodities*, (except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment).

(1) Between Los Angeles, California, and Winslow, Arizona, serving all intermediate points. From Los Angeles via U.S. Highway 66 to Winslow and return via the same route. From Los Angeles via Interstate Highway 10 to Colton, thence Interstate Highway 15 to Barstow, thence Interstate Highway 40 to Winslow and return via the same route.

(2) Between Los Angeles, California, and Phoenix, Arizona, serving intermediate points of Blythe, California, and Salome, Aguila, and Wickenburg, Ariz. From Los Angeles via U.S. Highway 60 via Indio, California, to Phoenix, and return via the same route. From Los Angeles via Interstate Highway 10 to Phoenix and return via the same route.

(3) Between Phoenix, Arizona, and Grand Canyon, Arizona, serving all intermediate points and the off-route points of Hillside, Kirkland, Skull Valley, and Iron Springs, Ariz. From Phoenix via U.S. Highway 89 to junction of Arizona Highway 64, near Williams, thence via Arizona Highway 64 to Grand Canyon and return via the same route.

(4) Between Prescott, Arizona, and Camp Verde, Arizona, serving intermediate points of Jerome, Clarkdale and Cottonwood, Arizona. From Prescott via U.S. Highway 89A to its junction with Arizona Highway 279, thence via Arizona Highway 279 to Camp Verde, and return via the same route.

(5) Between Winslow, Arizona and Albuquerque, New Mexico, serving all intermediate points. From Winslow via U.S. Highway 66 to Albuquerque and return via the same route. From Winslow via Interstate Highway 40 to Albuquerque and return via the same route.

(6) Between Willard, New Mexico, and Canyon, Texas serving all intermediate points. From Willard via U.S. Highway 60 to Canyon, and return via the same route.

(7) Between Dallas, Texas, and Amarillo, Texas, serving all intermediate points, except no service to Abilene, Texas. From Dallas via U.S. Highway 80 to Ft. Worth, thence via U.S. Highway 377 to Stephenville, thence via U.S. Highway 67 to Brownwood, thence via U.S. Highway 84 to Lubbock, thence via U.S. Highway 87 (I–27) to Amarillo, and return via the same route.

(8) Between Lubbock, Texas, and Seagraves, Texas, serving all intermediate points. From Lubbock via U.S. Highway 62 to Seagraves, and return via the same route.

(9) Between Lubbock, Texas, and Lamesa, Texas, serving the intermediate points of Tahoka and O'Donnell, and the off-route point of Wilson, Texas. From Lubbock via U.S. Highway 87 to Lamesa, and return via the same route.

(10) Between Santa Anna, Texas, and San Angelo, Texas serving all intermediate points. From Santa Anna via U.S. Highway 67 to San Angelo and return via the same route.

(11) Between Temple, Texas, and Brownwood, Texas serving all intermediate points. From Temple via U.S. Highway 190 to Lampasas, thence via U.S. Highway 183 to Goldthwaite, thence via U.S. Highway 84 to Brownwood, and return via the same route.

(12) Between Galveston, Texas, and Gainesville, Texas, serving all intermediate points and the off-route points of Kopperl, Blum, Crowley, Haslet, Justin, Ponder, and Krum. From Galveston via Interstate Highway 45 (U.S. 75) to Houston, thence via U.S. Highway 90A to Rosenberg, thence via Texas Highway 36 to the junction of Texas Highway 317, near Temple, thence via Texas Highway 317 to Valley Mills, thence via Texas Highway 6 to Meridian, thence via Texas Highway 174 to the junction of U.S. Highway 81, thence via U.S. Highway 81 to Ft. Worth, thence via U.S. Highway 377 to Denton, thence via U.S. Highway 77 to Gainesville, and return via the same route.

(13) Between Galveston, Texas, and Rosenberg, Texas, serving all intermediate points. From Galveston via Texas Highway 6 to the junction of U.S. Highway 90A, thence via U.S. Highway 90A to Rosenberg and return via the same route.

(14) Between Texas City, Texas, and the junction of Texas Highway 146 and U.S. Highway 75. From Texas City via Texas Highway 146 to its junction with U.S. Highway 75, and return via the same route.

(15) Between Houston, Texas, and Alvin, Texas, serving all intermediate points. From Houston via Texas Highway 35 to Alvin, and return via the same route.

(16) Between Dallas, Texas, and Cleburne, Texas, serving all intermediate points. From Dallas via U.S. Highway 67 to Cleburne, and return via the same route.

(17) Between Dallas, Texas, and Denton, Texas, serving all intermediate points. From Dallas via U.S. Highway 77 (I–35E) to Denton and return via the same route.

(18) Between Houston, Texas, and Dallas, Texas, via Beaumont and Longview, serving Beaumont and Longview and all intermediate points between Beaumont and Longview, Texas. From Houston via U.S. Highway 90 to Beaumont, thence via U.S. Highway 96 to Tenaha, thence via U.S. Highway 59 to Longview, thence via Interstate Highway 20 to Dallas, and return via the same route.

ROUTES FOR OPERATING CONVENIENCE ONLY SERVING NO INTERMEDIATE POINTS

(19) Between Dallas, Texas, and Ft. Smith, Arkansas, serving no intermediate points. From Dallas via U.S. Highway 75 to the junction of U.S. Highway 69, thence via U.S. Highway 69 to the junction of Interstate Highway 40, thence via Interstate Highway 40 to Ft. Smith and return via the same route.

(20) Between Albuquerque, New Mexico, and Amarillo, Texas. From Albuquerque via U.S. Highway 66 (I–40) to Amarillo, and return via the same route.

(21) Between Amarillo, Texas, and Oklahoma City, Oklahoma. From Amarillo via U.S. Highway 66 (I–40) to Oklahoma City and return via the same route.

(22) Between Ft. Worth, Texas, and the junction of Interstate Highway 20 and U.S. Highway 84. From Ft. Worth via Interstate Highway 20 to the junction of U.S. Highway 84, and return via the same route.

(23) Between Houston, Texas, and Beaumont, Texas. From Houston via Interstate Highway 10 to Beaumont, and return via the same route.

(24) Between Houston, Texas, and Dallas, Texas. From Houston via Interstate Highway 45 to Dallas, and return via the same route.

(25) Between Aguila, Arizona, and Congress, Arizona. From Aguila via Arizona Highway 71 to Congress, and return via the same route.

(26) Between Lamesa, Texas, and Snyder, Texas. From Lamesa via U.S. Highway 180 to Snyder, and return via the same route.

(27) Between Houston, Texas, and Brenham, Texas. From Houston via U.S. Highway 290 to Brenham, and return via the same route.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Houston, Texas; or Tulsa, Oklahoma; or Oklahoma City, Oklahoma; or Wichita, Kansas; or Los Angeles, California; or Phoenix, Arizona. Common control may be involved.

No. MC 30844 (Sub-No. 590), Filed May 5, 1977. Applicant: KROBLIN REFRIGERATED XPRESS, INC., P.O. Box 5000, Waterloo, Iowa 50704. Applicant's representative: John P. Rhodes (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products, and articles distributed by meat packing houses* (except hides and and commodities in bulk) as described in Sections A & C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766, (1) from Hartley and Spencer, Iowa to points in Indiana, Michigan and Ohio, and (2) from Schuyler and Fremont, Nebraska to points in Indiana, Michigan and Ohio, restricted to shipments originating at the plantsites and facilities of Spencer Foods, Inc. at the above named origins.

NOTE.—Common control may be involved If a hearing is deemed necessary the applicant requests it be held at Minneapolis, Minnesota.

No. MC 35358 (Sub-No. 39), filed May 11, 1977. Applicant: BERGER TRANSFER & STORAGE, INC., 3720 Macalaster Drive N.E., Minneapolis, Minn. 55421. Applicant's representative: Andrew R. Clark, 1000 First National Bank Bldg., Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Furniture, appliances, equipment and commercial and institutional fixtures*, and *materials, parts and supplies* used in the manufacture of appliances, equipment and commercial and institutional fixtures, (1) from points in Iowa, to points in the United States (except Alaska and Hawaii); and

(2) from points in the United States (except Alaska and Hawaii), to points in Iowa.

NOTE.—If a hearing is deemed necessary, applicant requests either Des Moines, Iowa or Chicago, Ill.

No. MC 35628, (Sub-No. 392), filed May 3, 1977. Applicant: INTERSTATE MOTOR FREIGHT SYSTEM, 134 Grandville Avenue, S.W., Grand Rapids, Michigan 49503. Applicant's representative: Michael P. Zell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting general commodities (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite of Manchester Plastics, Inc. lo-

cated at Manchester, Michigan as an off-route point in connection with applicant's authorized operations.

NOTE.—If a hearing is deemed necessary, applicant requests that the hearing be held at Kansas City, Missouri.

No. MC 61231 (Sub-No. 103), filed May 10, 1977. Applicant: Ace Lines Inc., 4143 East 43rd Street, Des Moines, Iowa 50317. Applicant's representative: William L. Fairbank, 1980 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wrought steel pipe and tubing* from the plantsite of Tubular Steel, Incorporated at Staunton, Ill. and Hazelwood, Mo., to points in Iowa, Minnesota, Nebraska, North Dakota, and South Dakota.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo.

No. MC 61788 (Sub-No. 34), filed: May 4, 1977. Applicant: GEORGIA-FLORIDA-ALABAMA TRANSPORTATION COMPANY, a Corporation, 1541 Reeves Street, Dothan, Alabama 36302. Applicant's representative: Maurice F. Bishop, 601–09 Frank Nelson Building, Birmingham, Alabama 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, Classes A & B explosives, household goods as defined by the Commission, commodities in bulk and commodities requiring special equipment), serving the plantsite and warehouse facilities of the John Deere Company, located at or near Conyers, Georgia, as an off-route point in connection with the carrier's authorized regular routes, restricted against the transportation of traffic, direct or interline, between Atlanta, Georgia, on the one hand, and, on the other, the plantsite and warehouse facilities of John Deere Company located at or near Conyers, Georgia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Atlanta, Ga.

No MC 63417 (Sub-No. 100), filed: May 6, 1977. Applicant: Blue Ridge Transfer Company, Incorporated, P.O. Box 13447, Roanoke, Virginia 24034. Applicant's representative: William E. Bain, P.O. Box 13447, Roanoke, Virginia 24034. Authority sought to operate as a *common carrier* by motor vehicle over irregular routes, transporting: (1) *New furniture and furniture parts* from Columbia, S.C. to points in Alabama, Arkansas, Delaware, District of Columbia, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maryland, Michigan, Mississippi, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, West Virginia. (2) *Materials* and *supplies used in the manufacture of new furniture* (except commodities in bulk and those which because of size and weight require special equipment) from states in (1) above to Columbia, S.C. and

(3) damaged, defective, refused, rejected or returned shipments of new furniture from states in (1) above to Columbia, S.C.

NOTE.—If a hearing is deemed necessary, applicant requests it be held in Roanoke, Virginia or Columbia, S.C.

No. MC 77214 Sub-No 7, filed May 9, 1977. Applicant: Haldon S. Miller, 1026 S. CR. 32, Helena, Ohio 43435. Applicant's representative: John L. Alden, 1396 West Fifth Avenue, Columbus, Ohio 43212. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid nitrogen solution*, in bulk, in tank vehicles, from Terre Haute, Ind., to points in Ohio. (2) Dry nitrogen-urea, in bulk, from Madison, Ind., to points in Ohio.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Columbus, Ohio; Cleveland, Ohio, or Washington, D.C.

No. MC 78118 (Sub-No. 34), filed May 9, 1977. Applicant: W. H. JOHNS, INC., 35 Witmer Road, Lancaster, Pennsylvania 17602. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, Pennsylvania 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers*, not exceeding 1 gallon in capacity, from the plantsite and shipping facilities of Glass Containers Corporation in the Borough of Knox and the Townships of Paint and Elk, Clarion County, the Borough of Marienville, Forest County, and the Borough of Parker, Armstrong County, Pa., to points in New Jersey, restricted to traffic originating at and destined to the above origins and destination.

NOTE.—If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C. or Harrisburg, Pa.

No. MC 78687 (Sub-No. 46), filed May 3, 1977. Applicant: LOTT MOTOR LINES, INC., 118 Monell Street, Penn Yan, New York 14527. Applicant's representative: E. Stephen Heisley, Suite 850 666 Eleventh Street, N.W., Washington, D.C. 20001. Authority is sought by applicant to operate in interstate or foreign commerce as a *common carrier*, by motor vehicle over irregular routes, transporting: *Scrap metals*, in dump vehicles, between points in Connecticut, Massachusetts, New York, Pennsylvania, and New Jersey (except points in Atlantic, Cumberland, Burlington, Camden, Cape May, Gloucester, and Salem Counties, New Jersey).

NOTE.—If a hearing is held, applicant requests that the hearing be held in Washington, D.C. Applicant states that it holds contract carrier authority in No. MC 2505, therefore dual operations may be involved. Common control may also be involved.

No. MC 78687 (Sub-No. 47) filed May 4, 1977. Applicant: LOTT MOTOR LINES, INC., 118 Monell Street, Penn Yan, New York 14527. Applicant's representative: E. Stephen Heisley, Suite 805, 666 Eleventh Street, NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Soda ash*, in bulk, from Solvay, N.Y., to points in Virginia.

NOTE.—Applicant hold contract carrier authority in MC 3505, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, applicant requests it be held on a consolidated record with similar applications.

No. MC 79267 (Sub-No. 2), filed May 4, 1977. Applicant: P & D WAREHOUSE & CARTAGE, INC., 7636 Canton Center Drive, Baltimore, Maryland 21224. Applicant's representative: Maurice S. Bozel, 303 Felton Road, Lutherville, Md. 21093. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of (1) Containers, Container Chassis & Trailers, (2) General Commodities (except commodities of unusual value, commodities requiring special equipment and commodities in bulk.) Between points in the Baltimore, Maryland Commercial Zone, restricted to shipments having a prior or subsequent movement by water.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Baltimore, Maryland.

No. MC 83835 (Sub-No. 142), filed May 11, 1977. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Texas 75222. Applicant's representative: James W. Hightower, 136 Wynnewood Prof. Building, Dallas, Texas 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) Castings, empty shipping containers, scrap metal, variable speed drives, electrical cable, switch boards, transformers, motors, pumps, motor and pump parts and accessories; and, (2) Equipment, materials, and supplies used in, or in connection with, the transportation, installation, operation, removal, repair, manufacture, and maintenance of the commodities described in (1) above, between the facilities of Byron Jackson Pump Division and Centrilift Division, Borg-Warner Corporation, located at or near Ardmore, Healdton, and Tulsa County, Oklahoma; Casper and Cody, Wyoming; Glendive, Montana; Huntington Beach and Los Angeles, California; Rangely, Colorado; and Conroe, Midland, Plainview, and Tyler, Texas; on the one hand, and, one the other, points in the United States, including Alaska, but excluding Hawaii. RESTRICTION: Restricted against the transportation of (a) Pumps, pump parts, and pump motors, and (b) equipment, materials, and supplies used in the installation, operation, removal, repair, and maintenance of the commodities described in (a) above, between the facilities of Byron Jackson Pump Division, Borg-Warner Corporation located at Tulsa, Oklahoma, on the one hand, and, on the other, points in the United States, including Alaska, but excluding Hawaii.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 94201 (Sub-No. 149), filed: May 3, 1977. Applicant: BOWMAN TRANSPORTATION, INC., Post Office Box 17744, Atlanta, Georgia 30316. Applicant's representative: Maurice F. Bishop, 601–09 Frank Nelson Building, Birmingham, Alabama 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: General Commodities (except those of unusual value, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), Between the plantsite of Goodyear Tire and Rubber Company located at or near Union City, Tenn., on the one hand, and, on the other, points Illinois, Indiana, points in Ohio; Louisville, Ky., St. Louis, Kansas City, Carthage and Springfield, Mo.; Topeka, Kans.; North Carolina, and Norfolk and Richmond, Va.; Kansas City, Kans., and points within the commercial zones of each city named. The authority sought would be tacked as follows: 1. Richmond, Va. with the Bowman Sub 52 authority to provide service to points in New York, where it would be tacked with Bowman Sub-53 to provide service to points in Connecticut, Massachusetts and New York within 35 miles of Columbus Circle, N.Y., and with the Sub-109 authority to provide service to all points in Rhode Island and Massachusetts and named Counties in Connecticut. 2. The authority would also be tacked with the Sub-52 authority at Richmond, Va. to provide service to Baltimore, Md., Philadelphia, Pa., Washington, D.C., and points in their respective commercial zones.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Akron, Ohio or Atlanta, Georgia.

No. MC 94350 (Sub No. 387), filed May 9, 1977. Applicant: TRANSIT HOMES, INC., P.O. Box 1628, Greenville, S.C. 29602. Applicant's representative: Mitchell King, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Singlewide and double-wide mobile homes*, in initial movements, from points in Clay and LaGrange Counties, Ind. to points in Colorado, Connecticut, Delaware, Illinois, Iowa, Kansas, Kentucky, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Pennsylvania, Rhode Island, South Dakota, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and Wyoming.

NOTE.—Common control may be involved. If hearing is deemed necessary, applicant requests that it be held at South Bend, Ind.

No. MC 95540 (Sub No. 980), filed May 9, 1977. Applicant: WATKINS MOTOR LINES, INC., 1144 West Griffin Road, P.O. Box 1636, Lakeland, Fla. 33802. Applicant's representative: Benjy W. Fincher (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Confectionery*, from Covington, Tenn. to points in Connecticut, Delaware, District of

Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Pennsylvania, Rhode Island, South Carolina, South Dakota, Vermont, Virginia, Wisconsin and Kentucky; Restricted to the transportation of shipments originating at the facilities of the Charms Co., located at or near Covington, Tenn. and destined to the named destination States.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.; Washington, D.C., or Tampa, Fla.

No. MC 95540 (Sub-No. 981), filed May 9, 1977. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Lakeland, Florida 33802. Applicant's representative Benjy W. Fincher, P.O. Box 1636, Lakeland, Florida 33802. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Bananas and agricultural commodities, exempt from economic regulations under Section 203(b)(6) of the Act, when transported at the same time and in the same vehicle with bananas, from Norfolk, Va. to points in Connecticut, Delaware, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, West Virginia, Wisconsin, and the District of Columbia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or Tampa, Fla.

No. MC 106274 (Sub-No. 25), filed May 9, 1977. Applicant: RAEFORD TRUCKING COMPANY, a corporation, P.O. Box 219, Sanford, N.C. 27330. Applicant's representative: R. B. Guthrie, P.O. Box 219, Sanford, N.C. 27330. Authority sought to operate as a *common carrier*, over irregular routes, transporting: Lumber, lumber products, fencing, wooden, in sections, fence pickets, wooden, poles, wooden, and posts, wooden, (1) from points in Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, and Vermont, to points in Pennsylvania, Maryland, Delaware, Virginia, North Carolina, South Carolina, Tennessee, Ohio, West Virginia, New York, and New Jersey, and (2) from points in Virginia to points in North Carolina and South Carolina. Restriction: Restricted to movements for the account of Lawrence R. McCoy & Co., Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Boston, Mass., or Washington, D.C.

No. MC 106674 (Sub-No. 232), filed May 9, 1977. Applicant: SCHILLI MOTOR LINES, INC., P.O. Box 123, Remington, Indiana 47977. Applicant's representative: Jerry L. Johnson, P.O. Box 123, Remington, Indiana 47977. NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at New York City, New York or Atlanta, Georgia. Common control and dual operations may be involved.

No. MC 107515 (Sub-No. 1077), filed May 10, 1977. Applicant: REFRIGERATED TRANSPORT CO., INC., Post Office Box 308, Forest Park, Georgia 30050. Applicant's representative: Alan E. Serby, 3379 Peachtree Road, N.E., Suite 375, Atlanta, Georgia 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from the plantsite and storage facilities of Standard Brands Incorporated at Atlanta, Georgia to, points in Texas, Oklahoma, Arkansas and Louisiana.

NOTE.—Applicant holds contract carrier authority in No. MC 126436 (Sub-No. 2) and other subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Atlanta, Ga.

No. MC 107515 (Sub-No. 1078), filed May 10, 1977. Applicant: REFRIGERATED TRANSPORT CO., INC., Post Office Box 308, Forest Park, Georgia 30050. Applicant's representative: Alan E. Serby, 3379 Peachtree Road, N.E., Suite 375, Atlanta, Georgia 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bakery products* in vehicles equipped with mechanical refrigeration, from the plantsite and storage facilities of Specialty Lady Fingers located at Marysville, Pennsylvania to points in Michigan, Illinois, Wisconsin, Minnesota, Iowa, Kansas, Missouri, Nebraska, Indiana and Ohio. Restricted to traffic originating at the named plantsite and destined to the named destinations.

NOTE.—Applicant holds contract carrier authority in No. MC 126436 (Sub-No. 2) and other subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa. or Washington, D.C.

No. MC 108053 (Sub-No. 139), filed May 10, 1977. Applicant: LITTLE AUDREY'S TRANSPORTATION COMPANY, INC., P.O. Box 129, Fremont, Nebraska 68025. Applicant's representative: ARNOLD L. BURKE, 180 N. LaSalle Street, Chicago, Illinois 60601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products and articles distributed by meat packinghouses* (except hides and commodities in bulk), as defined in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, From the plantsite and warehouse facilities of Wilson Foods Corporation at Cedar Rapids, Iowa, to points in Arizona, California, Idaho, Nevada, Oregon, Utah and Washington, restricted to the transportation of traffic originating at the named origins and destined to the named destination states.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests that it be held at Kansas City, Missouri.

No. MC 108341 (Sub-No. 60), filed May 10, 1977. Applicant: MOSS TRUCKING COMPANY, INC., 3027 N. Tryon St., P.O. Box 8409, Charlotte, N.C. 28206. Applicant's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wire and wire mesh*, from the facilities of Exposaic Wire Company located at or near Mount Airy, North Carolina to points in the United States in and east of Minnesota, Iowa, Missouri, Arkansas, and Louisiana.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 108835 (Sub-No. 40), filed May 11, 1977. Applicant: Hyman Freightways, Inc., 1745 University Ave., St. Paul, Minnesota 55104. Applicant's representative: Robert S. Lee, 1000 First National Bank Bldg., Minneapolis, Minnesota 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, commodities in bulk, and those requiring special equipment), between Minneapolis-St. Paul, Minn., and Noyes, Minn., serving no intermediate points: (a) From St. Paul, Minn., over U.S. Highway 10 to its junction with U.S. Highway 59 at Detroit Lakes, Minn., thence via U.S. Highway 59 to its junction with Minnesota Highway 11, thence over U.S. Highway 11 to its junction with U.S. Highway 75, thence over U.S. Highway 75 to Noyes, Minn., and return over the same route; (b) From Minneapolis, Minn., over U.S. Highway 52 to its junction with Minnesota Highway 152 near Osseo, Minn., thence over Minnesota Highway 152 to its junction with U.S. Highway 52 at or near St. Cloud, Minn., thence over U.S. Highway 52 to its junction with U.S. Highway 75, thence over U.S. Highway 75 to its junction with Minnesota Highway 220, thence over Minnesota Highway 220 to its junction with Minnesota Highway 11, thence over Minnesota Highway 11 to its junction with U.S. Highway 75, thence over U.S. Highway 75 to Noyes, Minn., and return over the same route; and (c) From Minneapolis, Minn., over Interstate Highway 94 to its junction with Minnesota Highway 9 at or near Barnesville, Minn., thence over Minnesota Highway 9 to its junction with U.S. Highway No. 2, thence over U.S. Highway No. 2 to its junction with U.S. Highway 75, thence over U.S. Highway 75 to Noyes, Minn., and return over the same route.

NOTE.—This proceeding involves a conversion of applicant's irregular route authority between the points involved, MC 108835 (Sub 29G), to regular route authority. Applicant will voluntarily take a restriction either in the certificate issued in this proceeding or in its Sub 29G certificate that would preclude it from performing both irregular and regular route service between Minneapolis-St. Paul and Noyes, Minnesota. Common control may be an issue. If a hearing should be necessary, applicant requests it be held in St. Paul, Minnesota.

No. MC 108937 (Sub-No. 46), filed May 9, 1977. Applicant: MURPHY MOTOR FREIGHT LINES, INC., 2323 Terminal Road, P.O. Box 3640, St. Paul, Minnesota 55113. Applicant's representative: Raymond L. Stevens, 2323 Terminal Road, St. Paul, Minnesota 55113. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: General commodities, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (1) Between St. Paul, Minn. and Rhinelander, Wis., serving no intermediate points; From St. Paul over U.S. Highway 8 to Rhinelander, and return over the same route. (2) Between Duluth, Minn. and Rhinelander, Wis., serving no intermediate points; From Duluth over U.S. Highway 2 to junction U.S. Highway 51, thence over U.S. Highway 51 to junction Wisconsin Highway 47 to Woodruff, Wis., thence over Wisconsin Highway 47 to Rhinelander, and return over the same route.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Rhinelander, Wis. Common control may be involved.

No. MC 108937 (Sub-No. 47), filed May 9, 1977. Applicant: MURPHY MOTOR FREIGHT LINES, INC., 2323 Terminal Road, P.O. Box 3640, St. Paul, Minnesota 55113. Applicant's representative: Raymond L. Stevens, 2323 Terminal

Road, St. Paul, Minnesota 55113. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: General commodities—except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment—(1) Between South Bend, Ind. and Columbus, Ohio, serving no intermediate points: From South Bend over U.S. Highway 31 to junction U.S. Highway 31 and U.S. Highway 30, near Plymouth, Ind., thence over U.S. Highway 30 to junction U.S. Highway 30 and U.S. Highway 30S, near Delphos, Ohio, thence over U.S. Highway 30S to Kenton, Ohio, thence over Ohio Highway 31 to Marysville, Ohio, thence over U.S. Highway 33 to Columbus, and return over the same route; and (2) Between South Bend, Ind. and Louisville, Ky., serving the intermediate point of Indianapolis, Ind.: From South Bend over U.S. Highway 31 to Indianapolis, thence over Interstate Highway 65, and return over the same route.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at South Bend, Ind.

No. MC 111401 (Sub No. 487), filed May 10, 1977. Applicant: Groendyke Transport, Inc., 2510 Rock Island Boulevard, P.O. Box 632, Enid, Oklahoma 73701. Applicant's representative: Alvin L. Hamilton (Same address as applicant). NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Minneapolis, Minnesota.

No. MC 136817 (Sub-No. 1), filed May 5, 1977. Applicant: HUNTER BROKERAGE, INC., 3910 Richland Drive, Council Bluffs, Iowa 51501. Applicant's representative: Bradford E. Kistler, P.O. Box 82028, Lincoln, Nebraska 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, (1) from points in Iowa, to Logan, Utah and Los Angeles, California and points in Minnesota, Wisconsin, Nebraska, Illinois, Ohio, Kentucky, Tennessee, Georgia, North Carolina, Virginia, Indiana, Arkansas and Pennsylvania; (2) from points in Wisconsin, Illinois and Missouri, to Belle Plaine and Oxford Junction, Iowa; and (3) from Grand Rapids, Michigan and Stoughton, Wisconsin to Loveland, Colorado, restricted to a transportation service to be performed under a continuing contract, or contracts, with McGuffin Lumber, Inc.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Illinois or Omaha, Nebraska.

No. MC 136987 (Sub-No. 17), filed May 11, 1977. Applicant: REMINGTON FREIGHT LINES, INC., P.O. Box 315, U.S. 24 West Remington, Ind. 47977. Applicant's representative: William H. Towle, 180 North LaSalle Street, Suite 3520, Chicago, Ill. 60601. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except commodities in bulk), from the plantsite and warehouse facilities of George A. Hormel & Co., at or near Beloit, Wisc., to points in Indiana, Ohio, Pennsylvania, New York, New Jersey, Maryland, Delaware and the District of Columbia, restricted to the transportation of shipments originating at the named origin and destined to the named points, under a continuing contract with George A. Hormel & Co.

NOTE.—If a hearing is deemed necessary, applicant requests it be held in Chicago, Ill.

No. MC 138003 (Sub-No. 12), filed May 10, 1977. Applicant: ROBERT F. KAZIMOUR, P.O. Box 2207, Cedar Rapids, Iowa 52406. Applicant's representative: A. J. Swanson, P.O. Box 81849, Lincoln, NE. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Appliances, furnaces and air conditioners* (except commodities which because of size or weight require the use of special equipment), from Louisville, KY. to points in Iowa, Nebraska, Colorado, Kansas, Oklahoma, New Mexico and Wyoming, under a continuing contract, or contracts, with General Electric Company.

NOTE.—Applicant holds motor common carrier authority in No. MC 140612 and sub numbers thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at either Louisville, KY., or Lincoln, NE.

No. MC 138003 (Sub-No. 13), filed May 10, 1977. Applicant: ROBERT F. KAZIMOUR, P.O. Box 2207, Cedar Rapids, Iowa 52406. Applicant's representative: A. J. Swanson, P.O. Box 81849, Lincoln, NE. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Appliances, furnaces, and air conditioners, parts, materials, equipment and supplies used in the manufacture thereof*, (1) between the facilities of the Tappan Co. at or near Mansfield, OH., Nashville, and Springfield, TN., Murray, KY., Dalton, GA., and Anaheim, CA., and (2)

from the facilities of the Tappan Co. at or near Mansfield, OH., Nashville, and Springfield, TN., Murray, KY., Dalton, GA. and Anaheim, CA., to points in the United States in and west of Minnesota, Wisconsin, Illinois, Missouri, Arkansas, and Louisiana, (except Alaska and Hawaii), under a continuing contract, or contracts, in (1) and (2) above with the Tappan Co.

NOTE.—Applicant holds motor common carrier authority in No. MC 140612 and sub numbers thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at either Mansfield, OH., or Lincoln, NE.

MC 138359 (Sub 7), filed May 9, 1977. Applicant: LENNEMAN TRANSPORT, INC., 10 North Michigan St., Hutchinson, Minnesota 55350. Applicant's representative: Robert P. Sack, P.O. Box 6010, West St. Paul, Minnesota 55118. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages*, from Memphis, Tennessee to Hutchinson, Minnesota, under a continuing contract, or contracts, with Lenneman Beverage Distributors, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Minneapolis, Minn.

No. MC 138991 (Sub-No. 18), filed February 24, 1977. Applicant: K. J. TRANSPORTATION, INC., P.O. Box 9764, Rochester, N.Y. 14623. Applicant's representative: S. Michael Richards, 44 North Avenue, Webster, N.Y. 14580. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Dry beverage preparations when moving in mixed loads with commodities presently authorized*, from Hightstown, N.J. to points in New York (except New York City and those points in Delaware, Greene, Columbia, Sullivan, Ulster, Dutchess, Orange, Putnam, Rockland, Westchester, Nassau, and Suffolk Counties, N.Y.); (2) *empty containers*, from Hightstown, N.J. to Geneva, Ohio; (3) *non-carbonated beverages (except alcoholic beverages)*, from Geneva, Ohio to all points in New York on and west of Interstate 81 and all points on and west of Route 15 in Pennsylvania; and from Hightstown and Vincentown, N.J. to points in New York (except New York City and those points in Delaware, Greene, Columbia, Sullivan, Ulster, Dutchess, Orange, Putnam, Rockland, Westchester, Nassau and Suffolk Counties, N.Y.) and Georgia, North Carolina, So. Carolina and Tennessee; (4) *dry beverage preparations*, from Northfield, Illinois to Hightstown, N.J.; and (5) *(a) juices, not canned and not frozen, and (b) non-carbonated canned juices and dry beverage preparations, in mixed loads with juices, not canned and not frozen, in vehicles equipped with mechanical refrigeration*, from Hightstown and Vincentown, N.J. to points in Georgia, North Carolina, South Carolina and Tennessee; and Vincentown, N.J. to points in New York (except New York City and those points in Delaware, Greene, Columbia, Sullivan, Ulster, Dutchess, Orange, Putnam, Rockland, Westchester, Nassau and Suffolk Counties, N.Y.), under a continuing contract, or contracts, with Coca-Cola Company Foods Division of Highstown, N.J.

NOTE.—The authority presently authorized to applicant herein as refered to in Part (1) above involves "Juices, not canned and not frozen, and non-carbonated canned juices in mixed loads with juices, not canned and not frozen, in vehicles equipped with mechanical refrigeration". If a hearing is deemed necessary, applicant requests that it be held at New York City or Trenton, N.J. Common control may be involved.

No. MC 139156 (Sub-No. 5), filed April 29, 1977. Applicant: FAITH TRUCK LINES, INC., 14326 So. Wood St., Dixmoor, Ill. 60426. Applicant's representative: Lee J. Schwartz, 33 No. LaSalle St., Suite 2027, Chicago, Ill. 60602. The applicant has filed for authority to engage in operation as a *common carrier*, by motor vehicle, under irregular routes in the transportation of *Muriatic acid*, in rubber lined tank vehicles, from Birmingham, Ala., to Albion, Mich.; Burns Harbor, Ind.; the Chicago, Ill. Commercial Zone; Dwight, Ill.; Juneau, Wisc.; Joliet, Ill., and Niles, Mich., and (2) from Weeks Island, La., to the Chicago, Ill. Commercial Zone and points in Illinois, Indiana, Michigan, Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 139336 (Sub-No. 12), filed May 5, 1977. Applicant: Transtates, Inc., 3216 East Westminster, Santa Ana, California 92703. Applicant's representative: David P. Christianson, 825 City National Bank Building, 606 South Olive Street, Los Angeles, California 90014. Applicant sought to operate as a *contract carrier* by motor vehicle over irregular routes in the transportation of: *Retreaded and new aircraft tires and worn aircraft tires*, between South San Francisco, California, and Salina, Kansas, on the one hand, and, on the other, Chicago, Bensenville and Galva, Illinois; Minneapolis and Bloomington, Minnesota; Dallas and Houston, Texas; Seattle and Blaine, Washington; Kansas City, Kans.; and Kansas City, Mo.; Denver, Colorado; and Tulsa, Oklahoma, under a continuing contract or contracts with Thompson Aircraft Tire Corporation located at South San Francisco, California.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Los Angeles, California.

No. MC 139824 (Sub-No. 4), filed May 4, 1977. Applicant: BITTERSWEET ENTERPRISES, INC., R.R. 1, Manhattan, Kansas 66502. Applicant's representative: Clyde N. Christey, 515 Capitol Federal Bldg., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Complete buildings* (except prefabricated buildings when transported on wheeled undercarriages equipped with hitchball connectors), between points in Marshall County, Kans., on the one hand, and, on the other points in Nebraska.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 139973 (Sub No. 25), filed April 25, 1977. Applicant: J. H. WARE TRUCKING, INC., P.O. Box 398, Fulton, Missouri 65251. Applicant's representative: Larry D. Knox, 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *meats, meat products, meat by-products*, and articles distributed by meat packing houses as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and storage facilities of Swift Fresh Meats Company located at or near Clovis, New Mexico, to points in Wisconsin.

NOTE.—Applicant holds motor contract carrier authority in MC 138375 and sub numbers thereunder, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at either Kansas City, Missouri or Chicago, Illinois.

No. MC 140024 (Sub-No. 68), filed May 10, 1977. Applicant: J. B. MONTGOMERY, INC., 5565 East 52nd Avenue, Commerce City, Colorado 80022. Applicant's representative: John F. DeCock, (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Cheese and cheese products (except in bulk), from Cuba, New York, to Champaign, Illinois and Superior, Nebraska, restricted to traffic originating at the plant site and storage facilities of Leprino Cheese Co., Inc. at Cuba, New York and destined to named destinations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Denver, Colorado.

No. MC 140024 (Sub-No. 69), filed May 10, 1977. Applicant: J. B. MONTGOMERY, INC., 5565 East 52nd Avenue, Commerce City, Colorado 80022. Applicant's representative: John F. DeCock (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *meats, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk in tank vehicles). From points in Colorado, to points in California, Nevada, Oregon, Utah, and Washington, restricted to traffic originating at points in Colorado and destined to named destinations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests that it be held on a consolidated record with similar applications. Hearing is scheduled to commence June 20, 1977.

No. MC 140384 (Sub-No. 3), filed May 13, 1977. Applicant: BERNARD D. HARRIS, 4146 State Street Drive, New Orleans, Louisiana 70125. Applicant's representative: Harold R. Ainsworth, 2307 American Bank Building, New Orleans, Louisiana 70130. Authority to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture* from the Southern Railway Shed H at New Orleans, Louisiana to Baton Rouge, Denham Springs, Gonzales, Houma, Luling, Morgan City, Raceland, Thibodaux, and Vacherie, Louisiana restricted to traffic having an immediate prior movement by rail.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 140457 (Sub-No. 3), filed May 9, 1977. Applicant: W.H.P.T. CO., INC., Rt. 8, Box 644, Roanoke, Virginia 24014. Applicant's representative: Michael S. Ferguson, 214 Shenandoah Building, Roanoke, Virginia 24011. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Super Phosphate (a fertilizer ingredient) in bulk, in Dump Truck Vehicles (1) from Roanoke, Virginia, to Winston-Salem, N.C. (2) From Chesapeake and Hopewell, Virginia, to Winston-Salem, N.C. (3) From Winston-Salem, N.C. to Chesapeake, Virginia, & Hopewell, Virginia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Roanoke, Virgina.

No. MC 140842 (Sub-No. 4) (Correction), filed December 15, 1976, published in FEDERAL REGISTER issue of April 7, 1977, and republished as corrected this issue. Applicant: B AND P MOTOR LINES, INC., P.O. Box 741, Forest City, N.C. 28043. Applicant's representative: Charles G. Dennis, Suite 101, 10205 Oasis St., San Antonio, Tex. 78216. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Air coolers and air conditioners*, (except water evaporative types), from the plantsite of Friedrich Air Conditioning and Refrigeration Company located at San Antonio, Tex., to points in Florida, under a continuing contract, or contracts, with Friedrich Air Conditioning and Refrigeration Company located at San Antonio, Tex.

NOTE.—The purpose of this republication is to indicate applicant's corrected commodity description. Applicant holds common carrier authority in No. MC 106074 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either San Antonio, Tex.; Charlotte, N.C.; or Jacksonville, Fla.

No. MC 141652 (Sub-No. 16), filed May 10, 1977. Applicant: ZIP TRUCKING, INC., P.O. Box 5717, Jackson, Miss. 39208. Applicant's representative: K. Edward Wolcott, 1600 First Federal Bldg., Atlanta, Georgia 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Wearing apparel*, from Hattiesburg, Miss. to points in California, restricted to the transportation of traffic originating at the facilities of Big Yank Corp. located at Hattiesburg, Miss. and destined to points in California.

NOTE.—Applicant states the purpose of this filing is to convert existing contract carrier authority in MC 136807 to common carrier authority. Applicants hold contract carrier authority in MC 138807 and subs thereunder, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests that it be held at either Jackson, Miss., or Atlanta, Ga.

No. MC 141695 (Sub-No. 6), filed May 9, 1977. Applicant: Oliver Wendell Collins, d.b.a. COLLINS TRUCKING, P.O. Box 185, Jordan Valley, Oregon 97910. Applicant's representative: Timothy R. Stivers, P.O. Box 162, Boise, Idaho 83701. Authority sought to operate as a *Common Carrier*, by motor vehicle, over irregular routes, transporting: *General Commodities*, (except commodities in bulk, and commodities which because of size or weight require special equipment to load, unload or transport), between Jordan Valley and Sheaville, Oregon, on the one hand, and, on the other the facilities of the DeLamar Silver Mine, at or near DeLamar (Owyhee County), Idaho.

NOTE.—If a hearing is deemed necessary, it is requested to be held at Boise, Idaho.

No. MC 141804 (Sub-No. 54), filed May 5, 1977. Applicant: WESTERN EXPRESS, Division of INTERSTATE RENTAL, INC., P.O. Box 422, Goodlettsville, Tenn. 37072. Applicant's representative: Frederick J. Coffman, P.O. Box 81849, Lincoln, Nebr. 68509. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper labels (plain or printed), gummed paper, corrugated boxes, and materials, parts and supplies*, used in the manufacture thereof (except commodities in bulk and which because of size or weight require special handling or equipment), from Azusa and Monrovia, Calif. to points in Minnesota, Wisconsin, Michigan, Illinois, Indiana, Ohio, Pennsylvania, New York, Connecticut, Massachusetts, Delaware, New Jersey, Maryland, Missouri, Georgia, North Carolina, Florida, Louisiana, Kansas and Iowa, restricted to traffic originating at the plant sites and storage facilities utilized by Avery Label.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests that it be held at Los Angeles, Calif. or Lincoln, Nebr.

No. MC 141804 (Sub-No. 57), filed May 11, 1977. Applicant: WESTERN EXPRESS, Division of INTERSTATE RENTAL, INC., P.O. Box 422, Goodlettsville, Tennessee 37072. Applicant's representative: Frederick J. Coffman, P.O. 81849, Lincoln, Nebraska 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes: *Grinding wheels, rubbing stones, abrasive grain, crude abrasives, abrasive paper or cloth, crude silicon carbide, insulating materials, tools, high temperature mortar, metal alloys and cleaning compound other than liquid*, from the plantsite and storage facilities of The Carborundum Company located at or near Niagra Falls, New York and New Carlisle, Indiana, to Compton, Santa Fe Springs, and Los Angeles, California; Phoenix, Arizona; Salt Lake City, Utah; Farmington, New Mexico; Denver, Colorado; Seattle and Vancouver, Washington, restricted to traffic originating at or destined to the above locations and further restricted against commodities in bulk and commodities that because of their size and weight require special equipment for loading or unloading.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests that it be held at either Niagara Falls, New York or Lincoln, Nebraska.

No. MC 142559 (Sub-No. 1), filed May 3, 1977. Applicant: BROOKS TRANSPORTATION, INC., 30650 Carter Road, Solon, Ohio 44139. Applicant's representative: Henry U. Snavely, 410 Pine Street, Vienna, Va. 22180. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *water heaters* and *water heater parts* and *accessories*, and (2) *materials and supplies* (except commodities in bulk), used in the manufacture or distribution of the commodities in (1) above, between the facilities of the Bradford-White Corporation, at Middleville, Mich., and Los Angeles, Calif., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), restricted to the transportation of traffic originating at or destined to the said facilities of the Bradford-White Corporation.

NOTE.—Common control may be involved. Applicant holds motor contract carrier authority in No. MC 139254; therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests that it be held at Washington, D.C.

No. MC 142727 (Sub-No. 1), filed May 2, 1977. Applicant: REYNALDO TAMAYO, 4421 N.W. 200th Street, Miami, Fla. 33133. Applicant's representative: John P. Bond, 2766 Douglas Road, Miami, Fla. 33133. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, (except commodities in bulk, Class A and B explosives, household goods, livestock, commodities requiring special handling and special equipment and cement, and commodities requiring refrigeration), Between all points in Dade County, Fla., lying east of State Road 27, south of State Road 826, north of State Road 94, and west of the Atlantic Ocean, restricted to shipments having a prior or subsequent movement by water.

NOTE.— If a hearing is deemed necessary, the applicant requests it be held at Miami, Fla.

No. MC 142732 (Sub-No. 1), filed May 3, 1977. Applicant: TIFFANY TRANSPORTATION COMPANY, INC., 3346 NW. 78th Avenue, Miami, Fla. 33122. Applicant's representative: James P. Bond, 2766 Douglas Road, Miami, Fla. 33133. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except the transportation of commodities in bulk, Classes A and B explosives, household goods, livestock, commodities requiring special handling and special equipment and cement), between points in Dade County, Fla., east

of State Road 27, south of State Road 826, north of State Road 94, and west of the Atlantic Ocean, restricted to shipments having a prior or subsequent movement by water.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Miami, Fla.

No. MC 142765 (Sub-No. 2), filed May 11, 1977. Applicant: AMERICAN TRANSPORTATION, INC., P.O. Box 2379, Trenton, New Jersey 08601. Applicant's representative: Mel P. Booker, Jr., 118 North St. Asaph Street, Alexandria, Virginia 22314. Authority sought to operate as a *contract carrier* by motor vehicle over irregular routes, transporting: *such commodities* as are dealt in or sold by direct sale, catalog sale and mail order houses, and *material, equipment and supplies*, used or useful in the manufacture, distribution or sale of products dealt in by direct sale, catalog sale, and mail order houses, between the Facilities of Amway Corporation, at or near Dayton, New Jersey, on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, New York, Massachusetts, Rhode Island, Connecticut, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, and the District of Columbia, under a continuing contract, or contracts, with Amway Corporation Regional Distribution System. *Restriction*: Restricted against the transportation of commodities in bulk.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Trenton, New Jersey or Washington, D.C.

No. MC 142772 (Sub-No. 2) (Correction), filed March 28, 1977 published in the FEDERAL REGISTER issue of May 19, 1977 and republished as corrected this issue. Applicant: HRDLICKA ENTERPRISES, INC., Route 7, Box 59, Chippewa Falls, Wis. 54729. Applicant's representative: Roderick A. Cameron, 101 N. Broadway, Stanley, Wis. 54768. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Building and roofing slabs, tile and panels*, and *related materials, parts, supplies and accessories*, from Cornell, Wis., (a) to points in Colorado, Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, the Upper Peninsula of Michigan; and (b) to points in Wisconsin, restricted in (b) above to shipments having a subsequent movement in interstate commerce by rail or water; and (2) *wood fabricated components* for cabinets and store fixtures, *wood building materials and lumber*, and *materials* used or useful in the transportation and installation of these commodities, from Chippewa Falls, Wis., to points in Illinois, Indiana, Iowa and Minnesota.

NOTE.—The purpose of this republication is to correct territorial description. If a hearing is deemed necessary, applicant requests it be held at either Eau Claire, Wis., or Minneapolis, Minn.

No. MC 142856 (Sub-No. 1), filed May 9, 1977. Applicant: THOMAS A. McKISSICK, 5945 Hunt Club Road, Baltimore, Md. 21227. Applicant's representative: Chester A. Zyblut, 366 Executive Bldg., 1030 Fifteenth St., N.W., Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Concrete products and materials, supplies and equipment*, used in the manufacture and distribution of concrete products, between Jessup, Md., and Manassas, Va., on the one hand, and, on the other, points in Maryland, Delaware, Virginia, W. Virginia, Pennsylvania, New Jersey, North Carolina and the District of Columbia, under a continuing contract with Concrete Pipe & Products Co., Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 142894 (Sub-No. 1) (Correction), filed February 2, 1977, published in the FEDERAL REGISTER issue of March 24, 1977, and republished as corrected this issue. Applicant: Charles Miller, doing business as MILLER DELIVERY SERVICE, 134 Shinkle Street, Findlay, Ohio 45840. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Automobile and truck panels*, from Findlay, Ohio, to Detroit, Detroit Metropolitan Airport, Warren, and Willow Run Airport, Mich., under contract with Findlay Industries, Inc., and Superior Trim Company, restricted to the transportation of shipments weighing 2,000 pounds or less.

NOTE.—The purpose of this correction is to indicate the elimination of restriction (1) and (3), from the commodity description. If a hearing is deemed necessary, the applicant requests it be held at Columbus, Ohio.

No. MC 143203 (Sub-No. 1), filed May 10, 1977. Applicant: UNITED TRUCKING COMPANY, a corporation, P.O. Box 1158, Miles City, Montana 59301. Applicant's representative: Joe Gerbase, 100 Transwestern Building, Billings, Montana 59101. NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at either Hartford or New Haven, Conn.

WATER CARRIER APPLICATION

No. W 104 (Sub-No. 30), 194 filed May 11, 1977. Applicant Union Mechling Corporation, One Oliver Plaza, Pittsburgh, Pa. 15222. Applicant's representative: S. S. Eisen, 370 Lexington Avenue, New York City, N.Y. 10017. Authority sought to operate as a *common carrier* by water: (I) By self-propelled vessels in the transportation of articles exceeding 19 feet in height, or 12 feet in width, or 90 feet in length, or 100 net tons in weight, component parts thereof, and related equipment in straight loads or mixed loads with materials, supplies and equipment used or useful in the construction, installation and maintenance thereof: (a) Between ports and points on the Pacific Coast and tributary waterways on the one hand, and on the other, ports and points on the Gulf of Mexico Coast and tributary waterways; (b) Between ports and points on the Atlantic Coast and tributary waterways, on the one hand, and on the other, ports and points on the Gulf of Mexico Coast and tributary waterways; (c) Between ports and points in (a) and (b) above, on the one hand, and on the other, ports and points presently served by non-self-propelled vessels with the use of separate towing vessels in Sixteenth Amended Certificate issued in Docket No. W-104; (d) Between ports and points on the Pacific Coast and tributary waterways on the one hand, and on the other, ports and points on the Atlantic Coast and tributary waterways.

NOTE.—The intention is to provide service by self-propelled vessel between points applicant now is authorized to provide transportation of the commodities herein by non self-propelled vessels with the use of separate towing vessels. The states involved in No. W-104 referred to in (c) above are Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Minnesota, Mississippi, Missouri, Nebraska, Ohio, Oklahoma, Pennsylvania, Tennessee, Texas, West Virginia, and Wisconsin. Common control may be involved. If a hearing is deemed necessary, the applicant requests that it be held at New Orleans, La.

PASSENGER APPLICATIONS

No. MC 1515 (Sub-No. 226), filed May 2, 1977. Applicant: GREYHOUND LINES, INC., Greyhound Tower, Phoenix, Arizona 85077. Applicant's representative: W. L. McCracken (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle over regular routes, transporting: Passengers and their baggage and express and newspapers, in the same vehicle with passengers, (1) between Chicago, Illinois and the junction of Interstate Highway 80 and U.S. Highway 66 (Interstate Highway 55) southwest of Joliet, Illinois, serving all intermediate points: From Chicago over Interstate Highway 94 to junction Interstate Highway 57, thence over Interstate Highway 57 to junction Interstate Highway 80, thence over Interstate Highway 80 to junction U.S. Highway 66 (Interstate Highway 55) and return over the same route, (2) between Joliet, Illinois and the junction of Interstate Highway 80 and

U.S. Highway 30 serving all intermediate points: From Joliet over U.S. Highway 30 to junction Interstate Highway 80 and return over the same route, (3) between the junction of unnumbered highway and U.S. Highway 66 (portions of which are also designated Interstate Highway 55) at a point approximately one mile north of Mount Olive, Illinois and the junction of U.S. Highway 66 (Interstate Highway 55) and Interstate Highway 70 northeast of Collinsville, Illinois, serving all intermediate points: From the junction of unnumbered highway and U.S. Highway 66 over U.S. Highway 66 to junction Interstate Highway 55, thence over U.S. Highway 66 and Interstate Highway 55 to junction Interstate Highway 70 and return over the same route.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant request it be held at Chicago, Illinois.

No. MC 41638 (Sub-No. 7), filed May 4, 1977. Applicant: DELUXE TRAILWAYS, INC., 1718 South Clark St., Chicago, Ill. 60616. Applicant's representative: C. Zimmerman, 413 Brown Bldg., Wichita, Kans. 67202. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage, and express and newspapers* in the same vehicle with passengers, between Decatur, Ill., and Fullerton, Ill.: From Decatur over U.S. Highway 51 to Clinton, Ill., thence over Illinois Highway 54 to Fullerton, Ill. and return over the same route, serving all intermediate points.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Decatur or Springfield, Ill.

No. MC 99581 (Sub-No. 4), filed May 5, 1977. Applicant: HORACE SIMMONS, doing business as VACA VALLEY BUS LINES, 321 State Street, Fairfield, California 94533. Applicant's representative: Daniel W. Baker, 100 Pine Street, San Francisco, California 94111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *passengers and baggage of passengers* in the same vehicle with passengers, in special and charter operations, from and to the following points or areas: Beginning and ending at points in Contra Costa County and those points in Alameda County on, north and east of the following highways including all points within 3 miles of said highways: Interstate Highway 680 between the Alameda-Contra Costa County Boundary Line and junction with State Highway 84; State Highway 84, between junction with Interstate Highway 680 and junction with Tesla Road; Tesla Road, between junction with State Highway 84 and the Alameda-San Joaquin County Boundary Line; and Dublin and Livermore, California; and extending to points in the United States, including Alaska (except Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 143252, filed May 5, 1977. Applicant: JOHN WILLIAM JIGGETTS, doing business as JIGGETTS CHARTERED BUS SERVICE, Post Office Box 18, Palmer Springs, Virginia 23957. Applicant's representative: Thomas B. Throckmorton, 1400 Ross Building, Richmond, Virginia 23219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, in the transportation of *passengers and their baggage*, in the same vehicle with passengers, in special and round trip operations, beginning and ending at Mecklenburg, Nottoway, Greenville and Lunenburg Counties, Virginia, and Vance and Warren Counties, N.C., and extending to points in Virginia, North Carolina, South Carolina, Georgia, Florida, Maryland, Delaware, New Jersey, New York, Pennsylvania, Connecticut, Rhode Island, Massachusetts and the District of Columbia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Richmond, Virginia.

FINANCE APPLICATIONS

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, of rail carriers or motor carriers pursuant to Sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and two copies of protests against the granting of the requested authority must be filed with the Commission on or before July 18, 1977. Such protest shall comply with Special Rules 240 (c) or 240(d) of the Commission's General Rules of Practice (49 CFR 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant, if no representative is named.

No. MC-F-12881 (Amendment) (CASSENS TRANSPORT COMPANY—Purchase—Square Deal Cartage Company, Gate City Transport, et al.) published in the July 29, 1976 issue of the FEDERAL REGISTER. By notice served May 27, 1977, the Commission upheld the decision made in the initial decision by the Administrative Law Judge. The interstate operating rights initially sought to be purchased are held under certificates of public convenience and necessity issued to Square Deal in MC 2765 and various subs thereunder, and to Gate City in MC 61623, and various subs thereunder. After notice of the application to acquire the foregoing authority was published in the FEDERAL REGISTER, the Commission on December 10, 1976 issued an additional certificate of public convenience and necessity to Gate City in MC 61623 (Sub-No. 16) which is as follows: Motor homes, in secondary movements, in truckaway service, when moving in mixed loads with automobiles and trucks (otherwise authorized), except Chrysler Corporation products, as a common carrier over irregular routes between points in Ohio. This certificate is issued pursuant to an application filed after November 23, 1973, and in accordance with 49 CFR 1065 may not be tacked or joined with carrier's other irregular route authority unless specifically authorized herein. General restrictions: The authority granted herein (a) to the extent that any one portion duplicates any other portion or is duplicative of any authority heretofore granted to or now held by the carrier, shall not be severed from common control by sale, lease, transfer of stock, or otherwise, and (b) may not be tacked or joined with the carrier's other irregular route authority.

No. MC-F-13229. Authority sought for control by THE FIRST GRAY LINE WEST CORPORATION, 3550 Wilshire Boulevard, Suite 1128, Los Angeles, CA 90010, of The Gray Line Tours Company, 1207 West Third Street, and for acquisition by The First Gray Line Corporation, who in turn is controlled by Mr. Henry F. Burroughs, Mr. James R. Burroughs and Ms. Mary Anne Doms, as Trustee for the estates of Mr. Henry F. Burroughs and Mrs. Henry F. Burroughs of 3550 Wilshire Blvd., Suite 1128, Los Angeles, CA 90010. Applicants' attorney: Warren N. Grossman, 606 South Olive, Suite 825, Los Angeles, CA 90014. Operating rights sought to be controlled: *Pending: Passengers and their baggage*, in special operations, in round-trip sightting and pleasure tours, as a *common carrier* over irregular routes beginning and ending at points in Los Angeles and Orange Counties, Calif., and extending to the port of entry (located in California) along the United States-Mexico International Boundary line at or near the southernmost terminus of Interstate Highway 5; visiting such points of sightseeing interest en route as San Juan Capistrano, San Clemente, LaJolla and Coronado, Calif. Applicant is a no record carrier, however, it is affiliated with Gray Line, Inc., (MC 453), which is authorized to operate as a common carrier in District of Columbia, Maryland, Virginia, West Virginia, Delaware, New Jersey, and Pennsylvania; and Gray Line Tours of Southern Nevada (MC-127564), which is authorized to operate in Nevada, Arizona, and California. Application has not been filed for temporary authority under section 210a(b).

NOTE.—Applicant presently owns 100 percent of the issued and outstanding stock of The Gray Line Tours Company. By Initial Decision No. MC 141460 (Sub-No. 1), dated February 16, 1977, the latter, presently a noncarrier was issued a Certificate of Public Convenience and Necessity, subject to the filing of the instant application. Said Initial Decision was subsequently modified by "Stay Decision and Order," dated March 23, 1977.

No. MC-F-13230. Authority sought for purchase by NAVAJO FREIGHT LINES, INC., 1205 South Platte River Drive, Denver, CO, 80223, of a portion of the operating rights of Tischler Express Inc., 8408 Elliston Drive, Philadelphia, PA, 19118, and for acquisition by United Transportation Investment Company, David H. Ratner, 310 South Michigan

Avenue, Chicago, IL, 60604, of control of such rights through the purchase. Applicants' attorneys: Leonard R. Kofkin, 39 South LaSalle Street, Chicago, IL, 60603, and Ira Megdal, Hyland, Davis and Reberkenny, Box 459, Cherry Hill, N.J., 08002. Operating rights sought to be transferred: Glassware, as a common carrier over irregular routes from Philadelphia, Pa. to Wilmington, Dela., serving no intermediate points; from Philadelphia over U.S. Highway 13 to Wilmington, and return over the same route, with no transportation for compensation except as otherwise authorized; from Philadelphia over U.S. Highway 1 to junction U.S. Highway 202, thence over U.S. Highway 202 to Wilmington, and return over the same route with no transportation for compensation except as otherwise authorized, glassware, chinaware, and advertising matter, between Philadelphia, Pa., on the one hand, and, on the other, points in New Jersey. Vendee is authorized to operate as a common carrier in Illinois, Indiana, Iowa, Kansas, Colorado, Oklahoma, New Mexico, Arizona, California, Wyoming, Utah, Nebraska, Missouri, Texas, Nevada, Louisiana Virginia, Maryland, Arkansas, Florida, New York, Tennessee, Kentucky, Ohio, Michigan, Washington, Idaho, Oregon, Montana, New Jersey, Deleaware and Pennsylvania. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13231. Authority sought for purchase by ELFRINK TRUCK LINES, INC., P.O. Box 92, Advance, MO 63730, of a portion of the operating rights and property of RIGHTER TRUCKING CO., INC., 1238 Meadowbrook, Cape Girardeau, MO 63701, and for acquisition by EDWARD ELFRINK, 508 Berchman, Jackson, MO 63755, Edward Vandeven, Bloomfield, MO 63825, and Theodore Elfrink, 6804 Fyler, St. Louis, MO 63139, of control of such rights through the purchase. Applicant's attorney: Herman Huber, 101 E. High Street, Jefferson City, MO 65101. Operating rights sought to be transferred: *General commodities*, with exceptions as a *common carrier over regular* routes between St. Louis, Mo., and Cape Girardeau, Mo., service is authorized to and from intermediate points except those between East St. Louis and Cape Girardeau; and to and from the off-route points of Tamms and National Stockyards, Ill.; between junction Illinois Highways 3 and 146, and junction Illinois Highway 3 and U.S. Highway 51, service is not authorized to or from intermediate points, between Mound City, Ill., and Sikoston, Mo., service is authorized to and from all intermediate points; General commodities with exceptions as a common carrier over irregular routes between points and places in Mississippi County, Mo., on the one hand, and, on the other, points in which service is authorized in connection with the regular routes described above. General commodities, except those of unusual value, and except dangerous explosives, household goods as defined in Practices of Motor Common Carriers of Household Goods, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, over an alternate regular route, for operating convenience only, in connection with carrier's presently authorized regular route operations, between Chester, Ill., and Sikeston, Mo., service is not authorized to or from intermediate points, but service is authorized at Chester, Ill., for the purpose of joinder only; general commodities, with exceptions as a common carrier over regular routes serving the plant site of the West Virginia Pulp and Paper Company near Wickliffe, Ky., as an off-route point in connection with, carrier's authorized regular-route operations; ground silica, in bags, as a common carrier over irregular routes from Tamms, Ill., to points in Florida, with no transportation for compensation on return except as otherwise authorized. Vendee is authorized to operate as a common carrier in Missouri, Illinois and Kentucky. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-13237. Authority sought for merger by MIDWEST EMERY FREIGHT SYSTEM, INC., 7100 West Center Road, Omaha, NE 68106, of the operating rights and properties of LASKAS MOTOR LINES, INC., P.O. Box 2828, South Bend, IN 46680, and for acquisition by RENTAR INDUSTRIES, INC., 7005 South Pulaski Road, Chicago, IL 60629, of control of such rights through the merger. Applicants' attorney: Arnold Burke, Burke, Kerwin & Towle, LaSalle Plaza, 180 N. LaSalle Street, Chicago, IL 60601. Operating rights sought to be merged: *General commodities*, with exceptions, as a *common carrier*, over regular routes, between Hartford, Conn., and Perth Amboy, N.J., Between Hartford, Conn., and Waterbury, Conn., between Derby, Conn., and New Haven, Conn., between Naugatuck, Conn., and Stratford, Conn., between Hartford, Conn., and Boston, Mass., between Manchester, Conn., and Boston, Mass., with restrictions, between Springfield, Mass., and Meriden, Conn., between Northampton, Mass., and East Hartford, Conn., serving all intermediate points; and the off-route points of Chicopee, Easthampton, Greenfield, Indian Orchard, Ludlow, North Adams, Palmer, Pittsfield, Three Rivers and Turners Falls, Mass.; *General commodities*, with exceptions, over irregular routes, between points and places on the above-designated regular routes, including intermediate and off-route points, on the one hand, and, on the other, Bethel, Danbury, Danielson, Fitchville, Hanover, Jewett City, Mystic, Manchester, Norwich, New London, Sandy Hook, Southbury, Torrington, Taftville, Wauregan, Willimantic, Wilton and Winsted, Conn., Mineola, N.Y., and Bound Brook, Clifton, Carlstadt, Dunellen, Englewood, Guttenberg, Garfield, Hawthorne, Lodi, Maplewood, Montclair, Morristown, New Brunswick, Nutley, Passaic, Paterson, Plainfield, Ridgewood, Union City and West New York, N.J., from Hartford, Conn., to points in Massachusetts not authorized as intermediate or off-route points in connection with regular-route operations over the first three routes above. Vendee is authorized to operate as a common carrier in all the States in the United States including District of Columbia but excluding Alaska and Hawaii. Application has not been filed for temporary authority under section 210a(b).

NOTE.—MIDWEST EMERY FREIGHT SYSTEM, INC., was granted control of LASKAS MOTOR LINES, INC., in MC-F-11193, served October 30, 1972.

No. MC-F-13239. Authority sought for purchase by B & L TRUCK LINES, INC. (non-carrier), wholly owned by BRAZOS, INC. which is controlled by LOYD LANOTTE, BILL BARNETT AND NICOLAS L LANOTTE, 339 East 24th Street, Lubbock, TX., 79404, of the operating rights and property W. D. SMITH TRUCK LINE, INC., Highway 71 North, De Queen, Ark., 71832, and for acquisition by LOYD LANOTTE and NICOLAS LANOTTE, 339 34th St., Lubbock, TX, 79404, and BILL BARNETT, Drawer F, Levelland, TX., 79336, of control of such rights through the purchase. Applicants' attorney: Mr. John C. Sims, 1607 Broadway, P.O. Box 2976, Lubbock, TX., 79408. Operating rights sought to be transferred: Lumber and Lumber products, and windows and door complete with glass panes, pressure-treated forest products, asphalt or composition lumber, paper and waste paper, tape, joint cement and joint systems used in the manufacture and installation of gypsum board, charcoal briquettes, composition or asphalt lumber, particleboard, plywood, paper, paper products, and linerboard, pressure-treated lumber, posts, poles and piling, milk carton, insulating materials, with certain specified exceptions, and numerous other specified commodities, as a common carrer over irregular routes, from, to, and between specified points in all the States in the United States (except Alaska and Hawaii), with certain restrictions, as more specifically described in Docket No. MC-103498 and Subs numbers thereunder. This notice does not purport to be a complete description of all of the operating rights of the carrier involved. The foregoing summary is believed to be sufficient for purposes of public notice regarding the nature and extent of this carrier's operating rights, without stating, in full, the entirety, thereof. B & L TRUCK LINES, INC., holds no authority from this Commission. However, it is wholly owned by BRAZOS, INC. which in turn owns 100 percent of BRAZOS TRANSPORT, INC. BRAZOS TRANSPORT, INC. is authorized to operate as a common carrier in Texas, Arkansas, Louisiana, New Mexico, Oklahoma, Kansas, Colorado, Missouri, Arizona Illinois, Iowa, Mississippi, Nebraska, Tennessee, Utah, Montana, North Dakota, South Dakota, Wisconsin, Wyoming, Minnesota, Indiana, Kentucky, and Michigan. Application has been filed for temporary authority under section 210a(b).

No. MC–F–13241. Authority sought for purchase by SPRINGFIELD EXPRESS, INC., U.S. Highway 41, North, Springfield, TN., 37172, of a portion of the operating rights of OWENSBORO EXPRESS, INC., Alsop Lane, Owensboro, KY. 42311, and for acquisition by DAVID P. FISHER, U.S. Highway 41, North, such rights through the purchase. Applicants' Attorney: Walter Harwood, P.O. Box 15214, Nashville, TN., 37215. Operating rights sought to be transferred: General commodities (except classes A and B explosives, household goods as defined by the Commission, commodities requiring special equipment, and commodities in bulk, in tank vehicles), as a common carrier over regular routes between Owensboro, Ky., and Nashville, Tenn., serving no intermediate points; From Owensboro over U.S. Highway 431 to Springfield, Tenn., thence over U.S. Highway 41 to Nashville, and return over the same route. Between Owensboro, Ky., and Nashville, Tenn., as an alternate route for operating convenience only in connection with the route described above, serving no intermediate points: From Ownesboro over U.S. Highway 231 to junction Interstate Highway 65 near Bowling Green, Ky., and thence over interstate Highway 65 to Nashville, and return over the same route, with restrictions. Vendee is authorized to operate as a common carrier in Indiana, Kentucky, and Tennessee. Application has been filed for temporary authority under section 210a(b).

No. MC–F–13244. Authority sought for purchase by GAIL R. KALDENBERG, ABC CARTAGE, 129 SE 18th Street, Des Moines, IA., 50318, of a portion of the operating rights of RINGSBY TRUCK LINES, INC., 3980 Quebec Street, Denver, CO., 80207, and for acquisition by GAIL R. KALDENBERG, 129 SE 18th St., Des Moines, IA. 50318, of control of such rights through the purchase. Applicants' attorney: Thomas E. Leahy, Jr., 1980 Financial Center, Des Moines, IA. 50309. Operating rights sought to be transferred: General commodities, except those of unusual value, Class A and B explosives, commodities in bulk, and those requiring special equipment, as a common carrier over irregular routes from Des Moines, Iowa to points in Iowa within 100 miles of Des Moines, with no transportation for compensation or return except as otherwise authorized. Vendee is authorized to operate as a common carrier in Iowa, Colorado, California, Wyoming, Nebraska, Illinois, Nevada, Utah, Missouri, Indiana, Ohio, Michigan, Pennsylvania, West Virginia, Massachusetts, Vermont, New Hampshire, Maine, the District of Columbia, Kansas, New Mexico, Minnesota, Wisconsin, Arizona, Idaho, Montana, Oregon, Washington, North Dakota, and South Dakota. Application has been filed for temporary authority under section 210a(b).

No. MC–F–13246. Authority sought for purchase by ANDREWS & PIERCE, INC., 1431 Bedford Street, North Abington, MA., 02351 of the operating rights of BLACKHAWK MOTOR LINES, INC., P.O. Box 76, Charlestown (Boston), MA., 02129, and for by PIERCE ENTERPRISES, INC., also of Abington, MA., 02351, of control of such rights through the purchase. Applicants' attorneys: David M. Marshall, 135 State St., Springfield, MA., 01103, and James E. Mahoney, 84 State St., Boston, MA., 02129. Operating rights sought to be transferred: Under a certificate of registration in Docket No. MC–121196 (Sub-No. 1), covering the transportation of general commodities, as a common carrier in interstate commerce, within the State of Massachusetts. Vendee is authorized to operate as a common carrier in Massachusetts and Rhode Island. Application has been filed for temporary authority under section 210a(b).

NOTE.—MC 63871 (Sub-No. 5), is a directly related matter.

MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Deviation Rules—Motor Carrier of Property (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules at any time, but will not operate to stay commencement of the proposed operations unless filed on or before July 18, 1977.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its request.

MOTOR CARRIERS OF PROPERTY

No. MC 1515 (Deviation No. 729), GREYHOUND LINES, INC., Greyhound Tower, Phoenix, Ariz. 85077, filed June 2, 1977. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over a deviation route as follows: From junction Alternate U.S. Highway 41 and Interstate Highway 24 north of Ft. Campbell, Ky., over Interstate Highway 24 to Nashville, Tenn., with the following access routes: (1) From Clarksville, Tenn., over Tennessee Highway 76 to junction Interstate Highway 24, and (2) From Pleasant View, Tenn., over Tennessee Highway 49 to junction Interstate Highway 24 and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property over a pertinent service route as follows: From junction Alternate U.S. Highway 41 and Interstate Highway 24 north of Ft. Campbell, Ky., over Alternate U.S. Highway 41 to Nashville, Tenn., and return over the same route.

No. MC 2202 (Deviation No. 158), ROADWAY EXPRESS, INC., P.O. Box 471, 1077 Gorge Blvd., Akron, Ohio 44309, filed June 6, 1977. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Bonham, Tex., over Texas Highway 78 to the Texas-Oklahoma State line, thence over Oklahoma Highway 78 to Durant, Okla., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Bonham, Tex., over U.S. Highway 82 to junction U.S. Highway 69, thence over U.S. Highway 69 to Durant, Okla., and return over the same route.

No. MC 2202 (Deviation No. 159), ROADWAY EXPRESS, INC., P.O. Box 471, 1077 Gorge Blvd., Akron, Ohio 44309, filed June 6, 1977. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Springfield, Mo., over Missouri Highway 13 to junction U.S. Highway 54, thence over U.S. Highway 54 to Iola, Kans., and return over the same route for operating convenience only. The Notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Springfield, Mo., over U.S. Highway 66 to junction U.S. Highway 60, thence over U.S. Highway 60 to junction U.S. Highway 169, thence over U.S. Highway 169 to Iola, Kans., and return over the same route.

No. MC 29555 (Deviation No. 18), BRIGGS TRANSPORTATION CO., North 400, Griggs-Midway Bldg., St. Paul, Minn. 55104, filed June 2, 1977. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Minneapolis/St. Paul, Minn., over Interstate Highway 35 to junction Interstate Highway 80 near Des Moines, Iowa, thence over Interstate Highway 80 to junction U.S. Highway 59, thence south over U.S. Highway 59 to junction Interstate Highway 29 near Craig, Mo., thence over Interstate Highway 29 to Kansas City, Mo., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Minneapolis/St. Paul, Minn., over U.S. Highway 65 to Mason City, Iowa, thence over U.S. Highway 18 to Charles City, Iowa, thence over U.S. Highway 218 to Waterloo, Iowa, thence over U.S. Highway 63 to junction U.S. Highway 6, thence over U.S. Highway 6 to junction U.S. Highway 275 in Council Bluffs, Iowa, thence over U.S. Highway 275 to junction Iowa Highway 2, thence over Iowa Highway 2 to junction U.S. Highway 71, thence over U.S. Highway 71 to Kansas City, Mo., and return over the same route.

MOTOR CARRIER INTRASTATE APPLICATION(S)

The following application(s) for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act. These applications are governed by Special Rule 245 of the Commission's *General Rules of Practice* (49 CFR 1100.245), which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

Alaska Docket No. 77–181–MF/O, filed May 16, 1977. Applicant: Roy D. Earnest, doing business as DAVE EARNEST TRUCKING, Box 60, Craig, Alaska 99921. Applicant's representative: George L. Gucker, 320 Bawden St. No. 318, Ketchikan, Alaska 99901. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Common carrier permit authority in intrastate for truck hauling of *General commodities* (except those of unusual value and excluding explosives), between, from and to all points or places on Prince of Wales Island, Alaska, over irregular routes or regular routes on all road areas of Prince of Wales Island, Alaska, non-scheduled. Also, for the same commodities to pick up and send said interstate commodities arriving or going by boat, ferry or plane from or to Seattle or other states, or by boat, ferry or air from or to Ketchikan or other Alaska cities or other interstate carriers to or from Prince of Wales Island to be delivered to the recipient or sent by shipper. Intrastate, interstate or foreign commerce authority sought. Hearing: Date, time and place not yet fixed. Requests for procedural information should be addressed to the Alaska Public Utilities Commission, 1000 MacKay Building, 338 Denali Street, Anchorage, Alaska 99501 and should not be directed to the Interstate Commerce Commission.

Maine Docket No. X–71 (Correction), filed May 9, 1977, published in the FEDERAL REGISTER issue of June 9, 1977, and republished as corrected this issue. Applicant: DUGAS EXPRESS CO., 101 Knox Street, Lewiston, Maine 04240. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Applicant seeks to amend Maine Common Carrier Certificate No. 68 by adding authority to extend its present service to include service (1) Between Portland-South Portland and Burnham, passing through and serving Lewiston, Canaan, Pittsfield, Palmyra, Newport, East Newport, Detroit, Etna, Carmel, Herman, Bangor, Orono, Veazie, Brewer, Holden, South Brewer, Hampden, Plymouth, with pick up and delivery service between all points in both directions. (2) Between Portland-South Portland and Moose River, passing through and serving Lewiston, Norridgewock, Mercer, Skowhegan, Madison, Anson, North Anson, Embden, Solon, Bingham, Moscow, Caratunk, West Forks, Lake Parlin, Jackman, with pick up and delivery service between all points in both directions. (3) Between Portland-South Portland and Belgrade, passing through and serving Lewiston, Riverside, Vassalboro, East Vassalboro, North Vassalboro, China, Winslow, Waterville, Benton, Fairfield, Clinton, Hinckley, Shawmut, Oakland, North Sidney, Sidney, Larone, Smithfield, Rome, North Belgrade, with pick up and delivery service between all points in both directions. (4) Between Portland-South Portland and Fayette, passing through and serving Lewiston, Sabattus, Litchfield, Leeds Junction, Wales, Monmouth, Litchfield Corner, West Gardiner, Gardiner, South Gardiner, Farmingdale, Pittston, Randolph, Chelsea, Togus, Hallowell, Augusta, Manchester, Winthrop, Greene, Leeds, North Leeds, Wayne, North Wayne, Readfield, Kents Hill, with pick up and delivery service betwen all points in both directions.

(5) Between Portland-South Portland and Vienna, passing through and serving Lewiston, Turner, Turner Center, North Turner, Livermore, East Livermore, Hartford, Canton, Gibertville, East Peru, North Livermore, Livermore Falls, Chisholm, East Dixfield, North Jay, Dryden, Jay, Wilton, East Wilton, Farmington Falls, Farmington, North Chesterville, New Sharon, Mount Vernon, Belgrade Lakes, with pick up and delivery service between all points in both directions; and (6) Between Portland-South Portland and Peru, passing through and serving Lewiston, Mechanic Falls, Minot, Welchville, West Minot, Hebron, South Paris, Paris, Norway, Buckfield, East Sumner, Sumner, West Sumner, West Woodstock, West Paris, Bryant Pond, North Woodstock, Locke Mills, Bethel, Milton, Abbotts Mill, Rumford, Mexico, Dixfield, West Peru, with pick up and delivery service between all points in both directions.

NOTE.—The purpose of this correction is to indicate the correct authority sought. Intrastate, interstate and foreign commerce authority sought. Hearing: Date, time and place not yet fixed. Requests for procedural information should be addressed to the Main Public Utilities Commission, State House Annex, Capitol Shopping Center, Augusta, Maine 04330 and should not be directed to the Interstate Commerce Commission.

No. MC 4610 (Sub-No. 8) (Partial Correction), filed February 24, 1977, published in the FEDERAL REGISTER issue of March 24, 1977, and republished as corrected this issue. Applicant: HUMBOLDT EXPRESS, INC., P.O. Box 11080, Nashville, Tenn. 37211. Applicant's representative: Walter Harwood, P.O. Box 15214, Nashville, Tenn. 37215. NOTE.—The purpose of this partial correction is to indicate the correct territory sought in paragraph (3) to read: Between the junction of Interstate Highway 40 and Interstate Highway 81 (in Jefferson County) and Newport, Tenn.: From junction Interstate Highway 40 and Interstate Highway 81 to junction with U.S. Highway 411, thence via U.S. Highway 411 to Newport, Tenn., and return over the same route, serving no intermediate points, and serving the junction of Interstate Highway 40 and Interstate Highway 81 for joinder only, the rest remains the same. Hearing: Date, time and place was scheduled for May 23, 1977, at 9 a.m. in the Conference Room, C&C Bank, White Pine, Tenn. Requests for procedural information should be addressed to the Tennessee Public Service Commission, Room C1–111 Cordell Hull Building, Nashville, Tenn. 37129 and should not be directed to the Interstate Commerce Commission.

By the Commission.

H. G. HOMME, JR.,
Acting Secretary.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

■

AIRPORT SECURITY

Revision of Regulations

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 107]

[Docket No. 16245; Notice No. 77-8]

AIRPORT SECURITY

Proposed Revision of Regulations

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rule making. Withdrawal of Notices 73-30 and 76-13.

SUMMARY: This notice of proposed rule making (NPRM) proposes to revise those Federal Aviation Regulations which are designed to ensure the security of certain airports serving scheduled air carriers. The experience of airport operators and the FAA has indicated that these regulations are in need of clarification. In addition, it is necessary to add certain requirements, including uniform standards for law enforcement personnel, which the Congress has directed the FAA to adopt.

DATES: Comments must be received on or before: August 15, 1977.

ADDRESS: Send comments in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-24), Docket No. 16245, 800 Independence Avenue, S.W., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Milford T. Conarroe, Ground Operations Security Division (ACS-300), Civil Aviation Security Service, Federal Aviation Administration, 800 Independence Avenue, S.W., Washington, D.C. 20591; telephone (202) 426-8768.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, (AGC-24), 800 Independence Avenue, S.W., Washington, D.C. 20591. All communications received on or before August 15, 1977, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each public contact with FAA personnel concerned with this rule making will be filed in the public regulatory docket.

Any person may obtain a copy of this notice of proposed rule making (NPRM) by submitting a request to:

Federal Aviation Administration, Office of Public Affairs, Attn: Public Information Center (APA-430), 800 Independence Avenue, S.W., Washington, D.C. 20591, Telephone: (202) 426-8058.

Each communication must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

Part 107 (Airport Security) of the Federal Aviation Regulations (14 CFR Part 107) was adopted on March 16, 1972 (37 FR 5689; March 18, 1972). It was adopted to provide aviation security standards for operators of airports serving certain scheduled air carriers that would meet the growing need for aviation security measures to protect persons and property.

On December 5, 1972, Part 107 was amended by Amendment 107-1 (37 FR 25934; December 6, 1972) to require that operators of airports covered by Part 107 provide for the presence of armed law enforcement personnel prior to and throughout the screening of passengers before boarding. The amendment was issued in response to the direction of the President that the Civil Aviation Security Program be strengthened to meet the escalating threats of hijacking, extortion, sabotage, and terrorism against U.S. civil air commerce.

The purpose of this revision is to update and clarify Part 107, and to provide more effective protection of persons and property in air transportation or intrastate air transportation against acts of criminal violence and aircraft piracy. In addition, it is proposed to add certain new provisions to Part 107 which are needed to implement specific requirements of section 316 of the Federal Aviation Act of 1958 (49 U.S.C. 1357).

The applicability of Part 107 is presently described in § 107.1(a) as "aviation security rules for the operators of airports regularly serving scheduled air carriers holding certificates of public convenience and necessity issued by the Civil Aeronautics Board and commercial operators engaging in common carriage covered by § 121.7, of this chapter, operating large aircraft other than helicopters." The FAA believes that this statement of applicability should be revised to make it clear that Part 107 is intended to apply to airports regularly serving air carriers and commercial operators required by § 121.538 or § 129.25 of the chapter to have their own security programs. This would not be a substantive change in the applicability of the part.

In addition, it is proposed to expand the applicability of Part 107 to cover each person who is on an airport subject to this part. This expansion is necessary because of a new provision proposed herein regarding the unlawful carriage of certain weapons that would apply directly to these persons.

Experience has indicated that the definitions now contained in § 107.1 are in need of clarification and modification. Without expanding the meaning of the term "airport operator" as it is presently used in Part 107, it is proposed to define "airport operator" as a person who operates an airport regularly serving a certificate holder or permit holder to whom § 121.538 or § 129.25 applies. It should be noted that "person", as defined in § 1.1, is not limited to an individual but includes a firm, partnership, corporation, company, association, or governmental entity, as well as a trustee, receiver, assignee, or similar representative of any of them.

"Air operations area" is presently defined as "any area of the airport used or intended to be used for landing, takeoff, or surface maneuvering of aircraft." This definition would be revised by substituting the phrase "designed and used" for the phrase "used or intended to be used." This would make it clear that abandoned runways and taxiways are not part of an air operations area since they are not, in fact, used for their intended use. In addition, "airplane" would be substituted for "aircraft" in the definition to specifically exclude areas designed and used exclusively for helicopter operations.

The definition of "law enforcement officer" would be revised to limit it to the essential elements of his authority and to clarify his power of arrest. Under the proposed definition, a law enforcement officer would have to be "[A]uthorized to arrest for the violation, either in or out of his presence, of any criminal law of the State and local jurisdictions in which the airport where he is assigned to duty is located * * *." In the case of an airport operated by the Federal government including airports operated by the military, or other Federal agencies, such as Washington National Airport and Dulles International Airport, the criminal law of the local jurisdiction would include Federal criminal law. Certain operational requirements now in the definition would be transferred to the proposed new § 107.17.

A definition would also be added to § 107.1 to indicate that "the Regional Director" referred to in Part 107 is the Director of the FAA region in which the airport is located.

It is proposed to delete as unnecessary § 107.1(d) which deals with military installations having joint-use agreements with civil agencies. The present provisions are not sufficiently broad to cover all of the airports jointly used by government and civil agencies. Moreover, experience has indicated that identification of air operations areas on these airports is generally not a problem.

Section 107.3 presently contains the security program and related requirements for airport operators. It is proposed to revise that section to provide a more specific statement of the material that must be included in the airport security program which each airport operator must adopt and carry out. The requirement in § 107.3 for a master security plan would be deleted since these plans were originally required only to provide for temporary security measures to protect air operations areas while comprehensive security programs were

being developed and to provide a timetable for their development. Moreover, the elimination of the requirement for these plans would avoid some confusion that has arisen between them and airport master plans which are the subject of Part 152 (Airport Aid Program Contents; 14 CFR Part 152).

Revised § 107.3(a)(1) would set forth the basic standard which each airport security program must meet; namely, that it must provide for the safety of persons and property traveling in air transportation or intrastate air transportation against acts of criminal violence and aircraft piracy. This standard is mandated by section 316 of the Act which requires the Federal Aviation Administrator to prescribe reasonable rules and regulations requiring practices, methods, and procedures to accomplish this end.

Paragraph (b) of revised § 107.3 would provide a more comprehensive list of those items that must be included in each airport security program. However, it must be recognized that airports frequently have unique security problems and, for this reason, an exhaustive statement of the necessary provisions of each security program cannot be made.

Under proposed § 107.3(b), in addition to descriptions of the procedures, facilities, and equipment needed to comply with the various requirements of revised Part 107, the airport operator would be allowed to include in the security program a description of alternate procedures to be used during those emergencies and other unusual conditions specified by the airport operator in his security program, including those conditions for which the airport operator must provide an appropriate response in the emergency plan required by § 139.55 (14 CFR 139.55).

A listing in the master security plan of the items of security equipment necessary to carry out that plan was proposed by Notice 73-30, issued on December 12, 1973 (38 FR 35016; December 21, 1973), for the purpose of implementing the Airport Development Acceleration Act of 1973. The notice stated that the proposed required listing would not represent a complete or exclusive listing of security equipment, and acknowledged that security equipment requirements may differ between airports, requiring that some flexibility be provided.

The FAA believes that the required listing proposed in that notice would not be practical for the security program required by proposed § 107.3, since some security programs approved under revised Part 107 may contain security equipment which exceeds that required for the safety and security of persons and property on the airport. Any equipment in excess of the minimum required for safety and security purposes is not required security equipment within the meaning of Part 107. Therefore, while an airport operator may weigh aesthetic and other considerations when purchasing appropriate security equipment, the cost of that equipment, to the extent that it exceeds the reasonable cost of the minimum equipment required, will not be eligible for funding under Part 152. For these reasons, Notice 73-30 is hereby withdrawn.

As is presently required by § 107.3(d), each airport operator would have to maintain at least one complete copy of his approved security program at his principal operations office. The rule would be revised to specify that Civil Aviation Security Inspectors are the FAA personnel to whom the airport operator must make his security program available for inspection upon request. Under proposed § 107.3(d), applications by persons other than those with an operational need-to-know for disclosure of information contained in the airport security program would have to be submitted to the Director, Civil Aviation Security Service.

Sections 107.9 and 107.11 presently prescribe requirements for the identification of persons and ground vehicles to control access to air operations areas. These requirements do not apply to access from a non-air operations area to an air operations area where both areas are adjacent and exclusively occupied or controlled by a certificate holder that is required to have a security program under § 121.538. It is proposed to replace these provisions with a new § 107.13 which would recognize the airport operator's underlying responsibility for the security of all air operations areas.

New § 107.13 would require the airport operator to use appropriate procedures, facilities, and equipment to control access to air operations areas and movement within them. Under new § 107.3(b)(3), he would be required to set out these procedures and describe the facilities and equipment used for this purpose in his security program. The airport operator would not be required to duplicate any of the procedures, facilities, and equipment in the security program of a Part 121 certificate holder occupying or controlling an air operations area or a portion thereof. However, he would not be allowed to ignore security problems that may arise in these areas which have not been or cannot be dealt with by the Part 121 certificate holder.

New § 107.13 would also provide for a flexible identification system that would not require a person to "carry" identification in every case. In this connection, the FAA recognizes that at some small airports recognition of individuals by sight may be the best and most practical system of identification.

The FAA also believes that flexibility should be provided in the airport operator's system of law enforcement support. Public Law 93-366 was enacted two years after the current § 107.4 was effective. It expanded the use of law enforcement officers in the aviation security program, but did not require that the officer be at a fixed station at a screening point. The law requires law enforcement presence and capability at the airport. To effectuate this concept of law enforcement officer presence and capability, the airport operator must provide officers at the airport in a manner adequate to assure the security of persons in air transportation against acts of criminal violence and aircraft piracy.

The passenger screening function remains a focal point of airport security. However, the law enforcement officer could patrol and support, if necessary, other sensitive areas of a terminal, while at all times remaining ready to respond promptly to the screening point should the need arise. Considerations such as the complexity of a terminal, the volume of traffic, and the ever-changing nature of the security threat would affect whether the officer could patrol a terminal and, if so, how promptly a response should occur. No fixed response time is proposed. However, at this time the FAA believes that the response to the screening point should not ordinarily exceed one minute.

Accordingly, proposed new § 107.15 (Law enforcement support) would not make it mandatory that a law enforcement officer be present at the point of, and prior to and throughout, the final passenger screening process prior to boarding, as does current § 107.4. Rather, under proposed new § 107.15, each airport operator would provide law enforcement officers in a number and manner adequate to ensure support of his own security program and that of the passenger screening conducted by Part 121 certificate holders and Part 129 permit holders. Support of the screening systems of Part 129 permit holders would not begin until 90 days after the effective date of the revision of Part 107, unless it is requested sooner by the permit holder. The airport operator's security program would have to contain a description of the law enforcement support necessary to comply with new § 107.15, including the number and duty stations of law enforcement officers and their response times to the screening stations and other locations.

Notice 76-13 was issued on April 23, 1976 (41 FR 17933; April 29, 1976) proposing to require that Part 107 airport operators have a master security plan which ensures that at least one law enforcement officer is present during passenger screening conducted by foreign air carriers under § 129.25 of the Federal Aviation Regulations. However, as already noted, the FAA believes that the requirement that a law enforcement officer be present at the point of, and prior to and throughout, the final passenger screening process prior to boarding may not be appropriate in every instance. For this reason, Notice 76-13 is hereby withdrawn.

It is noted that the prime objections raised by the foreign governments and air carriers who commented on Notice 76-13 were based on economic considerations. They believed that security costs should be absorbed by a government rather than the aviation industry and perceived that under the proposed requirement the airport operator would simply pass the cost of law enforcement support to the foreign air carriers. In

the United States, civil aviation recognizes security costs as a valid and necessary operational expense of the air transportation system and are treated no differently than the costs of fuel, wages or maintenance. The position taken in this Notice is believed to be consistent with this concept. It should be emphasized that the new provision, discussed earlier, for a flexible law enforcement response could appreciably reduce any economic impact previously envisioned by the foreign air carriers.

Each required law enforcement officer used by an airport operator would have to meet the standards of new § 107.17. In addition to being armed, he would have to be readily identifiable by a uniform and he would have to display or carry a badge or other indicia of his authority. This would be a change from the present rule. In addition, each officer would have to have completed a training program that meets the standards of proposed § 107.17(b) and is described in the airport operator's security program.

Section 316(c) of the Act requires that the Administrator prescribe uniform standards with respect to training provided law enforcement personnel whose services are used to enforce air transportation security programs. To comply with this requirement, it is proposed to require that each airport operator's training program meet the training standards for law enforcement officers prescribed by either the State or the local jurisdiction in which the airport is located. The program also would have to meet training standards prescribed by a Federal jurisdiction, if appropriate. In addition, the program would have to include training in the use of firearms and in the responsibilities of a law enforcement officer under the airport operator's security program. Moreover, to comply with a specific directive of section 316(a) of the Act, each officer would have to be trained in the courteous and efficient treatment of persons subject to inspection, detention, search, and other aviation security activities. Finally, to ensure that each training program meets an acceptable level of uniformity, the program would have to include any other subject the Administrator determines is necessary to cover a particular situation.

Section 316(b) of the Act provides that the Administrator may authorize an airport operator to use, on a reimbursable basis, personnel employed by the FAA or other Federal agencies, when the airport operator notifies him that State, local, and private law enforcement personnel are not available in sufficient numbers to ensure the safety of persons traveling in air transportation and intrastate air transportation from acts of criminal violence and aircraft piracy. To implement this provision a new § 107.19 would be added. Each airport operator requesting authorization for the use of Federal law enforcement officers would have to submit with his request, in addition to an estimate of the number of officers needed, information on the number of passengers enplaned, the risk of criminal violence and aircraft piracy, and the specific security program requirements for law enforcement support. The airport operator would also have to submit information on the availability of qualified State, local, and private law enforcement officers and his efforts to obtain the needed number of officers. Finally, before a request for Federal law enforcement officers could be considered, the airport operator would have to acknowledge responsibility for providing reimbursement for the cost of providing Federal officers, as required by section 316 of the Act.

Procedures for approval of a security program would be contained in new § 107.5. They would be substantially the same as those now contained in § 107.3 (b) and (c). The specific dates used when Part 107 was originally adopted in 1972 would be eliminated. The revision would make clear the role of the Regional Director in the approval of the program and in the review of a petition for reconsideration of a notice to modify.

For clarity it is proposed to divide the procedures for amending an approved security program presently in § 107.5 into two separate sections. New § 107.9 would apply to amendments proposed by the airport operator; new § 107.11 would apply to amendments by the FAA.

Under proposed § 107.9 the airport operator would have to submit his request for approval of a proposed amendment at least 30 days before he intends it to become effective, instead of the 15 days now required by § 107.5(c). A shorter period for submission could still be allowed by the Regional Director. Also, a procedure would be added for reconsideration by the Administrator of the denial by a Regional Director of a request for approval.

Proposed § 107.11 would provide for amendment of a security program by the FAA in accordance with procedures substantially the same as those now contained in § 107.5. In addition, the procedures for reconsideration of an amendment would be clarified.

It must be recognized that changing conditions on an airport can reduce the effectiveness of an approved security program. The FAA believes that each airport operator should be responsible for maintaining the level of security which the approved security program is intended to provide. Accordingly, it is proposed to prescribe procedures for the airport operator to follow whenever the procedures, facilities, and equipment described in the security program are not adequate to secure each air operations area in accordance with proposed § 107.13 or when the law enforcement support described in the security program is not adequate to comply with proposed § 107.15. These procedures would require the airport operator to immediately notify the Regional Director of any changed security condition and to advise him of each interim security measure he is taking to maintain adequate security until an appropriate amendment to his security program is approved. He would then be required to submit for approval an amendment to his security program.

The FAA believes that a necessary element in the protection of persons traveling in air transportation and in interstate air transportation is the elimination of unlawful possession of weapons on every part of the airport. Accordingly, it is proposed to prohibit the carriage of a weapon in violation of any applicable law of the State and local jurisdictions in which the airport is located by any person on the airport.

Finally, section 315 of the Act requires that semi-annual reports be submitted to the Congress concerning the effectiveness of the screening procedures required by that section. To assist the Administrator in preparing this report, it is proposed to require the airport operator to ensure that a record is maintained of certain information. This information is now provided to the FAA by airport operators voluntarily. Proposed new § 107.23 would not require the airport operator to maintain his own system of records if this information is accessible to him elsewhere, e.g., in the records of a State or local law enforcement agency.

The FAA believes that a 60-day comment period is sufficient for this notice. It is normally the FAA's policy to allow a longer comment period for rulemaking involving the international community. However, the provision at § 107.15 calling for law enforcement support of foreign air carrier screening operations was proposed previously in Notice 76-13, and extensive comment was received from the aviation community at that time. Furthermore, the subject was discussed at length during several international conferences attended by both foreign air carrier and foreign government representatives.

The principal authors of this document are Milford T. Conarroe, Civil Aviation Security Service, and Joseph M. Dorsey, Office of the Chief Counsel.

Accordingly, it is proposed to revise Part 107 of the Federal Aviation Regulations to read as follows:

PART 107—AIRPORT SECURITY

Sec.

107.1 Applicability and definitions.
107.3 Security program.
107.5 Approval of security program.
107.7 Changed security conditions.
107.9 Amendment of security program by airport operator.
107.11 Amendment of security program by FAA.
107.13 Security of air operations areas.
107.15 Law enforcement support.
107.17 Law enforcement officers.
107.19 Use of Federal law enforcement officers.
107.21 Carriage of Firearms, explosives, or incendiary devices.
107.23 Records.

AUTHORITY: Secs. 313, 315, 316 and 601, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354, 1356, 1357, and 1421); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

§ 107.1 Applicability and definitions.

(a) This part prescribes aviation security rules governing—

(1) The operation of each airport regularly serving a certificate holder to whom § 121.538 of this chapter applies;

(2) The operation of each airport regularly serving a permit holder to whom § 129.25 of this chapter applies; and

(3) Each person who is on an airport described in paragraph (a)(1) or (a)(2) of this section.

(b) For purposes of this part—

(1) "Airport Operator" means a person who operates an airport regularly serving a certificate holder or a permit holder to whom § 121.538 or § 129.25 of this chapter applies.

(2) "Air Operations Area" means a portion of the airport designed and used for landing, taking off, or surface maneuvering of airplanes;

(3) "Law enforcement officer" means an individual who, while on duty at the airport, is—

(i) Authorized to arrest for the violation, either in or out of his presence, of any criminal law of the State and local jurisdictions in which the airport where he is assigned to duty is located; and

(ii) Authorized to carry and use a firearm; and

(4) "Regional Director" means the Director of the FAA region in which an airport is located.

§ 107.3 Security program.

(a) No airport operator may operate an airport subject to this part unless he adopts and carries out a security program that—

(1) Provides for the safety of persons and property traveling in air transportation or intrastate air transportation against acts of criminal violence and aircraft piracy;

(2) Is in writing and signed by the individual empowered to so act by the airport operator;

(3) Includes the items listed in paragraph (b) of this section; and

(4) Has been approved by the Regional Director.

(b) Each security program required by paragraph (a) of this section must include at least the following:

(1) A description of each air operations area, including its dimensions and boundaries.

(2) A description of each area on, or adjacent to, the airport which affects the security of any air operations area.

(3) The procedures, and a description of the facilities and equipment, used to secure each air operations area in accordance with § 107.13.

(4) A description of any alternate procedures the airport operator may wish to use in emergencies and other unusual conditions, including those described in § 139.55(b)(1) of this chapter.

(5) A description of the law enforcement support necessary to comply with § 107.15.

(6) A description of the training program for law enforcement officers required by § 107.17(b).

(7) A description of the system for maintaining the records described in § 107.23.

(8) Copies of documents issued by the airport operator to implement the provisions of the security program.

(c) Each airport operator shall maintain at least one complete copy of his approved security program at his principal operations office, and shall make it available for inspection upon the request of any Civil Aviation Security Inspector.

(d) Each airport operator shall restrict the distribution, disclosure, and availability of information contained in the security program to those persons with an operational need-to-know and shall refer requests for such information by other than those persons to the Director of the Civil Aviation Security Service.

§ 107.5 Approval of security program.

(a) Unless a shorter period is allowed by the Regional Director, each airport operator seeking initial approval of a security program for an airport subject to this part shall submit his program to the Regional Director at least 90 days before regular service is expected to begin by any certificate holder or permit holder to whom § 121.538 or § 129.25 of this chapter applies.

(b) Within 30 days after receipt of a proposed security program, the Regional Director either approves the program or gives the airport operator written notice to modify the program to make it conform to the applicable requirements of this part.

(c) After receipt of a notice to modify, the airport operator may either submit a modified security program or petition the Administrator to reconsider the notice to modify. A petition for reconsideration must be filed with the Regional Director.

(d) Upon receipt of a petition for reconsideration, the Regional Director reconsiders the notice to modify and either amends or withdraws the notice or transmits the petition, together with any pertinent information, to the Administrator for his consideration.

(e) After review of a petition for reconsideration, the Administrator disposes of the petition by either directing the Regional Director to withdraw or amend the notice to modify, or by affirming the notice to modify.

§ 107.7 Changed security conditions.

(a) After approval of his security program, the airport operator shall follow the procedures prescribed in paragraph (b) of this section whenever either of the following changed security conditions occur:

(1) The procedures, facilities, and equipment described in the security program are not adequate to secure each air operations area in accordance with § 107.13.

(2) The law enforcement support described in the security program is not adequate to comply with § 107.15.

(b) Whenever a changed security condition described in paragraph (a) of this section occurs, the airport operator shall:

(1) Immediately notify the FAA security office having jurisdiction over the airport of the changed security condition, and identify each interim security measure he is taking to maintain adequate security until an appropriate amendment to the security program is approved; and

(2) Within 30 days after notifying the FAA in accordance with paragraph (b)(1) of this section, submit for approval in accordance with § 107.9 an amendment to the security program to bring it into compliance with § 107.3(b)(3) or (5), as appropriate.

§ 107.9 Amendment of security program by airport operator.

(a) An airport operator requesting approval of a proposed amendment to the security program shall submit his request to the Regional Director. Unless a shorter period is allowed by the Regional Director, the request must be submitted at least 30 days before the proposed effective date.

(b) Within 15 days after receipt of a proposed amendment, the Regional Director issues to the airport operator in writing either an approval or a denial of the request.

(c) The Regional Director approves an amendment to a security program if he determines that:

(1) Safety and the public interest allow it; and

(2) The proposed amendment provides the level of security required by §107.3.

(d) After denial of a request for an amendment, the airport operator may petition the Administrator to reconsider the denial. A petition for reconsideration must be filed with the Regional Director.

(e) Upon receipt of a petition for reconsideration, the Regional Director reconsiders the denial of approval and either approves the proposed amendment or transmits the petition, together with any pertinent information, to the Administrator for his consideration.

(f) After review of a petition for reconsideration, the Administrator disposes of the petition by either directing the Regional Director to approve the proposed amendment or affirming the denial of approval.

§ 107.11 Amendment to security program by FAA.

(a) The Administrator or Regional Director may amend an approved security program for an airport, if he determines that safety and the public interest require the amendment.

(b) Except in an emergency as provided in paragraph (f) of this section, when the Administrator or the Regional Director proposes to amend a security program, he notifies the airport operator, in writing, of the proposed amendment, fixing a reasonable period (but not less than 7 days) with which the airport operator may submit written information, views, and arguments on the amendment. After considering all relevant material, including that submitted by the airport operator, the Administrator or the Regional Director either rescinds the notice or notifies the air-

port operator in writing of any amendment adopted, specifying an effective date not less than 30 days after receipt of the notice of amendment by the airport operator.

(c) After receipt of a notice of amendment from a Regional Director, the airport operator may petition the Administrator to reconsider the amendment. A petition for reconsideration must be filed with the Regional Director. Except in an emergency as provided in paragraph (f) of this section, a petition for reconsideration stays the amendment until the Administrator takes final action on the petition.

(d) Upon receipt of a petition for reconsideration, the Regional Director reconsiders the amendment and either rescinds or modifies the amendment or transmits the petition, together with any pertinent information, to the Administrator for his consideration.

(e) After review of a petition for reconsideration, the Administrator disposes of the petition by directing the Regional Director to modify, rescind, or approve the amendment.

(f) If the Administrator or the Regional Director finds that there is an emergency requiring immediate action with respect to safety that makes the procedure in paragraph (b) of this section impracticable or contrary to the public interest, he may issue an amendment, effective without stay on the date the airport operator receives notice of it. In such a case, the Administrator or the Regional Director incorporates the finding, and a brief statement of the reasons for the emergency and the need for emergency action, in the notice of the amendment.

§ 107.13 Security of air operations areas.

Each airport operator shall use the procedures, facilities, and equipment, contained in his approved security program, to:

(a) Control access to each air operations area, including methods for preventing entry by unauthorized individuals and ground vehicles;

(b) Control movement of individuals and ground vehicles within each air operations area, including, when appropriate, requirements for the display of identification; and

(c) Promptly detect and take action to control any unauthorized persons who penetrate an air operations area.

§ 107.15 Law enforcement support.

Each airport operator shall provide law enforcement officers, in the number and in a manner adequate to support:

(a) His security program;

(b) Each passenger screening process required by Part 121 of this chapter; and

(c) Each passenger screening system required by Part 129 of this chapter after (90 days after the effective date) or after the date specified by the foreign air carrier involved, whichever date is earlier.

§ 107.17 Law enforcement officers.

(a) No airport operator may use any individual as a required law enforcement officer unless he: (1) is armed;

(2) Is readily identifiable by uniform and displays or carries a badge or other indicia of his authority; and

(3) Has completed a training program that meets the requirements in paragraph (b) of this section.

(b) The training program required by paragraph (a)(3) of this section must: (1) Meet the training standards prescribed for law enforcement officers by either the State or the local jurisdiction in which the airport is located, whichever are higher; and

(2) Include training in: (i) The use of firearms;

(ii) The courteous and efficient treatment of persons subject to inspection, detention, search, and other aviation security activities;

(iii) The responsibilities of a law enforcement officer under the airport operator's approved security program; and

(iv) Any other subject the Administrator determines is necessary.

§ 107.19 Use of Federal law enforcement officers.

(a) Whenever State, local, and private law enforcement officers who meet the requirements of § 107.17 are not available in sufficient numbers to meet the requirements of § 107.15, the airport operator may request that the Administrator authorize him to use Federal law enforcement officers.

(b) Each request for the use of Federal law enforcement officers must be accompanied by the following information:

(1) The number of passengers enplaned at the airport during the preceding calendar year and the current calendar year as of the date of the request.

(2) The anticipated risk of criminal violence and aircraft piracy at the airport and to the air carrier aircraft operations at the airport.

(3) A copy of that portion of the airport operator's security program which describes the law enforcement support necessary to comply with § 107.15.

(4) The availability of State, local, and private law enforcement officers who meet the requirements of § 107.17, including a description of the airport operator's efforts to obtain law enforcement support from State, local, and private agencies and the responses of those agencies.

(5) The airport operator's estimate of the number of Federal law enforcement officers needed to supplement available State, local, and private law enforcement officers and the period of time for which they will be needed.

(6) A statement acknowledging responsibility for providing reimbursement for the cost of providing Federal law enforcement officers.

(7) Any other information the Administrator considers necessary.

(c) In response to a request submitted in accordance with this section, the Administrator may authorize, on a reimbursable basis, the use of law enforcement officers employed by the FAA or by any other Federal agency, with the consent of that agency.

§ 107.21 Carriage of firearms, explosives, or incendiary devices.

No person on an airport subject to this part may have any firearm, explosive, or incendiary device, on or about his person or property in violation of any applicable law of the State and local jurisdictions in which the airport is located.

§ 107.23 Records.

(a) Each airport operator shall ensure that a record is made of law enforcement actions taken in furtherance of this part, that these records are maintained for a minimum of 90 days, and that they are made available to the Administrator upon request.

(b) Data developed in response to paragraph (a) of this section shall, as a minimum, include the following:

(1) The number and type of firearms, explosives, and incendiary devices discovered during any passenger screening process, and the method of detection of each.

(2) The number of acts and attempted acts of air piracy.

(3) The number of bomb threats received, real and simulated bombs found, and actual bombings on the airport.

(4) The number of detentions and arrests, and the immediate disposition of each person detained or arrested.

(Secs. 313, 315, 316, and 601, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354, 1356, 1357, and 1421); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on June 10, 1977.

RICHARD F. LALLY,
Director Civil Aviation Security Service.

PART III

DEPARTMENT OF THE INTERIOR

Mining Enforcement and Safety Administration

HEALTH AND SAFETY STANDARDS RELATING TO FIRE PREVENTION AND CONTROL, AIR QUALITY AND VENTILATION AND RADIATION

Public Hearing

DEPARTMENT OF THE INTERIOR

Mining Enforcement and Safety Administration

[30 CFR Parts 55, 56, and 57]

HEALTH AND SAFETY STANDARD

Notice of Public Hearing

AGENCY: Department of the Interior, Mining Enforcement and Safety Administration (MESA).

ACTION: Proposed health and safety standards, notice of public hearing.

SUMMARY: This is a notice to conduct formal public hearings on proposed new and revised health and safety standards relating to fire prevention and control, air quality and ventilation and radiation, loading and hauling and dumping, hoists and hoisting, toilet facilities, and gassy mines.

There has been widespread interest and comment on these proposed standards from many individuals and groups representing mine operators and workers.

The Federal Metal and Nonmetallic Mine Safety Act (Act) (30 U.S.C. 721–740) requires the Secretary of the Interior and MESA to follow certain rulemaking procedures for promulgating health and safety standards. The Department must hold a formal public hearing on certain proposed standards, with the opportunity for cross-examination, and establish a record to contain the testimony and documents being considered.

DATES: The public hearing will be held during the week of August 22 through August 26, 1977, beginning at 9 a.m. on Monday, August 22, 1977, and continuing each day thereafter until all objections subject to hearing have been heard. The hearing will be held in the Rivera Room, Hilton Inn, 1901 University Blvd., NE., Albuquerque, New Mexico 87125, telephone number 505–243–8661.

ADDRESSES: All communications with the Office of Hearings and Appeals should be addressed to: The Honorable George A. Koutras, Administrative Law Judge, Office of Hearing and Appeals, Department of the Interior, Room 1235, Ballston Tower No. 3, 4015 Wilson Boulevard, Arlington, Virginia 22203, telephone number 703–557–9200.

FOR FURTHER INFORMATION CONTACT:

Interested persons may obtain additional information and examine or obtain copies of all written comments and objections including requests for public hearing, which have been filed by contacting: Mr. E. Levi Brake, Chief, Division of Safety, Metal and Nonmetal Mine Health and Safety, Mining Enforcement and Safety Administration, Room 717, Ballston Tower No. 3, 4015 Wilson Boulevard, Arlington, Virginia 22203, telephone number 703–235–8647.

SUPPLEMENTARY INFORMATION: In accordance with the provisions of section 6 of the Act (30 U.S.C. 725) authorizing the Secretary of the Interior to develop, revise, and promulgate health and safety standards for metal and nonmetal mining and milling operations subject to the Act, there was published in Part III of the FEDERAL REGISTER for September 25, 1975, (40 FR 44272–44285) a notice of proposed rulemaking setting forth proposed amendments to Parts 55, 56, and 57 of Title 30 of the Code of Federal Regulations by revising certain existing standards and adding certain new definitions, deleting or revising certain advisory standards and making them mandatory, and revising and adding new mandatory standards relating to fire prevention and control; air quality, ventilation, radiation, and physical agents; explosives; loading, hauling, dumping; travelways and escapeways; man hoisting; toilets and gassy mines. The proposed health and safety standards have been developed after consultation with the Federal Metal and Nonmetal Mine Safety Advisory Committee authorized to be established under section 7 of the Act (30 U.S.C. 726) and established in accordance with section 9 of the Federal Advisory Committee Act (5 U.S.C. Appendix I (Supp. V 1975)).

The notice of proposed rulemaking provided that each standard which is to be a mandatory standard is designated by the word "Mandatory" which appears at the beginning of the subsection in which the standard was prescribed. If the Federal Metal and Nonmetal Mine Safety Advisory Committee has recommended a mandatory standard, the standard was preceded by the words "Mandatory" and the letters "MNMSAC" in this manner "Mandatory. MNMSAC."

The notice of proposed rulemaking provided further that subject to the provisions of subsection (e) of section 6 of the Act (30 U.S.C. 725 (e)) and in accordance with the provisions of subsection (d) of section 6 of the Act (30 U.S.C. 725 (d)) on or before the last day of the period of time fixed for the submission of written data, views, or arguments, any person who may be adversely affected by a proposed health and safety standard which was designated as a mandatory standard and which had not been recommended as a mandatory standard by the Federal Metal and Nonmetal Mine Safety Advisory Committee could file with the Secretary of the Interior written objections thereto stating the grounds for such objections and request a public hearing, subject to the Administrative Procedure Act (5 U.S.C. 553–557), on such objections. Also, the notice advised interested persons that a mandatory standard which is recommended by the Federal Metal and Nonmetal Mine Safety Advisory Committee is not subject to public hearing.

Interested persons were afforded a period of time until November 6, 1975 within which to submit written data, views, arguments, and objections including a request for public hearing on the proposals to the Administrator, Mining Enforcement and Safety Administration. The period of time for comment was subsequently extended to and including December 5, 1975, by a notice published in the FEDERAL REGISTER for November 4, 1975 (40 FR 51202).

Following the publication of the notice of proposed rulemaking numerous persons and organizations representing a broad interest of metal and nonmetal open pit mines; sand, gravel, and crushed stone operations; and underground mines timely submitted written comments and objections. Requests for public hearing were requested on practically every proposed mandatory health and safety standard that was designated as a mandatory standard by the Secretary of the Interior and which had not been recommended by the Federal Metal and Nonmetal Mine Safety Advisory Committee. At the request of interested parties and in order to provide a reasonable opportunity for interested persons to prepare, attend, and participate in public hearings, the proposed mandatory health and safety standards subject to hearing have been divided or grouped and separate hearings held at staggered time intervals for each group of standards. This notice concerns the public hearing for the second and final group of mandatory standards or the proposed new and revised health and safety standards relating to fire prevention and control; air quality, ventilation, radiation; loading, hauling, dumping; hoists and hoisting; toilet facilities; and gassy mines. A prior notice was published in the FEDERAL REGISTER on April 16, 1976 (41 FR 16163–16169) advising interested persons of the time and location for the public hearing on proposed new and revised safety standards relating to explosives. This hearing was held in Salt Lake City, Utah, and Denver, Colorado, on June 27 through July 2, 1976, and July 12 and 13, 1976, respectively.

STANDARDS NOT SUBJECT TO HEARING

In accordance with subsections (c) and (e) of section 6 of the Act and as stated in the notice of proposed rulemaking (40 FR 44272), proposed mandatory standards which have been recommended by the Federal Metal and Nonmetal Mine Safety Advisory Committee are not subject to public hearings. Objections were filed and hearings were requested by the National Crushed Stone Association on proposed new mandatory standard 57.5–32 which requires that when ventilation control doors are open as part of the normal mining cycle, they must be closed as soon as possible to re-establish normal ventilation. The National Crushed Stone Association and The American Mining Congress also filed objections and requested hearings on proposed mandatory standard 57.5–31 which required that ventilation doors must be substantially constructed, covered with fire-retardant materials if constructed of wood, maintained in good condition, self-closing if manually operated, and equipped with audible and (changed to "or") visual warning devices if manually operated; and, proposed mandatory standards 55.9–18, 56.9–19, and 57.9–19 which require that tract guardrails, lead rails, and frogs must be protected or blocked so as to prevent a person's foot from becoming wedged. These proposals were recommended by the Federal Metal and Nonmetal Mine Safety Advisory Committee and so designated as Advisory Committee recommendations by the letters "MNMSAC" preceding each proposal. Since interested persons were advised by the notice of proposed rulemaking that all proposals identified by the designation "MNMSAC" are not subject to public hearings, hearings will not be held on these proposals. However, the objections filed by the National Crushed Stone Association and The American Mining Congress and all other writen comments and objections received on these proposals were given thorough and careful consideration prior to promulgating these mandatory standards in Part VI of the FEDERAL REGISTER on Thursday, June 10, 1976 (41 FR 23612–23618).

In response to the comments and objections filed the following proposed new definition and mandatory standards are withdrawn: The term "Fire-retardant wood" to be used in Parts 55, 56, and 57; and standards 55.9–64, 56.9–64, and 57.9–64.

HEARING

The Honorable George A. Koutras, Administrative Law Judge will preside over the public hearing and receive evidence relevant and material to the issues raised by the objections which are set forth below. The Administrative Law Judge shall have all the powers necessary and appropriate to conduct a fair, full, and impartial hearing including the powers provided in 5 U.S.C. 556 (c) (1) through (7). The Administrative Law Judge will consider all objections and based upon the record will submit a recommended decision to the Secretary who will review the recommended decision and record, and the Secretary will issue the final decision.

PUBLIC PARTICIPATION

An opportunity for interested persons to submit oral and written testimony concerning the issues raised by the proposed new definition and standards, or any changes thereto, will be provided during this hearing.

Persons desiring to participate at the hearing, including those who requested that a public hearing be held, should file with the Administrative Law Judge a notice of intention to appear on or before Friday, August 19, 1977. The notice should contain: (1) The name, address, and telephone number of each person to appear; (2) the capacity in which the person will appear; and (3) the issues that will be addressed. This information will be available to the public and is necessary in order to properly schedule the hearing. At the hearing any interested person may be heard.

ISSUES

In response to comments received, objections filed and grounds stated for the objections, MESA will recommend and offer evidence in support of revising certain proposed definitions and standards. The recommendations to be made by MESA are set forth following the statements of objections. Interested persons may submit relevant evidence, comments, and suggestions at the hearing on the recommendations which will be made by MESA.

The comments, objections, grounds for objections, and recommended changes to the proposed definition and mandatory standards are:

I. PROPOSED NEW DEFINITION FOR THE TERM "PORTABLE FIRE EXTINGUISHER"

A. The objections and grounds stated for the objections filed by the American Mining Congress are as follows:

"This definition should be omitted because it is unnecessary, too restrictive, confusing (it does not even speak to portability) and it conflicts with proposed standard 57.4–24 (item No. 22).

"It is a serious mistake to restrict portable fire extinguishers for use underground or at surface locations to multipurpose dry chemical extinguishers. Dry chemicals are not always the most effective extinguishing agent. In areas involving potential electrical hazards, carbon extinguishers may be more desirable for certain applications, such as electric motor fires. In recent years extinguishers utilizing nontoxic Halon gases, which offers some substantial advantages for certain applications have become available. The effect of the definition (which would in effect be a regulation) as proposed by MESA would be to prevent the use of the most effective portable fire extinguisher in some cases, including areas where electrical fire hazards may be present."

B. The objections and grounds stated for the objections filed by the National Crushed Stone Association are as follows:

"We object to the definition proposed as (b). We believe that the National Fire Protection Association is not in the business of approving fire extinguishers. As written, no operators possess, or could obtain, extinguishers that would meet this Standard."

MESA Recommendation: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed definition for "Portable fire extinguisher" and replacing the definition with the term "Multipurpose dry-chemical fire extinguisher". MESA will recommend that the term "Multipurpose dry-chemical fire extinguisher" read as follows:

"Multipurpose dry-chemical fire extinguisher" means a listed or approved multipurpose dry-chemical fire extinguisher having a minimum rating of 2A: 10BC by Underwriters Laboratories, Inc. and containing a minimum of 4.5 pounds of dry-chemical agent.

II. PROPOSED MANDATORY STANDARDS 55.4–36, 56.4–36, AND 57.4–36 APPLICABLE TO SURFACE AND UNDERGROUND

A. The objections and grounds stated for the objections filed by the American Mining Congress are as follows:

"This proposed standard should be omitted.

"The potential hazards intended to be covered are adequately taken care of by present mandatory standard 57.4–29. If it is necessary to include soldering with an open flame, this term should be added to 57.4–29.

"This proposed standard makes no attempt to determine how much combustible or flammable material is contained in the non-dimensional 'active working' area or how close such material is to the actual welding, cutting, or soldering. One fire extinguisher of the proper size may be adequate for any possible combustion. A water line and fire hose may also be readily available. The presence of a second person is not necessary for fire protection and could be a 'make work' requirement.

"These comments should be considered with those on Items No. 28, No. 29, No. 30, No. 31.

B. The objections and grounds stated for the objections filed by the National Limestone Institute are as follows:

"'This standard appears unusually vague and open to wide interpretation. What is your definition of an active working area both in terms of activity and size? It is conceivable that the proposed language could be interpreted to include the entire mining area in which case it would be ludicrous to require the presence of a 'second person.' Even if the term is more narrowly defined, the decision as to whether a second person is necessary should be left up to management. Otherwise, many man-hours could be wasted with no apparent benefit."

C. The objections and grounds stated for the objections filed by the National Crushed Stone Association are as follows:

"It is not the purpose of safety regulations to specify how jobs should be manned. Therefore, we propose the following revised wording for the Standard to avoid pit-fall(s).

'*Mandatory.*—Adequate precautions shall be made in advance where welding or cutting with an arc or open flame or soldering with an open flame is done in an active working area or area containing combustible or flammable materials.'"

MESA recommendation: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising proposed mandatory standards 55.4–36, 56.4–36, 57.4–38 which will be applicable to surface only, and reserved standard number 57.4–38 will be transferred and placed under the center subheading "Surface Only". MESA will recommend that these proposed mandatory standards read as follows:

"Where welding or cutting with an arc or open flame or soldering with an open flame in an active working within 35 feet of or more than 1 gallon of combustible liquid, or more than 50 pounds of non-fire-retardant treated wood, or more than 10 pounds of plastic, 2 multipurpose dry-chemical fire extinguishers and a second person shall be present. Where welding or cutting with an arc or open flame or soldering with an open flame in

other areas, 1 multi-purpose dry-chemical fire extinguisher shall be present."

III. PROPOSED MANDATORY STANDARD 57.4–65 APPLICABLE TO UNDERGROUND ONLY

A. The objections and grounds stated for the objections filed by the American Mining Congress are as follows:

"The promulgated version of 57.4–65 should be amended by adding the phrase 'soldering with an open flame, or thawing with an open flame' after the words 'welding or cutting' in the first and third sentences.

"The length of time necessary for a fire patrol is dependent on the potential hazard involved, and the pre- and post-welding precautions taken, such as wetting down. The 8-hour requirement is entirely arbitrary and is, in any case, unenforceable."

B. The objections and grounds stated for the objections filed by the Colorado United Mine Operators are as follows:

"Maintaining a fire patrol in areas where open flame or soldering has been done in areas containing combustible or flammable material will be difficult, impractical, and a severe economic matter for many mines, particularly small mines and those that operate one or two shifts a day. To retain personnel to patrol a mine would require a hoistman and two other people on shift. Many mines do not employ over three people in total. This could effect doubling the personnel requirements on an intermittent basis; a virtual impossibility in some areas. In addition it is questionable whether such extreme surveillance is necessary; particularly in those areas where only minimum amounts of combustible material exists and where little or no problem would arise even if it did burn. We suggest that welding, cutting and soldering requirements need only the following provisions for safety: (1) Wet down the area before welding, cutting and soldering except in shop areas or other similar locations where flammable material is adequately confined and not exposed to open flame. (2) Inspect the area during and immediately after welding to be alert for any insidious fire that may start. (3) Wet down the area except as noted in Item 1 following completion of welding and during and after the inspection process. (4) If any indication is noted during the welding or inspection process and following wetting down a fire watch will be maintained for one-half hour and the area patrolled within the following hour."

MESA recommendations: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of including revised requirements of this proposed standard in MESA's recommendations to revise proposed mandatory standard 57.4–77 and reserving standard number 57.4–65. (See MESA's recommendation in V below.)

IV. PROPOSED MANDATORY STANDARD 57.4–76 APPLICABLE TO UNDERGROUND ONLY

A. The objections and grounds stated for the objectives filed by the American Mining Congress are as follows:

"This proposal should be omitted. See AMC comments on items No. 25 and No. 28. The same objections and points raised are applicable to 57.4–76."

MESA recommendations: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standard. MESA will recommend that mandatory standard 57.4–76 read as follows:

"Where welding or cutting with an arc, or thawing pipes electrically (excluding heat tape) or soldering with an open flame a multipurpose dry-chemical fire extinguished shall be provided."

V. PROPOSED MANDATORY STANDARD 57.4–77 APPLICABLE TO UNDERGROUND ONLY

A. The objections and grounds stated for the objections filed by the American Mining Congress are as follows:

"This proposal should be omitted. The hazards involved are adequately covered by existing standard 57.4–65."

MESA recommendations: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standard. MESA will recommend that mandatory standard 57.4–77 read as follows:

Where welding or cutting with an arc, or thawing pipes electrically (excluding heat tape), or soldering with an open flame within 35 feet of more than 1 gallon of combustible liquid, or more than 50 pounds of nonfire-retardant treated wood, or more than 10 pounds of plastic, the following precautions, in addition to those provided in 57.4–76, shall be taken:

a. A second multipurpose dry-chemical fire extinguisher, or equivalent, shall be provided.

b. The area shall be wetted down (precautions should be taken against electrical shock, where necessary) before and after, for a distance of 35 feet in all directions from the location of the operation; or, when wetting down is not practical, the combustibles shall be isolated by non-combustible material.

c. A second person shall be continuously present at the operation to observe and extinguish fires if the precautions in (b) are not practical.

d. A fire patrol of the affected area shall be made for the first hour after the operation is terminated.

e. The operator shall be responsible for extra precautionary measures in areas where necessary."

VI. PROPOSED MANDATORY STANDARD 57.4–78 APPLICABLE TO UNDERGROUND ONLY

A. The objections and grounds stated for the objections filed by the American Mining Congress are as follows:

"This standard should be omitted. The hazards involved are adequately covered by existing standard 57.4–65."

B. The objections and grounds stated for the objections filed by the Colorado United Mine Operators are as follows:

"To require a bulkhead below the open flame or soldering within a *shaft*, raise, or winze, or other active workings where sparks and heated material may fall does not take into consideration the fact that there are such locations, particularly shafts, where there is no combustible material Metal or concrete shafts with steel guides will have nothing that can burn. Furthermore, there should be some provision for alternate methods. Extremely large shafts would require bulkheads which may be far more dangerous to build than using water sprays, etc. In some shafts the amount of water flowing in the shaft itself would make it necessary as well as very difficult to install a bulkhead; particularly a tight bulkhead."

MESA recommendations: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standard. MESA will recommend that mandatory standard 57.4–78 read as follows:

"When welding, cutting with an arc or using an open flame for any purpose in shafts, mine facilities located within 100 feet of a shaft, intake air courses, escapeways, main or booster fan installations; and, where the operation is within 35 feet of more than 1 gallon of combustible liquid, or more than 50 pounds of non-fire-retardant treated wood, or more than 10 pounds of plastic, a second person shall be continuously present at the operation to observe and extinguish fires.

VII. PROPOSED MANDATORY STANDARD 57.5–18S APPLICABLE TO SURFACE AND UNDERGROUND

A. The objections and grounds stated for the objections filed by the American Mining Congress are as follows:

"This proposal should be omitted.

"Advisory standard 57.4–42, 43, 44 concerns keeping mine fan installations or surface free of combustible materials. The requirements for surface installations and underground fan installations should be treated separately.

"Under the existing definition of 'combustible', *no* material would be allowed within 100 feet of any fan. The proposed standard is exceedingly vague in that 'accumulate' is not defined or explained. Does this mean that no 'combustible material' (for example, minor quantities of wood, electrical wiring, etc.) may not be used in constructing a fan housing? What is fire-retardant material? Would shotcreted wood suffice? Where did the magic figure of 100 feet come from? These and other questions of interpretation must be clarified."

B. The objections and grounds stated for the objections filed by the Colorado United Mine Operators are as follows:

"To keep all combustible material from areas within a hundred feet of main or booster fans will be difficult and seems unnecessary. Particularly difficult will be alternative of using fire retarding material for ground support. As noted in our earlier comments the definition of fire retardant material permits only pressure impregnated wood which precludes the application of any fire retardants to any existing timber in the area. We suggest that this should be worded to lessen the distance and permit fire retardant material other than pressure impregnated."

MESA recommendations: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standard. MESA will recommend that mandatory standard 57.5–18S read as follows:

"Areas within 25 feet of main and booster fans shall be kept free of combustible materials except for installed wiring, materials used for fan maintenance, direct fired heaters, and material used for ground support."

VIII. PROPOSED MANDATORY STANDARD 57.5–18D APPLICABLE TO SURFACE AND UNDERGROUND.

A. The objections and grounds stated for the objections filed by the American Mining Congress are as follows:

"This proposal should be omitted. This standard is not indicated in nongassy mines and it implies that the quality of the mine air will be reduced to unhealthy conditions in the event of fan failure. This would rarely be the case.

"The important criteria is the air quality itself, not mechanical devices which may or may not be necessary to ensure air quality. The standard as proposed would require continuous operation of fans in unoccupied areas of the mine (certainly not an energy concerning measure). In fact, blindly requiring continuous operation of fans could, in some circumstances, actually impair air quality, particularly in mines having good natural ventilation during certain times of the year."

B. The objections and grounds stated for the objections filed by FMC Corporation are as follows:

"The wording of the standard is unclear as to their meaning and not worded in the best interest of safety."

C. The objections and grounds stated for the objections filed by Colorado United Mine Operators are as follows:

"It may not be necessary to operate all main and booster fans in a mine to achieve the desired ventilation. Certain areas of the mine may not be occupied and it would be unnecessary to operate fans serving those areas. In other cases the natural air flow through the mine most of the year is so great that main and booster fans are not only unnecessary but detrimental at times. The important thing is to achieve the desired air quality and quantity. This is the function of the ventiliation department or person at the mine assigned to measure and achieve the desired result."

D. The objections and grounds stated for the objections filed by the National Crushed Stone Association are as follows:

"For crushed stone mining applications, compliance with air quality standards should be sufficient. Once the air quality standard regulations are met, the purposes of safety and health are served in underground stone mines."

MESA recommendations: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standard. MESA will recommend that mandatory standard 57.5–18D read as follows:

"All main and booster fans of the mine shall be operated continuously in those areas where persons are underground, except for scheduled production-cycle shutdowns where air quality is maintained. In the event of fan failure, scheduled maintenance, or fan adjustments:

(a) The air quality in the affected active workings shall be tested at least every 2 hours by a competent person for compliance with requirements of the standards in this section 57.5 until normal ventilation is restored, or

(b) All persons, except those working on the fan, shall be withdrawn, the ventilation shall be restored to normal and the air quality in the affected active workings shall be tested by a competent person to assure that the air quality meets the requirements of the standards in section 57.5, before any other persons are permitted to enter the affected active workings."

IX. PROPOSED MANDATORY STANDARD 57.5–20 APPLICABLE TO UNDERGROUND ONLY

A. The objections and grounds stated for the objections filed by the *American Mining Congress* are as follows:

"The proposed standard should be revised as follows:

"A current ventilation plan, suitable to the conditions and mining system of the mine, shall be adopted and kept current by the operator. The plan shall show the type and location of mechanical ventilation equipment installed and operated at the mine, the quality of air reaching each working area, and the direction of ventilating air currents. The plan should be available for review by the Secretary.

"The detailed requirements of this proposed standard would not improve the health and safety of the miners and would only result in voluminous amounts of paperwork by the mine operators and the government. A ventilation plan should be available for review by the Secretary or his representatives, but it should not require MESA approval. A mine operator has a thorough understanding of the ventilation requirements of his particular mine. There are no criteria upon which MESA could base approval.

"The basic principles of the ventilation plan are now required under the provisions of standard 57.11–53 concerning escape and evacuation plans."

B. The objections and grounds stated for the objections filed by FMC Corporation are as follows:

"The wording of the standard is unclear as to their meaning and not worded in the best interest of safety."

C. The objections and grounds stated for the objections filed by the National Limestone Institute are as follows:

"Our initial concern with this standard was that it would require the installation of unnecessary and expensive equipment. We contacted MESA in order to get their interpretation. The response we received from MESA is enclosed. It is our feeling, as mentioned in my opening comments, that this standard was written for deep shaft mines and is not relevant to the room and pillar mines employed by this industry."

D. The objections and grounds stated for the objections filed by the Colorado United Mine Operators are as follows:

"This very detailed ventilation plan requirement including submission of information goes far beyond practicality or necessity. We question whether submission of this vast amount of detail from each mine to MESA would serve any purpose. Should there be a mine emergency the mine management who have an intimate knowledge of the mine situation would be the ones who would have to make decisions as to how and what action should be taken. The information they need is available at the mine. The pertinent information to aid in any evacuation or emergency process is covered in existing 57.11–53 and which requires necessary information availability to personnel at the mines as well as to the Secretary. The details of mine equipment, ventilation methods, fans, engines, etc., is not the kind of information many mines wish to make available on open record. To accumulate document, and provide the wide amount of information mentioned in the proposed standard would take considerable employee time and could never be kept really updated; particularly regarding location of equipment underground which is moved in many cases daily. To make up this information document for a small mine would be another record keeping requirement added onto the many onerous and burdensome requirements already in existence. We suggest that if MESA wishes to review the type of information specified here the practical approach would be to have the inspector shown the information in whatever form it is available on his routine visits to the mine. This standard should be an advisory standard and should serve as a guide to developing information by the employer which would be of service to him and could be evaluated by MESA representatives. It would appear this is the type of thing that President Ford had in mind when he asked the regulatory agencies to minimize their reporting and related requirements."

E. The objections and grounds stated for the objections filed by the National Crushed Stone Association are as follows:

"For crushed stone mining applications, compliance with air quality standards should be sufficient. Once the air quality standard regulations are met, the purposes of safety and health are served in underground stone mines."

MESA recommendations: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standard. MESA will recommend that mandatory standard 57.5–20 read as follows:

"A ventilation plan, and revisions thereof, suitable to the conditions and the mining system of the mine shall be set out by the operator in written form and submitted within 45 days after promulgation of this standard for review and comments to the District Manager, Metal and Nonmetal Mine Health and Safety, of the district in which the mine is located. The plan shall be reviewed, updated and resubmitted by the operator to the District Manager for review and comments at least every 12 months from the date of the last submittal. The plan shall, where appropriate, contain the following:

(a) The mine name

(b) A current mine map or series of mine maps of an appropriate scale, not greater than 500 feet to the inch, showing

(1) Locations of seals used to isolate abandoned workings;

(2) Locations of unventilated areas;

(3) Locations of air regulators and stoppings not shown in subsection (e) of this standard;

(4) Locations of overcasts, undercasts, and other airway crossover devices;

(5) Locations of known oil or gas wells;

(6) Locations of known underground mine openings adjacent to the mine;

(7) Locations of underground shops, diesel fuel storage, oil storage, substations, battery charging stations, hoist rooms, compressors, and explosive storage facilities intended to be used for 1 year; and

(8) Projected ventilation changes for 1 year.

(c) Mine fan data for all main, booster, and auxiliary fans including manufacturer's name, type, size, speeds, water gages, air quantity capabilities, blade settings at present operating points, and fan motor name plate data.

(d) The procedure for reversing main and booster fans, including location of remote controls.

(e) Descriptions and sketches showing how face ventilation is accomplished in each typical type of working place and the approximate quantity of air provided.

(f) The number and type of internal combustion engine powered units used underground, including make and model of unit, type of engine, make and model of engine, horsepower rating of engine, and approval number. This list shall designate number of typical units used on each split of air and the expected maximum number of units used on each split of air."

X. PROPOSED MANDATORY STANDARD 57.5–24 APPLICABLE TO UNDERGROUND ONLY

A. The objections and grounds stated for the objections filed by the American Mining Congress are as follows:

"This proposed standard should be omitted.

"Keeping intake areas separate from exhaust airways is not possible in many types of mines. For example, in some open stope and room-and-pillar mining it would be totally impractical if not physically impossible to construct the necessary brattices, or curtains, across miles of openings, some of which would be at least eighty feet high. In any case, such separation would serve no useful purpose.

"Few metal and nonmetal mines are developed and designed like coal mines with multiple entry systems or parallel intake and exhaustways.

"Again, we must emphasize that in nongassy mines the important criteria should be air quality, not quantity."

B. The objections and grounds stated for the objections filed by the Colorado United Mine Operators are as follows:

"Keeping intake airways separate from exhaust airways is not possible in many existing mines which have been developed with ventilation carried in pipes or tubes within the drift or shaft which acts as the exhaust airway. Metal/Nonmetal mines are not developed and designed like the coal mines with multiple separate entry systems. To require parallel entryways and exhaustways in existing mines is unbelievable and certainly would force many, if not most, of the mines out of business. Obviously, this does not square with the statement at the beginning of this set of standards, 'It is hereby certified that the economic and inflationary impacts of these proposed regulations have been carefully evaluated in accordance with the OMB Circular A–107.'"

C. The objections and grounds stated for the objections filed by the National Crushed Stone Association are as follows:

"For crushed stone mining applications, compliance with air quality standards should be sufficient. Once the air quality standard regulations are met, the purposes of safety and health are served in underground stone mines."

MESA recommendations: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standard. MESA will recommend that mandatory standard 57.5–34 read as follows:

"Auxiliary fans shall be operated continuously while persons are in working places ventilated by these fans, except for scheduled production-cycle shutdowns and where they are not used for air quality. In event of auxiliary fan failure, scheduled maintenance, or fan adjustments:

(a) The air quality in the affected active workings shall be tested at least every 2 hours by a competent person for compliance with requirements of the standards in this section 57.5 until normal ventilation is restored, or

(b) All persons, except those working on the fan, shall be withdrawn, the ventilation shall be restored to normal and the air quality in the affected active workings shall be tested by a competent person to assure that the air quality meets the requirements of the standards in section 57.5, before any other persons are permitted to enter the effected active workings."

XI. PROPOSED MANDATORY STANDARD 57.5–34 APPLICABLE TO UNDERGROUND ONLY

A. The objections and grounds stated for the objections filed by the American Mining Congress are as follows:

"This proposed standard should be omitted.

"Auxiliary fans are often installed for intermittent, as-needed use and the continuous operation of an auxiliary fan is often not necessary to assure the quality of the air specified by other standards."

B. The objections and grounds stated for the objections filed by the Colorado United Mine Operators are as follows:

"Requiring that auxiliary fans be operated continuously, or that the air be monitored every two hours or people removed seems to go beyond the need in some cases. As noted previously in 57.5–18 it is the quality and the quantity of the air available at a particular time that it be important. Frequently auxiliary ventilation is used only when conditions are such that primary ventilation may be inadequate. Auxiliary fans should be mandatory only if there is a potential for hazardous or toxic problems such as radon daughters, gassy mines involving methane, or some known hazard such as buildup of diesel smoke, etc. To be prepared to conduct air monitoring tests in two hours would require a trained person with specialized equipment at the mine on all shifts. This is a burden, especially for small mines. The use of all fans when not necessary for air quality is a waste of energy and money (OMB Circular A107)."

C. The objections and grounds stated for the objections filed by the National Crushed Stone Association are as follows:

"For crushed stone mining applications, compliance with air quality standards should be sufficient. Once the air the purposes of safety and health are quality standard regulations are met, the purposes of safety and health served in underground stone mines."

MESA recommendations: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standard. MESA will recommend that mandatory standard 57.5–37 read as follows:

"Mandatory. In all mines:

"(a) At least one mine air sample shall be taken in exhaust air by a competent person to determine if concentrations of radon daughters are present. Sampling shall be done using suggested equipment and procedures described in section 14.3 of ANSI N13.8–1973, entitled 'American National Standard Radiation Protection in Uranium Mines,' approved July 18, 1973, pages 13–15, by the American National Standards Institute, Inc., which is hereby incorporated by reference and made a part hereof or equivalent procedures and equipment acceptable to MESA. This publication may be examined in any Metal and Nonmetal Mine Health and Safety Subdistrict Office, Mining Enforcement and Safety Administration or may be obtained from the American National Standards Institute Inc., 1430 Broadway, New York, New York 10018. Thereafter—

"(1) Where uranium is not mined—when radon daughter concentrations between 0.1 and 0.3 WL are found in active workings, radon daughter concentration measurements shall continue to be determined within 90 days from the date of the last sample or until such time as the radon daughter concentrations are below 0.1 WL, and annually thereafter.

"(2) Where uranium is mined—radon daughter concentrations shall be determined within 30 days from the date of the last sample in all working places, travelways, haulageways, shops, stations, lunch rooms, magazines, and any other place or location where persons work, travel or congregate.

"(b) The sample date, location, and results obtained under (a) above shall be recorded and retained at the mine site or nearest mine office for at least two

years and shall be made available for inspection by the Secretary of the Interior or his duly authorized representative."

XIII. PROPOSED MANDATORY STANDARDS 57.5–40 APPLICABLE TO UNDERGROUND ONLY

A. The objections and grounds stated for the objections filed by the American Mining Congress are as follows:

"The weekly sampling requirements in paragraph (a) should be limited to those working areas in which the radon daughter concentrations are in excess of 0.3 WL or those areas of the mine which have substantial fluctuation in radiation. Many areas in uranium mines have consistent readings of less than 0.3 WL. In such areas monthly sampling is sufficient and is consistent with the requirements of 57.5–37(a)(2) as amended by proposed item #45, and existing standard 57.5–37.

"In paragraph (c)(1) we object to the requirement for submitting data directly to MESA in states which have a state plan. The Federal Metal and Nonmetallic Mine Safety Act clearly gives the enforecent authority to the state where a state plan has been executed. If MESA desires to obtain this information, it should be obtained from the state.

"In paragraphs (c)(1) and (c)(2), the 14–day period for submission of records is unreasonably short. To collect the data, mail it to a computer center, review it for completeness, punch tab cards, calculate exposures (even using automatic tab equipment), check data, and correct any errors, a minimum of 45 days is required. Exposure data is by definition "after-the-fact" information to be retained for future reference and does not require urgent action. Hence a 45–day period is a reasonable one.

"We object to the reporting requirements of paragraph (c) and to the forms designated Y–4000–8, Y–4000–8s, X–4000–9 and X–4000–9s. The provisions in paragraph (b) which require the operator to maintain records of the individual exposure for all persons working underground including the supporting data is sufficient for MESA to enforce the standard limiting individual exposure to 4 WLM/year."

MESA recommendations: At the hearings MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standard. MESA will recommend that mandatory standard 57.5–40 read as follows:

57.5–40 Mandatory. When concentrations of radon daughters are found in excess of 0.3 WL in any active working:

(a) The operator shall sample the air within the breathing zones of persons working in stopes and drift headings, and sample the air in all travelways, haulageways, shops, stations, lunchrooms, magazines, and any other place or location where persons work, travel, or congregate. Sampling shall be performed at least weekly at random times during regular work shifts, and shall be done by a competent person using suggested equipment and procedures described in section 14.3 of ANSI N13.8–1973, entitled "American National Standard Radiation Protection in Uranium Mines", approved July 18, 1973, pages 13–15 by the American National Standards Institute Inc., which is hereby incorporated by reference and made a part hereof, or equivalent procedures and equipment acceptable to MESA. This publication may be examined in any Metal and Nonmetal Mine Health and Safety Subdistrict Office of the Mining Enforcement and Safety Administration or may be obtained from the American National Standards Institute, Inc., 1430 Broadway, New York, New York 10018.

(b) The operator shall record individual exposures to concentrations of radon daughters for all persons working underground. These records shall include the individual's time in each working place and each active working, and the average concentration of airborne alpha radiation for each working place and each active working.

(c) The operator shall maintain a "Record of Work Area Radon Daughter Concentrations" (Form Y–4000–8, or Form Y–4000–8s for mines located in States with State Plans) and a "Record of Individual Exposure to Radon Daughters" (Form X–4000–9, or Form X–4000–9s for mines located in States with State Plans), or equivalent reporting forms that are acceptable to the Administrator, Mining Enforcement and Safety Administration, on which there shall be entered and recorded specific information with respect to each person's average exposure to concentrations of radon daughters. Form Y–4000–8 or Y–4000–8s shall also include any non-duplicated measurements taken by Federal and State representatives and reported to the operator. Such Federal and State measurements shall be clearly identified.

(1) For mines located in a State with a State Plan approved by the Secretary of the Interior under section 16 of the Federal Metal and Nonmetallic Mine Safety Act, the "Record of Work Area Radon Daughter Concentrations" (Form Y–4000–8s) and the "Record of Individual Exposure to Radon Daughters" (Form X–4000–9s) shall consist of an original of each form for the operator's records and a first and second copy of each form for use by the Mining Enforcement and Safety Administration and the State, respectively. Operators shall retain the original and mail or deliver a clear, legible copy of each form, or acceptable equivalent reporting form to the State agency responsible for administering the State Plan on behalf of the State in which the mine is located, and to:

Data Management—Attn: MCS System, Mining Enforcement and Safety Administration, 603 Miller Court, Lakewood, Colorado 80215.

Such forms shall be mailed or delivered no later than 45 days following a reporting period covering each month.

(2) For mines located in a State without a State Plan, the "Record of Work Area Radon Daughter Concentrations" (Form Y–4000–8) and the "Record of Individual Exposure to Radon Daughters"

(Form X–4000–9) shall consist of an original of each form for the operator's records and a carbon copy of each form, for use by the Mining Enforcement and Safety Administration. Operators shall retain the original and mail or deliver a clear, legible copy of each form, or acceptable equivalent reporting form, to the Mining Enforcement and Safety Administration, address given in (c)(1) above, no later than 45 days following a reporting period covering each month.

(3) Errors detected by the operator shall be corrected, and a corrected copy of the reporting form, or acceptable equivalent, shall identify the error and indicate the date the correction was made. The corrected copy or acceptable equivalent shall be mailed or delivered within 45 days to the Mining Enforcement and Safety Administration, address given in (c)(1) above and, if applicable, to the State agency.

(4) The operator's records of individual exposure to concentrations of radon daughters and copies of "Records of Work Area Radon Daughter Concentrations" and "Record of Individual Exposure to Radon Daughters", or true legible facsimiles thereof (microfilm or other), shall be retained at the mine or nearest mine office for a period of 2 years from the date the records are mailed or delivered to the Mining Enforcement and Safety Administration. These records shall be open for inspection by the Secretary of the Interior, his duly authorized representative, and authorized representatives of the official mine inspection agency of the State in which the mine is located.

(5) Upon written request from a person who is a subject of these records, a statement of year-to-date and cumulative exposure applicable to that person shall be provided to the person, or to whomever such person designates.

(6) The blank forms entitled "Record of Work Area Radon Daughter Concentrations" (Form Y–4000–8, or Y–4000–8s) and the "Record of Individual Exposure to Radon Daughters" (Form X–4000–9, or X–4000–9s) may be obtained on request from any Metal and Nonmetal Mine Health and Safety Subdistrict Office of the Mining Enforcement and Safety Administration.

NOTE.—To calculate an individual's exposure in WLM for a given period of time in each working place or each active working, as applicable, multiply the total exposure time (hours to the nearest half hour) in a working place or an active working as applicable, by the average concentration of airborne alpha radiation for the applicable working place or active working (average working level calculated to the nearest hundredth working level), and divide the product by the constant, 173 hours per month.

An average airborne alpha radiation concentration for a designated working place or active working shall be determined by averaging all sampling results for the applicable working place or active working during the time that the person is present in that designated working place or active working.

An individual's exposure for an extended period of time is the sum of the individual's exposure calculated each week, or part thereof, for all working places and active workings where the individual has worked during that period of time.

XIV. PROPOSED MANDATORY STANDARDS 55.9–1, 56.9–1, AND 57.9–1 APPLICABLE TO SURFACE AND UNDERGROUND

A. The objections and grounds stated for the objections filed by the American Mining Congress are as follows:

"It is recommended that this proposed standard be revised as follows:

'Mobile equipment shall be inspected by a competent person before being placed in operation. Equipment defects affecting safety shall be corrected before the equipment is used.'

"Existing standard 57.9–2, which requires that the equipment defects affecting safety be corrected before the use of such equipment, could be revoked if our revision were adopted since it would be incorporated. The two-year record keeping requirement for each shift inspection will result in a burdensome and voluminous record keeping requirement and serves no useful purpose.

"The purpose of the standard is to ensure (1) detection and (2) correction of defects affecting safety on equipment. Compliance can easily be determined through inspections of the equipment, not necessary records."

B. The objections and grounds stated for the objections filed by the National Limestone Institute are as follows:

"This industry takes particular exception to the record keeping requirements proposed in this standard. Existing MESA regulations (55/56/57.14–26) already require that 'unsafe equipment or machinery shall be removed from service immediately.' This new regulation, in our opinion, imposes additional needless record keeping without any apparent merit and, therefore, should be removed entirely."

C. The objections and grounds stated for the objections filed by the National Crushed Stone Association are as follows:

"The crushed stone industry concurs that operator inspection of his equipment is fundamentally a good idea. We vigorously oppose the proposed requirement to maintain records of equipment defects, so detected, for the period specified. The volume of records to be maintained under the proposed standard will constitute a superfluous and record keeping hardship, especially since existing Mandatory Standards 56.9–2 and 57.9–2 require that 'equipment defects affecting safety shall be corrected before the equipment is used.' If this existing standard (56.9–2 and 57.9–2) is followed and enforced, there is no need for 56.9–1 or 57.9–1."

D. The objections and grounds stated for the objections filed by FMC Corporation are as follows:

"The wording of the standard is unclear as to their meaning and not worded in the best interest of safety."

MESA recommendations: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standards. MESA will recommend that mandatory standards 55.9–1, 56.9–1, and 57.9–1 read as follows:

"Mobile equipment that is to be used during a shift shall be inspected by the equipment operator before being placed in operation. Equipment defects affecting safety shall be reported to, and recorded by the mine operator. The records shall be maintained at the mine or nearest mine office for at least 6 months from the date the defects are recorded. Such records shall be made available for inspection by the Secretary of the Interior or his duly authorized representative."

XV. PROPOSED MANDATORY STANDARDS 55.9–34, 56.9–34, AND 57.9–34 APPLICABLE TO SURFACE AND UNDERGROUND

A. The objections and grounds stated for the objections filed by the American Mining Congress are as follows:

"This standard should be changed to the following:

'Haulage equipment shall be loaded in such a manner as to minimize spillage while in route (sic) to a dumping site.'

"It appears that the intent of the proposal to minimize spillage (sic) which would be covered by our proposed revision. The published proposal is totally unacceptable because haulage units are often built to allow alterations and the safe carrying capacities can easily be greater than the nominal rated capacity. The density of the material being hauled can vary, for example, a 150-ton rated truck could safely carry from 120 to 190 tons of material depending on the density of the material. The proposed standard would seem to require scales near the loading site which would be totally impractical, and load indicator on haulage equipment have not been proved to be reliable or satisfactorily maintenance free."

B. The objections and grounds stated for the objections filed by the National Crushed Stone Association are as follows:

"This proposed standard is acceptable so long as reasonable calculated values and visual checks based on the material handled can be substituted for routine weighing."

MESA recommendations: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standards. MESA will recommend that mandatory standards 55.9–34, 56.9–34, and 57.9–34 read as follows:

"Haulage equipment shall not be loaded in excess of the manufacturer's rated weight capacity and the equipment shall be loaded in a manner to minimize spillage during haulage."

XVI. PROPOSED MANDATORY STANDARD 57.9–104 APPLICABLE TO UNDERGROUND ONLY

A. The objections and grounds stated for the objections filed by the American Mining Congress are as follows:

"It is recommended that the word 'and' be inserted between 'chute lips' and 'air doors' and the words 'and obstructions' should be omitted.

In underground mines there are all sorts of conditions that could be interpreted as an 'obstruction'. This very loose wording would be very difficult to comply with."

MESA recommendation: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standard. MESA will recommend that mandatory standard 57.9–104 read as follows:

"Warning devices or conspicuous markings shall be installed where chute lips, ventilation doors, and obstructions create a hazard to persons on equipment."

XVII. PROPOSED MANDATORY STANDARD 57.11–59 APPLICABLE TO UNDERGROUND ONLY

A. The objections and grounds stated for the objections filed by the American Mining Congress are as follows:

"This proposed standard should be changed to the following:

'An auxiliary respiratory system, with sufficient capacity to effect mine evacuation plans, shall be provided for operators of all underground hoists.'

"The provisons necessary to provide a respirable atmosphere for underground hoist operators is dependent on the local conditions in the mine—the number of men to be surfaced by the hoist, the location of the hoist with relation to the fresh air supplies, and its physical location in the mine. The proposed detailed requirements are much too rigid to apply to the varying situations found in underground mines."

B. The objections and grounds stated for the objections filed by the Colorado United Mine Operators are as follows:

"The many requirements for hoistman protection in this standard seem to go beyond the needs of personal protection. In addition automatic hoists or self-actuated hoists should be excluded. None of the three alternatives for ventilation specified in (a) are feasible in large, deep, existing mines. Air through a bore hole from the surface or supplied by compressors on the surface and piped or aircoursed through metal ducts not located in timber would be fantastically expensive in a mine many thousands of feet deep or several miles under a mountain. (b) Provides for compressed air storage in containers. This is a practical method of providing the hoistman with his personal air supply. (c) The two-hour self-contained breathing apparatus for escape may be far more than needed depending on the distance and estimated time to rach safety. In addition, many hoistmen are not physically able to qualify for 2-hour breathing apparatus training or wearing whereas they might meet a minimum of some simpler device for supplied air to provide for their travel to safety."

C. The objections and grounds stated for the objections filed by Gulf Mineral Resources are as follows:

"Are you sure that the rules should not call for a blower not a compressor?"

MESA recommendations: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standard. MESA will recommend that mandatory standard 57.11–59 read as follows:

"For the protection of operators of hoists located underground which are part of the mine escape and evacuation plan required under Standard 57.11–53, the hoist operator shall be provided with respirable atmosphere completely independent of the mine atmosphere. This independent ventilation system shall convert, without contamination, to an approved and properly maintained 2-hour self-contained breathing apparatus to provide a safe means of escape for the hoist operator after the hoisting duties have been completed as prescribed in the mine escape and evacuation plan for that hoist. The hoist operators independent ventilation system shall be provided by one of the following methods:

(a) A suitable enclosure equipped with a positive pressure ventilation system which may be operated continuously or be capable of immediate activation from within the enclosure during an emergency evacuation. Air for the enclosure's ventilation system shall be provided in one of the following ways—

(1) Air coursed from the surface through a borehole into the hoist enclosure directly or through a metal pipeline from such borehole; or

(2) Air coursed from the surface through metal duct work into the hoist enclosure .(although this duct work shall not be located in timber-supported active workings); or,

(3) Air supplied by air compressors located on the surface and coursed through metal pipe into the hoist enclosure.

A back-up system shall be provided for a hoist enclosure ventilation system provided by either of the methods set forth in (a)(2) and (a)(3) above. This back-up system shall consist of compressed air stored in containers connected to the enclosure. This back-up system shall provide and maintain a respirable atmosphere in the enclosure for a period of time equal to at least twice the time necessary to complete the evacuation of all persons designated to use that hoist as prescribed in the mine escape and evacuation plan required under Standard 57.11–53; or

(b) An approved and properly maintained self-contained breathing apparatus system which shall consist of a mask connected to compressed air stored in containers adjacent to the hoist controls. This self-contained breathing system shall provide a minimum of 24 hours of respirable atmosphere to the hoist operator. In addition, the self-contained breathing system shall be capable of a quick connect with the approved 2-hour self-contained breathing apparatus above."

XVIII. PROPOSED MANDATORY STANDARDS 55.19–78, 56.19–78 AND 57.19–78

A. The objections and grounds stated for the objections filed by American Mining Congress are as follows: "In the third sentence 'minimum speed' should be changed to 'slow speed'.

"Hoisting at a minimum speed may be much slower than necessary for safe operations and in addition is a very vague term. We realize that the term 'slow speed' is also a general term but it is felt that it would be more readily understood."

XIX. PROPOSED MANDATORY STANDARDS 55.–20–8, 56.20–8, AND 57.20–8 APPLICABLE TO SURFACE AND UNDERGROUND

A. The objections and grounds stated for the objections filed by the American Mining Congress are as follows:

"This standard should be changed to the following:

'Toilet facilities shall be provided at convenient locations and shall be kept clean and sanitary.'

"The detailed requirements in the proposed standard do not take into proper consideration the different conditions in: (1) underground mining situations; (2) surface mining operations; and (3) fixed facilities, such as shops, mills, etc.

"The positioning of toilets based on 10-minute accessibility is totally unreasonable. The proposed standard goes beyond the requirements for general industry in requiring one toilet per ten workers. The requirement for weekly cleaning, recharging and disposal should not apply to the enzyme-type unit. Separate facilities for males and females are not necessary if privacy can be maintained by locks. Because of the wide variety of conditions at surface and underground mining operations throughout the country, a very flexible standard is necessary."

B. The objections and grounds stated for the objections filed by the National Crushed Stone Association are as follows: "NCSA believes that such matters as toilet regulations should be left to local health service authorities if possible particularly since section 6(b) of Pub. L. 89–577, the Federal Metal and Nonmetallic Mine Safety Act states that mandatory standards should '* * * deal with conditions or practices of a kind which could reasonably be expected to cause death or serious physical harm.'

"NCSA agrees that providing adequate number of clean, well maintained toilet facilities for employees is highly desirable. However, we question seriously the requirement for separate sexes because of the limited number of total people involved and the field conditions experienced in mining."

"Further, at least one other Federal regulatory agency which does have existing standards for employee toilets allows for use of a toilet by either sex when the toilet room can be occupied by no more than one person at a time, can be locked from the inside, and contained at least one water closet.

"Also, mobile crews of those working in normally unattended work locations cannot always have toilet facilities within 10 minutes accessibility.

"Finally, the requirement to service toilets '* * * when full, but not less frequently than weekly' ignores recent re-

circulating, self cleaning, advanced systems of toilet design, some of which require removal of waste as seldom as once a year. Exception provision should be made for those which do not require such servicing at less frequent intervals than once a year or month."

C. The objections filed and grounds stated for the objections filed by the National Limestone Institute are as follows:

"The requirements in this standard are frivolous, in many cases extremely impractical, and fail to recognize new technology. To begin with, we are at a complete loss as to how this standard relates to safety. Further, many of this industry's operations are portable and operate in remote areas where it would be extremely difficult and costly to meet the requirements of the standard. Also, we do not think it necessary to provide separate facilities for men and women. Certainly there is ample precedent for this line of reasoning for one need only to look at the airlines where no such distinction is made—and they certainly don't require a separate facility for every ten passengers.

"The requirement that each toilet be serviced 'not less frequently than once a week' does not recognize the existence of new technology. We have been informed of a new chemical type toilet which utilizes a recirculating liquid and reportedly needs service only once a year.

"Because we do not feel it is MESA's responsibility to set standards for toilet facilities, we would like to see this standard deleted in its entirety. Failing that, we urge you to give consideration to our other arguments with respect to number of toilets, servicing requirements and the need for separate facilities for men and women."

MESA recommendations: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standard. MESA will recommend that mandatory standard 55.20–8, 56.20–8, and 57.20–8 read as follows: Toilet facilities shall be provided at readily accessible locations and shall be kept clean and sanitary.

(a) The number of toilets provided shall be in accordance with the following table:

Number of employees:	*Minimum number of water closets*
1 to 15	1
16 to 35	2
36 to 55	3
56 to 80	4
81 to 110	5
111 to 150	6
Over 150	(1)

[1] One additional fixture for each additional 40 employees.

(b) The number of facilities to be provided for each sex shall be based on the number of employees of that sex for whom the facilities are furnished. Where toilet rooms will be occupied by no more than one person at a time, can be locked from the inside, and contain at least one water closet, separate toilet rooms for each sex need not be provided.

(c) Toilets shall be chemical types, water closets, or equivalent facilities approved by the District Manager, Metal and Nonmetal Mine Health and Safety, for the District in which the mine is located. Such facilities shall be protected from the elements. Toilets shall be removed to the surface for cleaning, recharging, disposal (as applicable); or toilet waste transfer tanks and transfer equipment shall be provided with fittings to permit complete transfer of waste without spillage. Toilet waste shall be disposed of in accordance with State and local laws and regulations.

XX. PROPOSED MANDATORY STANDARD 57.21–21

A. The objections and grounds stated for the objections filed by FMC Corporation are as follows: "The wording of the standard is unclear as to their meaning and not worded in the best interest of safety."

MESA recommendations: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standard. MESA will recommend that mandatory standard 57.21–21 read as follows:

"Main fans shall be:

"(a) Operated continuously while persons are underground except when stopped or slowed down for fan maintenance and/or fan adjustments and related ventilation system adjustments and compliance is made with the provisions of mandatory standard 57.21–24.

"(b) Provided with pressure-recording gauges which shall be examined daily for good operating condition. The charts of such gauges shall be changed after completing one revolution.

"(c) Inspected daily and logs kept of such inspections and of fan maintenance.

"(d) Charts and logs shall be retained for a minimum of one year. Such records and charts shall be available for inspection by the Secretary of the Interior or his duly authorized representative."

XXI. PROPOSED MANTATORY STANDARD 57.21–24

A. The objections and grounds stated for the objections filed by FMC Corporations are as follows:

"The wording of the standard is unclear as to their meaning and not worded in the best interest of safety."

MESA recommendations: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standard. MESA will recommend that mandatory standard 57.21–24 read as follows:

"(a) At mines where a single main fan is used and such fan stops, or at mines where multiple main fans are used and all such fans stop, the operator shall take the following immediate action:

(1) Withdraw all persons from the affected active workings.

(2) Deenergize the power in affected active workings.

(3) Withdraw all persons from the mine when a 1.0 percent concentration of methane in air is measured in any active working.

"If ventilation has been interrupted for more than 15 minutes, all working places and active workings where methane may accumulate shall be examined by a competent person(s). The power shall not be restored or persons permitted to reenter the affected active workings until the competent persons(s) has determined the methane concentration in such active workings is less than 1.0 percent.

"(b) At mines where multiple main fans are used and one or more but not all fans stop, and air flow in intake and return air courses is maintained, the operator shall take the following immediate action:

(1) Monitor the air in all active workings for methane content.

(2) Withdraw all persons from, and deenergize the power, in all active workings when a 1.0 percent concentration of methane in the air is measured.

(3) Comply with all related mandatory standards in section 57.21."

XXII. PROPOSED MANDATORY STANDARD 57.21–80

A. The objections and grounds stated for the objections filed by FMC Corporation are as follows:

"The wording of the standard is unclear as to their meaning and not worded in the best interest of safety."

MESA recommendations: At the hearing MESA, in response to the comments received and the objections filed, will recommend and offer evidence in support of revising the proposed mandatory standard. MESA will recommend that mandatory standard 57.21–80 read as follows:

"A methane monitoring device (methane monitor), approved by the Secretary of the Interior, shall be installed and properly maintained on all continuous miners and longwall face equipment. The sensing unit of the methane monitor shall be positioned as close to the working face as practicable. When the concentration of methane is 1.0 percent or more, the monitor shall give a warning and deenergize the equipment automatically when the concentration reaches 1.5 percent. The methane monitor also shall deenergize such equipment automatically when the monitor is not functioning properly."

Drafting Information

The principal persons responsible for preparation of these proposed and revised proposed standards are: Arthur P. Nelson, Assistant Administrator, Metal and Nonmetal Mine Health and Safety, MESA; E. Levi Brake, Chief, Division of Safety; Aurel Goodwin, Chief, Division of Health; and, Donald R. Tindal, Assistant Solicitor, Metal and Nonmetallic Mine Health and Safety, Office of the Solicitor.

Dated: June 10, 1977.

JOAN M. DAVENPORT,
Assistant Secretary of the Interior.

PART IV

OFFICE OF MANAGEMENT AND BUDGET

RESCISSIONS AND DEFERRALS, JUNE 1977

Cumulative Report

OFFICE OF MANAGEMENT AND BUDGET

RESCISSIONS AND DEFERRALS, JUNE 1977

Cumulative Report

This report is submitted in fulfillment of the requirements of Section 1014(e) of the Impoundment Control Act of 1974 (Pub. L. 93-344). Section 1014(e) provides for a monthly report listing all current year budget authority with respect to which, as of the first day of the month, a special message has been transmitted to the Congress.

This month's report gives the status as of June 1, 1977, of the 14 rescissions and 58 deferrals contained in the first twelve special messages transmitted to the Congress for fiscal year 1977. These messages were transmitted to the Congress on July 29, September 22, October 1, November 5, December 3, 1976, January 7 and 17, March 9 and 24, April 4 and 28, and May 18, 1977.

RESCISSIONS (TABLE A AND ATTACHMENT A)

One rescission totaling $126.2 million in fiscal year 1977 budget authority is presently before the Congress. Table A summarizes the status of rescissions proposed as of June 1, 1977. Attachment A shows the history and status of each rescission proposed for fiscal year 1977.

DEFERRALS (TABLE B AND ATTACHMENT B)

As of June 1, 1977, $4,434.5 million in 1977 budget authority was being deferred from obligation and another $38.1 million in 1977 obligations was being deferred from expenditure. Table B summarizes the status of existing deferrals. Attachment B shows the history and status of each deferral proposed during fiscal year 1977.

INFORMATION FROM SPECIAL MESSAGES

The special messages containing information on each of the rescissions and deferrals covered by the cumulative report are contained in the FEDERAL REGISTERS of:

Tuesday, August 3, 1976 (Vol. 41, No. 150, Part VI).
Monday, September 27, 1976 (Vol. 41, No. 188, Part III).
Thursday, October 7, 1976 (Vol. 41, No. 196, Part IV).
Wednesday, November 10, 1976 (Vol. 41, No. 218, Part VII).
Wednesday, December 8, 1976 (Vol. 41, No. 237, Part II).
Thursday, January 13, 1977 (Vol. 42, No. 9, Part X).
Monday, January 24, 1977 (Vol. 42, No. 15, Part VIII).
Wednesday, March 16, 1977 (Vol. 42, No. 51, Part IV).
Wednesday, March 30, 1977 (Vol. 42, No. 61, Part VI).
Friday, April 8, 1977 (Vol. 42, No. 68, Part VI).
Wednesday, May 4, 1977 (Vol. 42, No. 86, Part VI).
Monday, May 23, 1977 (Vol. 42, No. 99, Part IX).

BERT LANCE,
Director.

TABLE A

STATUS OF 1977 RESCISSION PROPOSALS

	Amount (In millions of dollars)
Proposed rescissions	1,261.6
Withdrawn (R77-4A, Special Message No. 4, R77-13A, Special Message No. 8)	-95.0
Accepted by the Congress (R77-3, R77-5, R77-8, R77-9, R77-10, R77-11)	-711.6
Rejected by the Congress	-60.4
Adjustments	-268.4 1/
Pending before the Congress	126.2

TABLE B

STATUS OF 1977 DEFERRALS

	Amount (In millions of dollars)
Proposed deferrals	7,249.3
Routine Executive releases (-2,291.4M) and adjustments (-459.8M) 2/ through June 1, 1977.	-2,751.1
Overturned by the Congress	-25.6
Currently before the Congress	4,472.6 3/

1/ This amount is the difference between $721.0 million in Navy shipbuilding and conversion funds originally proposed for rescission and $452.6 million rescinded. When the rescission was proposed, these funds were already obligated for supply contracts. In testimony before the House Appropriations Committee, the Secretary of Defense concurred in the opinion that these contracts should not be terminated.

2/ An amount equal to $1,652.7 million included in the "Adjustments" column of Attachment B to this report represents superseded deferrals. This amount is not included in the "Adjustments" entry above because superseded deferrals are netted out in calculating the amount shown on the line "Deferrals proposed by the President" to avoid double counting.

3/ Includes $38.1 million of outlays in two Treasury deferrals--D77-26 and D77-27A.

EXPORT MONITORING REPORT FOR FERTILIZERS

October–December 1976

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

EXPORT MONITORING REPORT FOR FERTILIZERS

October–December 1976

Data collected during October through December 1976, the second quarter of the 1977 crop year, indicated a sizeable increase in imports and a modest increase in exports of nitrogen containing fertilizers, compared to the same three month period in 1975. Fertilizers containing nitrogen imported during October through December 1976, totaled 465,461 content tons. This was 190,650 content tons more than were imported during the same quarter of the preceding year, when 274,811 content tons entered the United States. During this same October through December period, exports of fertilizers containing nitrogen totaled 357,784 content tons, an increase of 31,297 content tons over the 326,487 content tons exported in the comparable 1975 period.

Of those nitrogen-containing fertilizer materials under export monitoring, ammonium phosphate was the commodity exported in the largest quantity during the October through December period, with 740,308 short tons being shipped abroad. This was 189,941 short tons more than the 550,367 short tons exported during October through December 1975. Ammonium sulfate, with exports totaling 152,841 short tons during October through December, was the second largest nitrogen fertilizer export. However, the ammonium sulfate exported in the October through December 1976 quarter, even though it was second largest in quantity for this period, was 124,344 short tons less than the 277,185 short tons of ammonium sulfate exported in the like period of 1975.

Imports of nitrogen containing fertilizers were, as already noted, well above the import level for the comparable 1975 period and also were 190,650 content tons above the 257,864 content tons imported in the first quarter of the 1977 crop year. The October through December import level reversed the trend prevailing during the preceding six months, when nitrogen-containing fertilizer imports were declining in comparison to the previous year's levels.

Imports of nitrogen fertilizer materials in the fourth calendar quarter of 1976, were led by urae. During the October through December period, 413,077 short tons of this commodity were imported, a dramatic increase over the 142,504 short tons of urea imported in the comparable period in 1975. Anhydrous ammonia was the nitrogen fertilizer imported in second largest quantity in the October through December 1976 quarter. The 200,679 short tons of anhydrous ammonia imported in October through December represented a 31,976 short ton increase over the 168,703 short tons imported in October through December 1975.

Contracts for the export of nitrogenous fertilizers for the remainder of the 1977 crop year and the first half of the 1978 crop year, were nearly double the quantity committed to export sale a year ago. Total export contracts for nitrogenous fertilizers, as of December 1975, were 103,444 content tons; in December 1976, export sales for future delivery totaled 198,733 content tons. This may presage increased export activity during the coming year, but short term contract sales, which are unaccounted for here, may greatly affect the final export figures.

During the three month reporting period, minimal production increases over previous year levels occurred only with anhydrous ammonia and ammonium phosphate. October through December anhydrous ammonia production amounted to 1,515,000 short tons in 1976, compared to 1,494,000 short tons in 1975. Ammonium phosphate production during this same 1977 period totaled 752,000 short tons, compared to 698,000 short tons in 1976. Urea and ammonium nitrate production decreased slightly from that of the comparable period a year earlier, and comparative figures were not available for ammonium sulfate production.

Producers' prices for nitrogen-containing fertilizer materials, as reported in the trade press for this three-month period, showed little change. Domestically, transaction prices were drastically discounted from those quoted in the trade press, and actual export prices as reported to the Office of Export Administration were as much as 50 percent lower than the quoted prices. In December, export prices, both for current and future shipments, were reported to be less than $100 per short ton for both ammonia and urea. In fact, worldwide prices for all nitrogen fertilizers drifted lower in December. Relatively ample worldwide supply accounted for this general price decline.

Tables of exports, imports, inventories, domestic production, and prices follow.

FRANK A. WEIL,
Assistant Secretary for Domestic and International Business.

[1] World supply and demand data are not available on a monthly basis. The most recent data on world supply and demand will be included in the Semi-Annual Report to Congress on operations of the Office of Export Administration covering the period ending with the first quarter of 1977.

DEPARTMENT OF STATE

FISHERY CONSERVATION AND MANAGEMENT ACT OF 1976

Applications for Permits To Fish Off the Coasts of the United States

DEPARTMENT OF STATE

[Public Notice 549]

FISHERY CONSERVATION AND MANAGEMENT ACT OF 1976

Applications for Permits to Fish Off the Coasts of the United States

The Fishery Conservation and Management Act of 1976 (Pub. L. 94-265) (the "Act") provides that no fishing shall be conducted by foreign fishing vessels in the Fishery Conservation zone of the United States after February 28, 1977, except in accordance with a valid and applicable permit issued pursuant to Section 204 of the Act.

The Act also requires that all applications for such permits be published in the FEDERAL REGISTER.

Applications for fishing during 1977 have been received from the Governments of Japan, Poland, Spain and the German Democratic Republic and are published herewith.

Dated: June 9, 1977.

ALBERT L. ZUCCA,
Director, Office of Fisheries Affairs.

(FISHING VESSEL IDENTIFICATION FORM (FOREIGN))

AMENDED APPLICATION (to add Pacific area)

Permit Period
Applied For: 1977

Application No. PL-77-0029
For Use of Issuing Office

State: POLAND

1. Name of Vessel m/c "Helenka"
2. Vessel No.: Hull No. _____ Registration No. 110820
3. Name and Address of Owner: Name: PPUH "TRANSOCEAN"
   Address: 70-952 Szczecin
   Tel. 94-21-41 Telex: 0512 631 POL Poland
   Cable Address: Transocean
   Szczecin
   Name and Address of Charterer
4. Homeport and State of Registry: Szczecin - Poland
5. Type of Vessel: Reefer
6. Tonnage (Gross) 5186 (Net) 2492
7. Length 113,25 M. 8. Breadth 17,02 M. 9. Draft 7,30 M.
10. Horsepower 8400 shp. 11. Maximum Speed 18 kn.
11. Propulsion: Diesel (X), Steam ( ), Diesel/Electric ( )

FISHERIES FOR WHICH PERMIT IS REQUESTED

OCEAN AREA : BERING SEA AND ALEUTIAN

PERIOD : MAY - DECEMBER

SPECIES : SNAIL

CONTEMPLATED CATCH :

THIS VESSEL APPLIES FOR FISHING

A PORTION OF THE ALLOCATION OF

270 METRIC TONS (EDIBLE MEAT)

GEAR TO BE USED : SNAIL POT

THE UNITED STATES OF AMERICA
DEPARTMENT OF COMMERCE
NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

APPLICATION FOR VESSEL PERMITS TO FISH WITHIN THE FISHERY CONSERVATION ZONE OF THE UNITED STATES, OR FOR ANADROMOUS SPECIES OR CONTINENTAL SHELF FISHERY RESOURCES

DATE May, 20th, 1977 APPLICATION NO. _____ for use of Issuing Officer

In accordance with the provision of Section 204 of the Fishery Conservation and Management Act of 1976, (16 U.S.C. 1801-1882), and the governing international fisheries agreement entered into with the Government of the United States of America, which entered into force on February, 1977 (date), the government (or competent authority) of SPAIN hereby submits this application for permits for fishing vessels under its jurisdiction to fish within the fishery conservation zone of the United States, or beyond that zone for anadromous species or Continental Shelf fishery resources subject to the jurisdiction of the United States.

The following information is submitted in support of this application (Use additional sheets as required).

A completed Fishing Vessel Identification Form for each permit that is requested; and a compilation of data contained in questions 5 and 20 in the attached Fishing Vessel Identification Form.

Submitted May, 20th, 1977 (Date) — Signature of Authorized Official — Bilateral Agreements Aps.- Title

ASUNTO: OBJECT: APPLICATION FOR VESSEL PERMITS TO FISH WITHIN THE FCZ OF THE UNITED STATES OF AMERICA.- SQUID (LOLIGO).

FECHA May, 20th

This format includes applications for new 14 (fourteen) Spanish vessels permits, corresponding to the period from June 15th to September 15th, 1.977, for the Squid (~~LOLIGO~~) fisheries, and are requested as complement of the first allocation -incomplete catched-, and also as complement of the reallocation that we expect be confirmed early next June.

In addition, we request to be deleted from the first submit sent in February, 22th, 1977, the name of the following vessels, that cannot carry out this fishery by several circumstances, as damage and others:

-PESCAMARO I
-EL QUEMADO
-EL DIAMANTE
-MONTE FURADO, and
-TITO MARQUEZ.

Madrid, May, 20th, 1.977

THE AUTHORIZED OFFICIAL,

ANNEX: Data compilation of questions contained in Section 5 and 20

GC-77-0028

THE UNITED STATES OF AMERICA
DEPARTMENT OF COMMERCE
NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

APPLICATION FOR VESSEL PERMITS TO FISH WITHIN THE FISHERY CONSERVATION ZONE OF THE UNITED STATES, OR FOR ANADROMOUS SPECIES OR CONTINENTAL SHELF FISHERY RESOURCES

DATE April 19th,1977

APPLICATION NO. GC-77-0028 for use of Issuing Officer

In accordance with the provision of Section 204 of the Fishery Conservation and Management Act of 1976, (16 U.S.C. 1801-1882), and the governing international fisheries agreement entered into with the Government of the United States of America, which entered into force on March 4th 1977 (date), the government (or competent authority) of German Democratic Republic hereby submits this application for permits for fishing vessels under its jurisdiction to fish within the fishery conservation zone of the United States, or beyond that zone for anadromous species or Continental Shelf fishery resources subject to the jurisdiction of the United States.

The following information is submitted in support of this application (Use additional sheets as required).

A completed Fishing Vessel Identification Form for each permit that is requested; and a compilation of data contained in questions 5 and 20 in the attached Fishing Vessel Identification Form.

Submitted _____ Date

_____ Signature of Authorized Official

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

EPA—New York State Implementation Plan; revision..... 25501; 5–18–77
Justice/DEA—Loperamide; placement in Schedule V..... 25498; 5–18–77

List of Public Laws

NOTE: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR
	HEW/FDA			HEW/FDA

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register
Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

Proclamation 4509 • **June 15, 1977**

Modification of Temporary Quantitative Limitations on the Importation into the United States of Certain Articles of Alloy Tool Steel

By the President of the United States

A Proclamation

1. Proclamation No. 4445, of June 11, 1976, as modified by Proclamation No. 4477 of November 16, 1976, imposed quantitative restrictions on the importation of certain articles of specialty steels. Section 203(h)(4) of the Trade Act of 1974 (the Trade Act) (19 U.S.C. 2253(h)(4)) permits the President to reduce or terminate any such restrictions if, after taking into account advice received from the United States International Trade Commission (USITC) and after seeking advice from the Secretaries of Commerce and Labor, the President determines that the reduction or termination is in the national interest.

2. I have sought and received advice from the USITC and from the Secretaries of Commerce and Labor concerning the effects of excluding alloy tool steel provided for in item 923.25 of the Tariff Schedules of the United States (TSUS) from the quantitative restrictions imposed by Proclamation No. 4445, as modified by Proclamation No. 4477. I have determined, after considering that advice, that the exclusion of alloy tool steel provided for in item 923.25, TSUS, from such quantitative restrictions is in the national interest.

3. Accordingly, the purpose of this proclamation is to terminate in part Proclamation No. 4445 of June 11, 1976, as modified by Proclamation No. 4477 of November 16, 1976, so as to exclude alloy tool steel provided for in item 923.25, TSUS, from the present quantitative restrictions. The authority for this action is set forth in section 203(h)(4) (19 U.S.C. 2253(h)(4)), and section 125(b) (19 U.S.C. 2135(b)) of the Trade Act.

NOW, THEREFORE, I, JIMMY CARTER, President of the United States of America, acting under the authority vested in me by the Constitution and the statutes of the United States, including sections 125 and 203 of the Trade Act (19 U.S.C. 2135 and 2253, respectively), do proclaim that—

A. Subpart A, part 2, of the Appendix to the TSUS (19 U.S.C. 1202) is modified as follows:

(1) by modifying headnote 2(a)(iii) to read as follows:

"(iii) The term *"alloy tool steel"* in item 923.26 refers to alloy steel which contains the following combinations of elements in the quantity, by weight, respectively indicated:

not less than 1.0% carbon and over 11.0% chromium; or
not less than 0.3% carbon and 1.25% to 11.0% inclusive chromium; or
not less than 0.85% carbon and 1% to 1.8% inclusive manganese; or
0.9% to 1.2% inclusive chromium and 0.9% to 1.4% inclusive molybdenum; or

not less than 0.5% carbon and not less than 3.5% molybdenum; or
not less than 0.5% carbon and not less than 5.5% tungsten;
but does not include any of such alloy tool steel which contains, in addition to iron, each of the following elements by weight in the amounts specified:
carbon: not less than 0.95 nor more than 1.13 percent;
manganese: not less than 0.22 nor more than 0.48 percent;
sulfur: none, or not more than 0.03 percent;
phosphorus: none, or not more than 0.03 percent;
silicon: not less than 0.18 nor more than 0.37 percent;
chromium: not less than 1.25 nor more than 1.65 percent;
nickel: none, or not more than 0.28 percent;
copper: none, or not more than 0.38 percent;
molybdenum: none, or not more than 0.09 percent;"

(2) by deleting headnote 2(a)(iv) and redesignating headnote 2(a)(v) as 2(a)(iv).

(3) (a) by deleting the last sentence from headnote 2(f); and

(b) by deleting item 923.25 from the tabulation in headnote 2(f).

(4) (a) by deleting "923.24" from the superior heading to items 923.20 through 923.26 and substituting therefor "923.26"; and

(b) by deleting items 923.25 and 923.26 and their immediately superior heading and substituting therefor the following:

Item	Articles	Quota Quantity (in short tons)

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION
PART 213—EXCEPTED SERVICE
Department of Housing and Urban Development

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: This section is amended to reflect an organizational redesignation from: Office of the Assistant Secretary for Community Planning and Management, to: Office of the Assistant Secretary for Community Planning and Development.

EFFECTIVE DATE: June 17, 1977.

FOR FURTHER INFORMATION CONTACT:

William Bohling (202-632-4533).

Accordingly, 5 CFR 213.3384(d) is amended to read as follows:

§ 213.3384 Department of Housing and Urban Development.

* * * * * *

(d) *Office of the Assistant Secretary for Community Planning and Development.*

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.77-17100 Filed 6-16-77;8:45 am]

PART 213—EXCEPTED SERVICE
Department of State

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: This amendment excepts from the competitive service under Schedule C one position of Special Assistant to the Deputy Secretary of State and one position of Special Assistant to the Assistant Secretary for Congressional Relations because these positions are confidential in nature.

EFFECTIVE DATE: June 17, 1977.

FOR FURTHER INFORMATION CONTACT:

William Bohling (202-632-4533).

Accordingly, 5 CFR 213.3304(a)(21) is amended and (c)(5) is added as set out below:

§ 213.3304 Department of State.

(a) *Office of the Secretary.* * * *

(21) One Secretary (Steno) and one Special Assistant to the Deputy Secretary.

* * * * * *

(c) *Office of the Assistant Secretary for Congressional Relations.* * * *

(5) One Special Assistant to the Assistant Secretary.

(5 U.S.C. 3301, 3302; E.O. 10577, 3 CFR 1954-1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

Title 7—Agriculture

CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

[FSP No. 1977-6.2, Amdt. No. 111]

PART 271—PARTICIPATION OF STATE AGENCIES AND ELIGIBLE HOUSEHOLDS FOOD STAMP PROGRAM
MAXIMUM MONTHLY ALLOWABLE INCOME STANDARDS AND BASIS OF COUPON ISSUANCE: GUAM
Appendix F—Guam

Correction

In FR Doc. 77-14149 appearing at page 26006 in the issue for Friday, May 20, 1977, in the table on page 26007, in the line for "Monthly net income—$150 to $169.99," in the column for a household of 6 persons, the monthly purchase requirement now reading "42" should have read "43."

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 97]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA
Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period June 19-25, 1977. This regulation is needed to provide for orderly marketing of fresh lemons for the regulation period because of the production and marketing situation confronting the lemon industry.

EFFECTIVE DATE: June 19, 1977.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, (202) 447-3545.

SUPPLEMENTARY INFORMATION: (a) *Findings.* (1) Pursuant to the amended marketing agreement and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee established under the amended marketing agreement and order, and upon other available information, it is found that the limitation of handling of such lemons as provided in this regulation will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the specified week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation for the quantity of lemons it considers advisable to be handled during the specified week. The recommendation resulted from consideration of the factors covered in the order. The committee further reports the demand for lemons is easier early this week.

Average f.o.b. price was $6.65 per carton the week ended June 11, 1977, compared to $6.72 per carton the previous week. Track and rolling supplies at 225 cars were up 5 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be established as provided in this regulation.

(3) It is further found that it is impracticable and is contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), because the time intervening between the date when information upon which this regulation is based became available and the time when it must become effective to effectuate the declared policy of the act is insufficient. A reasonable time is permitted, for preparation for the effective

time; and good cause exists for making the regulation effective as specified. The committee held an open meeting during the current week, after giving due notice, to consider supply and market conditions for lemons and the need for regulation. Interested persons were afforded an opportunity to submit information and views at this meeting. The recommendation and supporting information for regulation during the period specified were promptly submitted to the Secretary after the meeting was held, and information concerning the provisions and effective time has been provided to handlers of lemons. It is necessary, to effectuate the declared policy of the act, to make this regulation effective as specified. The committee meeting was held on June 14, 1977.

§ 910.397 Lemon Regulation 97.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period June 19, 1977, through June 25, 1977, is established at 310,000 cartons.

(2) As used in this section, "handled" and "carton(s)" have the same meaning as when used in the amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: June 16, 1977.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES AND OTHER OPERATIONS

[Amdt. 2]

PART 1446—PEANUTS

1976 Crop Peanut Warehouse Storage Loan Supplement; Final Support Values

Correction

In FR Doc. 77–15965 appearing at page 28989 in the issue for Tuesday, June 7, 1977, in the table at the bottom of page 28990 entitled "1976 Crop Peanut Warehouse Storage Loans" the following entry was omitted after "Southeast Spanish": "Southwest Spanish..... 5.854".

[CCC Farm Storage and Drying Equipment Loan Program Regulations, Amendment 2]

PART 1474—FARM STORAGE FACILITIES

Subpart—Farm Storage and Drying Equipment Loan Program Regulations

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

SUMMARY: This rule increases amounts and broadens coverage for farm storage and drying equipment loans and reduces downpayment provisions. The Secretary, USDA, in a press release dated April 4, 1977 said, "changes in the facility loan program will make storage more attractive to farmers and will encourage expansion of on-the-farm storage and drying capacity, which will help meet the objectives of the food grain reserve program." The intended effect is to make the loan program more attractive and encourage farmers to add additional on-farm facilities.

DATES: This amendment applies to loans disbursed on or after April 1, 1977.

FOR FURTHER INFORMATION CONTACT:

Dean L. Spearman, ASCS, USDA, P.O. Box 2415, Washington, D.C. 20013, 202–447–9222.

SUPPLEMENTARY INFORMATION: Commodity Credit Corporation, USDA is amending the regulations governing farm facility loans to: (1) change the basis for determining storage needs, (2) increase the amount which may be loaned, (3) increase the maximum outstanding loan, (4) permit the inclusion of concrete and wiring costs, (5) provide that the interest rate will remain constant for the term of the loan, (6) increase the approval level of county committees, and (7) increase the loan amount requiring a lien on the real estate. In view of the fact that revisions in the program are being made to encourage greater participation and remove restrictions, it is hereby found and determined that compliance with the procedure for notice of proposed rulemaking and public participation is unnecessary. Therefore, these regulations are issued without compliance with such procedure.

RULE

1. In § 1474.4, paragraph (b) is revised to read as follows:

§ 1474.4 Eligible borrowers.

* * * * *

(b) *Need for storage or equipment.* At the time any loan application is being considered, the county committee shall determine if the proposed farm storage or drying equipment is needed for the storage or conditioning of eligible commodities produced on the farm(s) to which the loan application relates: *Provided, however,* That in making this determination (1) one year's estimated production of eligible commodities shall be used in determining whether the proposed drying equipment is needed, and (2) the maximum storage space for which a loan may be made shall be the amount by which the total capacity of existing storage on the farm(s) which is suitable for storage of eligible commodities is less than the storage capacity necessary to store two year's production (computed on the basis of estimated yields) of all eligible commodities produced on the farm(s) to which the loan application relates. If the capacity of the storage to be purchased or erected by the applicant exceeds the need as determined above, the application may be approved, but the amount of such loan shall not exceed the maximum authorized in § 1474.8 (b).

2. In § 1474.7, paragraph (c) is revised to read as follows:

§ 1474.7 Security for loan.

* * * * *

(c) *First lien on real estate.* As additional security, a first lien, except as provided in subparagraph (1) of this paragraph, on real estate shall be required for any loan of $25,000 or more: *Provided, however,* That the State Committee may establish such lower level as it considers necessary: *Provided, further,* That a first lien on the real estate may be required for any loan at the discretion of the approving committee. Such first lien shall be in the form of a real estate mortgage, deed of trust, or other form of security instrument approved by CCC. It shall attach to the borrower's farm or other real estate on which the farm storage or drying equipment is to be located or on such acreage thereof as will, in the judgment of the county committee, make the site easily accessible for the use of other farmers, and, in the event of foreclosure will constitute a salable unit.

(1) Where the real estate is subject to a prior lien, the State committee may accept a second lien provided the borrower owns the land on which the farm storage or drying equipment is located and the State committee determines that the borrower has sufficient equity in the land to adequately protect CCC's interest.

(2) Where the real estate is subject to any other lien and a second lien is not acceptable under the provisions of subparagraph (1) of this paragraph, the priority of CCC's lien must be obtained through a consent and subordination agreement which shall be filed or recorded with the lien on the real estate.

* * * * *

3. § 1474.8 is revised to read as follows:

§ 1474.8 Amount of loan and loan application approvals.

(a) *Cost basis.* (1) The loan shall be based on the "net cost" which is the actual cost to the applicant, after deduction of any discount or rebate. "Net cost" may include the purchase price, local sales taxes payable by purchasers, and costs for transportation, delivery, and erection or installation of the farm storage or drying equipment: *Provided, however,* That "net cost" shall not include the cost of used or second-hand material to be used in the proposed construction of otherwise new farm storage, or costs for labor performed by the applicant or other labor usually employed on the farm.

(b) *Amount of loan.* The amount of any loan, when added to the outstanding balance of any previous loan for farm storage and drying equipment, shall not result in an aggregate outstanding balance in excess of $50,000 and shall not exceed the smaller of (1) 85 percent of the net cost of the applicant's needed farm storage and drying equipment or (2) 85 percent of the prorated cost for the applicant's farm storage which is needed and suitable for the storage of the eligible commodities when a farm storage structure has a larger capacity than the applicant's needed farm storage.

(c) *Loan application approvals.* (1) The county committee may approve or disapprove loan applications for amounts less than $25,000 without concurrence of the State committee: *Provided, however,* That no application may be so approved by the county committee if the amount thereof, plus the outstanding balance of any previous loan, would create for the applicant an aggregate outstanding balance of $25,000 or more: *Provided, further,* That the State committee may establish such lower amount as it considers necessary.

(2) The State committee shall approve or disapprove all other loan applications.

(3) A loan application for $25,000 or more shall not be approved unless the applicant will provide the additional security in accordance with § 1474.7 (c).

(4) A loan application shall not be approved where the approving authority determines that approval would not be in the best interest of the program.

(d) *Expiration of approvals.* If there has been no disbursement of the loan 4 months after the date the loan application was approved, the approval shall become null and void unless it is extended in writing by the approving State or county committee for a stated period not to exceed an additional four months: *Provided, however,* That the Executive Vice President, CCC, or his designee, may extend the approval for such additional periods of time as he may deem justified by the circumstances.

4. In § 1474.10, paragraph (c) is added to read as follows:

§ 1474.10 Interest rate.

* * * * *

(c) Loans disbursed on or after April 1, 1977. Loans shall bear interest at the rate in effect on the date of disbursement until repaid. The rate shall be set forth in a separate announcement in the FEDERAL REGISTER.

(Sections 4 and 5, 62 Stat. 1070, as amended (15 U.S.C. 714 b and c).)

NOTE.—Commodity Credit Corporation has determined that this document does not require preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A–107.

Signed at Washington, D.C. on June 9, 1977.

VICTOR A. SENECHAL,
Acting Executive Vice President, Commodity Credit Corporation.

[FR Doc.77–17458 Filed 6–16–77;8:45 am]

SUBCHAPTER C—EXPORT PROGRAMS

[Amdt. 2]

PART 1488—FINANCING OF SALES OF AGRICULTURAL COMMODITIES

Subpart A—Financing of Export Sales of Agricultural Commodities From Private Stocks Under CCC Export Credit Sales Program (GSM–5)

MISCELLANEOUS AMENDMENTS

AGENCY: Commodity Credit Corporation, Department of Agriculture.

ACTION: Final rule.

SUMMARY: Due to the sensitivity of the words "political risk," experience has shown that such terminology sometimes creates unintended connotations when dealing with the diplomatic community. This amendment, by substituting the words "non-commercial risk" for "political risk", will help avoid such connotations in the future.

EFFECTIVE DATE: June 17, 1977.

FOR FURTHER INFORMATION CONTACT:

L. T. McElvain, Commercial Export Programs, Office of the General Sales Manager, U.S. Department of Agriculture, 14th Street and Independence Avenue SW., Washington, D.C. 20250, telephone 202–447–3224.

SUPPLEMENTARY INFORMATION: Since the amendment is primarily for clarification to prevent unintended connotations, it is hereby found and determined that compliance with the procedure for notice of proposed rulemaking and public participation is unnecessary. Therefore, these amendments are issued without compliance with such procedure.

RULE

Accordingly, Part 1488 of 7 CFR containing the terms and conditions of the CCC Export Credit Sales Program regulations (GSM–5) (42 FR 10999, corrected at 42 FR 13535 and 42 FR 13561, and amended at 42 FR 27569) is hereby amended as follows:

1. Section 1488.2(g) is amended to read as follows:

§ 1488.2 Definition of terms.

* * * * *

(g) "Commercial risk" means risk of loss due to any cause other than those specified as non-commercial risk in paragraph (u) of this section.

§ 1488.13 [Amended]

2. Sections 1488.2(u) and 1488.13 are amended by substituting the words "non-commercial risk" for the words "political risk" wherever they may appear.

§ 1488.12 [Amended]

3. Section 1488.12(f) is amended by substituting the words "non-commercial risks" for the words "political risks" wherever they may appear.

(Sec. 5(f), 62 Stat. 1072 (15 U.S.C. 714c); Sec. 4, 80 Stat. 1538 (7 U.S.C. 1707a).)

Signed at Washington, D.C., on June 14, 1977.

GEORGE S. SHANKLIN,
Acting Vice President, Commodity Credit Corporation, and Acting General Sales Manager, Office of the General Sales Manager.

Title 17—Commodity and Securities Exchange

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release Nos. 33–5832; 34–13603; 35–20067; IA–590; IC–9808]

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

Subpart M—Regulation Concerning Conduct of Members and Employees and Former Members and Employees of the Commission

REIMBURSEMENT FOR TRAVEL OR SUBSISTENCE EXPENSES

AGENCY: Securities and Exchange Commission.

ACTION: Amendment of Conduct Regulation.

SUMMARY: The amendment prescribes the conditions under which Commission members and employees may accept reimbursement for travel or subsistence expenses from nongovernmental sources and sets forth the policy of the Commission will respect to the acceptance of honoraria or similar fees and payments. It reflects the Commission's concern that conflicts of interest be strictly prohibited and the Commission believes that the amendment will not only preclude potential conflict of interest situations but also avoid even the appearance of conflicts.

DATES: Effective Date: June 17, 1977. Comments must be received on or before: December 1, 1977.

ADDRESSES: Comments should be addressed, in triplicate, to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549. All such communications should refer to File No. S7–704 and will be available for public inspection in Room 6101, 1100 L Street NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

Vernon Zvoleff, Attorney, Office of the General Counsel, Securities and Exchange Commission, Washington, D.C. 20549, (202-755-1387).

SUPPLEMENTAL INFORMATION: On April 13, 1977, the United States Civil Service Commission approved for publication the amendment to the Commission's conduct regulation set forth below. Therefore, pursuant to 5 CFR 735.-104(c), this amendment is effective on June 17, 1977. In general, the amendment prohibits Commission members and employees from accepting reimbursement for travel and subsistence expenses, under any circumstances, from entities required to file reports or registration statements with the Commission or from entities regulated by the Commission, as well as any association predominantly composed of such regulated entities. Subject to that prohibition, Commission members and employees on official duty status may accept reimbursement from tax-exempt entities of the type described in 26 U.S.C. 501(c)(3); and employees, while appropriately on annual leave, may accept reimbursement from other entities as well. Under no circumstances may either members or employees accept reimbursement, nor may payment be made on their behalf, for unreasonable or lavish expenses, gifts, entertainment or other personal benefits.

Honoraria or similar payments are discouraged and may not be accepted without prior written approval from the Commission's General Counsel, subject to the general review of the Commission.

Although the amendment shall be effective immediately, the Commission will reevaluate the amendment after approximately six months, in light of its experience with the new requirements. Comments received prior to December 1, 1977, will be considered by the Commission during this reevaluation.

Accordingly, 17 CFR Part 200 is amended by revising paragraph (b)(5) of § 200.735-4 and adding paragraph (b)(7) thereto to read as follows:

§ 200.735-4 Outside or private employment.

* * * * * * *

(b) * * *

(5)(i) A member or employee may accept reimbursement for travel or subsistence expenses, and any expenses may be paid on his or her behalf, only if reimbursement is authorized by paragraphs (b)(5)(iii) or (iv) of this section. No member or employee may, under any circumstances, accept reimbursement for travel or subsistence expenses incurred in connection with attendance at a seminar, meeting, conference, etc., sponsored in whole or in part by any person from whom the acceptance of reimbursement is prohibited by paragraph (b)(5)(ii) of this section.

(ii) No member or employee shall accept reimbursement for travel or subsistence expenses from

(A) Any person[1] directly required to file reports or registration statements with the Commission, or

(B) Any person[1] directly regulated by the Commission, including any association or other group predominantly composed of persons regulated by the Commission.

For purposes of this section, the phrase "person regulated by the Commission" means all persons whose activities are directly regulated by, or who are required to register with, the Commission, including, but not limited to, such persons as brokers or dealers in securities, national securities exchanges, national securities associations, investment companies, investment advisers, public utility holding companies, and any self-regulatory organization, as that term is defined in Section 3 of the Securities Exchange Act of 1934, 15 U.S.C. 78c.

(iii) Subject to the general prohibition set forth in paragraph (b)(5)(ii) of this section, members or employees may, pursuant to 5 U.S.C. 4111, while on official duty status, accept bona fide reimbursement for actual expenses for travel or necessary subsistence incident to attendance at meetings from a person determined by the Secretary of the Treasury to be a tax-exempt organization of the type described in 26 U.S.C. 501(c)(3), provided, however, that no Government payment or reimbursement is made for the expense so reimbursed, and provided further that the member or employee is not reimbursed, nor payment made on his or her behalf, for those personal living expenses, gifts, entertainment or other personal benefits, which are unreasonable or lavish.

(iv) Consistent with the general prohibition set forth in paragraph (b)(5)(ii) of this section and the Commission's regulations governing conflicts of interest, employees (but not members) of the Commission appropriately on annual leave may accept bona fide reimbursement for actual expenses for travel or necessary subsistence from persons in addition to organizations described in paragraph (b)(5)(iii) above, provided that the employee is not reimbursed, nor payment made on his or her behalf, for those personal living expenses, gifts, entertainment or other personal benefits, which are unreasonable or lavish.

(v) Nothing in this section or otherwise shall be considered as permitting the acceptance from any person of reimbursement to a member or employee of the Commission, directly or indirectly, for the travel or subsistence expenses of the member's or employee's spouse or traveling companion.

* * * * * * *

(7) As a matter of general policy, the Commission discourages the acceptance of honoraria or similar fees and payments. In accord with this policy, no member or employee may accept an honorarium unless written approval is obtained in advance from the Commission's General Counsel, subject to the general review of the Commission. Requests for such approval should be submitted to the General Counsel in writing and should include a statement in support of the request. An employee may not, under any circumstances, accept an honorarium from any person from whom reimbursement for travel expenses is prohibited by paragraph (b)(5)(ii) of this section.

(5 CFR 735.104(b).)

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

JUNE 7, 1977.

[FR Doc.77-17313 Filed 6-16-77;8:45 am]

[1] As defined in paragraph b(1) of § 200.-735-3.

[Release No. 34-13605]

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

Delegation of Authority to the Director of the Division of Market Regulation

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The Commission is amending its rules to delegate authority with respect to the Securities Exchange Act of 1934 to the Director of the Division of Market Regulation to exchange with Federal bank regulatory agencies notices of examination, and copies of reports and related data resulting from examination, of a bank clearing agency, transfer agent, or municipal securities dealer.

EFFECTIVE DATE: Immediately.

FOR FURTHER INFORMATION CONTACT:

Harry Melamed, Assistant Director, Division of Market Regulation, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, 202-755-7987.

SUPPLEMENTARY INFORMATION: Section 17(c)(3) [15 U.S.C. 78q(c)(3)] of the Securities Exchange Act of 1934 (the "Act") provides that, when the Commission is not the appropriate regulatory agency for a clearing agency, transfer agent, or municipal securities dealer, the Commission and the appropriate regulatory agency shall each notify the other and make a report of any examination conducted by it of that regulated entity and shall each, upon request, furnish to the other a copy of such report and any data supplied to it in connection with such examination. Therefore, pursuant to Sections 4, 17(c)(3) and 23(a) of the Act [15 U.S.C. 78d, q(c)(3) and w(a)], § 200.30-3 [17 CFR 200.30-3] of the rules of the Commission, relating to general organization, is amended to delegate authority to the Director of the Division of Market Regulation to request such reports and other data from any such appropriate regulatory agency, to provide notices to any such appropriate regulatory agency and, on request of any such appropriate regulatory agency, to furnish such reports and other data. The amendment adds a new paragraph (a)(25) as follows:

§ 200.30-3 Delegation of authority to Director of Division of Market Regulation.

* * * * * * *

(a) * * *

(25) Pursuant to Section 17(c)(3) of the Act, 15 U.S.C. 78q(c)(3), in regard to clearing agencies, transfer agents and municipal securities dealers for which the Commission is not the appropriate regulatory agency, (i) to notify the appropriate regulatory agency of any examination conducted by the Commission of any such clearing agency, transfer agent, or municipal securities dealer; (ii) to request from the appropriate regulatory agency a copy of the report of any examination of any such clearing agency, transfer agent, or municipal securities dealer conducted by such appropriate regulatory agency and any data supplied to it in connection with such examination; and (iii) to furnish to the appropriate regulatory agency on request a copy of the report of any examination of any such clearing agency, transfer agent, or municipal securities dealer conducted by the Commission and any data supplied to it in connection with such examination.

* * * * * * *

The Commission finds, in accordance with sections 5 U.S.C. 553(b)(3)(B) and 553(d)(3) of the Administrative Procedure Act, that the foregoing action relates solely to agency organization, procedure or practice and should be effective immediately in order to provide an orderly procedure for the exchange of information with the Federal bank regulatory agencies. Accordingly, the foregoing action becomes effective immediately.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

June 7, 1977.

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

MISCELLANEOUS TECHNICAL AMENDMENTS

AGENCY: Federal Highway Administration, DOT.

ACTION: Technical amendments to final rules.

SUMMARY: This document corrects final rules that contain incomplete or erroneous citations in Chapter I of Title 23, Code of Federal Regulations.

EFFECTIVE DATE: June 17, 1977.

FOR FURTHER INFORMATION CONTACT:

Frank L. Calhoun, Office of the Chief Counsel (202/426-0762), Federal Highway Administration, 400 Seventh Street SW., Washington, D.C. 20590. Office hours Monday-Friday from 7:45 a.m. to 4:15 p.m. ET.

The following corrections are made by revising Chapter I of Title 23, Code of Federal Regulations:

PART 635—CONSTRUCTION AND MAINTENANCE

§ 635.104 [Amended]

1. In § 635.104(b), strike the period at the end of the third sentence and insert "of Part 635 of this Chapter.";

PART 646—RAILROADS

Appendix A [Amended]

2. In Part 645, Subpart B, Appendix A, Paragraph (11), § 424.206(g), is corrected to read "§ 645.206(g)";

§ 646.220 [Amended]

3. In § 646.220(b)(1), change the citation reading § 646.260(a)(3) to read "§ 646.206(a)(3)" and in (b)(2) change the citation reading § 646.206(a)(3) to read "§ 646.206(b)";

PART 650—BRIDGES, STRUCTURES, AND HYDRAULICS

§ 650.605 [Amended]

4. In § 650.605(a)(3), the citation in footnote No. 1 "23 CFR 625.3(a)(6)" is corrected to read "23 CFR 625.3" and in footnote No. 2 the address for AASHTO is changed from "341 National Press Building, Washington, D.C. 20045" to "Suite 225, 444 North Capitol Street, NW., Washington, D.C. 20001";

PART 720—APPRAISAL

§ 720.202 [Amended]

5. In § 720.202(f)(2)(i), the reference to § 720.2011(g) is corrected to read "§ 720.201(g)(1)";

PART 740—RELOCATION ASSISTANCE

§ 740.7 [Amended]

6. In § 740.7(f) the words "this Part 740, Subpart G" are changed to read "Part 140, Subpart G of this Chapter.";

PART 750—HIGHWAY BEAUTIFICATION

§ 750.304 [Amended]

7. In § 750.304(c)(4) the citation in the first sentence reading "23 CFR 710.24" is changed to read "23 CFR 710.204"; and

PART 771—ENVIRONMENTAL IMPACT AND RELATED STATEMENTS

§ 771.19 [Amended]

8. In § 771.19(g) the fourth sentence is changed to read "Separate circulation may be made if there are unusual conditions which warrant separate circulation."

AUTHORITY: (23 U.S.C. 315).

DOWELL H. ANDERO,
Acting Chief Counsel.

Title 27—Alcohol, Tobacco Products and Firearms

CHAPTER I—BUREAU OF ALCOHOL, TOBACCO AND FIREARMS, DEPARTMENT OF THE TREASURY

[T.D. ATF-43; Re: Notice No. 307]

PART 250—LIQUORS AND ARTICLES FROM PUERTO RICO AND THE VIRGIN ISLANDS

Elimination of the Serial-Number-of-Approved-Formula-Marking Requirement on Distilled Spirits Containers

AGENCY: Bureau of Alcohol, Tobacco and Firearms; Treasury.

ACTION: Final rule; Treasury decision.

SUMMARY: This rule eliminates the requirement of marking the serial number of the approved formula on containers of distilled spirits made in Puerto Rico and in the Virgin Islands of the United States, and shipped to the United States. Since the serial number of the approved formula is made available by other means of documentation, there is no need to require the serial number on the containers of distilled spirits. The Puerto Rican and Virgin Islands manufacturers will be relieved from meeting this marking requirement.

EFFECTIVE DATE: June 16, 1977. (Because this Treasury decision is liberalizing in nature and simplifying in terminology, it need not be subject to the effective date limitation of 5 U.S.C. 553(d).)

FOR FURTHER INFORMATION CONTACT:

A. N. Stickney, ATF&E Specialist, Research and Regulations Branch, Regulations and Procedures Division, (Regulatory Enforcement), Bureau of Alcohol, Tobacco and Firearms, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20226, 202-566-7626.

SUPPLEMENTARY INFORMATION: On January 27, 1977, a notice of proposed rulemaking was published in the FEDERAL REGISTER (42 FR 5104), which proposed to amend §§ 250.40 and 250.206 of the Liquors and Articles from Puerto Rico and the Virgin Islands regulations (27 CFR Part 250) to eliminate the requirement of marking the serial number of the approved formula number on distilled spirits containers shipped to the United States from Puerto Rico and from the Virgin Islands. Both sections presently provide that the referred-to markings appear on containers of distilled spirits produced in Puerto Rico and the Virgin Islands, and shipped to the United States.

In our analysis, we found that, in the case of Puerto Rican products, Form 478-B is a required application and permit document which identifies the formula number of all shipping containers. In the case of products of the Virgin Islands, the use of a certificate and a report of gauge, which accompany each shipment, provides complete information to identify the formula number with the serial number of each package gauged for shipment. In conclusion, by eliminat-

ing the approved formula requirement of §§ 250.40 and 250.206, we are still able to trace the origin and movement of the spirits so as to protect the revenue and consumers. Moreover, the Puerto Rican and Virgin Island manufacturers are relieved from the procedure of affixing, removing, and re-marking serial numbers on containers to be shipped to the United States.

Interested persons were given until March 14, 1977, to submit relevant data, views, or arguments regarding the proposal. Since comments received were in favor of adopting the proposals, the Director has decided to delete the requirement to mark the approved formula number on the containers.

(The principle author of this final rule is A. N. Stickney of the Research and Regulations Branch, Bureau of Alcohol, Tobacco and Firearms. Officials from the Bureau and from the Treasury Department, however, participated in developing the final rule, both on matters of substance and style.)

Accordingly, under the authority of 26 U.S.C. 7805 (68A Stat. 917) the proposed amendments of §§ 250.40 and 250.206 are adopted as set forth below.

Signed: May 23, 1977.

REX D. DAVIS,
Director.

Approved: June 8, 1977.

BETTE B. ANDERSON,
Under Secretary of the Treasury.

1. As amended, § 250.40 reads as follows:

§ 250.40 Marking containers of distilled spirits.

The distiller, rectifier, or bottler shall serially number each case, barrel, cask, or similar container of distilled spirits filled for shipment to the United States. In addition to the serial number of the container, the distiller, rectifier, or bottler shall plainly print, stamp, or stencil with durable coloring material, in letters and figures not less than one-half inch high, on the head of each barrel, cask or similar container or on one side of each case, as follows:

(a) The name of the distiller, rectifier, or bottler;

(b) The brand name and kind of liquor;

(c) The wine and proof gallon contents; or, for bottles filled according to the metric standards of fill prescribed by § 5.47a, of this chapter, the contents in liters and the proof of the spirits; and

(d) In the case of barrels or casks, the serial number of the permit to ship, Form 487–B, prefixed by the number of such form (e.g., "487–B–61–1").

2. As amended, § 250.206 reads as follows:

§ 250 206 Marking packages and cases.

The distiller, rectifier, or bottler shall serially number each case, barrel, cask, or similar container of distilled spirits filled for shipment to the United States. In addition to the serial number of the container, the distiller, rectifier, or bottler shall plainly print, stamp, or stencil with durable coloring material, in letters and figures not less than one-half inch high, on the head of each barrel, cask or similar container or on one side of each case, as follows:

(a) The name of the manufacturer;

(b) The brand name and kind of liquor; and

(c) The wine and proof gallon contents; or, for bottles filled according to the metric standards of fill prescribed by § 5.47a, of this chapter, the contents in liters and the proof of the spirits.

Title 29—Labor

SUBTITLE A—OFFICE OF THE SECRETARY OF LABOR

PART 29—LABOR STANDARDS FOR THE REGISTRATION OF APPRENTICESHIP PROGRAMS

Policies and Procedures; Corrections

AGENCY: Department of Labor.

ACTION: Corrections.

SUMMARY: In FR Doc. 77–5512, appearing at page 10137 in the FEDERAL REGISTER on Friday, February 18, 1977, several typographical errors appeared. Therefore, a number of corrections should be made to correct these errors, which were made during the printing of the document. None of the corrections affect the substance of the regulation.

EFFECTIVE DATE: March 21, 1977.

FOR FURTHER INFORMATION CONTACT:

James P. Mitchell, Deputy Administrator, Bureau of Apprenticeship and Training, Employment and Training Administration, Room 5000, Patrick Henry Building, Washington, D.C. 20213, Telephone No. 202–376–6585.

Accordingly, the following changes should be made in the text of 29 CFR Part 29:

1. On page 10139, delete the abbreviation "Sec.", which appears in the table of contents between the entry for § 29.3 and the entry for § 29.4.

2. On page 10141, invert the order of the last two lines in § 29.3(h) so that the last sentence of § 29.3(h), in its entirety, reads: "The registration agency shall provide a reasonable time period of not less than 30 days nor more than 60 days for receipt of union comments, if any, before final action on the application for registration and/or approval."

3. On page 10141, the third sentence of § 29.5(b)(4) is corrected to read as follows: "Such instruction may be given in a classroom through trade or industrial courses, or by correspondence courses of equivalent value, or other forms of self-study approved by the registration/approval agency."

Dated: June 13, 1977.

HUGH C. MURPHY,
Administrator, Bureau of Apprenticeship and Training, Employment and Training Administration.

Title 36—Parks, Forests, and Public Properties

CHAPTER II—FOREST SERVICE, DEPARTMENT OF AGRICULTURE

PART 222—RANGE MANAGEMENT

PART 231—GRAZING

Use of Helicopters in Management of Wild Free-Roaming Horses and Burros

AGENCY: Forest Service, USDA.

ACTION: Final rule.

SUMMARY: This amendment authorizes the use of helicopters, and, for transporting captured animals, motor vehicles in the administration of the Wild Free-Roaming Horse and Burro Act (16 U.S.C. 1331–1340). It also outlines how helicopters and motor vehicles are to be operated to ensure humane treatment of the animals. The amendment is necessary to implement provisions of section 9 of the act as required by section 404 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701). The authorized use of helicopters and motor vehicles will facilitate management of wild free-roaming horses and burros where they reside on National Forest System lands. In connection with this rulemaking, the Wild Free-Roaming Horse and Burro Regulations are being moved from 36 CFR 231.11 to 36 CFR Part 222, Subpart B. Some additional nonsubstantive language changes have been made to make the regulations easier to understand. Public comment on these changes was deemed to be unnecessary.

EFFECTIVE DATE: June 17, 1977.

FOR FURTHER INFORMATION CONTACT:

Don D. Seaman, Assistant Director, Range Management Staff, Forest Service, P.O. Box 2417, Washington, DC 20013, telephone 703–235–8139.

SUPPLEMENTAL INFORMATION: On March 7, 1977, a notice of proposed rulemaking was published in the FEDERAL REGISTER (42 FR 12890) for the purpose of authorizing the use of helicopters, and, for purposes of transporting captured animals, motor vehicles, in managing wild free-roaming horses and burros on National Forest System lands. The public was given until April 30, 1977, for interested parties to make written comments on the proposal. A March 7, 1977, FEDERAL REGISTER notice advised public meetings would be held to give interested parties an opportunity to speak on the proposal. Ten meetings were held. The written record of these meetings has been reviewed and considered in arriving at the final rule. Also written submissions received have been reviewed and considered.

The Bureau of Land Management of the Department of the Interior is also involved in amending regulations covering management of wild free-roaming horses and burros occurring on lands that Agency administers. Rulemaking has been a joint effort as were the public meetings. The final rule represents a coordinated effort.

Written comments were received by the Chief, Forest Service, from 11 parties. In addition, at the meetings there were comments by 80 individuals either for themselves or an organization they represented. Written submissions received by the Director, Bureau of Land Management, in connection with similar rulemaking have been reviewed and discussed to ensure consideration of all comments from the public.

Substantive comments received from all sources have been considered as follows:

COMMENTS LEADING TO CHANGES IN RULEMAKING

1. It was suggested that the definition of "malicious harassment" be clarified to include deliberate disregard for the welfare of the animals.

2. It was suggested that the definition of "humane treatment" be changed to remove redundant and limiting words.

3. Several parties suggested that helicopters should be available for use in connection with roundup actions involving claimed animals. The rule is amended so that such helicopter use can be authorized.

4. Comments received regarding use of fixed-wing aircraft suggested: (a) use no fixed-wing aircraft, (b) use no fixed-wing aircraft below 1,000 feet above the ground surface, and (c) ensure that wording in the rulemaking will permit utilization of fixed-wing aircraft to carry personnel and supplies to gather sites if needed. The rule is clarified to satisfy the concerns expressed.

5. The words "or injury" are added to the rules covering how helicopters will be used during capture operations as suggested by comments received.

6. Some comments received were concerned about sorting animals for transportation. Criteria for sorting and provisions for efficiency of operations were suggested. The rule is amended to consider these concerns.

7. Some other minor editorial changes have been made for clarification.

COMMENTS NOT LEADING TO CHANGES IN THE RULEMAKING

1. It was suggested that the definition of "malicious harassment" be reworded to remove the exclusion of the Agencies and to use only the dictionary definitions of the terms. This is not practical because the objective is to include any unlawful gathering of animals as malicious harassment regardless of the methods used. Therefore, to avoid confusion, lawful gathering of animals by the Agencies under humane, controlled conditions must be excluded from the meaning of the terms.

2. It was suggested that "undue stress" be defined. The term used in § 222.20(b)(5) is "unnecessary stress." The comments indicated a desire to set criteria for measuring stress. No criteria have been set which could be applied in the field. It is understood that the animals will be under stress during the operation. The intent of this rulemaking is to keep the stress to a minimum.

3. Several comments suggested elimination of trespass charges on claimed animals. Trespass was not a substantive issue in the proposed rulemaking.

4. Several comments suggested allowing State brand and estray laws to apply in ownership determinations. No change is needed since these are the standards currently used for Forest officers and the appropriate State official to determine ownership of claimed animals.

5. It was suggested that saddle horses used simultaneously with helicopters would add efficiency. No change is needed; both can be used on the same operation.

6. It was suggested that helicopters only be allowed to fly under 1,000 feet at the immediate capture site. This change is not made because a capable pilot and the authorized Forest officer must have flexibility to determine a safe and efficient altitude in accordance with field conditions and terrain encountered on each operation.

7. Suggestions were received to provide for more than one helicopter on a gather and to provide for ground to air communications. Both are permissible under the rules as written.

8. It was suggested that § 222.24(a)(4) be reworded to allow the utilization of wheeled vehicles in the actual driving and capture of animals. The change would violate existing law.

9. Suggestions were made that the rules provide for a representative of a humane organization to be in any helicopter engaged in a gather of horses and burros, that a public representative be present, and that the authorized officer always be in the helicopter. These changes are not made because, for safety and liability reasons, no one except the pilot and Federal officers should be in the helicopter and in certain situations the pilot may determine that no other person should be in the helicopter for safety reasons.

10. It was suggested that the rules be written to provide for gathering only one band at a time. Such a provision is impractical because there may be natural mixing of bands at water holes or accidental mixing of bands by the disturbance of a roundup. Additionally, the efficiency of operations and related expense of gathering in an area where several bands range would be significantly affected by a piecemeal effort directed to single bands of horses and burros.

11. It was suggested that no contract be issued on a per-head basis. To make the suggested provision would restrict contracting to a time-of-operation basis and could be expected to lead to much higher costs per animal captured.

12. A comment suggested that, in gathering and driving animals, weaker animals, such as colts and mares in foal, should be considered in setting the speed of movement. This is provided for in § 222.24(a)(2)(ii).

13. Several comments suggested that the regulations provide for notification to humane groups, special interest groups, and the general public and that hearings be conducted prior to each roundup. It is not necessary to include such provisions in these regulations; the provisions of the act relating to public hearings can be more efficiency complied with on a Ranger District or National Forest basis at the discretion of the Forest officer in charge.

14. It was suggested that these rules include a provision for medical examination of horses to ensure that disease is not transmitted to already domesticated animals. No change is needed. The precaution is already being taken.

SUGGESTED CHANGES EXCEEDING EXISTING AUTHORITY

The following suggested changes in the proposed rulemaking cannot be made because they violate existing authorities:

1. Allow roundup of wild free-roaming horses and burros by any method and free of charge by any individual.

2. Provide for the sale and passage of fee title on animals.

3. Pass all responsibility for wild free-roaming horses and burros to the State government.

4. Do not allow Federal Government to gather animals because of competition with free enterprise.

SUGGESTIONS TO BE CONSIDERED IN PREPARING FOREST SERVICE MANUAL TEXT

Additionally, these comments and suggestions relate to subjects which do not belong in the regulations but will be considered in the preparation of Manual directives for the program or in the specific plans for each roundup and capture operation:

1. Operate in a manner that will keep bands together.

2. If more than one band is handled at one time, transport the animals immediately after capture to minimize fighting and the chance of injury.

3. Consider issuing contracts to reliable individuals using saddle mounts to gather animals.

4. Provide for a reconnaissance flight to locate and map potential hazards such as cliffs and fences before a gather-and-drive is underway.

5. For the vehicles to be used to transport captured animals provide specific standards as to the construction of the inside of the vehicle, its condition as related to possible injury inflicting hazards, and the number of animals to be transported per vehicle.

6. In transporting of animals, provide for adequate rest periods and feeding and watering at appropriate intervals.

The redesignation of these regulations into subpart B, part 222 is one step in a long-term effort to correlate the numbering schemes used in Forest Service regulations and the Forest Service Manual. The last two digits in the CFR part designation (e.g., Part 222, Range Management) correspond to the first two digits of the Forest Service Manual (e.g., FSM 2200, Range Management). When the grazing regulations are amended later this year, they will be moved from part 231 to subpart A of Part 222.

The following table shows the relationship of these regulations before and after the redesignation:

Old part and section:	New part
	Part 231, Sec. 231.11—Part 222, Subpart B
Old section no.:	**New section no.**
231.11, introductory, and 231.11 (a)	222.20
231.11(b)	222.21
231.11(c)	222.22
231.11(d)	222.23
	222.24
231.11(e)	222.25
231.11(f)	222.26
231.11(g)	222.27
231.11(h)	222.28
231.11(i)	222.29
231.11(j)	222.30
231.11(k)	222.31
231.11(l)	222.32
231.11(m)	222.33
231.11(n)	222.34
231.11(o)	222.35
231.11(p)	222.36
231.11(q)	(1)

[1] Deleted.

NOTE.—The Department of Agriculture has determined that the publication of this rule is not a major Federal action significantly affecting the quality of the human environment and that a detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332 (2)(c)) is not required.

In light of the foregoing, 36 CFR Chapter II is amended as follows:

§ 231.11 [Removed]

Section 231.11 is deleted and its provisions are redesignated and transferred to part 222.

A new subpart B to part 222, consisting in part of the former provisions of § 231.11, is added as follows:

Subpart B—Management of Wild Free-Roaming Horses and Burros

Sec.

222.20 Authority and definitions.
222.21 Administration of wild free-roaming horses and burros and their environment.
222.22 Ownership claims.
222.23 Removal of other horses and burros.
222.24 Use of helicopters, fixed-wing aircraft and motor vehicles.
222.25 Protection of wild free-roaming horses and burros when they are upon other than National Forest System or the public lands.
222.26 Removal of wild free-roaming horses and burros from private lands.
222.27 Maintenance of wild free-roaming horses and burros on privately-owned lands.
222.28 Cooperative agreements.
222.29 Relocation of animals.
222.30 Disposal of animals.
222.31 Disposal of carcasses.
222.32 Use of non-Forest Service personnel.
222.33 Management coordination.
222.34 National Advisory Board.
222.35 Studies.
222.36 Arrest.

AUTHORITY: The provisions of this Subpart B are issued under 85 Stat. 649, as amended (16 U.S.C. 1331–1340); Sec. 1, 30 Stat. 35, as amended (16 U.S.C. 551); Sec. 32, 50 Stat. 522, as amended (7 U.S.C. 1011).

§ 222.20 Authority and definitions.

(a) *Authority.* The Chief, Forest Service, shall protect, manage, and control wild free-roaming horses and burros on lands of the National Forest System and shall maintain vigilance for the welfare of wild free-roaming horses and burros that wander or migrate from National Forest System lands. If these animals also use lands administered by the Bureau of Land Management as a part of their habitat, the Chief, Forest Service, shall cooperate to the fullest extent with the Department of the Interior through the Bureau of Land Management in administering the animals.

(b) *Definitions.* (1) "Act" means the Act of December 15, 1971 (85 Stat. 649, as amended, 16 U.S.C. 1331–1340).

(2) "Captured animal" means a wild free-roaming horse or burro taken and held in the custody of an authorized officer, his delegate or agent. This term does not apply to an animal after it is placed in private custody through a cooperative agreement.

(3) "Excess animals" means wild free-roaming horses or burros determined to be in excess of populations proper to maintain a thriving natural ecological balance and harmonious multiple use relationship on National Forest System lands.

(4) "Herd" means one or more stallions and their mares, or jacks and their jennies.

(5) "Humane treatment" means kind and merciful treatment, without causing unnecessary stress or suffering to the animal.

(6) "Malicious harassment" means any intentional act demonstrating deliberate disregard for the well-being of wild free-roaming horses and burros and which creates a likelihood of injury or is detrimental to normal behavior pattern of wild free-roaming horses or burros including feeding, watering, resting and breeding. Such acts include, but are not limited to, unauthorized chasing, pursuing, herding, roping or attempting to gather wild free-roaming horses or burros. It does not apply to activities conducted by, or on behalf of, the Forest Service or the Bureau of Land Management in implementation or performance of duties and responsibilities under the act.

(7) "National Advisory Board" means the Advisory Board as established jointly by the Secretary of Agriculture and the Secretary of the Interior under the provisions of the act.

(8) "National Forest System lands" include the National Forests, National Grasslands and other Federal lands for which the Forest Service has administrative jurisdiction.

(9) "Problem animal" means a wild free-roaming horse or burro whose demonstrated individual habits or traits pose an undue threat to the safety or welfare of persons, wildlife, livestock, or property.

(10) "Wild free-roaming horses and burros" mean all unbranded and unclaimed horses and burros and their progeny that have used lands of the National Forest System on or after December 15, 1971, or do hereafter use these lands as all or part of their habitat, but does not include any horse or burro introduced onto National Forest System lands on or after December 15, 1971, by accident, negligence, or willful disregard of private ownership. Unbranded, claimed horses and burros, where the claim is found to be erroneous, are also considered as wild and free-roaming if they meet the criteria above.

(11) "Wild horse and burro range" means an area of National Forest System land specifically so designated by the Chief, Forest Service, from wild horse and burro territory, for the purpose of sustaining an existing herd or herds of wild free-roaming horses and burros, Provided: the range does not exceed known territorial limits and is devoted principally but not necessarily exclusively to the welfare of the wild horses and burros in keeping with the multiple-use management concept for National Forest System lands.

(12) "Wild horse and burro territory" means National Forest System lands which are identified by the Chief, Forest Service, as the lands which were the territorial habitat of wild free-roaming horses and/or burros at the time of the passage of the act.

§ 222.21 Administration of wild free-roaming horses and burros and their environment.

(a) The Chief, Forest Service shall:

(1) Administer wild free-roaming horses and burros and their progeny on the National Forest System land in the areas where they now occur (wild horse and burro territory) to maintain a thriving ecological balance, considering them an integral component of the multiple use resources, and regualting their population and accompanying need for forage and habitat in correlation with that of uses recognized under the Multiple Use-Sustained Yield Act of June 12, 1960 (74 Stat. 215; 16 U.S.C. 528–531).

(2) Provide direct administration for the welfare of wild freeroaming horses and burros that are located on National Forest System land by use of the Forest Service organization rather than by the granting of leases and permits for maintenance of these animals to individuals and organizations.

(3) Establish wild horse and burro territories in accordance with the act and continue recognition of such territories where it is determined that horses and/or burros will be recognized as part of the natural system. The Chief may designate areas within these territories as a specific wild horse and burro range in those unique and singularly important situations where he determines such designation as especially fitting to meet the purposes of the act and the Multiple Use-Sustained Yield Act and after consultation with the appropriate State agencies where such range is proposed and with the National Advisory Board.

(4) Analyze each wild horse or burro territory and, based on said analysis, develop and implement a plan of management. The analysis and plans will be updated whenever needed as determined by conditions on each territory.

§ 222.22 Ownership claims.

(a) Any person claiming ownership under State branding and estray laws, of branded or unbranded horses or burros within a wild horse or burro territory or range on National Forest System lands where such animals are not authorized must present evidence of ownership to justify a roundup before permission will be granted to gather such animals. Claims of ownership with supporting evidence were required to be filed during a claiming period which expired November 15, 1973. Unauthorized privately owned horses or burros entering the National Forest System after November 15, 1973, which become intermingled with wild horses or burros, may be claimed by filing an application with the District Ranger. All authorizations to gather claimed animals shall be in writing in accordance with instructions as the Chief, Forest Service, may prescribe. After such public notice as an authorized officer deems appropriate to inform interested parties, gathering operations may be authorized. The authorization shall provide that the gathering or roundup be consistent with regulations, and will (1) establish a specific, reasonable period of time to allow the gathering of claimed animals; and (2) stipulate other conditions, including visual observation by Forest Service personnel, deemed necessary to assure humane treatment of associated wild free-roaming horses and burros and to protect other resources involved.

(b) Prior to removal of claimed animals which have been captured from National Forest System lands, claimants shall substantiate their claim of ownership in accordance with whatever criteria are cooperatively agreed to between the Forest Service and the State agency administering the State estray laws. In the absence of a cooperative agreement, ownership claims shall be substantiated in accordance with State law and subject to approval of the Forest Service.

§ 222.23 Removal of other horses and burros.

Horses and burros which do not come within the definition in § 222.20(b)(10) which are introduced onto Wild Horse and Burro Territories or Ranges after December 15, 1971, by accident, negligence, or willful disregard of private ownership, and which do not become intermingled with wild free-roaming horses or burros, shall be considered as unauthorized livestock and treated in accordance with provisions in 36 CFR 261.7 and 262.2.

§ 222.24 Use of helicopters, fixed-wing aircraft and motor vehicles.

(a) The Chief, Forest Service, is authorized to use helicopters, fixed-wing aircraft, and motor vehicles in a manner that will ensure humane treatment of wild free-roaming horses and burros as follows:

(1) Prior to using helicopters in capture operations and/or using motor vehicles for the purpose of transporting captured animals, a public meeting will be held in the proximity of the territory where the capture operation is proposed.

(2) Helicopters may be used in all phases of the administration of the act including, but not limited to, inventory, observation, surveillance and capture operations. In capture operations, helicopters may be used to locate the animals involved, to assist ground crews in moving the animals, and for related purposes such as to transport personnel and equipment. The condition of the animals shall be continuously observed by the authorized officer and, should signs of harmful stress be noted, the source of stress shall be removed so as to allow recovery. Helicopters may be used in roundups or other capture operations subject to the following procedures:

(i) Helicopters shall be used in such a manner that bands or herds will tend to remain together.

(ii) Horses or burros will not be moved at a rate which exceeds limitations set by the authorized officer who shall consider terrain, weather, distance to be traveled and condition of the animals.

(iii) The helicopter shall be used to observe the presence of dangerous areas and may be used to move animals away from hazards during capture operations.

(iv) During capture operations, animals shall be moved in such a way as to prevent harmful stress or injury.

(v) The authorized officer shall supervise all helicopter use as follows:

(A) Have means to communicate with the pilot and be able to direct the use of the helicopter.

(B) Be able to observe effects of the use of the helicopter on the well-being of the animals.

(3) Fixed-wing aircraft may be used for inventory, observation and surveillance purposes necessary in administering the act. Such use shall be consistent with the Act of September 8, 1959, as amended (18 U.S.C. 41 et seq.). Fixed-wing aircraft shall not be used in connection with capture operations except as support vehicles.

(4) Motor vehicles may be used in the administration of the act except that such vehicles shall not be used for driving or chasing wild horses or burros in capture operations. Motor vehicles may also be used for the purpose of transporting captured animals, subject to the following humane procedures:

(i) Such transportation shall comply with appropriate State and Federal laws and regulations applicable to humane transportation of horses and burros.

(ii) Vehicles shall be inspected by an authorized officer prior to use to ensure vehicles are in good repair and of adequate rated capacity.

(iii) Vehicles shall be carefully operated to ensure that captured animals are transported without undue risk or injury.

(iv) Where necessary and practical, animals shall be sorted as to age, temperament, sex, size and condition so as to limit, to the extent possible, injury due to fighting and trampling.

(v) The authorizing officer shall consider the condition of the animals, weather conditions, type of vehicle, and distance to be traveled when planning for transportation of captured animals.

§ 222.25 Protection of wild free-roaming horses and burros when they are upon other than National Forest System or public lands.

Individual animals and herds of wild free-roaming horses and burros will be under the protection of the Chief, Forest Service, even though they may thereafter move to lands of other ownership or jurisdiction as a part of their annual territorial habitat pattern or for other reasons. The Chief will exercise surveillance of these animals through the use of cooperative agreements and as otherwise authorized by law, and act immediately through appropriate administrative or criminal and civil judicial procedures to provide them the protective measures of the act at any time he has cause to believe its provisions are being violated.

§ 222.26 Removal of wild free-roaming horses and burros from private lands.

Owners of land upon which wild free-roaming horses and burros have strayed from National Forest System lands may request their removal by calling the nearest office of either the Forest Service or Federal Marshal.

§ 222.27 Maintenance of wild free-roaming horses and burros on privately-owned lands.

Owners of land who wish to maintain wild free-roaming horses and burros which have strayed onto their lands from National Forest System lands may do so by notifying the nearest office of the Forest Service in a timely fashion and providing such information on a continuing basis as the Chief, Forest Service, may require. Such owners shall protect the wild free-roaming horses and burros on their lands. They may not, in so maintaining these animals, impede their return to National Forest System lands unless authorized by cooperative agreement with the Forest Service.

§ 222.28 Cooperative agreements.

The Chief, Forest Service, may enter into cooperative agreements as he deems necessary to further the protection, management, and control of wild free-roaming horses and burros.

§ 222.29 Relocation of animals.

(a) The Chief, Forest Service, may cause wild free-roaming horses and burros to be captured under the supervision

of Forest Service personnel and relocated if they are found to be "excess" animals, "problem" animals, or if it is necessary to prevent their repetitive return to private land from which their removal has been requested.

(1) Relocation upon National Forest System land may be made only to areas identified as 1971 Horse or Burro Territory, and if suitable habitat capacity is available.

(2) Animals may be placed in the custody of private persons, organizations, and other governmental agencies through the use of a cooperative agreement. Such custodial care arrangements must require that the animals be maintained and protected in accordance with the act, and not used for commercial exploitation.

§ 222.30 Disposal of animals.

(a) No person except an authorized Forest officer shall destroy any wild free-roaming horse or burro located on National Forest System lands. Such Forest officer may destroy wild free-roaming horses or burros under the following circumstances:

(1) Severely injured or seriously sick animals may be destroyed immediately in the most humane manner possible as an Act of Mercy.

(2) Old, sick, and lame animals may be destroyed in the most humane manner possible. The National Advisory Board will be requested to recommend guidelines to be followed in such action.

(3) When the Chief, Forest Service, finds it necessary to remove wild free-roaming horses or burros for the reasons identified in § 222.29 and determines there is no practical way to effect either their capture or their relocation, the animal(s) shall be destroyed in the most humane manner possible.

§ 222.31 Disposal of carcasses.

The remains of deceased wild free-roaming horses and burros, including those in the custody of private parties, may be disposed of in any customary manner under State sanitary codes, but in no event will they be processed into a commercial product.

§ 222.32 Use of non-Forest Service personnel.

The Chief, Forest Service, may authorize the use of non-Forest Service personnel to assist in specific situations of short duration.

§ 222.33 Management coordination.

All management activities by the Chief, Forest Service, shall be carried out in consultation with the appropriate agencies of the State involved. The expert advice of qualified scientists in the fields of biology and ecology shall also be sought in administering wild free-roaming horses and burros. The advice and suggestions of agencies, qualified scientists, and other qualified interest groups shall be made available to the National Advisory Board for their use and consideration. Actions taken in connection with private ownership claims shall be coordinated to the fullest extent possible with the State agency responsible for livestock estray law administration.

§ 222.34 National Advisory Board.

The Chief, Forest Service, shall appoint a representative to attend meetings of the National Advisory Board for Wild Free-Roaming Horses and Burros and to function as prescribed by the Memorandum of Agreement between the Department of the Interior and the Department of Agriculture and the Joint Charter issued by the Secretary of the Interior and the Secretary of Agriculture. Policies and guidelines relative to proposals for the establishment of ranges, adjustments in number, relocation and disposal of animals, and other matters relating generally to the protection, management, and control of wild free-roaming horses and burros shall be presented to the National Advisory Board for recommendations.

§ 222.35 Studies.

The Chief, Forest Service, is authorized and directed to undertake those studies of the habits and habitat of wild free-roaming horses and burros that he may deem necessary. In doing so, he shall consult with the appropriate agencies of the State(s) involved.

§ 222.36 Arrest.

Any employee designated by the Chief, Forest Service, shall have the power to arrest without warrant, any person committing in the present of the employee a violation of the act and to take such person immediately for examination or trial before an officer or court of competent jurisdiction. Any employee so designated shall have power to execute any warrant or other process issued by an officer or court of competent jurisdiction to enforce the provisions of the act.

M. RUPERT CUTLER,
Assistant Secretary.

CHAPTER II—FEDERAL RAILROAD ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 76-01]

PART 258—REGULATIONS GOVERNING SECTION 505 OF THE RAILROAD REVITALIZATION AND REGULATORY REFORM ACT OF 1976, AS AMENDED

Final Standards for Evaluation and Other Miscellaneous Amendments; Correction

AGENCY: Federal Railroad Administration, DOT.

ACTION: Correction.

SUMMARY: In FR Doc. 77-15923 appearing at page 28976 in the FEDERAL REGISTER of Monday, June 6, 1977, the following change should be made in section 258.27(b)(1):

The fourth line from the bottom of column 3 of page 28985 is corrected to read "density in (iv), (vi), (vii) and (viii), above,".

FOR FURTHER INFORMATION CONTACT:

Jeffrey K. Mercer, Office of Chief Counsel, Federal Railroad Administration, Washington, D.C. (202) 426-7737.

Dated: June 14, 1977.

BRUCE M. FLOHR,
Deputy Administrator.

[Docket No. 76-01]

PART 258—REGULATIONS GOVERNING SECTION 505 OF THE RAILROAD REVITALIZATION AND REGULATORY REFORM ACT OF 1976, AS AMENDED

Final Standards for Evaluation and Other Miscellaneous Amendments

Correction

In FR Doc. 77-15293 appearing at page 28976 in the issue for Monday, June 6, 1977, make the following changes:

1. On page 28978, first column, fourth full paragraph, the fourteenth line, now reading "cial purpose trucks. Pickup trucks will be", should read "ards, provide that a project will be".

2. On page 28979, middle column, in the fifteenth line of the fourth full paragraph "With a continued experience" should read "With continued experience".

3. In the third line of the introductory paragraph of § 258.7(b), third column, page 28981, "(pur)chased" should read "(pur)chase".

4. In the second line of the introductory paragraph of § 258.9(c), first column, page 28982, "yearend" should read "year end".

5. In the second line of § 258.9(c)(3), page 28982, first column, the period between "741" and "Other Assets" should be a comma.

6. In the fifth line of the introductory paragraph of § 258.9(e), page 28982, middle column, "proceed" should read "proceeds".

7. In the third line of § 258.9(g), page 28982, middle column, delete the comma between "years" and "sub-".

8. In the fourth line of § 258.19(b), page 28983, third column, delete "or internally".

9. In the 17th line from the end of § 258.23(a), page 28984, middle column, delete "below".

10. In the sixth line of § 258.27(b)(2)(ii), page 28986, first column, "markekt" should read "market".

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[SO 1226; Amdt. 3]

PART 1033—CAR SERVICE

Chicago, Milwaukee, St. Paul and Pacific Railroad Company Authorized To Operate Over Tracks of Chicago and North Western Transportation Company

AGENCY: Interstate Commerce Commission.

ACTION: Emergency order (Amendment No. 3 to Service Order No. 1226).

SUMMARY: Service Order No. 1226 authorizes the Chicago, Milwaukee, St. Paul and Pacific to operate over 2.77 miles of the Chicago & North Western Transportation Company at Fond du Lac, Wisconsin. Rerouting of trains of the Chicago, Milwaukee, St. Paul and Pacific over tracks of the Chicago and North Western contributes to public safety by eliminating train movements over nineteen street crossings and two railroad crossings at grade.

DATES: Effective 11:59 p.m., June 15, 1977; Expires 11:59 p.m., November 15, 1977.

FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, telephone 202-275-7840, Telex 89-2742.

SUPPLEMENTARY INFORMATION: The order is reprinted in full below.

At a Session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 13th day of June, 1977.

Upon further consideration of Service Order No. 1226 (40 FR 59598; 41 FR 27728 and 42 FR 3310) and good cause appearing therefor:

It is ordered, That:

§ 1033.1226 Chicago, Milwaukee, St. Paul and Pacific Railroad Company authorized to operate over tracks of Chicago and North Western Transportation Company.

Service Order No. 1226 be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., November 15, 1977, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date: This amendment shall become effective at 11:59 p.m., June 15, 1977.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2).)

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board members Joel E. Burns, Robert S. Turkington, and John R. Michael. Member John R. Michael not participating.

H. G. HOMME, JR.,
Acting Secretary.

[SO 1254; Amdt. 2]

PART 1033—CAR SERVICE

Vermont Northern Railroad Company Authorized to Operate Over Tracks Owned by State of Vermont and Formerly Operated by St. Johnsbury & Lamoille County Railroad

AGENCY: Interstate Commerce Commission.

ACTION: Emergency order (Amendment No. 2 to Service Order No. 1254)

SUMMARY: Service Order No. 1254 authorizes the Vermont Northern Railway to operate a railroad owned by the State of Vermont between St. Johnsbury, Vermont and Swanton, Vermont, in order to provide essential railroad service to shippers served by that line.

DATES: Effective 11:59 p.m., June 30, 1977. Expires 11:59 p.m., September 30, 1977.

FOR FURTHER INFORMATION CONTACT:

C. C. Robinson, Chief, Utilization and Distribution Branch, Interstate Commerce Commission, Washington, D.C. 20423, telephone 202-257-7840, Telex 89-2742.

SUPPLEMENTARY INFORMATION: The order is reprinted in full below.

At a Session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 13th day of June, 1977.

Upon further consideration of Service Order No. 1254 (41 F.R. 48122 and 42 F.R. 3309), and good cause appearing therefor:

It is ordered, That:

§ 1033.1254 Vermont Northern Railroad Company authorized to operate over tracks owned by State of Vermont and formerly operated by St. Johnsbury & Lamoille County Railroad.

Service Order No. 1254 be, and it is hereby, amended by substituting the following paragraph (f) for paragraph (f) thereof:

(f) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., September 30, 1977, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date: This amendment shall become effective at 11:59 p.m., June 30, 1977.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10-17), 15(4), and 17(2). 40 Stat. 101 (as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2).)

It is further ordered, That a copy of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Joel E. Burns, Robert S. Turkington and John R. Michael. Member John R. Michael not participating.

H. GORDON HOMME, JR.,
Acting Secretary.

Title 50—Wildlife and Fisheries

CHAPTER III—INTERNATIONAL REGULATORY AGENCIES (FISHING AND WHALING)

SUBCHAPTER C—INTERNATIONAL PACIFIC SALMON FISHERIES COMMISSION

PART 371—FRASER RIVER SOCKEYE AND PINK SALMON FISHERY

Fraser River Sockeye and Pink Salmon Regulations

AGENCY: National Oceanic and Atmospheric Administration/Commerce.

ACTION: Emergency regulations.

SUMMARY: These regulations implement the Convention between Canada and the United States for the protection, preservation, and extension of the sockeye and pink salmon fisheries of the Fraser River System. The rules include general sockeye and pink salmon fishing rules promulgated by NOAA and rules governing fishing seasons promulgated by the International Pacific Salmon Fisheries Commission. These rules do not apply to treaty Indians exercising treaty-secured fishing rights at the tribe's usual and accustomed grounds and stations.

EFFECTIVE DATE: 0001 a.m. on June 26, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Donald Johnson, Northwest Regional Director, National Marine Fisheries Service, Seattle, Washington 98109, (206-442-7575).

SUPPLEMENTARY INFORMATION: On June 1, 1977, the International Pacific Salmon Fisheries Commission, acting under the authority of the Convention between Canada and the United States for the protection, preservation, and extension of the sockeye and pink salmon fisheries of the Fraser River System, forwarded to the Governments of Canada and the United States for the approval required by Article VI of the Convention the regulations to be applicable during the 1977 fishing season in Convention waters. The United States, acting

through the Department of State, has approved the regulations (except as to treaty Indians exercising treaty-secured fishing rights at the tribe's usual and accustomed grounds and stations). Such Indian fishing is governed by amendments to 25 CFR, Part 256 to be published by the Department of the Interior June 17, 1977. Subpart A contains general rules which implement the Sockeye Salmon or Pink Salmon Fishing Act of 1947, 16 U.S.C. 776–776f, and apply to fishing conducted under the Commission's regulations. The appendix is a verbatim reprint of the Commission's regulations. As the Federal agency responsible for enforcement of the Convention, the Commission's regulations, and the Sockeye Salmon Act, the National Marine Fisheries Service hereby for good cause finds that, because the fishing season begins on June 26, 1977, and these regulations are necessary to meet the obligations of the United States under the Convention, the advance notice, public procedures, and delayed effectiveness provisions of 5 U.S.C. 553 are impracticable and contrary to the public interest. These regulations are therefore effective 0001 hours local time on June 26, 1977.

Issued at Washington, D.C., this 14th day of June 1977.

JACK W. GEHRINGER,
Deputy Director,
National Marine Fisheries Service.

Accordingly, 50 CFR is amended by adding new Part 371 as follows:

Sec.
371.1 Purpose of regulations.
371.2 Scope of regulations.
371.3 Definitions of terms.
371.4 Other laws and regulations.
371.5 Reporting requirements.
37.16 Notice of change.
371.7 Unlawful possession.
371.8 Forcible assault of enforcement officer.

APPENDIX A—INTERNATIONAL PACIFIC SALMON FISHERIES COMMISSION

AUTHORITY: The provisions of Subpart A are issued under Sockeye or Pink Salmon Fishery Act of 1947, 16 U.S.C. 776–776f.

§ 371.1 Purpose of regulations.

The regulations in this Subpart A implement the convention between the United States and Canada for the protection of sockeye and pink salmon fisheries of the Frazer River System, and the sockeye or Pink Salmon Fishing Act of 1947.

§ 371.2 Scope of regulations.

This Part 371 applies to all fishing for sockeye salmon or pink salmon conducted in U.S. convention waters during the time the Commission exercises jurisdiction over the sockeye salmon and pink salmon fishery.

§ 371.3 Definition of terms.

When used in this Subchapter C: (a) Act means: the Sockeye or Pink Salmon Fishery Act of 1947, 16 U.S.C. 776–776f.

(b) Commission means: the International Pacific Salmon Fisheries Commission provided for by article 11 of the convention.

(c) Convention means: the convention between the United States of America and the Dominion of Canada for the protection, preservation, and extension of the sockeye salmon fisheries of the Fraser River system, signed at Washington on the 26th day of May 1930, as amended by the protocol to the convention, signed at Ottawa on the 28th day of December 1956.

(d) Convention waters means: those waters described in article I of the convention.

(e) Enforcement Officer means: (1) any enforcement agent of the National Marine Fisheries Service.

(2) Any commissioned, warrant, or petty officer of the Coast Guard;

(3) Any Coast Guard personnel accompanying and acting under the direction of any person described in paragraph (e) (2) of this section

(4) Any other person authorized by the Regional Director, Northwest Region, National Marine Fisheries Service to enforce the provisions of the convention, the Commission's regulations, the Act and this part 371.

(f) Fish, Fishing means: The fishing for, catching, or taking, or the attempted fishing for, catching, or taking, of any sockeye salmon or pink salmon in convention waters.

(g) Fishing gear means: any net, trap, hook, or other device, appurtenance or equipment, of whatever kind or description, used or capable of being used, for the purpose of capturing fish or an aid in capturing fish.

(h) Gillnet means: Gillnet as defined in Washington Administrative Code Chapter 220–16, and lawful gillnet as defined in Washington Administrative Code Chapter 220–47.

(i) Person means: The word "person" includes individuals, partnership, associations, and corporations.

(j) Pink salmon means: That species of salmon known by the scientific name *Oncorhyuchus gorbuscha.*

(k) Purse seine means: Purse seine as defined in Washington Administrative Code Chapter 220–16 and lawful purse seine as defined in Washington Administrative Code Chapter 220–47.

(l) Reef net means: Reef net as defined in Washington Administrative Code Chapter 220–16 and lawful reef net as defined in Washington Administrative Code Chapter 220–47.

(m) Salmon preserves means: Salmon preserves defined in Washington Administrative Code Chapter 220–47.

(n) Sockeye salmon means: That species of salmon known by the scientific name *Oncorhynchus nerka.*

(o) State areas means: Fishing areas defined as Puget Sound Salmon Management and Catch Reporting Areas in Washington Administrative Code Chapter 220–22.

(p) Troll line means: Troll line as defined in Washington Administrative Code Chapter 220–16 and lawful troll line as defined in Washington Administrative Code Chapter 220–47.

§ 371.4 Other laws and regulations.

Nothing in Part 371 shall be construed to relieve a person from any other requirements imposed by a law, statute or regulation of the United States or of the State of Washington.

§ 371.5 Reporting requirements.

(a) Any person receiving or purchasing fish caught by any person fishing under Appendix A of this Part 371 shall comply with Washington Administrative Code, Chapter 220-69.

(b) Any person fishing under Appendix A of this part 371 selling these fish directly to the consumer, restaurant, boathouse or any other retail outlet shall comply with Washington Administrative Code Chapter 220–69.

§ 371.6 Notice of change in regulations.

The regulations of the Commission regarding the times permissible to fish are subject to frequent change by emergency order. Emergency orders are published by news releases to radio stations and newspapers in the fishing area. In addition, these orders will be available by calling the National Marine Fisheries Service Hotline 800–562–2870. The emergency orders will be effective from the time of publication or as stated in the order.

§ 371.7 Unlawful possession.

No person shall possess or retain on board a fishing vessel a sockeye or pink salmon while engaged in a fishery for other species in U.S. Convention waters during times these waters are closed by the Commission.

§ 371.8 Forcible assault of enforcement officer.

No person fishing under Appendix A to this Part 371 shall forcibly assault, resist, oppose, impede, intimidate or interfere with an enforcement officer engaged in enforcing the convention, the Commission's regulations, the Act or this Part 371.

APPENDIX A—INTERNATIONAL PACIFIC SALMON FISHERIES COMMISSION REGULATIONS

AUTHORITY: Art. IV, 50 Stat. 1355, T.S. 918.

1. (1) No person shall fish for sockeye or pink salmon with purse seines in the Convention Waters of the United States of America lying westerly of a straight line drawn from Angles Point in the State of Washington across Race Rocks to William Head in the Province of British Columbia:

(a) From the 26th day of June, 1977 to the 13th day of August, 1977, both dates inclusive, except from five o'clock in the forenoon to half past nine o'clock in the afternoon of Monday and Tuesday of each week; and

(b) From the 14th day of August, 1977 to the 17th day of September, 1977, both dates inclusive, except from five o'clock in the forenoon to nine o'clock in the afternoon of Monday and Tuesday of each week.

(2) No person shall fish for sockeye or pink salmon with gill nets in the waters described in subsection (1) of this section:

(a) From the 26th day of June, 1977 to the 2nd day of July, 1977; from the 10th day of July, 1977 to the 16th day of July, 1977; from the 24th ady of July, 1977 to the 30th day of July, 1977; and from the 7th day of August, 1977 to the 13th day of August, 1977, all dates inclusive, except from seven o'clock in the afternoon of Monday to half past nine o'clock in the forenoon of Tuesday and from seven o'clock in the afternoon of Tuesday to half past nine o'clock in the forenoon of Wednesday of each week;

(b) From the 3rd day of July, 1977 to the 9th day of July, 1977; from the 17th day of July, 1977 to the 23rd day of July, 1977; and from the 31st day of July, 1977 to the 6th day of August, 1977, all dates inclusive, except from seven o'clock in the afternoon of Sunday to half past nine o'clock in the forenoon of Monday and from seven o'clock in the afternoon of Monday to half past nine o'clock in the forenoon of Tuesday of each week; and

(c) From the 14th day of August, 1977 to the 20th day of August, 1977; from the 28th day of August, 1977 to the 3rd day of September, 1977; and from the 11th day of September, 1977 to the 17th day of September, 1977, all dates inclusive, except from six o'clock in the afternoon of Sunday to nine o'clock in the forenoon of Monday and from six o'clock in the afternoon of Monday to nine o'clock in the forenoon of Tuesday of each week; and

(d) From the 21st day of August, 1977 to the 27th day of August, 1977; and from the 4th day of September, 1977 to the 10th day of September, 1977, all dates inclusive, except from six o'clock in the afternoon of Monday to nine o'clock in the forenoon of Tuesday and from six o'clock in the afternoon of Tuesday to nine o'clock in the forenoon of Wednesday of each week.

(3) No person shall fish for sockeye or pink salmon with commercial trolling gear in the waters described in subsection 1 of this section from the 26th day of June, 1977 to the 17th day of September, 1977, both dates inclusive, except from Monday to Friday of each week on those days when purse seine fishing is permitted within that area.

2. (1) No person shall fish for sockeye or pink salmon with purse seines in the Convention Waters of the United States of America lying easterly of a straight line drawn from Angles Point in the State of Washington across Race Rocks to William Head in the Province of British Columbia:

(a) From the 26th day of June, 1977 to the 13th day of August, 1977, both dates inclusive, except from five o'clock in the forenoon to half past nine o'clock in the afternoon of Monday and Tuesday of each week; and

(b) From the 14th day of August, 1977 to the 24th day of September 1977, both dates inclusive, except from five o'clock in the forenoon to half past nine o'clock in the afternoon of Monday and Tuesday of each week.

(2) No person shall fish for sockeye or pink salmon with reef nets in the waters described in subsection (1) of this section:

(a) From the 26th day of June, 1977 to the 2nd day of July, 1977; from the 10th day of July, 1977 to the 16th day of July, 1977; from the 24th day of July, 1977 to the 30th day of July, 1977; and from the 7th day of August, 1977 to the 13th day of August, 1977, all dates inclusive, except from seven o'clock in the afternoon of Monday to half past nine o'clock in the forenoon of Tuesday and from seven o'clock in the afternoon of Tuesday to half past nine o'clock in the forenoon of Wednesday of each week;

(b) From the 3rd day of July, 1977 to the 9th day of July, 1977; from the 17th day of July, 1977 to the 23rd day of July, 1977; and from the 31st day of July, 1977 to the 6th day of August, 1977, all dates inclusive, except from half past ten o'clock in the forenoon to half past nine o'clock in the afternoon of Sunday, from five o'clock in the forenoon to half past nine o'clock in the afternoon of Monday, and from five o'clock in the forenoon to half past ten o'clock in the forenoon of Tuesday of each week; and

(c) From the 14th day of August, 1977 to the 20th day of August, 1977; from the 28th day of August, 1977 to the 3rd day of September, 1977; and from the 11th day of September, 1977 to the 17th day of September, 1977, all dates inclusive, except from half past ten o'clock in the forenoon to nine o'clock in the afternoon of Sunday, from five o'clock in the forenoon to nine o'clock in the afternoon Monday, and from five o'clock in the forenoon to half past ten o'clock in the forenoon of Tuesday of each week; and

(d) From the 21st day of August, 1977 to the 27th day of August, 1977; from the 4th day of September, 1977 to the 10th day of September, 1977; and from the 18th day of September, 1977 to the 24th day of September, 1977, all dates inclusive, except from seven o'clock in the afternoon to nine o'clock in the afternoon of Monday, from five o'clock in the forenoon to nine o'clock in the afternoon of Tuesday, and from five o'clock in the forenoon to seven o'clock in the afternoon of Wednesday of each week.

(3) No person shall fish for sockeye or pink salmon with gill nets in the waters described in subsection (1) of this section:

(a) From the 26th day of June, 1977 to the 2nd day of July, 1977; from the 10th day of July, 1977 to the 16th day of July, 1977; from the 24th day of July, 1977 to the 30th day of July, 1977; and from the 7th day of August, 1977 to the 13th day of August, 1977, all dates inclusive, except from seven o'clock in the afternoon of Monday to half past nine o'clock in the forenoon of Tuesday and from seven o'clock in the afternoon of Tuesday to half past nine o'clock in the forenoon of Wednesday of each week; and

(b) From the 3rd day of July, 1977 to the 9th day of July, 1977; from the 17th day of July, 1977 to the 23rd day of July, 1977; and from the 31st day of July, 1977 to the 6th day of August, 1977, all dates inclusive, except from half past ten o'clock in the forenoon to half past nine o'clock in the afternoon of Sunday, from five o'clock in the forenoon to half past nine o'clock in the afternoon of Monday, and from five o'clock in the forenoon to half past ten o'clock in the forenoon of Tuesday of each week; and

(c) From the 14th day of August, 1977 to the 20th day of August, 1977; from the 28th day of August, 1977 to the 3rd day of September, 1977; and from the 11th day of September, 1977 to the 17th day of September, 1977, all dates inclusive, except from half past ten o'clock in the forenoon to nine o'clock in the afternoon of Sunday, from five o'clock in the forenoon to nine o'clock in the afternoon Monday, and from five o'clock in the forenoon to half past ten o'clock in the forenoon of Tuesday of each week; and

(d) From the 21st day of August, 1977 to the 27th day of August, 1977; from the 4th day of September, 1977 to the 10th day of September, 1977; and from the 18th day of September, 1977 to the 24th day of September, 1977, all dates inclusive, except from seven o'clock in the afternoon to nine o'clock in the afternoon of Monday, from five o'clock in the forenoon to nine o'clock in the afternoon of Tuesday, and from five o'clock in the forenoon to seven o'clock in the afternoon of Wednesday of each week.

(3) No person shall fish for sockeye or pink salmon with gill nets in the waters described in subsection (1) of this section:

(a) From the 26th day of June, 1977 to the 2nd day of July, 1977; from the 10th day of July, 1977 to the 16th day of July, 1977; from the 24th day of July, 1977 to the 30th day of July, 1977; and from the 7th day of August, 1977 to the 13th day of August, 1977, all dates inclusive, except from seven o'clock in the afternoon of Monday to half past nine o'clock in the forenoon of Tuesday and from seven o'clock in the afternoon of Tuesday to half past nine o'clock in the forenoon of Wednesday of each week;

(b) From the 3rd day of July, 1977 to the 9th day of July, 1977; from the 17th day of July, 1977 to the 23rd day of July, 1977; and from the 31st day of July, 1977 to the 6th day of August, 1977, all dates inclusive, except from half past ten o'clock in the forenoon to half past nine o'clock in the afternoon of Sunday, from five o'clock in the forenoon to half past nine o'clock in the afternoon of Monday, and from five o'clock in the forenoon to half past ten o'clock in the forenoon of Tuesday of each week; and

(c) From the 14th day of August, 1977 to the 20th day of August, 1977; from the 28th day of August, 1977 to the 3rd day of September, 1977; and from the 11th day of September, 1977 to the 17th day of September, 1977, all dates inclusive, except from half past ten o'clock in the forenoon to nine o'clock in the afternoon of Sunday, from five o'clock in the forenoon to nine o'clock in the afternoon Monday, and from five o'clock in the forenoon to half past ten o'clock in the forenoon of Tuesday of each week; and

(d) From the 21st day of August, 1977 to the 27th day of August, 1977; from the 4th day of September, 1977 to the 10th day of September, 1977; and from the 18th day of September, 1977 to the 24th day of September, 1977, all dates inclusive, except from seven o'clock in the afternoon to nine o'clock in the afternoon of Monday, from five o'clock in the forenoon to nine o'clock in the afternoon of Tuesday, and from five o'clock in the forenoon to seven o'clock in the afternoon of Wednesday of each week.

(3) No person shall fish for sockeye or pink salmon with gill nets in the waters described in subsection (1) of this section:

(a) From the 26th day of June, 1977 to the 2nd day of July, 1977; from the 10th day of July, 1977 to the 16th day of July, 1977; from the 24th day of July, 1977 to the 30th day of July, 1977; and from the 7th day of August, 1977 to the 13th day of August, 1977, all dates inclusive, except from seven o'clock in the afternoon of Monday to half past nine o'clock in the forenoon of Tuesday and from seven o'clock in the afternoon of Tuesday to half past nine o'clock in the forenoon of Wednesday of each week;

(b) From the 3rd day of July, 1977 to the 9th day of July, 1977; from the 17th day of July, 1977 to the 23rd day of July, 1977; and from the 31st day of July, 1977 to the 6th day of August, 1977, all dates inclusive, except from half past ten o'clock in the forenoon to half past nine o'clock in the afternoon of Sunday, from five o'clock in the forenoon to half past nine o'clock in the afternoon of Monday, and from five o'clock in the forenoon to half past ten o'clock in the forenoon of Tuesday of each week; and

(c) From the 14th day of August, 1977 to the 20th day of August, 1977; from the 28th day of August, 1977 to the 3rd day of September, 1977; and from the 11th day of September, 1977 to the 17th day of September, 1977, all dates inclusive, except from half past ten o'clock in the forenoon to nine o'clock in the afternoon of Sunday, from five o'clock in the forenoon to nine o'clock in the afternoon Monday, and from five o'clock in the forenoon to half past ten o'clock in the forenoon of Tuesday of each week; and

(d) From the 21st day of August, 1977 to the 27th day of August, 1977; from the 4th day of September, 1977 to the 10th day of September, 1977; and from the 18th day of September, 1977 to the 24th day of September, 1977, all dates inclusive, except from seven o'clock in the afternoon to nine o'clock in the afternoon of Monday, from five o'clock in the forenoon to nine o'clock in the afternoon of Tuesday, and from five o'clock in the forenoon to seven o'clock in the afternoon of Wednesday of each week.

3. (1) No person shall fish for sockeye or pink salmon with nets within the described waters of subsection (1) of section 2 lying southerly and easterly of a line projected from Dungeness Light to Smith Island Light to Lawson Reef Lighted Buoy to Northwest Island, thence due east to Fidalgo Island from the 14th day of August, 1977 to the 10th day of September, 1977, both dates inclusive, except with nets having mesh not less than 8 inches extension measure at times when fishing by each gear is permitted in State Fishing Area 7.

(2) No person shall fish for sockeye or pink salmon with nets in that portion of the waters described in subsection (1) of section 2 lying northerly and westerly of a straight line drawn from Iwersen's Dock on Point Roberts in the State of Washington to Georgina Point Light at the entrance to Active Pass in the Province of British Columbia from the 28th day of August, 1977 to the 3rd day of September, 1977, and from the 25th day of September, 1977 to the 8th day of October, 1977, all dates inclusive.

(3) No person shall fish for sockeye or pink salmon with nets in that portion of the waters described in subsection (1) of section 2 lying westerly of a straight line drawn true south from the southeast tip of Point Roberts in the State of Washington (otherwise known as Lily Point) to the International Boundary from the 4th day of September, 1977 to the 24th day of September, 1977, both dates inclusive.

4. The foregoing recommended regulations shall not apply to the following United States Convention Waters:

(1) State Fishing Area 7B including Hale Passage and Bellingham Bay and all Convention Waters of Area 7B lying easterly and inside of a line projected from Carter Point on Lummi Island to the most northerly tip of Vendovi Island, thence to Clark Point on Guemes Island following the shoreline to Southeast Point on Guemes Island, thence to March Point on Fidalgo Island, and

(2) State Fishing Areas 6B and 7C, and

(3) Preserves previously established by the Director of Fisheries of the State of Washington for the protection of other species of food fish.

All times hereinbefore mentioned shall be Pacific Daylight Saving Time.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[9 CFR Part 94]

TRANSITING OF ANIMAL PRODUCTS AND MATERIALS THROUGH THE UNITED STATES

Notice of Proposed Rulemaking

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Proposed rule.

SUMMARY: This proposed amendment would provide for the transiting of animal products and materials through the United States when such products or materials would otherwise be eligible for entry into the United States as restricted products or materials subject to special handling or processing at an approved establishment. In the absence of specific transiting provisions in the regulations, brokers, importers, exporters, and carriers have experienced many unusual problems and delays in the movement of restricted animal products and materials in foreign commerce when such animal products or materials are aboard transiting vessels or other means of conveyance which enter the United States. The intended effect of this amendment is to relieve existing barriers to foreign commerce associated with such movements by adding provisions to the regulations under which restricted animal products and materials may transit the United States.

DATE: Comments on or before July 5, 1977.

ADDRESS: Written comments to Deputy Administrator, USDA, APHIS, VS, Room 824, Federal Building, Hyattsville, MD 20782.

FOR FURTHER INFORMATION CONTACT:

Dr. Blakey Deal, Chief Staff Veterinarian, Import/Export Animal Products, USDA, APHIS, VS, Federal Building, Room 824, Hyattsville, Maryland 20782 (301-436-8170).

SUPPLEMENTARY INFORMATION: Provisions are made in the regulations (9 CFR Part 94) whereby certain animal products and materials may be brought into the United States from foreign countries under specified post-entry restrictions. These products and materials are moved under seal from the port of entry to an establishment which is specifically approved by the Department to receive and process such animal products, and are released from such establishment only after they have been treated in a manner which renders them safe for importation. No provision is made in the regulations for such animal products and materials which are moving in foreign commerce to transit the United States even though they would be eligible to enter and remain in the United States under restrictions. Because of this, brokers, importers, exporters, and carriers moving these animal products and materials in international commerce have experienced delays, and unnecessary expense in their efforts to satisfy existing requirements when vessels and other means of conveyance carrying such animal products and materials transit the United States.

Following a review of this matter by the Department, a determination has been made by the officials of the Animal and Plant Health Inspection Service that animal products and materials which would otherwise qualify for restricted entry and movement from a port of entry to a specifically approved establishment under seal, if offered for entry into the United States, could also be permitted to move through the United States under seal without constituting an undue risk of introduction and spread of disease. Provisions for the transit of animal products and materials through the United States under conditions specified in this amendment would not represent a substantive change in the requirements for entry of these products and materials into the United States under restrictions as presently imposed by the regulations. They would represent a change in procedure for the handling of such products and materials in foreign commerce and are being placed in effect to expedite such movements and to relieve existing barriers to international trade.

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that, pursuant to sec. 306, 46 Stat. 689, as amended; sec. 2, 32 Stat. 792, as amended; secs. 2, 3, 4, and 11, 76 Stat. 129, 130, 132 (19 U.S.C. 1306; 21 U.S.C. 111, 134a, 134b, 134c, 134f); 37 FR 28464, 28477; 38 FR 19141, the Animal and Plant Health Inspection Service is considering amending Part 94, Title 9, Code of Federal Regulations.

Accordingly, Part 94, Title 9, Code of Federal Regulations, would be amended in the following respect:

A new § 94.15 would be added to read:

§ 94.15 Animal products and materials; movement and handling.

Any animal product or material which would be eligible for entry into the United States, as specified in the regulations in this part, may transit through the United States for immediate export if the following conditions are met:

(a) Notification of and the transiting of such animal product or material must be made by the importer one day in advance to the Deputy Administrator, and

(b) The animal product or material transited shall be contained in a sealed, leakproof carrier or container which shall remain sealed while aboard the transporting carrier or other means of conveyance, or if the container or carrier in which such animal product or material is transported is offloaded in the United States for reshipment, it shall remain sealed at all times.

All written submissions made pursuant to this notice will be made available for public inspection at the Federal Building, 6505 Belcrest Road, Rm. 824, Hyattsville, MD, during regular hours of business (8 a.m. to 4:30 p.m., Monday to Friday, except holidays) in a manner convenient to the public business (7 CFR 1.27(b)).

Comments submitted should bear a reference to the date and page number of this issue in the FEDERAL REGISTER.

Done at Washington, D.C., this 9th day of June 1977.

NOTE.—The Animal and Plant Health Inspection Service has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

PIERRE A. CHALOUX,
Acting Deputy Administrator, Veterinary Services.

Dr. Blakey Deal, Chief Staff Veterinarian, Import/Export Animal Products, USDA, APHIS, VS, Room 824, Federal Building, Hyattsville, MD. 20782 (301-436-8379).

SUPPLEMENTARY INFORMATION: Provisions are made in the regulations (9 CFR Part 95) whereby certain animal byproducts and materials may be brought into the United States from foreign countries under specified post-entry restrictions. These animal byproducts and materials are moved under seal from the port of entry to an establishment which is specifically approved by the Department to receive and process such products, and are released from such establishment only after they have been treated in a manner which renders them safe for importation. No provision is made in the regulations for such byproducts and materials which are moving in foreign commerce to transit the United States even though they would be eligible to enter and remain in the United States under restrictions. Because of this, brokers, importers, exporters, and carriers moving these animal byproducts and materials in foreign commerce have experienced delays and unnecessary expense in their efforts to satisfy existing requirements when vessels and other means of conveyance carrying such byproducts and materials transit the United States.

Following a review of this matter by the Department, a determination has been made by the officials of the Animal and Plant Health Inspection Service, that animal byproducts and materials which would otherwise qualify for restricted entry and movement from a port of entry to a specifically approved establishment under seal, if offered for entry into the United States, could also be permitted to move through the United States under seal without constituting an undue risk of introduction and spread of disease. Provisions for the transit of animal byproducts and materials through the United States under conditions specified in this amendment could not represent a substantive change in the requirements for entry of these products and materials into the United States under restrictions as presently imposed by the regulations. They do represent a change in procedure for the handling of such products and materials in foreign commerce and are being placed in effect to expedite such movements and to relieve existing barriers to international trade.

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that, pursuant to sec. 2, 32 Stat. 792, as amended; 21 U.S.C. 111; 37 FR 28464, 28477; 38 FR 19141, the Animal and Plant Health Inspection Service is considering amending Part 95, Title 9, Code of Federal Regulations.

Accordingly, Part 95, Title 9, Code of Federal Regulations, would be amended in the following respect:

A new § 95.4 would be added to read:

§ 95.4 Animal byproducts and materials; movement and handling.

Any animal byproduct or material which would be eligible for entry into the United States, as specified in the regulations in this part, may transit through the United States for immediate export if the following conditions are met:

(a) Notification of the transiting of such animal byproduct or material must be made by the importer one day in advance to the Deputy Administrator, and

(b) The animal byproduct or material transited shall be contained in a sealed, leakproof carrier or container which shall remain sealed while aboard the transporting carrier or other means of conveyance, or if the container or carrier in which such animal byproduct or material is transported is offloaded in the United States for reshipment out of the United States, it shall remain sealed at all times.

All written submissions made pursuant to this notice will be made available for public inspection at the Federal Building, 6505 Belcrest Road, Room 824, Hyattsville, MD, during regular hours of business (8 a.m. to 4:30 p.m., Monday to Friday, except holidays) in a manner convenient to the public business (7 CFR 1.27(b)).

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Parts 240 and 249]

[Release No. 34-13582; File No. S7-687]

REPORTING BY INSTITUTIONAL INVESTMENT MANAGERS OF INFORMATION WITH RESPECT TO ACCOUNTS OVER WHICH INVESTMENT DISCRETION IS EXERCISED

Extension of Comment Period for Proposed Rulemaking

AGENCY: Securities and Exchange Commission.

ACTION: Extension of comment period.

SUMMARY: This notice extends the period for comments on the notice, published March 30, 1977, proposing a rule and form regarding reporting by institutional investment managers of information with respect to accounts over which investment discretion is exercised. This action has been taken to allow the party requesting the extension additional time to prepare comments on the proposed rule.

DATES: Comments must be received on or before July 1, 1977.

ADDRESSES: Send comments to: George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549.

FOR FURTHER INFORMATION CONTACT:

Paul Haaga (202-755-0233), Dennis Gurtz (202-755-0228), Division of Investment Management, Securities and Exchange Commission, Washington, D.C. 20549.

SUPPLEMENTARY INFORMATION: A request for an extension of time to July 1, 1977, was submitted by the American Council of Life Insurance (the "ACLI"). The ACLI states that proposed Rule 13f-1 (17 CFR 240.13f-1) and its effect on the diverse composition of its members' assets requires a longer analysis than time would permit it to complete, prior to June 1, 1977. In view of this request and the complexity of implementation of a reporting scheme under Section 13(f) of the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq. as amended by Pub. L. No. 94-29 (June 4, 1975)), the Commission has authorized an extension until July 1, 1977, of the due date for submitting comments with respect to the proposed rule, which was published at 42 FR 16831. The Commission believes that this extension is appropriate and will not result in undue delay, since during this period members of the Commission staff will be meeting with representatives of the various agencies with which the Commission is required to consult in connection with adoption of proposed Rule 13f-1 (17 CFR 240.13f-1). Interested persons are invited to submit their views and comments in triplicate to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549, on or before July 1, 1977. All such communications should refer to File No. S7-687 and will be available for public inspection.

By the Commission.

Dated: May 31, 1977.

SHIRLEY E. HOLLIS,
Assistant Secretary.

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

[8 CFR Part 244]

VOLUNTARY DEPARTURE

Extension of Comment Period

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Proposed rule, extension of period for public comments.

SUMMARY: This notice responds to a request by an interested party for an extension of the period for submission of written comments on the notice of proposed rule making to provide a formal procedure and application to be filed by aliens to request an extension of the period of time within which to depart from the United States in voluntary departure cases. The notice of proposed rule making was published in the FEDERAL REGISTER on May 2, 1977 (42 FR 22148) and established a deadline of June 1, 1977, for the receipt of written comments. In order to afford interested parties additional time to submit comments, the deadline date for receipt of comments is hereby changed to June 30, 1977. All relevant comments received on or before that date will be considered. Oral representations may not be presented in any manner and will not be considered.

DATE: Comments must be received on or before June 30, 1977.

ADDRESS: Please submit written representations only to the Commissioner of Immigration and Naturalization, 425 Eye Street, N.W., Washington, D.C. 20536.

FOR FURTHER INFORMATION CONTACT:

James G. Hoofnagle, Jr., Instructions Officer, Immigration and Naturalization Service, 425 Eye Etreet, N.W., Washington, D.C. Telephone: 202–376–8373.

Dated: June 14, 1977.

FEDERAL POWER COMMISSION

[Docket No. RM77-21]

[18 CFR Parts 201 and 260]

UNIFORM SYSTEMS OF ACCOUNTS FOR NATURAL GAS COMPANIES; STATEMENTS AND REPORTS (SCHEDULES)

Notice of Proposed Rulemaking Proposing Revisions to Uniform Systems of Accounts for Natural Gas Companies to Provide Accounts for Base Load Liquefied Natural Gas Terminaling and Processing Facilities

AGENCY: Federal Power Commission.

ACTION: Proposed rule.

SUMMARY: By this rulemaking the Commission proposes to amend its Uniform System of Accounts for Class A and Class B Gas Companies to provide a separate accounting classification for base load liquefied natural gas terminaling and processing facilities and to amend the necessary report form. The advent of base load LNG facilities such as are currently being developed by Columbia LNG Corporation and others, has pointed out the need for a separate accounting classification in the Uniform System of Accounts to porvide for such base load plants and the related expenses.

DATES: Comments by August 8, 1977. Proposed effective date January 1, 1978.

FOR FURTHER INFORMATION CONTACT:

Robert E. Hildebrand, Office of Chief Accountant, 202–275–4067.

The Commission is proposing to amend its Uniform System of Accounts for Class A and Class B Natural Gas Companies to provide a separate accounting classification for base load liquefied natural gas terminaling and processing facilities. Revisions are also proposed to FPC Report Form No. 2 Annual Report for Natural Gas Companies in order to reflect the amended accounting classifications.

The Uniform Systems of Accounts for Natural Gas Companies were amended by Order No. 426, issued March 10, 1971, in Docket No. R–384, by, among other things, the addition of separate accounting classifications for liquefied natural gas (LNG) storage facilities. At the time such amendments were made it was contemplated that LNG facilities would be utilized for peaking purposes only as base load LNG facilities were not contemplated at that time. However, the advent of base load facilities such as are currently being developed by Columbia LNG Corporation and others, has pointed out the need for a separate accounting classification in the Uniform System of Accounts to provide for such base load plants and the related expenses. Such amendments are proposed herein.

Certain schedules in the FPC Form No. 2 are also proposed to be amended in accordance with the amendments to the Uniform System of Accounts.

Parties responding to this Notice are requested to submit suggested retirement units for the properties classified in proposed new LNG plant accounts.

Any interested person may submit to the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, to be received no later than August 8, 1977, data, views, comments or suggestions in writing concerning all or part of the amendments proposed herein. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C., 20426, during regular business hours. The Commission will consider all such written submittals before acting on the matters herein proposed. An original and 14 conformed copies should be filed with the Secretary of the Commission. Submittals to the Commission should indicate the name, title, mailing address and telephone number of the person to whom communications concerning the proposal should be addressed, and whether the person filing them requests a conference with the staff of the Federal Power Commission to discuss the proposed revisions. The staff, in its discretion, may grant or deny written requests for conference prior or subsequent to the filing of formal submittals.

The proposed amendments to the Commission's Uniform System of Accounts under the Natural Gas Act would be issued under the authority granted the Federal Power Commission by the Natural Gas Act, particularly Sections 8, 10, and 16 (52 Stat. 825–826, 830; 15 U.S.C. 717g, 717i, 717o).

The proposed amendments to FPC Form No. 2 would be issued under the authority granted the Federal Power Commission by the Natural Gas Act, particularly Sections 10(a) and 16 (52 Stat. 826, 830; 15 U.S.C. 717i(a), 717o).

(A) The following are proposed amendments to Part 201—Uniform System of Accountants for Natural Gas Companies, of Subchapter F—Accounts, Natural Gas Act, Chapter I, Title 18 of the Code of Federal Regulations:

(1) Amend the Gas Plant Instructions by the addition of a new subparagraph 20. under instruction "3. Components of Construction Cost" entitled "(20). Line pack and LNG heel gas."

As amended, the Gas Plant Instructions will read:

Gas Plant Instructions

* * * * * * *

3. Components of construction cost.

* * * * * * *

(20) "Line pack and LNG heel gas." Line pack includes the first cost of that quantity of gas introduced into the utility's system necessary to bring the system up to its designed operating capacity or increases therein and which must be maintained in the system in order to sustain such design operating capacity. LNG "heel" is the first cost of that minimum quantity of liquefied natural gas necessary to be retained in holding tanks and other facilities for purposes of temperature and/or pressure maintenance.

(2) Amend the Balance Sheet Chart of Accounts by adding new "Account 164.3, Liquefied Natural Gas Held for Processing" immediately following "Account 164.2, Liquefied Natural Gas Stored."

As amended, the Balance Sheet Chart of Accounts will read:

Balance Sheet Chart of Accounts

* * * * * * *

ASSETS AND OTHER DEBITS

3. CURRENT AND ACCRUED ASSETS

* * * * * * *

164.3 Liquefied natural gas held for processing.

* * * * * * *

(3) Amend the text of the Balance Sheet Accounts as follows:

(a) Amend the second sentence of paragraph C of account 108, Accumulated Provision for Depreciation of Gas Utility Plant," and account 111, Accumulated Provision for Amortization and Depletion of Gas Utility Plant, by adding new classification "(6) Base Load LNG Terminaling and Processing Plant" and renumbering present functions 6 through 8 as 7 through 9.

(b) Add new "Account 164.3, Liquefied Natural Gas Held for Processing" immediately following "Account 164.2, Liquefied Natural Gas Stored."

As amended, the text of the Balance Sheet Accounts will read:

Balance Sheet Accounts

* * * * * * *

ASSETS AND OTHER DEBITS

1. UTILITY PLANT

* * * * * * *

108 Accumulated provision for depreciation of gas utility plant.

* * * * * * *

C. * * * For purposes of analysis, however, each utility shall maintain subsidiary records in which this account is segregated according to the following, functional classification for gas plant: (1) Production—manufactured gas, (2) Production and gathering—natural gas, (3) Products extraction—natural gas, (4) Underground gas storage, (5) Other storage, (6) Base load LNG terminaling and processing plant, (7) Transmission, (8) Distribution, and (9) General. * * *

* * * * * * *

111 Accumulated provision for amortization and depletion of gas utility plant.

* * * * * * *

C. * * * For purposes of analysis, however, each utility shall maintain subsidiary records in which this account is segregated according to the following functional classification for gas plant: (1) Production—manufactured gas, (2) Production and gathering—natural gas, (3) Products extraction—natural gas, (4) Underground gas storage, (5) Other storage, (6) Base load LNG terminaling and processing plant, (7) Transmission, (8) Distribution, and (9) General. * * *

* * * * * * *

3. CURRENT AND ACCRUED ASSETS

164.3 Liquefied natural gas held for processing.

A. This account shall include the cost of base load liquefied natural gas available for vaporization and injection into the utility's natural gas system.

B. Natural gas purchased in a liquefied form shall be priced at the cost of such gas to the utility.

C. Amounts debited to this account for liquefied natural gas purchased for processing and credited for liquefied natural gas used in processing shall be respectively credited and debited to account 804.2, Liquefied Natural Gas Held for Processing, Net.

D. Withdrawals of gas held for vaporization may be priced according to the first-in-first-out, last-in-first-out or weighted average cost method provided the method adopted by the utility is used consistently from year to year and inventory records are maintained in accordance therewith. Commission approval must be obtained for any other pricing method or for any change in the pricing method adopted by the utility. Separate records shall be maintained for Mcf (or Btu) of liquefied gas purchased for processing, used in processing, and remainnig for processing.

E. Adjustments for inventory losses shall be charged to Account 849.13, Gas Losses.

* * * * * * *

(4) Amend the Gas Plant Chart of Accounts by amending the title of the subsection "3. Natural Gas Storage Plant" and by adding a new subsection "C. Base Load Liquefied Natural Gas Terminaling and Processing Plant" and related accounts thereunder.

As amended, the Gas Plant Chart of Accounts will read:

Gas Plant Chart of Accounts

* * * * * * *

3. NATURAL GAS STORAGE AND PROCESSING PLANT

* * * * * * *

C. BASE LOAD LIQUEFIED NATURAL GAS TERMINALING AND PROCESSING PLANT

364.10 Land and land rights.
364.20 Structures and improvements.
364.30 LNG processing terminal equipment.
364.40 Measuring and regulating equipment.
364.50 Compressor station equipment.
364.60 Communication equipment.
364.70 Other equipment.

* * * * * * *

(5) In the text of the Gas Plant Accounts: (a) Amend the title of Subsection "3. Natural Gas Storage Plant" to read: "3. Natural Gas Storage and Processing Plant", and amend instruction thereto.

(b) Add new subsection "C. Base Load Liquefied Natural Gas Terminaling and Processing Plant" and related accounts immediately following Account 363.5, Other Equipment.

As amended, the text of the Gas Plant Accounts will read:

Gas Plant Accounts

* * * * * * *

3. NATURAL GAS STORAGE AND PROCESSING PLANT

NOTE.—The accounts under subsections A and B hereunder are to be used by the transmission and distribution companies for the classification of storage facilities used for peak shaving operations. The accounts shall be subdivided to classify the peak shaving storage facilities according to the transmission or distribution function, if the utility operates both transmission and distribution systems. Only base load liquefied natural gas terminaling and processing facilities are to be classified under subsection C, Base Load Liquefied Natural Gas Terminaling and Processing Plant.

* * * * * * *

C. BASE LOAD LIQUEFIED NATURAL GAS TERMINALING AND PROCESSING PLANT

364.10 Land and land rights.

A. This account shall include the cost of land and land rights used in connection with liquefied natural gas terminaling and processing operations. (See gas plant instruction 7.)

364.20 Structures and improvements.

A. This account shall include the cost in place of structures and improvements used in connection with liquefied natural gas terminaling and processing operations. (See gas plant instruction 8.)

B. This account shall be subdivided as follows:

Docking and harbor facilities.
LNG processing terminal structures.
Measuring and regulating structures.
Compressor station structures.
Other structures.

364.30 LNG processing terminal equipment.

This account shall include the cost installed of equipment used to receive, hold, and regasify liquefied natural gas for delivery into the utility's transmission or distribution system. Among the liquefied natural gas processing functions accommodated under this account are: offloading of the liquid gas, holding the liquid gas for processing, boil-off and diplacement of vapor, vaporization of liquefied gas, sendout of vaporized gas and power generation.

ITEMS

1. Aftercoolers.
2. Air compressors.
3. Air coolers.
4. Alarm systems.
5. Blowers.
6. Controls and control apparatus.
7. Dikes.
8. Drums.
9. Electrical power and ignition circuits including wiring and conduits.
10. Fire control devices and equipment.
11. Foundations.
12. Gas compressors.
13. Generators.
14. Heat exchangers.
15. Heaters and reheaters.
16. Instrumentation.
17. Intercoolers.
18. Liquefied gas holders and storage tanks.
19. Nitrogen system equipment.
20. Plant piping including pipe supports.
21. Pollution control facilities.
22. Pumps and driving units.
23. Stacks.
24. Tanks, other than LNG storage tanks (including ladders, stairs, walkways, and lighting).
25. Unloading and loading arms, and appurtenant equipment.
26. Vaporizers.
27. Waste heat recovery units.
28. Water craft and accessory equipment.
29. Miscellaneous other LNG equipment.

364.40 Measuring and regulating equipment.

This account shall include the cost installed of meters, gauges and other equipment used in measuring or regulating liquefied natural gas and vaporized natural gas converted from a liquid state in connection with liquefied natural gas operations prior to entrance of vaporized gas into the utility's transmission or distribution system.

ITEMS

1. Automatic control equipment.
2. Boilers, heaters, etc.
3. Foundation, pits, etc.
4. Gas cleaners, scrubbers, separators, dehydrators, etc.
5. Gauges and instruments, including piping, fittings, wiring, etc., and panel boards.
6. Headers.

7. Meters, orifice or positive, including piping and connections.
8. Oil fogging equipment.
9. Odorizing equipment.
10. Regulators or governors, including controls and instruments.
11. Structures of a minor or portable type.

364.50 Compressor station equipment.

This account shall include the cost installed of compressor station equipment and associated appliances used in connection with liquefied natural gas operations prior to entrance of vaporized gas into the utility's transmission or distribution system.

ITEMS

1. Boiler plant, coal handling and ash handling equipment for steam powered compressor station.
2. Compressed air system equipment.
3. Compressor equipment and driving units, including auxiliaries, foundations, guard rails, and enclosures, etc.
4. Electric system equipment, including generating equipment and driving units, power wiring, transformers, regulators, battery equipment, switchboard, etc.
5. Fire fighting equipment.
6. Gas lines and equipment, including fuel supply lines, cooling tower and pond and associated equipment, dehydrators, fuel gas mixers, special pipebands and connections, and associated scrubbers, separators, tanks, gauges and instruments.
7. Laboratory and testing equipment.
8. Lubricating oil system, including centrifuge, filter, tanks, purifier, and lubricating oil piping, etc.
9. Office furniture and fixtures and general equipment such as steel lockers, first-aid equipment, gasoline dispensing equipment, lawn mowers, incinerators, etc.
10. Shop tools and equipment.
11. Water supply and circulation system, including water well, tank, water piping, cooling tower, spray fence, and water treatment equipment, etc., but not including water system equipment used solely for domestic and general use.

364.60 Communication equipment.

This account shall include the cost installed of radio, telephone, microwave, and other equipment used wholly or predominantly in connection with the operation and maintenance of the liquefied natural gas system. (See also accounts 370 and 397, Communication Equipment.)

ITEMS

1. Carrier terminal equipment including repeaters, power supply equipment, transmitting and receiving sets.
2. Microwave equipment, including power supply equipment, transmitters, amplifiers, paraboloids, towers, reflectors, receiving equipment, etc.
3. Radio equipment, fixed and mobile, including antenna, power equipment, transmitters and receivers, and portable receiver-transmitter units.
4. Telephone equipment including switchboards, power and testing equipment, conductors, pole lines, etc.

364.70 Other equipment.

This account shall include the cost installed equipment used in liquefied natural gas operations, when not assignable to any of the foregoing accounts.

ITEMS

1. Garage and service equipment.
2. General tools, including power operated equipment.
3. Laboratory equipment.
4. Materials handling equipment.
5. Office furniture and equipment.
6. Shop equipment.
7. Tools, other than small hand tools.
8. Other equipment.

(6) Amend the Operation and Maintenance Expense Chart of Accounts as follows:

(a) Add new accounts, "804.1, Liquefied Natural Gas Purchased" and "804.2, Liquefied Natural Gas Held for Processing—Net," immediately following account "804, Natural Gas City Gate Purchases."

(b) Amend title of expense function "2. Natural Gas Storage Expenses" to read "2. Natural Gas Storage, Terminaling and Processing Expenses."

(c) Add a new expense subsection "C. Liquefied Natural Gas Terminaling and Processing Expenses" and related accounts immediately following account "848.3, Maintenance of Other Equipment."

As amended, the Operation and Maintenance Expense Chart of Accounts will read:

Operation and Maintenance Expense Chart of Accounts

1. PRODUCTION EXPENSES

* * * * *

D. OTHER GAS SUPPLY EXPENSES

* * * * *

804.1 Liquefied natural gas purchased.
804.2 Liquefied natural gas held for processing—net.

* * * * *

2. NATURAL GAS STORAGE, TERMINALING AND PROCESSING EXPENSES

* * * * *

C. LIQUEFIED NATURAL GAS TERMINALING AND PROCESSING EXPENSES

Operation

849.01 Operation supervision and engineering.
849.02 LNG processing terminal labor and expenses.
849.03 Measuring and regulating labor and expenses.
849.04 Compressor station labor and expenses.
849.05 Communication system expenses.
849.06 System control and load dispatching.
849.07 Fuel.
849.08 Power.
849.09 Rents.
849.10 Demurrage charges.
849.11 Wharfage receipts—credit.
849.12 Processing liquefied or vaporized gas by others.
849.13 Gas losses.
849.14 Other expenses.

Maintenance

849.21 Maintenance supervision and engineering.
849.22 Maintenance of structures and improvements.
849.23 Maintenance of LNG processing terminal equipment.
849.24 Maintenance of measuring and regulating equipment.
849.25 Maintenance of compressor station equipment.
849.26 Maintenance of communication equipment.
849.27 Maintenance of other equipment.

(7) Amend the text of Operation and Maintenance Expense Accounts as follows:

(a) Add new accounts "804.1, Liquefied Natural Gas Purchases" and "804.2, Liquefied Natural Gas Held for Processing—Net," immediately following account "804, Natural Gas City Gate Purchases."

(b) Amend expense function title "2. Natural Gas Storage Expense" to read "2. Natural Gas Storage, Terminaling and Processing Expenses."

(c) Add a new expense subsection to the expense function "2. Natural Gas Storage and Processing Expenses," entitled "C. Liquefied Natural Gas Terminaling and Processing Expenses", and related accounts immediately following account "848.3, Maintenance of Other Equipment."

As amended, the text of the Operation and Maintenance Expense Accounts will read:

Operation and Maintenance Expense Accounts

1. PRODUCTION EXPENSES

* * * * *

D. OTHER GAS SUPPLY EXPENSES

* * * * *

804.1 Liquefied natural gas purchases.

A. This account shall include the cost, including transportation, at point of receipt by the utility, of liquefied natural gas purchased for the purpose of vaporization and injection into the utility's transmission or distribution system for resale.

B. The records supporting this account shall be so maintained that there shall be readily available for each vendor and point of receipt, the quantity of liquefied natural gas purchased, basis of charges, the amount paid for the liquefied gas, and transportation charges incurred up to the point of receipt of the liquefied gas.

804.2 Liquefied natural gas held for processing—net.

A. This account shall include credits for the cost including transportation of liquefied gas purchased for processing and debits for the cost of liquefied gas used for processing during the year. Respective contra debits and credits for entries to this account shall be made to account 164.3, Liquefied Natural Gas Held for Processing.

B. Deliveries and withdrawals of liquefied gas held for processing shall be netted within this account.

NOTE.—Adjustments for gas inventory losses due to cumulative inaccuracies in gas measurement, or from other causes, shall be entered in account 849.13, Gas Losses, in the month determined. If, however, any adjustment is substantial, the utility may, with approval of the Commission, amortize the amount of the adjustment to account 849.13 over future operating periods.

* * * * *

2. NATURAL GAS STORAGE, TERMINALING AND PROCESSING EXPENSES

* * * * *

C. LIQUEFIED NATURAL GAS TERMINALING AND PROCESSING EXPENSES

Operation

849.01 Operations supervision and engineering.

This account shall include the cost of labor and expenses incurred in the general supervision and direction of operations of liquefied natural gas facilities. Direct supervision of specific activities shall be charged to the appropriate operations accounts.

849.02 LNG processing terminal labor and expenses.

This account shall include the cost of labor, materials used and expenses incurred in operating liquefied natural gas processing equipment.

ITEMS

Labor:
1. Supervising.
2. Operating, checking, lubricating, cleaning, and polishing equipment, machinery, valves, instruments, and other processing equipment.
3. Reading meters, gauges and other instruments, changing charts, preparing operating reports, etc.
4. Inspecting and testing equipment when not specifically for repairs or replacement of parts.
5. Cleaning structures housing equipment, cutting grass and weeds, and doing minor grading work around structures and equipment.
6. Cleaning and repairing hand tools used for operations, etc.
7. Operating offshore facilities such as piers, docks, loading and unloading arms, water craft, etc.

Materials and expenses:
8. Charts for pressure gauges and meters, printed forms, office supplies, etc.
9. Lubricants, wiping rags, cleaning materials, etc.
10. Janitor and washroom supplies, landscaping supplies, etc.
11. Employee travel and transportation expenses.
12. Freight, express, parcel post, trucking, and other transportation.
13. Utility services: light, water, and telephone.
14. Chemicals.
15. Refrigerants.
16. Small hand tools.

849.03 Measuring and regulating labor and expenses.

This account shall include the cost of labor, materials used and expenses incurred in operating measuring and regulating stations in connection with liquefied natural gas operations.

ITEMS

Labor:
1. Supervising.
2. Recording pressures and changing charts, reading meters, etc.
3. Estimating lost meter registrations, etc., except gas purchases and sales.
4. Calculating gas volumes from meter charts, except gas purchases and sales.
5. Adjusting and calibrating measuring equipment, changing meters, orifice plates, gauges, clocks, etc. not in connection with construction or maintenance.
6. Testing gas samples, determining specific gravity and Btu content of gas.
7. Inspecting and testing equipment not specifically to determine necessity for repairs including pulsation tests.
8. Cleaning and lubricating equipment.
9. Keeping log and other operating records, preparing reports of operations, etc.
10. Attending boilers and operating other accessory equipment.
11. Installing and removing district gauges for pressure survey.
12. Thawing freeze in gauge pipe.
13. Inspecting and pumping drips, dewatering manholes and pits, inspecting sumps, cleaning pits, etc., blowing meter drips.
14. Moving equipment, minor structures, etc., not in connection with maintenance or construction.

Materials and expenses:
15. Charts and printed forms.
16. Lubricants, wiping rags, waste.
17. Employees' transportation and travel expense.
18. Freight, express, parcel post, trucking and other transportation.
19. Utility services: light, water, telephone.

849.04 Compressor station labor and expenses.

This account shall include the cost of labor, materials used and expenses incurred, including fuel and power, in operating compressor stations in connection with liquefied natural gas operations.

ITEMS

Labor:
1. Supervising.
2. Operating and checking engines, equipment valves, machinery, gauges, and other instruments, including cleaning, wiping, polishing, and lubricating.
3. Operating boilers and boiler accessory equipment, including fuel handling, recording fuel used, etc.
4. Repacking valves and replacing gauge glasses, etc.
5. Recording pressures, replacing charts, keeping logs, and preparing reports of station operations.
6. Pumping drips at the station.
7. Taking dew point readings.
8. Testing water.
9. Cleaning structures housing equipment, cutting grass and weeds, and minor grading around station.
10. Cleaning and repairing hand tools used in operations.
11. Driving trucks.
12. Watching during shutdowns.
13. Clerical work at station.

Materials and expenses:
14. Scrubber oil.
15. Lubricants, wiping rags, waste.
16. Charts and printed forms, etc.
17. Gauge glasses.
18. Chemicals to treat water.
19. Water tests and treatment by other than employees.
20. Janitor and washroom supplies, first aid supplies, landscaping supplies, etc.
21. Employees' transportation and travel expenses.
22. Freight, express, parcel post, trucking, and other transportation.
23. Utility services: light, water, telephone.

849.05 Communication system expenses.

This account shall include the cost of labor, materials used and expenses incurred in connection with the operation of liquefied natural gas communications facilities, such as radio, telephone, microwave and other communication systems, including payments to others for communications services.

ITEMS

Labor:
1. Supervising.
2. Operating switchboards, radio equipment, power generators, microwave equipment, etc. (except general office switchboards).
3. Tagging telephone poles.
4. Testing and replacing telephone batteries, radio tubes, etc.
5. Cutting weeds and grass along telephone rights-of-way and around structures and equipment.
6. Changing radio frequencies.
7. Securing FCC authorization to change frequencies.
8. Taking FCC radio operator tests.
9. Transferring mobile radios between vehicles and/or vessels.
10. Changing locations of telephones and other communications equipment not in connection with maintenance or construction.
11. Inspecting and testing not specifically to determine necessity for repairs.
12. Cleaning and lubricating equipment.
13. Cleaning structures housing equipment.

Materials and expenses:
14. Payments to others for communications services.
15. Telephone batteries, radio tubes and other electronic components.
16. Radio crystals and other materials used in changing radio frequencies.
17. Lubricants, wiping rags, and waste.
18. Employees' transportation and travel expenses.
19. Freight, express, parcel post, trucking and other transportation.

849.06 System control and load dispatching.

This account shall include the cost of labor and expenses incurred in dispatching and controlling the supply and flow of liquefied gas and vaporized gas prior to introduction of such vaporized gas into the utility's transmission or distribution system.

Labor:
1. Supervising.
2. Analysis of pressures for irregularities, as received.
3. Collecting pressures by telephone and radio.

4. Controlling mixture of various gases to maintain proper Btu content.
5. Correspondence and records, typing and maintaining files.
6. Controlling inputs and withdrawals of liquefied gas for processing.
7. Instructing field men to increase or decrease pressures at regulators.
8. Maintaining pressures at compressor stations, key line junctions and regulating stations to divide the available gas during heavy demand periods.
9. Maintaining pressure log sheets.
10. Maintaining proper compression ratios at compressor stations, consistent with economical operations.
11. Maintaining lowest necessary line pressures consistent with satisfactory service.
12. Requesting pressure changes at compressor stations, regulating stations, and key line junctions.
13. Rerouting gas during emergencies and planned shutdowns.

Materials and expenses:
14. Consultants' fees and expenses.
15. Meals, travelling and incidental expenses in connection with system load dispatching.
16. Office supplies, stationery and printed forms.
17. Transportation: company and rental vehicles.
18. Utility services: light, water, telephone.

849.07 Fuel.

A. This account shall include the cost of gas or other fuel used for the operation of liquefied natural gas terminaling and processing facilities, except compressor station fuel.

B. Concurrent credits offsetting charges to this account for natural gas used for fuel shall be made to account 812, Gas Used for Other Utility Operations—Credit.

849.08 Power.

This account shall include the cost of purchased electricity consumed for operation of liquefied natural gas processing facilities, except compressor station power.

849.09 Rents.

This account shall include the cost of rents of property of others used, occupied or operated in connection with liquefied natural gas processing operations. (See operating expense instruction 3.)

849.10 Demurrage charges.

This account shall include demurrage charges incurred by the utility relative to LNG shipments received or processed by the utility.

849.11 Wharfage receipts—credit.

This account shall include wharfage receipts received or receivable from LNG shippers or other parties relative to LNG shipments received or processed by the utility.

849.12 Processing of liquefied or vaporized gas by others.

A. This account shall include amounts paid to others for the processing of liquefied or vaporized gas of the utility.

B. Records supporting this account shall be so maintained that there shall be readily available for each agreement, the name of the other party, Mcf or Btu, as appropriate, of gas delivered to the other party for processing and the Mcf or Btu, as appropriate, of gas received back by the utility after processing, points of delivery to and receipt of gas from the other party, amount and basis of charges for the processing service.

NOTE.—If in connection with any gas delivered to another for processing such other party also processes the gas for extraction of gasoline or other salable products, credits attributable to the products so extracted shall be made to account 491, Revenues from Natural Gas Processed by Others, to the end that amounts recorded in this account shall only be charges for processing other than for extraction of salable products.

849.13 Gas losses.

This account shall include the amounts of inventory adjustments representing the cost of gas lost or unaccounted for in liquefied natural gas operations due to cumulative inaccuracies of gas measurements or other causes. (See paragraph E of account 164.3, Liquefied Natural Gas Held for Processing.) If, however, any adjustment is substantial, the utility may, with approval of the Commission, amortize the amount of the adjustment to this account over future operating periods.

849.14 Other expenses.

This account shall include the cost of labor, materials used, and expenses incurred in operating liquefied natural gas plant not includible elsewhere.

MAINTENANCE

849.21 Maintenance supervision and engineering.

This account shall include the cost of labor and expenses incurred in the general supervision and direction of maintenance of liquefied natural gas terminaling and processing facilities. Direct field supervision of specific jobs shall be charged to the appropriate maintenance accounts. (See operating expense instruction 1.)

849.22 Maintenance of structures and improvements.

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of structures and improvements, the book cost of which is included in account 364.20, Structures and Improvements. (See operating expense instruction 2.)

849.23 Maintenance of LNG processing terminal equipment.

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of LNG terminal processing equipment, the book cost of which is included in Account 364.30, LNG Processing Terminal Equipment. (See operating expense instruction 2.)

849.24 Maintenance of measuring and regulating equipment.

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of measuring and regulating equipment, the book cost of which is included in account 364.40, Measuring and Regulating Equipment. (See operating expense instruction 2.)

849.25 Maintenance of compressor station equipment.

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of compressor station equipment, the book cost of which is included in account 364.50, Compressor Station Equipment. (See operating expense instruction 2.)

849.26 Maintenance of communication equipment.

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of communication equipment, the book cost of which is included in account 364.60, Communication Equipment. (See operating expense instruction 2.)

849.27 Maintenance of other equipment.

This account shall include the cost of labor, materials used and expenses incurred in the maintenance of equipment, the book cost of which is included in account 364.70, Other Equipment. (See operating expense instruction 2.)

(B) Effective for the reporting year 1977, it is proposed to amend certain schedule pages of FPC Form No. 2, Annual Report for Natural Gas Companies (Class A and Class B), prescribed by S260.1, Chapter I, Title 18 of the Code of Federal Regulations as follows:

Page No.	
110	Comparative Balance Sheet.
207A	Gas Stored.
355	Distribution of Salaries and Wages.
501	Gas Plant in Service.
508	Accumulated Provision for Depreciation of Gas Utility Plant.
528–529	Gas Operation and Maintenance Expenses.
532	Summary of Gas Operation and Maintenance Expenses.
535	Gas Purchases.
545	Depreciation, Depletion, and Amortization of Gas Plant.

as set out in Attachment A, hereto.

(C) The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

FPC Form No. 2 Docket No. RM77-21 Attachment A, Page 1 of 14

Annual Report of . . . . . Year ending December 31, 19 . .

STATEMENT A COMPARATIVE BALANCE SHEET
Assets and Other Debits

Line No.	Title of Account (a)	Page No. (b)	Balance Beginning of Year (c)	Balance End of Year (d)	Increase or (Decrease) (e)

GAS STORED (Account 117, 164.1 and 164.2)

1. Report below the information called for concerning inventories of gas stored.

2. The Uniform System of Accounts provides that inventory cost records be maintained on a consolidated basis for all storage projects with separate records showing the Mcf of inputs and withdrawals and balance for each project, except under certain specified circumstances. If the respondent's inventory cost records are not maintained on a consolidated basis for all storage projects, furnish an explanation of the accounting followed and reason for any deviation from the general basis provided by the Uniform System of Accounts. Separate schedules on this schedule form should be furnished for each group of storage projects for which separate inventory cost records are maintained.

3. If during the year adjustment was made of the stored gas inventory, such as to correct for cumulative inaccuracies of gas measurements, furnish an explanation of the reason for the adjustment, the Mcf and dollar amount of adjustment and account charged or credited.

4. Give a concise statement of the facts and the accounting performed with respect to any encroachment of withdrawals during the year, or restoration of previous encroachment, upon *native gas* constituting the "gas cushion" of any storage reservoir.

5. If the respondent uses a "base stock" in connection with its inventory accounting, give a concise statement of the basis of establishing such "base stock" and the inventory basis and the accounting performed with respect to any encroachment of withdrawals upon "base stock," or restoration of previous encroachment, including brief particulars of any such accounting during the year.

6. If respondent has provided accumulated provision for stored gas which may not eventually be fully recovered from any storage project furnish a statement showing: (a) date of Commission authorization of such accumulated provision (b) explanation of circumstances requiring such provision (c) basis of provision and factors of calculation (d) estimated ultimate accumulated provision accumulation (e) a summary showing balance of accumulated provision and entries during year.

7. Pressure base of gas volumes reported in this schedule is 14.73 psia at 60° F.

DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Amounts originally charged to clearing accounts should be segregated as to *Utility Departments, Construction, Plant Removals, and Other Accounts*, and shown in the appropriate lines and spaces provided for such amounts on pages 355 and 356. In determining this segregation of salaries and wages originally charged to clearing accounts a method of approximation giving substantially correct results may be used.

ACCUMULATED PROVISION FOR DEPRECIATION OF GAS UTILITY PLANT (Account 108)

1. The provisions of account 108 in the Uniform System of Accounts contemplate that retirements of depreciable plant be recorded when such plant is removed from service. If the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, preliminary closing entries should be made to tentatively functionalize the book cost of the plant retired. In addition, all costs included in retirement work in progress at year end should be included in the appropriate functional classifications.

2. Explain any important adjustments during year.

3. Explain any difference between the amount for book cost of plant retired, line 11, column (c), and that reported in the schedule for gas plant in service, pages 501-504, column (d), exclusive of plant retired of nondepreciable property.

4. The provisions of Account 108 in the Uniform System of Accounts contemplate that retirements of depreciable plant be recorded when such plant is removed from service. If the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, preliminary closing entries should be made to tentatively functionalize the book cost of the plant retired. In addition, all costs included in retirement work in progress at year end should be included in the appropriate functional classifications.

5. Show separately interest credits under a sinking fund or similar method of depreciation accounting.

6. In section B show the amounts applicable to prescribed functional classifications.

Annual report of.....Year ended December 31, 19.....

GAS PURCHASES (Accounts 800, 801, 802, 803, 804 and 805)

1. Report particulars of gas purchases during the year in the manner prescribed below. (Code numbers to be used in reporting for Columns (d), (e), and (f) will be supplied by the Commission.)

2. Provide subheadings and totals for prescribed accounts as follows:

800 Natural Gas Well Head Purchases.
801 Natural Gas Field Line Purchases.
802 Natural Gas Gasoline Plant Outlet Purchases.
803 Natural Gas Transmission Line Purchases.
804 Natural Gas City Gate Purchases.
805 Other Gas Purchases.

Purchases are to be reported in account number sequence, e.g. all purchases charged to Account 800, followed by charges to Account 801, etc. Under each account number, purchases should be reported by states in alphabetical order. Totals are to be shown for each account in Columns (k) and (l) and should agree with the books of account, or any differences reconciled.

3. Purchases may be reported by gas purchase contract totals (at the option of the respondent) where one contract includes two or more FPC producer rate schedules or small producer certificates, provided that the same price is being paid for all gas purchased under the contract. If two or more prices are in effect under the same contract, separate details for each price shall be reported. The name, and FPC rate schedule or small producer certificate docket number of each seller included in the contract total shall be listed on separate sheets, clearly cross-referenced. Where two or more prices are in effect the sellers at each price are to be listed separately.

4. Purchases of less than 100,000 Mcf per year per contract from sellers not affiliated with the reporting company may (at the option of the respondent) be grouped by account number, except when the purchases were permanently discontinued during the reporting year. When grouped purchases are reported, the number of grouped purchases is to be reported in Column (a). Only Columns (a), (k), (l), and (m) are to be completed for grouped purchases; however, the Commission may request additional details when necessary. Grouped non-jurisdictional purchases should be shown on a separate line.

5. Column instructions are as follows:

Columns (a) and (d) - In reporting the names of sellers under FPC rate schedules, use the names as they appear on the filed rate schedule. Abbreviations may be used where necessary. The code number to be used is the Commission assigned number.

Column (b) - Give the name of the producing field only for purchases at the wellhead or from field lines. The plant name should be given for purchases from gasoline plant outlets. If purchases under a contract are from more than one field or plant, use the name of the one contributing the largest volume. Use a footnote to list the other fields or plants involved.

Column (c) - State the net rate in cents per Mcf as of December 31 for the reported year, applicable to the volume shown in Column (k). The net rate includes all additive charges and tax reimbursements and is net of all applicable deductions and downward adjustments. The rate is effective if filed pursuant to applicable statutes and regulations and (as to FPC rates schedules) permitted by the Commission to become effective.

Columns (e) and (f) - General Services Administration location code designations are to be used to designate the state and county where the gas is received. Where gas is received in more than one county, use the code designation for the county having the largest volume and by footnote list the other counties involved.

Column (g) - List the assigned Commission rate schedule number or small producer certificate docket number. Use the designation "NJ" in Column (g) to indicate non-jurisdictional purchases.

Column (h) - In some cases, two or more lines will be required to report a purchase, as when two or more rates are being paid under the same contract, or when purchases under the same rate schedule are charged to more than one account. If for such reasons the producer rate schedule or non-jurisdictional purchase contract appears on more than one line, enter a numerical code (selected by the respondent) in Column (h) to so indicate. Once established, the same numerical suffix is to be used for all subsequent-year reporting of the purchase. If the purchase was permanently discontinued during the reporting year, so indicate by an asterisk (*) in Column (h). Column (h) is to be used also, to enter any Commission assigned letter rate schedule suffix (e.g. R.S. No. 22A).

Column (i) - Show date of the gas purchase contract. If gas is purchased under a renegotiated contract, show the date of the original contract and the and the date of the renegotiated contract on the following line in brackets. If new acreage is dedicated by ratification of an existing contract show the date of the ratification, rather than the date of the original contract. If gas is being sold from a different reservoir than the original dedicated acreage pursuant to Section 2.56 (f) (2) of the Commission's Rules of Practice and Procedure, place the letter "A" after the contract date.

Column (j) - Show, for each purchase, the approximate Btu per cubic foot, determined in accordance with the definition in Item No. 7 of the General Instructions for FPC Form 2.

Column (k) - State the volume of purchased gas as finally measured for purpose of determining the amount payable for the gas. Include current year receipts of make-up gas that was paid for in prior years.

Column (l) - State the dollar amount (omit cents) paid and previously paid for the volumes of gas shown in Column (k).

Column (m) - State the average cost per Mcf to the nearest hundredth of a cent. (Column (l) divided by Column (k) multiplied by 100.)

Add: 804.1 Liquefied Natural Gas Purchases
804.2 Liquefied Natural Gas Held for Processing

Add: 804.1 and 804.2

DEPRECIATION, DEPLETION, AND AMORTIZATION OF GAS PLANT (Accounts 403, 404.1, 404.2, 404.3, 405)

(Except Amortization of Acquisition Adjustments)

1. Report in Section A for the year the amounts of depreciation expense, depletion and amortization for the accounts indicated, classified according to the plant functional groups shown.
2. Report in Section B the bases and rates used by the respondent to determine charges for depletion and amortization of gas plant for the year for accounts 404.1, 404.2, 404.3 and 405 and whether any changes have been made in the bases or rates from those used for the preceding year.
3. Complete reporting of all available information called for in columns (a) through (g) of Section C shall be made for report year 1971, thereafter report only annual charges to columns (c) through (g). Complete reporting is again required for report year 1974 and every fifth year thereafter with only annual charges to columns (c) through (g) to be shown in the intervals between complete reporting.
4. If composite depreciation accounting for total depreciable plant is followed, list numerically, in column (a) each plant subaccount, account or functional class of plant, as appropriate, to which a rate is applied. Identify at the bottom of Section C the type of plant included in any subaccounts used. In column (c) report all depreciable plant balances to which rates are applied showing subtotals by functional classifications and showing a composite total. Indicate at the bottom of Section C the manner in which column (b) balances are obtained. If average balances, state the method of averaging used. For columns (c), (d) and (e) report available information for each plant subaccount, account or functional classification listed in column (a). Identify those accrual periods shown in column (c) which are based upon the life of associated gas reserves or gas supply contracts. If mortality studies are prepared to assist in estimating service lives or to develop remaining life rates, show in column (f) the type mortality curve selected as most appropriate for the account and in column (g) the weighted average remaining life of surviving plant. If composite depreciation accounting is used, report available information called for in columns (b) through (g) on this basis. Where the unit-of-production method is used to determine depreciation charges, show at the bottom of Section C any revisions made to estimated gas reserves.

[Docket No. 77N-0042]

PROPYLENE GLYCOL AND PROPYLENE GLYCOL MONOSTEARATE

Proposed Affirmation of GRAS Status as Direct and Indirect Human Food Ingredients

AGENCY: Food and Drug Administration (FDA).

ACTION: Proposed rule.

SUMMARY: This is a proposal to affirm as generally recognized as safe (GRAS) propylene glycol and propylene glycol monostearate as direct human food ingredients, and propylene glycol as an indirect human food ingredient. The safety of these ingredients has been evaluated pursuant to the comprehensive safety review being conducted by the agency. The proposal would list these ingredients as food substances affirmed as GRAS.

DATES: Written comments by August 16, 1977.

ADDRESSES: Written comments to Hearing Clerk (HFC–20), Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT:

Corbin Miles, Bureau of Foods (HFF–335), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, D.C. 20204, (202–472–4750).

SUPPLEMENTARY INFORMATION: The Food and Drug Administration is conducting a comprehensive safety review of direct and indirect human food ingredients classified as generally recognized as safe (GRAS) or subject to a prior sanction. The Commissioner of Food and Drugs has issued several notices and proposed regulations, published in the FEDERAL REGISTER of July 26, 1973 (38 FR 20040), initiating this review. Pursuant to this review, the safety of propylene glycol and propylene glycol monostearate has been evaluated. In accordance with the provisions of § 170.35 (formerly § 121.40, prior to recodification published in the FEDERAL REGISTER of March 15, 1977 (42 FR 14302)), the Commissioner proposes to affirm the GRAS status of these ingredients.

Propylene glycol (1,2-propanediol) does not occur naturally but is synthesized industrially by reacting propylene with chlorine water and by treating the resulting chlorohydrin with sodium carbonate solution, or by reacting glycerol with sodium hydroxide. Propylene glycol is listed in § 182.4666 (formerly § 121.101 (d)(3), prior to recodification published in the FEDERAL REGISTER of March 15, 1977(42 FR 14302)), as GRAS for use in food as an emulsifying agent, and in § 182.1666 (formerly § 121.101(d)(8), prior to recodification published in the FEDERAL REGISTER of March 15, 1977 (42 FR 14302)), as GRAS for use in foods as a miscellaneous and/or general purpose food additive, pursuant to regulations published in the FEDERAL REGISTER of November 20, 1959 (24 FR 9369) and subsequently recodified, and in § 182.90 (formerly § 121.101(h)), as GRAS for use in paper and paperboard products used in food packaging, pursuant to regulations published in the FEDERAL REGISTER of June 17, 1961 (26 FR 5421), and subsequently recodified.

Propylene glycol monostearate is a mixture of propoylene glycol mono- and di-esters of stearic and palmitic acids, produced commercially by catalytic trans-esterification between propylene glycol and a hydrogenated vegetable oil such as soybean oil. Propylene glycol monostearate is among the mono- and di-esters of propylene glycol included in § 172.856 (formerly § 121.1113, prior to recodification, published in the FEDERAL REGISTER of March 15, 1977 (42 FR 14302)), for use in foods as emulsifying or surface active agents, pursuant to regulations published in the FEDERAL REGISTER of January 23, 1963 (28 FR 588), and subsequently recodified.

A representative cross-section of food manufacturers was surveyed to determine the specific foods in which propylene glycol and its esters were used and at what levels. Information from surveys of consumer consumption were obtained and combined with the manufacturing information to obtain an estimate of consumer exposure to propylene glycol and propylene glycol monostearate. In 1970, propylene glycol use in foods in the United States was reported to exceed 9,500,000 lb, which is only a slight increase above the amount used in 1960. The use of propylene glycol monostearate approximated 11,500,000 lb in 1970, a three-fold increase over 1960. Propylene glycol was first used in foods in the United States in 1920 and propylene glycol monostearate was first used in 1958.

Propylene glycol and propylene glycol monostearate have been the subject of a search of the scientific literature from 1920 to the present. The parameters used in the search were chosen to discover any articles that considered (1) chemical toxicity, (2) occupational hazards, (3) metabolism, (4) reaction products, (5) degradation products, (6) any reported carcinogenicity, teratogenicity or mutagenicity, (7) dose response, (8) reproductive effects, (9) histology, (10) embryology, (11) behavioral effects, (12) detection and (13) processing. A total of 282 abstracts on propylene glycol and its esters was reviewed and 68 particularly pertinent reports from the literature survey have been summarized in a scientific literature review.

The scientific literature review shows, among other studies, the following information as summarized in the report of the Select Committee on GRAS Substances (hereinafter referred to as the Select Committee), selected by the Life Sciences Research Office of the Federation of American Societies for Experimental Biology:

Propylene glycol has been reported to be readily absorbed from the gastrointestinal tract. Propylene glycol esters are readily hydrolyzed and the fatty acid moieties enter well recognized metabolic pathways. Independent studies have indicated that absorption of propylene glycol was rapid and complete and that formation of glycogen was promoted. After administration of radioactive propylene glycol, substantial amounts were excreted as $^{14}CO_2$ during the first 24 hours. These findings indicated that in vivo propylene glycol enters the carbohydrate cycle as is also suggested by examining its in vitro metabolism in rat liver slices. Most authorities agree that propylene glycol can be utilized as an energy source.

After absorption, propylene glycol disappeared rapidly from the blood of fasted animals. Because propylene glycol enters normal carbohydrate metabolic pathways and promotes glycogen formation, its rapid disappearance from the blood in fasted animals is not surprising. However, it is unclear as to how rapidly propylene glycol would disappear from the blood of well-fed animals in which there is only limited glycogen formation.

Although most orally-administerd propylene glycol is metabolized, an appreciable fraction is excreted unchanged in the urine. In one human study, 20 to 25 percent of a 70 g dose (approximately 1 g per kg) was excreted within 10 hours; in experiments with dogs, 20 percent of a 150 g dose was excreted within 24 hours.

The available information indicates that propylene glycol and its fatty acid esters have a very low order of acute toxicity in a variety of animals. In all animal species tested, the acute LD_{50} of propylene glycol amounts to several grams per kg of body weight. In mice, estimates ranged from 8.0 g per kg intravenously to 31.8 g per kg orally. Intraperitoneal administration generally yielded values equivalent to those obtained intravenously. In other species, the LD_{50} values were essentially within the same limits, the lowest intravenous LD_{50} values reported being 6.5 g per kg for rabbits and 6.8 g per kg for rats.

In short-term chick feeding studies, a diet containing up to 10 percent propylene glycol was generally well tolerated. Mortality was apparently not affected by even the highest doses of propylene glycol in the food. However, diets of 5 percent or more appeared to have some adverse effects on chicks; some investigators reported growth retardation, while others reported hock and toe deformities, diarrhea, or changes in the ratio of protein and fat in the carcass. In rats, the levels of propylene glycol needed to elicit undesirable responses in feeding studies appeared to be about 30 percent. Dogs tolerated the equivalent of 8 percent in the diet, or 10 percent in drinking water, without any noteworthy evidence of toxicity.

A long-term study on rats, extending over two years, showed that up to 50,000 ppm (2,500 mg per kg per day) of propylene glycol in the diet failed to produce an increased or accelerated lethality. Propylene glycol, when administered to rats in high doses (up to 7.5 percent of the diet) for 20 weeks, did not produce tissue damage. However, rats fed 20 percent or more exhibited hepatic and renal pathology.

In reproduction studies, 30 percent propylene glycol was found to decrease reproduction in the third generation and the mothers were unable to feed the young satisfactorily. However, when rats were fed 7.5 percent propylene glycol, no deleterious effect on reproduction was observed through three generations. In chicks fed diets containing 5 percent or more propylene glycol, a deformity of the toe (outward curling of

the toes at each joint) was reported and the incidence of the defect seemed to be dose-dependent. These investigators observed that similar deformities occur in chicks fed diets high in lactose, and suggested that some common metabolite of lactose and propiyene glycol may be responsible for this condition.

Reports of studies specifically designed to detect carcinogenesis or mutagenesis have not been found. However, in a two-year study on dogs maintained on diets containing up to 8 percent propylene glycol (about 2 g per kg per day), the investigators observed no evidence of induction of carcinogenic changes. Further, no carcinogenic potential was revealed in a two-year study in which rats were fed up to 2500 mg per kg per day.

A recently conducted evaluation has shown that propylene glycol is not teratogenic and has no adverse effect on maternal or fetal survival in mice, rats, hamsters, and rabbits at oral dosage levels of 1,600, 1,600, 1,550, and 1,230 mg per kg of body weight, respectively. In the chick embryo, 0.05 ml of propylene glycol was not teratogenic, but when 0.2 ml was introduced into the yolk on the fourth day of incubation, a large liquid-containing cyst was observed on the dorsal side of many embryos.

There are reports that indicate propylene glycol, at extremely high doses, causes kidney damage. Degeneration of the tubular epithelium, interstitial hemorrhage, and glomerular nephritis were found in rats fed 20 percent or more of propylene glycol. Karel et al. found that some of a series of several glycols tested by intraperitoneal injection of LD_{50} doses in mice, produced glomerular and tubular kidney damage; however, propylene glycol was among the least harmful in this respect. In rabbits, evidence of some hemolytic action of propylene glycol administered at a dose of 5 ml intravenously, was visible in the kidneys in the form of hemoglobin-containing casts. In mice, rats, and guinea pigs administered lethal or near lethal doses of propylene glycol by stomach tube, nuclear pyknosis and vacuolar degeneration of the cytoplasm in kidney tubule epithelial cells, as well as protein debris and casts in the lumina of the tubules, have been observed. Hematuria was observed following intravenous administration of sublethal (6 g per kg intravenously) doses of propylene glycol to rats. There is a consensus among these investigators that propylene glycol at lethal or near lethal doses can cause some kidney damage. It is also clear that in this regard, propylene glycol is the least toxic of the glycols tested.

On the other hand, Morris et al. and Seidenfeld and Hanzlik found no evidence of chronic kidney damage resulting from feeding propylene glycol to rats at levels as high as 4.9 percent for one year or at 13.3 g per kg per day for 140 days. A functional study, done by Van Winkler and Newman in 1941, showed that when kidney function was evaluated in dogs by measuring phenolsulfonphthalein excretion over a 2-hour period in dogs that had been given drinking water containing 5 to 10 percent propylene glycol for 5 to 9 months, no abnormal changes were observed. Gaunt et al. and Well et al., in more recent studies, also failed to detect any indication of impaired kidney function in rats and dogs fed 2 to 20 g propylene glycol per kg per day for 2 years.

While propylene glycol, fed in extremely high amounts can produce kidney damage, the available evidence does not implicate it as a nephrotoxic agent even when it is fed at levels manyfold greater than those existing in man's daily diet. It is noteworthy in this regard that the reported studies indicating the very rapid absorption and metabolism of propylene glycol have been made in fasted animals, where absorption and metabolism are likely to be favored and blood concentration is likely to be low. No reports have been found that consider blood levels of propylene glycol under conditions where glycogenesis is not favored. Since the possibility exists that higher than the reported concentrations of propylene glycol in the blood could occur in well-fed animals to which the substance is fed in large amounts, and since there is evidence that very large doses can cause some kidney damage, it may be advisable in due course, to reexamine the absorption, excretion, and metabolism of propylene glycol taking into account the nutritional state of the experimental animals.

All of the available safety information on propylene glycol and propylene glycol monostearate has been carefully evaluated by qualified scientists of the Select Committee. It is the opinion of the Select Committee that:

Propylene glycol is metabolized by animals and can be used as a carbohydrate source. Propylene glycol can be ingested over long periods of time and in substantial quantities (up to 5 percent of the total food intake) without causing frank toxic effects. Propylene glycol monostearate is readily hydrolyzed in vivo and the propylene glycol and fatty acid moieties enter their respective metabolic pathways. At lethal or near lethal doses (6 g per kg or more), however, it has been reported to cause kidney damage in several species and toe deformities in chicks. These doses contrast with the few mg per kg per day estimated to be the human daily dietary intake of propylene glycol.

It is the conclusion of the Select Committee that there is no evidenee in the available information on propylene glycol and propylene glycol monostearate that demonstrates, or suggests reason to suspect, a hazard to the public health when they are used at levels that are now current or that might reasonably be expected in the future. Based upon his own evaluation of the available information on propylene glycol and propylene glycol monostearate (including reports of mutagenic tests which were not available when the Select Committee formed its conclusion), the Commissioner concurs with this conclusion. The Commissioner therefore concludes that no change in the current GRAS status of propylene glycol, as a direct food ingredient or as a substance migrating to foods from paper or paperboard products used in food packaging, is justified. He further concludes that the information generated for this safety review forms a sound scientific basis for affirming as GRAS the direct food use of propylene glycol monostearate, provided the substance is produced from edible fats and/or fatty acids that are in compliance with § 172.860 (formerly § 121.1070, prior to recodification published in the FEDERAL REGISTER of March 15, 1977 (42 FR 14302)).

Copies of the scientific literature review on propylene glycol and derivatives, reports of teratogenic and mutagenic tests for propylene glycol, a report of mutagenic tests for propylene glycol monostearate, and the report of the Select Committee are available for review at the office of the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20857, and may be purchased from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22151, as follows:

Title	Order No.	Cost
Propylene glycol and derivatives (scientific literature review).	PB-221-233	$4.50
Propylene glycol (teratology test).	PB-223-822/AS	3.50
Propylene glycol (mutagenic test).	PB-245-450/AS	4.75
Propylene glycol monostearate (mutagenic test).	PB-245-490/AS	3.75
Propylene glycol and propylene glycol monostearate (select committee report).	PB-265-504/AS	3.50

This proposed action does not affect the present use of propylene glycol or propylene glycol monostearate for pet food or animal feed.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409(d), 701(a), 52 Stat. 1055, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348(d), 371(a))) and under authority delegated to him (21 CFR 5.1), the Commissioner proposes that Parts 182, 184, and 186 be amended as follows:

PART 182—SUBSTANCES GENERALLY RECOGNIZED AS SAFE

§ 182.90 [Amended]

1a. In § 182.90 *Substances migrating to food from paper and paperboard products* by deleting "Propylene glycol" from the list of substances.

§ 182.1666 [Revoked]

§ 182.4666 [Revoked]

b. By deleting § 182.1666 *Propylene glycol* and § 182.4666 *Propylene glycol.*

PART 184—DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

2. In Part 184 by adding new §§ 184.1666 and 184.1667 to read as follows:

§ 184.1666 Propylene glycol.

(a) Propylene glycol ($C_3H_8O_2$, CAS Reg. No. 000057–55–6) is also referred to as 1,2-propanediol. It does not occur in nature. Propylene glycol is manufactured by treating propylene with chlorine water to form the chlorohydrin which is converted to the glycol by treatment with sodium carbonate solution. It is also prepared by heating glycerol with sodium hydroxide.

(b) The ingredient meets the specifications of the Food Chemicals Codex, 2d Ed. (1972), as amended by the first supplement.[1]

(c) The ingredient is used as an anticaking agent as defined in § 170.3(o)(1) of this chapter, antioxidant as defined in § 170.3(o)(3) of this chapter, color and coloring adjunct as defined in § 170.3(o)(4) of this chapter, dough strenthener as defined in § 170.3(o)(6) of this chapter, emulsifier as defined in § 170.3(o)(8) of this chapter, flavor agent as defined in § 170.3(o)(12) of this chapter, formulation aid as defined in § 170.3(o)(14) of this chapter, humectant as defined in § 170.3(o)(16) of this chapter, solvent and vehicle as defined in § 170.3(o)(27) of this chapter, stabilizer and thickener as defined in § 170.3(o)(28) of this chapter, surface active agent as defined in § 170.3(o)(29) of this chapter, and a texturizer as defined in § 170.3(o)(32) of this chapter.

(d) The ingredient is used foods at levels not to exceed good manufacturing practices. Current good manufacturing practice results in maximum levels, as served, of 1 percent for baked goods as defined in § 107.3(n)(1) of this chapter, 5 percent for beverages, alcoholic, as defined in § 170.3(n)(2) of this chapter, 24 percent for confections and frostings as defined in § 170.3(n)(1) of this chapter, 0.08 percent for fats and oils as defined in § 170.3(n)(12) of this chapter, 0.8 percent for frozen dairy products as defined in § 170.3(n)(20) of this chapter, 16 percent for seasonings and flavorings as defined in § 170.3(n)(26) of this chapter, and 1 percent or less for all other food categories.

§ 184.1667 Propylene glycol monostearate.

(a) Propylene glycol monostearate (CAS Reg. No. MX8028–46–4) is a mixture of propiyene glycol mono- and diesters of stearic and palmitic acids, produced commercially by catalytic transesterification between propylene glycol and a hydrogenated vegetable oil such as soy bean oil.

(b) The ingredient meets the specification of the Food Chemicals Codex, 2d Ed. (1972).[1]

(c) The ingredient is used as an emulsifier or emulsifier salt, as defined in § 170.3(o)(8) of this chapter, or as a surface active agent as defined in § 170.3(o)(29) of this chapter.

(d) The ingredient is used in foods at levels not to exceed good manufacturing practices. Current good manufacturing practice in the use of propylene glycol monostearate results in maximum levels, as served, of 1.8 percent for baked goods and baking mixes as defined in § 170.3(n)(1) of this chapter, 1 percent for cheeses as defined in § 170.3(n)(5) of this chapter, 0.5 percent for dairy product analogs as defined in § 170.3(n)(10) of this chapter, 12 percent for fats and oils as defined in § 170.3(n)(12) of this chapter, 0.8 percent for gelatins and puddings as defined in § 170.3(n)(22) of this chapter, and 0.02 percent or less for all other food categories.

PART 186—INDIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

3. In Part 186 by adding new § 186.1666 to read as follows:

§ 186.1666 Propylene glycol.

(a) Propylene glycol ($C_3H_8O_2$, CAS Reg. No. 000057–55–6) is also referred to as 1,2-propanediol. It does not occur in nature. Propylene glycol is manufactured by treating propylene with chlorine water to form the chlorohydrin which is converted to the glycol by treatment with sodium carbonate solution. It is also prepared by heating glycerol with sodium hydroxide.

(b) The ingredient meets the specifications of the Food Chemicals Codex, 2d Ed. (1972), as amended by the first supplement.[1]

(c) The ingredient is used or intended for use as a constituent of paper and paperboard food packaging containers.

(d) The ingredient is used at levels not to exceed good manufacturing practices.

The Commissioner hereby gives notice that he is unaware of any prior sanction for the use of these ingredients in food under conditions different from those proposed herein. Any person who intends to assert or rely on such a sanction shall submit proof of its existence in response to this proposal. The regulations proposed above will constitute a determination that excluded uses would result in adulteration of the food in violation of section 402 of the act, and the failure of any person to come forward with proof of such an applicable prior sanction in response to this proposal constitutes a waiver of the right to assert or rely on such sanction at any later time. This notice also constitutes a proposal to establish a regulation under Part 181 (21 CFR Part 181), incorporating the same provisions, in the event that such a regulation is determined to be appropriate as a result of submission of proof of such an applicable prior sanction in response to this proposal.

Interested persons may, on or before August 16, 1977, file with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20857, written comments (preferably in quadruplicate) regarding this proposal. Received comments may be seen in the above office during working hours, Monday through Friday.

NOTE.—The Food and Drug Administration has determined that this document does not contain a major proposal requiring preparation of an economic impact statement under Executive Order 11821 and OMB Circular A–107.

Dated: June 10, 1977.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

Correction

In FR Doc. 77–15090, appearing at page 27262 in the issue of Friday, May 27, 1977, the material in small type in paragraph (b) of §§ 201.316 and 201.317 on page 27263 should be boxed.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 221]

FLATHEAD IRRIGATION PROJECT

Operation and Maintenance

AGENCY: Bureau of Indian Affairs, Department of Interior.

ACTION: Proposed amendment.

SUMMARY: The purpose of this amendment is to establish the lump sum assessments against the Flathead, Mission and Jocko Valley Irrigation Districts within the Flathead Irrigation Project for the 1978 season. This action is necessary to cover the increase in operation and maintenance costs of the Irrigation Project. Since this revision will change the basic rate of operation and maintenance charges of lands within an Irrigation District, public comment is deemed advisable.

DATES: Interested persons may submit written comments, suggestions, or arguments with respect to the proposed amendment on or before July 18, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. George L. Moon, Project Engineer, Flathead Irrigation Project, Box 198, St. Ignatius, Montana 59865, Telephone 406–745–2661.

SUPPLEMENTARY INFORMATION: The primary author of this document is Mr. George L. Moon. It is hereby certified that the economic and inflationary impacts of this proposed amendment have been carefully evaluated in accordance with Executive Order 11821. The three mentioned Irrigation District Boards of Commissioners have, by resolution, supported this amendment.

Accordingly, it is proposed that §§ 221.24, 221.26, and 221.28 are amended to read as follows:

§ 221.24 Charges.

Pursuant to a contract executed by the Flathead Irrigation District, Flathead Indian Irrigation Project, Montana, on May 12, 1928, as supplemented and amended by later contracts dated February 27, 1929, March 28, 1934, August 26, 1936, and April 5, 1950, there is hereby fixed for the season of 1978 an assessment of $550,607.19 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines and under the jurisdiction of the Flathead Irrigation District. This assessment involves an area of approximately 88,097.15 acres, which does not include any land held in trust for Indians and covers all proper general charges and project overhead.

§ 221.26 Charges.

Pursuant to a contract executed by the Mission Irrigation District, Flathead Indian Irrigation Project, Montana, on

March 7, 1931, approved by the Secretary of the Interior on April 21, 1931, as supplemented and amended by later contracts dated June 2, 1934, June 6, 1936, and May 16, 1951, there is hereby fixed, for the season of 1978 an assessment of $97,448.34 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines and under the jurisdiction of the Mission Irrigation District. This assessment involves an area of approximately 16,241.39 acres, which does not include any land held in trust for Indians and covers all proper general charges and project overhead.

§ 221.28 Charges.

Pursuant to a contract executed by the Jocko Valley Irrigation District, Flathead Indian Irrigation Project, Montana, on November 13, 1931, approved by the Secretary of the Interior on February 26, 1935, as supplemented and amended by later contracts dated August 26, 1936, April 18, 1950, and August 24, 1967, there is hereby fixed for the season of 1978 an assessment of $45,201.30 for the operation and maintenance of the irrigation system which serves that portion of the project within the confines and under the jurisdiction of the Jocko Valley Irrigation District. This assessment involves an area of approximately 7,471.29 acres, which does not include any lands held in trust for Indians and covers all proper general charges and project overhead.

GEORGE L. MOON,
Project Engineer.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 301]

PUBLIC INSPECTION OF WRITTEN DETERMINATIONS

Notice of Proposed Rulemaking

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of Proposed rulemaking.

SUMMARY: This document contains proposed regulations relating to the public inspection of written determinations, which are rulings, determination letters, and technical advice memoranda. Provisions for public inspection of written determinations were added by the Tax Reform Act of 1976. The regulations would provide the public with the guidance needed to take advantage of the new provisions. The regulations would affect taxpayers who request a written determination and persons who want to inspect a written determination.

DATES: Written comments and requests for a public hearing must be delivered or mailed by August 1, 1977. The amendments are proposed to be effective with respect to written determinations issued in response to requests submitted after October 31, 1976.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT:

James Edward Maule of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224 (Attention: CC:LR:T) (202-566-6456).

SUPPLEMENTARY INFORMATION:

BACKGROUND

This document contains proposed amendments to the Regulations on Procedure and Administration (26 CFR Part 301) under section 6110 of the Internal Revenue Code of 1954. These amendments are proposed to conform the regulations to section 1201(a) of the Tax Reform Act of 1976 (90 Stat. 1660) and are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

WRITTEN DETERMINATIONS

The proposed regulations define rulings, determination letters, technical advice memoranda, and background file documents, and describe those to which section 6110 applies. Those written determinations for which the determination of whether disclosure should occur is made pursuant to section 6104 are not subject to section 6110. Written determinations relating to accounting or funding periods and methods and background file documents relating to any written determination are subject to inspection only upon written request. Technical advice memoranda and background file documents relating to civil fraud or criminal investigations and jeopardy or termination assessments are not open to public inspection until all proceedings relating to the assessment or investigation are completed, and then only if a written request for inspection thereof is made.

DELETIONS

Portions of the text of a written determination which contain identifying details about any person, personal privacy information, national defense material, confidential financial data, or geological information are not disclosed. The proposed regulations describe the criteria to be used in determining whether any portion of a written determination should be deleted.

THIRD PARTY CONTACTS

Section 6110 (d) provides that when a person (with limited exceptions) contacts the Internal Revenue Service concerning a pending request by another person for a written determination a record of the contact will be made. When the written determination is made open to public inspection a notation of the date and nature of the contact will be placed on the written determination. The proposed regulations provide that any person can ascertain the identity of the person who made the contact by requesting the Internal Revenue Service to disclose it. The identity of the person who requested the written determination (or about whose return technical advice was sought) can be disclosed only by a court order in a proceeding brought for that purpose. The court may order that the identity be disclosed if impropriety or undue influence has occurred.

NOTICE OF DISCLOSURE

Section 6110(f) requires the Internal Revenue Service to notify certain persons prior to making open or subject to inspection a written determination or background file document. The proposed regulations describe the contents of the notice of intention to disclose, and the time at which the notice must be sent.

TIME OF DISCLOSURE

The proposed regulations set forth the time at which a written determination or background file document is to be made open to public inspection. The person who requested a written determination may request two delays in the time at which the written determination is made open to public inspection if the transaction described therein is not yet completed. However, neither delay may postpone the opening of the written determination to public inspection beyond the day which is 15 days after the date of the actual completion of the transaction.

RESTRAINT OF DISCLOSURE

The proposed regulations, by cross-reference to the Statement of Procedural Rules, provide that prior to issuance of a written determination the Internal Revenue Service may discuss with the person requesting the written determination (or the taxpayer about whose return technical advice is requested) the deletions to be made from the text thereof. The Internal Revenue Service will attempt to reach an agreement on deletions with that person. If, after receiving the written determination, the person is dissatisfied with the extent of the deletions made, an action can be brought in the Tax Court to restrain disclosure of the disputed portions. Persons with a direct interest in maintaining the confidentiality of any portion of a written determination may also bring these actions. The commencement of an action delays the opening to public inspection of the disputed portions.

ADDITIONAL DISCLOSURE

The proposed regulations provide that any person who is of the opinion that material deleted from the text of any written determination or background file document open or subject to inspection should be disclosed may request the Internal Revenue Service to disclose it. The proposed regulations provide procedures that the Internal Revenue Service will follow before any additional disclosure may be made in response to this request.

If the additional disclosure is not made, the person seeking it may bring an action in the Tax Court or District Court for disclosure. The proposed regulations provide that whenever an action to restrain disclosure or to obtain disclosure is brought, the Internal Revenue Service will notify certain persons. Persons so notified are permitted to intervene in the action.

MISCELLANEOUS

The proposed regulations provide that no precedential status attaches to a written determination open to public inspection. Liability of the Internal Revenue Service for disclosure is limited to intentional failure to make deletions or to conform with the time requirements for disclosure. The records disposal procedures of the Internal Revenue Service are substantially unaffected. Written determinations which are designated as being of significant reference value or which are the bases for certain published revenue rulings cannot be disposed. The proposed regulations also provide procedures for requesting that written determinations or background file documents be made open or subject to inspection, for requesting copies, and for the imposition of fees by the Internal Revenue Service for these services.

PRIOR RULINGS

Section 301.6110-6 of the proposed regulations is "reserved" pending formulation of regulations with respect to written determinations requested prior to November 1, 1976.

COMMENTS AND REQUESTS FOR A PUBLIC HEARING

Beforeadopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably six copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the FEDERAL REGISTER.

DRAFTING INFORMATION

The principal author of these proposed regulations was James Edward Maule of the Legislation and Regulations Division of the Office of Chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing these regulations, both on matters of substance and styles.

Proposed amendments to the regulations. The proposed amendments to 26 CFR Part 301 are as follows:

§ 301.6111 [Redesignated]

Paragraph 1. Section 301.6110 is redesignated as § 301.6111.

Paragraph 2. There are added immediately after § 301.6109-1 the following new sections:

§ 301.6110-1 Public inspection of written determinations and background file documents.

(a) *General rule.* Except as provided in § 301.6110-3, relating to deletion of certain information, § 301.6110-5(b), relating to actions to restrain disclosure, paragraph (b)(2) of this section, relating to technical advice memoranda involving civil fraud and criminal investigations, and jeopardy and termination assessments, and paragraph (b)(3) of this section, relating to general written determinations relating to accounting or funding periods and methods, the text of any written determination (as defined in § 301.6110-2(a)) issued pursuant to a request postmarked or hand delivered after October 31, 1976, shall be open to public inspection in the places provided in paragraph (c)(1) of this section. The text of any written determination issued pursuant to a request postmarked or hand delivered before November 1, 1976, shall be open to public inspection pursuant to section 6110(h) and § 301.6110-6, when funds are appropriated by Congress for such purpose. The procedures and rules set forth in §§ 301.6110-1 through 301.6110-5 and 301.6110-7 do not apply to written determinations issued pursuant to requests postmarked or hand delivered before November 1, 1976, unless § 301.6110-6 states otherwise. There shall also be open to public inspection in each place of public inspection an index to the written determinations open or subject to inspection at such place. Each such index shall be arranged by section of the Internal Revenue Code, related statute, or tax treaty and by subject matter description within such section in such manner as the Commissioner may from time to time provide. The Commissioner shall not be required to make any written determination or background file document open to public inspection pursuant to section 6110 or refrain from disclosure of any such documents or any information therein, except as provided by section 6110 or with respect to a discovery order made in connection with a judicial proceeding. The provisions of section 6110 shall not apply to matters for which the determination of whether public inspection should occur is made pursuant to section 6104. Matters within the ambit of section 6104 include: any application filed with the Internal Revenue Service with respect to the qualification or exempt status of an organization, plan, or account described in section 6104(a)(1), whether the plan or account has more than 25 or less than 26 participants; any document issued by the Internal Revenue Service in which the qualification or exempt status of an organization, plan, or account described in section 6104(a)(1) is granted, denied or revoked or the portion of any document in which technical advice with respect thereto is given to a district director; any application filed, and any document issued by the Internal Revenue Service, with respect to the qualification or status of master, prototype, and pattern employee plans; the portion of any document issued by the Internal Revenue Service in which is discussed the effect on the qualification or exempt status of an organization, plan, or account described in section 6104(a)(1) of proposed transactions by such organization, plan, or account; and any document issued by the Internal Revenue Service in which is discussed the qualification or status of an organization described in section 509(a) or 4942(j)(3), but not including any document issued to non-exempt charitable trusts described in section 4947(a)(1).

(b) *Items that may be inspected only under certain circumstances—(1) Background file documents.* A background file document (as such term is defined in § 301.6110-2(g)) relating to a particular written determination issued pursuant to a request postmarked or hand delivered after October 31, 1976, shall not be subject to inspection until such written determination is open to public inspection or available for inspection pursuant to paragraph (b)(2) or (3) of this section, and then only if a written request pursuant to paragraph (c)(4) of this section is made for inspection of such background file document. Background file documents relating to written determinations issued pursuant to requests postmarked or hand delivered before November 1, 1976, shall be subject inspection pursuant to section 6110(h) and § 301.6110-6, when funds are appropriated by Congress for such purpose. The version of the background file document which is available for inspection shall be the version originally made available for inspection, as modified by any additional disclosure pursuant to section 6110(d)(3) and (f)(4).

(2) *Technical advice memoranda involving civil fraud and criminal investigations, jeopardy and termination assessments.* Any technical advice memorandum (as such term is defined in § 301.6110-2(f)) involving any matter that is the subject of a civil fraud or criminal investigation, a jeopardy assessment (as such term is defined in section 6861), or a termination assessment (as such term is defined in section 6851) shall not be subject to inspection until all actions relating to such investigation or assessment are completed and then only if a written request pursuant to paragraph (c)(4) of this section is made for inspection of such technical advice memorandum. A "civil fraud investigation" is any administrative step or judicial proceeding in which an issue for determination is whether the Commissioner should impose additional tax pursuant to section 6653(b). A "criminal investigation" is any administrative step or judicial proceeding in which an issue for determination is whether a taxpayer should be charged with or is guilty of criminal conduct. An action relating to a civil fraud or criminal investigation includes any such administrative step or judicial proceeding, the review of subsequent related activities and related returns of the taxpayer or related taxpayers, and any

other administrative step or judicial procedure or proceeding or appellate process that is initiated as a consequence of the facts and circumstances disclosed by such investigation. An action relating to a jeopardy or termination assessment includes any administrative step or judicial proceeding that is initiated to determine whether to make such assessment, that is brought pursuant to section 7429 to determine the appropriateness or reasonableness of such assessment, or that is brought to resolve the legal consequences of the tax status or liability issue underlying the making of such assessment. Any action relating to a civil fraud or criminal investigation, a jeopardy assessment, or a termination assessment is not completed until all available administrative steps and judicial proceedings and remedies, including appeals, have been completed.

(3) *Written determinations with respect to adoption of or change in certain accounting or funding periods and methods.* Any general written determination (as defined in § 301.6110–2 (c)) that relates solely to approval of any adoption of or change in:

(i) The funding method or plan year of a plan under section 412,

(ii) A taxpayer's annual accounting period under section 442,

(iii) A taxpayer's method of accounting under section 446 (e), or

(iv) A partnership's or partner's taxable year under section 706

shall not be subject to inspection until such written determination would, but for this (3), be open to public inspection pursuant to § 301.6110–5 (c) and then only if a written request pursuant to paragraph (c) (4) of this section is made for inspection of such written determination.

(c) *Procedure for public inspection.*—(1) *Place of public inspection.* The text of any ruling (as such term is defined in § 301.6110–2(d)) or technical advice memorandum that is open to public inspection pursuant to section 6110 shall be located in the National Office Reading Room. The text of any determination letter (as such term is defined in § 301.6110–2(e)) that is open to public inspection pursuant to section 6110 shall be located in the Reading Room of the Regional Office in which is located the district office that issued such determination letter. Inspection of any written determination subject to inspection only upon written request shall be requested from the National Office Reading Room. Inspection of any background file document shall be requested only from the reading room in which the related written determination is either open to public inspection or subject to inspection upon written request. The locations and mailing addresses of the reading rooms are set forth in § 601.702 (b) (3) (ii) of this chapter.

(2) *Time and manner of public inspection.* The inspection authorized by section 6110 will be allowed only in the place provided for such inspection in the presence of an internal revenue officer or employee and only during the regular hours of business of the Internal Revenue Service office in which the reading room is located. The public will not be allowed to remove any record from a reading room. A person who wishes to inspect reading room material without visiting a reading room may submit a written request pursuant to paragraph (c) (4) of this section for copies of any such material to the Internal Revenue Service reading room in which is located such material.

(3) *Copies.* Notes may be taken of any material open to public inspection under section 6110, and copies may be made manually. Copies of any material open to public inspection or subject to inspection upon written request will be furnished by the Internal Revenue Service to any person making requests therefor pursuant to paragraph (c) (4) of this section. If made at the time of inspection, the request for copies need not be in writing, unless the material is not immediately available for copying. The Commissioner may prescribe fees pursuant to section 6110(j) for furnishing copies of material open or subject to inspection.

(4) *Requests.* Any request for copies of written determinations, for inspection of general written determinations relating to accounting or funding periods and methods or technical advice memoranda involving civil fraud and criminal investigations, and jeopardy and termination assessments, for inspection or copies of background file documents, and for copies of the index shall be submitted to the reading room in which is located the requested material. If made in person, the request may be submitted to the internal revenue employee supervising the reading room. The request shall contain:

(i) Authorization for the Internal Revenue Service to charge the person making such request for making copies, searching for material, and making deletions therein;

(ii) The maximum amount of charges which the Internal Revenue Service may incur without further authorization from the person making such request;

(iii) With respect to requests for inspection and copies of background file documents, the file number of the written determination to which such background file document relates and a specific identification of the nature or type of the background file document requested;

(iv) With respect to requests for inspection of general written determinations relating to accounting or funding periods and methods, the day, week, or month of issuance of such written determination, and the applicable category as selected from a special summary listing of categories prepared by the Internal Revenue Service;

(v) With respect to requests for copies of written determinations, the file number of the written determination to be copied, which can be ascertained in the reading room or from the index;

(vi) With respect to requests for copies of portions of the index, the section of the Internal Revenue Code, related statute or tax treaty in which the person making such request is interested;

(vii) With respect to material which is to be mailed, the name, address, and telephone number of the person making such request and the address to which copies of the requested material should be sent; and

(viii) Such other information as the Internal Revenue Service may from time to time require in its operation of reading rooms.

§ 301.6110–2 Meaning of terms.

(a) *Written determination.* A "written determination" is a ruling, a determination letter, or a technical advice memorandum, as such terms are defined in paragraphs (d), (e), and (f) of this section, respectively. Notwithstanding paragraphs (d) through (f) of this section, a written determination does not include, for example, opinion letters (as defined in § 601.201(a)(4) of this chapter), information letters (as defined in § 601.201(a)(5) of this chapter), technical information responses, technical assistance memoranda, notices of deficiency, reports on claims for refund, Internal Revenue Service decisions to accept taxpayers' offers in compromise, earnings and profits determinations, or documents issued by the Internal Revenue Service in the course of tax administration that are not disclosed to the persons to whose tax returns or tax liability the documents relate.

(b) *Reference written determination.* A "reference written determination" is any written determination that the Commissioner determines to have significant reference value. Any written determination that the Commissioner determines to be the basis for a published Revenue Ruling is a reference written determination until such Revenue Ruling is obsoleted, revoked, superseded or otherwise held to have no effect.

(c) *General written determination.* A "general written determination" is any written determination that is not a reference written determination.

(d) *Ruling.* A "ruling" is a written statement issued by the National Office to a taxpayer or to the taxpayer's authorized representative (as such term is defined in § 601.201(e)(7) of this chapter) on behalf of the taxpayer, that interprets and applies tax laws to a specific set of facts. A ruling generally recites the relevant facts, sets forth the applicable provisions of law, and shows the application of the law to the facts.

(e) *Determination letter.* A "determination letter" is a written statement issued by a district director in response to a written inquiry by an individual or an organization that applies principles and precedents previously announced by the National Office to the particular facts involved.

(f) *Technical advice memorandum.* A "technical advice memorandum" is a written statement issued by the National Office to, and adopted by, a district director in connection with the examination of a taxpayer's return or consideration of a taxpayer's claim for refund or credit. A technical advice memorandum generally recites the relevant facts, sets forth the applicable law, and states a legal conclusion.

(g) *Background file document.*—(1) *General rule.* A "background file document" is: (i) The request for a written determination,

(ii) Any written material submitted in support of such request by the person by whom or on whose behalf the request for a written determination was made,

(iii) Any written communication, or memorandum of a meeting, telephone communication, or other contact, between employees of the Internal Revenue Service or Office of its Chief Counsel and persons outside the Internal Revenue Service in connection with such request or written determination which is received prior to the issuance (as such term is defined in paragraph (h) of this section) of the written determination, but not including communications described in paragraph (g)(2) of this section, and

(iv) Any subsequent communication between the National Office and a district director concerning the factual circumstances underlying the request for a technical advice memorandum, or concerning a request by the district director for reconsideration by the National Office of a proposed technical advice memorandum.

(2) *Limitations.* Notwithstanding paragraph (g)(1) of this section, a "background file document" shall not include any:

(i) Communication between the Department of Justice and the Internal Revenue Service or the Office of its Chief Counsel relating to any pending civil or criminal case or investigation,

(ii) Communication between Internal Revenue Service employees and employees of the Office of its Chief Counsel,

(iii) Internal memorandum or attorney work product prepared by the Internal Revenue Service or Office of its Chief Counsel which relates to the development of the conclusion of the Internal Revenue Service in a written determination, including, with respect to a technical advice memorandum, the Transmittal Memorandum, as defind in § 601.105 (b)(5)(vi)(c) of this chapter,

(iv) Correspondence or any portion of correspondence between the Internal Revenue Service and any person relating solely to the making of or extent of deletions pursuant to section 6110(c), or a request pursuant to sction 6110(g) (3) and (4) for postponement of the time at which a written determination is made open or subject to inspection,

(v) Material relating to (A) a request for a ruling or determination letter that is withdrawn prior to issuance thereof or that the Internal Revenue Service declines to answer, (B) a request for technical advice that the National Office declines to answer, or (C) the appeal of a taxpayer from the decision of a district director not to seek technical advice, or

(vi) Response to a request for technical advice which the district director declines to adopt, and the district director's request for reconsideration thereof.

(h) *Issuance.* "Issuance" of a written determination occurs, with respect to rulings and determination letters, upon the mailing of the ruling or determination letter to the person to whom it pertains. Issuance of a technical advice memorandum occurs upon the adoption of the technical advice memorandum by the district director.

(i) *Person to whom written determination pertains.* A "person to whom a written determination pertains" is the person by whom a ruling or determination letter is requested, but if requested by an authoried representative, the person on whose behalf the request is made. With respect to a technical advice memorandum, a "person to whom a written determination pertains" is the taxpayer whose return is being examined or whose claim for refund or credit is being considered.

(j) *Person to whom a background file document relates.* A "person to whom a background file document relates" is the person to whom the related written determination pertains, as such term is defined in paragraph (i) of this section.

(k) *Person who has a direct interest in maintaining confidentiality.* A "person who has a direct interest in maintaining the confidentiality of a written determination" is any person whose name and address is listed in the request for such written determination, as required by § 601.201(e)(2) of this chapter. A "person who has a direct interest in maintaining the confidentiality of a background file document" is any person whose name and address is in such background file document, or who has a direct interest in maintaining the confidentiality of the written determination to which such background file document relates.

(l) *Successor in interest.* A "successor in interest" to any person to whom a written determination pertains or background file document relates is any person who acquires the rights and assumes the liabilities of such person with respect to the transaction which was the subject matter of the written determination, provided that the successor in interest notifies the Commissioner with respect to the succession in interest.

§ 301.6110–3 Deletion of certain information in written determinations open to public inspection.

(a) *Information subject to deletion.* There shall be deleted from the text of any written determination open to public inspection or subject to inspection upon written request and background file document subject to inspection upon written request pursuant to section 6110 the following types of information:

(1) *Identifying details:* (i) The names, addresses, and identifying numbers (including telephone, license, social security, employer identification, credit card, and selective service numbers) of any person, other than the identifying details of a person who makes a third-party communication described in § 301.6110–4 (a), and

(ii) Any other information that would permit a person generally knowledgeable with respect to the appropriate community to identify any person. The determination of whether information would permit identification of a particular person will be made in view of information available to the public at the time the written determination or background file document is made open or subject to inspection and in view of information that will subsequently become available, provided the Internal Revenue Service is made aware of such information and the potential that such information may identify any person. The "appropriate community" is that group of persons who would be able to associate a particular person with a category of transactions one of which is described in the written determination or background file document. The appropriate community may vary according to the nature of the transaction which is the subject of the written determination. For example, if a steel company proposes to enter a transaction involving the purchase and installation of blast furnaces, the "appropriate community" may include all steel producers and blast furnace manufacturers, but if the installation process is a unique process of which everyone in national industry is aware, the "appropriate community" might also include the national industrial community. On the other hand, if the steel company proposes to enter a transaction involving the purchase of land on which to construct a building to house the blast furnaces, the "appropriate community" may also include those residing or doing business within the geographical locale of the land to be purchased.

(2) *Information concerning national defense and foreign policy.* Information specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and which is in fact properly classified pursuant to such order.

(3) *Information exempted by other statutes and agency rules.* Information specifically exempted from disclosure by any statute other than the Internal Revenue Code of 1954 and 5 U.S.C. 552 which is applicable to the Internal Revenue Service, and any information obtained by the Internal Revenue Service solely and directly from another Federal agency subject to a nondisclosure rule of such agency. Deletion of information shall not be made solely because the same information was submitted to another Federal agency subject to a nondisclosure rule applicable only to such agency.

(4) *Trade secrets and privileged or confidential commercial or financial information.*—(i) *Deletions to be made.* Any—

(A) Trade secrets, and

(B) Commercial or financial information obtained from any person which, despite the fact that identifying details are deleted pursuant to paragraph (a) (1) of this section, nonetheless remains privileged or confidential.

(ii) *Trade secret.* For purposes of paragraph (a)(4)(i)(A) of this section, a trade secret may consist of any formula, pattern, device or compilation of information that is used in one's business, and that gives one an opportunity to obtain an advantage over competitors

who do not know or use it. It may be a formula for a chemical compound, a process of manufacturing, treating or preserving materials, a pattern for a machine or other device, or a list of customers. The subject of a trade secret must be secret, that is, it must not be of public knowledge or of a general knowledge in the trade or business. Novelty, in the patent law sense, is not required for a trade secret.

(iii) *Privileged or confidential.* For purposes of paragraph (a)(4)(i)(B) of this section, information is privileged or confidential if from examination of the request and supporting documents relating to a written determination, and in consideration of the fact that identifying details are deleted pursuant to paragraph (a)(1) of this section, it is determined that disclosure of such information would cause substantial harm to the competitive position of any person. For example, while determining whether disclosure of certain information would cause substantial harm to X's competitive position, the Internal Revenue Service becomes aware that this information has previously been disclosed to the public. In this situation, the Internal Revenue Service will not agree with X's argument that disclosure of the information would cause substantial harm to X's competitive position. An example of information previously disclosed to the public is financial information contained in the published annual reports of widely held public corporations.

(5) *Information within the ambit of personal privacy.* Information the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, despite the fact that identifying details are deleted pursuant to paragraph (a)(1) of this section. Personal privacy information encompasses embarassing or sensitive information that a reasonable person would not reveal to the public under ordinary circumstances. Matters of personal privacy include, but are not limited to, details not yet public of a pending divorce, medical treatment for physical or mental disease or injury, adoption of a child, the amount of a gift, and political preferences. A clearly unwarranted invasion of personal privacy exists if from analysis of information submitted in support of the request for a written determination it is determined that the public interest purpose for requiring disclosure is outweighed by the potential harm attributable to such invasion of personal privacy.

(6) *Information concerning agency regulation of financial institutions.* Information contained in or related to reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions concerning examination, operation or condition of a financial institution, disclosure of which would damage the standing of such financial institution.

(7) *Information concerning wells.* Geological or geophysical information and data, including maps, concerning wells.

(b) *Manner of deletions.* Whenever information, which is not to be disclosed pursuant to section 6110(c), is deleted from the text of a written determination or background file document, substitutions therefore shall be made to the extent feasible if necessary for an understanding of the legal analysis developed in such written determination or to make the disclosed text of a background file document comprehensible. Wherever any material is deleted, an indication of such deletion, and of any substitution therefor, shall be made in such manner as the Commissioner deems appropriate.

(c) *Limitations on the making of deletions.* Any portion of a written determination or background file document that has been deleted will be restored to the text thereof—

(1) If pursuant to section 6110(d)(3) or (f)(4)(A) a court orders disclosure of such portion, or

(2) If pursuant to § 301.6110–5(d)(1) an agreement is reached to disclose information.

§ 301.6110–4 Communications from third parties.

(a) *General rule.* Except as provided in paragraph (b) of this section, a record will be made of any communication, whether written, by telephone, at a meeting, or otherwise, received by the Internal Revenue Service or Office of its Chief Counsel prior to the issuance of a written determination from any person other than a person to whom the written determination pertains or the authorized representative of such person. This rule applies to any communication concerning such written determination, any communication concerning the request for such written determination, or any communication concerning other matters involving such written determination. A notation that such communication has been made shall be placed on such written determination when it is made open to public inspection or available for inspection upon written request pursuant to § 301.6110–5. The notation to be placed on a written determination shall consist of the date on which the communication was received and the category of the person making such communication, for example, Congressional, Department of Commerce, Treasury, trade association, White House, educational institution. Any person may request the Internal Revenue Service to disclose the name of any person about whom a notation has been made pursuant to this paragraph.

(b) *Limitations.* The provisions of paragraph (a) of this section shall not apply to communications received by the Internal Revenue Service from employees of the Internal Revenue Service or Office of its Chief Counsel, from the Chief of Staff of the Joint Committee on Internal Revenue Taxation, from the Department of Justice with respect to any pending civil or criminal case or investigation, or from another government agency in response to a request made by the Internal Revenue Service to such agency for assistance involving the expertise of such agency.

(c) *Action to obtain disclosure of identity of person to whom written determination pertains.*—(1) *Creation of remedy.* With respect to any written determination on which a notation has been placed pursuant to paragraph (a) of this section, any person may file a petition in the United States Tax Court or file a complaint in the United States District Court for the District of Columbia for an order requiring that the identity of any person to whom such written determination pertains be disclosed, but such petition or complaint must be filed within 36 months of the date such written determination is made open or subject to inspection.

(2) *Necessary disclosure.* Whenever an action is brought pursuant to section 6110(d)(3), the court may order that the identity of any person to whom the written determination pertains be disclosed. Such disclosure may be ordered if the court determines that there is evidence in the record from which it could reasonably be concluded that an impropriety occurred or undue influence was exercised with respect to such written determination by or on behalf of the person to whom the written determination pertains. The court may, pursuant to section 6110(d)(3), also order the disclosure of any material deleted pursuant to section 6110(c) if such disclosure is in the public interest. The written determination or background file document with respect to which the disclosure was sought shall be revised to disclose the information which the court orders to be disclosed.

(3) *Required notice.* If a proceeding is commenced pursuant to section 6110(d)(3) and paragraph (c)(1) of this section with respect to any written determination, the Secretary shall send notice of the commencement of such proceeding to any person whose identity is subject to being disclosed and to the person about whom a third-party communication notation has been made pursuant to section 6110(d)(1). Such notice shall be sent, by registered or certified mail, to the last known address of the persons described in this (3) within 15 days after notice of the petition or complaint filed pursuant to section 6110(d)(3) is served on the Secretary.

(4) *Intervention.* Any person who is entitled to receive notice pursuant to paragraph (c)(3) of this section shall have the right to intervene in any action brought pursuant to section 6110(d)(3). If appropriate such person shall be permitted to intervene anonymously.

§ 301.6110–5 Notice and time requirements; actions to restrain disclosure; actions to obtain additional disclosure.

(a) *Notice.*—(1) *General rule.* Before a written determination is made open to public inspection or subject to inspection upon written request, or before a background file document is subject to inspection upon written request, the person to

whom the written determination pertains or background file document relates shall be notified by the Commissioner of intention to disclose such written determination or background file document. The notice with respect to a written determination, other than a written determination described in § 301.6110–1(b)(2) or (3) shall be mailed when such written determination is issued. The notice with respect to any written determination relating to accounting or funding periods and methods, any technical advice memoranda involving civil fraud and criminal investigations, and jeopardy and termination assessments, and any background file document shall be mailed within a reasonable time after the receipt of the first written request for inspection thereof.

(2) *Contents of notice.* The notice required by paragraph (a)(1) of this section shall—

(i) Include a copy of the text of the written determination or background file document, which the Commissioner proposes to make open to public inspection or subject to inspection pursuant to a written request, on which is indicated (A) the material that the Commissioner proposes to delete pursuant to section 6110(c), (B) any substitutions proposed to be made therefor, and (C) any third-party communication notations required to be placed pursuant to § 301.6110–4(a) on the face of the written determination,

(ii) State that the written determination or background file document is to be open to public inspection or subject to inspection pursuant to a written request pursuant to section 6110,

(iii) State that the recipient of the notice has the right to seek administrative remedies pursuant to paragraph (b)(1) of this section and to commence judicial proceedings pursuant to section 6110(f)(3) within indicated time periods, and

(iv) Prominently indicate the date on which the notice is mailed.

(b) *Actions to restrain disclosure.*—(1) *Administrative remedies.* Any person to whom a written determination pertains or background file document relates, and any successor in interest, executor or authorized representative of such person may pursue the administrative remedies described in § 601.105(b)(5)(iii)(i) and (vi)(*f*) and § 601.201(e)(11) and (16) of this chapter. Any person who has a direct interest in maintaining the confidentiality of any written determination or background file document or portion thereof may pursue the administrative remedies described in § 601.105(b)(5)(vi)(*f*) and § 601.201(e)(16) of this chapter. No person about whom a third-party communication notation has been made pursuant to § 301.6110–4(a) may pursue any administrative remedy for the purpose of restraining disclosure of the identity of such person where such identity appears with respect to the making of such third-party communication.

(2) *Judicial remedy.* Except as provided in paragraph (b)(3) of this section, any person permitted to resort to administrative remedies pursuant to paragraph (b)(1) of this section may, if such person proposes any deletion not made pursuant to § 301.6110–3 by the Commissioner, file a petition in the United States Tax Court pursuant to section 6110(f)(3) for a determination with respect to such proposed deletion. If appropriate, such petition may be filed anonymously. Any petition filed pursuant to section 6110(f)(3) must be filed within 60 days after the date on which the Commissioner mails the notice of intention to disclose required by section 6110(f)(1).

(3) *Limitations on right to bring judicial actions.* No petition shall be filed pursuant to section 6110(f)(3) unless the administrative remedies provided by paragraph (b)(1) of this section have been exhausted. However, if the petitioner has responded within the prescribed time period to the notice pursuant to section 6110(f)(1) of intention to disclose, but has not received the final administrative conclusion of the Internal Revenue Service within 50 days after the date on which the Commissioner mails the notice of intention to disclose required by section 6110(f)(1), the petitioner may file a petition pursuant to section 6110(f)(3). No judicial action with respect to any written determination or background file document shall be commenced pursuant to section 6110(f)(3) by any person who has received a notice with respect to such written determination or background file document pursuant to paragraph (b)(4) of this section.

(4) *Required notice.* If a proceeding is commenced pursuant to section 6110(f)(3) with respect to any written determination or background file document, the Secretary shall send notice of the commencement of such proceeding to any person to whom such written determination pertains or to whom such background file document relates. No notice is required to be sent to persons who have filed the petition that commenced the proceeding pursuant to section 6110(f)(3) with respect to such written determination or background file document. The notice shall be sent, by registered or certified mail, to the last known address of the persons described in this (4) within 15 days after notice of the petition filed pursuant to section 6110(f)(3) is served on the Secretary.

(5) *Intervention.* Any person who is entitled to receive notice pursuant to paragraph (b)(4) of this section shall have the right to intervene in any action brought pursuant to this section. If appropriate, such person shall be permitted to intervene anonymously.

(c) *Time at which open to public inspection.*—(1) *General rule.* Except as otherwise provided in paragraph (c)(2) of this section, the text of any written determination or background file document open to public inspection or available for inspection upon written request pursuant to section 6110 shall be made open to or available for inspection no earlier than 75 days and no later than 90 days after the date on which the Commissioner mails the notice required by paragraph (a)(1) of this section. However, if an action is brought pursuant to section 6110(f)(3) to restrain disclosure of any portion of such written determination or background file document the disputed portion of such written determination or background file document shall be made open to or available for inspection pursuant to paragraph (c)(2)(i) of this section.

(2) *Limitations.*—(i) *Court order.* The portion of the text of any written determination or background file document that was subject to an action pursuant to section 6110(f)(3) to restrain disclosure in which the court determined that such disclosure should not be restrained shall be made open to or available for inspection within 30 days of the date that the court order becomes final. However, in no event shall such portion of the text of such written determination or background file document be made open to or available for inspection earlier than 75 days after the date on which the Commissioner mails the notice of intention to disclose required by section 6110(f)(1) and paragraph (a)(1) of this section. Such 30-day period may be extended for such time as the court finds necessary to allow the Commissioner to comply with its decision. Any portion of a written determination or background file document which a court orders open to public inspection or subject to inspection upon written request pursuant to section 6110(f)(4) or disclosed pursuant to section 6110(d)(3) shall be made open or subject to inspection or disclosed within such time as the court provides.

(ii) *Postponement based on incomplete status of underlying transaction*—(A) *Initial period not to exceed 90 days.* The time period set forth in paragraph (c)(1) of this section within which a written determination shall be made open to public inspection or available for inspection upon written request shall be extended, upon the written request of the person to whom such written determination pertains or the authorized representative of such person, until 15 days after the date on which the transaction set forth in the written determination is scheduled to be completed, but such day shall be no later than 180 days after the date on which the Commissioner mails the notice of intention to disclose.

(B) *Additional period.* The time period determined pursuant to paragraph (c)(2)(ii)(A) of this section shall be further extended upon an additional written request, if the Commissioner determines from the information contained in such request that good cause exists to warrant such extension. This further extension shall be until 15 days after the date on which the transaction set forth in the written determination is expected to be completed, but such day shall be no later than 360 days after the date on which the Commissioner mails the notice of intention to disclose. The good cause required by this (B) exists if the person requesting the delay in in-

spection demonstrates to the satisfaction of the Commissioner that it is likely that the lack of such extension will cause interference with consummation of the pending transaction.

(C) *Written request for extension.* The written request for extension of the time when a written determination is to be made open to public inspection or available for inspection upon written request shall set forth the date on which it is expected that the underlying transaction will be completed, and, with respect to the additional extension described in paragraph (c)(2)(ii)(B) of this section, set forth the reason for requesting such extension. A request for extension of time may not be submitted until the notice of intention to disclose is mailed and must be received by the Internal Revenue Service office which issued such written determination no later than—

(*1*) In the case of the initial extension, 60 days after the date on which the Commissioner mails the notice of intention to disclose, or

(2) In the case of the additional extension, 15 days before the day on which, for purposes of paragraph (c)(2)(ii)(A) of this section, the transaction set forth in the written determination was expected to have been completed.

(D) *Notice and determination of actual completion.* If an extension of time for inspection has been granted, and the transaction is completed prior to the day on which it was expected to have been completed, the Internal Revenue Service office which issued such written determination shall be so notified by the person who requested such extension. In such event, the written determination shall be made open to public inspection or available for inspection upon written request on the earlier of (*1*) 30 days after the day on which the Commissioner is notified that the transaction is completed, or (2) the day on which the written determination was scheduled to be made open to public inspection or available for inspection upon written request pursuant to paragraph (c)(2)(ii) of this section. Similarly, if the Commissioner determines that the transaction was completed prior to the day on which it was expected to have been completed, even if the person requesting such extension has not so notified the Internal Revenue Service, the written determination shall be made open to public inspection or available for inspection upon written request on the earlier of (*1*) the day which is 30 days after the Commissioner ascertains that the transaction is completed sooner than has been expected, or (2) the day on which the written determination was scheduled to be made open to public inspection or available for inspection upon written request pursuant to paragraph (c)(2)(ii) of this section.

(d) *Actions to obtain additional disclosure*—(1) *Administrative remedies.* Under section 6110(f)(4) any person may seek to obtain additional disclosure of information contained in any written determination or background file document that has been made open or subject to inspection. A request for such additional disclosure shall be submitted to the Internal Revenue Service office which issued such written determination, or to which the request for inspection of such background file document has been submitted pursuant to § 301.6110–1(c)(4), and must contain the file number of the written determination or a description of the background file document (including the file number of the related written determination), the deleted information which in the opinion of such person should be open or subject to inspection, and the basis for such opinion. If the Internal Revenue Service determines that the request constitutes a request for disclosure of the name, address, or the identifying numbers described in § 301.6110–3(a)(1)(i) of any person, it shall within a reasonable time notify the person requesting such disclosure that disclosure will not be made. If the Internal Revenue Service determines that the request or any portion thereof constitutes a request for disclosure of information other than the name, address, or the identifying numbers described in § 301.6110–3(a)(1)(i) of any person, it shall send a notice that such additional disclosure has been requested to any person to whom the written determination pertains or background file document relates, and to all persons who are identified by name and address in the written determination or background file document. Notice that such persons have been contacted shall be sent to the person requesting the additional disclosure. The notice that additional disclosure has been requested shall state that the Internal Revenue Service has determined that additional disclosure of information other than the name, address, or the identifying numbers described in § 301.6110–3(a)(1)(i) of any person has been requested, inform the recipient of the notice that the person seeking the additional disclosure has the right under section 6110(f)(4) to bring a judicial action to attempt to compel such disclosure, and request the recipient of the notice to reply within 20 days by submitting a statement of whether or not the recipient of the notice agrees to the requested disclosure or portion thereof. If all persons to whom a notice is sent pursuant to this (1) agree to disclose the requested information or any portion thereof, the person seeking such disclosure will be so informed; the written determination or background file document shall be accordingly revised to disclose the information with respect to which an agreement to disclose has been reached. If any of the persons to whom a notice is sent pursuant to this (1) do not agree to the additional disclosure or do not respond to such notice, the Internal Revenue Service shall within a reasonable time so notify the person requesting such disclosure, and deny the request for additional disclosure.

(2) *Judicial remedy.* Except as provided in paragraph (d)(3) of this section, any persons who seeks to obtain additional disclosure of information contained in any written determination or background file document may file a petition pursuant to section 6110(f)(4) in the United States Tax Court or a complaint in the United States District Court for the District of Columbia for an order requiring that such information be made open or subject to inspection. Nothing in this paragraph shall prevent the Commissioner from disposing of written determinations and related background file documents pursuant to § 301.6110–7(a).

(3) *Limitations on right to bring judicial action*—(i) *Exhaustion of administrative remedies.* No petition or complaint shall be filed pursuant to section 6110(f)(4) unless the administrative remedies provided by paragraph (d)(1) of this section have been exhausted.

(ii) *Actions to obtain identity.* No petition or complaint shall be filed pursuant to section 6110(f)(4) to obtain disclosure of the identity of any person to whom a written determination on which a third-party communication notation has been placed pursuant to § 301.6110–4(a) pertains. Such actions shall be brought pursuant to section 6110(d)(3).

(4) *Required notice.* If a proceeding is commenced pursuant to section 6110(f)(4) with respect to any written determination or background file document, the Secretary shall send notice of the commencement of such proceeding to any person to whom the written determination pertains or background file document relates, and to all persons who are identified by name and address in the written determination or background file document. The notice shall be sent, by registered or certified mail, to the last known address of the persons described in this (4) within 15 days after notice of the petition or complaint filed pursuant to section 6110(f)(4) is served on the Secretary.

(5) *Intervention.* Any person who is entitled to receive notice pursuant to paragraph (d)(4) of this section shall have the right to intervene in any action brought pursuant to this section. If appropriate, such person shall be permitted to intervene anonymously.

§ 301.6110–6 Written determinations issued in response to requests received before November 1, 1976. [Reserved]

§ 301.6110–7 Miscellaneous provisions.

(a) *Disposition of written determinations and background file documents*—(1) *Reference written determinations.* The Internal Revenue Service shall not dispose of any reference written determinations or related background file documents. The Commissioner may reclassify reference written determinations as general written determinations if the classification as reference was erroneous or if the Commissioner determines that such written determination no longer has any significant reference value. Notwithstanding the preceding sentence, the Commissioner shall not classify as a general written determination any written determination which is determined to be the basis for a published Revenue Ruling unless such Revenue Ruling is obsoleted, revoked, superseded or otherwise held to have no effect.

(2) *General written determinations.* The Internal Revenue Service may dispose of general written determinations and any background file document relating to such written determination pursuant to its established records disposition procedures. Disposition of a written determination shall not occur earlier than 3 years after the date on which such written determination is made open to public inspection or available for inspection upon written request. Disposition of a background file document shall not occur earlier than 3 years after the date on which the related written determination is made open to public inspection or available for inspection upon written request.

(b) *Precedential status of written determinations open to public inspection.* A written determination may not be used or cited as precedent, but the rule set forth in this paragraph shall not apply to change the precedential status, if any, of written determinations issued with respect to taxes imposed by subtitle D of the Internal Revenue Code of 1954.

(c) *Civil remedies*—(1) *Liability for failure to make deletions or to conform to time limitations*—(i) *Creation of remedy.* An exclusive remedy against the Commissioner shall exist in the Court of Claims for—

(A) The person to whom the written determination pertains whenever the Commissioner fails to act in accordance with the time requirements of section 6110(g), and

(B) The person to whom the written determination pertains and any person identified in such written determination whenever the Commissioner fails to make deletions required by section 6110(c) if as a consequence of such failure there is disclosed the identity of such person or other information with respect to such person that is required to be deleted pursuant to section 6110(c).

(ii) *Limitations.* The remedy provided in paragraph (c)(1)(i) of this section for failure to make deletions shall be available only if—

(A) The failure of the Commissioner to make the deletions required by section 6110(c) is intentional or willful.

(B) The Commissioner fails to make any deletion required by section 6110(c) which the Commissioner has agreed to make, or

(C) The Commissioner fails to make any deletion which a court has ordered to be made pursuant to section 6110(f)(3).

(iii) *Damages.* In any suit brought pursuant to paragraph (c)(1)(i) of this section in which the court determines that an employee of the Internal Revenue Service intentionally or willfully failed to make a deletion required by section 6110(c), or intentionally or willfully failed to act in accordance with the time requirements of section 6110(g), the United States shall be liable, to the person described in paragraph (c)(1)(i) of this section who brought the action, in an amount equal to the sum of—

(A) Actual damages sustained by such person but in no case shall such person be entitled to receive less than the sum of $1,000,

(B) The costs of the action, and

(C) Reasonable attorney's fees as determined by the court.

(2) *Liability for making additional disclosure of information.* The Commissioner shall not be liable for making any additional disclosure ordered pursuant to an action described in § 301.6110–5(d)(2) if the notice required by § 301.6110–5(d)(4) is sent.

(3) *Obligation to defend action for additional disclosure.* The Commissioner shall not be required to defend any action brought to obtain additional disclosure pursuant to section 6110(f)(4) if the notice required by § 301.6110–5(d)(4) is sent.

(4) *Obligation to make deletions.* The Commissioner shall be obligated to make only those deletions required by section 6110(c) which he has agreed to make, those which a court has ordered to be made pursuant to § 301.6110–5(b)(2) and those the omission of which would be intentional or willful.

(d) *Fees*—(1) *General rule*—(i) *Copies.* The Commissioner may prescribe fees pursuant to § 601.702(f)(4) of this chapter for the costs of furnishing copies of material open to public inspection or subject to inspection upon written request pursuant to section 6110.

(ii) *Preparation of information available upon request.* The Commissioner may prescribe fees pursuant to § 601.702(f) of this chapter for the costs of searching for and making deletions from any written determinations and background file documents that are subject to inspection only upon written request pursuant to § 301.6110–1(b).

(2) *Reduction or waiver of fees*—(i) *Public interest.* The Commissioner shall reduce or waive the fees described in paragraph (d)(1) of this section if the Commissioner determines that furnishing copies of, searching for, or making deletions to any written determination or background file document primarily benefits the general public, as described in § 601.702(f)(2)(ii)(B) of this chapter.

(ii) *Previous requests.* The Commissioner may waive the fees described in paragraph (d)(1) of this section for searching for any written determination or background file document if the search for such written determination or background file document was made pursuant to a previous request for inspection thereof. The Commissioner shall waive the fees described in paragraph (d)(1) of this section for making deletions from any written determination or background file document if the making of such deletions from such written determination or background file document was made pursuant to a previous request for inspection thereof. Nothing in this (d)(2)(ii) shall prevent the Commissioner from prescribing fees for making additional deletions from such written determination or background file document pursuant to § 301.6110–5(b).

WILLIAM E. WILLIAMS,
Acting Commissioner of Internal Revenue.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[50 CFR Part 611]

FOREIGN FISHING VENTURES WITHIN U.S. FISHERY CONSERVATION ZONE

Advance Notice of Proposed Rulemaking

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: A series of public meetings will be conducted in the near future to consider the desirability of rulemaking and other possible courses of action under the Fishery Conservation and Management Act of 1976 ("the Act") for dealing with business arrangements involving the purchase of fish by foreign buyers from U.S. fishermen. These meetings will assist the Secretary of Commerce in establishing a national policy regarding such business arrangements, whose potential effects appear in some cases consistent and in other cases inconsistent with the purposes and policies of the Act.

DATES: Meeting dates will be published in the FEDERAL REGISTER.

LOCATIONS: The locations for the public meetings will be determined after consultation with the Regional Fishery Management Councils and will be published in the FEDERAL REGISTER.

FOR FURTHER INFORMATION CONTACT:

Richard Schaefer, Chief, Fisheries Management Division, National Marine Fisheries Service, Washington, D.C. 20235, 202–634–7454.

SUPPLEMENTARY INFORMATION: The Act, P.L. 94–265, 16 U.S.C. 1821 et. seq., establishes the procedures for foreign participation in fisheries under the exclusive fishery management authority of the United States. Consistent with those procedures, preliminary fishery management plans were prepared in response to foreign applications for specific fisheries.

The Act requires that each preliminary fishery management plan contain a preliminary determination of the optimum yield, which is defined as the maximum sustainable yield modified by any relevant economic, social, or ecological factors. A second requirement is a preliminary determination of the total allowable level of foreign fishing with respect to the fishery addressed by the preliminary plan. The total allowable level of foreign fishing is defined as that

portion of the optimum yield of a fishery which will not be harvested by vessels of the Unted States.

Inquiries and a permit application have now been received by the Secretary of Commerce from various entities which wish to use foreign processing and transport vessels to purchase, process and ship fish caught by U.S. fishermen, usually by transfer at sea. Some of those foreign processing and transport vessels are owned by joint U.S./foreign interests. Others are wholly owned by foreign interests. Some of these vessels presently hold permits which entitle them to operate in the U.S. fishery conservation zone; some do not at present.

Since most of the inquiries concern proposals developed after the respective preliminary management plans were completed, including the estimate of U.S. catch and the allocation to foreign nations, such proposals might cause U.S. fishermen to catch certain species of fish in an amount which could result in the total domestic and foreign catch exceeding the optimum yields established by preliminary management plans for those species. This could occur if existing foreign allocations are taken, and if the anticipated U.S. catches of those same species are exceeded by domestic fishermen already engagd in those fisheries, or in combination with additional domestic fishing effort. Other inquiries contemplate U.S. fishermen catching certain species and selling this catch to foreign processors within the estimated U.S. catch contained in preliminary management plans. In some cases, these activities were contemplated in the development of the preliminary management plans.

The Act does not provide for allocations to be made to U.S. fishermen under preliminary management plans, or limitations to be placed on the U.S. catch. Such limitations may be imposed only under permanent fishery management plans prepared by the Councils and implemented by the Secretary, which plans are not presently complete and will not be in the immediate future. Allocations, if any, under preliminary management plans are to be made only to foreign nations after all U.S. needs are satisfied. Thus, U.S. fishermen have priority. The net effect of some of the proposed transactions, however, would be to increase indirectly the quantity of certain species which foreign processors might otherwise obtain, to the possible detriment of the resource involved.

There are potential benefits to the U.S. industry from such proposals, and some aspects are consistent with the intent of the Act. Sales to foreign processing vessels represent a market for U.S.-caught fish which does not presently exist and which would provide substantial additional income to U.S. fishermen. Such sales may serve to develop U.S. capacity to take species not otherwise fished by U.S. fishermen. However, one Regional Fishery Management Council has already recommended that specific applications for permits for such activities be denied at this time pending further study of the problem. Processing vessels which already hold permits, and are fishing in conformity with U.S. regulations, are not presently prohibited from receiving and processing fish obtained from U.S. fishing vessels operating in the same fishery.

This is a matter of national significance. The Act imposes upon the Secretary the primary responsibility of protecting the fishery resources under U.S. management authority. As a related duty, the Secretary must take appropriate steps to promote the domestic commercial and recreational fisheries. Only after these primary responsibilities are met, may surplus fish be made available to foreign nations. Our responsibility to the domestic fisheries includes the development of fisheries currently underutilized by U.S. fishermen, the encouragement of a stable domestic market for U.S.-caught fish, and the conservation of fishery resources by preventing their being overfished.

Because of the importance and long-range consequences of these decisions, the Regional Fishery Management Councils and the interested public should have an ample opportunity to express comments. By following this course of action, the resources involved, the interests of the United States, and the intent of the Act will all be given adequate consideration. We do not believe that giving the Councils and others an opportunity to comment on this problem will cause serious harm to the resource, the U.S. industry, or foreign interests.

As a consequence of these factors, it is planned to take the following steps:

1. Issue a Notice of Proposed Rule-Making which would amend Sec. 611.3 of the Foreign Fishing Regulations pertaining to "Permits for foreign fishing vesels" so that the Director, National Marine Fisheries Service, could modify those portions of the permit relating to conditions and restrictions as may be necessary.

2. Conduct a series of public meetings in cooperation with the Fishery Management Councils, as appropriate, for the purpose of reviewing certain aspects of foreign business arrangements involving the purchase of fish from U.S. fishermen.

3. Issue such other Notices of Proposed Rule-Making as may be desirable to implement policy decisions reached on the matters described in Paragraph 2 above.

During the meetings we will seek to evaluate transactions at sea between foreign support vessels and U.S. fishing vessels, particularly the foreign purchase of U.S. caught fish. Possible courses of action would include, among other things:

(a) Modifying existing preliminary management plans and regulations during 1977;
(b) Changing optimum yield statements with, or without, new biological, social, or economic data;
(c) Adjusting existing foreign allocations;
(d) Modifying existing permits and issuing new ones;
(e) Establishing a long-range policy for U.S. and foreign joint participation in fishing ventures under both preliminary and fishery management plans; and
(f) Taking such other related steps as may be appropriate.

Dated this 15th day of June, 1977, at Washington, D.C.

ROBERT W. SCHONING,
Director, National Marine Fisheries Service.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

COMMITTEE ON LICENSES AND AUTHORIZATIONS

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given of a meeting of the Committee on Licenses and Authorizations of the Administrative Conference of the United States, to be held at 10 a.m. July 15, 1977 in the Conference's library, 2120 L Street, NW Suite 500, Washington, DC.

The Committee will meet to consider (1) Professor Kenneth Scott's report on the dual banking system and (2) a preliminary outline of a project on waivers from the requirements of rules of general applicability.

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify this office at least one day in advance. The Committee Chairman may, if he deems it appropriate, permit members of the public to present oral statements at the meeting; any member of the public may file a written statement with the Committee before, during or after the meeting.

For further information concerning this Committee meeting contact Philip J. Harter, 202-254-7065. Minutes of the meeting will be available on request.

RICHARD K. BERG,
Executive Secretary.

ADMINISTRATOR EMERGENCY NATURAL GAS ACT OF 1977

[Docket No. E77-108]

NATURAL GAS PIPELINE CO. OF AMERICA

Supplemental Emergency Order Pursuant To Section 6 of Pub. L. 95-2

On May 18, 1977, Natural Gas Pipeline Company of America (Natural) filed, pursuant to Section 6 of the Emergency Natural Gas Act of 1977 (Act), Pub. L. 95-2 (91 Stat. 4 (1977)) a petition for authorization to make twenty-nine emergency purchases of natural gas, On June 1, 1977, a supplemental petition was filed pursuant to Section 6 of the Act again requesting authorization to make twelve of these emergency purchases. An emergency order was issued in Docket No. E77-108 on June 3, 1977 authorizing those twelve emergency purchases. On June 7, 1977, Natural filed a second supplemental petition pursuant to Section 6 of the Act requesting authorization to make five additional emergency purchases. For the reasons set forth below, I authoriz e these emergency purchases.

Natural has executed the following contract for the purchase of gas at $1.75 per MMBtu under Section 6 of the Act:

1. The Anschutz Corporation (Anschutz) has agreed to sell up to 0.168 Bcf of natural gas from production in Jefferson Davis Parish, Louisiana, through July 31, 1977.

Natural has executed the following contracts for the purchase of gas at $2.25 per MMBtu under Section 6 of the Act:

1. Coronado Transmission Company (Coronado) has agreed to sell up to 0.224 Bcf of natural gas from production in Orange County, Texas through July 31, 1977.

2. Coronado Transmission Company (Coronado) has agreed to sell up to 0.560 Bcf of natural gas from production in Wheeler County, Texas through July 31, 1977.

3. Energy Gathering (Energy) has agreed to sell up to 0.224 Bcf of natural gas from production in Wheeler County, Texas through July 31, 1977.

4. W. Howell Cocke, Jr., Hugh R. Goodrich, Priscilla Goodrich Rea, Thomas E. Berry c/o Roy Durst (Sellers, c/o Roy Durst) have agreed to sell up to 0.336 Bcf of natural gas from production in Iberia Parish and St. Martin Parish, Louisiana through July 31, 1977.

Natural will purchase these supplies from Anschutz at a rate of $1.75 per MMBtu. Further, Natural will purchase these supplies from Coronado, Energy and Sellers c/o Roy Durst at a rate of $2.25 per MMBtu inclusive of all state and local taxes and other adjustments. To the extent these prices do not exceed $2.25 per MMBtu, I find the price to be fair and equitable in accordance with Order No. 2.

Natural advises that a series of arrangements have been made for transportation of subject gas:

1. Gas sold to Natural by Anschutz will be delivered into facilities of Columbia Gulf Transmission Company (Columbia Gulf) at the outlet of Amoco's South Thornwell Processing Plant, Jefferson Davis Parish, Louisiana. Columbia Gulf will deliver an equivalent quantity of gas to Tennessee Gas Pipeline, which will deliver an equivalent quantity of gas to Natural, all at mutually agreeable points. Columbia Gulf will charge $500 per month for administrative handling and Tennessee will charge 1.084 cents per Mcf, which it represents is the average cost of transporting gas through its system.

2. The gas sold to Natural by Coronado from production located in Orange County, Texas will be transported from the wellhead by Fuel Marketing, Inc. (Fuel Marketing) to a point of delivery in Orange County on the facilities of Union Texas Petroleum (Union Texas). Union Texas will deliver an equivalent quantity of gas to Natural at an mutually agreeable point. Fuel Marketing will charge 14 cents per Mcf which it states is necessary to reimburse for costs associated with the installation of approximately 3½ miles of 2-inch pireline and measurement facilities. Union Texas will charge 10 cents per Mcf.

3. The gas sold to Natural by Coronado from production located in Wheeler County, Texas will be transported by Fuel Marketing. The subject gas will be delivered into Natural's 26-inch line Section 2, AB&M survey, Wheeler County, Texas. Fuel Marketing will charge 10 cents per Mcf, which it states is necessary to reimburse for costs associated with installation of 3 miles of 3-inch pipeline and measurement facilities.

4. Gas sold to Natural by Energy will be transported by Fuel Marketing and will be delivered into Natural's 26-inch pipeline in Section 22, H&GN survey, Block A-5, Wheeler County, Texas. Fuel Marketing will charge 15 cents per Mcf, which it states is necessary to reimburse for costs associated with installation of 300 horsepower of compresison and measurement facilities.

5. Gas sold to Natural by Sellers c/o Roy Durst will be delivered into the facilities of Southern Natural Gas Company (Southern Natural) which will deliver an equivalent quantity of gas to Untied Gas Ppe Line Company (United for further transportation and redelivery (less 1½ percent fuel consumption) to Natural at Erath, Vermillion Parish, Louisiana. Southern Natural will charge ½ cent per Mcf for administrative handling. United will charge 17.92 cents per Mcf, which it states is the transportation rate applicable to its Southern rate zone.

Since the parties have agreed upon the transportation charges, I find no basis for prescribing other charges.

Natural shall submit weekly reports as required by Order No. 4.

Pursuant to Section 6(a) of the Act, I hereby authorize Anschutz, Coronado, Energy, Sellers c/o Roy Durst to sell said gas to Natural, on the terms and conditions set forth in Natural's filing in the proceeding. Pursuant to Section 6(c)(1) of the Act, I hereby authorize and order Columbia Gulf, Tennessee Gas Pipeline, Fuel Marketing, Union Texas, Southern Natural and United, to transport gas for Natural.

This order is issued pursuant to the authority delegated to me by the President in Executive Order No. 11969 (February 2, 1977), and shall be served upon Natural, Anschutz, Coronado, Energy, Sellers c/o Roy Durst, Columbia Gulf, Tennessee Gas Pipeline, Fuel Marketing, Union Texas, Southern Natural and United. This order shall also be published in the FEDERAL REGISTER.

This order and authorization granted herein are subject to the continuing authority of the Administrator under Pub. L. 95–2 and the Rules and Regulations which may be issued thereunder.

RICHARD L. DUNHAM,
Administrator.

JUNE 10, 1977.

[FR Doc.77–17340 Filed 6–16–77;8:45 am]

[Docket No. E77–83]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Supplemental Emergency Order Pursuant to Section 6 of Pub. L. 95–2

By order issued April 4, 1977, pursuant to Section 6 of the Emergency Natural Gas Act of 1977 (Act), Pub. L. 95–2 (91 Stat. 4 (1977)), Transcontinental Gas Pipe Line Corporation (Transco) was authorized to collect, subject to refund, proposed transportation rates for the transportation of (i) gas purchased under the Act by Transco as agent for its customers and (ii) gas transported for others. The rates to be charged for such service will be determined in Transco's pending Federal Power Commission (FPC) rate proceedings.

On April 5, 1977, Public Service Company of North Carolina, Inc. (Public Service), Piedmont Natural Gas Company, Inc. (Piedmont), and North Carolina Natural Gas Corporation (NCNGC) [collectively the "North Carolina Companies"] protested the filing. The North Carolina Companies stated that (i) the charges would make most emergency gas unsalable in North Carolina, (ii) the charges are not necessary to recoup any costs associated with this transportation, and (iii) the filing is inconsistent with orders issued in Docket No. E77–58 and other proceedings under the Act.[1] On April 6, 1977, the North Carolina Companies petitioned for rehearing of the April 4 order on the grounds that Section 6(b)(2) (91 Stat. 4, 8) prohibits the FPC from causing Transco to suffer undercollections. Also, on April 11, 1977, United Cities Gas Company (United Cities) protested Transco's filing on the grounds that it results in a price level which is unfair and inequitable and requested that such charges not be permitted to become effective. Transco answered the above filings on May 9, 1977.

By letter order issued April 27, 1977, the FPC rejected Transco's filing in Docket No. RP77–48, which was the basis for Transco's April 1, 1977 filing in this proceeding.[2] On May 23, 1977, the FPC denied Transco's petition for rehearing of the April 27, 1977 order.[3]

On June 1, 1977, Transco proposed new transportation rates, effective April 1, 1977, equivalent to the rates in effect, subject to refund in FPC Docket No. RP 77–26. These rates are 28.2 cents, 29.8 cents and 31.5 cents per MMBtu for Rate Zones 1, 2 and 3, respectively.

On June 3, 1977, the North Carolina Companies opposed Transco's June 1 request on the grounds that (i) the imposition of transportation charges in addition to the incremental cost of emergency gas results in an unfair burden on the high priority customers of the North Carolina Companies; (ii) the transportation rates would yield revenues greatly in excess of Transco's claimed costs; (iii) Transco is protected from undercollections by Section 6(b)(2); (iv) there is no incremental transportation costs other than fuel; and (v) the North Carolina Companies have submitted expert testimony in FPC Docket No. RP76–136 demonstrating that incrementally priced gas should not be burdened with transportation costs where such costs affect the marketability of such gas.

On April 4 order accepted Transco's original rates "subject to refund pending the resolution of Transco's FPC rate proceedings in Docket Nos. RP76–136, RP77–26, and RP77–48 * * *" The rejection of Transco's filing in FPC Docket No. RP77–48 automatically rejected Transco's April 1, 1977 filing in this proceeding. Thus, the only pending matter is Transco's June 1, 1977 filing and the North Carolina Companies' June 3 opposition to that filing.

The first, second, fourth and fifth points raised by the North Carolina Companies are matters to be decided in the FPC rate proceedings. The FPC must determine whether emergency gas volumes transported through Transco's system should bear a part of the costs of such pipeline. According to the North Carolina Companies' June 3 opposition, testimony and evidence regarding these matters have been submitted in Transco's FPC rate proceedings in Docket No. RP76–136, et al. Therefore, I find no basis for considering such points a second time in this proceeding.

The third point raised by the North Carolina Companies requires an interpretation of Section 6(b)(2) of the Act which reads as follows:

In exercising its authority under the Natural Gas Act, the Federal Power Commission shall not disallow, in whole or in part, recovery by any interstate pipeline, through the rates and charges made, demanded, or received by such pipeline, the amounts actually paid by it for natural gas purchased, transported, or other costs incurred pursuant to subsection (a).

The North Carolina Companies assert that this section protects Transco from undercollections if the FPC allocates costs to the transportation of emergency gas. The North Carolina Companies' interpretation is erroneous.

Section 6(b)(2) applies to amounts incurred pursuant to Section 6(a). Section 6(a) relates to the purchase, not the transportation, of emergency supplies of natural gas. Matters relating to the transportation of emergency gas supplies are covered by Section 6(c)(1). The Act does not state how an interstate pipeline's own transportation costs are to be allocated in a rate proceeding under the Natural Gas Act (15 U.S.C. § 717 et seq.). As Administrator, I exercise that authority vested in the President by Section 6 of the Act; however, that authority does not include the allocation of transportation costs under the Natural Gas Act. The allocation of transportation costs is a matter to be considered by FPC, and the pleadings in this proceeding demonstrates that the FPC is considering the allocation of Transco's transportation costs including the question whether any of such costs should be allocated to the Section 6 gas transported by Transco.

Pursuant to § 6(c)(1) of the Act (91 Stat. 4, 8), I authorize Transco to collect the transportation rates proposed in its June 1, 1977 filing for all volumes purchased for others pursuant to § 6(a) of the Act (91 Stat. at 7–8) and transported by Transco. Such rates shall be collected subject to refund pending the resolution of Transco's FPC rate proceedings in Docket Nos. RP76–136 and RP77–26 and any other FPC rate proceeding applicable to the period during which these transportation services are rendered.

This order is issued pursuant to the authority delegated to me by the President in Executive Order No. 11969 (February 2, 1977), and shall be served upon all parties in Docket Nos. E77–14, E77–18, E77–20, E77–34, E77–40, E77–41, E77–42, E77–58, E77–63 and E77–72. This order shall also be published in the FEDERAL REGISTER.

This order and authorization granted herein are subject to the continuing authority of the Administrator under Pub. L. 95–2 and the rules and regulations which may be issued thereunder.

RICHARD L. DUNHAM,
Administrator.

JUNE 10, 1977.

[FR Doc.77–17341 Filed 6–16–77;8:45 am]

[1] The North Carolina Companies amended this filing on April 19, 1977, and attached an order of the North Carolina Utilities Commission which authorized Public Service to price gas purchased under the Act on a rolled-in rather than incremental basis.

[2] The North Carolina Companies and United Cities urged rejection of Transco's filing on the basis of this order in filings submitted May 2 and May 3, 1977, respectively.

[3] On May 24 and May 27, 1977, the North Carolina Companies and United Cities urged rejection of Transco's filing on the basis of this order.

Agricultural Marketing Service

[Marketing Agreement 146]

BUDGET OF EXPENSES OF ADMINISTRATIVE COMMITTEE AND RATE OF ASSESSMENT FOR THE 1977 CROP YEAR

Pursuant to Marketing Agreement 146, regulating the quality of domestically produced peanuts (30 F.R. 9402), and upon recommendation of the Peanut Administrative Committee established pursuant to such agreement and other information, it is hereby found and determined that the expenses of said Committee and the rate of assessment applicable to peanuts produced in 1977 and for the crop year beginning July 1, 1977, shall be as follows:

(a) *Administrative expenses.* The budget of expenses for the Committee for the crop year beginning July 1, 1977, shall be in the total amount of $437,500, such amount being reasonable and likely to be incurred for the maintenance and functioning of the Committee, and for such purposes as the Secretary may, pursuant to the provisions of the marketing agreement, determine to be appropriate.

(b) *Indemnification expenses.* Expenses of the Committee for indemnification payments, pursuant to the Terms and Conditions of Indemnification Applicable to 1977 Crop Peanuts, effective July 1, 1977, are estimated at, but may exceed $3.5 million, such amount being reasonable and likely to be incurred.

(c) *Rate of assessment.* Each handler shall pay to the Peanut Administrative Committee, in accordance with § 48 of the marketing agreement, an assessment of the rate of $1.35 per net ton of farmers stock peanuts received or acquired other than those described in § 31 (c) and (d) ($0.35 for administrative expenses and $1.00 for indemnification expenses).

(d) *Indemnification reserve.* Monetary additions to the indemnification reserve, established in the 1965 crop year pursuant to § 48 of the marketing agreement, shall continue. That portion of the total assessment funds accrued from the $1.00 rate and not expended in providing indemnification on the 1977 crop peanuts shall be placed in such reserve and shall be available to pay indemnification expenses on subsequent crops.

The expenses and rate of assessment are, under the agreement, on a crop year basis and will automatically be applicable to all assessable peanuts from the beginning of such crop year. The handlers of peanuts who will be affected hereby have signed the marketing agreement authorizing approval of expenses that may be incurred and the imposition of assessments, they are represented on the Committee which has submitted the recommendation with respect to such expenses and assessment for approval; and handlers have had knowledge of the foregoing in their recent industry-wide discussions and will be afforded maximum time to plan their operations accordingly.

Dated: June 14, 1977.

CHARLES R. BRADER,
Director, Fruit and Vegetable Division.

[FR Doc.77–17416 Filed 6–16–77;8:45 am]

Office of the Secretary

AGRICULTURAL RESEARCH POLICY ADVISORY COMMITTEE

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Agricultural Research Policy Advisory Committee (ARPAC) will be held at 8:30 a.m. on Friday, July 22, 1977 in the Broadway Arms Room of the Cosmopolitan Hotel, Denver, Colorado.

The Committee is jointly sponsored and chaired by the Department of Agriculture and the National Association of State Universities and Land Grant Colleges.

The matters to be considered at this meeting include activities and progress in national and regional planning for agricultural research, general relationships between USDA and university research agencies, activities by other organizations of interest to ARPAC, and future ARPAC plans and actions.

The meeting will be open to the public. Attendance will be limited to the space available. While no oral presentations will be entertained, anyone may file with the Committee, before or after the meeting a written statement concerning the matters to be discussed. Persons who wish to file written statements, may submit them to Dr. David J. Ward, Research Planning and Coordination, Office of the Secretary, Room 359–A, USDA, Washington, D.C., telephone 202–447–3854.

A record of the meeting will be available for public inspection at the above address 60 days after the meeting.

Dated: June 13, 1977.

JAMES NIELSON,
Deputy Assistant Secretary for Conservation, Research and Education.

CIVIL AERONAUTICS BOARD

[Order 77–6–70]

AIR-SIAM AIR CO. LTD.

Statement of Tentative Findings and Conclusions and Order to Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 14th day of June, 1977.

In the matter of Air-Siam Air Co. Ltd., Cancellation of Foreign Air Carrier Permit; Docket 30986.

Application of Air-Siam Air Company Limited for amendment of its foreign air carrier permit pursuant to section 402 of the Federal Aviation Act of 1958; Docket 29701.

Air-Siam holds a foreign air carrier permit issued pursuant to Order 75–1–26, approved by the President on January 4, 1975, authorizing the foreign air transportation of persons, property and mail between Thailand; the intermediate points Hong Kong; Fukuoka and Tokyo, Japan; and Honolulu, Hawaii; and the terminal point Los Angeles, California. Moreover, the carrier is authorized to operate charter trips pursuant to Part 212 of the Board's Economic Regulations. Except for Fukuoka authority which was granted by Order 75–1–26 for a period of two years, the authority contained in the carrier's permit is for an indefinite period.

By application dated August 24, 1976, Air-Siam sought to renew and extend its authority to serve Fukuoka, Japan, as an additional intermediate point between Thailand and Honolulu, Hawaii, and the terminal point Los Angeles, California.

By Diplomatic Note dated April 8, 1977, the Government of Thailand advised the United States that it had canceled Air-Siam's operating license effective February 3, 1977. The government of Thailand on May 31, 1977, announced that it has withdrawn the designation of Air-Siam. Moreover, the Board understands that Air-Siam is without assets and aircraft.

In view of the foregoing, the Board tentatively finds that dismissal of Air-Siam's pending application for amendment of its foreign air carrier permit, Docket 29701, and cancellation of Air-Siam's foreign air carrier permit, would be in the public interest.

Accordingly, *it is ordered, That:* 1. All interested persons are hereby directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein, and which would:

(a) dismiss Air-Siam's pending application for amendment of its foreign air carrier permit; [1]

(b) cancel the foreign air carrier permit issued to Air-Siam pursuant to Order 75–1–26, subject to the approval of the President;

2. Any interested person having objection to the issuance, without hearing, of an order making final the tentative findings and conclusions stated herein shall file a statement of objections supported by evidence within twenty-one days of the date of adoption of this order. If an evidentiary hearing is requested, the objector should state in detail why such hearing is considered necessary and what relevant and material facts he would expect to establish through such hearing

[1] The Board has taken no procedural action on the carrier's application.

which cannot be established in written pleadings;

3. If timely and properly supported objections are filed, further consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board; [2]

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived, and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. Copies of this order shall be served upon Air-Siam Air Company Limited and the Ambassador of Thailand.

This order will be published in the FEDERAL REGISTER and will be transmitted to the President.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.77-17356 Filed 6-16-77;8:45 am]

[Order 77-6-67]

IATA

Agreement on South Pacific Passenger Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 13th day of June 1977.

Agreement adopted by the Joint Traffic Conferences of the International Air Transport Association relating to South Pacific passenger fares and cargo rates; Dockets 27573, 29123; Agreement C.A.B. 26536 R-1 and R-2.

By Order 77-4-53, April 11, 1977, the Board established procedural dates for the receipt of carrier justification, comments and replies regarding a mail vote agreement among the carrier members of the International Air Transport Association (IATA). The agreement proposes to increase South Pacific passenger fares and cargo rates by various amounts to compensate for rising fuel prices. In general, all passenger fares will be increased by 1.5 percent of the currently applicable normal economy-class fare. With respect to Hawaii, the dollar amount of increase at Honolulu would apply to all other Hawaiian points. With respect to all other points within TC1 (North and South America, Greenland, Bermuda, and the Caribbean), the amount of increase at Los Angeles would apply. The overall increase would be approximately 1.8 percent.[1]

In support of the agreement, Pan American World Airways, Inc. (Pan American), the only U.S.-flag carrier serving the South Pacific route, has submitted a statement of financial results in international scheduled passenger service for a forecast year ending March 31, 1978. The carrier forecasts a return on investment (ROI) of 9.57 percent under present fares and 11.42 percent under proposed fares, annualizing the effect of the agreement.[2] Pan American states that forecast costs are based on historical levels experienced during the year ended June 30, 1976, increased in line with the Board's guidelines for contractual cost escalations. The carrier alleges that its forecast ROI is actually overstated, not only due to the fact that traffic elasticity has not been taken into account, but also due to the exclusion of future cost increases which can not be determined precisely at this time but which will nevertheless be experienced.[3]

Upon full consideration of the subject agreement and Pan American's justification, the Board has concluded to approve the agreement. As indicated, Pan American's forecast excludes the possible effect of demand elasticity and anticipatory cost escalation, and the result is an ROI of 11.42 percent under proposed fares, which is not inconsistent with the Board's guideline.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, makes the following findings:

1. It is not found that the following resolution, incorporated in Agreement C.A.B. 26536 as indicated, is adverse to the public interest or in violation of the Act:

Agreement C.A.B.	*IATA resolution*
26536:	
R-1	JT31 (Mail 94) 003f.

2. It is found that the following resolution, incorporated in Agreement C.A.B. 26536 as indicated, is adverse to the public interst and in violation of the Act:

Agreement C.A.B.	*IATA resolution*
26536:	
R-2	JT31 (Mail 95) 003ff.

Accordingly, *it is ordered*, That:

1. Agreement C.A.B. 26536, R-1, be and hereby is approved;

2. Agreement C.A.B. 26536, R-2, be and hereby is disapproved; and

3. Tariffs implementing Agreement C.A.B. 26536, R-1, shall be marked to expire not later than March 31, 1978.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.77-17355 Filed 6-16-77;8:45 am]

[Order 77-6-63; Docket No. 29123; Agreement C.A.B. 26434; R-1 through R-5; Agreement C.A.B. 26435; R-1 through R-3; Agreement C.A.B. 26436; Agreement C.A.B. 26489; R-1 and R-2; Agreement C.A.B. 26515]

IATA, WESTERN HEMISPHERE PASSENGER FARES

Order

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 10th day of June, 1977. Agreements adopted by Traffic Conference 1 of the International Air Transport Association relating to Western Hemisphere passenger fares.

Agreements have been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of Traffic Conference 1 (TC1) of the International Air Transport Association (IATA). Agreements designated as C.A.B. 26434, C.A.B. 26435 and C.A.B. 26436 were adopted at the Reconvened TC1 Passenger Conference held in Mexico City from January 10 to 12, 1977. Agreements C.A.B. 26489 and C.A.B. 26515 were adopted by mail vote.

Agreement C.A.B. 26434 proposes adjustments in west-coast long-haul fares to bring them to levels similar to those previously proposed for other United States-South/Central America long-haul markets which were approved in Order 77-3-62, March 11, 1977.[1] Agreement C.A.B. 26489 proposes specified excursion and GIT fares between Miami and San Andres, Colombia. The proposed fares are set at a level between the current IATA and non-IATA excursion and GIT fares in this market. Agreements C.A.B. 26435 and C.A.B. 26436 would increase first-class, economy and excursion fares within South America and between Mexico and Venezuela by approximately five percent, and have indirect application in air transportation in that they can be combined with fares to/from the United States. Agreement C.A.B. 26515 would rescind the proposed $2 and $4 increases in one-way and round-trip fares to/from Brazil which had been proposed as a result of a Brazilian government plan to collect the passenger service charge, currently paid by the passenger, from the carriers. The Brazilian government has deferred action on its plan and consequently IATA proposes to withdraw these increases.

We will approve those resolutions adjusting long-haul fares to/from U.S. west-coast points with the exception of the proposed increases in normal economy fares upon which we will defer action pending further evaluation.[2] We will approve those resolutions dealing with excursion and GIT fares between the United States and Colombia as well as the reduction in fares to/from Brazil. We will also approve those resolutions establishing fares between foreign points which are combinable with fares to/from U.S. points and thus indirectly affect air transportation as defined by the Act.

The agreements at issue here cover long-haul fare matters which were not resolved at the Miami Conference and were therefore not covered in Order 77-3-62, March 11, 1977 which acted on the Miami resolutions. Both Braniff and Pan American were requested to supplement their previous justifications of the Miami agreements to account for the current proposal to increase west-coast fares. In response, Braniff indicates that its justification of the Miami agreements had assumed that west-coast points would take the same increase as other U.S. points and that, consequently, there would be no additional revenue impact from the instant agreement. Pan American forecasts that the adjustment of west-coast fares would add an additional $27,000 to the revenue estimate provided for the Miami agreement and would therefore have no measurable impact on its return on investment.

The Board, acting pursuant to sections 102, 204(a), and 412, of the Act, makes the following findings:

1. It is not found that the following resolutions, incorporated in the agreements indicated, and which directly affect air transportation as defined by the Act, are adverse to the public interest or in violation of the Act:

Agreement CAB	IATA No.	Title	Application
26434:			
R-2	075g	TC1 Group Excursion Fares from Brazil to the U.S.A. (Amending.)	1 (longhaul).
		IATA resolution	
26515	100 (Mail 109) 005f.		
26489:			
R-1	100 (Mail 108) 070cc.		
R-2	100 (Mail 108) 084m.		

2. It is not found that the following resolution, to the extent it would establish fares other than normal economy-class fares from/to U.S. west-coast points, and which is incorporated in Agreement C.A.B. 26434 as indicated, is adverse to the public interest or in violation of the Act:

Agreement CAB	IATA No.	Title	Application
26434:			
R-1	002s	Special Amending Resolution	1 (longhaul).

3. It is not found that the following resolutions, incorporated in the agreements indicated, and which have indirect application in air transportation as defined by the Act, are adverse to the public interest or in violation of the Act:

Agreement CAB	IATA No.	Title	Application
26435:			
R-1	051d	Expedited—TC1 First Class Fares (Amending)	1.
R-2	061d	Expedited—TC1 Economy Class Fares (Amending)	1.
R-3	070j	Expedited—TC1 Excursion Fares—Within South America (Amending)	1.
26436	002v	Special Amending Resolution	1.

Accordingly, *It is ordered*, That: 1. Those portions of Agreements C.A.B. 26434, C.A.B. 26515, C.A.B. 26489, C.A.B. 26435 and C.A.B. 26436 set forth in finding paragraphs 1, 2, and 3 above, be and hereby are approved; and 2. Action be and hereby is deferred on that portion of Agreement C.A.B. 26434, R-1 which would establish normal economy-class fares to/from U.S. west-coast points.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary

[FR Doc.77-17288 Filed 6-16-77;8:45 am]

[1] The agreement would have also increased group excursion and group inclusive-tour (GIT) fares between the United States and Brazil, within South America, and between South America and the Caribbean. However, IATA has subsequently withdrawn these resolutions and therefore no action is required on them. (Resolutions R-3, R-4 and R-5 of Agreement C.A.B. 26434). Resolution R-2, which proposes that, for group excursion fares from Brazil to the United States, one half of a basic fare be combined with one-half of a peak fare for mixed-season trips, is approved herein.

[2] At the present time the Board is equally divided as to approval of the proposed increases in the aforesaid normal economy fares. Vice Chairman O'Melia and Member Johnson would approve the increases, whereas Acting Chairman West and Member Minetti, would not, in line with their dissent from Order 77-3-62.

[2] As requested in the procedural order, the forecast under the proposed fares does not reflect downward adjustment in traffic to account for elasticity of demand.

[3] Pan American cites fuel cost in particular, asserting that additional increases will occur in July due to further OPEC action, which will have an immediate impact on the carrier due to "buyer's risk" supply contracts. In Order 77-2-32, February 4, 1977, the Board disapproved a previous IATA agreement proposing larger fare increases after adjusting Pan American's forecast to exclude elasticity and apparently anticipatory cost escalations.

[1] Since provision is made for the filing of objections to this order, petitions for reconsideration will not be entertained.

[1] Pan American has informally advised us that the cargo-rate increase will not become effective, in part because a new overall South Pacific cargo rate agreement is under discussion. Accordingly it has not submitted justification for this portion of the agreement. In these circumstances, and considering also Pan American's history of high earnings in South Pacific cargo operations, we will herein disapprove the cargo portion of the agreement.

COMMISSION ON CIVIL RIGHTS

ILLINOIS ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Illinois Advisory Committee (SAC) of the Commission will convene at 10 a.m. and will end at 3:30 p.m. on July 11, 1977, at 230 South Dearborn Street, Conference Room, Chicago, Illinois 60604.

Persons wishing to attend this open meeting should contact the Committee Chairperson or the Midwestern Regional Office of the Commission, 230 South Dearborn Street, 32nd Floor, Chicago, Illinois 60604.

The purpose of this meeting is to discuss and adopt the Chicago School Desegregation Project Proposal, discuss with state officials the proposed rules and regulations for Special Education for Handicapped Children. Adopt the project proposal for a study of the implementations of the Special Education programs in selected cities.

This meeting will be conducted pursuant to the provisions of the Rules and Regulations of the Commission.

Dated at Washington, D.C., June 13, 1977.

JOHN I. BINKLEY,
Advisory Committee Management Officer.

[FR Doc.77-17318 Filed 6-16-77;8:45 am]

LOUISIANA ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Louisiana Advisory Committee (SAC) of the Commission will convene at 9 a.m. and will end at 2 p.m. on July 9, 1977, at the Sheraton Crest, I-10 and College Drive, Rouge, Louisiana.

Persons wishing to attend this open meeting should contact the Committee Chairperson or the Southwestern Regional Office of the Commission, New Moore Building, Room 231, 106 Broadway, San Antonio, Texas 78205.

The purpose of this meeting is that the SAC will discuss school desegregation, prison reform issues, and police community relations in New Orleans.

This meeting will be conducted pursuant to the provisions of the Rules and Regulations of the Commission.

Dated at Washington, D.C., June 13, 1977.

JOHN I. BINKLEY,
Advisory Committee Management Officer.

[FR Doc.77-17319 Filed 6-16-77;8:45 am]

MISSOURI ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations

of the U.S. Commission on Civil Rights, that a planning meeting of the Missouri Advisory Committee (SAC) of the Commission will convene at 10 a.m. and will end at 4 p.m. on July 14, 1977, at the Hilton Airport Plaza Inn, I-29 and 112th Street, N.W., Kansas City, Missouri 64195.

Persons wishing to attend this open meeting should contact the Committee Chairperson or the Central States Regional Office of the Commission, Old Federal Office Building, Room 3103, 911 Walnut Street, Kansas City, Missouri 64106.

The purpose of this meeting is to receive reports on feasibility studies for a major SAC project and develop implementation plans.

This meeting will be conducted pursuant to the provisions of the Rules and Regulations of the Commission.

Dated at Washington, D.C., June 14, 1977.

JOHN I. BINKLEY,
Advisory Committee Management Officer.

Economic Development Administration

SHAM-O-KIN SHOE CORP.

Petition for a Determination of Eligibility To Apply for Trade Adjustment Assistance

A petition by Sham-O-Kin Shoe Corporation, 515 North Franklin Street, Shamokin, Pennsylvania 17872, a producer of footwear, was accepted for filing on June 9, 1977, pursuant to Section 251 of the Trade Act of 1974 (Pub. L. 93-618) and Section 315.23 of the Adjustment Assistance Regulations for Firms and Communities (13 CFR 315). Consequently, the United States Department of Commerce has initiated an investigation to determine whether increased imports into the United States of articles like or directly competitive with those produced by the firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of the petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Chief, Trade Act Certification Division, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business of the tenth calendar day following the publication of this notice.

JACK W. OSBURN, JR.,
Chief, Trade Act Certification Division, Office of Planning and Program Support.

COMMITTEE FOR THE PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1977

Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Addition to procurement list.

SUMMARY: This action adds to procurement list 1977 commodities to be produced by workshops for the blind or other severely handicapped.

EFFECTIVE DATE: June 17, 1977.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher (703-557-1145).

SUPPLEMENTARY INFORMATION: On April 18, 1977, the Committee for Purchase from the Blind and Other Severely Handicapped published a notice (42 FR 20170) of proposed additions to Procurement List 1977, November 18, 1976 (41 FR 50975).

After consideration of the relevant matter presented, the Committee has determined that the commodities listed below are suitable for procurement by the Government under 41 U.S.C. 46-48 (c), 85 Stat. 77.

Accordingly, the following commodities are hereby added to Procurement List 1977:

Class 7530

Tape, Paper, Computing Machine, 7530-00-9055, 7530-00-286-9052, 7530-00-222-3455, 7530-00-286-9053, 7530-00-286-9054, 7530-00-238-8352, 7530-00-222-3456 (GSA Regions 1, 4 (Savannah, Georgia supply distribution facility), 7, 8, 9 and 10 only).

E. R. ALLEY, Jr.,
Acting Executive Director.

[FR Doc. 77-17333 Filed 6-16-77;8:45 am]

PROCUREMENT LIST 1977

Proposed Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed additions to procurement list.

SUMMARY: The Committee has received proposals to add to procurement list 1977 commodities to be produced by and services to be provided by workshops for the blind or other severely handicapped.

COMMENTS: Must be received on or before July 20, 1977.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

FOR FURTHER INFORMATION CONTACT:

C. W. Fletcher (703-557-1145).

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77.

If the Committee approves the proposed additions, all entities of the Government will be required to procure the commodities and services listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following commodities and services to Procurement List 1977, November 18, 1976 (41 FR 50975):

Class 7105

Mirror, Glass, 7105-00-260-1290.

Class 7110

Cabinet, Telephone, 7110-00-264-4561.
Table, Occasional, 7110-00-993-5073, 7110-00-926-6702.

SIC 7349

Janitorial/Custodial Services. U.S. Army Reserve Centers for the following areas: Brockton, Massachusetts (Belmont and Manley St); Brockton, Massachusetts (Chestnut Street); Hingham, Massachusetts; Attleboro, Mass.; Roslindale, Mass.; Taunton, Mass.; New Haven, Connecticut; Bangor, Maine; Manchester, New Hampshire; Grenier Field Bldgs. P1, P2, and P3; Manchester, New Hampshire.

SIC 0782

Grounds Maintenance. U.S. Army Reserve Centers for the following areas: Attleboro, Massachusetts; Roslindale, Mass.; Taunton, Mass.; New Haven, Connecticut; Bangor, Maine; Manchester, New Hampshire; Grenier Field Bldgs. P1, P2, and P3; Manchester, New Hampshire.

E. R. ALLEY, Jr.,
Acting Executive Director.

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STA EMENTS

Availability

The following is a list of environmental impact statements received by the Council on Environmental Quality from June 6 through June 10, 1977. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and comment on draft environmental impact statements is forty-five (45) days from this FEDERAL REGISTER notice of availability. (August 1, 1977) The thirty (30) day period for each final statement begins on the day the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies are also available at 10 cents per page from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

DEPARTMENT OF AGRICULTURE

Contact: Mr. Errett Deck, Coordinator, Environmental Quality Activities, U.S. Department of Agriculture, Room 307A, Washington, D.C. 20250, (202-447-6827).

FARMERS HOME ADMINISTRATION

Final

Avon Water Project, Cape Hatteras, Dare County, N.C., June 6: Proposed is the extension of the existing water system of the Cape Hatteras Water Association from Burton, N.C. to the community of Avon, N.C., in order to provide a safe, dependable source of treated, domestic water for the Village of Avon. Plans call for the construction of a water line extension, storage tank, and distribution system. This project is intended to relieve residents of their sole dependence upon individually owned shallow wells which are subject to septic tank contamination and salt water intrusion from flooding. No adverse effects are anticipated. Comments made by: EPA, DOC, USDA, DOI, State and local agencies, and interested parties. (ELR Order No. 70713.)

FOREST SERVICE

Draft

Row, South Umpqua, and North Umpqua Units, Umpqua National Forest, Douglas, Lane, and Jackson Counties, Oreg., June 6: Proposed is a land management plan for the Row, South Umpqua, and North Umpqua Planning Units, totalling approximately one million acres on the Umpqua National Forest. For each unit, five alternative land use allocations are displayed and analyzed. Each alternative offers a different combination of lands allocated for uses which yield wood, water, forage, wildlife habitat, and outdoor recreation experience opportunities. The range of environmental effects for each alternative is discussed. (ELR Order No. 70705.)

Ashley National Forest Timber Management Plan, Utah and Wyoming, June 6: Proposed is a timber management plan for the 1,377,000-acre Ashley National Forest located in Daggett, Duchesne, Summit, Uintah, and Wasatch Counties Utah, and Sweetwater County, Wyoming. While the proposed plan is based on the 1969-72 multiple use plans, it is consistent with management decisions in two land use plans being developed, and the Vernal Land Use Plan approved in 1974. By component, the potential yield is: Standard, 15.78 million board feet; Special, 2.00 million board feet; and Marginal, 8.08 million board feet for a total of 25.86 million board feet. (ELR Order No. 70699.)

SOIL CONSERVATION SERVICE

Draft

South Branch Little Nemaha Watershed, Johnson, Lancaster, and Otoe Counties, Neb., June 10: Proposed is the South Branch Little Nemaha Watershed Projet, designed to provide watershed protection and flood prevention. The planned works of improvement include land treatment measures (on-going and accelerated), 14 floodwater retarding structures, 46 grade stabilization structures, and associated on-farm terrace systems. All structural measures and beneficiaries are located in Johnson, Lancaster, and Otoe Counties, Nebraska. Adverse effects include the loss of 588 acres of agricultural land, 80 acres of forest land, and 30 acres of roads and channel area to structural measures. (ELR Order No. 70726.)

Deposit Watershed, New York, Broome, Chenango, and Delaware Counties, N.Y., June 6: Proposed is a project for watershed protection and flood prevention in Broome, Chenango, and Delaware Counties, New York. The planned works of improvement include conservation land treatment, supplemented by two floodwater retarding structures, channel work, and dikes in residential and agricultural areas. Installation of structures will result in the commitment of 4 acres of pasture, 18 acres of open land formerly cropped, 3 acres of forest land, 2 acres of urban land, and 900 feet of intermittent stream. Short term increases in sediment and turbidity will also result. (ELR Order No. 70702.)

DEPARTMENT OF COMMERCE

Contact: Dr. Sidney R. Galler, Deputy Assistant Secretary for Environmental Affairs, Department of Commerce, Washington, D.C. 20230, 202-377-2186.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

Final

Haddock, Cod, and Yellowtail Flounder M.P., June 9: Proposed is a management plan for the domestic harvesting of haddock (Melanogrammus aeglefinus), cod (Gadus Morhua), and yellowtail flounder (Limanda ferruginea) off the Northeastern United States. These fisheries were regulated under the terms of the 18-member International Commission for the Northwest Atlantic Fisheries (ICNAF), as amended until December 31, 1976, when the U.S. withdrew from the convention. This plan proposes regulatory measures, and restrictions regarding quotas, fishing areas, mesh size, and minimum size limits. Beneficial effects are anticipated. Comments made by: DOT, EPA, DOI, COE, DOC and interested parties. (ELR Order No. 70722.)

DEPARTMENT OF DEFENSE

ARMY

Contact: Mr. George A. Cunney, Jr., Acting Chief, Environmental Office, Directorate of Installations, Office of the Deputy Chief of Staff for Logistics, Washington, D.C. 20310. 202-OX 4-4269.

NOTE.—At the request of the Department of Defense, Army, CEQ wishes to correct the abstract that appeared in the FEDERAL REGISTER of Friday, May 27, 1977 regarding Ground Squirrel Control at the Fort Ord Complex in California. The corrected version is as follows. (The filing date is the same and the comment period is not altered by this correction.)

Final

Ground Squirrel Control, Fort Ord, San Luis Obispo, Monterey Counties, Calif., June 20: Proposed is the significant reduction

of ground squirrel populations occupying large areas of grassland and woodland-grassland on Fort Ord, Fort Hunter Liggett and Camp Roberts, located in Monterey and San Luis Obispo Counties. This action would treat the open range ground squirrel habitat at Fort Hunter Liggett and Camp Roberts. The EIS recommends the use of pesticide 1080; the Department of the Army, however, prefers the alternative that would substitute the use of zinc phosphide. Adverse effects include the reduction of non-target populations such as other seed-eating rodents like meadow voles, kangaroo rats, field mice, and seed-eating birds due to secondary poisoning. Comments received by: DOI, DOT, USDA, DOD, HEW, EPA State and local agencies, interested groups and persons. (ELR Order No. 70617.)

DEPARTMENT OF DEFENSE

ARMY CORPS

Contact: Dr. C. Grant Ash, Office of Environmental Policy Department, Attn: DAEN–CWR–P, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue, S.W., Washington, D.C. 20314, 202–693–6795.

Draft

Lakes Greeson, Quachita, and DeGray, O&M, several Counties, Ark., June 9: Proposed is the continuance of operation and maintenance activities at Lake Greeson, Lake Quachita, and DeGray Lake, Arkansas. The Lake Greeson and Lake Quachita Projects were authorized for the purposes of flood control and hydroelectric power generation. The DeGray Lake project was authorized for flood control, hydroelectric power generation, water supply, navigation, and recreation. Adverse effects resulting from continued O&M include cold water release from hydroelectric power generation at Lake Greeson and Lake Quachita, which has disrupted the once warmwater fishery downstream of each lake. (Vicksburg District) (ELR Order No. 70725.)

Final

Little River Inlet Navigation Project, N.C., S.C. (2), North and South Carolina, June 6: The proposed project pertains to the Little River Inlet Navigation Project, Brunswick County, North Carolina, and Horry County, South Carolina. The recommended plant of improvement calls for: dredging an entrance channel to the Atlantic Intracoastal Waterway, dredging upcoast and downcoast deposition basins, constructing north and south jetties, and constructing sand dunes on both sides of the inlet. Adverse effects include alteration of existing vegetation, and possible displacement of wildlife species. (Charleston District.) Comments made by: EPA, DOI, DOC, USDA, HEW, HUD, DOT, State and local agencies, concerned citizens. (ELR Order No. 70707.)

SUPPLEMENT

Aquatic Plant Control, Florida (S–1), Fla., June 10: This statement supplements a final EIS filed with CEQ in September, 1973 relating to the Aquatic Plant Control Program in Florida. It concerns the inclusion of hydrilla and water lettuce in the Corps' ongoing aquatic plant control program as authorized by Section 302 of Public Law 89–298. The proposed control program calls for the herbicidal maintenance of fishing trails and open water areas in water bodies seriously infested with hydrilla, and localized treatments of water lettuce only when it poses a serious threat to water resource activities. (Jacksonville District.) (ELR Order No. 70727.)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Please refer to the separate notice published by EPA in this issue of the FEDERAL REGISTER for the appropriate EPA contact.

Final

Westside Trunk Wastewater Facilities Plan, Jackson County, Oreg., June 8: Proposed is the construction of a wastewater collection system to serve the 2,000 residents of the Westside Trunk District, Jackson County, Oregon. Wastewater from the 5400-acre District, located southwest of Central Point, would be transported to Lower Bear Creek Interceptor and then be treated at the Medford Regional Sewage Treatment Plant on Rogue River. Negative effects include short term losses of vegetation, disruption of wildlife, and increased air and noise pollution. (Region X). Comments made by: USDA, HUD, DOI, COE, AHP, State and local agencies, concerned citizens. (ELR Order No. 70721.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Director, Office of Environmental Quality, Department of Housing and Urban Development, 451 7th Street, S.W., Washington, D.C. 20410, 202–755–6308.

Draft

Nassau Woods Development, Somerset County, N.J., June 10: Proposed is the issuance of FHA Mortgage Insurance for the development of a 668 unit garden apartment development, located in Franklin Township, New Jersey. The project consists of 668 garden apartment units on 70 acres of land; a sewage treatment plant discharging to the Millstone River; and sewers and appurtenances connecting the apartment site to the treatment plant, and the treatment plant to its outfall. Parking will be provided for 1177 cars. (ELR Order No. 70729.)

Metropolis Development, Carolina, P.R., Puerto Rico, June 6: The proposed action involves the development of 366.14 cuerdas (1 cda.=0.97 acre), in the Martin Gonzalez Ward of Carolina, into a residential area, under plans already approved by all pertinent Commonwealth agencies. The project provides for the construction of approximately 2,970 residential units, of which 1,775 will be single family dwellings. Adverse effects include alteration of topography, elimination of existing flora, and increases in noise and fugitive dust levels. (ELR Order No. 70701.)

Atascocita Subdivision, Tex., Harris County, Tex., June 7: Proposed is the granting of HUD/FHA approval for the proposed Atascocita Subdivision for home mortgage insurance purposes. Johnson-Loggins, Inc. is developing the approximately 5,234 acre subdivision, and envisions the construction of approximately 16,255 dwelling units with additional acreage reserved for commercial, school, open space, and recreational use. Adverse effects include localized increases in air and noise pollution, and alternation of plant and animal communities in Atascocita. (ELR Order No. 70718.)

Final

Aliso Hills, Orange County, Calif., June 6: Proposed is the provision of mortgage insurance, if requested, on 791 acres of various residential sites including open sites in a south-central section of Orange County, California. Adverse effects include conversion of agricultural land to urban use, elimination of native wildlife and flora, modification of natural land forms through grading, increases in air and noise pollution, and increases in public service, energy, and facilities demand. Comments made by: GSA, DOC, DOT, USA, USDA, HEW, EPA, State and local agencies, concerned citizens. (ELR Order No. 70696.)

Estancias de Rio Hondo Development, San Juan, P.R., June 6: Proposed is the construction of approximately 1,625 housing units and a large shopping center in a tract of 300 acres. The project is located in the Hato Tejas Ward of Bayamon, Puerto Rico in the Metropolitan Area of San Juan. Adverse effects include the shifting of 300 acres of land from grazing to residential uses and increase in noise levels in areas close to the De Diego Expressway and Comerio Avenue. Comments made by: AHP, ERDA, EPA, DOI, HEW, USDA, interested parties. (ELR Order No. 70694.)

The following are Community Development Block Grant statements prepared and circulated directly by applicants pursuant to section 104(h) of the 1974 Housing and Community Development Act. Copies may be obtained from the office of the appropriate local chief executive. (Copies are not available from HUD.)

SECTION 104(H)

Draft

Jefferson, La., Marrero to Lafitte Waterline, Jefferson County, La. Proposed is the construction of a water line from Marrero to Lafitte in Jefferson Parish, Louisiana, to provide improved water service to the people of Ward Six of the parish and to provide for the area's domestic, recreational, commercial, and industrial needs. The water line would originate as a 36-inch diameter pipe in Marrero and would terminate approximately seventeen miles south near the end of State Highway 45 Lafitte, as an 18-inch diameter pipe. Its size would be reduced sequentially as it moves south from Marrero. Construction of the pipeline will remove approximately 20.4 acres of land from future development. (ELR Order No. 70710.)

Draft

E. Baton Rouge, La., Beaver Bayou Project, East Baton Rouge County, La., June 7: Proposed is the improvement of the Beaver Bayou in East Baton Rouge Parish, Louisiana. The project involves the construction of an open trapezoidal section earth channel generally following the existing alignment. This channel will be of varying depth and bottom width with side slopes ranging from 2:1 to 3:1 depending on both design criteria and existing subsoil conditions. The project drains approximately 8640 acres of the northeastern portion of East Baton Rouge Parish. (ELR Order No. 70714.)

Final

Willowbrook, Calif., Willowbrook Development Project, Los Angeles County, Calif., June 10: Proposed is the implementation of the Willowbrook Neighborhood Development Program in Los Angeles, California. The project goals include: improvement of the range and quality of housing, orderly growth and development around the Martin Luther King Memorial Hospital/Drew Medical School complex, and provision of recreational, community educational, and commercial facilities and services to meet community needs. Construction and demolition associated impacts will occur. Comments made by: DOT, State and county agencies. (ELR Order No. 70728.)

Mason City, Iowa, S. Federal Ave., Cerro Gordo County, Iowa, June 6: The proposed project calls for redevelopment measures on South Federal Avenue, Mason City, Iowa. Project plans consist of clearance and redevelopment of approximately 15 acres of downtown property, provision of up to 450,000 square feet of central business type commercial development, and the provision of public improvements, amenities and parking. The project area is bounded by Delaware Avenue on the east, Washington Avenue on the west, 4th Street S.W. on the south, and its north boundary is approximately one-half block north of 1st Street south. Adverse effects include impacts on air quality and noise levels. Comments made by: DOT, EPA

and local groups, concerned citizens. (ELR Order No. 70698.)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 5311, Department of the Interior, Washington, D.C. 20240, 202–343–3891.

BUREAU OF RECLAMATION

Final

S. Nevada Water Project, Second Stage, Clark County, Nev., June 7: Proposed is the second stage of the Southern Nevada Water Project, a water supply system for the Las Vegas area. (Stage One was completed in 1971). The second stage consists of five new pumping plants, modifications to four existing first stage pumping plants, a 2.5-mile long second barrel to the main aqueduct installed beside the first stage, and 30 miles of new aqueduct and pipelines with the capacity of 166,800 acre-feet per year. The State of Nevada plans a major expansion of the Alfred Merritt Smith Water Treatment Facility in conjunction with the second stage. A slight deterioration of the water quality is expected. Comments made by: DOI, AHP, USAF, HEW, DOT, COE, EPA, State and local agencies, concerned citizens. (ELR Order No. 70717.)

DEPARTMENT OF LABOR

Contact: Mr. David R. Bell, Chief, Technical Studies Branch, 200 Constitution Avenue, Room N3669, Washington, D.C. 20210, 202–523–7076.

Draft

Benzene, Occupational Exposure Standard; June 10: Proposed is the regulation of employee exposure to benzene by setting a permissable exposure limit of 1 part benzene per million parts of air (1 ppm) as an 8-hour time-weighted average. The proposal also provides for employee exposure measurements, methods of compliance, protective clothing and equipment, medical surveillance, training, signs and label, employee observation of monitoring, and record-keeping. Beneficial impact on the workplace environment is anticipated. (ELR Order No. 70730.)

NUCLEAR REGULATORY COMMISSION

Contact: Mr. Voss A. Moore, Division of Reactor Licensing, P–722, NRC, Washington, D.C. 20555, 301–443–6965.

Final

Bear Creek Project, Rocky Mountain Energy Co., Converse County, Wyo., June 8: The proposed action is the issuance of approvals, permits, and licenses to the Rocky Mountain Energy Company for the implementation of the Bear Creek Project. This project consists of certain mining and milling operations involving uranium ore deposits located in Converse County, Wyoming. Mining of uranium from nine known ore bodies will take place over a period of ten years; a mill with a nominal capacity of 1,000 tons per day will be constructed and operated as long as ore is available. The waste material will be stored on site in an impoundment. Adverse effects include loss of 3,000 acres of grazig land and disturbance of 1,800 acres of vegetation. Comments made by: USA, USCG, NRC, HEW, USDA, AHP, EPA, DOT, DOI, and ERDA. (ELR Order No. 70719.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 400 7th Street SW., Washington, D.C. 20590, 202–426–4357.

FEDERAL HIGHWAY ADMINISTRATION

Draft

I–291, Greater Hartford Area, Hartford County, Conn., June 6: Proposed is the construction of a multi-lane, limited access, suburban highway in the Greater Hartford area. The alignment of I–291 would extend from an interchange with Interstate Route 84 in Farmington, Connecticut, southeasterly through the towns of New Britain, Newington, Wethersfield, and Rocky Hill, Connecticut to an interchange with Interstate Route 91 in the Town of Rock Hill, Connecticut. The proposed construction would necessitate the displacement of 190 parcels of land, 93 households, and 35 businesses. A 4(f) statement is included for Churchill Park and Eagle Lantern Village Open Space. (ELR Order No. 70703.)

I–93 & U.S. 1 Interchange, Boston and Cambridge, Suffolk County, Mass., June 6: Proposed is the reconstruction of the expressway interchange of Interstate 93 (I–93) with the Mystic River Bridge (Route 1) in the city of Boston (Charlestown section) and Cambridge, by either replacement of existing viaduct roadway, or total construction of the interchange in a new configuration. One "No-Build" and two "Build" alternatives are under consideration. Of the two "Build" alternatives, Alternative 2, replaces viaduct roadways and produces surface street improvements; Alternative 3 would realign approaches from I–93 to the Mystic River Bridge on a new right-of-way, improve local surface streets, and remove the existing overhead structures. (Region 1.) (ELR Order No. 70706.)

Tenth Street South Upgrade, St. Cloud, Stearns and Sherburne Counties, Minn., June 6: The proposed improvement calls for upgrading the Tenth Street Corridor, which is located in the south-central portion of the St. Cloud Metropolitan Area. The Tenth Street Corridor begins at 39th Avenue and extends approximately four miles to U.S. 10/52; the corridor spans the Mississippi River. About two-thirds of the proposed arterial follows existing street and the remainder is in undeveloped areas of the city. Four distinct alternates are under consideration, two providing for a two-lane bridge and roadway, one providing for a four-lane bridge and roadway, and one providing for no action. A 4(f) statement is included concerning Riverside Park. (Region 5.) (ELR Order No. 70709.)

S.R. 90, Hilltop Interchange and Frontage Roads, Grant County, Wash., June 6: The proposed action consists of the construction of: (1) an interchange at location M.P. 143.86, near the point locally known as "Hilltop", and (2) approximately 8.02 miles of two lane, north and south frontage roads. The frontage roads will begin in the vicinity of "Hilltop" and extend along and adjacent to Interstate Route 90. The north frontage road will terminate near section corner 11, 12, 14 and 13 on County road S–SW. The south frontage road will terminate near the Beverly-Burke Road Undercrossing on County road R–SW. This construction area ends approximately one mile southwest of the town of George. Adverse effects include loss of wetland, and disruption to wildlife. (ELR Order No. 70711.)

Final

Clay-Herron St. Extension, Ala., Montgomery County, Ala., June 6: Proposed is the extension of Clay-Herron Street from I–65 west to U.S. 31 near Maxwell Air Force Base in West Montgomery, Alabama. The preferred alternative begins in the center of existing four-lane U.S. 31 near west Montgomery city limits and near where U.S. 31 transitions to two lanes; then proceeds easterly generally parallel to U.S. 31 to just east of Air Base Boulevard overpass entrance into Maxwell Air Force Base. The project ends just west of Oak Street. The most significant negative impact will be the disruption and relocation of 24 families, 2 individuals, and 9 businesses. A 4(f) statement is included for West End Park. (Region 4.) Comments made by: EPA, HUD, COE, DOC, USDA, DOI, HEW, DOT, and concerned citizens. (ELR Order No. 70704.)

Saticoy Street Extension, Los Angeles, Los Angeles County, Calif., June 7: The project consists of the construction of Saticoy Street from Woodman Avenue to Van Nuys Boulevard. A grade separation is also proposed where the Saticoy Street extension crosses the Southern Pacific Railroad tracks. The main impact will be the effect of right-of-way acquisition upon the Department of Water and Power's Valley General Service Headquarters. Right-of-way requirements will also necessitate the structural remodeling of five industrial buildings (with possible relocation of one tenant) and the removal of one single-family dwelling. Noise and air pollution for the area will increase. (Region 9.) Comments made by: DOI, HEW, State and local agencies, and concerned citizens. (ELR Order No. 70715.)

Connector Highway, Pensacola USN Sta. to I–10, Escambia County, Fla., June 9: Proposed is the completion of a four-lane highway approximately 11.3 miles in length, extending from the West Gate of the Pensacola Naval Air Station northward to Interstate 10. The termini of the preferred alternative are S.R. S–292 and Pine Forest Road. Adverse impacts include displacement of 14 households and 2 businesses, and creation of some additional runoff, noise, and air pollutants. (Region 4.) Comments made by: EPA, DOI, HEW, DOC, USN, State and local agencies, and concerned citizens. (ELR Order No. 70724.)

I–380, Cedar Rapids, Linn County, Iowa, June 6: The proposed project involves the construction of a 4 to 8 lane, divided-highway segment of I–380, beginning at I–80 and ending at Freeway Route 518. The total project length is 2.5 miles. Major adverse impacts would be the displacement of 37 homes and 110 people, increased noise and air pollution, and a temporary increase in sediment load in McCloud Run due to erosion during construction. (Region 7.) Comments made by: HUD, USDA, DOI, HEW, EPA, DOT, State and local agencies, and concerned citizens. (ELR Order No. 70708.)

Md. Route 51, Cumberland to N. Branch, Allegany County, Md., June 7: The proposed action consists of relocating Maryland Route 51 from the access road to the Pittsburgh Plate Glass Plant at North Branch to 0.32 miles south of Cumberland, a distance of approximately 2.99 miles. Project plans consist of two 24-foot roadways separated by a 16-foot median strip with partial control of access. Adverse effects include acquisition of 98 acres of varying land use types, displacement of 12 families, and increases in air and noise pollution. (Region 3.) Comments made by: DOI, USDA, EPA, COE, State and local agencies, and concerned citizens. (ELR Order No. 70716.)

U.S. 93, Polson to Kalispell, Montana, Lake County, Mont., June 6: The proposed action consists of the reconstruction of approximately 13.0 miles of U.S. 93 on the west side of Flathead Lake between Polson and Kalispell. The Elmo-Rollins project, which is the southernmost project, starts 2.5 miles north-

east of Elmo and proceeds 5.5 miles to just northeast of Dayton. The Flathead-County Line-South project begins at the end of the Elmo-Rollins project and proceeds northerly for 7.5 miles to 1 miles south of the Flathead-Lake County Line. Construction-related impacts are anticipated. (Region 8.) Comments made by: EPA, DOT, COE, HEW, State and local agencies, and concerned citizens. (ELR Order No. 70700.)

U.S. 74, West of Hallsboro to East of Bolton, Columbus County, N.C., June 6: Proposed is the improvement of the existing U.S. 74 highway in Columbus County from west of Hallsboro to east of Bolton. The improvement will be a divided four-lane facility with five-lane urbanized sections, and will extend a distance of approximately 17.0 to 18.6 miles. The project will require the taking of land for right-of-way and will displace 32 families, 4 businesses, and 2 churches. The highway location will affect, to a certain extent, the desirability of areas of Bogue Swamp and Friar Swamp as wildlife habitat. (Region 4.) Comments made by: USDA, COE, DOC, DOI, EPA, FPC, GSA, State and local agencies, and concerned citizens. (ELR Order No. 70712.)

Whipple Avenue (State Route 297), Ohio, Stark County, Ohio, June 9: Proposed is the widening of Whipple Avenue from Fulton Drive to I–77 at Everhard Road in Canton, Ohio. The southern section of the original proposal requires further study and will necessitate a separate environmental document. The construction of the northern section will widen Whipple Avenue to a four-lane arterial with a fifth turning lane, where necessary. Few adverse effects are anticipated. (Region 5.) Comments made by: DOT, EPA, HUD, State agencies, and interested parties. (ELR Order No. 70723.)

Supplement

I–40 and Mountain Road Interchange (S–2), Quay County, N. Mex., June 6: Proposed is the construction of a diamond interchange at the intersection of Mountain Road and Interstate 40 in Tucumcari, Quay County, New Mexico. The City of Tucumcari and Quay County will construct the Mountain Road connection from U.S. 66 to the Interchange. Approximately 155 acres of irrigated land and 5 acres of dry land will be acquired for the proposed interchange. (Region 6.) (ELR Order No. 70697.)

NICHOLAS C. YOST,
Acting General Counsel.

DEPARTMENT OF DEFENSE

Department of the Air Force

REQUIREMENT FOR FOREIGN CURRENCY BANKING ARRANGEMENT

Invitation for Bids

The U.S. Air Force has a requirement for a foreign currency banking arrangement to fulfill agreements for European coproduction of the F–16 aircraft. The agreement involves the countries of Belgium, Denmark, the Netherlands, and Norway. The currencies involved in the banking arrangement will be the respective currencies of these four countries and U.S. dollars. Central management and accounting will be in Brussels, Belgium; however, one account will be established for each foreign currency and maintained in the respective country. The foreign currency accounts will be used to accept deposits from the European governments and contractors and U.S. Government, to make disbursements to U.S. contractors for their payment of European subcontractors and vendors, and to make currency exchanges for European contractors. A qualified financial institution will have:

(a) Correspondent relationships to permit cable transactions among Belgium, Denmark, the Netherlands, Norway, and the U.S.;

(b) Capability for timely transfer of U.S. dollars from Europe to the designated Federal Reserve Bank or Branch in the U.S.;

(c) Capability to promptly record and confirm foreign currency deposits; and

(d) Capability of centrally accounting and providing magnetic tapes of all transactions.

Based on information presently available, it appears that deposits to the four accounts will total the equivalent of four billion U.S. dollars over the next 8–10 years. However, the amount and period could vary significantly from this estimate. Also, it is planned that bidding for maintaining the accounts will be reopened every two years.

Financial institutions, domestic or foreign, desiring a copy of the detail specification and requirement package on the banking arrangement may contact Mr. Charles M. Hefin, HQ USAF, Directorate of Accounting and Finance (AF/ACF), Washington, D.C. 20330, telephone 202–697–9223.

This invitation to bid has been extended to July 5, 1977. To be considered, all bids must be received at the above address by July 5, 1977. Financial institutions who have already submitted bids need not resubmit. However, changes, if any, will be accepted.

FRANKIE S. ESTEP,
Air Force Federal Register Liaison, Directorate of Administration.

Office of the Secretary

DDR&E HIGH ENERGY LASER REVIEW GROUP (HELRG)

Closed Meeting

Pursuant to the provisions of Section 10 of Appendix I, Title 5, United States Code, notice is hereby given that a closed meeting of the DDR&E High Energy Laser Review Group will be held at 0830 on Monday, July 18, 1977, in San Diego, California. The purpose is to review matters pertaining to the Department of Defense high energy laser program.

The entire meeting will be devoted to a discussion of classified information as defined in subparagraph (1) of Section 552b(c) of Title 5 of the U.S. Code, and therefore will be closed to the public.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (Comptroller).

JUNE 9, 1977.

DEFENSE INTELLIGENCE AGENCY SCIENTIFIC ADVISORY COMMITTEE

Closed Meeting

Pursuant to the provisions of Subsection (d) of Section 10 of Public Law 92–463, as amended by Section 5 of Public Law 94–409, notice is hereby given that a closed meeting of a Panel of the DIA Scientific Advisory Committee will be held as follows: Tuesday, 12 July 1977, Pomponio Plaza, Rosslyn, Va.

The entire meeting commencing at 0830 hours is devoted to the discussion of classified information as defined in Section 552b(c)(1), Title 5 of the U.S. Code and therefore will be closed to the public. The Panel will receive briefings and participate in discussions relative to the Defense Intelligence Agency's assessments of foreign military equipment, operations, and capabilities.

MAURICE W. ROCHE,
Director, Correspondence and Directives, Office of the Assistant Secretary of Defense (Comptroller).

OCCUPATONAL SAFETY AND HEALTH

Applications for Certification of Certain Gas Detector Tube Units

In the FEDERAL REGISTER of May 8, 1973 (38 FR 11458), the Department adopted regulations which set forth the requirements and procedures for the evaluation and certification of gas detector tube units (42 CFR Part 84). In accordance with § 84.3(a) of the regulations, notice is hereby given that the National Institute for Occupational Safety and Health will accept applications for certification of gas detector tube units pursuant to the following schedule:

Gas	Dates for submittal	Test standards
Benzene (CAS registry No. 000071432)	Immediately and until further notice	1 p/m
Chloroprene (CAS registry No. 000126998)	Oct. 1 to Oct. 31, 1977	25 p/m

All applications and any questions concerning the certification program should be submitted to the Institute's Testing and Certification Branch, 944 Chestnut Ridge Road, Morgantown, West Virginia 26505.

Dated: June 11, 1977.

EDWARD J. BAIER,
Acting Director, National Institute for Occupational Safety and Health.

Food and Drug Administration

ADVISORY COMMITTEES

Meetings

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice announces forthcoming meetings of public advisory committees of the Food and Drug Administration (FDA). This notice also sets forth a summary of the procedures governing committee meetings and methods by which interested persons may participate in open public hearings conducted by the committees and is issued under section 10(a) (1) and (2) of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770–776 (5 U.S.C. App. I)), and FDA regulations (21 CFR Part 14) (formerly Subpart D of Part 2, prior to recodification published in the FEDERAL REGISTER of March 22, 1977 (42 FR 15553)) relating to adivsory committees. The following advisory committee meetings are announced:

Committee name	Date, time, and place	Type of meeting and contact person
1. Ophthalmic device classification panel.	July 11 and 12, 1 p.m., room 503/507A, South Portal Bldg., 200 Independence Ave. SW., Washington, D.C.	Closed committee deliberations July 11, 9 a.m. to 1 p.m.; open public hearing July 11, 1 p.m. to 2 p.m.; open committee discussion July 11, 2 p.m. to 5 p.m.; open public hearing July 12, 9 a.m. to 10 a.m.; open committee discussion July 12, 10 a.m. to 5 p.m.; James G. Dillon, Ph. D. (HFK–470), 8757 Georgia Ave., Silver Spring, Md. 20910, 301–427–7226.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to: (1) Rediscussion, based on new or additional information, of previously recommended classifications of ophthalmic devices; (2) extended wear contact lenses; and (3) Class I device exemptions (section 513 (c) (2) (B) of the Medical Device Amendments of 1976) to the executive secretary. Those desiring to make formal presentations should notify the executive secretary by July 1, 1977, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and also an indication of the approximate time required to make their comments.

Open committee discussion. The committee will review previous classifications in light of any new or additional information. The committee will also review extended wear contact lenses. Additionally a presentation relative to Class I device exemptions (section 513(c) (2) (B) of the Medical Device Amendments of 1976) will be made by a representative of the Division of Compliance, Bureau of Medical Devices. The panel will recommend Class I device exemptions for the appropriate devices.

Closed committee deliberations. The committee will review premarket approval applications for ophthalmic devices. This portion of the meeting will be closed to permit discussion of trade secret data (5 U.S.C. 552b(c)(4)).

Committee name	Date, time, and place	Type of meeting and contact person
2. Cardiovascular device classification panel.	July 29, 9 a.m., room 1813 FB–8, 200 C St. SW., Washington, D.C.	Open public hearing 9 a.m. to 10 a.m.; open committee discussion 10 a.m. to 4 p.m.; closed committee deliberations 4 p.m. to adjournment; Glenn Rahmoeller (HFK–450), 8757 Georgia Ave., Silver Spring, Md. 20910, 301–427–7226.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present data relative to the tentative classification findings. Those desiring to make formal presentations should notify the executive secretary by July 8, 1977, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and also an indication of the approximate time required to make their comments.

Open committee discussion. The purpose of this meeting is to review the cardiovascular device panel's classification report and to provide industry and other members of the public an opportunity to comment on the panel's classification recommendations.

Closed committee deliberations. Discussion of premarket approval application for a new device. This portion of the meeting will be closed to protect trade secret data (5 U.S.C. 552b(c)(4)).

Each public advisory committee meeting listed above may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing portion. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. The dates and times reserved for the separate portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1 hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published in this FEDERAL REGISTER notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

A list of committee members and summary minutes of meetings may be obtained from the Public Records and Documents Center (HFC–18), 5600 Fishers Lane, Rockville, Md. 20857, between the hours of 9 a.m. and 4 p.m., Monday through Friday. The FDA regulations relating to public advisory committees may be found in 21 CFR Part 14 (formerly Subpart D of Part 2, prior to recodification published in the FEDERAL REGISTER of March 22, 1977 (42 FR 15553)).

The Commissioner, with the concurrence of the Chief Counsel, has determined for the reasons stated that those portions of the advisory committee meetings so designated in this notice shall be closed. The Federal Advisory Committee Act (FACA), as amended by the Government in the Sunshine Act (Pub. L. 94–409), permit such closed advisory committee meetings in certain circumstances. Those portions of a meeting designated as closed, however, shall be closed for the shortest possible time, consistent with the intent of the cited statutes.

The FACA, as amended, provides that a portion of a meeting may be closed where the matter for discussion involves

a trade secret; commercial or financial information that is privileged or confidential; information of a personal nature, disclosure of which would be a clearly unwarranted invasion of personal privacy; investigatory files compiled for law enforcement purposes; information the premature disclosure of which would be likely to significantly frustrate implementation of a proposed agency action; and information in certain other instances not generally relevant to FDA matters.

Examples of portions of FDA advisory committee meetings that ordinarily may be closed, where necessary and in accordance with FACA criteria, include the review, discussion, and evaluation of drafts of regulations or guidelines or similar preexisting internal agency documents, but only if their premature disclosure is likely to significantly frustrate implementation of proposed agency action; review of trade secrets and confidential commercial or financial information submitted to the agency; consideration of matters involving investigatory files compiled for law enforcement purposes; and review of matters, such as personnel records or individual patient records, where disclosure would constitute a clearly unwarranted invasion of personal privacy.

Examples of portions of FDA advisory committee meetings that ordinarily shall not be closed include the review, discussion, and evaluation of general preclinical and clinical test protocols and procedures for a class of drugs or devices; consideration of labeling requirements for a class of marketed drugs or devices; review of data and information on specific investigational or marketed drugs and devices that have previously been made public; presentation of any other data or information that is not exempt from public disclosure pursuant to the FACA, as amended; and, notably, deliberative sessions to formulate advice and recommendations to the agency on matters that do not independently justify closing.

Dated: June 10, 1977.

JOSEPH P. HILE,
Acting Commissioner of Food and Drugs.

[FR Doc.77-17092 Filed 6-16-77;8:45 am]

ADVISORY COMMITTEES

Meetings

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice announces forthcoming meetings of public advisory committees of the Food and Drug Administration (FDA). This notice also sets forth a summary of the procedures governing committee meetings and methods by which interested persons may participate in open public hearings conducted by the committees and is issued under section 10(a) (1) and (2) of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. App. I)), and FDA regulations (21 CFR Part 14) (formerly Subpart D of Part 2, prior to recodification published in the FEDERAL REGISTER of March 22, 1977 (42 FR 15553)) relating to advisory committees. The following advisory committee meetings are announced:

Committee name	Date, time, and place	Type of meeting and contact person
1. Miscellaneous Internal Drug Products Panel.	July 9, 10, and 11, 1 p.m., conference room A, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing July 9, 1 p.m. to 2 p.m.; open committee discussion July 9, 2 p.m. to 4:30 p.m.; July 10, 9 a.m. to 4:30 p.m.; open public hearing July 11, 9 a.m. to 10:30 a.m.; open committee discussion July 11, 10:30 a.m. to 4:30 p.m.; Armond M. Welch (HFD-510), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4960.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. Any interested persons may present data, information or views, orally or in writing, on issues pending before the committee. Those who desire to make such a presentation should notify the contact person before July 6, 1977 and submit a brief statement of the general nature of the data, information or views they wish to present, the names and addresses of proposed participants, and an indication of the approximate time desired for their presentation.

Open committee discussion. The panel will review data submitted pursuant to the over-the-counter (OTC) review's call for data for this panel (see also 21 CFR 330.10(a)(2)).

The panel will be reviewing, voting upon, and modifying the content of summary minutes and categorization of ingredients and claims.

Committee name	Date, time, and place	Type of meeting and contact person
2. Pathology Device Classification Panel.	July 11 and 12, 9 a.m., room 1408, FB-8, 200 C St. SW., Washington, D.C.	Open public hearing July 11, 9 a.m. to 10 a.m.; open committee discussion July 11, 10 a.m. to 4:30 p.m.; July 12, 9 a.m. to 4:30 p.m.; Thomas M. Tadlock (HFK-440), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7284.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested persons are encouraged to present information pertinent to the classification of pathology diagnostic products to the executive secretary. Submission of data relative to tentative classification findings is also invited. Those desiring to make formal presentations should notify the executive secretary by June 27, 1977, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and also an indication of the approximate time required to make their comments.

Open committee discussion. Presentations will be made as follows: (1) Linda Horton, Office of General Counsel, FDA, will discuss the background of the Federal Food, Drug, and Cosmetic Act, the addition of the Medical Device Amendments of 1976 and its important features, and the panel's responsibilities; (2) Dr. Carl W. Bruch, Acting Director, Division of Classification and Scientific Evaluation, Bureau of Medical Devices will discuss the needs and importance of classification; and (3) Larry Pilot, Director, Division of Compliance, Bureau of Medical Devises, will discuss the responsibilities of the Division of Compliance.

Immediately following the presentations, the panel will begin classification of assigned devices from the pathology device classification list. The following product groups will be considered for classification: Cells and body fluid collection devices; storage specimen collection containers; decalcifiers; fixatives, preservatives and adhesives; microscopes and accessories; reagents; stains, tissue biopsy instruments; tissue processing equipment.

Committee name	Date, time, and place	Type of meeting and contact person
3. Dentifrices and Dental Care Agents Panel.	July 13 and 14, 9 a.m., conference room A, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing July 13, 9 a.m. to 10 a.m.; open committee discussion July 13, 10 a.m. to 4:30 p.m.; July 14, 9 a.m. to 4:30 p.m.; Michael D. Kennedy (HFD-510), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4960.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the committee.

Open committee discussion. The panel will review data submitted pursuant to the over-the-counter (OTC) review's call for data for this panel (see also 21 CFR 330.10(a)(2)).

The panel will be reviewing, voting upon, and modifying the content of summary minutes and categorization of ingredients and claims.

Committee name	Date, time, and place	Type of meeting and contact person
4. Orthopedic Device Classification Panel.	July 15, 9 a.m., room 503/507A, South Portal Bldg., 200 Independence Ave. SW., Washington, D.C.	Open public hearing 9 a.m. to 10 a.m.; open committee discussion 10 a.m. to 5 p.m.; James G. Dillon, Ph. D. (HFK-470), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7228.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to classification of orthopedic devices to the executive secretary. Submission of data relative to tentative classification findings is also invited. Those desiring to make formal presentations should notify the executive secretary by July 1, 1977, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and also an indication of the approximate time required to make their comments.

Open committee discussion. The panel will rediscuss additional data concerning patellofemoral prostheses, total ankle prostheses, and total wrist prostheses; review of the available information and recommendations for classification of ultrasonic bone cutters, electronic bone growth stimulators, total shoulder prostheses and total hip prostheses with trunnion bearings; discuss exemptions for devices recommended for classification in Class I—General Controls (in accordance with section 513(c)(2)(B) of the Medical Device Amendments of 1976) as well as a general review of previous classification recommendations.

Committee name	Date, time, and place	Type of meeting and contact person
5. General Hospital and Personal Use Device Classification Panel.	July 18 and 19, 9 a.m. room 1313, FB-8, 200 C St. SW., Washington, D.C.	Open public hearing July 18, 9 a.m. to 10 a.m.; open committee discussion July 18, 10 a.m. to 5 p.m.; July 19, 9 a.m. to 5 p.m.; William C. Dierksheide, Ph. D. (HFK-440), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7284.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to the classification of general hospital and personal use devices to the executive secretary. Submission of data relative to tentative classification findings is also invited. Those desiring to make formal presentations should notify the executive secretary by July 11, 1977, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and also an indication of the approximate time required to make their comments.

Open committee discussion. The panel will classify the following devices: Adult identification bracelet; infant identification bracelet; general hospital sylet; fiber absorbent; absorbent tipped applicator; newborn urine collection bag; formaldehyde cabinet; A–C powered examination and treatment chair; adjustable examination and treatment chair; fiber filled dressing; gauze dressing; forceps; plastic heat shield; neonatal eye pad; custom support hose; noncustom support hose; gauze stockinett; tape measure; umbilical cord ties, tapes, and clips; emesis basin; bedpan; cardiopulmonary resuscitation board; vacuum bottle; ice cap; ring cutter; medicine glass; Kelley pad; cardiopulmonary resuscitation pulsar; ring stand; urinal; special lambs nipple; foot board; warming cabinet; geriatric chair; mattress cover; pediatric top bed covers; footrest, with bed attachment; examination light; skin pressure protector; protective restraint; body weight scale; bed cover support; overbed table; pediatric aerosol tent; inhalater; wheeled stretcher; hand carried stretcher; chemical hotpack; chemical coldpack; electrically powered water flotation bed; surgical glove; operating room gown; overhead boom patient lift; mercury blood pressure manometer; electric heating pad; prophylactic (condom); A–C powered patient rollers; electrically powered operating room table; surgical patient isolation unit; ultrasonic cleaner; and general tubing for fluid delivery system.

Committee name	Date, time, and place	Type of meeting and contact person
6. General and Plastic Surgery Device Classification Panel.	July 21, 8 a.m. room 1137, HEW–N, 330 Independence Ave. SW., Washington, D.C.	Open committee discussion 8 a.m. to 2:30 p.m.; open public hearing 2:30 p.m. to 4:30 p.m.; Mark F. Parish, Ph. D. (HFK–470), 8757 Georgia Ave., Silver Spring, Md. 20910, 301–427–7238.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to the classification of the devices listed below to the executive secretary. Submission of data relative to tentative classification findings is also invited. Those desiring to make formal presentations should notify the executive secretary by July 14, 1977, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and also an indication of the approximate time required to make their comments.

Open committee discussion. The following devices will be classified: Air-handling apparatus (bench, room-type, and enclosures); surgeons gloves; suture booster and retention bridge; burn and wound dressings; cardiac output monitor; continuous blood gas monitor. The panel will discuss and classify tissue adhesives and ultraviolet light cabinets. The panel will review electrosurgical device standards and the previous classification of surgical lasers. Criteria for long-term biocompatibility of implanted prosthetic devices will be discussed. Also, at the panel's February 24 meeting the following devices, which were not listed in the January 18, 1977 FEDERAL REGISTER notice (42 FR 3353) of that meeting, were reviewed. As the February meeting was adjourning ahead of schedule, the members agreed to review these remaining devices on their list: Measuring tapes, rulers, and calipers; mirrors; tongue blades; electrical safety apparatus—conductivity tester, explosion and nonexplosion proof connectors and outlets, conductive flooring, ground fault indicator, isolation transformer; jars; external prostheses—adhesive, aesthetic restoration material, brace (back, lower and upper extremity, and neck), cane, crutches, facial fracture appliance, inflatable and noninflatable extremity splints, nasal splint; skin marker. The panel will consider additional comments regarding the classification of these devices at the July 21 meeting.

Committee name	Date, time, and place	Type of meeting and contact person
7. Subcommittee on Hypersensitivity and Immunotoxicity of the NCTR Science Advisory Board.	July 22, 8 a.m., Camelot Inn Little Rock, Ark.	Open public hearing 8 a.m. to 9 a.m.; open committee discussion 9 a.m. to 4 p.m.; Ruth S. Brown, National Center for Toxicological Research, Jefferson, Ark. 72079, 501–541–4528.

General function of the committee. Advises on establishment and implementation of a research program that will assist the Commissioner of Food and Drugs and the Administrator, Environmental Protection Agency, in fulfilling their regulatory responsibilities.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the board.

Open committee discussion. Discussion of hypersensitivity, immunosuppression, and ongoing experiments and proposed models for determining the effects of drugs and toxic agents in immunocompetence.

Committee name	Date, time, and place	Type of meeting and contact person
8. Neurological Device Classification Panel.	July 22 and 23, 9 a.m. room 1813, FB–8, 200 C St. SW., Washington, D.C. on July 15; room 421, Crystal City Marriott Hotel, Arlington, Va. on July 16.	Open public hearing July 15, 9 a.m. to 10 a.m.; open committee discussion July 15, 10 a.m. to 4 p.m.; July 16, 9 a.m. to 4 p.m.; James R. Veale (HFK–450), 8757 Georgia Ave., Silver Spring, Md. 20910, 301–427–7226.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to classification of devices listed in this notice to the executive secretary. Submission of data relative to tentative classification findings is also invited. Those desiring to make formal presentations should notify the executive secretary by July 1, 1977, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, references to any data to be relied on, and also an indication of the approximate time required to make their comments.

Open committee discussion. The panel will review available literature concerning the following devices in order that a final panel recommendation for classification can be made: CSF shunts and components; aneurysm clips; burr hole covers; cranioplasty and skull plate fasteners; cranioplasty preformed plates (alterable); cranioplasty preformed plates (nonalterable); craniosynostosis strips (preformed); dura substitutes; vertebral replacements; vertebral struts; tissue adhesives for aneurysmorrhaphy; methyl methacrylate for aneurysmorrhaphy; induction coagulation lesion generators and implanted seeds; arterial clamps; implanted neurostimulators (cerebellar, phrenic nerve, intracerebral/subcortical for pain, spinal cord for bladder evacuation, spinal cord for pain, neuromuscular, peripheral nerve for pain); cerebral electrotherapy stimulators; nerve cuffs.

Committee name	Date, time, and place	Type of meeting and contact person
9. Allergenic Extracts Panel.	July 22 and 23, 9 a.m., room 130, 6110 Executive Blvd., Rockville, Md.	Open public hearing July 22, 9 a.m. to 10 a.m.; open committee discussion July 22, 10 a.m. to 5:30 p.m.; July 23, 8:30 a.m. to adjournment; Clay Sisk (HFB–5), 8800 Rockville Pike, Bethesda, Md. 20014, 301–443–5455.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of biological products.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the committee.

Open committee discussion. Discussion of manufacturing guidelines for epidermal and food extracts; indications for allergenic extracts in ophthalmic testing and inhalation challenge; review of 21 CFR 680.1, 680.2, and 680.3; microbial and endotoxin hazards in extracts; edit draft reviews on epidermal, insect, pollen, food and miscellaneous inhalant extracts; edit draft statements on testing recommendations, safety, standardization, and the introduction to the panel report.

Committee name	Date, time, and place	Type of meeting and contact person
10. Contraceptive and Other Vaginal Drug Products Panel.	July 27 and 28, 9 a.m., conference room A, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing July 27, 9 a.m. to 10 a.m.; open committee discussion July 27, 10 a.m. to 4:30 p.m.; July 28, 9 a.m. to 4:30 p.m.; Armond M. Welch (HFD–510), 5600 Fishers Lane, Rockville, Md. 20857, 301–442–4900.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Those who desire to make such a presentation should notify the contact person before July 24, 1977 and submit a brief statement of the general nature of the

data, information or views they wish to present, the names and addresses of proposed participants, and an indication of the approximate time desired for their presentation.

Open committee discussion. The panel will review data submitted pursuant to the over-the-counter (OTC) review's call for data for this panel (see also 21 CFR 330.10(a)(2)).

The panel will be reviewing, voting upon and modifying the content of summary minutes and categorization of ingredients and claims.

Committee name	Date, time, and place	Type of meeting and contact person
H. Antimicrobial Panel	July 29 and 30, 9 a.m., conference room M, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing July 29, 9 a.m. to 10 a.m.; open committee discussion July 29, 10 a.m. to 4:30 p.m.; July 30, 9 a.m. to 4:30 p.m.; Armond M. Welch (HFD-510), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-4960.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Those who desire to make such a presentation should notify the contact person before July 26, 1977 and submit a brief statement of the general nature of the data, information or views they wish to present, the names and addresses of proposed participants, and an indication of the approximate time desired for their presentation.

Open committee discussion. The panel will review data submitted pursuant to the over-the-counter (OTC) review's call for data for this panel (see also 21 CFR 330.10(a)(2)).

The panel will be reviewing, voting upon and modifying the content of summary minutes and categorization of ingredients and claims.

Committee name	Date, time, and place	Type of meeting and contact person
H. Obstetrics and Gynecology Advisory Committee.	July 28 and 29, 9 a.m., conference rooms G and H, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing July 28, 9 a.m. to 10 a.m.; open committee discussion July 28, 10 a.m. to 5 p.m.; July 29, 9 a.m. to 5 p.m.; A. T. Gregoire, Ph. D. (HFD-120), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3510.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of marketed and investigational prescription drugs for use in the practice of obstetrics and gynecology.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the committee.

Open committee discussion. Discussion of the review of estrogen product labeling; committee review of draft guidelines for the clinical study of systemic contraceptives; review of proposed study on intermittent estriol therapy in premenopausal women; oxytocic agents for induction of labor; and NDA 17,989 ((15s)-15 Methyl Prostin F_2 Alpha).

FDA public advisory committee meetings may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing portion. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. There are no closed portions for the meetings announced in this notice. The dates and times reserved for the open portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1 hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published in this FEDERAL REGISTER notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

A list of committee members and summary minutes of meetings may be obtained from the Public Records and Documents Center (HFC-18), 5600 Fishers Lane, Rockville, MD 20857, between the hours of 9 a.m. and 4 p.m., Monday through Friday. The FDA regulations relating to public advisory committees may be found in 21 CFR Part 14 (formerly Subpart D of Part 2, prior to recodification published in the FEDERAL REGISTER of March 22, 1977 (42 FR 15553)).

The Commissioner approves the scheduling of meetings at locations outside of the Washington, DC, area on the basis of the criteria of 21 CFR 14.22 (formerly

21 CFR 2.307, prior to recodification published in the FEDERAL REGISTER of March 22, 1977 (42 FR 15553)) of FDA's regulations relating to public advisory committees.

Dated: June 9, 1977.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

[FR Doc.77-16956 Filed 6-16-77;8:45 am]

[Docket No. 77C-0153]

COLOR ADDITIVE PETITIONS

Amended Filing Notices

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This is a notice of amendment to petitions for color additives which proposed use of natural pearl essence, mica, chromium oxide green, chromium hydroxide green, graphite, and ferric ferrocyanide. The petitions are amended to include their use in externally applied drugs.

FOR FURTHER INFORMATION CONTACT:

Gerad L. McCowin, Bureau of Foods (HFF-334), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, D.C. 20204, (202-472-5740).

SUPPLEMENTARY INFORMATION: Notice was given in the FEDERAL REGISTER of August 6, 1973 (38 FR 21200) that the following petitions had been filed by the Cosmetic, Toiletry and Fragrance Association, Inc. (CTFA), 1133 15th St. NW., Washington, DC 20005 (formerly the Toilet Goods Association, Inc.), c/o Hazleton Laboratories, Inc., P.O. Box 30, Falls Church, VA 22046, proposing the issuance of color additive regulations for the safe use and exemption from certification of various color additives:

Color additive	Uses
CAP No.:	
8C0074 Natural pearl essence	In externally applied cosmetics, including lipsticks and those for use in the area of the eye.
8C0076 Mica	Do.
8C0083 Bronze powder	Do.
8C0079 Chromium oxide green and chromium hydroxide green.	In externally applied cosmetics, including those for use in the area of the eye.
8C0080 Graphite	Do.
8C0082 Ferric ferrocyanide	Do.

By notice published March 5, 1976 (41 FR 9584) the proposed uses of natural pearl essence, mica, and bronze powder were amended to include their additional use in all types of cosmetics subject to ingestion.

Notice is hereby given that these petitions have been further amended to include the use of the above-listed color additives in externally applied drugs.

Dated: June 13, 1977.

HOWARD R. ROBERTS,
Acting Director Bureau of Foods.

[FR Doc.77-17095 Filed 6-16-77; 8:45 am]

[Docket No. 76N-0311]

DRUG PRODUCTS CONTAINING DIPYRONE

Withdrawal of Approval of New Drug Applications

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice withdraws approval of the new drug applications (NDA's) for drug products containing dipyrone. The drug products have been used to reduce fever, but they are not shown to be safe for use.

DATE: Effective June 27, 1977.

ADDRESS: Requests for opinion of the applicability of this notice to a specific product should be directed to the Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT:

Ronald L. Wilson, Bureau of Drugs (HFD-32), Food and Drug Administration, Department of Health, Education, and Welfare, 5600 Fishers Lane, Rockville, MD 20857, (301-443-3650).

SUPPLEMENTARY INFORMATION: In a notice (FDA Docket No. 76N-0311) published in the FEDERAL REGISTER of September 3, 1976 (41 FR 37386), the Director of the Bureau of Drugs offered an opportunity for a hearing on a proposal to issue an order withdrawing approval of the NDA's for the drug products described below. The basis of the proposed action was that the drugs are not shown to be safe for use.

NDA No.	Drug name	Firm name
16-134	Narone (dipyrone) tablets	Ulmer Pharmacal Co., 1400 Harmon Pl., Minneapolis, Minn. 55403.
16-142	Pyrilgin (dipyrone)	Savage Laboratories, Inc., P.O. Box 1000, Missouri City, Tex. 77459.
16-147	Pyrilgin (dipyrone) injection	H. E. Maurry Biological Co., Inc., 6100 South Western Ave., Los Angeles, Calif. 90047.
16-152	do	Savage Laboratories, Inc.
16-155	Pyrilgin (dipyrone) tablets	Do.
16-156	do	Do.
16-158	Dimethone (dipyrone) injection	Phillips Roxanne Laboratories, Inc., Division Phillips Roxanne, Inc., 330 Oak St., Columbus, Ohio 43216.
16-159	Dimethone (dipyrone) tablets	Do.
16-160	Protemp (dipyrone) tablets	Table Rock Laboratories, Inc., P.O. Box 1968, Greenville, S.C. 29602.
16-170	Protemp (dipyrone) pediatric	Do.
16-171	Protemp (dipyrone) oral liquid	Do.
16-179	Novaldin (dipyrone) tablets	Winthrop Laboratories, 90 Park Ave., New York, N.Y. 10016.
16-180	Novaldin (dipyrone) injection	Do.
16-184	do	Gotham Pharmaceutical Co., Inc., 1240 McDonald Ave., Brooklyn, N.Y. 11223.
16-187	do	Myers-Carter Laboratories, Inc., subsidiary of Chromalloy American Corp., 5160 West Bethany Home Rd., Glendale, Ariz. 85301.
16-190	do	USV Pharmaceuticals Corp., 1 Scarsdale Rd., Tuckahoe, N.Y. 10707.
16-263	Narone (dipyrone) injection	Ulmer Pharmacal Co.

All drug products that are identical, related, or similar to a drug product named above, not the subject of an approved new drug application, are covered by the NDA's reviewed and are subject to this notice (as specified in 21 CFR 310.6). Any person who wishes to determine whether a specific product is covered by this notice should write to the Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs, at the address given above.

In response to the September 3, 1976 notice, two firms submitted requests for hearing and requests for an extension of time to file supporting data. The Food and Drug Administration denied both requests for an extension of time. One of the firms later withdrew its request for hearing. The other, Savage Laboratories, elected not to submit the supporting data and analyses that are required by 21 CFR 314.200 and, therefore, its request for hearing is denied.

No other person filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes election by such persons not to avail themselves of the opportunity for a hearing.

Winthrop Products, though not electing to request a hearing for its products, did request an extension of time to file a hearing request and submitted a published study to demonstrate the safety of dipyrone. The request for an extension of time was denied, and the study was reviewed and found not to be relevant to the safety issue on the basis of which the drug products containing dipyrone are being withdrawn.

On the basis of new evidence, not contained in the applications or not available until after the applications were approved, evaluated together with the evidence available when the applications were approved, the Commissioner of Food and Drugs finds that such drugs have not been shown to be safe for use upon the basis of which the applications were approved. Furthermore, he has determined that Savage Laboratories has failed to meet the requirements of 21 CFR 314.200 by not submitting data and analyses in support of its hearing request showing there is a genuine and substantial issue of fact requiring a hearing.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 505(e), 52 Stat. 1053, as amended (21 U.S.C. 355(e)) and under authority delegated to the Commissioner (21 CFR 5.1), the request for a hearing is denied, and approval of the NDA's providing for the drug products named above, and all amendments and supplements applying thereto, is withdrawn effective June 27, 1977.

Shipment in interstate commerce of the above-listed products or of any identical, related, or similar product, not the subject of an approved NDA, will then be unlawful.

Dated: June 7, 1977.

SHERWIN GARDNER,
Acting Commissioner of Food and Drugs.

[FR Doc.77-16779 Filed 6-16-77;8:45 am]

[Docket No. 77N-0130]

FOOD ADDITIVES

Survey and Availability of Questionnaire

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice announces the availability of a questionnaire and invites the participation of all interested parties relative to a comprehensive industry survey of the ingredients used in food. Included in this survey, which the Commissioner of Food and Drugs has contracted with the National Academy of Sciences to conduct, will be direct food additives, food colors, and certain selected items generally recognized as safe (GRAS).

FOR FURTHER INFORMATION CONTACT:

Mary Lee Metscher, Bureau of Foods (HFF-330), Food and Drug Administration, Department of Health, Education, and Welfare, 200 C St. SW., Washington, DC 20204, (202-472-5676).

SUPPLEMENTAL INFORMATION: The Commissioner is conducting a comprehensive industry survey on the use of food ingredients so that an estimate of consumer exposure to these ingredients can be made. Items to be covered in the survey include the following: direct food additives, color additives used in food, certain flavors and spices not previously surveyed in the National Academy of Sciences 1971-1972 Phase II GRAS Survey, and miscellaneous ingredients comprised principally of GRAS and/or prior-sanctioned substances for which more specific information is needed. A complete listing of all ingredients to be surveyed is on file with the Hearing Clerk (HFC-20), Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857.

The Commissioner has contracted with the National Academy of Sciences to administer the survey by providing a questionnaire to all known manufacturers and users of these ingredients. The names and addresses of these firms were located through various trade associations and other sources.

There is no intent to overlook anyone who can supply information on the use of these substances. This notice is published for the purpose of announcing this survey and informing the public that the questionnaires were sent out during the period of April 25-May 6, 1977. If anyone wishing to respond has not received a questionnaire within a reasonable time thereafter, that person should request a questionnaire from the Food and Nutrition Board, GRAS/Food Additives Survey Office (JH 224), National Academy of Sciences, 2101 Constitution Ave. NW., Washington, DC 20418, attention Mr. Durward F. Dodgen (202-389-6537) or Robert B. Bennett (202-389-6757).

The Academy will receive and process the information and provide the Commissioner with a summary of the total amounts of the specific ingredients used in food. Individual responses will be retained by the Academy and will not be provided to the FDA.

Dated: June 9, 1977.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

[Docket No. 75N-0304]

ORAL CONTRACEPTIVE DRUG PRODUCT

Revision of Physical and Patient Labeling

Correction

In FR Doc. 77-14967, appearing at page 27303 in the issue of Friday, May 27, 1977, the second line of the second full paragraph on page 27304 should read, "drug) (insert number of) patients com-".

[Docket No. 77N-0107; DESI 8278]

PHENTOLAMINE MESYLATE FOR INJECTABLE USE AND PHENTOLAMINE HYDROCHLORIDE FOR ORAL USE

Drugs for Human Use; Drug Efficacy Study Implementation; Followup Notice and Opportunity for Hearing

Correction

In FR Doc. 77-14963, appearing at page 27301 in the issue of May 27, 1977, make the following changes:

1. On page 27301, column two, the word "and" should be inserted between the words "injection" and "phentolamine" on page 27301.

2. On page 27302, column one, the figure at the beginning of the ninth line in the second paragraph should read, "310.6".

Health Care Financing Administration

OKLAHOMA HOSPITALS MEDICARE UTILIZATION REVIEW OPTION NOTICE

Oklahoma Hospitals Participation in Medicare and in a Section 1115 Utilization Review Demonstration Project Under Medicaid

Correction

In FR Doc. 77-15428 appearing at page 28002 in the issue for Wednesday, June 1, 1977, the reference to "title XVII (Medicare)" in the 12th line of the first paragraph should have been "title XVIII (Medicare)".

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Assistant Secretary for Health

NATIONAL PROFESSIONAL STANDARDS REVIEW COUNCIL

Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following Council meeting:

NAME: National Professional Standards Review Council.

DATE AND TIME: July 18, 1977 (10 a.m. to 5 p.m.), July 19, 1977 (9 a.m. to 1 p.m.).

PLACE: Auditorium (first floor), DHEW North Building, 330 Independence Avenue SW., Washington, D.C.

PURPOSE OF MEETING: The Council was established to advise the Secretary of Health, Education, and Welfare on the administration of Professional Standards Review (Title XI, Part B, Social Security Act). Professional Standards Review is the procedure to assure that the services for which payment may be made under the Social Security Act are medically necessary and conform to appropriate professional standards for the provision of quality health care. The Council's agenda will include discussion of a variety of issues relevant to the implementation of the PSRO program.

Meeting of the Council is open to the public. Public attendance is limited to space available.

Any member of the public may file a written statement with the Council before, during, or after the meeting. To the extent that time permits, the Council Chairman will allow public presentation of oral statements at the meeting.

All communications regarding this Council should be addressed to William D. Coughlan, Staff Director, National Professional Standards Review Council, Office of Quality Standards, Room 16A-09, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857, 301-443-4990.

Dated: June 10, 1977.

WILLIAM B. MUNIER,
Executive Secretary, National Professional Standards Review Council.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 748-4]

WESTSIDE TRUNK DISTRICT FACILITIES PLAN FOR BEAR CREEK VALLEY SANITATION AUTHORITY

Availability of Final Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Environmental Protection Agency has prepared a final environmental impact statement (FEIS) for the Westside Trunk District Facilities Plan for the Bear Creek Valley Sanitary Authority, Jackson County, Oregon.

The subject action is the awarding of grant funds to Jackson County for the construction of a wastewater collection system in the Westside Trunk District. The objective of this project is to provide wastewater collection to residents of the Westside Trunk District, which is located southwest of the City of Central Point.

This FEIS was transmitted to the Council on Environmental Quality (CEQ) on June 8, 1977. In accordance with CEQ's Guidelines (40 CFR 1500.11), no administrative action will be taken until thirty days after receipt of this FEIS by the Council. Copies of the FEIS are available for review and comment from: Environmental Impact Section, Environmental Protection Agency, Region X, 1200 Sixth Avenue, Seattle, Washington 98101, telephone 206-422-1595 or FTS 8-399-1595.

Copies of the FEIS are available for public inspection at the following locations:

Environmental Protection Agency, Region X, Library, 1200 Sixth Avenue, Seattle, Washington.

Environmental Protection Agency, Public Information Reference Unit, Room 2922, Waterside Mall, 401 M. Street SW., Washington, D.C.

Information copies of the FEIS are available at cost (10 cents/page) from the Environmental Law Institute, 1346 Connecticut Avenue NW., Washington, D.C. 20036. Please reference ELR No. 70721.

Copies of the FEIS have been sent to various Federal, State, and local agencies, and interested individuals as outlined in CEQ's Guidelines.

Dated: June 13, 1977.

REBECCA W. HANMER,
Director, Office of Federal Activities.

FEDERAL COMMUNICATION COMMISSION

[FCC 77-362, Docket No. 21262, CSC-167 MO0121]

JACKSON CABLE TV

Order To Show Cause

Adopted: May 26, 1977.

Released: June 8, 1977.

In re: Jackson Cable TV, Jackson, Missouri, petition for order to show cause.

1. A petition (CSC-167) has been filed by three television broadcast stations requesting that the Commission issue an order to show cause requiring that Jackson Cable TV cease and desist unauthorized carriage of three distant St. Louis network-affiliated television signals on its cable television system at Jackson, Missouri. Petitioners are Paducah Newspapers Inc., licensee of Station WPSD-TV (NBC, Channel 6), Paducah, Kentucky; Hirsch Broadcasting Company, licensee of Station KFVS-TV (CBS, Channel 12), Cape Girardeau, Missouri; and Turner-Farrar Association, licensee of Station WSIL-TV (ABC, Channel 3), Harrisburg, Illinois. An opposition has been filed by Jackson Cable TV. Petitioners have replied.

2. Petitioners are local television stations in the Cape Girardeau, Missouri-Paducah, Kentucky, Harrisburg, Illinois, major television market (No. 69). Jackson, Missouri, is located in that market. Petitoners state that Jackson is ten miles from Cape Girardeau, within the Grade A contour of WPSD-TV, and just slightly beyond the Grade A contour of WSIL-TV. Petitioners allege that Jackson Cable TV carries, without authorization and otherwise unlawfully, the signals of three network television stations from St. Louis: Television Broadcast Station KTVI (ABC, Channel 2), Station KMOX-TV (CBS, Channel 4), and Station KSD-TV (NBC, Channel 5). Moreover, petitioners allege that the carriage commenced and continues in knowing and willful violation of the Rules. Petitioners urge that carriage in such gross disregard for the Rules not only be terminated but also be punished by a reduction in the number of independent signals authorized for carriage. In conclusion, petitioners urge immediate Commission action to terminate such carriage.

3. In a subsequently filed pleading, WPSD-TV and WSIL-TV state that the cable system had acknowledged carriage of the subject signals and had been requested to remove them. Moreover, it is stated that during the weeks preceding the filing of the instant request, the cable operator made assurances that consideration was being given to dropping the

signals and asked petitioners to delay the filing of the instant request. Yet, since a petition for special relief (CSR–1093) was filed the day after the instant request was filed and such petition included a survey of subscriber preferences, it is argued that the cable system engaged in misrepresentation and deceit against petitioners to delay compliance with the Rules.

4. In its opposition, Jackson Cable TV urges that the public interest would not be served by issuance of an order to show cause. It notes that it has filed a petition for special relief (CSR–1093) and summarizes the arguments made therein. It states that, if ordered to show cause, the cable system will invoke its hearing rights.

5. In reply, WPSD–TV and WSIL–TV stress that Jackson Cable TV does not deny its unauthorized carriage of the signals. Its subsequent request for special relief is no defense. It is argued that the cable system's reasons for special relief are insufficient.

6. Hirsch Broadcasting Company, licensee of KFVS–TV, in its reply to the opposition, argues that Jackson Cable TV's petition for special relief, even if it had merit, provides no basis for past and present unlawful activity. Were the Commission to consider the pendency of a special relief proceeding to be a defense for such activity, it would, KFVS–TV urges, tacitly sanction violations of the Rules. KFVS–TV argues that the cable system is aware of the signal carriage rules, as evidenced by its application for a certificate of compliance to add a signal (CAC–4830). Disagreement with the substantive provisions of the Rules is no excuse for violation of the Rules, it argues.

7. Thereafter, KFVS–TV supplemented its reply to present a copy of a newspaper advertisement published subsequent to its reply. The newspaper advertisement is said to have appeared in the March 9, 1977, edition of "The Cash-Book Journal," a newspaper circulated in Jackson, Missouri. The advertisement urges the public to subscribe to the cable system and lists, among the signals carried, the three St. Louis network-affiliated television stations.

8. The Commission's signal carriage rules specify the television signals which may be carried by a cable television system and provide that a cable system receive a certificate of compliance prior to commencing operations or adding a television signal. Jackson Cable TV apparently commenced operations after receiving its first certificate of compliance on June 30, 1975. There appears to be reason to believe that Jackson Cable TV is carrying the signals of KTVI, KMOX–TV, and KSD–TV on its cable television at Jackson, Missouri. Moreover, it appears that Jackson Cable TV has not obtained authorization for carriage of those signals prior to commencing such carriage.[1] In view of the foregoing, a grant of the petition requesting issuance of an order to show cause would be consistent with the public interest.

[1] Indeed, in a decision recently adopted (FCC 77–340), we denied special relief to carry the signals (CSR–1093).

Accordingly, *it is ordered*, That the petition (CSC–167) filed by Stations WPSD–TV, KFVS–TV, and WSIL–TV is granted.

It is further ordered, That pursuant to Section 312(b) and (c) of the Communications Act of 1934, as amended, 47 U.S.C. § 312(b) and (c), Jackson Cable TV is directed to show cause why it should not be ordered to cease and desist from further violation of Part 76 of the Commission's Rules and Regulations on its cable television system at Jackson, Missouri.

It is further ordered, That Jackson Cable TV is directed to appear and give evidence at a hearing to be held before an Administrative Law Judge at a time and place to be specified by a subsequent order with regard to the matters described above and with regard to (1) whether it knowingly and/or willfully violated the Commission's Rules, and, if so, (2) what sanctions, if any, may be appropriate. If the hearing is waived, a written statement may be submitted.

It is further ordered, That Paducah Newspapers Inc., Hirsch Broadcasting Company, and Turner-Farrar Association are made parties to this proceeding.

It is further ordered, That the Secretary, Federal Communications Commission, shall send a copy of this Order by certified mail to Jackson Cable TV.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

AMENDMENT OF TABLE A OF THE CANADA-U.S.A. TELEVISION AGREEMENT OF 1952 (TIAS–2594)

Supplement No. 4 (To the Table of Canadian Television Channel Assignments and Allocations Within 250 Miles of the Canada-U.S.A. Border, Dated June 3, 1977, as Revised to April 12, 1977)

JUNE 7, 1977.

Pursuant to exchange of correspondence between the Department of Communications of Canada and the Federal Communications Commission, Table A of the Canada-U.S.A. Television Agreement has been amended as set forth in the attached list. It is to be noted that those representing assignments will indicate call signs plus parameters.

The allocation below has been deleted from Table A.

Location:	*Channel No.*
Pine Falls, Manitoba	11

Further additions, changes, and deletions will be issued as reported to the Commission by the Canadian Department of Communications.

Copies of the basic Table of Allocations may be obtained from Downtown Copy Center, 1730 K Street NW., Washington, D.C. 20036, telephone 202–452–1422.

FEDERAL ELECTION COMMISSION

[Notice 1977–33, AOR 1977–24]

ADVISORY OPINION REQUESTS

Pursuant to 2 U.S.C. section 437f(c) and the procedures reflected in Part 112 of the Commission's regulations, published on August 25, 1976 (41 FR 35954), Advisory Opinion Request 1977–24 has been made public at the Commission. Copies of AOR 1977–24 were made available on June 13, 1977. These copies of the advisory opinion request were made available for public inspection and purchase at the Federal Election Commission, Public Records Division, at 1325 K Street NW., Washington, D.C. 20463.

Interested persons may submit written comments on any advisory opinion request within ten days after the date the request was made public at the Commission. These comments should be directed to the Office of the General Counsel, Advisory Opinion Section, at the Commission. Persons requiring additional time in which to respond to any advisory opinion requests will normally be granted such time upon written request to the Commission. All timely comments received by the Commission will be considered before the Commission issues an advisory opinion. Comments on pending requests should refer to the specific AOR number of the requests and statutory references should be to the United States Code citations rather than to the Public Law citations.

A description of the request recently made public as well as the identification of the requesting party follows hereafter:

AOR 1977–24: May a candidate's campaign committee from the 1976 campaign transfer surplus monies to a 1978 campaign committee for the same candidate, terminate the 1976 committee, and thereafter report only for the 1978 committee? How much may contributors who "used-up" their 1976 contribution limits contribute to the 1978 campaign committee during 1977?

Requested by Representative John J. Duncan, House of Representatives, Washington, D.C.

Dated: June 13, 1977.

THOMAS E. HARRIS,
Chairman for the
Federal Election Commission.

[FR Doc.77–17330 Filed 6–16–77;8:45 am]

FEDERAL ENERGY ADMINISTRATION

ANTHRACITE COAL CONFERENCE

Conference

Notice is hereby given that an anthracite coal conference will be held Monday, June 20, 1977, at 10 a.m., Room 3000A, FEA Headquarters, 12th and Pennsylvania Avenue, NW., Washington, D.C.

The objectives of the anthracite coal conference are to make recommendations to the FEA with respect to the increased utilization of anthracite coal as a readily-available energy source and the maintenance of fair and reasonable consumer prices for such supplies.

The urgency of convening the June 20 conference stems from a priority commitment made by the President to find ways of improving coal production and utilization. In support of this commitment, Dr. Schlesinger has charged the FEA with the responsibility for studying ways to improve the production of anthracite coal. This is an essential part of meeting the proposed National Energy Plan of increasing coal production by 2/3 (over one billion tons) by 1985. It is the first important step in identifying specific measures for increasing our reliance on coal and as a result of this prototype study similar efforts concerning other types of coal can commence.

The study of the utilization of anthracite coal must be completed and presented to Dr. Schlesinger by October 1, 1977, closely coinciding with the formation of the proposed Department of Energy. As a result and in order to adequately address all of the important issues facing anthracite improvement in such a short time period, it is essential to call the conference immediately and as a result the customary advance period of notice normally given in such instances has not been provided.

The agenda for the meeting is as follows:

1. Discussion of Significant Issues of Anthracite Production and the Component Objectives of the Conference.

2. Enumeration of Proposed Working Group Alignment of Conference Participants.

3. Organizational and Operational Aspects of Conference Activities.

4. Comments from the Floor (10 minute rule).

The Conference will address itself to the policy options, but it will not be responsible for implementing programs which manifest those policies under consideration. Therefore, subsequent analysis will be required to determine the viability of programs which incorporate the concepts developed by it. If programs are eventually implemented which are designed to stimulate anthracite production the desired effect of these actions will be critically sensitive in terms of policy evaluation, program implementation, and in determining the lead time necessary to increase actual production in light of our national need to expand production of domestic energy resources.

The meeting will be open to the public. The Chairman of the conference is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the conference will be permitted to do so, either before or after the meeting.

Further information concerning this meeting may be obtained from Steven T. Minihan, Room 3524, FEA Headquarters, 12th and Pennsylvania Avenue N.W., Washington, D.C. 20461 (202) 566-7575.

Transcripts of the meeting will be available for public review and copying at the Freedom of Information Public Reading Room, Room 2107, FEA, Federal Building, 12th and Pennsylvania Avenue N.W., Washington, D.C. between the hours of 8 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Any person may purchase a copy of the transcript from the reporter.

Issued at Washington, D.C. on June 15, 1977.

ERIC J. FYGI,
Acting General Counsel.

[FR Doc.77-17578 Filed 6-16-77;8:45 am]

GUAM OIL AND REFINING CO.

Amended Notice of Proposed Consent Order

On May 25, 1977 FEA published in the FEDERAL REGISTER at 42 FR 26693 a "Notice of Proposed Consent Order" with the Guam Oil and Refining Company. Inadvertently, FEA omitted a key date until which comments on the Notice would be accepted by FEA. Pursuant to CFR 205.197(c), FEA must accept comments on proposed Consent Orders for 30 days after publication in the FEDERAL REGISTER. The Notice that appeared on May 25, 1977 failed to state that FEA would accept comments on the Guam Consent Order for the 30 days period following publication in the FEDERAL REGISTER ending on 4:30 p.m. CDT, on June 24, 1977.

Because of that omission, FEA will now accept comments on the Guam Consent Order submitted on or before 4:30 p.m., CDT on the thirtieth calendar day following the publication of this Amended Notice of Consent Order.

Issued in Washington, D.C., June 11, 1977.

ERIC J. FYGI,
Acting General Counsel.

STATE ENERGY CONSERVATION PLANS

Negative Determination of Environmental Impact Re the New Jersey Energy Conservation Plan (Correction)

With regard to the above titled FEDERAL REGISTER document numbered 77-16858, published on (date) at (page), issued by the Federal Energy Administration on Thursday, June 9, 1977, delete all text in the notice following the signature block.

The text following the signature block was erroneously appended to the notice and is unrelated to the negative determination of environmental impact regarding the New Jersey energy conservation plan.

Issued in Washington, D.C., June 14, 1977.

ERIC J. FYGI,
Acting General Counsel,
Federal Energy Administration.

[FR Doc.77-17460 Filed 6-16-7;8:45 am]

WISCONSIN PUBLIC SERVICE CO.

Issuance of Notice of Effectiveness To Make Effective Previously Issued Prohibition Order

Pursuant to 10 CFR 303.37(d), the Federal Energy Administration (FEA) hereby givse notice that on June 13, 1977, it issued a Notice of Effectiveness making effective the Prohibition Order previously issued on June 30, 1975, (40 FR 28430, July 3, 1975) to the below listed powerplant. The Notice of Effectiveness was issued under the authorities granted to FEA by Section 2 of the Energy Supply and Environmental Coordination Act of 1974, as amended, and pursuant to 10 CFR Parts 303 and 305.

Docket No.	Owner	Powerplant No.	Generating station	Location
OFU-048	Wisconsin Public Service Co.	2	Weston	Rothschild, Wis.

The Prohibition Order issued by FEA on June 30, 1975, to the above listed powerplant prohibits the powerplant from burning natural gas or petroleum products as its primary energy source. In accordance with the requirements of 10 CFR Parts 303 and 305, however, the order provided it would not become effective until FEA had considered the environmental impact of the order and until FEA had served the affected powerplant with a Notice of Effectiveness.

Subsequent to issuance of the Prohibition Order, FEA performed an analysis pursuant to 10 CFR 305.9 and 208.3, of the environmental impact of the issuance of this Notice of Effectiveness including an assessment of the EPA Notification dated April 7, 1976, pursuant to Section 119(d)(1)(B) of the Clean Air Act, that January 27, 1976, was the earliest date that this powerplant could burn coal and comply with all applicable air pollution control requirements. That analysis resulted in a determination that it is clear that issuance of this Notice of Effectiveness making this Prohibition Order effective is not a "major Federal action significantly affecting the quality of the human environment" within the meaning of Section 102(2)(C) of the National Environmental Policy Act, 42 U.S.C. 4332(2)(C). Public notice of the negative determination and of the availability for inspection of this analysis was given in the FEDERAL REGISTER published May 5, 1977, in accordance with 10 CFR 208.4(c) and 208.15(a).

Upon completion of this environmental analysis, FEA issued this Notice of Effectiveness of the June 30, 1975, Prohibition Order to the above listed powerplant and served the Notice on the powerplant by registered mail on the same day. The Notice makes effective the Prohibition Order, prohibiting the powerplant from burning natural gas or petroleum products as its primary energy source.

Any person aggrieved by the now effective Prohibition Order may file an appeal with the FEA Office of Exceptions and Appeals in accordance with 10 CFR Part 303, Subpart H. The appeal shall be filed within 30 days after June 13, 1977. There has not been an exhaustion of administrative remedies until an appeal has been filed pursuant to Subpart H of Part 303, and the appellate proceeding is completed by the issuance of an order granting or denying the appeal.

Application may be made for modification or rescission of the Prohibition Order in accordance with the provisions of 10 CFR Part 303, Subpart J. An application for modification or rescission of a Prohibition Order based on "significantly changed circumstances," which circumstances occurred during the interval between issuance of the order and service of the Notice of Effectiveness, shall be filed within 30 days of June 13, 1977. An application for modification or rescission of a Prohibition Order based on significantly changed circumstances occurring after that interval may be filed at any time after June 13, 1977.

All terms and conditions of the Prohibition Order and the Notice of Effectiveness may be the subject of either an appeal or an application for modification or rescission.

The order made effective by this Notice of Effectiveness is effective against any persons that, as of June 13, 1977, own, lease, operate, or control the above listed power-plant and against any successors-in-interest or assignees of such persons.

The above listed powerplant has been served this Notice of Effectiveness by registered mail. In addition, copies of this document will be available for inspection by any interested members of the public at the FEA public docket room located in Room B-120, 2000 M Street, N.W., Washington, D.C., from 1-5 p.m., Monday-Friday. Copies will also be available in the appropriate FEA regional office. The negative determination and environmental analyses are available upon request from the FEA National Energy Information Center, Room 1404, 12th and Pennsylvania Avenue, N.W., Washington, D.C. 20461. Copies of the documents are also available for public review in the FEA Freedom of Information Reading Room, Room 2107, 12th and Pennsylvania Avenue, N.W., Washington, D.C.

Any questions regarding this notice should be directed to the Director, Office of Coal Utilization, Federal Energy Administration, 12th Street and Pennsylvania Avenue, N.W., Washington, D.C. 20461 (202-566-7941).

Issued in Washington, D.C., June 13, 1977.

ERIC J. FYGI,
Acting General Counsel,
Federal Energy Administration.

FEDERAL MARITIME COMMISSION

[Independent Ocean Freight Forwarder License No. 1424]

ATLANTIC EXPORT CO.

Reinstatement of License

By Federal Maritime Commission Order served May 31, 1977, Atlantic Export Company's Independent Ocean Freight Forwarder License No. 1424 was revoked, effective May 27,1977, for failure to maintain a valid surety bond on file with the Commission. The Order of Revocation was published on June 3, 1977 in 42 FR 28624.

An appropriate surety bond has been received in favor of Atlantic Export Company and compliance pursuant to Section 44, Shipping Act, 1916 and § 510.9 of the General Order 4 has been achieved.

Therefore, by virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (Revised) Section 7.04(a), dated September 15, 1973, Independent Ocean Freight Forwarder License No. 1424 shall be reissued to Atlantic Export Company, effective May 27, 1977. A copy of this Notice of Reinstatement shall be published in the FEDERAL REGISTER and served upon Atlantic Export Company.

FRANCIS C. HURNEY,
Acting Managing Director.

[Docket No. 11-4; Agreements Nos. 9902-3, 9902-4, 9902-5 and 9902-6]

MODIFICATIONS OF EURO-PACIFIC JOINT SERVICE AGREEMENT

Intent To Make an Energy and Environmental Assessment

The above-referenced proceeding is an investigation to determine (1) the continued approvability of Agreement No. 9902-3, and (2) whether Agreements Nos. 9902-4, 9902-5 and 9902-6 should be approved, disapproved or modified pursuant to Section 15 of the Shipping Act, 1916.

The Commission believes that its final resolution of the issues in this proceeding may constitute a major Federal action significantly affecting the quality of the human environment as well as energy efficiency and conservation. Consequently, the energy and environmental factors involved warrant consideration and evaluation before decision making is completed.

Therefore, Notice is hereby given that the Federal Maritime Commission intends to make an energy and environmental assessment to determine whether its final decision in this proceeding will constitute a major regulatory action within the meaning of the Energy Policy and Conservation Act of 1975 or a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. Written comments regarding possible environmental and energy effects which may occur from the eventual resolution of the proceeding are invited. Such comments should be submitted within thirty days of this Order to the Secretary, Federal Maritime Commission, 1100 L Street, N.W., Washington, D.C. 20573.

Copies of discovery materials, all exhibits and all future correspondence and pleadings exchanged or filed in this proceeding shall be served on Chief, Office of Environmental Analysis, Federal Maritime Commission, 1100 L Street, N.W., Washington, D.C. 20573.

By the Commission.

JOSEPH C. POLKING,
Acting Secretary.

[FR Doc.77-17321 Filed 6-16-77;8:45 am]

[Docket No. 77-25]

AGREEMENT NO. 7540-28

Modification of the Leeward and Windward Islands and Guianas Conference Agreement; Investigation and Hearing

Agreement 7540-28 was filed for approval pursuant to Section 15, Shipping Act, 1916, on November 12, 1976. Notice of filing was published in the FEDERAL REGISTER on November 23, 1976.

The agreement modifies the basic agreement of the Leeward and Windward Islands and Guianas Conference which covers the trade between the United States Atlantic and Gulf ports and ports in Leeward and Windward Islands (excluding the Virgin Islands), Trinidad, Barbados, French Guiana, Surinam, and Guyana.

The conference, for ratemaking purposes, is divided into two sections: the Atlantic Section, covering the range of ports from Eastport, Maine, to and including Key West, Florida; and the Gulf Section, covering the range of ports west of Key West to and including Brownsville, Texas.

Agreement No. 7540-28 amends the basic conference agreement by providing for (1) the division of the present Atlantic Section into two separate sections, namely, the North Atlantic Section, covering the range of ports from Eastport, Maine, to and including Cape Hatteras, North Carolina, and the South Atlantic Section, covering the range of ports from Cape Hatteras southward to and including Key West, Florida; and (2) the establishment of an Executive Committee which shall consider matters affecting the entire trade of the conference:

The conference chairman states that the intent of the modification is to deal with serious differences in transportation conditions existing between the North and South Atlantic range ports, as well as to benefit shippers through rate structures which may more accurately reflect underlying conditions in the different port ranges.

In response to the notice of the filing of this agreement in the FEDERAL REGISTER, protests and requests for investigation and hearing were filed by the North Atlantic Ports Association, the Port Organizations in the Port of Philadelphia and the Virginia Port Authority.

The port interests allege that the division of the Atlantic Coast ports into two separate ranges, as contemplated under the proposed agreement, would contravene Section 205 of the Merchant Marine Act, 1936, and would also weaken their position in pursuing action under Sections 16 and 17 of the Shipping Act, 1916. They request that an investigation and hearing be instituted to determine whether the proposed agreement is violative of Section 205 of the Merchant Marine Act, and whether it is unjustly discriminatory or unfair as between ports, or as between shippers, exporters or importers in violation of Sections 16 and 17 of the Shipping Act.

The Commission is of the opinion that the issues raised by the protests should be made the subject of a formal investigation to determine whether Agreement No. 7540-28 should be approved, disapproved, or modified pursuant to Section 15, Shipping Act, 1916.

Therefore, it is ordered, That, pursuant to Sections 15 and 22, Shipping Act, 1916, an investigation and hearing is hereby commenced to determine whether Agreement No. 7540-28 between the members of the Leeward and Windward Islands and Guianas Conference is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers or ports, or between exporters from the United States and their foreign competitors, or detrimental to the commerce of the United States, or is contrary to the public interest, or is otherwise in violation of the Shipping Act, 1916, or is in violation of Section 205, Merchant Marine Act, 1936, and whether the agreement should be approved, modified, or disapproved pursuant to Section 15, Shipping Act, 1916.

It is further ordered, That the Proponents and Protestants listed in the appendix hereto are hereby made parties to this proceeding.

It is further ordered, That in accordance with the Rules of Practice and Procedure of this Commission (46 CFR 502.42), Hearing Counsel shall be a party to this proceeding.

It is further ordered, That this proceeding be referred for public hearing before an Administrative Law Judge of the Commission's Office of Administrative Law Judges and that the hearing be held at a date and place to be determined and announced by the Presiding Administrative Law Judge, but no later than December 9, 1977.

It is further ordered, That the hearing shall include oral testimony and cross-examination in the discretion of the Presiding Officer only upon a proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions, or other documents or that the nature of the matters in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record.

It is further ordered, That a notice of the Order be published in the FEDERAL REGISTER and that a copy thereof be served upon proponents and protestants as listed in the Appendix hereto.

It is further ordered, That persons other than those already parties to this proceeding who desire to become parties to this proceeding and to participate therein shall file a petition to intervene pursuant to Rule 72 of the Commission's Rules of Practice and Procedure (46 CFR 502.72).

It is further ordered, That all documents submitted by any party of record in this proceeding shall be directed to the Secretary, Federal Maritime Commission, Washington, D.C. 20573 in an original and 15 copies as well as being mailed directly to all parties of record.

By the Commission.

JOSEPH C. POLKING
Acting Secretary.

TULSA PORT OF CATOOSA AND TULOMA STEVEDORING, INC.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before July 11, 1977. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Harley W. Ladd, Port Director, Tulsa Port of Catoosa, 5301 West Channel Road, Catoosa, Oklahoma 74015.

Agreement No. T-3478, between Tulsa Port of Catoosa (Port) and Tuloma Stevedoring, Inc., (Tuloma), grants Tuloma the nonexclusive right to provide loading, unloading, storage, transfer, and transportation services for cargo at Port's terminal facilities. Tuloma shall provide the above services in accordance with the Port's currently published tariff. In return, Port shall receive wharfage assessments and tollage fees. The wharfage portion of this compensation is subject to a minimum annual guarantee as further provided for in the agreement. Agreement No. T-3478 is to supersede Agreement No. T-3455, between the same parties, which was noted in the FEDERAL REGISTER on April 27, 1977. The term of Agreement No. T-3478 will be for a period of eight years inclusive of the time that the parties operated under Agreement No. T-3455. Tuloma may elect to renew Agreement No. T-3478 for three additional terms of five years each.

By Order of the Federal Maritime Commission.

Dated: June 14, 1977.

JOSEPH C. POLKING,
Acting Secretary.

[FR Doc.77-17350 Filed 6-16-77;8:45 am]

FEDERAL POWER COMMISSION

[Docket No. CP77-413]

ALGONQUIN LNG, INC., ALGONQUIN GAS TRANSMISSION CO.

Application

JUNE 9, 1977.

Take notice that on May 25, 1977, Algonquin LNG, Inc. (Algonquin LNG) and Algonquin Gas Transmission Company (Algonquin Gas) 1284 Soldiers Field Road, Boston, Massachusetts 02135, filed in Docket No. CP77-413 a joint application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the receipt, storage and redelivery of approximately 419,000 bbls. of liquefied nat-

ural gas (LNG) at Algonquin LNG's Province, Rhode Island, intrastate storage facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Algonquin LNG states that it has a 600,000 bbl. capacity LNG storage tank at Providence, Rhode Island, which is currently being used, and would continue to be used, in part, for the benefit of Providence Gas Company (Providence Gas). It is further stated that the tank is in the intrastate phase, or Phase I of Algonquin LNG's terminal facilities, and an application to construct and operate the Phase II or interstate phase is pending in Docket No. CP73–139.

Algonquin LNG asserts that during the 1977–78 heating season, in would have approximately 419,000 bbls. (after allowance for tank heel) of available capacity in its LNG storage tank over and above the 174,000 bbls. of capacity which has been dedicated to Providence Gas. It is further asserted that there is liquefaction capacity and supplies of LNG in excess of LNG storage capacity during the 1977 summer season; and consequently, certain additional resale companies, including regular distributor customers of Algonquin Gas, would be able to use the available capacity in Algonquin LNG's tank to store gas for use during the 1977–78 winter. The application states that the additional storage service would permit participating resale customers to forego interruptible sales this summer and convert this gas into a supply for high priority requirements next winter.

It is stated that Algonquin LNG has entered into an agreement with The Connecticut Gas Company dated April 22, 1977, to store 90,000 bbls. of LNG, and has had discussions with several other companies which have expressed a desire to participate in the storage service but have not yet finalized the extent of their participation.

Algonquin LNG asserts that customers subscribing to the LNG storage service herein proposed would be charged a rate of $1.30 per million Btu's ($4.50 per barrel) to be paid in equal monthly installments over the period of service. It is further asserted that the term of such service would be through May 31, 1978, and that no new facilities are required to effectuate the proposal.

The application states that deliveries by a customer to the Algonquin LNG Providence storage facility would be made by truck, and redelivery would be made either in liquid form, by truck, or in gaseous phase, by pipeline.

It is further stated that redeliveries would also be accomplished in gaseous phase by displacement and Algonquin LNG would gasify the LNG and physically deliver it to Providence Gas, and Algonquin Gas, in turn, would deliver equivalent volumes on a basis which would not impair service to Algonquin Gas' other customers, to said customer by displacement. Algonquin Gas states that it proposes to charge 15.0 cents per million Btu's of gas so delivered to the customers. It is further stated that such deliveries are not expected to exceed an aggregate volume of approximately 50,000 million Btu's per day. Such redelivery of gasified LNG by Algonquin Gas, it is stated, has been agreed upon with The Connecticut Gas Company.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 27, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77–17437 Filed 6–16–77;8:45 am]

[Docket No. CP77–404]

COLORADO INTERSTATE GAS CO.

Application

JUNE 9, 1977.

Take notice that on May 23, 1977, Colorado Interstate Gas Company (Applicant), P.O. Box 1087, Colorado Springs, Colorado 80944, filed in Docket No. CP77–404 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing a revision in its annual volumetric obligations to its customers and to make revisions to service agreements with certain of its jurisdictional customers, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to:

1. Revise its total annual volumetric obligations to jurisdictional and nonjurisdictional transmission system and jurisdictional field system customers from the present level of 379,389,500 Mcf to 358,414,500 Mcf.

2. Provide seasonal service under Rate Schedule S–1 to Raton Natural Gas Company with an annual capacity volume of 44,000 Mcf and a maximum daily volume of 3,700 Mcf, and

3. Revise the maximum daily volume obligations for deliveries to Public Service Company of Colorado (Public Service) at the North Pueblo and South Pueblo delivery points.

Applicant states that since 1971 it has been working in cooperation with its customers to husband its peak day and annual supplies. Aplicant further states that with a stabilized or declining supply of gas available to it, Applicant determined that the most practical means of continuing to meet its customers' high priority residential and commercial needs is to reduce the natural gas service rendered directly or by its customers for lower priority requirements, which are in large part capable of being satisfied with alternate fuels. It is stated that in the past Applicant has been able to increase its peak day commitments to its resale customers for high priority uses by negotiating reductions in the peak day commitments to its lower priority, nonjurisdictional customers.

Applicant indicates that it advised its customers early in 1977 that its projected peak day supply availability would not permit it to increase its firm peak day commitments to any of its customers in Fiscal Year 1978. However, four of Applicant's jurisdictional transmission system customers requested increases, aggregating 3,318,000 Mcf, in Applicant's annual volumetric obligations to them to enable them to meet their residential and commercial requirements in existing service areas, it is asserted. Consequently, Applicant proposes to increase it annual volumetric obligations to four jurisdictional transmission system customers by 3,318,000 Mcf as follows:

Present and proposed annual volumetric obligations

[Volumes in million cubic feet]

Customer	Fiscal years 1976 and 1977 obligation	Increase	Fiscal year 1978 obligation
Public Service Co. of Colorado (Public Service)	117,076	2,012	119,088
Cheyenne Light, Fuel & Power Co. (Cheyenne)	12,953	698	13,651
Western Slope Gas Co. (Western Slope)	59,278	20	59,298
Northern Natural Gas Co.—Peoples Division (Peoples)	6,237	588	6,825
Total	195,544	3,318	198,862

Applicant states that its ability to increase its annual commitments to the four jurisdictional customers at this time results from (1) voluntary and negotiated reductions in Applicant's commitments to its nonjurisdictional transmission system customers which have previously taken place and (2) the reductions in the nonjurisdictional customers' natural gas requirements which have resulted from the operation of normal market mechanisms. Applicant indicates that it also proposes to decrease its annual volumetric obligation to its nonjurisdictional transmission system customers by 24,293,000 Mcf, and that this reduction recognizes the lower contractual commitments to which both Applicant and those customers have agreed as a direct result to the decline in their annual requirements. The net effect of the proposed decrease is a reduction of 20,975,000 Mcf in Applicant's total annual volumetric obligations to jurisdictional and nonjurisdictional transmission system and jurisdictional field system customers.

Applicant states that Raton Natural Gas Company (Raton), another jurisdictional customer of Applicant, has requested seasonal service under Applicant Rate Schedule S–1 with a daily demand volume of 3,700 Mcf and an annual capacity volume of 44,000 Mcf. It is stated that no increased annual volume would be required, as the requested capacity of volume would be included as part of Raton's existing annual volumetric entitlement, and that because any seasonal service volumes delivered outside the seasonal period defined in Rate Schedule S–1 (May 1–September 30) are interruptible, no additional peak day volumes would be required as a result of this proposed change, it is said. Applicant indicates that Raton's peaking service capacity volume under Applicant's Rate Schedule PS–1 is insufficient to meet the heating season's requirements, and that during the last several years, Raton has overrun its peaking service capacity volume. Applicant states that Raton is eligible for seasonal service volumes under Rate Schedule P–1. The requested demand and capacity volumes would enable Raton to take seasonal service gas at certain times, especially during the periods of the heating season, when Applicant can make such gas available on an interruptible basis because Applicant's other customers' requirements are below their contract demand level, it is said. Applicant states that by taking seasonal service gas from time to time during the heating season when Applicant can make it available on an interruptible basis, Raton could defer taking peaking service gas at those times and, in essence, conserve some of its peaking service capacity volume for periods when peak demands are generally being experienced throughout Applicant's system.

It is stated that Public Service has requested small increases in the Maximum Daily Volume obligations for deliveries at two of the seven existing delivery points on its Pueblo, Colorado, system, and that gradual shifts in the load concentration in the Pueblo area have adversely affected Public Service's operations, and the requested changes would give them more flexibility. The requested increase at the North Pueblo delivery point is from 29,000 Mcf to 31,000 Mcf and, at the South Pueblo delivery point, from 50,000 to 52,500 Mcf, it is said. Applicant states that the increased maximum delivery obligations would not enable Public Service to take more gas on any day, as its total takes are limited by its contract demand, and that no facility changes would be required.

Applicant summarizes the end use data provided by the customers as follows:

End use of additional annual entitlements

[Volumes in million cubic feet]

Customer	FPC priority 1	FPC priority 2	Total
Public Service	1,728	284	2,012
Cheyenne	406	292	698
Western Slope	20		20
Peoples		588	588
Total	2,154	1,164	3,318

It is stated that Public Service has requested an additional 2,012,000 Mcf to meet the annual requirements of residential and commercial customers added within its existing service areas. Expansion of Public Service's Leyden storage facility would provide the necessary additional peak day volume to meet these customers' projected needs, it is said.

Cheyenne has experienced substantial growth in its franchised market area, which is centered in the city of Cheyenne, Wyoming, and an additional annual volumetric entitlement of 698,000 Mcf is required to continue to serve the residential and commercial needs of this area, it is indicated. It is stated that operational and design adjustments would enable Cheyenne to meet its peak day requirements with its existing contract demand volume.

Applicant states that Western Slope has requested a minor increase of 20,000 Mcf in its annual entitlement in order to meet the residential and small commercial needs of an existing distribution customer, and that the distribution company would provide the necessary additional peak day volumes to serve its customers with its own propane-air injection plant.

Applicant indicates that Peoples' major market in the Texas Panhandle and northeastern New Mexico is made up of irrigation customers, and that Peoples has not added any new irrigation customers on that system, which is supplied by Applicant, in the last four years. Applicant further states that the existing customers are now irrigating more acreage over a longer period of time, and that as a consequence, Peoples requires an increase of 598,000 Mcf in its annual entitlement in order to continue to serve its existing customers' needs. Peoples' existing contract demand volume, which is based upon a summer peak, is sufficient to continue to meet these customers' maximum daily requirements, it is said.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 27, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with

---

[Docket No. ER77–403]

ARKANSAS-MISSOURI POWER CO.

Filing

JUNE 10, 1977.

Take notice that on May 27, 1977, Arkansas-Missouri Power Company (Ark-Mo) tendered for filing an unexecuted Letter of Agreement between the Arkansas-Electric Cooperative (Arkco) and Ark-Mo. Ark-Mo states that the agreement extends the term of its contract with Arkco dated February 15, 1963 (Ark-Mo Rate Schedule FPC No. 31) until May 31, 1978. In addition, Ark-Mo states that the Letter of Agreement provides for the sale by Ark-Mo of short-term firm power for the period between June 1, 1977 and May 31, 1978, and that revenues therefrom should be about $3,764,680. Ark-Mo requests waiver of the Commission's notice requirements so that the Letter of Agreement may be effective as of June 1, 1977.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 17, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77–17434 Filed 6–16–77;8:45 am]

the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17426 Filed 6-16-77;8:45 am]

[Docket No. CP77-406]

COLORADO INTERSTATE GAS CO.

Application

JUNE 9, 1977.

Take notice that on May 23, 1977, Colorado Interstate Gas Company (Applicant), P.O. Box 1087, Colorado Springs, Colorado 80944, filed in Docket No. CP77-406 an application pursuant to Section 7 of the Natural Gas Act for permission and approval to abandon two 1,320-horsepower compressors currently located at its Fourway Compressor Station and for a certificate of public convenience and necessity authorizing the relocation and operation of these compressors for air injection service at its Watkins Junction Regulator Station, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant indicates that its Fourway Compressor Station was constructed with eleven 1,320-horsepower compressors (14,520-horsepower) pursuant to the Commission's orders issued in Docket Nos. G-1326, G-1677, and G-2120 during the period 1950 through 1953, and that air injection facilities with a capability of 8,000 Mcf per day were installed at Watkins Junction under authority granted in an amending order dated August 6, 1973, in Docket No. CP-73-44. Applicant states that air injection is required to maintain input factor control and that air injection was authorized for thermal control of the high-Btu gas delivered by Panhandle Eastern Pipe Line Company under Applicant's Rate Schedule X-42.

It is stated that five of the eleven 1,320-horsepower compressor units at Fourway Compressor Station are dedicated to compressing field supplies connected directly to Fourway, five units are dedicated to compressing the gas stream from Applicant's Bivings Compressor Station, and one unit is used as a swing unit which can compress Fourway field supplies or the gas stream from Bivins. Applicant states that its supplies in the Fourway area of the Texas Panhandle are continually declining, and that current designs indicate that three engines can more than adequately handle the compression requirements of the field supplies connected directly to Fourway. Consequently, Applicant proposes to abandon two of the five 1,320-horsepower compressor units at the said location and relocate these units to Watkins Junction for utilization in air injection service. No abandonment or change in existing service to Applicant's customers would result because of the removal of the two compresor units, it is said.

It is stated that Applicant's gas supplies from producers in Wyoming and Northeast Colorado have a heat content of up to 1,064 Btu, with a specific gravity of about 0.64 at the inlet to Watkins Junction Regulator Station, and these parameters are not expected to change in the foreseeable future. Applicant indicates that its gas tariff requires that the input factor be maintained at plus or minus 6 percent from the specified input factor level of 1,200 in the Denver and Pueblo, Colorado, area. Applicant states that air injection capability at Watkins Junction must be increased to maintain the input factor within tariff limits and to ensure that Applicant is able to accept project supplies on its Wyoming Line. Applicant indicates that its maximum daily design overfire of 4.5 percent (1,254 input factor) is exceeded if the proposed air injection facilities are not installed, and that with the proposed air injection facilities, input factors are within design limits. Applicant states that without additional air injection it estimates that it would be necessary to reduce the relatively high-Btu Wyoming and Northeast Colorado gas delivered at Watkins Junction by approximately 3,700,000 Mcf in fiscal year 1978. To enable Applicant to control input factors, Applicant proposes to add approximately 2,640 horsepower of air compression capability at said location by relocating existing equipment.

The cost of modifying, relocating, and installing the two compressors at the Watkins Junction is $2,108,138 and modifications to existing dehydration facilities is $268,893 with the total estimated cost of facilities to be installed at said location being $2,377,031, it is said. Applicant states that the capital required for the abandonment and construction of facilities as proposed would be obtained from current funds on hand, funds from operations, short-term borrowings, or long-term financing.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 27, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commssion on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP77-101]

COLUMBIA GAS TRANSMISSION CORP.

Intention Filed by Columbia Gas Transmission Corporation To Initiate Transportation Service Utilizing Jurisdictional Facilities Without Prior Commission Approval

JUNE 10, 1977.

Take Notice that by letter dated June 1, 1977, Columbia Gas Transmission Corporation (Columbia), 1700 MacCorkle Avenue SE., Charleston, West Virginia 25314, has advised that as a result of the decline in available gas supply commencing in 1972, it has not been able to supply the full requirements of the industrial and commercial customers of its wholesale customers. Curtailment of such consumers became particularly acute during the 1976-1977 winter heating season due to colder than normal weather.

Columbia further advises that as gas supply available to industrial and commercial consumers declined in recent years, Columbia has cooperated with various Ohio industrial and commercial consumers in so-called "self-help programs." Under the latter program, Ohio consumers that either develop or purchase Ohio produced gas are to utilize the jurisdictional facilities of Columbia for moving such gas within Ohio to the Ohio facilities of these consumers. As a result of the substantial curtailment imposed by Columbia's distributors this past winter, Columbia states that Governor James A. Rhodes has encouraged the expansion of the aforementioned "self-help programs." Such expansion would involve the movement within Ohio of Ohio produced gas to the Ohio facilities of the industrial or commercial consumers through the existing facilities of Columbia located in the State of Ohio and its distribution customers.

Columbia in its June 1, 1977, letter notified the Commission that it would commence transporting on June 2, 1977, in its jurisdictional facilities natural gas produced in the State of Ohio for an industrial customer (Marion Power Shovel Company, Inc.) located in the state without first obtaining authorization to commence and continue such service from this Commission. In adition, Columbia further expressed its intention to initiate other such transportation service of Ohio produced gas developed and/or purchased by industrial and commercial consumers in Ohio.

Columbia contends that the transactions contemplated in its June 1, 1977, letter falls within the purview of *Colorado Interstate Gas Company* in Docket Nos. CP75-323 and CP75-300 (Opinion No. 777), issued on September 30, 1976, and an order issued by the Commission in *Colmbia Gas Transmission Corporation*, in Docket No. RP73-65 (PGA 75-5), issued on April 18, 1977.

Columbia contends that any such transportation undertaken by it will only be undertaken within the constraint of the following parameters:

First, any self-help transportation commitment will be on a 'best efforts" basis and subject to all existing obligations to Columbia's jurisdictional wholesale customers.

Second, Columbia will only accept into its pipeline system in the State of Ohio molecules of gas which, in Columbia's judgment, cannot leave the State of Ohio.

Third, Columbia will charge a transportation rate based on its system-wide average transportation and storage costs as reflected in its filed cost-of-service underlying its current effective FPC tariff rates.

Fourth, Columbia will retain 3.1 percent of all self-help gas delivered into its facilities for company-use purposes.

The facts tendered by Columbia are scant even with respect to the specific transportation service it has initiated for Marion Shovel on June 2, 1977. Facts relating to prospective transportation services of the nature related to herein are non-existent and provide the Commission with insufficient basis upon which to make appropriate determinations of the propriety of Columbia's proposed operations under the Natural Gas Act. The Commission further is apprehensive about affording any blanket authorization of the scope that might be necessary to enable a pipeline to undertake the transportation and operation of jurisdictional facilities contemplated herein. The proposal tendered by Columbia in its June 1, 1977, letter undoubtedly presents other factors and problems that are worthy of comment and Commission consideration. The Commission will accordingly make provisions for the submittal of comments on this matter.

Any interested person may submit to the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, not later than July 6, 1977, data, views, and comments or suggestions in writing concerning the aforementioned matters. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, 825 North Capitol Street NE., Washington, D.C. 20426, during regular business hours. The Commission will consider all such written submittals before acting on the matters herein proposed. An original and 14 conformed copies should be filed with the Secretary of the Commission. Submissions to the Commission should indicate the name, title, and mailing address of the person to whom correspondence with regard to the proposal should be addressed.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP74-87, RP74-82]

COLUMBIA GULF TRANSMISSION CO., COLUMBIA GAS TRANSMISSION CORP.

Notice of Certification of Settlement Agreement on Cost Classification and Rate Design

JUNE 10, 1977.

Take notice that on May 31, 1977, the Presiding Administrative Law Judge certified to the Commission a supplemental stipulation and agreement which purports to settle the cost classification and rate design issues in the above-captioned proceeding.

Any person desiring to be heard or to protest said settlement agreement should file comments with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, on or before July 8, 1977. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17449 Filed 6-16-77;8:45 am]

[Docket No. CP77-325]

CONSOLIDATED GAS SUPPLY CORP.

Amendment to Application

JUNE 10, 1977.

Take notice that on May 27, 1977, Consolidated Gas Supply Corporation (Applicant), 445 West Main Street, Clarksburg, West Virginia 26301, filed in Docket No. CP77-325 an amendment to its application filed in said docket pursuant to Section 7 of the Natural Gas Act so as to expand the request for certificate authorization to cover additional storage service to Texas Eastern Transmission Corporation (Texas Eastern), all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

Applicant indicates that on March 31, 1977, it filed for a limited term certificate authorizing the rendition of a three-year (beginning in 1977 and ending in 1980) storage service to Texas Eastern, and that on April 21, 1977, the Commission issued a temporary certificate to render the storage service to Texas Eastern as proposed, beginning as of April 16, 1977, consisting of a storage capacity volume of 30,000,000 Mcf and a daily demand volume of 221,400 Mcf (volume in Mcf at 14.73 psia). On the same date, Texas Eastern was issued a temporary certificate in Docket No. CP77-313 to provide 14 of its customers with a limited-term storage service of up to the capacity volume obtained from Applicant, and Algonquin Gas Transmission Company (Algonquin) received a temporary certificate in Docket No. CP77-337 to provide 14 of its customers with a limited-term storage service of up to capacity volume to be made available by Texas Eastern from the storage space obtained from Applicant, it is said.

By this amendment, Applicant proposes to expand its request for certificate authorization to cover additional storage service to Texas Eastern whereby Applicant would provide, upon a best-effort basis, an additional storage capacity volume, of 2,000,000 Mcf (volumes in Mcf at 14.73 psia) for South Jersey Gas Company (South Jersey), a customer of Transcontinental Gas Pipe Line Corporation (Transco). Applicant states that this additional storage service proposed by this amendment to Texas Eastern for South Jersey is pursuant to an additional Texas Eastern-Consolidated agreement dated April 19, 1977. These combined services consist of a storage capacity volume of 32,000,000 Mcf and a daily demand volume of 234,600 Mcf, to be rendered by Applicant upon a best-efforts basis, beginning with the 1977 summer injection period and ending with the 1979-1980 withdrawal period, and to be charged for at rates contained in its GSS Rate Schedule, it is stated.

It is stated that under the storage program as expanded, the natural gas to be delivered to Applicant by Texas Eastern and the natural gas to be returned by Applicant to Texas Eastern would be de-

livered at existing points of interconnection between the facilities of Texas Eastern and Applicant in the states of Ohio and Pennsylvania as operating conditions permit or require, and as mutually agreed to from time to time by their dispatchers. No new facilities are required to render the services proposed under the enlarged program, it is said. Applicant states that the gas to be injected into storage for South Jersey would first be delivered by Transco to Texas Eastern at an existing interconnection near Norristown, Pennsylvania, and the volumes withdrawn from storage for South Jersey would be returned to Transco by Texas Eastern at the Linden, New Jersey, interchange.

It is stated that during each of the 1977, 1978, 1979 injection periods, Texas Eastern would deliver to Applicant and Applicant would inject into storage such quantities of gas as are mutually agreed to and scheduled, on each day, by the dispatchers of Texas Eastern and Applicant, and that Applicant would use its best efforts to inject into storage the quantities of gas requested by Texas Eastern on behalf of its 14 customers involved and on behalf of South Jersey. Any carried-over inventory and the injections would not exceed at any time the combined contracted storage capacity, it is said.

It is further stated that during each of the 1977–1978, 1978–1979, and 1979–1980 withdrawal periods, Applicant would, on a best-efforts basis, deliver to Texas Eastern the contracted storage gas of the Texas Eastern customers and South Jersey, or any lessor portion desired by Texas Eastern at reasonably-constant daily rates not to exceed 234,600 Mcf; *Provided, however*, That such daily volumes may be adjusted as operating conditions permit and as mutually agreed to by the dispatcher of Applicant and Texas Eastern.

Applicant indicates that redeliveries from storage would occur ordinarily during the winter season next following the summer injection season. However, the customers may defer their withdrawals; and, in such event, the carried-over inventory and succeeding summer injection cannot exceed the contracted storage volume, it is stated.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before June 30, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. Persons who have heretofore filed need not file again.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17446 Filed 6-16-77;8:45 am]

[Docket No. ER76-45]

CONSUMER POWER CO.

Filing

JUNE 10, 1977.

Take notice that Consumers Power Company (Consumers) on May 31, 1977, tendered for filing Standard Service Agreements for wholesale for resale electric service between Consumers Power and the City of Harbor Springs, City of Marshall, City of Petoskey, Village of Chelsea, City of Portland, City of St. Louis, and the City of Coldwater, each service agreement effective on and after March 10, 1977, and with the Wolverine Electric Cooperative, Inc., effective on and after September 30, 1975. Consumers states that, on their effective dates, the above service agreements cancelled and superseded the following prior contracts: FPC Nos. 5, 7, 40, 9, 32, 17, 29, and 30 respectively and that the tariff applicable to each of the above service agreements incorporates the rates approved by the Commission in its Order Approving Settlement dated March 7, 1977, in Docket No. ER76-45.

Consumers states that the execution of each of the above Standard Service Agreements (with the exception of the agreement with Wolverine Electric Cooperative, Inc.) was performed pursuant to the terms of the Settlement Agreement approved by the Commission Order of March 7, 1977.

Consumers states that copies of the filing were served on the affected customers, their counsel and on the Michigan Public Service Commission.

Any person desiring to be heard or to protest said agreements should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before June 24, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the agreements are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17441 Filed 6-16-77;8:45 am]

[Docket No. CP77-407]

EL PASO NATURAL GAS CO.

Application

JUNE 9, 1977.

Take notice that on May 23, 1977, El Paso Natural Gas Company (Applicant), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP77-407 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for Pacific Interstate Transmission Company (Pacific), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to transport and deliver a daily quantity of natural gas equivalent to 200,000 million BTU's for Pacific on a best efforts basis utilizing such idle capacity as may otherwise exist from time to time in Applicant's interstate pipeline system facilities pursuant to a gas transmission agreement dated May 3, 1977, between Applicant and Pacific.

Applicant indicates that the gas it proposes to transport for Pacific would be bought from Northwest Pipeline Corporation (Northwest) by Pacific. It is stated that Northwest's total gas supply available to its transmission system may be greater than its total system requirements at times during the months of May through October 1977, and that such potential surplus gas supply is attributable primarily to the fact that Westcoast Transmission Company, Limited, (Westcoast) expects to have quantities of gas available for export to the United States from the Province of British Columbia during the summer months equal to its daily export authorization, as established by the National Energy Board of Canada, i.e., 809,000 Mcf per day at the Sumas import point. Since Northwest is not able to utilize the full 809,000 Mcf per day due to the summertime load distribution on its transmission system, Northwest may have available at times during the 1977 summer months more gas from Westcoast at the Sumas import point than it requires under normal operating conditions, it is said. Applicant states that Northwest intends to maximize its purchases from Westcoast at the Sumas import point and would tender any excess gas not required for system requirements, up to 200,000 million Btu's per day, for sale and delivery on a best efforts basis to Pacific. It is stated that Northwest would deliver such volumes of gas sold to Pacific to Applicant, for Pacific's account, at the point of interconnection of Applicant's and Northwest's existing facilities in La Plata County, Colorado. Applicant indicates that to the extent Northwest has volumes of natural gas available for sale to Pacific, Applicant proposes to transport and deliver such volumes received from Northwest, for Pacific's account, to Southern California Gas Company (SoCal) for a term extending from the date of initial deliveries through October 31, 1977.

Applicant states that it would accept from Northwest a daily quantity of natural gas equivalent to 200,000 million Btu's for transportation for the account of Pacific, at the interconnection of Northwest's and Applicant's existing facilities located in La Plata County, Colorado, referred to as the Ignacio receipt point. Applicant further states that it would transport, on a best efforts basis, the gas so received for Northwest from the Ignacio receipt point by means of idle capacity in its system and deliver to SoCal, at Applicant's existing delivery points to SoCal on the Arizona-California boundary near Topock, Arizona and Blythe, California, referred to as El Paso delivery points, for Pacific's account, a quantity of gas equivalent to 95 percent of the heating value contained in the transportation quantities tendered by Northwest. The 5 percent reduction represents shrinkage as a result of compressor fuel usage and gas lost or unaccounted for in the mainline transportation of said natural gas by Applicant for Pacific's account, it is said.

It is stated that Pacific would pay Applicant an initial transportation charge equivalent to the rate then in effect and reflected during the term under Applicant's Rate Schedule G sales rate schedule (or rate for comparable service) of Applicant's FPC Gas Tariff, Original Volume No. 1, less the rate in effect and reflected during the term under Rate Schedule X-1 of Applicant's FPC Gas Tariff, Original Volume No. 1, for each Mcf of natural gas delivered by Applicant to SoCal for Pacific's account. Applicant states that based upon the rates proposed to be placed into effect on June 1, 1977, under Rate Schedules G (118.54 cents per Mcf) and X-1 (98.00 cents per Mcf), the initial transportation charge would be 20.54 cents per Mcf.

It is indicated that there are conditions precedent, set forth in Article VIII, Paragraph 8.2 of the subject transportation agreement, which provide for, inter alia, tariff changes necessary to exclude the quantities of SoCal's gas supply to be transported by Applicant for Pacific's account from the operation of Applicant's curtailment provisions in effect from time to time as a part of Applicant's FPC gas tariff. It is stated that Applicant's currently effective curtailment procedures, priorities and curtailment, of the general terms and conditions of Applicant's FPC gas tariff, Original Volume No. 1, do not specifically provide for the exclusion of any new supply sources acquired by a customer when determining the quantities of natural gas each customer is entitled to receive from Applicant each day. Applicant indicates that its revised curtailment plan submitted to the Commission on November 22, 1976, in compliance with Commission Opinion Nos. 697 and 697-A, as modified by orders issued December 24, 1975, and October 15, 1976, at Docket No. RP72-6, contains curtailment procedures, to its FPC gas tariff, Original Volume No. 1, which provide for the exclusion from the curtailment provisions of any new supply sources attached by a customer after October 31, 1974. It is further indicated that said order of October 15, 1976, inter alia, affirmed such Section 11.3(e)(1), provision thus satisfying the requirement. Applicant requests that the authorization requested in the instant proceeding when issued specifically exempt the subject gas supply from the operation of Applicant's curtailment procedures.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 27, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application of no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP77-415]

EL PASO NATURAL GAS CO.

Application

JUNE 10, 1977.

Take notice that on May 27, 1977, El Paso Natural Gas Company (Applicant), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP77-415 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the retention in place of certain tap and related facilities located in Roger Mills County, Oklahoma, installed as an emergency interconnection between the systems of Applicant and Michigan Wisconsin Pipe Line Company (Mich-Wis), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is stated that Mich-Wis notified the Commission by letter dated April 25, 1977, of the commencement of a 60-day emergency exchange of up to 30,000 Mcf per day between Mich-Wis and Columbia Gas Transmission Corporation (Columbia) and the emergency transportation of such exchange gas volumes by Applicant for Mich-Wis. Applicant states that such emergency arrangements were initiated April 1, 1977, in accordance with the terms and conditions set forth in a letter agreement dated April 21, 1977, between Applicant, Mich-Wis and Columbia, and that Mich-Wis contracted for emergency natural gas supplies of up to

30,000 Mcf per day in the western Oklahoma area. Applicant indicates that Mich-Wis advised it that due to insufficient capacity in its existing southwest gathering system facilities it was unable to receive deliveries of such emergency supplies for its system requirement, and that Mich-Wis requested that Columbia and Applicant assist it in effectuating Mich-Wis' receipt of such emergency natural gas supplies. Applicant states that it would assist Mich-Wis by accepting deliveries of emergency natural gas supplies, on a best efforts basis, of up to 30,000 Mcf per day at a point of interconnection to be installed between the facilities of Applicant and Mich-Wis in Roger Mills County, Oklahoma, and to deliver such gas for Mich-Wis' account. Such emergency gas volumes have been transported by Applicant through its interstate system pipeline facilities as payback gas to Columbia for gas received by Mich-Wis from Columbia under the provisions of the Emergency Natural Gas Act of 1977, it is said.

It is stated that Applicant and Mich-Wis mutually desire to retain in place the existing interconnection facilities so that in the event that an emergency condition should occur, the immediate operational availability of the existing interconnecting facilities could provide an expeditious means of preventing a loss of gas service and possible harm to Applicant's and Mich-Wis' interstate customers as well as provide a means by which deliveries may be made to accommodate the needs of other pipeline companies entering into arrangements with Mich-Wis or Applicant.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 30, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. G-3113, et al.]

EXXON CORPORATION, ET AL.

Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

JUNE 9, 1977.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to Section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before July 1, 1977, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

FPC Form 573
Rev (6-70)

[Docket No. ER77-409]

IDAHO POWER CO.

Rate Schedule Change

JUNE 10, 1977.

Take notice that Idaho Power Company (Idaho) on May 31, 1977, tendered for filing a proposed increase in rates in Idaho's contract for sales of electric power and energy to California-Pacific Utilities Company, as filed with the Commission and designated as Idaho's Surcharge A to Supplement No. 1 to FPC Rate Schedule No. 57. According to Idaho the proposed changes would increase revenues from sales and service by approximately $334,000, based on the 12-month test period ending December 31, 1976.

Idaho indicates that the proposed rate increase is requested on an emergency basis in order to pay for extremely high priced purchase power and to track the costs of extraordinary fuel expense to permit base loading of Idaho's gas turbine. Idaho further indicates that these emergency purchases of power and fuel are caused by an extreme drought in the Company's service territory which has depleted the dependable generating capacity of Applicant's hydro system to below critical water levels. It is requested that the surcharge be placed into effect on a temporary basis with all billings on and after June 1, 1977.

Idaho states that copies of the filing were served California-Pacific Utilities Company.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 20, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties in the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-408]

IDAHO POWER CO.

Rate Schedule Change

JUNE 10, 1977.

Take notice that Idaho Power Company ("Idaho") on May 31, 1977, tendered for filing a proposed increase in rates in Idaho's contract for sales of electric power and energy to the City of Weiser, Idaho, as filed with the Commission and designated as Idaho's Surcharge A to Supplement No. 2 to FPC Rate Schedule No. 42. Idaho states that the proposed changes would increase revenues from sales and service by approximately $23,000 based on the 12-month test period ending December 31, 1976.

According to Idaho the proposed rate increase is requested on an emergency basis in order to pay for extremely high priced purchase power and to track the costs of extraordinary fuel expense to permit base loading of Applicant's gas turbine. Idaho indicates that these emergency purchases of power and fuel are caused by an extreme drought in the Company's service territory which has depleted the dependable generating capacity of Applicant's hydro system to below critical water levels. It is requested by Idaho that the surcharge be placed into effect on a temporary basis with all billings on and after June 1, 1977.

According to Idaho copies of the filing were served upon the City of Weiser.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before June 20, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77-410]

IDAHO POWER CO.

Rate Schedule Change

JUNE 10, 1977.

Take notice that Idaho Power Company (Idaho) on May 13, 1977, tendered for filing a proposed increase in rates in Idaho's contract for sales of electric power and energy to Nevada Power Company, as filed with the Commission and designated as Idaho's Surcharge A to Supplement No. 2 to FPC Rate Schedule No. 30. According to Idaho the proposed changes would increase revenues from sales and service by approximately $59,000, based on the 12-month test period ending December 31, 1976.

Idaho indicates that the proposed rate increase is requested on an emergency basis in order to pay for extremely high priced purchase power and to track the costs of extraordinary fuel expense to permit base loading of Applicant's gas turbine. Idaho further indicates that these emergency purchases of power and fuel are caused by an extreme drought in the Company's service territory which has depleted the dependable generating capacity of Applicant's hydro system to below critical water levels. It is requested by Idaho that the surcharge be placed into effect on a temporary basis with a billings on and after June 1, 1977.

Idaho states that copies of the filing were served upon Nevada Power Company.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 20, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties in the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

[Docket No. ER77-420]

IOWA-ILLINOIS GAS AND ELECTRIC CO.

Tariff Change

JUNE 10, 1977.

Take notice that Iowa-Illinois Gas and Electric Company (Applicant) on June 1, 1977, tendered for filing pursuant to § 35.13 of the Regulations under the Federal Power Act, a proposed change in its Rate Schedule WES (applicable only to Sherrard Power System, Orion, Illinois), FPC Wholesale Electric Tariff, Original Volume No. 1. Applicant indicates that the change, proposed to be effective July 1, 1977, would increase revenues from jurisdictional sales and service by $448,091 based on the 1976 test period.

Applicant alleges that the reason for the proposed increased revenues is because its operating income has declined to a level which provides an inadequate return. It further alleges that it is essential in the interest of preserving its financial integrity that its revenues and operating income be restored to a level to adequately meet the operating expenses necessary to provide good electric service and to attract the additional capital required.

According to Applicant, copies of the filing were served upon Sherrard Power System, and the Illinois Commerce Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure. All such petitions or protests should be filed on or before June 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-91 (PGA77-2a)]

McCULLOCH INTERSTATE GAS CORP.

Order Accepting For Filing and Suspending Proposed PGA Rate Increase, Initiating Hearing, and Establishing Procedures

JUNE 8, 1977.

On May 9, 1977, McCulloch Interstate Gas Corporation (McCulloch) tendered for filing a proposed PGA rate increase of 25.51 cents per Mcf to be effective April 1, 1977. The subject filing[1] is in substitution for a similar increase filed by McCulloch on February 15, 1977, and which was rejected by the Commission on March 31, 1977.

McCulloch's filing of February 15, 1977, included (1) an increase of 8.2 cents per MMBtu or $53,392 annually in its current cost of gas, and (2) a surcharge of 17.31 cents per MMBtu to recover $132,766 in deferred purchased gas costs. This filing included in the deferred account a purchase from Champlin Petroleum Company (Champlin), a large producer, at rates in excess of those on file with the Commission. The filing also included a purchase from Chinook Pipeline Company (Chinook), a small producer, at a rate in excess of the levels established in Opinion No. 770-A. As a result, the filing was rejected.

The filing of May 9, 1977, proposed the same increase, 25.51 cents per MMBtu, as that proposed in the filing of February 15th. The filing reflects both upward and downward adjustments to the rates from both Champlin and Chinook. In addition, McCulloch has made certain volume adjustments for the purchases from Chinook. Nevertheless, the overall volumes and deferred costs remain exactly the same as those claimed in the February 15th filing.

The Commission is unable to verify the adjustments proposed by McCulloch, and therefore finds that the proposed PGA rate increase has not been shown to be just and reasonable. The Commission shall suspend the increase for one day, until April 2, 1977, and shall order that a conference be held to resolve the discrepancies contained in McCulloch's filing. Further procedures as may be required following the conference shall be prescribed by the Presiding Law Judge.

The Commission orders: (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 8, 14, 15, and 16 thereof, and the Commission's rules and regulations, a hearing shall be held in this proceeding to determine the justness and reasonableness of the PGA rate increase proposed herein by McCulloch.

(B) Pending hearing and decision thereon, McCulloch's proposed PGA rate increase shall be suspended for one day, until April 2, 1977, when it shall be permitted to become effective, subject to refund.

(C) An informal conference shall be convened by the Commission staff within 30 days from the date of this order for the purpose of resolving the issues in this proceeding. Further procedures, if any, as may be required following conclusion of the conference shall be prescribed by the Presiding Law Judge upon motion by the parties to the proceeding, including the staff.

(D) A Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge pursuant to 18 CFR 3.5(d), shall be assigned to this proceeding for the purposes set forth in this order and to preside over any hearings which ultimately maye be required.

(E) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17439 Filed 6-16-77;8:45 am]

[1] Tenth Revised Sheet No. 32 to FPC Gas Tariff, Original Volume No. 1. The substitute filing does not include a revised tariff sheet, but includes revised supporting data.

[Docket No. ER77-369]

MISSOURI EDISON CO.

Tariff and Rate Schedule Changes

JUNE 10, 1977.

Take notice that Missouri Edison Company (Company) on June 1, 1977, tendered for filing a new increased FPC Electric Service Tariff to increase revenues from its Wholesale Municipal Customer by $9,673 based on the twelve-month period ended January 31, 1977.

According to the Company the proposed increase in rates is due primarily to wholesale power costs increases incurred by the Company plus increased costs of construction, capital, wages, property and payroll taxes and other similar increases in costs. The Company further states that the primary purpose of this filing is to modify its existing fuel cost adjustment clause to conform with Section 35.14 of the Commission's Regulations.

It is requested by the Company that the increased rate schedule be placed into effect on July 3, 1977, or 60 days beyond the date that the cost of service study is filed.

The Company states that a copy of the filing was served upon the City of Clarksville and the Missouri Public Service Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17453 Filed 6-16-77;8:45 am]

[Docket No. ER77-421]

MONTANA POWER CO.

Filing

JUNE 10, 1977.

Take notice that on June 2, 1977, The Montana Power Company (Company) tendered for filing a revised Exhibit A (Points of Delivery) dated October 27, 1976, and Exhibits B (Maximum Demands) dated January 3, 1975, February 13, 1976, and October 27, 1976, to its Agreement for Electric Service with Central Montana Electric Generation & Transmission Cooperative Inc. dated January 30, 1974 (Rate Schedule FPC No. 39). The Company has requested waiver of the Commission's notice requirements so that revised Exhibit B dated February 13, 1976 be made effective as of September 1, 1975, and that each of the other revised exhibits be made effective as of the date on which it was revised.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 77-17451 Filed 6-16-77;8:45 am]

[Docket No. CP77-414]

MOUNTAIN FUEL SUPPLY CO.

Application

JUNE 10, 1977.

Take notice that on May 27, 1977, Mountain Fuel Supply Company (Appli-

cant), 180 East First South Street, Salt Lake City, Utah 84139, filed in Docket No. CP77-414 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of 15.5 miles of 10-inch pipeline and appurtenant facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the facilities it proposes to be constructed, installed and operated are necessary to bring into Applicant's system new and additional supplies of natural gas needed to offset the continuing decline in deliveries from existing fields dedicated to Applicant's market area and curtailment of deliveries by Applicant's principal pipeline supplier, Northwest Pipeline Corporation. Applicant further states that at present there is one well completed in the Yellow Creek area, with the prospect of several additional productive wells being drilled in the area, and that initial deliverability from the one completed well is estimated to be in excess of 2,000 Mcf per day, with an estimated proven reserve attributable to said well of approximately 3 million Mcf. The proposed pipeline would be entering and traversing one of the most active wildcat areas in the Rocky Mountains, and pipeline routing by Applicant has been designed to give pipeline access to the substantial volume of discoverable reserves along the southern portion of the overthrust belt, while making maximum use of existing pipeline right-of-way, it is said.

Applicant proposes to construct and install approximately 15.5 miles of 10-inch diameter pipeline, together with the necessary valves, meters and ancillary facilities, extending from the Yellow Creek field area in Uinta County, Wyoming, to a tap to be constructed on Applicant's main transmission facilities in Summit County, Utah. Applicant states that for 13.7 miles of its length the proposed pipeline would parallel an existing oil pipeline and that only on the terminal ends of the pipeline route would there be minor deviations from the existing oil pipeline route in order to connect with the field and Applicant's transmission pipeline. It is stated that the estimated cost of the proposed facilities is $1,210,000, which would be financed by Applicant out of funds obtained from internal sources such as depreciation and retained earnings from treasury funds presently on hand and from short-term bank borrowings and may be required.

Applicant states that the one completed well in the Yellow Creek area is owned 75 percent by Gulf Oil Corporation (Gulf), and that Applicant has reached agreement with Gulf for the purchase of Gulf's share of the natural gas production, and is currently negotiating with Amoco and other further interest owners for the purchase of their respective shares of production on substantially the same terms. Pursuant to the gas purchase agreement dated April 30, 1977 between Applicant and Gulf rate of delivery for the take-or-pay provision of the agreement would be based on seven-day tests of deliverability to be made annually or more frequently if required by circumstances, and the price that Applicant would pay for the gas would be determined in accordance with the provisions of applicable Commission rate opinions and orders.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 30, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17444 Filed 6-16-77;8:45 am]

[Docket No. CP76-511]

NATURAL GAS PIPELINE CO. OF AMERICA

Notice of Certification of Proposed Stipulation and Agreement

JUNE 10, 1977.

Take Notice that on June 1, 1977, the Presiding Administrative Law Judge Curtis L. Wagner, Jr., certified the record in Docket No. CP76-511 and a proposed stipulation and agreement to the Commission. The proposed Stipulation and Agreement, presented by the Natural Gas Pipeline Company of America (Natural), provides for transportation, by displacement, for one year, up to 50,000 Mcf per day of natural gas for United Pipe Line Company (United) with Natural receiving the gas for United's account in Dewey and Woodward Counties, Oklahoma, and delivery of the gas to United in Vermilion Parish, Louisiana. Natural will charge 15¢ per Mcf for such service. The proposed Stipulation and Agreement further provides that Natural will refund to its customers with interest all revenues it collects from United and is permitted to retain by final order.

Copies of the subject proposed Stipulation and Agreement are on file with the Commission and available for public inspection. Any person including the parties, desiring to comment on the matters contained therein should file and comment with the F.P.C., 825 North Capitol Street, NE., Washington, D.C. 20426, on or before July 1, 1977.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17445 Filed 6-16-77;8:45 am]

NATURAL GAS PIPELINE CO. OF AMERICA

[Docket Nos. R-380, et al.]

Petition

JUNE 10, 1977.

Take notice that on May 23, 1977, Natural Gas Pipeline Company of America, 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket Nos. R-380, RP72-132, RP73-110, RP74-96, RP75-108 and RP76-106 a Petition for Continued Rate Base Treatment of Advance, requesting that the unrecovered portion of an advance payment made, pursuant to Order No. 410, 44 FPC 1142 and 410-A, 45 FPC 135, to Chevron Oil Company under an agreement dated December 12, 1970 be retained in rate base until repayment is completed but no later than March 1, 1978.

Any person desiring to be heard or to make any protest with reference to said petition should on or before June 17, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17455 Filed 6-16-77;8:45 am]

[Docket No. CP77-412]

NATURAL GAS PIPELINE CO. OF AMERICA AND INTERSTATE POWER CO.

Application

JUNE 8, 1977.

Take notice that on May 25, 1977, Natural Gas Pipeline Company of America (Natural), 122 South Michigan Avenue, Chicago, Illinois 60603, and Interstate Power Company (Interstate), 1000 Main Street, Dubuque, Iowa 52003, filed in Docket No. CP77-412 an application pursuant to Section 7(c) of the Natural Gas Act and Section 2.79 of the Commission's General Policy and Interpretations (18 CFR 2.79) for a certificate of public convenience and necessity authorizing the transportation of up to 3,000 Mcf of natural gas per day for Hawkeye Chemical Company (Hawkeye), for two years, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is stated that Hawkeye has purchased from Getty Oil Company (Getty) a quantity of natural gas estimated to be 3,000 Mcf a day to be produced from Getty's Murrell No. 1 well, Wheeler County, Texas. It is further stated that Natural would receive the subject gas for the account of Hawkeye at an existing tap connection on Natural's pipeline located in Wheeler County, Texas, and would transport and redeliver the gas on a best efforts basis to Interstate for Hawkeye's account at the existing point of interconnection between Natural and Interstate. Applicants state that no additional facilities are required to effectuate the proposed transportation service.

It is stated that Natural would retain 10 percent of the volumes received for transportation as make-up for compressor fuel and line loss and would receive from Hawkeye 36 cents per Mcf of gas delivered and transported. Interstate would bill Hawkeye an amount per Mcf delivered which would be the equivalent of its then current rate for retail sales to Hawkeye, less the amount included in said rate for what would have been the cost of such natural gas had it been purchased from Natural, it is said.

It is indicated that for the period commencing on April 1, 1977, Hawkeye would pay Getty $1.4421 per Mcf with an escalation of .9946 cents per Mcf commencing on the first day of each calendar quarter thereafter, for each Mcf of gas at 60 degrees Fahrenheit and 14.65 psia delivered hereunder, adjusted upward or downward as the heating value of the gas varies from 1,000 Btu's per cubic foot and adjusted upward for all state or federal production, severance, or similar taxes effective the date deliveries of gas are commenced hereunder.

Applicants indicate that the total end-use requirements for natural gas at the manufacturing facility at Clinton, Iowa, at which location Hawkeye would use the transported gas is as follows:

End use of natural gas consumed by Hawkeye Chemical Co.

[All volumes in thousand cubic feet at 14.73]

1977-78 period	Industrial feedstock use	Industrial process use [1]	Total	Projected curtailment [2]
April	282,873	206,501	489,374	74,663
May	296,753	195,812	492,565	82,162
June	263,976	180,700	444,676	76,825
July	274,167	198,869	473,036	86,886
August	301,939	222,881	524,820	93,318
September	229,833	180,584	410,417	68,623
October	199,310	152,825	352,135	55,959
November	288,793	240,003	528,796	[3]
December	273,287	237,661	510,948	
January	272,768	228,171	500,939	
February	255,640	204,691	460,331	
March	315,785	243,490	559,275	

[1] Process fuel, plant protection, air pollution control, and de minimus amounts for space heating.
[2] Process use remains essentially constant when curtailment forces the plant to operate at less than capacity. Therefore, substantially all curtailed volumes would have been utilized as feedstock, with a proportional reduction in process fuel as production declines.
[3] Projected curtailments past October 1977, cannot be reasonably estimated by Hawkeye's supplier at this time.

It is indicated that Interstate is curtailing deliveries to Hawkeye in response to its curtailment by its jurisdictional pileline supplier, Natural; that a gaseous fuel is required by Hawkeye in its production of fertilizer for which there exists no alternative fuel capability; and, that Hawkeye has no alternate source of natural gas.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 24, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17217 Filed 6-16-77;8:45 am]

[Docket No. ER77-417]

OHIO EDISON CO.

Tariff Change

JUNE 10, 1977.

Take notice that Ohio Edison Company (Ohio) on May 31, 1977, tendered for filing a proposed change in its FPC electric service tariff FPC No. 43; a new agreement between Ohio and Columbus and Southern Ohio Electric Company providing for emergency service, short term power, interchange power and limited term power. Ohio indicates that the new agreement supersedes a prior agreement and provides a rate for short term and limited term power approximating the cost of such service so as to make sale of such power feasible.

Ohio respectively requests waiver of the Commission's notice requirements to allow said agreement to become effective as of May 31, 1977.

Ohio states that a copy of the filing was served upon Columbus and Southern Ohio Electric Company.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.-10). All such petitions or protests should be filed on or before June 22, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17454 Filed 6-16-77;8:45 am]

[Docket No. ER77-402]

PHILADELPHIA ELECTRIC CO.

Tariff Change

JUNE 10, 1977.

Take notice that Philadelphia Electric Company ("Philly") on May 27, 1977, tendered for filing proposed changes in its Electric Service Tariff, applicable for service to the Borough of Lansdale. Philly indicates that the proposed

changes would increase revenues from jurisdictional sales and service by $2,133,-792 based on the 12 month period ending June 30, 1978.

Philly states that the purposes of the proposed rate changes are (a) to cancel Supplement No. 2 to Rate Schedule FPC No. 41, and (b) to increase rates and provide a fuel adjustment clause for future service to Lansdale.

According to Philly copies of the filing were served upon the Borough of Lansdale and the Pennsylvania Public Utility Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before June 17, 1977. Protests will be considered by the Commission in determing the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17438 Filed 6-16-77;8:45 am]

[Docket No. CP77-302]

SEA ROBIN PIPELINE CO.

Filing of Original Tariff Sheets

JUNE 10, 1977.

Take notice that on May 31, 1977, Sea Robin Pipeline Company (Sea Robin) tendered for filing as a part of its FPC Gas Tariff, Original Volume No. 2, the following tariff sheets:

Original Sheet Nos. 120 through 127-D containing Rate Schedule X-7, and,
Original Sheet Nos. 128 through 135-C containing Rate Schedule X-8

Such tariff sheets cover the sale of natural gas to Southern Natural Gas Company and United Gas Pipe Line Company at Pecan Island, Louisiana. It is proposed that such sheets become effective May 6, 1977, the date on which the emergency certificate was issued and service commenced.

Copies of these tariff sheets are being mailed to Sea Robin's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to make any protest with reference to said application, on or before June 24, 1977, should file with the Federal Power Commission, Washington, D.C., 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17431 Filed 6-16-77;8:45 am]

[Docket No. CP77-302]

SEA ROBIN PIPELINE CO.

Filing of Revised Tariff Sheets

JUNE 10, 1977.

Take notice that on May 31, 1977, Sea Robin Pipeline Company (Sea Robin) tendered for filing as a part of its FPC Gas Tariff, Original Volume No. 1, First Revised Sheet Nos. 127-D and 135-C to become effective July 1, 1977. These revised tariff sheets reflect Sea Robin's cost of gas delivered at Pecan Island, Louisiana, as of July 1, 1977 and are being filed 30 days prior to the effective date pursuant to Article IV of Rate Schedules X-7 and X-8.

Copies of the revised tariff sheets and supporting data are being mailed to Sea Robin's jurisdictional customers and interested state commission.

Any person desiring to be heard or to make any protest with reference to said application, on or before June 24, 1977, should file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17433 Filed 6-16-77;8:45 am]

[Docket No. CP77-392]

TEXAS EASTERN TRANSMISSION CORP.; TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

JUNE 9, 1977.

Take notice that on May 18, 1977, Texas Eastern Transmission Corporation (Texas Eastern), P.O. Box 2521, Houston, Texas 77001, and Transcontinental Gas Pipe Line Corporation (Transco), P.O. Box 1396, Houston, Texas 77001 (Applicants), filed in Docket No. CP77-392, a joint application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation and storage of natural gas for South Jersey Gas Company (South Jersey) for a three-year period beginning April 16, 1977 or as soon thereafter as possible and terminating on April 15, 1980, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is stated that on April 21, 1977, Texas Eastern received temporary certificate authorization to provide 14 of its customers with a limited term storage service of up to 30,000,000 Dth equivalent per year of storage space obtained from Consolidated Gas Supply Corporation (Consolidated), and that on April 21, 1977 Consolidated received temporary certificate authorization to provide the 30,000,000 Dth equivalent storage space to Texas Eastern. Applicants state that Consolidated has consented to provide an additional 2,000,000 Dth equivalent of storage space to Texas Eastern for use by South Jersey pursuant to the terms of an agreement dated April 19, 1977 for a three-year period beginning April 16, 1977 or as soon thereafter as possible and terminating on April 15, 1980.

It is stated that during each of the 1977, 1978 and 1979 injection periods Texas Eastern would deliver to Consolidated for injection into storage on a best efforts basis, such quantities of gas of South Jersey's as are mutually agreed upon, and that during each of the 1977-78 and 1978-79 and 1979-80 withdrawal periods, Consolidated would, on a best efforts basis, deliver to Texas Eastern the storage gas of South Jersey as requested at reasonably constant daily rates not to exceed 13,245 Dth. Natural gas not taken during the withdrawal period would be carried over to the next injection period and carried over inventory and the injections would not exceed at any time the allotted storage capacity of 2,000,000 Dth, it is said.

Applicants state that the gas to be injected into storage would be delivered by Transco to Texas Eastern at the existing Shippack interconnection near Norristown, Pennsylvania, and that Transco in turn would receive the gas volumes for South Jersey during the withdrawal period from Texas Eastern at the Linden, New Jersey interchange. Applicants further state that no new facilities are required to render the proposed service. It is stated that Transco would charge initially 9.55 cents per Dth for its transportation service; this charge is equivalent to the charge of 9.75 cents per Mcf (14.7 psia) which Transco utilized for all similar services prior to conversion of its rates to reflect a heat value unit of measurement.

It is stated that Texas Eastern would store and transport the storage quantities for South Jersey on the basis of its Interim Storage Service tariff sheets (ISS), and that the transportation and storage rate that Texas Eastern proposed to charge under the ISS Rate Schedule is a composite of Consolidated's GSS storage service charge, and a charge for transportation equal to the in-zone rates under Texas Eastern's TS rate schedule. The demand rate, space rate, injection rate, and withdrawal rate are all charged to Texas Eastern on the basis of Consolidated's GSS rate which, when adjusted for shrinkage, is passed directly on to South Jersey, it is said. Applicants state that under the term of the proposed ISS rate schedule, Texas Eastern would provide during the withdrawal period of each contract year, quantities of natural gas from South Jersey's storage inventory not to exceed the Maximum Daily Withdrawal Quantity (MDWQ) which is the maximum quantity of interim storage service gas that Texas Eastern is obligated to withdraw from storage for South Jersey on any day less 6 percent which is to be retained by Texas Eastern for fuel and other company use. The rate to be charged South Jersey is equal to the rate for excess withdrawal gas which is the in-zone transportation rate based on the DCQ 100 percent load factor rates less gas purchase and fuel cost, plus the GSS withdrawal charge of 1.0 cent adjusted for shrinkage, it is said.

Applicants assert that under the terms of the proposed service to be provided, South Jersey would be able to store natural gas supplies during the low demand summer months for use during the high demand winter season, eliminating some of the adverse effects of curtailments that have been so wide spread during this past heating season.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 27, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17429 Filed 6-16-77;8:45 am]

[Docket No. ID-1598]

WILLIS S. WHITE, JR.

Application

JUNE 9, 1977.

Take notice that on April 28, 1977, Willis S. White, Jr., Chairman of the Board and Chief Executive Officer, American Electric Power Company, Inc., filed an application pursuant to Section 305 (b) of the Federal Power Act to hold the following positions:

President, Appalachian Power Co., Public Utility.
President, Indiana and Michigan Electric Co., Public Utility.
President, Indiana and Michigan Power Co., Public Utility.
President, Kanawha Valley Power Co., Public Utility.
President, Kentucky Power Co., Public Utility.
President, Kingsport Power Co., Public Utility.
President, Michigan Power Co., Public Utility.
President, Ohio Electric Co., Public Utility.
President, Ohio Power Co., Public Utility.
President, Wheeling Electric Co., Public Utility.
President, Beech Bottom Power Co., Public Utility.
President, Ohio Valley Electric Corp., Public Utility.
President, Indiana-Kentucky Electric Corp., Public Utility.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 1, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-17442 Filed 6-16-77;8:45 am]

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-77-458]

Office of Assistant Secretary for Housing—Federal Housing Commissioner

THERMAL INSULATION STANDARDS

Revision to HUD's Minimum Property Standards

AGENCY: Department of Housing and Urban Development.

ACTION: Revision to HUD Minimum Property Standards.

SUMMARY: This notice revises the thermal insulation criteria of the Minimum Property Standards for One- and Two-Family Dwellings. The MPS define the minimum level of quality acceptable for single family residences designed and constructed under HUD programs. In 1975 the American Society of Heating, Refrigerating and Air-Conditioning Engineers completed a thermal insulation standard for the National Conference of States on Building Codes and Standards. HUD initiated this revision to recognize the ASHRAE standard and to permit its optional use where the results are equivalent to those obtained by using MPS. Thus, the revision makes the MPS more flexible and permits the use of certain construction methods and materials.

EFFECTIVE DATE: May 1, 1977.

FOR FURTHER INFORMATION CONTACT:

Mervin Dizenfeld, Mechanical Engineer, Standards Branch, Architecture and Engineering Division, Office of Technical Support, Department of Housing and Urban Development, Washington, D.C. 20410. (202–755–6590).

SUPPLEMENTARY INFORMATION: These thermal insulation requirements were revised last in 1973 when they were made more restrictive in response to the Department's commitment to energy conservation. The primary purpose of this revision is to make the standards more flexible. It also responds to previous criticism that the MPS place no limit on the use of glass by limiting glazing to an area of 15 percent of the exterior wall unless the ASHRAE formula is used. There is no significant difference between the final notice and the proposal.

Thirty-one comments were received in response to the propsed changes.

DISCUSSION OF MAJOR COMMENTS

Some asked the reason for not identifying the edition or year of federal specifications mentioned in the change. As stated in paragraph 500–1 of the MPS, the current edition of any referenced standard or specification is intended unless stated otherwise.

Other questioned our contention that ASHRAE Standard 90–75 has been adopted by several states. We agree the statement was exaggerated or at least premature.

Our limiting the glass area of a residence to 15 percent of the exterior walls enclosing heated space was criticized. However, the figure is liberal, based on the experience encountered with Federal Housing Administration mortgage insured properties. Also the standard permits trade offs to attain equal thermal values when larger glass areas are desired.

A few commenters asked the reason for increasing the maximum acceptable U value of glass from .65 to .69. The former figure was too restrictive; it did not permit use of single strength thermal windows.

The absence in paragraph 501–3.4a of the smoke development classification for foam plastic was noted. It was not given because it is covered in the federal specification referenced in the paragraph.

IMPACT STATEMENTS

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 was made in accordance with HUD procedures. In addition, a Finding of Inapplicability of inflation impact statement requirements was made in accordance with HUD procedures. These Findings of Inapplicability prepared in connection with the Proposed Rule are applicable to this final action, and copies of such Findings may be inspected in the Office of the Rules Docket Clerk, Office of the Secretary, Room 10141, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Accordingly, the thermal insulation requirements for construction of single family residences are amended as shown by the following change to the Minimum Property Standards for One- and Two-Family Dwellings.

(Sec. 7(d) of the Department of HUD Act (42 U.S.C. 3535(d)).)

Issued at Washington, D.C., May 9, 1977.

MORTON BARUCH,
Acting Deputy Assistant Secretary for Housing—Federal Housing Commissioner.

507–3 Building insulation.

507–3.1 Materials used for insulation shall be of proven effectiveness and adequate durability to assure that required design conditions concerning heat losses, sound control or fire rating are attained. Insulation in contact with the ground shall not be adversely affected by soil, vermin, or water.

507–3.2 *Labeling.*—Labeling of insulation shall be as follows:

a. Batt or Blanket. Type, manufacturer, or distributor, R value of the fiber at the labeled thickness.

b. Reflective. Type, manufacturer, R value for direction of heat flow, type of facing.

c. Blowing or Pouring Type for Use in Open Horizontal Areas (Attics). Name, manufacturer, recommended installation density, R value, marking on bag of conformance with FS HH–I–1030 or HH–I–515.

d. Labeling and marking of all other insulation materials shall comply with the appropriate standard listed in Appendix C.

507–3.3 *Certification.*—A certification card giving the data of 507–3.2 a, b, c, or d plus date of installation, and the name of the installer shall be affixed to the structure in an accessible but inconspicuous location.

507–3.4 *Conditions of Use.*—a. Foam plastic insulation surfaces shall have a flame spread rating of 0–75 tested in accordance with ASTM E84. In habitable and nonhabitable areas such as utility rooms, garages and basements, foam plastic insulation shall be installed within the cavity of a masonry wall or shall be covered and protected by an interior finish material having a finish rating of at least 15 minutes as ½ in. gypsum wall board.

b. When blown or poured type of insulation is installed in attics, caution shall be exercised to assure complete and adequate application of insulation. When eave vents are installed, adequate baffling must be provided so as to deflect the incoming air above the surface of the insulation. Baffles shall be installed prior to insulation, shall be of durable material and shall be installed over the exterior wall at an angle to provide a 2 in. clearance under the roof deck for upward flow of ventilation air to the fixed vents in the upper portion of the attic.

607–3 Building insulation.

607–3.1 *General.*—Insulation of buildings shall be such as to assure conservation of energy, economy of operation and comfort to the occupants.

607–3.2 *Overall Coefficient of Heat Transmission.*—a. All buildings which are heated or cooled mechanically shall be constructed to comply with the maximum U values shown in Tables 6–7.1, 6–7.2 and 6–7.3. U values shown do not include adjustments for framing in walls, ceilings or floors, nor for the sash frame in windows or glass doors.

b. Where the stated U value of any one component of roof deck, ceiling, wall or floor cannot be practically obtained, such U value may be increased to the minimum figure attainable and the U value for other components decreased until the overall heat gain or heat loss does not exceed the total resulting from conformance to the stated U values.

607–3.3 *Roof Decks, Ceilings, Walls and Openings.*—a. For roof decks, ceilings, walls and door and window openings, U values shall not exceed those shown in Table 6–7.1.

b. As an alternative, dwellings which conform to paragraphs 4.1 through 4.3.–2.2.1 of ASHRAE Standard 90–75, Energy Conservation in New Building Design, shall be considered to be in conformance with Table 6–7.1. Attached and semi-detached or row-type dwellings shall be considered A–1 type dwellings when using this alternative.

TABLE 6–7.1.—*Maximum U values of ceilings, walls, and openings*

Building component	Winter degree days (65 F base)			
	2,500 or less	2,501 to 4,500	4,501 to 8,000	8,000 or more
Roof deck [1]	[2] 0.14	0.08	0.08	0.08
Ceiling	.05	.05	.05	.04
Masonry walls	.10	.10	.10	.10
Frame walls	.08	.08	.08	.08
Doors and windows [3]	1.13	.13	.69	.69

[1] Roof/ceiling assemblies, in which the finished ceiling surface is the underside of the roof deck.
[2] When mechanical cooling is proposed, use 0.08.
[3] Maximum glass area shall not exceed 15 pct of the gross area of all exterior walls enclosing heated spaces, except when demonstrated that the winter daily solar heat gain exceeds the 24 hr heat loss.

607–3.4 *Floor Sections.*—For floors of heated spaces over unheated basements, unheated garages or unheated crawl spaces the U value of floor section shall not exceed the value shown in Table 6–7.2.

TABLE 6–7.2.—*Maximum U value of floor sections over unheated basements, unheated garages, or crawl spaces (1)*

Winter degree days (65° F base):	Maximum U value (2)
500 or less	0.36
1,000	.32
2,000	.26
3,000	.19
4,000	.12
4,501 or more	.08

Notes.—(1) A basement, crawl space, or garage shall be considered unheated unless it is provided with a positive heat supply to maintain a minimum temperature of 50° F. Positive heat supply is defined by ASHRAE as "heat supplied to a space by design or by heat losses occurring from energy-consuming systems or components associated with that space."

(2) For increments between degree days shown, U values may be interpolated, or the values shown in fig. 5 of ASHRAE 90–75 may be substituted.

607–3.5 *Basement or Crawl Space Foundation Walls.*—Insulation may be omitted from floors over heated basement areas or heated crawl spaces if foundation walls are insulated. Foundation walls of heated areas below grade need not be insulated except where habitable rooms are provided or where 50 percent of the wall is exposed to outside air. The U value of foundation wall sections shall not exceed the value shown in Table 6–7.3 except where the alternative method, shown in 607–3.3b, is employed and foundation walls are included in the determination of the average thermal transmittance of the gross wall area.

TABLE 6–7.3—*Maximum U values of the foundation wall sections of heated basement or heated crawl space*

Winter degree days (65° F base):	Maximum U value
2,500 or less	[1]
2,501 to 4,500	0.34
4,501 or more	.17

[1] No requirement.

607–3.6 *Crawl Space Plenum Walls.*—When a crawl space is used as a supply or return plenum, the crawl space perimeter wall shall be insulated to provide a maximum heat loss of 35 Btuh per lineal ft of perimeter wall assuming a crawl space air temperature of 70 F for return plenums and 110 F for supply plenums.

607–3.7 *Slab-on-Grade Floors.*—For slab-on-grade floors of heated or mechanically cooled spaces, the thermal resistance of the insulation around the perimeter of the floor shall be not less than shown in Table 6–7.4. Insulation shall extend downward from the top of the slab for not less than 24 in. or downward to the bottom of the slab and horizontally beneath the slab for a minimum total distance of 24 in.

TABLE 6–7.4.—*Minimum R values of Perimeter insulation for slabs-on-grade*

Winter degree days (65 F base)	Minimum R value [1]	
	Heated slab	Unheated slab
800 or less	2.8	
1,000	3.5	
2,000	4.0	
2,500	4.4	2.5
3,000	4.8	2.8
4,000	5.5	3.5
5,000	6.3	4.2
6,000	7.0	4.8
7,000	7.8	5.5
8,000	8.5	6.2
9,000	9.2	6.8
10,000 or greater	10.0	7.5

[1] For increments between degree days shown, U values may be interpolated, or the values shown in fig. 2 of ASHRAE 90–75 may be substituted.

OREGON

Order Providing for Opening of Public Lands

Correction

In FR Doc. 77–14168 appearing at page 25537 in the issue of Wednesday, May 18, 1977 in the first column, under the heading "Willamette Meridian" the thirteenth line should be corrected to read as follows:

"T. 29 S., R. 16 E".

Geological Survey

STANDARDS FOR OCS PLATFORM DESIGN

Notice of Intent

Notice is hereby given that the U.S. Geological Survey intends to develop a document setting forth the various codes, specifications, standards, and recommended practices to be used as a basis for approval of the design of offshore oil and gas platforms. This document will be used in conjunction with the U.S. Geological Survey's program for the verification of oil and gas platforms to be installed on the Outer Continental Shelf (OCS).

Comments are solicited as to the content of the document and suggestions as to its development. Such comments should be submitted prior to July 15, 1977, to Acting Chief, Conservation Division, U.S. Geological Survey, Mail Stop 600, 12201 Sunrise Valley Drive, Reston, Virginia 22092.

A report on this subject by the Marine Board, Assembly of Engineering, National Research Council, entitled Verification of Fixed Offshore Oil and Gas Platforms, was prepared at the request of the U.S. Geological Survey and is available from the above address.

V. E. MCKELVEY,
Director.

UTAH

Known Geothermal Resources Area

Pursuant to the authority vested in the Secretary of the Interior by Sec. 21(a) of the Geothermal Steam Act of 1970 (84 Stat. 1566, 1572; 30 U.S.C. 1020), and delegations of authority in 220 Departmental Manual 4.1 H, Geological Survey Manual 220.2.3, and Conservation Division Supplement (Geological Survey Manual) 220.2.1 G, the following described lands are hereby defined as a known geothermal resources area, effective September 1, 1976:

(44) UTAH.—ADDITION TO COVE FORT-SULPHURDALE KNOWN GEOTHERMAL RESOURCES AREA

SALT LAKE MERIDIAN

T. 24 S., R. 7 W.,
Secs. 11, 13, 22, 26, and 27.

The area described aggregates 3,200 acres (1,295 ha) more or less.

Dated: May 23, 1977.

GEORGE H. HORN,
Conservation Manager, Central Region.

DEPARTMENT OF LABOR

Employment and Training Administration

BARHARDT FARMS; INC. ET AL.; EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS UNDER THE RURAL DEVELOPMENT ACT

Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 U.S.C. 1924(b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enter-

prises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75. In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.

2. Employment trends in the same industry in the local area.

3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.

4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).

5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding these applications are invited to submit such information in writing within two weeks of publication of this notice to: Deputy Assistant Secretary for Employment and Training, 601 D Street NW., Washington, D.C. 20213.

Signed at Washington, D.C., this 13th day of June 1977.

ERNEST G. GREEN,
Assistant Secretary for Employment and Training.

Applications received during the week ending June 10, 1977

Name of applicant	Location of enterprise	Principal product or activity
Barnhardt Farms, Inc	Urbanna, Va	Duck processing.
Teddy Bears Campground, Inc	Sigel, Pa	A recreational vehicle park.
Evis Development Co	York County, S.C	Marine mammal and aquarium facility.
Eaton Corp. (tenant of city of Hendersonville).	Fletcher, N.C	Manufacture of transmissions, drive axles, and electric drive units for industrial trucks.
North Eastern Design, Inc. (tenant of village of Gresham).	Gresham, Wis	Engineering design and developmental.
Grain Investors Group	Hungerford, Tex	Grain elevator-dryer-storage facility.
John L. McCloud, and Gene McCloud	Grand Island, Nebr	Motel.
B & B Chemical Co	Eldridge, Wheatland, and Durant, Iowa.	Farm supply and service center.
The Navajo Tribe/Office of Program Development.	Window Rock, Ariz	Commercial shopping center.

Employment and Training Administration

ECONOMIC STIMULUS PACKAGE ALLOCATIONS UNDER TITLES II AND VI OF THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT ("CETA")

Allocations for FY 1977 and 1978

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

SUMMARY: This notice lists the proposed allocations of discretionary funds under Titles II and VI of the Comprehensive Employment and Training Act pursuant to the regulations of 29 CFR 99.2 and 29 CFR 96.2. The funds included in this notice are part of the Economic Stimulus Appropriation already announced to the public on May 10, 1977. This notice does not contain new funds. The purpose of this notice is to afford the public the opportunity to comment on the discretionary portion of that distribution before the discretionary distribution is finalized:

FOR FURTHER INFORMATION CONTACT:

Albert J. Angebrânndt, Administrator for Administration and Management, Room 4000, 601 D Street, N.W., Washington, D.C. 20213, telephone 202-376-7563.

DATES: Pursuant to Section 14 of Pub. L. 94-444, the proposed distribution which follows is published for the purpose of receiving public comment for 30 days from the date of this publication. You are asked to address your comments in writing to Albert J. Angebranndt, Administrator for Administration and Management, Room 4000, 601 D Street, N.W., Washington, D.C. 20213.

SUPPLEMENTARY INFORMATION: This notice has been prepared under the direction and control of Albert J. Angebranndt, Administrator for Administration and Management, Employment and Training Administration. This notice lists proposed allocations separately for Title II and Title VI discretionary funds under the Economic Stimulus Appropriation.

The Title II discretionary funds were distributed among eligible applicants in accordance with the number of unemployed residing in areas of substantial unemployment within the jurisdiction of the applicant compared to the number of unemployed residing in all such areas. The determination of eligible applicants was made pursuant to Section 204 of the Comprehensive Employment and Training Act of 1973 as amended (CETA). This method of distribution was chosen by the Secretary in order to take into account the severity of unemployment.

The Title VI discretionary funds were distributed among eligible applicants by the 3-part formula contained in Section 603(a) of CETA.

Specifically, the 3-part formula calls for distribution to be made according to the following:

(1) Fifty percent be distributed among eligible applicants in proportion to the relative number of unemployed persons who reside in areas within the jurisdiction of the applicant as compared to the number of unemployed persons nationwide.

(2) Twenty-five percent be distributed among eligible applicants in accordance with the number of unemployed residing in areas of substantial unemployment within the jurisdiction of the applicant compared to the number of unemployed in areas of substantial unemployment nationwide.

(3) Twenty-five percent be distributed among eligible applicants on the basis of the relative excess number of unemployed persons who reside within the jurdisdiction of the applicant compared to the total excess number of unemployed person who reside within the jurisdiction of all eligible applicants.

The determination of eligible applicants for Title VI funds was made pursuant to Sec. 602(e) of the "Emergency Jobs and Unemployment Assistance Act of 1974" as amended. This method of distribution was chosen by the Secretary as appropriate in order to carry out the purposes of the economic stimulus appropriation.
